

CONTENTS OF VOLUME 72, No. 2, 1959

(All rights reserved)

	PAGE
Studies in detoxication. 79. The metabolism of <i>cyclo</i> [¹⁴ C]hexane and its derivatives. By T. H. ELLIOTT, D. V. PARKE and R. T. WILLIAMS	193
Haemorrhage and tissue electrolytes. By E. M. WIDDOWSON and D. A. T. SOUTHGATE	200
The effect of chlorpromazine on the respiratory chain. Cytochrome oxidase. By M. J. R. DAWKINS, J. D. JUDAH and K. R. REES	204
Acetylcholinesterase in goldfish muscles. Studies on some substrates and inhibitors. By S. J. LUNDIN	210
An unusual property of thyroxine and other iodophenols. By J. R. TATA	214
A new aspect of the interaction between thyroxine and proteins. By J. R. TATA	222
The translocation of antibiotics in higher plants. 3. The estimation of griseofulvin relatives in plant tissue. By S. H. CROWDY, A. P. GREEN, J. F. GROVE, P. McCLOSKEY and A. MORRISON	230
The translocation of antibiotics in higher plants. 4. Systemic fungicidal activity and chemical structure in griseofulvin relatives. By S. H. CROWDY, J. F. GROVE and P. McCLOSKEY	241
The metabolism of glycerol in <i>Mycobacterium butyricum</i> . By N. L. EDSON, G. J. E. HUNTER, R. G. KULKA and D. E. WRIGHT	249
Enzymic studies of X-irradiated cornea and lens with special reference to glutathione reductase. By R. E. KUHLMAN and R. A. RESNIK	261
Cerebral metabolism in the sheep. 1. Normal sheep. By B. P. SETCHELL	265
Cerebral metabolism in the sheep. 2. Irreversible hypoglycaemic coma. By B. P. SETCHELL	275
Studies on phospholipids. 5. The separation of dinitrophenylated and methylated phospholipids by countercurrent distribution. By F. D. COLLINS	281
Molecular structure of glycogens isolated from the livers of foetal animals. By F. L. WARREN and M. WHITTAKER	288
The occurrence of methylated guanines in ribonucleic acids from several sources. By J. D. SMITH and D. B. DUNN	294
Degradation of the hyaluronic acid complex of synovial fluid by proteolytic enzymes and by ethylenediaminetetra-acetic acid. By A. G. OGSTON and T. F. SHERMAN	301
Factors influencing the incorporation of amino acid into the protein of microsome and mitochondria preparations of rat liver and liver tumour. By O. GREENGARD and P. N. CAMPBELL	305
A quantitative method for the separation of thyroid hormones and related compounds from serum and tissues with an anion-exchange resin. By V. A. GALTON and R. PITT-RIVERS	310
Thyroid-hormone metabolism in the kidney. By V. A. GALTON and R. PITT-RIVERS	314
The identification of the acetic acid analogues of thyroxine and tri-iodothyronine in mammalian tissues. By V. A. GALTON and R. PITT-RIVERS	319
The biosynthesis of polyacetylenes. 2. Origin of the carbon atoms. By J. D. BU'LOCK and H. GREGORY	322
The amide and carboxyl groups of bacitracin A. By D. L. SWALLOW and E. P. ABRAHAM	326
Studies in the biochemistry of micro-organisms. 106. Metabolites of <i>Alternaria tenuis</i> auct.: the structure of tenuazonic acid. By C. E. STICKINGS	332
Oligosaccharide synthesis in the banana and its relationship to the transferase activity of invertase. By R. W. HENDERSON, R. K. MORTON and W. A. RAWLINSON	340
Fungal detoxication. 4. Metabolism of 2-methoxynaphthalene by <i>Aspergillus niger</i> . By R. J. W. BYRDE, D. F. DOWNING and D. WOODCOCK	344
The mechanism of ficin-catalysed reactions. By B. R. HAMMOND and H. GUTFREUND	349
The effects of adenosine triphosphate on the mechanical properties of surface films of L-myosin and actomyosin. By D. F. CHEESMAN, M. M. KEELER and O. STEN-KNUDSEN	357
The copper content and cytochrome oxidase activity of tissues from normal and swayback lambs. By J. McC. HOWELL and A. N. DAVISON	365

Proceedings of the Biochemical Society

	PAGE
Ultraviolet fluorescence of proteins. By F. W. J. TEALE and G. WEBER	15 P
Polarization of the ultraviolet fluorescence and electronic energy transfer in proteins. By G. WEBER and F. W. J. TEALE	15 P
On the intramolecular location of deoxyribonucleotides incorporated into deoxyribonucleic acid by extracts of ascites tumour cells. By E. D. GRAY and R. M. S. SMELLIE	16 P
Net synthesis of deoxyribonucleic acid by extracts of ascites tumour cells. By R. M. S. SMELLIE, H. M. KEIR, E. D. GRAY, D. BELL, J. RICHARDS and J. N. DAVIDSON	17 P
Enzymic formation of deoxyribonucleoside triphosphates. By H. M. KEIR	17 P
Patterns of oxidative assimilation in <i>Sarcina lutea</i> . By B. BINNIE, W. H. HOLMS and E. A. DAWES	17 P
Interaction between pyridoxal phosphate and amino acids. By H. K. KING and N. LUCAS	18 P
Aryl sulphamate synthesis. By A. B. ROY	19 P
Photosynthetic uptake of labelled carbon dioxide by sub-cellular components of spinach leaves. By V. MOSES, O. HOLM-HANSEN, N. G. PON, K. NISHIDA and M. CALVIN	19 P
The possible conversion of fat into carbohydrate in the obese human. By G. L. S. PAWAN	20 P
Stimulation of liver acid phosphatase activity following the parenteral injection of excessive doses of iron. By L. GOLBERG, L. E. MARTIN, C. M. BATES and A. BATCHELOR	20 P
Succinyl group-translocation through the plasma membrane of <i>Micrococcus lysodeikticus</i> . By P. MITCHELL and J. MOYLE	21 P
The effect of isoniazid, propamidine, pentamidine and carbutamide on the growth and transaminases of <i>Escherichia coli</i> . By R. M. HICKS	22 P
Purification of growth hormone from pig pituitaries. By J. H. OTTAWAY	22 P
Purification and properties of a proteinase from <i>Bacillus cereus</i> NCTC 945. By D. N. SALTER	23 P
Hypersensitivity of the visual cell to iodoacetate. By C. N. GRAYMORE	23 P
Amino acid incorporation into proteins of isolated rat-liver mitochondria. By P. J. REIS, J. L. COOTE and T. S. WORK	24 P
An apparatus for incubating tissue slices <i>in vitro</i> . By J. H. OTTAWAY, A. K. HUGGINS and J. MARTIN	25 P
