Contents Volume 11, Part 3, June 1983

THE THIRTEENTH HOPKINS MEMORIAL LECTURE

- Biochemical and genetic studies on the assembly and function of the F_1-F_0 adenosine triphosphatase of *Escherichia coli* F. GIBSON 229

602nd MEETING, LONDON

Colloquium: Recent Advances in the Control of Glycolysis

- Regulation of glycolytic enzymes *in situ* and *in vitro* A. SOLS 241
The liver aldolase-fructose bisphosphatase complex S. PONTREMOLI, E. MELLONI & B. L. HORECKER 241
The control of glycolysis in living muscle studied by nuclear magnetic resonance and other techniques D. R. WILKIE 244
Role of fructose 2,6-bisphosphate in the regulation of glycolysis L. HUE 246
The role of phosphorylation and fructose-2,6-bisphosphate in the regulation of phosphofructokinase K. UYEDA, E. FURUYA & R. SAKAKIBARA 248
Fructose 2,6-bisphosphate H.-G. HERS 250

Colloquium: Lipids and Cancer

- Plasma lipids and cancer B. LEWIS 252
Dietary fat intake and the causation of cancer: the epidemiological perspective A. P. HAINES 254
Bacteria, bile acids and large bowel cancer M. J. HILL 256
Effects of dietary lipids on the metabolism of polycyclic hydrocarbons and the binding of their metabolites to DNA E. D. WILLS 258
Lipid antioxidants and products of lipid peroxidation as potential tumour protective agents G. W. BURTON, K. H. CHEESEMAN, K. U. INGOLD & T. F. SLATER 261

Colloquium: Carbohydrate Differentiation Antigens

- Carbohydrate differentiation antigens recognized by monoclonal antibodies T. FEIZI 263
Polysaccharides of embryonal carcinoma cells of line PC 13 O. RENKONEN 265
Glycolipid expression in ontogenesis and oncogenesis S. HAKOMORI 267
Glycolipids of epithelial cells: aspect on species, individual and tissue variation, tumour-associated antigens and receptors for bacteria K. A. KARLSSON 268

Enzymic basis for the modulation of cell-surface carbohydrates in lectin-resistant melanoma cells	J. FINNE	269
Sialic acids as potential determinants on differentiation antigens	R. SCHAUER	270
COMMUNICATIONS		273
REVIEW		
An n.m.r. probe of succinyl-coenzyme A synthetase: subunit interactions and the mechanism of action	H. J. VOGEL & W. A. BRIDGER	315
BOOK REVIEWS		325

COMMUNICATIONS

The separation of cells on iso-osmotic Nycodenz gradients	T. C. FORD & D. RICKWOOD	273
An approach to the indirect immunoaffinity isolation of specific mammalian brain nerve terminals	P. J. RICHARDSON & J. P. LUZIO	273
Studies on the separation of 'centrilobular and periportal hepatocytes'	C. M. ALLEN & A. J. PAINE	275
The enhanced aggregation of isolated platelets of low density lipoproteins	D. G. HASSALL, J. S. OWEN & K. R. BRUCKDORFER	275
Rapid, multiple, fluorogenic enzyme assays in a centrifugal analyser	D. A. BYERS & D. H. LEABACK	276
Glycolysis is not inactivated by pH in the Langendorff heart at pH values above 5.7	I. A. BAILEY & A.-M. L. SEYMOUR	278
Glucose 1,6-bisphosphatase and the control of glucose 1,6-bisphosphate in muscle	M. J. O. WAKELAM & D. PETTE	279
The effect of pyruvate on energy provision in the ischaemic rat myocardium	J. M. KEOGH, G. K. RADD & A.-M. L. SEYMOUR	279
¹ H n.m.r. studies of the kinetic properties expressed by erythrocyte enzymes <i>in situ</i> and <i>in vitro</i>	K. M. BRINDLE, I. D. CAMPBELL & R. J. SIMPSON	280
Association of aldolase with the membranes in concentrated human erythrocyte lysates	R. J. SIMPSON, K. M. BRINDLE & I. D. CAMPBELL	281
Hormal regulation of Ca ²⁺ efflux from liver mitochondria	T. P. GOLDSTONE & M. CROMPTON	282
Glycerol 3-phosphate acyltransferase activity in the liver and mammary gland of the lactating rat during the starved-refed transition	M. C. SUGDEN & M. R. MUNDAY	283
Neuroendocrine reflexes in the insulin secretory response to feeding in lean and genetically obese (<i>ob/ob</i>) mice	P. R. FLATT & C. J. BAILEY	284
Plasma glucose and insulin responses to voluntary food ingestion in genetically obese-hyperglycaemic (<i>ob/ob</i>) mice	P. R. FLATT & C. J. BAILEY	285
The effects of some short-chain fatty acids on pyruvate carboxylase activity in intact isolated rat liver mitochondria	J.-H. STIRK, K. BARTLETT & H. S. A. SHERRATT	286
The effects of valproate (2-n-propylpentanoate) on intermediate metabolism in isolated rat hepatocytes and intact rats	D. M. TURNBALL, A. J. BONE, K. BARTLETT, P. P. KOUNDAKJIAN & H. S. A. SHERRATT	287
The glyoxylate cycle in developing neonatal rat liver	C. S. GARRETT & K. SNELL	289
The effect of clofibrate on muscle branched-chain amino acid metabolism and alanine release <i>in vitro</i>	J. M. TROKE, D. A. DUFF & K. SNELL	289
N-Acetylglutamate contents in developing neonatal-rat liver mitochondria	J. C. CHAN & K. SNELL	291
Rapid one-dimensional thin-layer-chromatographic method for separation of adenine nucleotide degradation products	R. J. SHARMA & J. R. GRIFFITHS	291
Thyroid-hormone control of nicotinamide nucleotide redox reactions in liver mitochondria	J. CORRIGALL & J. MOWBRAY	292
The maturation of oxidative phosphorylation in human mitochondria and its relation to increased adenine nucleotide concentration	N. P. ILLSLEY, S. B. COADE & R. A. HARKNESS	294
The rapid conversion of adenine nucleotides into new derivatives in ischaemic heart	W. L. HUTCHINSON, G. R. TIBBS & J. MOWBRAY	295
Changes in intramuscular metabolites during malignant hyperthermia in the pig	G. M. HALL & J. N. LUCKE	296
Metabolism of amino acids by rat stomach <i>in vivo</i>	N. G. ANDERSON & P. J. HANSON	297
Primary sequence of the N-terminal region of the α -subunit of pyruvate dehydrogenase from bovine heart	R. LAWSON, A. AITKEN & S. J. YEAMAN	298
Excess sialylation of breast-cancer-cell surface determinant identified by monoclonal antibody	C. S. FOSTER	299
Overlapping specificities of the glycosyltransferases specified by the blood-group A and B genes: A possible explanation for aberrant blood-group expression in malignant tissue	A. D. YATES, P. GREENWELL & W. M. WATKINS	300
Differentiation antigens associated with mouse anti-carbohydrate antibodies	C. G. BELL	301
Carbohydrate receptors and antigens in the regulation of differentiation programmes	C. G. BELL	303
The influence of cholesterol on the stability of liposomes containing methotrexate	G. L. WHITE, W.-C. FOONG & K. L. GREEN	305

The effect of stimulated lipid peroxidation on prostacyclin and thromboxane biosynthesis	J. S. HURST & R. G. McDONALD-GIBSON	306
An electrophoretic technique for examining the specific binding of fatty acids to proteins	F. M. M. SMITH, R. R. DILS & M. I. GURR	308
Inhibition of lipid peroxidation in rat liver microsomes by glutathione S-transferase B	K. H. TAN, D. J. MEYER & B. KETTERER	308
Stimulation of prostacyclin production in cultured human endothelial cells by sera from diabetics and matched controls	M. K. N. PATEL & F. A. MCEVOY	309
The use of a microcomputer for radiochromatogram data collection and interpretation, and its application to the study of the arachidonic acid cascade	D. S. WILLIAMS & R. G. McDONALD-GIBSON	310
Simulation studies on protein synthesis in reticulocytes	I. R. I. CARBARNES & J. H. OTTAWAY	313
