

BIOCHEMICAL SOCIETY TRANSACTIONS

London: The Biochemical Society © 1985

Managing Editor D. C. WATTS

Book Reviews Editor B. MORELAND

Contents Volume 13, Part 5, October 1985

THIRD WELLCOME TRUST LECTURE

Cloned genes and their use in the analysis of inherited disease R. WILLIAMSON 807

FOURTEENTH SIR FREDERICK GOWLAND HOPKINS MEMORIAL LECTURE

The phosphorylation of proteins: a major mechanism for biological regulation E. G. KREBS 813

612th MEETING, LONDON

Colloquium: Lipid Metabolism during Pregnancy and Lactation

Placental transfer of fatty acids D. HULL & J. P. STAMMERS 821

Hormonal control of energy metabolism in pregnancy J. D. BAIRD, D. SHIRLING & J. P. ASHBY 822

Body fat regulation during pregnancy and lactation: the roles of diet and insulin P. M. VAN DUJVENVOORDE & B. J. ROLLS 824

Brown adipose tissue thermogenesis and the energetics of pregnancy and lactation in rodents P. TRAYHURN & D. RICHARD 826

Role of insulin and the insulin receptor in nutrient partitioning between the mammary gland and adipose tissue D. J. FLINT 828

Mammary gland fatty acid synthetase messenger RNA R. R. DILS, I. R. CAMERON, C. J. SKIDMORE & A. F. WEIR 830

Regulation of lipogenesis in rat tissues during pregnancy and lactation V. A. ZAMMIT 831

Colloquium: Nuclear-Magnetic-Resonance Studies of Carbohydrate Metabolism *in vivo*

³¹P nuclear-magnetic-resonance studies on superfused cerebral tissues H. S. BACHELARD, D. W. G. COX, J. FEENEY & P. G. MORRIS 835

¹H nuclear-magnetic-resonance studies of muscle metabolism *in vivo* S. R. WILLIAMS, D. G. GADIAN, E. PROCTOR, D. B. SPRAGUE, D. F. TALBOT, F. F. BROWN & I. R. YOUNG 839

| | | |
|---|---|-----|
| Perturbations in hepatic energy metabolism | R. A. ILES, J. R. GRIFFITHS & A. N. STEVENS | 843 |
| Colloquium: Inter-relationships between Xenobiotic Metabolism and Lipid Biochemistry | | |
| Co-oxidation of xenobiotics | P. MOLDÉUS, D. ROSS & R. LARSSON | 847 |
| Cytochrome <i>P</i> -450 isoenzymes involved in fatty acid metabolism | G. G. GIBSON & S. K. BAINS | 850 |
| Novel xenobiotic–lipid conjugates | J. CALDWELL | 852 |
| The significance of xenobiotic–lipid conjugation | D. H. HUTSON, P. F. DODDS & C. J. LOGAN | 854 |
| Acyl-CoA esters of xenobiotic carboxylic acids as biochemically active intermediates | H. S. A. SHERRATT | 856 |
| Species differences in hepatic peroxisome proliferation | B. G. LAKE & T. J. B. GRAY | 859 |
| Peroxisome proliferation and hepatotoxicity in rodents | P. GRASSO | 861 |
| COMMUNICATIONS | | 863 |
| BOOK REVIEWS | | 971 |

COMMUNICATIONS

| | | |
|--|---|-----|
| Effects of pregnancy and lactation on insulin-stimulated fatty acid synthesis in rat white adipose tissue | C. R. LENNOX, T. B. CRABBE & M. MINSHULL | 863 |
| Zinc and prostaglandins in human pregnancy | N. A. PUNCHARD, K. SIMMER, G. MURPHY & R. P. H. THOMPSON | |
| Rates of lipogenesis in isolated hepatocytes during late gestation in the rat | M. LORENZO & M. BENITO | 865 |
| Cyclic AMP production in rat mammary gland: adenylate cyclase activity associated with microsomal membranes | S. LADHA, D. W. WEST & R. A. CLEGG | 866 |
| Cyclic AMP production in rat mammary gland: influence of β -adrenergic agents on acini <i>in vitro</i> | I. MULLANEY & R. A. CLEGG | 867 |
| Presence of lipoprotein lipase in neonatal rat liver | M. REINA, S. VILARÓ & M. LLOBERA | 868 |
| [14 C]Glucose utilization <i>in vitro</i> in brown adipose tissue from virgin and pregnant rats | F. VILLARROYA & T. MAMPEL | 869 |
| Protein synthesis <i>in vivo</i> during pregnancy and lactation in the mouse | P. E. MILLICAN, R. G. VERNON & V. M. PAIN | 870 |
| Effect of an inhibitor of esterification of cholesterol on the secretion of cortisol by cultured bovine adrenal cortical cells | Z. JAMAL, R. SUFFOLK, G. S. BOYD & K. E. SUCKLING | 871 |
| Changes in some peroxisomal enzyme activities during pregnancy and lactation in the rat | G. M. SMALL, K. BURDETT & M. J. CONNOCK | 872 |
| The effect of dietary cholesterol on bile acid synthesis in rat liver | K. M. BOTHAM & G. S. BOYD | 873 |
| Reversible phosphorylation of cholesteryl ester hydrolase | R. J. COLBRAN & S. J. YEAMAN | 874 |
| Blood flow and net amino acid uptake by the lactating mammary gland: effect of starvation | J. R. VIÑA, A. RODRIGUEZ, J. B. MONTORO, A. IRADI, I. R. PUERTES & J. VIÑA | 876 |
| Lipogenic enzyme activities in goat mammary gland: changes with state of pregnancy and lactation and frequency of milking | C. J. WILDE, A. J. HENDERSON & C. H. KNIGHT | |
| Effects of various secretagogues on insulin secretion <i>in vitro</i> of islets of Langerhans from virgin, pregnant and lactating rats | R. J. MADON, D. M. ENSOR & D. J. FLINT | 878 |
| Isolation and characterization of bovine lipoproteins: incubation with hepatic lipase and isolated adrenal zona fasciculata cells | S. R. CORDLE, W. J. KOPER & S. J. YEAMAN | 879 |
| Inhibition of sheep liver carnitine palmitoyltransferase by methylmalonyl-CoA | N. P. J. BRINDLE, V. A. ZAMMIT & C. I. POGSON | 880 |
| Pyruvate dehydrogenase activity during pregnancy and lactation in the rat | E. KILGOUR & R. G. VERNON | 881 |
| Lipogenesis and acetyl-CoA carboxylase activity in lactating rat mammary gland: stimulation by spermine | M. R. MUNDAY & G. HARDIE | 882 |
| Regulation of glycolytic and gluconeogenic flux by flow, pH and glucose concentration in starved rat liver | L. SESTOFT & M. O. MARSHALL | 884 |
| Studies of the protective effect of ribose in myocardial ischaemia by using 31 P-nuclear-magnetic-resonance spectroscopy | J. C. CHATHAM, R. A. J. CHALLISS, G. K. RADDA & A.-M. L. SEYMOUR | 885 |
| Glucoregulation of plasma C-peptide in obese hyperglycaemic (<i>ob/ob</i>) mice | P. R. FLATT, S. M. HAMPTON, C. J. BAILEY, S. K. SWANSTON-FLATT & V. MARKS | 886 |
| Chemically induced mammary tumours: a 31 P nuclear-magnetic-resonance study of growth and therapy | J. L. RODRIGUES, A. N. STEVENS, J. WILKINSON, R. C. COOMBES & J. R. GRIFFITHS | 887 |
| Investigation of chronic hindlimb ischaemia in the rat by 31 P-nuclear-magnetic-resonance spectroscopy | D. J. HAYES, R. A. J. CHALLISS & G. K. RADDA | 888 |
| Inhibition of glycogen synthase phosphatase by Ca^{2+} | W. STALMANS & L. MVUMBI | 890 |
| Phosphofructokinase of <i>Trypanosoma brucei</i> : purification and properties | M. NWAGWU, D. J. GRAB, O. MOI YOI, H. HIRUMI & M. WATANABE | 890 |
| Positional effects of the sulphate moiety on the metabolism of tridecan sulphates | P. J. H. WEBBORN, A. H. OLAVESSEN, G. M. POWELL, C. G. CURTIS, D. HOWES & J. G. BLACK | 891 |
| Methylamine: a urinary metabolite of <i>N</i> -methylformamide in rats | P. KESTELL, L. GEORGE & A. GESCHER | 893 |
| Morphometric and biochemical studies of the liver in riboflavin-deficient rats fed ciprofibrate | R. K. VEITCH & F. VAN HOOF | 894 |

| | | |
|--|---|-----|
| Mitochondrial oxidations and tissue carnitine concentrations in riboflavin-deficient rats | R. K. VEITCH, E. J. MEREDITH, D. M. TURNBULL & H. S. A. SHERRATT | 895 |
| Effect of the peroxisome proliferator tiadenol on levels of mRNA for fatty acid-binding protein | J. McTIGUE, J. B. TAYLOR, R. K. CRAIG, L. CHRISTODOULIDES & B. KETTERER | 896 |
| Effect of lipids on the urea cycle in 'cafeteria-diet'-fed rats | D. GOMEZ, T. BARBER, J. TIMONEDA & J. CABO | |
| Differential effects of chloroquine, methylamine and 5-dimethylaminonaphthalene-1-sulphonyl cadaverine on hepatic insulin processing | G. D. SMITH, J. R. CHRISTENSEN & T. J. PETERS | 899 |
| Demonstration of two mechanisms for the transport of horseradish peroxidase into bile | P. J. LOWE, S. G. BARNWELL, R. K. SHARMA, K. S. KAN, J. PEPPARD, J. P. LUZIO & R. COLEMAN | 900 |
| Isolation of plasma membranes from pancreatic acinar cells: demonstration of a Ca ²⁺ -activated Mg ²⁺ -ATPase activity | A. R. AL-MUTAIRY & R. L. DORMER | 900 |
| The effect of low and high concentrations of lignocaine at the neuromuscular junction | F. A. WALI | 901 |
| Viral immunoblotting of measles-specific oligoclonal immunoglobulin κ and λ light chains in subacute sclerosing panencephalitis | S. P. MOYLE & E. J. THOMPSON | 902 |
| Transport of α -aminoisobutyric acid across the blood-brain barrier after different durations of ischaemia | N. V. TODD, P. PICOZZI & H. A. CROCKARD | 904 |
| Lewis rat T-cell lines specific for human myelin basic protein | S. HUSBANDS, C. LININGTON & H. WEKERLE | 905 |
| Glycosaminoglycans in ageing rat brain and in cerebral cortex from Alzheimer-type demented | H. G. JENKINS & H. S. BACHELARD | 906 |
| Inhibitory effect of norharmaline and other β -carbolines on the binding of L-tryptophan and diazepam to bovine albumin | C. A. FENERTY & W. E. LINDUP | 907 |
| Analysis of autoantigens in systemic rheumatic disease | C. A. AHMED, D. I. STOTT & A. M. CAMPBELL | 908 |
| Clonal analysis of autoantibodies in autoimmune thyroiditis | D. I. STOTT & J. McLEARIE | 909 |
| Characterization of halothane-induced antigens by immunoblotting | J. G. KENNA, J. NEUBERGER & R. WILLIAMS | 910 |
| Balb/c monoclonal antibodies to the human G1m(f) allotype: a possible germ line specificity | R. JEFFERIS & D. AMBLER | 911 |
| An enzyme-linked immunosorbent assay for calmodulin antagonists | M. E. BARDSLEY, P. J. ROBERTS & I. R. COTTINGHAM | 912 |
| High-resolution two-dimensional electrophoretic analysis of phosphorylated proteins in sub-fractions of rat brain synaptosomes | C. PERRETT & R. RODNIGHT | 913 |
| Effects of cholinergic agonists upon ⁴⁵ Ca ²⁺ influx in 12-O-tetradecanoylphorbol-13-acetate-treated human neuroblastoma cells | I. G. SCOTT, K. E. O. ÅKERMAN & L. C. ANDERSSON | 914 |
| Hypoxia in synaptosomes: oxygen thresholds for energy metabolism | I. R. PARK, M. B. THORN & H. S. BACHELARD | 915 |
| Sites of action of Ca ²⁺ -channel blockers in rat cortical synaptosomes | E. J. WHITE & H. F. BRADFORD | 916 |
| Transport of aromatic amino acids across neuronal membranes: influence of age and Na ⁺ concentration | E. HERRERO, M. C. ARAGON, J. DIEZ-GUERRA, F. VALDIVIESO & C. GIMENEZ | 917 |
| Ca ²⁺ efflux and cycling across the synaptosomal plasma membrane | R. SNELLING & D. G. NICHOLLS | 918 |
| Ca ²⁺ -dependent release of endogenous γ -aminobutyric acid from isolated nerve endings | T. S. SIHRA & D. G. NICHOLLS | 919 |
| Effect of phorbol ester on the binding of α -bungarotoxin to isolated sarcolemma | A. W. TURNER & M. E. SMITH | 920 |
| Transfer of phosphatidylinositol between isolated membranes of normal and denervated rat skeletal muscle | J. K. SHUTE, P. A. VAN PARIDON, M. E. SMITH & K. W. A. WIRTZ | 921 |
| Single-residue mutants reveal characteristics of a folding intermediate in β -lactamase | S. CRAIG, M. HOLLECKER, T. E. CREIGHTON & R. H. PAIN | 922 |
| Why averaging is useful for visualizing the course of polypeptide chains in α -carbon plots | E. J. MILNER-WHITE | 923 |
| Effect of alcohols and of glucose on the level of cytochrome P-450 in <i>Saccharomyces cerevisiae</i> after resuspension in buffer | A. BLATIAK, D. J. KING & A. WISEMAN | 924 |

| | | |
|---|---|-----|
| The kinetic mechanism of scallop myosin ATPase activity | C. WELLS, K. WARRINER, A. J. BENNETT & C. R. BAGSHAW | 925 |
| Rapid removal of regulatory light chains from scallop heavy meromyosin | A. J. BENNETT & C. R. BAGSHAW | 926 |
| Time-averaged phosphorescence depolarization in the study of membrane protein rotational mobility | E. K. MURRAY, C. J. RESTALL, M. COKE & D. CHAPMAN | 927 |
| A Ca ²⁺ -induced conformational change in the Ca ²⁺ -ATPase of sarcoplasmic reticulum detected by using time-phosphorescence depolarization | M. COKE, C. J. RESTALL, E. K. MURRAY & D. CHAPMAN | 928 |
| Observation of carbonyl stretch vibrations in acyl-chymotrypsins by using Fourier transform infrared spectroscopy | P. J. TONGE & C. W. WHARTON | 929 |
| Ultraviolet resonance Raman spectroscopy of a highly specific acyl-papain | P. J. TONGE, C. W. WHARTON, R. J. SZAWELSKI, P. M. KILLOUGH & R. E. HESTER | 930 |
| 2'-Deoxycytidine 5'-triphosphate: quantification by a sensitive radioimmunoassay | E. M. PIALL, G. W. AHERNE & V. MARKS | 932 |
| Proteoglycan-type I collagen fibril interactions in calcifying and non-calcifying connective tissues | J. E. SCOTT & M. HAIGH | 933 |
| Mitogens cause a rapid induction of ornithine decarboxylase activity in human T-lymphocytes | I. G. SCOTT, H. PÖSÖ, K. E. O. ÅKERMAN & L. C. ANDERSSON | 934 |
| Trifluoperazine-induced lactate dehydrogenase activity and soluble protein release in <i>Hymenolepis diminuta</i> <i>in vitro</i> | J. B. HIPKISS & C. J. BRANFORD WHITE | 935 |
| Regulation of sorbitol metabolism in <i>Clostridium pasteurianum</i> | W. J. MITCHELL, M. S. ROOHI & D. MORRISON | 936 |
| Use of sialic acid estimation in the diagnosis of disease and monitoring response to therapy | E. MORAN, R. O'KENNEDY & R. D. THORNES | 937 |
| Glycine formation from serine in isolated perfused rat hind-limb | H. P. S. MAKKAR & P. J. BUTTERY | 938 |
| The effects of bacitracin on the handling of [¹²⁵ I]iodo-insulin by isolated renal-cortical tubules | J. H. THOMAS, N. V. CLARK, P. G. DAVEY, C. L. J. HUDDY & J. JAMES | 939 |
| Thyrotropin receptor antibodies bind to the receptor A subunit | E. DAVIES JONES, F. A. HASHIM, F. M. CREAGH, S. E. WILLIAMS, V. B. PETERSEN & B. REES SMITH | 941 |
| The β-subunit of thyrotropin can be cross-linked to its receptor by disuccinimidyl suberate | P. R. BUCKLAND, T. W. STRICKLAND & B. REES SMITH | 942 |
| Labelling and immunoprecipitation of thyroid microsomal antigen | Y. KAJITA, D. MORGAN, A. B. PARKES & B. REES SMITH | 943 |
| Dephosphorylation of <i>myo</i> -inositol 1,4,5-trisphosphate | S. B. SHEARS, D. J. STOREY, R. H. MITCHELL & C. J. KIRK | 944 |
| Glucose formation from methylglyoxal in rat hepatocytes | G. T. SÁEZ, P. BLAY, J. R. VIÑA & J. VIÑA | 945 |
| Regulation of fatty acid synthesis in mouse brown adipose tissue in response to cold-exposure, starvation or re-feeding | M. G. BUCKLEY & E. A. RATH | 946 |
| Metabolite exchange in the isolated, perfused rabbit lung with reference to the development of oedema | J. L. PATERSON, S. M. SAPSED-BYRNE & G. M. HALL | 947 |
| Progesterin-sensitive proteins in human endometrial carcinoma | K. A. PHILIPSON, M. G. ELDER & J. O. WHITE | 948 |
| Turnover of polyphosphoinositides during platelet aggregation induced by low-density lipoproteins | K. R. BRUCKDORFER & F. GIRAUD | 949 |
| Immunostaining of Alzheimer neurofibrillary tangles with monoclonal antibodies that recognize normal neurofilaments | M. C. HAUGH, J. ULRICH, A. PROBST, J. KHAN & B. H. ANDERTON | 951 |
| Muscarinic receptors in rat hippocampus after septal lesions, atropine, and septal lesions plus atropine | J. SIMPSON, F. A. BROWN & C. M. YATES | 952 |
| Elevated levels of a microtubule-associated protein (MAP1) during rat cerebellar development | R. CALVERT & B. H. ANDERTON | 953 |
| Characterization of receptors for 5-hydroxytryptamine in spinal cord | R. MITCHELL & S. RILEY | 955 |
| The interaction of sialic acids with immobilized 5-hydroxytryptamine | A. P. CORFIELD, P. J. WINTERBURN, J. R. CLAMP, C. H. BOLTON & J. MARTIN | 956 |
| Enzymes of carbohydrate and amino acid metabolism in the human brain | C. J. CARTER | 957 |
| Abnormal carbohydrate and amino acid metabolism in the Huntington's disease brain | C. J. CARTER | 958 |

| | | |
|---|---|-----|
| Propranolol inhibits the stimulation of chicken erythrocyte adenylate cyclase activity by 5'-guanylylimidodiphosphate | A. K. KEENAN & R. MURRAY | 959 |
| Plant cytoskeletons contain intermediate filament-related proteins | C. C. J. MILLER, J. G. DUCKETT, M. J. DOWNES, I. COWELL, A. J. DOWDING, I. VIRTANEN & H. ANDERTON | 960 |
| Neurofilaments and Alzheimer neurofibrillary tangles as substrates for transglutaminase | C. C. J. MILLER & B. H. ANDERTON | 961 |
| Demonstration of immunoreactive arginine-vasotocin in human neonatal pituitaries | A. SMITH & N. McINTOSH | 962 |
| Intrathecal herpes-specific oligoclonal immunoglobulin G in herpes simplex encephalitis | S. P. MOYLE & E. J. THOMPSON | 964 |
| Effect of benzo[<i>a</i>]pyrene and its metabolites on the production of active oxygen species by rat leucocytes | R. FRENCH & E. D. WILLS | 965 |
| Isolation of oestrogen-induced proteins from chicken plasma | A. THOMAS & R. MANNING | 966 |
| Adrenergic secretory responses of submandibular acinar cells from control subjects and cystic fibrosis patients | M. A. McPHERSON, R. L. DORMER, J. A. DODGE & M. C. GOODCHILD | 967 |
| The effect of ethanol administration on the activities of synaptosomal Ca ²⁺ -ATPases in rat brain | B. KEANE & B. E. LEONARD | 969 |
