THE APPLICATIONS OF ELECTRON SPIN/ PARAMAGNETIC RESONANCE IN BIOCHEMISTRY

Introduction	R. CAMMACK	541
Part 1: Electron Paramagnetic Resonance of Metalloproteins and Metalloenzymes		
Electron-paramagnetic-resonance spectroscopy in biochemistry: past, present and future	H. BEINERT	542
The electron paramagnetic resonance of metalloproteins	G. PALMER	548
Electron-paramagnetic-resonance studies using pre-steady-state kinetics and substitution with stable isotopes on the mechanism of action of molybdoenzymes	R. C. BRAY & G. N. GEORGE	560
Electron-paramagnetic-resonance studies of Mn(II) complexes with enzymes and substrates	G. H. REED	567
Electron-spin-resonance/electron-paramagnetic-resonance spectroscopy of iron-sulphur enzymes	R. CAMMACK, D. S. PATIL & V. M. FERNANDEZ	572
Electron-paramagnetic-resonance spectroscopy and related techniques in the study of nitrogenase	D. J. LOWE & B. E. SMITH	579
The use of electron-paramagnetic-resonance spectroscopy to establish the properties of nickel and the iron-sulphur cluster in hydrogenase from <i>Chromatium vinosum</i>	S. P. J. ALBRACHT	582
Part 2: Electron Spin Resonance of Free-Radical Systems		
Electron-paramagnetic-resonance studies of photosynthesis	M. C. W. EVANS, R. FORD & Y. E. ATKINSON	585
Spin-labels in biochemistry	A. WATTS	588
Electron-spin-resonance studies on flavoenzymes	D. E. EDMONSON	593
Applications of spin-trapping to biological systems	M. J. GREEN, H. A. O. HILL & D. G. TEW	600

Part 3: Electron Paramagnetic Resonance in the Study of Respiratory Chains

The membrane-bound fumarate reductase of <i>Escherichia coli</i> : an electron-paramagnetic-resonance study	D. SIMPKIN & W. J. INGLEDEW	603
Electron-paramagnetic-resonance studies on the spatial relationship of redox components in cytochrome oxidase	T. ONISHI, H. J. HARMON & A. J. WARING	607
Electron-paramagnetic-resonance lineshapes of biological molecules: some effects of distributed parameters	J. C. SALERNO	611
Paramagnetic probes of multicomponent electron-transfer systems	H. KAMIN, C. BATIE, J. D. LAMBETH, J. LANCASTER, L. GRAHAM & J. C. SALERNO	615
Electron-paramagnetic-resonance studies of the two-haem enzymes <i>Pseudomonas</i> cytochrome <i>c</i> peroxidase and beef heart cytochrome <i>c</i> oxidase	T. VÄNNGÅRD	619
RELATED COMMUNICATIONS		623
BOOK REVIEWS		635

RELATED COMMUNICATIONS

Electron-spin-resonance investigations of some fungal pigments	B. A. GOODMAN, D. VAUGHAN, D. B. MCPHAIL, M. V. CHESHIRE & G. P. SPARLING	623
Immunodetection of spin-labelled proteins	M. J. BARBER, D. C. EICHLER & P. SOLOMONSON	624
Photolytic studies on cytochrome <i>c</i> peroxidase from <i>Pseudomonas aeruginosa</i>	C. GREENWOOD, N. FOOTE, J. PETERSON & A. THOMSON	625
Association of nickel with the hydrogenase from aerobically grown <i>Escherichia coli</i>	D. L. HALLAHAN & D. O. HALL	626
Type-2 copper in ceruloplasmin	R. W. EVANS, A. D. MADDEN, K. J. PATEL, J. F. GIBSON & S. K. WRIGLEY	627
Nature of the activation and active site of ribulose biphosphate carboxylase from the electron-paramagnetic-resonance transition state enzyme -Mn complexes	S. GUTTERIDGE, M. PARRY, G. SCHMIDT & G. LORIMER	629
Effect of acetaldehyde on isolated hydrogenase	K. K. RAO & D. O. HALL	631
Cytochrome <i>bd</i> of <i>Escherichia coli</i> : its isolation and study by electron paramagnetic resonance	S. D. FINLAYSON & W. J. INGLEDEW	632
An electron-spin-resonance study on the blue copper protein rusticyanin	C. A. LEWIS, W. J. INGLEDEW & A. G. LAPPIN	634
