

BIOCHEMICAL SOCIETY TRANSACTIONS

London: The Biochemical Society © 1985

Managing Editor D. C. WATTS

Book Reviews Editor B. MORELAND

Contents Volume 13, Part 4, August 1985

612th MEETING, LONDON

Colloquium: Mitochondrial Myopathies

Carnitine palmitoyltransferase deficiencies

H. R. SCHOLTE, W. C. HÜLSMANN,
I. E. M. LUYT-HOUWEN, J. T. STINIS &
F. G. I. JENNEKENS 643

Mitochondrial myopathies: defects in β -oxidation

D. M. TURNBULL & H. S. A. SHERRATT 645

Mitochondrial myopathies: deficiencies localized to complex I and complex III of the mitochondrial respiratory chain

J. A. MORGAN-HUGHES, D. J. HAYES,
M. COOPER & J. B. CLARK 648

Cytochrome *c* oxidase deficiency

S. DIMAURO, M. ZEVIANI, E. BONILLA,
N. BRESOLIN, M. NAKAGAWA, A. F. MIRANDA &
M. MOGGIO 651

Investigation of human mitochondrial myopathies by phosphorus magnetic resonance spectroscopy

G. K. RADDA, D. J. TAYLOR & D. L. ARNOLD 654

Colloquium: Hormonal Regulation of Mitochondrial Metabolism

Intramitochondrial loci for the hormonal regulation of hepatic gluconeogenesis

R. C. HAYNES 655

On the question of stable activation by glucagon of mitochondrial functions

E. A. SIESS, R. I. KIENTSCH-ENGEL & F. M. FAHIMI 657

Mechanisms involved in hormone signal transduction across the mitochondrial membrane

A. P. HALESTRAP, P. T. QUINLAN,
A. E. ARMSTON & D. E. WHIPPS 659

Hormonal control of intramitochondrial Ca^{2+} -sensitive enzymes in heart, liver and adipose tissue

J. G. McCORMACK & R. M. DENTON 664

On the hormonal control of heart mitochondrial Ca^{2+}

M. CROMPTON & I. ROOS 667

Colloquium: Effect of Small Molecules on Gene Expression

The role of guanine nucleotides in translational control by protein phosphorylation

J. SIEKIERKA, T. M. MARIANO, S. OCHOA,
P. REICHEL & M. B. MATHEWS 671

Control of polypeptide chain initiation by sugar phosphates	R. J. JACKSON & E. M. HARDON	673
Translational control by amino acids and aminoacyl-tRNA synthetases in cultured mammalian cells	M. J. CLEMENS, S. A. AUSTIN, A. R. GALPINE & J. W. POLLARD	676
COMMUNICATIONS		679
BIOCHEMICAL REVIEW		
Computer graphics of large macromolecules	E. J. MILNER-WHITE & R. R. W. POET	793
BOOK REVIEWS		797

COMMUNICATIONS

Ca ²⁺ -sensitive pore-formation by myxoviruses	K. PATEL, J. S. OXFORD & C. A. PASTERNAK	679
Further evidence that Zn ²⁺ blocks voltage-dependent Ca ²⁺ channels in the mouse pancreatic β -cell	R. FERRER, S. SALA, J. V. SANCHEZ-ANDRES & B. SORIA	
Na ⁺ -dependence of thiamin transport across human buccal mucosa <i>in vivo</i>	D. F. EVERED & C. F. E. MOOR	681
Mucosal dipeptidase activity and dipeptide transport across human buccal mucosa <i>in vivo</i>	D. F. EVERED, M. K. HUNJAN & G. LONG	682
Studies on the molecular basis of H ⁺ transfer through phospholipid membranes	P. S. O'SHEA, M. THELEN & A. AZZI	682
The structure of the human erythrocyte glucose transporter: an investigation by infrared spectroscopy	D. C. LEE, D. A. ELLIOT, S. A. BALDWIN & D. CHAPMAN	684
Criteria for the measurement of proton translocation by reconstituted membrane proteins: cytochrome <i>c</i> oxidase	P. S. O'SHEA, M. THELEN & A. AZZI	685
Taurine transport in fish erythrocytes	D. A. FINCHAM, M. W. WOLOWYK & J. D. YOUNG	686
Extracellular pH and the uptake of cystine by normal and cystinotic fibroblasts	C. J. DANPURE, D. A. FYFE & P. R. JENNINGS	687
Pathways of Ca ²⁺ efflux from liver and heart mitochondria	M. D. BRAND	688
The transport of hexoses across the apical membrane of the mammary gland of the goat	A. FAULKNER, D. R. BLATCHFORD & H. T. POLLOCK	689
Studies on the location of the membrane-bound glyceraldehyde-3-phosphate dehydrogenase	R. J. MOORE & R. B. BEECHEY	690
Ca ²⁺ fluxes and cytosolic Ca ²⁺ concentrations in normal and in cholesterol-depleted erythrocytes measured with permeant Ca ²⁺ chelators	F. ROSIER & F. GIRAUD	691
Respiratory control in the mitochondrial <i>bc</i> ₁ complex	G. C. BROWN & M. D. BRAND	693
Transport of the aromatic amino acids into isolated rat liver cells by a 'T' system	M. SALTER, R. G. KNOWLES & C. I. POGSON	693
Inhibition of lactose synthetase activity by tunicamycin	D. W. WEST	694
Apparent variation in mitochondrial H ⁺ /2e caused by Mg ²⁺	B. D. PRICE & M. D. BRAND	695
Hexose uptake after herpes simplex virus infection	M. H. JAMES & C. A. PASTERNAK	696
Estimation of the permeability parameter (<i>C</i>) for the flux of a charged molecule across the Gram-negative bacterial outer membrane	W. W. NICHOLS, R. G. HEWINSON, M. P. E. SLACK & H. L. WALMSLEY	
Steps in quinol oxidation by the chloroplast cytochrome <i>b/f</i> complex	R. W. JONES & J. WHITMARSH	698
Use of non-specific immunoglobulin to accumulate liposomes in lymph nodes	S. MANGAT & H. M. PATEL	699
Location of thiol groups associated with the glycine transporter in human erythrocyte membranes	M. A. BACHER & K. P. WHEELER	700
Hormonal control of hepatic phosphate transport	J. A. ILLINGWORTH & W. J. O'REILLY	701
Effect of intracellular Na ⁺ on L-phenylalanine efflux in cultured fibroblasts	S. A. GANDOLFI, P. G. PETRONINI & A. F. BORGHETTI	702
Anthrolycholine bromide reveals two muscarinic binding sites in rat brain cortex membranes	C. RIPOLL & B. SORIA	703
Biochemical studies and subcellular fractionation of the midgut of the lepidopteran larva <i>Manduca sexta</i>	R. A. KEIGHLEY, K. J. CATTELL & J. F. DONNELLAN	704
Genetic deficiency of D- β -aminoisobutyrate: pyruvate aminotransferase in human leucocytes	D. F. EVERED, A. MORTHANASSIS, E. C. CRUTCHER & S. S. LALLY	705
Chemiluminescence induced by myxoviruses	S. MEHTA & C. A. PASTERNAK	706
Common features of pore-formation by viruses, toxins and complement	C. L. BASHFORD, G. M. ALDER & C. A. PASTERNAK	707
Monoclonal antibodies that interact with human erythrocyte nucleoside and glucose transporters	S. M. JARVIS, A. R. P. PATERSON, A. H. GOOD & C. C. CASS	708
Purification of chromaffin granule membrane glycoproteins by affinity chromatography on lectin columns	S. L. WOOD, D. K. APPS & J. H. PHILLIPS	710
Preparation and characterization of a K ⁺ -stimulated adenosine triphosphatase from the midgut of <i>Manduca sexta</i>	R. A. KEIGHLEY, K. J. CATTELL & J. F. DONNELLAN	711
Putative precursors of rat liver cytosolic and mitochondrial fumarases	B. T. KINSELLA & S. DOONAN	712
The possible glycoprotein nature of the mitochondrial antigens of primary biliary cirrhosis	I. GHADIMINEJAD & H. BAUM	713

The mitochondrial membrane antigens of primary biliary cirrhosis are proteins transported from the cytoplasm	I. GHADIMINEJAD & H. BAUM	713
Insect ganglia contain [³ H]flunitrazepam-binding sites	T. N. ROBINSON, G. G. LUNT, M. K. BATTENBY, S. N. IRVING & R. W. OLSEN	716
The erythrocyte nucleotide transporter is a glycoprotein	F. Y. P. KWONG, S. A. BALDWIN, P. R. SCUDDER & J. D. YOUNG	717
Treatment of the human erythrocyte glucose-transport protein with <i>N</i> -ethylmaleimide	D. A. ELLIOT & S. A. BALDWIN	719
Erythrocyte morphology and cholesterol transfer	J. E. MURGATROYD, S. A. WHARTON & C. GREEN	720
Enzyme topology in native, intact endoplasmic reticulum of permeabilized isolated hepatocytes	D. BROWN & T. HALLINAN	721
2-Chloroadenosine inhibits complement-induced reactive oxygen metabolite production and recovery of human polymorphonuclear leucocytes attacked by complement	P. A. ROBERTS, B. P. MORGAN, A. C. NEWBY, M. B. HALLETT & A. K. CAMPBELL	722
Cultured CHO-K ₁ cells: growth parameters and phosphoinositide metabolism	N. A. SHARIF, D. J. STEVENSON & J. N. HAWTHORNE	723
Identification of signal binding proteins in the endoplasmic reticulum membrane	A. ROBINSON, M. A. KADERBHAI & B. M. AUSTEN	724
Comparisons of pancreatic rough microsomal membranes prepared from guinea pigs with and without cholecystokinin stimulation	A. ROBINSON, M. A. KADERBHAI, J. HERMON-TAYLOR & B. M. AUSTEN	726
The effect of hydrophobic bis(D-mannose) derivatives on the rat adipocyte sugar-transport system	B. A. PARKAR, P. J. W. MIDGLEY & G. D. HOLMAN	728
Immunocytochemical studies of cytochrome oxidase deficiencies in human skeletal muscle	M. A. JOHNSON, B. KADENBACH, L. KUHN-NENTWIG, J. J. FULTHORPE, H. S. A. SHERRATT & D. M. TURNBULL	729
The cytochemical determination of enzyme activities in single skeletal-muscle fibres from patients with a partial deficiency of cytochrome oxidase	H. REICHMANN, M. A. JOHNSON, D. M. TURNBULL & H. S. A. SHERRATT	
Selective deficiency of some subunits of mitochondrial NADH dehydrogenase in an infant with congenital lactic acidosis	M. W. J. CLEETER, C. I. RAGAN, R. W. MOREADITH & A. L. LEHNINGER	731
The role of glutathione in t-butylhydroperoxide-induced Ca ²⁺ efflux from rat liver mitochondria	M. C. BEATRICE & S. SOOUDI	732
Working capacity and mitochondrial enzyme activities in muscle of hyperthyroid patients before and after 3 months of treatment	L. SESTOFT & B. SALTIN	733
Insulin-activated acetyl-CoA carboxylase kinase in Triton extracts of human placenta membranes	J. M. TAVARE, J. E. SMYTH, A. C. BORTHWICK, R. W. BROWNSEY & R. M. DENTON	734
Vasopressin and glucagon activate key oxidative enzymes in rat liver by increasing intramitochondrial [Ca ²⁺]	J. G. McCORMACK & F. F. ASSIMACOPOULOS-JEANNET	735
Hormonal regulation of liver mitochondrial glutaminase	J. D. MCGIVEN & N. M. BRADFORD	737
Chemical modification of the uncoupling protein from brown adipose tissue mitochondria	E. RIAL & D. G. NICHOLLS	738
Fatty acids as second messengers for noradrenaline-induced uncoupling of intact isolated brown adipocytes	S. A. CUNNINGHAM & D. G. NICHOLLS	739
The measurement of liver mitochondrial electrochemical potential <i>in situ</i> and the effects of glucagon	S. B. SHEARS, C. J. KIRK & M. A. TITHERADGE	741
Evidence indicating that ATP addition to rat hepatocytes causes increases in cytoplasmic free Ca ²⁺ and oxoglutarate dehydrogenase activity: comparison with the effects of adenosine	J. M. STADDON & J. D. MCGIVAN	742
Decreased urea synthesis in cafeteria diet-induced hyperphagia	T. BARBER, J. R. VIÑA, J. VIÑA & J. CABO	743
Stimulation of the protonmotive force and pyruvate uptake in mitochondria after dexamethasone treatment of rats	A. D. MARTIN & M. A. TITHERADGE	744
Control of branched-chain 2-oxo acid dehydrogenase complex by reversible phosphorylation	A. P. BRADFORD, K. G. COOK & S. J. YEAMAN	745
The rapid physiological control of rat liver oxidative phosphorylation by tri-iodo-L-thyronine	J. MOWBRAY & A. CRESPO-ARMAS	746
Interactions of branched-chain oxo acids with pyruvate metabolism in rat hepatocytes	L. AGIUS & K. BARTLETT	747
Protein inhibitors of the mitochondrial ATPase from mammalian tissues	D. A. HARRIS, P. J. JACKSON & M. A. HOOPER	748

Hormonal stimulation of glutamine degradation in rat hepatocytes	J. M. ESTRELA, A. J. VERHOEVEN & A. J. MEIJER	750
Stress proteins are induced by hyperosmolarity in chick embryo fibroblasts	P. G. PETRONINI, M. TRAMACERE, G. PIEDIMONTE & A. F. BORGHETTI	751
Pyrophosphate analogues as inhibitors of viral polymerases	D. W. HUTCHINSON, M. NAYLOR, G. SEMPLE & P. A. CLOAD	752
The major P^1, P^4 -bis-(5'-adenosyl)-tetrphosphate-binding protein in <i>Artemia</i> is a protein kinase	M. PRESCOTT & A. G. McLENNAN	753
The role of an upstream sequence in the transcription of a human transfer RNA gene	J. P. GODDARD, A. McLAREN, T. CARR, M. BIENZ & J. D. SMITH	754
Initiation of protein synthesis in rat skeletal muscle	S. COX & C. G. PROUD	755
Structural and functional properties of protein synthesis initiation factors eIF-2 and eIF-2B from rat liver	D. R. COLTHURST & C. G. PROUD	756
Optimal litter size is required for postnatal development studies	F. VITIELLO, J. CLOS, G. VINCEDON & G. GOMBOS	757
Preferential effect of early undernutrition on rat cerebellar cholesterol and phospholipids	F. VITIELLO, C. DI BENEDETTA & G. GOMBOS	758
Comparison of the effect of early undernutrition imposed by two different methods on rat cerebellar development	F. VITIELLO, J. LEGRAND, L. CIOFFI & G. GOMBOS	759
Hepatic protein biosynthesis: model systems for studying hepatotoxins	H. M. HUGHES, G. M. POWELL & C. G. CURTIS	760
Inhibition by cigarette smoke and acrolein of pulmonary protein biosynthesis	K. H. HELLSTERN, C. G. CURTIS, D. G. UPSHALL & G. M. POWELL	761
DNA hybridization of cervical scrapes	C. WICKENDEN, A. D. B. MALCOLM & D. V. COLEMAN	761
Substrate cycles: do they really cause amplification?	D. A. FELL & H. M. SAURO	762
Iron absorption and plasma and mucosal transferrins in hypoxic rats	K. OSTERLOH, R. J. SIMPSON, K. RAJA, S. SNAPE & T. J. PETERS	763
Decreased erythrocyte membrane fluidity in peripheral vascular disease: an electron-spin-resonance study	T. KAMALATI, A. K. AH-SEE, J. BROOM & A. BULLOCK	765
Nuclear kinase 1 activity in partially hepatectomized rat livers	D. V. E. CUMMING, M. G. ORD & L. A. STOCKEN	765
A low-temperature mechanistic study of the zinc-metallo β -lactamase from <i>Bacillus cereus</i>	R. BICKNELL & S. G. WALEY	766
The effects of metal ions on the oxidase activity of caeruloplasmin	M. K. YOUNIS & N. J. BIRCH	768
Combination of cytochrome <i>c</i> oxidase preparations with catalase	J. M. WRIGGLESWORTH, J. ELSDEN & H. BAUM	768
Structural studies on K1 β -lactamase from <i>Klebsiella aerogenes</i>	E. L. EMANUEL, J. GAGNON & S. G. WALEY	769
Phosphodiesterases of human spleen	A. MULLETT & M. CARROLL	771
A photochemical reaction between <i>N</i> -terminal valine dipeptides and ninhydrin	E. NEUZIL & Y. VIDAL	771
Properties of chick kidney alkaline phosphatase	J. MUSSARAT & P. J. BUTTERWORTH	773
Fluorescence polarization studies of the thrombin/anti-thrombin reactions	J. R. N. EVINGTON, P. A. FELDMAN, M. LUSCOMBE & J. J. HOLBROOK	773
The specific release of tubulin from the pellicular microtubules of <i>Trypanosoma brucei</i> is initiated by Ca^{2+}	M. T. DOLAN & H. P. VOORHEIS	775
Characterization of apolipoprotein B by sodium dodecyl sulphate gel electrophoresis and immunoblotting	S. GRIFFIN & P. KNOX	775
Dependence of erythrocyte shape on membrane properties	S. C. OMORPHOS, C. M. HAWKEY & C. RICE-EVANS	776
An improved assay method for cholesterol-7 α -hydroxylase	A. WALKER & D. J. WILLIAMS	778
Partial purification of a major ricin 120 receptor from rat spleen	B. K. GROEGER, D. S. O'DELL & D. J. WILLIAMS	779
Changes in gene expression during foetal development of the guinea-pig small intestine	N. MIAN, G. McALLISTER, D. O. ROBINSON, K. A. CHRISTIANSON & D. S. BAILEY	779
The luminal surface membrane of the guinea-pig small intestine and colon	D. S. BAILEY, K. A. CHRISTIANSON & T. M. SMITH	780
Enterokinase is bound to the asialoglycoprotein receptor on rat hepatocytes	D. GRANT	782

Applications of k_e , the endocytotic rate constant, to the measurement of asialoglycoprotein uptake by rat hepatocytes	R. SHARMA & D. GRANT	784
The possible role for the Golgi in the transcellular transport of enterokinase	D. GRANT, S. SIDDIQUI & J. GRAHAM	785
Phorbol ester-induced inhibition of vasoactive intestinal polypeptide-stimulated cyclic AMP accumulation in GH ₃ pituitary tumour cells	L. A. QUILLIAM, P. R. M. DOBSON & B. L. BROWN	786
The effects of long-term ovariectomy on the Harderian gland of the female golden hamster	R. C. SPIKE, J. MCGADEY, H. S. JOHNSTON, A. P. PAYNE, G. G. THOMPSON & M. R. MOORE	787
Interactions of aminophosphonates with rat liver phosphoserine phosphatase	Y. VIDAL, A. CASSAIGNE & E. NEUZIL	788
Prediction of potential restriction sites from protein sequences: a computer program	P. A. NORTH & A. D. B. MALCOLM	789
