Book Reviews Editor B. MORELAND

Contents Volume 11, Part 1, February 1983

THE SECOND WELLCOME TRUST LECTURE

- Proteins involved in the activation and control of the two pathways of human complement K. B. M. REID 1

600th MEETING, OXFORD

Colloquium: Stabilization and Modification of Enzymes for Industrial Use

- Practicality of industrial enzymes C. BUCKE 13
Protein folding, denaturation and stability R. H. PAIN 15
The role of carbohydrates in enzymes S. A. BARKER & C. J. GRAY 16
Mechanisms of catalyses: Opposing relationship with enzyme stability A. WISEMAN 18
Approaches to enzyme stabilization A. M. KLIBANOV 19
Practical approaches to chemical modification of enzymes for industrial use S. BRANNER-JØRGENSEN 20

601st MEETING, ABERDEEN

Plenary Lecture

- Plant-cell cultures: Fact and fantasy M. W. FOWLER 23

Colloquium: Catalysis and Modulation in Metabolic Systems

- The aims and scope of the Colloquium J. W. PORTEOUS 29
The utility of mathematical models for the understanding of metabolic systems R. HEINRICH & S. M. RAPOPORT 31
The control of enzyme systems *in vivo*: Elasticity analysis of the steady state H. KACSER 35
Control of mitochondrial respiration J. M. TAGER, A. K. GROEN, R. J. A. WANDERS, J. DUSZYNSKI, H. V. WESTERHOFF & R. V. VERVOORN 40
A. CORNISH-BOWDEN 44
Metabolic efficiency: is it a useful concept? J. W. STUCKI 45
Thermodynamic optimization of biological energy conversions J. H. OTTAWAY 47
Compartmentation: Model and reality E. A. NEWSHOLME, J. R. S. ARCH, B. BROOKS & B. SURHOLT 52
The role of substrate cycles in metabolic regulation

Colloquium: Neurochemistry of Drug-Dependence		
Clinical consequences of alcoholic brain damage	G. K. SHAW	57
Metabolic and nutritional aspects of the effects of ethanol	K. F. TIPTON, G. T. M. HENEHAN & J. M. MCCRODDEN	59
Cell-membrane lipids in ethanol-tolerance and -dependence	J. M. LITTLETON	61
Ethanol and cerebral neuroregulators	R. B. HOLMAN	62
The role of interaction between opiate receptors and α -adrenergic receptors in tolerance and dependence	L. E. ROBSON, R. F. MUCHA & H. W. KOSTERLITZ	64
Adaptation of neurons to normorphine and clonidine	N. J. CUTHBERT, D. L. FRANCIS & H. O. J. COLLIER	65
Effect of chronic amphetamine administration on dopaminergic systems in the vervet brain: Relationship to findings in the brains of schizophrenics	F. OWEN, H. F. BAKER, R. M. RIDLEY, A. J. CROSS & T. J. CROW	68
Colloquium: Metabolic Control through Transmembrane Flux		
Regulation of cytoplasmic pH (pH_i) in bacteria and its relationship to metabolism	I. R. BOOTH & R. G. KROLL	70
Regulation of internal pH in plant cells: The relationship between cytosol and vacuole	J. A. RAVEN & S. ALLEN	73
The role of transmembrane solute flux in regulation of CO_2 fixation in chloroplasts	R. C. LEEGOOD & D. A. WALKER	74
Intracellular pH regulation in animal cells, with special reference to snail neurons	R. C. THOMAS	76
Hormonal stimulation of gluconeogenesis through increased mitochondrial metabolic flux	A. D. MARTIN & M. A. TITHERADGE	78
Metabolic control by pump slippage and proton leakage in 'delocalized' and more localized chemiosmotic energy-coupling schemes	H. V. WESTERHOFF, A.-M. COLEN & K. VAN DAM	81
COMMUNICATIONS		86
BOOK REVIEWS		107

COMMUNICATIONS

The effect of depolarization and calcium ion influx on synaptosomal microtubules	R. CUMMING, R. D. BURGOYNE & E. G. GRAY	86
Modulation experiments and fluxes <i>in vivo</i> in <i>Neurospora crassa</i>	H. J. FLINT	87
Control of gluconeogenesis in rat liver cells	A. K. GROEN, R. C. VERVOORN & J. M. TAGER	88
Gluconeogenesis from alanine and serine by trout hepatocytes: effects of other amino acids	M. J. WALTON & C. B. COWEY	88
Quantification of the control exerted by different steps during citrulline synthesis in isolated rat liver mitochondria	R. J. A. WANDERS, A. J. MEIJER, C. M. VAN ROERMUND, A. K. GROEN, C. LOF & J. M. TAGER	89
The thermodynamic basis for the partial control of oxidative phosphorylation by the adenine-nucleotide translocator	H. V. WESTERHOFF, A. K. GROEN & R. J. A. WANDERS	90
Stimulated uptake of inosine in working skeletal muscle	R. J. SHARMA, G. LUTAYA & J. R. GRIFFITHS	91
The effect of exercise on skeletal-muscle intracellular pH in normal and phosphorylase kinase-deficient mice: a ³¹ P n.m.r. study	A. N. STEVENS, G. LUTAYA, P. G. MORRIS, R. A. ILES & J. R. GRIFFITHS	92
The mechanism of lipid uptake by tissues in the rainbow trout, <i>Salmo gairdneri</i> R.	D. BLACK, A. M. YOUSSEF & E. R. SKINNER	93
Experimental dissection of interactive systems <i>in vivo</i> : Inhibition and repression in the arginine pathway of <i>Neurospora crassa</i>	D. J. PORTEOUS & H. KACSER	94
Analysis by infrared spectroscopy of the association of water and metal ions with heparin	D. GRANT, W. F. LONG & F. B. WILLIAMSON	96
Zinc ion binding by heparin	N. E. WOODHEAD, W. F. LONG & F. B. WILLIAMSON	96
Effect of heparin molecular-size fractions on the inhibition of proteinases by antithrombin III	W. F. LONG, F. B. WILLIAMSON & N. E. WOODHEAD	97
Uptake of chloroquine and its effect on mucopolysaccharide metabolism in normal and Hurler's-disease fibroblasts	C. J. DANPURE & N. P. PATEL	98
The role of extracellular pH in the uptake of chloroquine and its effect on mucopolysaccharide metabolism in normal and Hurler's-disease fibroblasts	C. J. DANPURE, N. P. PATEL & A. J. TATTERSALL	100
Controlled depolymerization of heparin: anticoagulant activity and molecular size of the products	L. R. BERRY & M. W. C. HATTON	101
Carbohydrate redistribution during drying of wood	K. MACFARLANE, S. D. NAYAGAM & D. BUTTON	102
The interaction between wheat-germ agglutinin and ovomucoid	J. G. BEELEY, B. ALTOUMAH & J. JARDINE	103
Structure of the basal region of <i>Shigella flexneri</i> lipopolysaccharides	D. A. R. SIMMONS	104
Epoxyalkyl peptide derivatives as active-site-directed inhibitors of asparagine <i>N</i> -glycosyltransferases	E. BAUSE	105
