London: The Biochemical Society © 1983

Managing Editor D. C. WATTS

Book Reviews Editor R. EVANS

Contents Volume 11, Part 6, December, 1983

THE SEVENTEENTH CIBA MEDAL LECTURE

Proteoglycans as organizers of the intercellular matrix H. MUIR 613

604th MEETING, CAMBRIDGE

Colloquium: Recent Advances in Understanding the Biochemical Basis of Inborn Errors of Metabolism

Inborn errors of pyruvate metabolism B. H. ROBINSON 623

Mitochondrial myopathies: defects in mitochondrial metabolism in human skeletal muscle J. B. CLARK, D. J. HAYES, E. BYRNE & J. A. MORGAN-HUGHES 626

Application of ³¹P n.m.r. to inborn errors of muscle metabolism B. D. ROSS & G. K. RADDA 627

The biochemical basis of the acute porphyrias K. E. L. MCCOLL & A. GOLDBERG 631

Disorders of amino acid transport S. SEGAL 633

The low-density-lipoprotein receptor pathway in familial hypercholesterolaemia: its role in pathogenesis and its response to therapy C. J. PACKARD & J. SHEPHERD 634

Colloquium: Sterol Biosynthesis and Function

The movement of cholesterol within cells C. GREEN 637

Quantitative importance of different organs for cholesterol synthesis and low-density-lipoprotein degradation J. M. DIETSCHY, D. K. SPADY & E. F. STANGE 639

Sterol biosynthesis: effect of compactin and its derivatives R. FEARS 642

Protein phosphorylation and the hormonal control of hepatic cholesterol synthesis T. S. INGBRITSEN 644

The role of non-esterified cholesterol concentration in endoplasmic-reticular membranes in the regulation of hydroxymethylglutaryl-CoA reductase K. A. MITROPOULOS 646

The role of oxysterols in the regulation of cholesterol biosynthesis G. F. GIBBONS 649

Regulation of acyl-CoA:cholesterol acyltransferase K. E. SUCKLING 651

Induction of synthesis of steroidogenic enzymes by corticotropin in bovine adrenocortical cells in culture E. R. SIMPSON & M. R. WATERMAN 653

The biochemical actions of the azasteroid antibiotics L. W. PARKS & R. J. RODRIGUEZ 656

Irreversible inhibitors of oestrogen biosynthesis (aromatase) Y. OSAWA, Y. OSAWA, C. YARBOROUGH & L. BORZYNSKI 656

Fungicidal inhibitors of ergosterol biosynthesis B. C. BALDWIN 659

Inhibition of sterol 14 α -demethylase enzymes E. I. MERCER 663

Hypothesis on the molecular basis of the antifungal activity of *N*-substituted imidazoles and triazoles H. VAN DEN BOSSCHE, G. WILLEMSSENS, W. COOLS, P. MARICHAL & W. LAUWERS 665

Colloquium: Biochemistry of the Retina

Structure and conformation of rhodopsin in the disc membrane	M. AKHTAR	668
Rhodopsin bleaching intermediates and enzyme activation in the rod outer segment	A. KNOWLES	672
Magnetic-resonance studies of vertebrate rod outer segments	A. WATTS	674
Rhodopsin bleaching and rod adaptation	M. CATT, W. ERNST, C. M. KEMP & P. M. O'BRYAN	676
Light and retinal metabolism	M. J. VOADEN, A. A. HUSSAIN, M. TAJ & A. C. I. ORAEDU	679
Characterization and isolation of mammalian retinal neurons	N. N. OSBORNE & V. NEUHOFF	682
Transmitter interactions in the rabbit retina	M. NEAL	684
Physiology of neuroactive peptides in vertebrate retina	M. B. A. DJAMGOZ, J. E. G. DOWNING & D. J. PRINCE	686

COMMUNICATIONS**DURHAM MEETING****Colloquium: Peptide Transport**

Transport and metabolism of glutathione and γ -glutamyl amino acids	A. MEISTER	793
Peptide transport in bacteria: methods, mutant and energy coupling	J. W. PAYNE	794
Backbone-modified analogues of small peptides: transport and antibacterial activity	J. S. MORLEY, T. D. HENNESSEY & J. W. PAYNE	798
Characterization of a dithiol-dependent peptide-transport protein in the scutellum of germinating barley	D. J. WALKER-SMITH & J. W. PAYNE	800
Small peptides as carriers and targets in human therapy	P. S. RINGROSE	804
Intestinal absorption of peptides	D. M. MATTHEWS	808
Evidence for, and implication of, passage of intact peptides across the intestinal mucosa	M. L. G. GARDNER	810
Somatostatin biosynthesis in the mammalian hypothalamus	R. IVELL & D. RICHTER	813

BIOCHEMICAL REVIEW

Some recent advances in enzyme kinetics	C. W. WHARTON	817

INDEXES

Author Index		831
Subject Index		835

COMMUNICATIONS

Rhodopsin in the disc membrane is a monomer	S. M. HUGHES & M. D. BRAND	691
Alterations in brain monoamine oxidase kinetics after chronic ethanol administration and withdrawal	A. MORINAN	692
Postsynaptic densities from forebrain and cerebellum: a comparison of their morphology and protein/glycoprotein composition	P. R. GORDON-WEEKS	693
Determination of the isoelectric points of rat brain synaptosomes, mitochondria and mitoplasts	J. SANCHEZ-PRieto & M. J. LÓPEZ-PÉREZ	694
Metabolism of thiamin in rat brain <i>in vivo</i>	M. K. GAITONDE & G. M. EVANS	695
Effects of lithium on tryptophan transport into plasma-membrane vesicles derived from rat brain synaptosomes	M. C. ARAGON, E. HERRERO, C. GIMÉNEZ & F. VALDIVIESO	696
Effect of motor-nerve section on the activity of phosphatidylinositol phosphodiesterase in a rat skeletal muscle	J. K. SHUTE & M. E. SMITH	697
Effects of dantrolene sodium on the contractile responses in the avian neuromuscular junction	F. A. WALI	698
Variations in the relative incorporation of tritium and carbon during sterol biosynthesis in the presence of [³ H]water	C. R. PULLINGER & G. F. GIBBONS	698
Inhibitors of eukaryotic protein synthesis that do not cause short-term inhibition of steroidogenesis in rat corpus luteum	H. A. LEAVER & G. S. BOYD	699
'Profile' analysis of oxygenated sterols in plasma and serum	C. J. W. BROOKS, R. M. MCKENNA, W. J. COLE, J. MACLACHLAN & T. D. V. LAWRIE	700
The role of plasma high-density lipoprotein in lutropin-dependent progesterone synthesis by cells isolated from rat corpus luteum	J. W. AITKEN, R. BOOTH & D. A. STANSFIELD	702
The identity of the cholesteryl ester hydrolase of bovine corpus luteum	K. G. COOK, R. J. COLBRAN & S. J. YEAMAN	703
Partial purification and characterization of bovine testicular cholesteryl ester hydrolase	D. G. THOMAS & S. J. YEAMAN	704
Characterization of a homogeneous preparation of zona fasciculata cells from bovine adrenal cortex	W. J. KOPER & S. J. YEAMAN	705
Atherogenic effect of raised concentrations of non-esterified fatty acids in arterial smooth-muscle cells	G. V. W. STEVENSON & D. E. BOWYER	705
The composition of serum high-density lipoprotein in marathon runners and changes in composition during a marathon race	D. BLACK, M. A. CHEYNE, R. J. MAUGHAN & E. R. SKINNER	707
Lipoprotein lipase and salt-resistant lipase activities in the livers of the rainbow trout and cod	D. BLACK, S. A. KIRKPATRICK & E. R. SKINNER	708
Studies on the time course of benzo[a]pyrene induction of cytochrome <i>P</i> -448-dependent benzo[a]pyrene hydroxylase in <i>Saccharomyces cerevisiae</i>	D. J. KING & A. WISEMAN	708
Cytochrome <i>P</i> -450 production and benzo[a]pyrene hydroxylase activity and inducibility in <i>Saccharomyces cerevisiae</i> N.C.Y.C. 240 and its morphological variants N.C.Y.C. 753 and 754	D. J. KING, A. BLATIAK & A. WISEMAN	710
Production of cytochrome <i>P</i> -450 in <i>Saccharomyces cerevisiae</i> is controlled by a nuclear regulatory gene	D. J. KING, A. WISEMAN & D. WILKIE	711
Purification of a cytochrome <i>P</i> -450 from <i>Saccharomyces cerevisiae</i>	T. E. WIGGINS & B. C. BALDWIN	712
The effects of the fungicide diclobutrazol on membrane functions in <i>Saccharomyces cerevisiae</i> and <i>Ustilago maydis</i>	P. G. THOMAS, J. M. HASLAM & B. C. BALDWIN	713
Radioimmunoassay of loxitidine and lamtidine in biological fluids	C. HARRISON, W. N. JENNER, L. E. MARTIN & S. N. YOUNG	713
The metabolism of loxitidine in rat and dog	J. A. BELL, A. BRADBURY, W. N. JENNER, G. R. MANCHEE & L. E. MARTIN	715
The effect of dibutyryl cyclic AMP on bile-salt synthesis in isolated rat hepatocytes	K. M. BOTHAM & G. S. BOYD	716
Swainsonine-induced mannosidosis: a reversible chemically inducible phenocopy of an inherited disorder	P. DORLING, C. HUXTABLE, I. C. DI BELLO & B. WINCHESTER	717
Copper retention in the foetus and the newborn: possible relationship to Wilson's disease	S. K. S. SRAI, A. K. BURROUGHS, B. WOOD, T. L. DORMANDY & O. EPSTEIN	718
The effect of temperature on the uptake and intracellular translocation of [³⁵ S]cystine in normal and cystinotic human fibroblasts	C. J. DANPURE & P. R. JENNINGS	719

Increased content of low-molecular-weight enteroglucagon in the small intestine of genetically obese-hyperglycaemic (<i>ob/ob</i>) mice	P. R. FLATT, C. J. BAILEY & S. K. SWANSTON-FLATT	720
Distribution of chromium in the tissues of normal and genetically diabetic mice	P. R. FLATT & P.-O. BERGGREN	722
Effect of transplantation of adipose tissue between lean and obese mice (<i>ob/ob</i>) on the triacylglycerol fatty acid composition	M. ENSER & M. ASHWELL	723
Secondary carnitine insufficiency in disorders of organic acid metabolism: modulation of acyl-CoA/CoA ratios by L-carnitine <i>in vivo</i>	R. A. CHALMERS, C. R. ROE, B. M. TRACEY, T. E. STACEY, C. L. HOPPEL & D. S. MILLINGTON	724
Energy provision in Chinese-hamster ovary cells	M. J. MORGAN, K. M. BOWNESS & P. FAIK	725
Oxidative function of brown adipose tissue of lean and obese Zucker rats	J. M. FLETCHER, P. HAGGARTY & F. FORSYTH	726
Evidence from radioimmunoassay for a decreased concentration of mitochondrial 'uncoupling' protein from brown adipose tissue of genetically obese (<i>ob/ob</i>) mice	M. ASHWELL, G. JENNINGS & P. TRAYHURN	727
Fatty acid oxidation in human skeletal-muscle mitochondria	K. GOHIL, D. A. JONES & R. H. T. EDWARDS	728
Comparative kinetics of human and rat liver alcohol dehydrogenase	E. HERRERA, A. ZORZANO & V. FRESNEDA	729
Liver glycogen and glyceride glycerol formation as compared with glucose synthesis in 24 h-starved virgin and pregnant rats	A. ZORZANO & E. HERRERA	730
Transfer from mother to foetus of L-alanine and glycerol in fed and 48 h-starved pregnant rats	M. PALACÍN, M. A. LASUNCIÓN & E. HERRERA	731
Method for the infusion of periuterine adipose tissue <i>in situ</i> in the rat	M. A. LASUNCIÓN, M. PALACÍN & E. HERRERA	732
Electron-microscopic immunolocalization of proteoglycan in articular cartilage	A. RATCLIFFE, P. FRYER & T. HARDINGHAM	734
Localization of a synaptic-vesicle proteoglycan antigen in the cholinergic electromotor neuron	J. H. WALKER, H. STADLER, R. T. JONES & V. P. WHITTAKER	735
Calelectrin, an M_r -32000 polypeptide, is associated with membranes and cytoskeleton in a calcium-dependent manner	J. H. WALKER & T. C. SÜDHOF	736
Role of polyamines in the glucocorticoid-induced cytolethal response in human lymphoid cells	A. C. ABBOTT & C. C. BIRD	736
Reduction of fatty acids to alcohols in the Meibomian glands of the rabbit	J. M. TIFFANY & C. M. F. SIMPSON	737
Sterols in the Meibomian-gland secretion of the rabbit	J. M. TIFFANY	738
An active-transport mechanism for the uptake of ethylene glycol and its low-molecular-weight oligomers by <i>Pseudomonas fluorescens</i>	L. D. L. JENKINS, C. MASLEN & R. B. CAIN	739
A transport system for the uptake of poly(ethylene glycol) species in a <i>Flavobacterium</i> sp.	R. B. CAIN, K. PATEL & C. MASLEN	739
Pyruvate carboxylase from a thermophilic <i>Bacillus</i> : effect of depletion of bound metal on catalytic activity and structures	T. K. SUNDARAM, P. H. WOOD, N. J. BLACKBURN & A. E. MARSH	740
Isolation and characterization of pyruvate carboxylase from the extremely thermophilic <i>Bacillus caldotenax</i>	P. H. WOOD, T. K. SUNDARAM, N. J. BLACKBURN & A. E. MARSH	741
Actions and interactions of methohexitone at the frog and rat neuromuscular junctions	F. A. WALI	742
Why the cofactor needs the hydrophobic segment of the protein of the holoenzyme	Y. SCHIFFMANN	743
The redistribution-coupling hypothesis for energy transfer between electron transport and ATP synthesis	Y. SCHIFFMANN	745
Cleavage of the C-terminal cross-linking region of type I collagen by tissue proteinases	P. G. SCOTT & H. PEARSON	746
The protein core of proteodermatan sulphate	H. PEARSON, N. WINTERBOTTOM, P. G. SCOTT & D. S. FACKRE	747
Myosin heavy-chain isoenzyme composition of the human heart during development	S. J. LAMBERT, R. A. JANES & P. CUMMINS	749
Does γ -aminobutyrylcholine exist in mammalian brain tissue?	D. A. BARRETT & W. E. DAVIES	750
A hydrophilic fragment of the thyrotropin receptor	E. D. JONES, R. D. HOWELLS, C. R. RICKARDS, P. R. BUCKLAND & B. R. SMITH	751
<i>N</i> -Polymethylenecarboxymaleimides: probes for thiol groups associated with peripheral and integral membrane proteins	D. G. GRIFFITHS, M. D. PARTIS, A. L. MOORE, M. O. PROUDLOVE & R. B. BEECHY	753
Use of <i>N</i> -ethylmaleimide to identify the alanine carrier in plasma membranes from rat liver	M. R. HAYES & J. D. MCGIVAN	754

A novel method for assessing energization of plant mitochondria	I. M. MØLLER	755
Guanidinobenzoatase on the surface of tumour cells	F. S. STEVEN, R. K. AL-AHMAD, M. M. GRIFFIN, G. WILLIAMS & H. L. WHITWELL	757
The development of the small-intestinal epithelium of the guinea-pig	D. S. BAILEY, G. MCALLISTER, A. COOK, J. HERMON-TAYLOR, D. ROBINSON & J. C. WALL	757
Distinguishing between hydrophilic and hydrophobic subunits of human lactase-phlorizin hydrolase by gel filtration	H. BOLTON, A. J. FURTH, M.-W. HO & J. POTTER	759
The release of arachidonic acid and prostaglandins at human parturition: evidence for a precursor-product relationship between membrane diacylglycerol, monoacylglycerol, prostaglandin E ₂ and amniotic-fluid prostaglandin F _{2α}	H. A. LEAVER, D. J. R. HUTCHON & D. RICHMOND	760
The mechanism of Na ⁺ -stimulated Ca ²⁺ efflux from liver and skeletal muscle mitochondria	J. J. A. HEFFRON, A. O'CALLAGHAN & J. M. FANNING	761
Measurements of lipid peroxidation and thromboplastin activity in porcine brain microsomes	G. P. CROPPER & R. M. HOWELL	762
Rheological studies on pig gastrointestinal mucous secretions	L. A. SELLERS, A. ALLEN, E. MORRIS & S. R. MURPHY	763
Isolation of mucous glycoproteins: the use of guanidinium chloride and proteolytic inhibitors	D. A. HUTTON, A. ALLEN & R. H. PAIN	764
N-Terminal amino acids of purified pig gastric mucus glycoprotein	R. J. BURGESS & A. ALLEN	765
Changes in the activity of the enzymes involved in sialic acid metabolism in isolated rat colonic mucosal cells on administration of azoxymethane	A. P. CORFIELD, J. B. RAINEY, J. R. CLAMP & S. A. WAGNER	766
The metabolism of sialic acids in isolated rat colonic mucosal cells	A. P. CORFIELD, J. R. CLAMP & S. A. WAGNER	767
Sialyltransferase activity in rat colonic mucosal cells	A. P. CORFIELD, J. R. CLAMP & S. A. WAGNER	768
The disaggregation of human Tamm-Horsfall glycoprotein	G. M. PHIMISTER & R. D. MARSHALL	769
Proteoglycan-collagen arrangements in developing rat, calf and chick tendons	J. E. SCOTT, E. W. HUGHES, B. MARCYNIUK & J. P. SCOTT	770
Action of elastase on aging human aorta elastin	R. J. ELLIOTT, K. MCBRIDE & J. D. BIGGART	772
Subcellular distribution of cadmium and lead in rat tissues	S. SURIF & F. W. HEATON	773
The degradation of copper-metallothionein-I and -II in rat liver as influenced by the intracellular distribution of the proteins	R. K. MEHRA & I. BREMNER	774
Influence of zinc on the synthesis of copper-metallothionein in the livers of rats given high-copper diets	R. K. MEHRA & I. BREMNER	775
Amino acid transport deficiency in horse erythrocytes	D. A. FINCHAM & J. D. YOUNG	776
The subcellular localization of rat liver transglutaminase	S. E. BRUCE, T. SHAH & T. J. PETERS	777
Analytical subcellular fractionation of brown and white adipose tissue in a small-volume vertical pocket rotor	A. KARMALI, D. J. MONTAGUE, B. R. HOLLOWAY & T. J. PETERS	778
Enzymic activity of erythrocyte cyldrin	J. R. HARRIS & D. K. WATKINS	779
Selective inhibition of rat olfactory receptors by concanavalin A	S. SHIRLEY, E. POLAK & G. DODD	780
Effect of concanavalin A on frog olfactory mucosa	P. WOOD, S. SHIRLEY & G. DODD	781
Deposition of elemental selenium in various parts of organs from rats given toxic doses of sodium biselenite	R. SCHOENTAL & S. VAN DORST	782
Cytoskeletal proteins in bloodstream forms of <i>Trypanosoma brucei</i>	M. C. ANKETELL & J. R. LAGNADO	783
Distribution of NADH pyrophosphatase between plasma membrane and intracellular membranes in rat hepatoma cells	R. J. PEASE, N. D. COOK, G. D. SMITH & T. J. PETERS	784
Effects of quinone analogue 5- <i>n</i> -undecyl-6-hydroxy-4,7-dioxobenzothiazole on cyanide-sensitive and cyanide-insensitive plant mitochondria	N. D. COOK & R. CAMMACK	785
Cell-free oxidation of dimethylamine by a mono-oxygenase in the methazotrophic yeast <i>Candida utilis</i>	J. GREEN & P. J. LARGE	786
Metabolism of aldehyde products of monoamine oxidation by mitochondria	R. A. REID & L. A. SKIERA	787
Arylated proteins from the yellow-fever mosquito, <i>Aedes aegypti</i>	E. ZOMER & H. LIPKE	788
Immunological characterization of hepatoma cell γ -glutamyl-transferase	J. L. DING, G. D. SMITH & T. J. PETERS	788
Evidence for the involvement of triose phosphates in the pathway of starch biosynthesis in developing wheat grain	P. L. KEELING, R. H. TYSON & I. G. BRIDGES	791
