

BIOCHEMICAL SOCIETY SYMPOSIA No. 46

Mobility and Migration of Biological Molecules

Edited by P. B. GARLAND and R. J. P. WILLIAMS

Mobility and Migration of Biological Molecules was the title of the Biochemical Society's Forty-sixth Symposium held in London in December 1980. The fifteen papers presented by leading biochemists involved in research studies of molecular movement are now published in this book. In particular, the aspects of intramolecular movements of proteins, movements of ions and reaction intermediates in proteins (including the structure and function of ion channels), rotational and lateral movements in biomembranes and movements of proteins across membranes are discussed in detail. *Mobility and Migration of Biological Molecules* offers the specialist a valuable review of the existing state of knowledge and useful signposts for the directions further research must take.

Writing a Scientific Paper & Speaking at Scientific Meetings

By Vernon Booth

Soft cover 48 pp.
£2.50 (US\$6.00)

To the newly revised and amplified fifth edition of *Writing a Scientific Paper*, the author has added the companion essay on *Speaking at Scientific Meetings*. Widely praised in its earlier editions, this concise compendium of advice is expected to receive renewed acclaim. By both the first-time writers of scientific papers and the alert 'old hand' it will be found of the greatest help in avoiding faults in writing and presenting papers.

June, 1981 Proceedings of the International Society of Hypertension

A Supplement to Volume 61 of
Clinical Science

This Supplement is devoted to the Proceedings of the Eighth Meeting of the International Society of Hypertension held in Milan in June 1981. It contains over 100 papers from leading authorities in the field of hypertension throughout the world

1981. Approx. 480 pages.

Paper, £30.00 (\$75.00) *post free*

Also available

**Proceedings of the Seventh Meeting of the International Society of
Hypertension, New Orleans, 1980**

1980

Paper, £32.00 (\$75.00) *post free*

Details of availability of earlier *Proceedings* can be obtained from the address below, to which orders with cheques should be sent

ANNOUNCEMENT

STEROID REFERENCE COLLECTION

The Steroid Reference Collection, which is maintained by the U.K. Medical Research Council and the U.S. National Institute of Arthritis and Metabolic Diseases, N.I.H., provides milligram or microgram samples of reference steroids free of charge for use in clinical or biochemical studies, including the development and standardization of micro-assays, chromatography, and mass spectrometry. The Collection also offers assistance with chemical problems involving steroids, and an n.m.r. service (^1H and ^{13}C) for the identification of steroids.

Recent donations of samples from eminent scientists and from the pharmaceutical industry, as well as syntheses in our laboratories, have expanded the Collection to over 4000 different compounds, including steroid hormones and their metabolites, sterols, bile acids, and commercial synthetic analogues of the steroid hormones.

Enquiries, requests for information, lists of available steroids, or offers of samples for the Collection, should be addressed to:

**Professor D. N. Kirk,
Curator of the Steroid Reference Collection,
Chemistry Department,
Westfield College,
Hampstead,
London, NW3 7ST**

Workers in the U.S.A., however, are asked to address enquiries or requests to: **Dr. D. F. Johnson, Building 4, Room 141, National Institutes of Health, Bethesda, Maryland 20014, U.S.A.**
