**JULY 1973**  
**Vol. 1, No. 4**

**Managing Editor**  
**R. B. BEECHEY**

**Biochemical Society Transactions.** This journal contains extended unedited reports of the formal presentations of data and comments communicated to the Biochemical Society at Meetings and Colloquia organized either by the Society or by the Groups of the Society. It is not a journal for the direct reporting of biochemical data. However, short reviews that survey important areas of biochemistry will be considered, but authors should consult the Managing Editor of *Biochemical Society Transactions* before preparing such articles.

Communications to be published in *Biochemical Society Transactions* should be prepared to the instructions printed in the current copy of the Agenda Papers. The general requirements for presentation will be similar to those of the *Biochemical Journal*. Should any problems arise concerning the preparation of papers for *Biochemical Society Transactions*, authors are recommended to use the 'Policy of the Journal and Instructions to Authors' [*Biochem. J.* (1973) **131**, 1-20] as a general guide. SI symbols for units will be used [see *Pure Appl. Chem.* (1970) **21**, 1-44; *Quantities, Units & Symbols* (1971) The Royal Society, London].

**Back numbers and lost copies.** Enquiries for back numbers and claims regarding issues lost or damaged should be addressed to:

Biochemical Society (Publications),  
P.O. Box 32,  
Commerce Way,  
Whitehall Road Industrial Estate,  
COLCHESTER CO2 HP8

No claims can be considered if they are received later than three months after the date of posting of *Transactions*.

**Advertisements.** Applications for advertising space should be sent to the Advertising Department, The Biochemical Society, 7 Warwick Court, London WC1R 5DP [01-242 1076 (4 lines)]. Copy is required eight weeks before publication date. Rate cards are available on request.

**The Biochemical Society** exists to advance the science of biochemistry through meetings and publications. Eleven meetings a year are held, each at a different place; original papers are presented and special topics are discussed at symposia and colloquia.

Persons interested in biochemistry are eligible for election as Members. Details of further facilities accorded to Members, and forms of application for membership, are available from the Executive Secretary, The Biochemical Society, 7 Warwick Court, London WC1R 5DP [Telephone 01-242 1076 (4 lines)].
