London: The Biochemical Society © 1983

Managing Editor D. C. WATTS

Book Reviews Editor B. MORELAND

Contents Volume 11, Part 2, April 1983

THE EIGHTEENTH COLWORTH MEDAL LECTURE		
The globin genes of rabbit and man	R. A. FLAVELL	111
THE NINETEENTH COLWORTH MEDAL LECTURE		
The human immunoglobulin genes	T. H. RABBITS	119
601st MEETING, ABERDEEN		
Colloquium: Stereochemistry of Glycoconjugates		
Glycoconjugates and recognition phenomena	R. D. MARSHALL & L. N. JOHNSON	127
Molecular conformations in proteoglycan aggregation	T. E. HARDINGHAM, S. J. PERKINS & H. MUIR	128
The three-dimensional structure of the carbohydrate within the Fc fragment of immunoglobulin G	B. J. SUTTON & D. C. PHILLIPS	130
Structural and conformational analysis of immunoglobulin-derived <i>N</i> -linked oligosaccharides	T. W. RADEMACHER, S. W. HOMANS, D. L. FERNANDES, R. A. DWEK, T. MIZUOCHI, T. TANIGUCHI & A. KOBATA	132
Conformation of the glycoprotein glycans of the <i>N</i> -acetyl-lactosaminic type (complex type)	J. MONTREUIL	134
Stereochemistry of circularly closed oligosaccharides: cyclodextrin structure and function	W. SAENGER	136
Multiple-helical glucans	A. SARKO, H. C. WU & C. T. CHUAH	139
Oligosaccharide binding to glycogen phosphorylase <i>b</i>	L. N. JOHNSON, E. A. STURA, M. S. P. SANSOM & Y. S. BABU	142
The structure and role of the carbohydrate moieties of influenza virus haemagglutinin	I. A. WILSON, R. C. LADNER, J. J. SKEHEL & D. C. WILEY	145
602nd MEETING, LONDON		
Colloquium: Enzymology of Muscle Contraction		
What can the muscle biochemist tell the muscle physiologist?	R. M. SIMMONS	149
Correlations between structural and chemical states of cross-bridges in muscle	R. S. GOODY	150
Mechanical response to photochemical release of ATP within skinned muscle fibres	M. G. HIBBERD, Y. E. GOLDMAN & D. R. TRENTHAM	151
Oxygen-exchange reactions of actomyosin subfragment-1	J. SLEEP	152

Protein phosphorylation in the regulation of cardiac contraction	P. J. ENGLAND, S. A. JEACOCKE, J. P. HUGGINS, D. MILLS & H. T. PASK	153
The role of myosin light chain phosphorylation in the regulation of contractile activity	J. KENDRICK-JONES, R. C. SMITH, R. CRAIG, W. Z. CANDE, P. J. TOOTH & J. M. SCHOLEY	154
COMMUNICATIONS		155
BOOK REVIEWS		221

COMMUNICATIONS

Characterization of the lymphocyte cytoskeleton	A. A. DAVIES, N. M. WIGGLESWORTH & M. J. CRUMPTON	155
A new cytoskeletal protein associated with the plasma membrane of lymphocytes	R. J. OWENS & M. J. CRUMPTON	156
Developmental regulation of membrane glycoproteins from a growth-cone-enriched fraction of rat forebrain	P. R. GORDON-WEEKS	157
Calcium-dependent proteolysis of microtubule-associated proteins in brain and synaptosomal cytosol	R. D. BURGOYNE & R. CUMMING	158
Specificity in the interaction of lipid with myelin proteolipid protein as studied by electron spin resonance	P. J. BROPHY, L. I. HORVÁTH & D. MARSH	159
Studies on the binding of a synthetic signal peptide to pancreatic rough microsomal membranes	B. M. AUSTEN & D. H. RIDD	160
Chenodeoxycholate-feeding increases the output of plasma-membrane marker enzymes into rat bile	D. BILLINGTON, R. JUSZCZAK & K. RAHMAN	162
The effect of noradrenaline on the membrane lipid order and Ca ²⁺ binding in isolated rat liver plasma membranes	G. M. BURGESS, F. GIRAUD, J. POGGIOLI & M. CLARET	163
Vasoactive-intestinal-polypeptide receptors on human blood cells	J. A. M. DEARING & F. A. McEVOY	164
Phosphate-depleted kidney tubule cells show resistance to parathyrin action	M. F. GRAHN & P. J. BUTTERWORTH	165
The effect of deoxycholate on intestinal surface pH and 5-methyltetrahydropteroylglutamate absorption in the rat proximal jejunum <i>in vitro</i>	J. A. BLAIR, M. E. HILBURN, M. L. LUCAS & H. M. SAID	165
The duodenal enterocyte as a model for the investigation of adaptive gene expression: An overview	D. S. BAILEY	167
The guinea-pig enterocyte as a model for the investigation of gene expression: Isolation of enterocyte RNA for molecular cloning	D. O. ROBINSON, M. P. R. TENNISWOOD, J. HERMON-TAYLOR & D. S. BAILEY	169
The guinea-pig enterocyte as a model for the investigation of glycoprotein biosynthesis: Differential expression of brush-border glycoproteins along the small intestine	J. C. WALL, J. HERMON-TAYLOR & D. S. BAILEY	170
Differentiation antigens in an epithelium? subsets of human breast epithelial cells distinguished by monoclonal antibodies	P. A. W. EDWARDS	171
Wax esters as components of bacterial membranes	G. M. LLOYD & N. J. RUSSELL	172
Structural studies on the wall teichoic acid from <i>Bacillus licheniformis</i> 6346 MH-1	D. BUTTON & N. L. HEMMINGS	173
The temperature-dependence of steady-state creatine kinase fluxes in rat cardiac muscle	P. M. MATTHEWS, J. J. BLAND & G. K. RADDA	174
The coenzyme specificity of glutamate dehydrogenase from <i>Peptococcus asaccharolyticus</i>	D. P. HORNBY & P. C. ENGEL	175
A new purification for ox liver short-chain acyl-CoA dehydrogenase	L. SHAW & P. C. ENGEL	176
Saturation-transfer electron-paramagnetic-resonance and fluorescence studies of scallop myosin	C. WELLS, N. PATEL & C. R. BAGSHAW	177
A study of the effect of cimetidine on human placental mono-oxygenase activity <i>in vitro</i>	A. J. CUMMINGS & A. C. KAELIN	178
A low-molecular-weight inhibitor of papain and bromalin	J. M. WALKER & S. C. CHAPLIN	179
Hydrazine and sickle cells	C. A. RICE-EVANS & S. C. OMORPHOS	180
The effect of the γ -glutamyltransferase inhibitor AT-125[(α S, 5S)- α -amino-3-chloro-4,5-dihydro-5-isoxazoleacetic acid] on the labelling of the cysteine pool in normal and cystinotic fibroblasts in the presence and absence of chloroquine	C. J. DANPURE, D. A. FYFE, S. HALSALL & T. J. PETERS	181
Targetting of daunorubicin to trypanosomes by carrier macromolecules: Should the linkage be labile?	M. A. HARDMAN, L. H. PATTERSON, J. E. WILLIAMSON & J. R. BROWN	182
The probable involvement of arachidonic acid metabolites in the stimulation of protein synthesis in stretched skeletal muscle <i>in vitro</i>	R. H. SMITH, R. M. PALMER & P. J. REEDS	182
Sex dimorphism of metiamide sulphoxidation and glucuronidation in rodent species	J. C. RITCHIE, S. C. MITCHELL, J. R. IDLE & R. L. SMITH	183
The pH-dependence of the reaction catalysed by dihydrofolate reductase from <i>Escherichia coli</i>	S. R. STONE	184

The effects of large doses of biotin on leucocyte carboxylases in humans	J.-H. STIRK, K. G. M. M. ALBERTI & K. BARTLETT	185
Effect of phenylalanine on the enhancement of DNA synthesis in Ehrlich ascites-tumour cells by mimosine	S. ITZHAKI & P. R. ABDULLA	186
The purification of a proteolytic enzyme from calf thymus nuclei	M. DYSON & J. M. WALKER	187
Secretion of plasminogen activator by mouse mononuclear phagocytes is stimulated by ammonium chloride	C. R. ROBERTS, W. JESSUP & R. T. DEAN	188
Molecular-weight determinations of the thyrotropin receptor by affinity labelling	P. R. BUCKLAND, C. R. RICKARDS, R. D. HOWELLS, E. DAVIES JONES & B. REES SMITH	189
The oxidation of adrenaline to adrenochrome by polymorphonuclear leucocytes	S. B. MATTHEWS, A. H. HENDERSON & A. K. CAMPBELL	191
Isolation, solubilization and partial characterization of human spleen haemosiderin	M. P. WEIR, J. F. GIBSON & T. J. PETERS	192
Evidence for reactive groups in rat liver acid phosphatase: inactivation by diethyl pyrocarbonate and photo-oxidation in the presence of Rose Bengal	N. NAVARATNAM, M. R. BANNER & P. J. BUTTERWORTH	193
The effect of <i>NN'</i> - <i>o</i> -phenylenedimaleide on the activity of rat kidney glucose 6-phosphatase	A. EL-SHARIF & M. R. BANNER	194
Peptide mapping of human epidermal keratin proteins by limited proteolysis	N. F. COOPER, P. T. BLADON, R. M. WRIGHT, E. J. WOOD & W. J. CUNLIFFE	194
A high-molecular-weight form of the flaggrin precursor	J. D. LONSDALE-ECCLES & B. A. DALE	195
A 'homogeneous' immunoassay method for cyclic AMP involving the use of chemiluminescence-energy transfer	A. PATEL, F. MCCAPRA, C. J. DAVIES & A. K. CAMPBELL	196
Effects of vasopressin and angiotensin II on fatty acid oxidation in isolated rat hepatocytes: increased ¹⁴ C ₂ production from [1- ¹⁴ C]-oleate and [1- ¹⁴ C]butyrate	D. I. WATTS & M. C. SUGDEN	198
The presence of lectin-binding proteins in bovine corneal stroma	R. A. HUGHES, C. J. BRANFORD WHITE, K. M. MEEK & G. F. ELLIOTT	199
β -Cell-tropin: characterization as corticotropin-(22-39)-peptide	G. W. TAYLOR, H. R. MORRIS, A. BELOFF-CHAIN, J. MORTON & S. DUNMORE	200
β -Cell-tropin: relationship of structure to biological activity	S. DUNMORE, J. MORTON, A. BELOFF-CHAIN, G. W. TAYLOR & H. R. MORRIS	201
Interactions between atracurium and acetylcholine at the chick neuromuscular junction	F. A. WALI & P. J. FLYNN	201
Hereditary fructose intolerance: presence of a potent inhibitor of fructose 1-phosphate aldolase in the liver	T. M. COX, M. W. O'DONNELL, M. SOCHOR, M. CAMILLERI & P. MCLEAN	202
Scanning electron microscopy of mixed glial-cell cultures	J. CHAPMAN, N. R. WILSON & M. G. RUMSBY	203
Cell-free translation of polyribosomes prepared from glial cell cultures	S. A. JENNER, E. A. HIRST & S. J. S. HARDY	205
Mixed astrocyte and oligodendrocyte cultures prepared from postnatal rat cerebral tissue	J. CHAPMAN & M. G. RUMSBY	206
Monoclonal antibodies reacting specifically with the cell surface of human astrocytes in culture	J. G. DICKSON, T. P. FLANIGAN, J. T. KEMSHEAD & F. S. WALSH	208
Transport of myelin proteins from oligodendrocytes to the myelin sheath in rat optic nerve	V. J. ALLAN & M. G. RUMSBY	208
108CC15 neuroblastoma \times glioma hybrid cells possess pharmacologically relevant [³ H]imipramine-binding sites	P. H. SNELL & C. R. SNELL	209
Development of nerve cells in cerebellar cultures in the presence of foetal calf serum or in chemically defined media: differences in cell adhesion and the organization of the plasma membrane	V. GALLO, A. E. KINGSBURY, P. L. WOODHAMS & R. BALÁZS	210
Characterization of [³⁵ S]methionine- and [³ H]amino acid-labelled proteins of primary cultures of astroglial and fibroblast cells	C. S. M. TAHOURDIN, H. VAN DEN DUNGEN & A. J. PATEL	212
Characteristics of cholecystokinin release from rat brain: Effects of bacitracin and ionic requirements	M. J. SHEEHAN & J. DE BELLEROCHE	213
Effect of γ -hydroxybutyrate on the electroretinogram of frog retina	P.-F. URBAN & M. FRAULI	214
Immunological study of rat brain-specific cysteinesulphinatase decarboxylase	P.-F. URBAN & P. REICHERT	215
The effects of dexamethasone, isoprenaline and drugs that induce differentiation or have anti-cancer properties on glutamine synthetase and adenylate cyclase in cell cultures derived from human brain	P. F. T. VAUGHAN, M. FRAME & R. I. FRESHNEY	216

CONTENTS

v

The change in 2',3'-cyclic nucleotide 3'-phosphodiesterase activity in mouse brain during recovery from cuprizone intoxication	A. G. WALKER	217
Measurement of protein synthesis in brain subcellular fractions <i>in vivo</i> by local flooding of methionine pools	C. M. RYAN & P. W. BEESLEY	218
Lipid methylation in C ₆ glioma cells with a modified membrane phospholipid composition	R. C. MCKENZIE & P. J. BROPHY	219
