

BIOCHEMICAL SOCIETY TRANSACTIONS

London: The Biochemical Society © 1982

Managing Editor D. C. WATTS

Book Reviews Editor B. MORELAND

Contents Volume 10, Part 5, October 1982

600th MEETING, OXFORD

Colloquium: Computer Prediction of Molecular Conformation

The prediction of molecular conformation	B. ROBSON	297
A combinational approach to the prediction of the tertiary fold of globular proteins	M. J. E. STERNBERG, F. E. COHEN & W. R. TAYLOR	299
Molecular dynamics: perspective for complex systems	W. F. VAN GUNSTEREN & H. J. C. BERENDSEN	301
Monte Carlo techniques	J. L. FINNEY	305
Computer graphics and related techniques in the study of protein-substrate interactions	A. DEARING	307
Molecular graphics in the design of peptide analogues	A. KÖHN	309
Computers, conformation and pesticide design	K. J. HERITAGE	310
Structure, energetics and dynamics of ligand binding to dihydrofolate reductase	P. DAUBER, D. J. OSGUTHORPE & A. T. HAGLER	312

Colloquium: The Regulation of Microbial Enzymes by Covalent Modification

Reversible inactivation of isocitrate dehydrogenase in <i>Escherichia coli</i>	W. H. HOLMS & H. G. NIMMO	319
The phosphorylation of isocitrate dehydrogenase in <i>Escherichia coli</i>	H. C. REEVES & P. J. MALLOY	321
Inactivation of glutamine:5-phosphoribosyl 1-pyrophosphate amidotransferase in <i>Bacillus subtilis</i> : oxidation of an essential Fe-S centre precedes selective degradation	R. L. SWITZER, M. E. RUPPEN & D. A. BERNLOHR	322
The regulation of citrate lyase by acetylation/deacetylation	G. GOTTSCHALK, F. GIFFHORN & G. ANTRANIKIAN	324
Inactivation and phosphorylation of yeast fructose 1,6-bisphosphatase	J. M. GANCEDO, M. J. MAZÓN & C. GANCEDO	326
The mechanism, role and control of the inactivation of glutamate dehydrogenases in yeast	B. A. HEMMINGS	328

Colloquium: The Structure and Function of Light-Transducing Membranes

Interactions between Photosystem I and II	J. BARBER	331
The structure of the bacterial photosynthetic unit	R. J. COGDELL, J. VALENTINE, J. G. LINDSAY & K. SCHMIDT	334
Protein-lipid interactions in the photosynthetic membrane	W. P. WILLIAMS, A. SEN & P. J. QUINN	335

Heterogeneity in Photosystem II	P. HORTON	338
Cytochrome <i>b/c</i> complexes with polyprenyl quinol:cytochrome <i>c</i> oxidoreductase activity from <i>Anabaena variabilis</i> and <i>Rhodospseudomonas sphaeroides</i> GA: comparison of preparations from chloroplasts and mitochondria	G. HAUSKA, N. GABELLINI, E. HURT, M. KRINNER & W. LOCKAU	340
Mobility of bacteriorhodopsin in lipid vesicles	R. J. CHERRY, R. E. GODFREY & R. PETERS	342
The links between rhodopsin bleaching and visual adaptation	M. CATT, W. ERNST & C. M. KEMP	343
COMMUNICATIONS		347
597th MEETING, LONDON		
Colloquium: Tissue Culture in Neurobiology		
Biochemical characterization and interaction of neuronal and glial cells in culture	A. J. PATEL, C. M. REGAN, R. ANNUNZIATA, E. MEIER & R. BALÁZS	419
Pathways of differentiation in cultures of chick embryo neuroretinal cells	D. I. DE POMERAI, M. A. H. GALI & J. SORANSON	422
Trophic interactions between mouse mesencephalic dopaminergic neurons and their striatal target cells: a study <i>in vitro</i>	A. PROCHIANTZ	423
Effects of brain extracts on the proliferation and maturation of astroglial and oligodendroglial cells in culture	M. SENSENBRENNER, J.-P. DELAUNOY, G. LABOURDETTE & B. PETTMANN	424
Trophic influences on hypothalamic cells in culture	S. A. WHATLEY & L. LIM	426
Survival factors for sensory and sympathetic neurons	D. EDGAR	428
Derivation, characterization and purification of astroglial-cell cultures from adult brain, incorporating a new immunotoxin method for fibroblast elimination <i>in vitro</i>	R. M. LINDSAY	429
BOOK REVIEWS		433

COMMUNICATIONS

An improved infectivity assay for DNA repair	A. J. ALLDRICK & J. B. HAYS	347
The heterogeneity of DNA polymerase- α from mouse embryos and embryonal carcinoma cells	D. R. CLARK & A. G. MCLENNAN	348
DNA conformation and restriction enzyme activity	G. SNOUNOU & A. D. B. MALCOLM	348
Interaction of core histones with DNA	B. M. DIAZ & I. O. WALKER	349
Histone synthesis during the cell cycle of <i>Physarum polycephalum</i>	P. N. SCHOFIELD & I. O. WALKER	350
The photoreactivity of purine-containing deoxydinucleoside monophosphates in ice	S. N. BOSE & R. J. H. DAVIES	350
Proteolytic activity associated with the mammalian cell nucleus	M. DYSON & J. WALKER	351
Ribosome biogenesis in a temperature-sensitive strain of <i>Saccharomyces cerevisiae</i>	J. A. MITLIN & M. CANNON	352
Latent messenger RNA in tobacco (<i>Nicotiana tabacum</i>)	J. P. CARR, J. F. ANTONIW, R. F. WHITE & T. M. A. WILSON	353
Evidence for translational regulation of gene expression in the foetal human brain	S. A. WHATLEY, C. HALL, A. N. DAVISON & L. LIM	354
The guinea-pig enterocyte as a model to investigate glycoprotein biosynthesis: isolation of microvillus and rough-endoplasmic-reticulum membranes	J. C. WALL, J. GRAHAM, J. HERMON-TAYLOR & D. S. BAILEY	355
Rapid glycosylation of haemoglobin in human erythrocytes	M. A. BOWES & S. B. BROWN	356
The structure of a variant surface glycoprotein of <i>Trypanosoma brucei</i>	G. ALLEN & A. A. HOLDER	357
Measurement of the interactions of potato (<i>Solanum tuberosum</i>) lectin with chito-oligosaccharides by ultraviolet difference spectroscopy	D. ASHFORD, A. K. ALLEN & A. NEUBERGER	358
The different isoelectric forms of fetuin contain the same number of sialic acid residues	P. KNOX & S. GRIFFITHS	359
The nature of glutathione transferase B and ligandin and the genetic relationship between their subunits	D. BEALE, B. KETTERER, T. CARNE, D. MEYER & J. B. TAYLOR	359
RNA-protein complexes are antigens in human autoimmune disease	T. Y. JING & A. J. MACGILLIVRAY	360
The co-purification of human immunoglobulin M and complement-component-C4-binding protein by using DNA-cellulose chromatography	M. ABDULLAH, R. J. H. DAVIES & J. A. HILL	361
Discovery of α -N-trimethylalanine in myosin light chains and its role in actomyosin interaction	G. D. HENRY, D. C. DALGARNO, B. A. LEVINE & I. P. TRAYER	362
Separation of proteins, nucleic acids and nucleoproteins on Nycodenz, a new non-ionic, iodinated, density-gradient medium	D. RICKWOOD & T. C. FORD	363
Characterization of Nycodenz, a new non-ionic, iodinated gradient medium	T. C. FORD & D. RICKWOOD	364
Preparative sodium dodecyl sulphate/polyacrylamide-gel electrophoresis as a powerful method for the separation of cyanogen bromide peptides from collagen	S. CROSS, J. HARDING & S. LIBOR	365
The effect of hyperthermia on hydrogen-transfer systems in mouse lymphoma cells	G. Q. SUN, J. LUNEC, S. CRESSWELL & W. CRAMP	366
A study of histidine residues and the metal binding sites of phospholipase C (<i>Bacillus cereus</i>) by n.m.r.	K. AALMO, J. KRANE, C. LITTLE & C. S. STORM	367
Lysis of cholinergic synaptosomes by an antiserum to choline acetyltransferase	M. DOCHERTY, H. F. BRADFORD & B. H. ANDERTON	368
Brain glutaminase activity in relation to transmitter glutamate biosynthesis	H. K. WARD, C. M. THANKI, D. W. PETERSON & H. F. BRADFORD	369
Inhibition of depolarization-coupled Ca^{2+} fluxes and transmitter release <i>in vitro</i> by morphine	D. DHALIWAL & H. F. BRADFORD	370
Affinity labelling of a putative nicotinic acetylcholine receptor from <i>Musca domestica</i>	C. S. OSBORNE, K. J. CATTELL & J. F. DONNELLAN	372
Characterization of solubilized dopamine receptors	M. WHEATLEY, P. A. FRANKHAM, J. M. HALL & P. G. STRANGE	373
An electrometric system to measure acetylcholinesterase activity	C. J. VIDAL, E. MUÑOZ, J. C. GÓMEZ-FERNÁNDEZ & J. A. LOZANO	373
Effects of pH and temperature on acetylcholinesterase from sarcoplasmic reticulum	C. J. VIDAL, E. MUÑOZ, J. C. GÓMEZ-FERNÁNDEZ & J. A. LOZANO	374

The use of lipophilic anions to facilitate uptake of triphenylmethylphosphonium cation in membrane-potential studies in neuroblastoma cells	G. MILLIGAN & P. G. STRANGE	375
Preparation of human dorsal-root-ganglion × mouse neuroblastoma cell hybrids for the study of human neuronal antigens	J. G. DICKSON, T. P. FLANIGAN & F. S. WALSH	376
The effect of trifluoperazine on the release of 5-hydroxytryptamine from superfused synaptosomes	M. T. K. LEUNG & K. J. COLLARD	378
The effect of tryptophan and 5-hydroxytryptamine on the release of 5-hydroxytryptamine from superfused synaptosomes	H. A. SUTER & K. J. COLLARD	379
Ca ²⁺ -sensitivity of Ca ²⁺ -plus-calmodulin-dependent protein kinase activity towards intrinsic proteins in synaptosomal membrane fragments from rat cerebral cortex	H. GOWER & R. RODNIGHT	379
Distribution of the cholinergic antigen, Chol-1, and 5'-nucleotidase in rat cerebral cortex	P. J. RICHARDSON	380
Where is adenosine synthesized?	A. C. NEWBY, C. A. HOLMQUIST & Y. WORKU	382
Human brain-specific proteins studies by two-dimensional polyacrylamide-gel electrophoresis	J. A. ROYDS, R. M. SHARRARD, W. R. TIMPERLEY & C. B. TAYLOR	382
Towards a strategy to purify the scrapie agent	A. J. LAX, G. C. MILLSON, C. A. WALKER & G. D. HUNTER	383
Peptides in the brain of the common snail, <i>Helix aspersa</i>	M. E. WILLIAMSON & P. C. EMSON	384
3-Acetylpyridine-induced lesions of rat cerebellar climbing fibres: attenuation of effects mediated by a glutamate-like substance	G. A. FOSTER & P. J. ROBERTS	385
Tritiation of β -bungarotoxin and its saturable binding to membranes of cerebrocortical synaptosomes	I. B. OTHMAN & J. O. DOLLY	386
Correlation of sequence and spatial position in globular proteins	B. H. NICHOLSON	387
A new algorithm for rapid calculation of conformational energies	B. ROBSON, G. M. DOUGLAS & E. PLATT	388
Activation of <i>Escherichia coli</i> isocitrate dehydrogenase by an endogenous phosphatase	A. C. BORTHWICK, W. H. HOLMS & H. G. NIMMO	389
Reversible activation of rat liver acyl-CoA:cholesterol acyltransferase <i>in vitro</i>	K. BASHEERUDDIN, S. RAWSTORNE & M. J. P. HIGGINS	390
The potentiating effects of ketone bodies on insulin secretion	T. J. BIDEN & K. W. TAYLOR	391
A spontaneous diabetes syndrome in the CBA/CA laboratory mouse	I. L. CAMPBELL & A. K. DAS	392
Foetal hepatic lipid metabolism during postmaturity in the rat	D. PILLAY, A. M. CASWELL, F. C. HIGHAM & E. BAILEY	392
Effects of Nembutal and ether anaesthesia on gluconeogenesis <i>in vivo</i> in the rat	E. HERRERA & A. ZORZANO	394
Biological potencies of different insulins in isolated adipocytes	M. PALACIN & E. HERRERA	395
Lipogenesis <i>in vivo</i> in maternal and foetal tissues during late gestation in starved rats	M. LORENZO, M. BENITO & J. M. MEDINA	396
The role of calmodulin in stimulus-secretion coupling in the anterior pituitary	J. E. MERRITT, S. W. WALKER, R. J. H. WOJCIKIEWICZ, S. MACNEIL, B. L. BROWN & S. TOMLINSON	397
Studies on the integrity of prolactin-containing vesicles in rat liver	R. J. PEASE, M. BASSET, G. D. SMITH & T. J. PETERS	398
³¹ P n.m.r. analysis of the renal response to respiratory acidosis	D. FREEMAN, M. LOWRY, G. RADDA & B. ROSS	399
Inhibition of rat liver protein kinases by Be ²⁺	M. R. KASER, G. WIGGINS, M. G. ORD & L. A. STOCKEN	399
Agmatine coumaroyltransferase, an enzyme involved in the formation of the antifungal hordatines in barley (<i>Hordeum vulgare</i>) seedlings	C. R. BIRD & T. A. SMITH	400
Inhibition of aldose reductase by phenylglyoxal, diethylpyrocarbonate and thiol modifiers	A. B. HALDER & M. J. C. CRABBE	401
The subunit structure of the multiple forms of human liver acidic α -D-mannosidase	S. CHENG, S. MALCOLM, S. PEMBLE & B. WINCHESTER	403
Kinetic studies of porcine pancreatic kininogenase and its inhibition by aprotinin	C. P. J. CAYGILL, R. E. HARTLEY & C. M. AYLING	404
Possible aggregatory effect on the catalytic activity of human plasma kallikrein: a cautionary note for kineticists	P. R. LEVISON & G. TOMALIN	405
Identification of components in the photosystem II reaction centre	J. H. A. NUGENT & M. C. W. EVANS	406
Comparison of the spectral properties of phytochrome associated with plant membranes and phospholipid liposomes	B. R. JORDAN, B. THOMAS & A. J. BAKER	407

CONTENTS

v

Polyunsaturated fatty acids may have a structural role in the chloroplast membrane	K. GOUNARIS, A. SEN & P. J. QUINN	408
Isolation of messenger RNA from bovine retina and cloning of complementary DNA	S. AL-MAHDAWI & B. E. H. MADEN	409
Purification of bovine lens aldehyde dehydrogenase	H.-H. TING & M. J. C. CRABBE	409
ATPase and phototransduction in bovine retina	H. W. READING	410
Rat retinal cells cultured in a serum-free medium	R. BEALE, N. R. HALL & N. N. OSBORNE	411
Ethanol, formaldehyde and lens proteins	H.-H. TING & M. J. C. CRABBE	412
Non-enzymic modification of human lens proteins <i>in vitro</i> in relation to cataractogenesis	H. T. BESWICK & J. J. HARDING	413
Oxidation–reduction properties of cyanobacterial and algal flavodoxins	G. A. SYKES & L. J. ROGERS	414
Metabolic consequences of inhibition of the glycollate pathway by amino-oxyacetate	C. L. D. JENKINS, L. J. ROGERS & M. W. KERR	415
Kinetics of influx of methyl α -D-glucoside into the jejunal and ileal mucosa of lean and obese (<i>ob/ob</i>) mice <i>in vitro</i>	A. P. MORTON & P. J. HANSON	417
Initiation of flagella rotation in <i>Rhodopseudomonas sphaeroides</i>	J. P. ARMITAGE & M. C. W. EVANS	418
