NINETEENTH CIBA MEDAL LECTURE

Fuel selection in animals

P. J. RANDLE 799

617th MEETING, DUNDEE

Colloquium: RNA Processing and Degradation

Processing and decay of RNA in *Escherichia coli*: the chicken and egg problem

D. APIRION, G. DALLMANN, A. MICZAK, J. SZEBERENYI & T. TOMCSANYI 807

Ribosomal RNA processing in *Escherichia coli* and cultured mammalian cells

D. SCHLESSINGER, J. R. THOMAS, M. KRYCH, R. SIRDESHMUKH & R. D. LITTLE 811

RNA processing in a structural gene from bacteriophage T4

F. MALEY, G. F. MALEY, D. K. WEST, M. BELFORT & F. K. CHU 813

Colloquium: Mobility and Function in Biological Membranes

Rotational diffusion on cell surfaces: contrasting effect of temperature on epidermal growth factor and Fc (immunoglobulin E) receptors

T. M. JOVIN 817

Mobility of membrane proteins and the social life of cells

M. EDIDIN & M. WIER 818

Fluorescence microphotolysis to measure nucleocytoplasmic transport *in vivo* and *in vitro*

R. PETERS, I. LANG, M. SCHOLZ, B. SCHULZ & F. KAYNE 821

Aggregation and diffusion in the mitochondrial electron-transfer chain: role in electron flow and energy transfer

S. FERGUSON-MILLER, J. HOCHMAN & M. SCHINDLER 822

On the lateral mobility of proteins in prokaryotic membranes

D. B. KELL 825

Colloquium: Time-Resolved Optical Probing of Lateral and Rotational Mobility

Picosecond laser absorption and emission techniques for fast rotation and lateral transport

G. S. BEDDARD 827

Global analysis of multiple dye fluorescence anisotropy experiments on proteins

J. M. BEECHEM, J. R. KNUTSON & L. BRAND 832

Rotations of tryptophan residues in proteins

E. GRATTON, J. R. ALCALA & G. MARRIOTT 835

Phase and modulation optical spectroscopic methods for determining triplet lifetimes and slow rotational diffusion coefficients

P. B. GARLAND & J. J. BIRMINGHAM 838

Fluorescence photobleaching and correlation spectroscopy for translational diffusion in biological systems

E. L. ELSON 839

Fluorescence photobleaching recovery techniques for translational and slow rotational diffusion in solution and on cell surfaces

D. E. KOPPEL 842

Colloquium: Assessment

Principles and methods of student assessment	D. A. BLIGH	847
Problems associated with assessing large numbers of students	E. HOFMANN	849
The oral examination	C. A. ROSS	851
The influence of assessments on students' behaviour	H. FRUNDER	852
The case for open-book examinations	R. B. REED	854

618th MEETING, LIVERPOOL**Biological Roles of Retinol and Other Retinoids**

Metabolism of retinol in the intestine and liver	K. R. NORUM, R. BLOMHOFF, M. H. GREEN, J. B. GREEN, K. O. WATHNE, T. GJOEN, M. BOTILSRUD & T. BERG	923
Retinol transport proteins	W. Y. J. CHEN, H. O. JAMES & J. GLOVER	925
Metabolism of vitamin A	J. A. OLSON	928
Regulation of differentiation of airway epithelial cells by retinoids	A. M. JETTEN, J. I. REARICK & H. L. SMITS	930
Biological properties and chemistry of some new retinoids	H.-H. WUST, B. JANSSEN & F. FRICKEL	933
Hypervitaminosis A: side-effects of retinoids	A. KISTLER	936
Retinoids and cancer	R. M. HICKS & J. TURTON	939
Retinoids in dermatology	W. J. CUNLIFFE	943

617th MEETING, DUNDEE

A combined transient electric birefringence and excluded volume approach to macromolecular shape determination in solution	S. E. HARDING	857
Localization of proteins in bovine central nervous system myelin with surface-specific and photoactivatable hydrophobic reagents	E. STEVENS, H. BAYLEY & P. J. BROPHY	858
Biosynthesis of the major integral protein of rat peripheral nerve myelin	P. J. BROPHY, C. S. GILLESPIE, D. R. COLMAN & D. D. SABATINI	859
Biosynthesis of the 2',3'-cyclic nucleotide phosphohydrolases of rat central nervous system myelin	C. S. GILLESPIE, P. J. BROPHY, D. R. COLMAN & D. D. SABATINI	859
The role of C-peptide in insulin secretion	K. DOCHERTY, I. D. PHILLIPS & K. I. J. SHENNAN	860
Molecular cloning and DNA sequence analysis of the yeast cytochrome <i>b₂</i> gene	G. A. REID	861
Apparent lack of second messenger involvement in receptor-mediated endocytosis of asialoglycoproteins by isolated rat hepatocytes	R. SHARMA, A. WATSON, S. SIDDIQUI & D. GRANT	862
Intracellular processing of enterokinase by rat liver	D. GRANT, S. SIDDIQUI & J. GRAHAM	863
Fractionation of rat liver proteins involved in translocation of newly synthesized proteins at the endoplasmic reticulum membrane	A. ROBINSON & B. AUSTEN	865
Isolation of a peptide containing a putative signal sequence from ovalbumin	A. ROBINSON, C. MEREDITH & B. AUSTEN	867
Characterization, using a vertical rotor, of the endocytic and transcytic movement of ligands in rat hepatocytes	W. J. BRANCH, J. PEREZ, B. M. MULLOCK & J. P. LUZIO	868
Intracellular sorting of proteins in isolated rat parotid acini	C. M. SANDERSON, B. M. MULLOCK & R. H. HINTON	869
Precursor forms of the constituent polypeptides of pyruvate dehydrogenase and 2-oxoglutarate dehydrogenase complexes from ox heart	O. G. L. DE MARCUCCI, A. HUNTER & J. G. LINDSAY	870
A monoclonal antibody recognizing a carbohydrate antigen present in secretory organelles of several human tissues	M. A. KERR, V. JUTAGIR, G. COGHILL, M. ALBRECHTSEN & D. HOPWOOD	871
Import of the β -subunit of yeast ATP synthase into mitochondria	M. E. LLOYD & G. A. REID	871
Subcellular location of a coated vesicle polypeptide implicates actin in coated vesicle transport	D. J. BOWER & P. JEPPESEN	872
Early changes in the bile-duct-lining cells of rats treated with α -naphthyl isothiocyanate	A. K. CONNOLLY, J. C. CONNELLY & R. H. HINTON	873
N-Terminal sequence of creatine kinase from ox brain	W. R. CHEGWIDDEN & D. A. WALZ	874
Inhibition <i>in vitro</i> of 4-methyl-coumaryl-7-amide peptide hydrolysis by peptidases in cancer tissue homogenates	A. VASISHTA, P. R. BAKER, P. E. PREECE, R. A. B. WOOD & A. CUSCHIERI	875
Hormonal regulation of cytosolic β -glucosidase in the developing rat kidney	H.-J. BOEHME, E. SCHULZE & E. HOFMANN	876
Classification of β -hairpin turns	E. J. MILNER-WHITE	877
Regulation of the ATP, Mg-dependent protein phosphatase by the modulator protein	C. C. VANDEN ABEELE, J. R. VANDENHEEDE & W. MERLEVEDE	877
The effect of zinc on stimulated superoxide production in human neutrophils: dependence on the method employed	P. C. BRANNEN & P. H. BESWICK	878
Inhibition of guanidinobenzoate with mercuric chloride and <i>m</i> -iodobenzylguanidine	F. S. STEVEN, M. M. GRIFFIN, T. L. H. WONG & F. YASMIN	879
Effect of prolactin withdrawal on the amount of β -casein mRNA in rabbit mammary explants	M. LORENZO & J. MAYER	880
Nitrosodiethylamine increases mRNA encoding rat hepatic microsomal epoxide hydrolase	N. J. BULLEID & J. A. CRAFT	881
Translational control of intestinal microvillar aminopeptidase N	G. M. COWELL, E. M. DANIELSEN, H. SJOSTROM & O. NORÉN	882
The glucose phosphotransferase system as the major site of growth inhibition of <i>Clostridium pasteurianum</i> in media of high solute content	R. P. WALTER & D. B. KELL	882
Immobilization of band 3 protein and inhibition of melittin action by divalent cations	M. J. CLAGUE & R. J. CHERRY	883

Rotational mobility of rhodopsin labelled with erythrosinyl iodoacetimide	M. COKE, C. J. RESTALL, C. M. KEMP & D. CHAPMAN	884
Rotational diffusion of band 3 reconstituted into lipid vesicles: an application of global analysis	I. E. G. MORRISON, T. J. MUHLEBACH & R. J. CHERRY	885
Correlation between thyroid plasma membrane composition and its physical characteristics studied by phase fluorimetry	H. DEPAUW, M. E. DE WOLF, G. VAN DESSEL, A. LAGROU, H. J. HILDERSON & W. DIERICK	886
The control of electron flux through cytochrome oxidase	M. P. MURPHY & M. D. BRAND	887
Uncoupler resistance in <i>Escherichia coli</i> : the effect of uncouplers on proline uptake, ATP levels and the transmembrane pH gradient	M. R. JONES, P. G. QUIRK, I. D. CAMPBELL & R. B. BEECHEY	888
The role of external Ca^{2+} in synaptosomal membrane bioenergetics	R. A. KAUPPINEN, T. S. SIHRA & D. G. NICHOLLS	889
Evidence for a re-oxidizing enzyme in human pancreatic juice	P. M. GUYAN, J. BUTLER, J. M. BRAGANZA & F. S. STEVEN	890
Component X: a distinctive polypeptide of mammalian pyruvate dehydrogenase complex containing covalently bound lipoic acid	J. A. HODGSON, O. DE MARCUCCI & J. G. LINDSAY	892
Mammalian pyruvate dehydrogenase complex binds tightly to the mitochondrial inner membrane	A. PHELPS & J. G. LINDSAY	893
The regulation of electron flux in plant mitochondria	S. T. DOBBS & A. L. MOORE	894
Immunoprecipitation of cyanide-insensitive alternative oxidase activity from solubilized <i>Arum maculatum</i> sub-mitochondrial particles	M. C. WALSH, I. R. COTTINGHAM & A. L. MOORE	895
The development of glutathione <i>S</i> -transferase and glutathione peroxidase activities in human lung	A. A. FRYER, R. HUME & R. C. STRANGE	896
The human glutathione <i>S</i> -transferases: studies on the ontogeny of isoenzymes in different tissues	C. G. FAULDER, R. HUME & R. C. STRANGE	896
The influence of type and level of dietary fat upon fatty acid composition in the muscle tissue of broiler chickens	B. KHAN, S. PATEL & D. J. MASLIN	897
Polyamine oxidase activity in adult rat hepatocytes	S. H. MACGOWAN, H. M. KEIR & H. M. WALLACE	898
Mung bean nuclease catalyses DNA cleavage with inversion of configuration at phosphorus	M. R. HAMBLIN, J. H. CUMMINS & B. V. L. POTTER	899
Adenylate cyclase activity in permeabilized rat mammary acini	T. MILLAR, R. A. CLEGG & D. W. WEST	900
Cholesterol synthesis and fatty acid synthesis may be inversely regulated in rat mammary acini	R. A. W. SMITH, B. MIDDLETON & D. W. WEST	901
The use of computer-generated enzyme kinetic data in the undergraduate biochemistry practical course	P. E. SMITH	902
Does biochemistry practical work need to be assessed?	M. CARROLL	903
Pre-prepared report sheets in the assessment of Biochemistry practical work in the University of Aberdeen	W. F. LONG, A. C. PATERSON & I. P. WILLIAMSON	904
Laboratory work in the Honours Biochemistry curriculum at the University of Aberdeen	A. C. PATERSON, I. P. WILLIAMSON & W. F. LONG	905
Continuous assessment of a first-year course in biochemistry for science undergraduates	A. G. STEPHENS & C. J. SKIDMORE	906
Protein structure and enzyme activity: evaluation of a computer self-teaching program for BMS and BDS students	D. C. WATTS, F. B. REED & M. J. P. HIGGINS	907
Student self-assessment procedures	C. F. A. BRYCE	908
Simulation of protein separation techniques on a personal computer	A. G. BOOTH	908
Ca^{2+} -independent and Ca^{2+} -dependent γ -aminobutyrate release occur from distinct compartments within guinea-pig cerebral cortical synaptosomes	T. S. SIHRA & D. G. NICHOLLS	909
<i>N</i> -Methyl-D-aspartate antagonists inhibit Ca^{2+} influx into hippocampal slices stimulated by depolarizing agents and by excitatory amino acids	J. M. CROWDER, M. J. CROUCHER, H. F. BRADFORD & J. F. COLLINS	910
Excitatory amino acid neurotransmitters, somatostatin and degenerate cortical neurons in Alzheimer's disease	P. T. FRANCIS, S. L. LOWE, A. M. PALMER, A. W. PROCTER, G. C. STRATMANN, D. NEARY, J. S. SNOWDEN & D. M. BOWEN	911
Fractionation of human blood components using tomato lectin	C. GRAHAM, P. M. MCCURRACH, A. E. DEWAR, S. J. URBANIAK & D. C. KILPATRICK	912
Influence of mast cells on macrophage function	K. N. DILEEPAN & D. J. STECHSCHULTE	913

Maintenance of steroid metabolism in primary cultures of adult rat hepatocytes in serum-free medium	A. H. HUSSIN & P. SKETT	914
An improved method for measurement of oxidative reactions of ovine and bovine granulocytes	A. P. BRANNEN & P. H. BESWICK	915
Binding of aluminium to transferrin and lactoferrin	A. A. MOSHTAGHIE & A. W. SKILLEN	916
Identification of a polyamine acetyltransferase activity in human serum	M. E. NUTTALL, A. K. SCOTT & H. M. WALLACE	917
Inhibition of antipyrine metabolite formation by ketoconazole in rat and human hepatic microsomes	G. M. HAWKSWORTH, J. E. BROWN, M. D. BURKE, & K. K. C. TAN	918
Short-term hormonal regulation of amino acid transport in isolated hepatocytes	S. K. MOULE, N. M. BRADFORD & J. D. MCGIVAN	919
Interaction of atracurium with verapamil at the rat neuromuscular junction	F. A. WALI	920
Haem biosynthesis in the Gunn rat	K. E. L. MCCOLL, F. M. BOND, G. G. THOMPSON & M. R. MOORE	921
618th MEETING, LIVERPOOL		
Effects of retinoids on malignant cells of the osteoblast lineage	R. O. C. OREFFO, J. T. TRIFFITT & M. J. O. FRANCIS	947
Quantitative analysis of cellular retinoic acid-binding protein in the human prostate	J. K. JUTLEY, J. KELLEHER, P. WHELAN & J. MIKEL	948
Distribution of cellular retinol-binding protein in avian liver	H. O. JAMES, J. CARROLL & J. GLOVER	949
3,4-Didehydroretinol (vitamin A ₂) has vitamin A activity in the rat without conversion to retinol	T. C. M. WILSON & G. A. J. PITT	950
Failure of indomethacin and aspirin to protect against retinoic acid toxicity	A. J. HARKER, P. BARNETT, J. S. LOWE & G. A. J. PITT	951
Retinol and 3,4-dehydroretinol formation from xanthophylls in the goldfish, <i>Carassius auratus</i>	B. W. DAVIES & B. H. DAVIES	952
Increased synthesis of fibronectin by human keratinocytes treated with retinoids	I. A. KING & F. M. POPE	953
Retinoids interact with the mechanism of neutrophil oxidase activation	E. COOKE & M. B. HALLETT	954
Influence of retinoids on osteoblast-like cells <i>in vitro</i>	I. R. DICKSON, J. WALLS & J. K. WRIGHT	955
Glycogen synthase in the sea mussel, <i>Mytilus edulis</i> L.: activation by glucose 6-phosphate	M. A. WHITTLE & P. A. GABBOTT	956
The effect of metal ion substitutions on thermolysin-catalysed peptide bond synthesis	I. DURRANT, R. J. BEYNON & P. B. RODGERS	957
<i>Scenedesmus obliquus</i> PS28: a tocopherol-free mutant which cannot form phytol	A. HENRY, R. POWLS & J. F. PENNOCK	958
High-performance chromatofocusing of oestrogen- and anti-oestrogen-receptor complexes	L. MYATT, D. CUKIER, M. G. ELDER & J. O. WHITE	959
Characterization of progesterone receptor induced by oestradiol and tamoxifen in the immature rat uterus	L. MYATT & J. L. WITTLIFF	960
The clinical relevance of oestrogen receptor binding to oligo(dT)-cellulose in human breast cancer	G. PARMAR, K. A. PHILIPSON, M. HERSHMAN, M. G. ELDER, C. B. WOOD & J. O. WHITE	961
Bile acids in human breast cyst fluid	P. R. BAKER, A. D. REID, Y. SIOW & P. E. PREECE	962
Identification of the products of putative cytidylate cyclase activity	R. P. NEWTON, E. E. KINGSTON, B. J. SALVAGE, J. H. BEYNON, N. A. HAKEEM & T. WASSENAAR	964
The use of gas chromatography/mass spectrometry for the identification and taxonomy of <i>Legionella</i> species	R. WAIT, P. J. DENNIS & M. J. HUDSON	965
Characterization of an unusual bile acid in human faeces by gas chromatography/mass spectrometry	R. WAIT, M. H. THOMPSON & M. J. HILL	966
The use of fast atom bombardment mass spectrometry to identify and study urinary acylcarnitines in disorders of organic acid metabolism	R. A. CHALMERS, B. M. TRACEY, T. E. STACEY, K. N. CHENG, M. J. MADIGAN & A. M. LAWSON	967
The identification of δ -tocopherol in cyanobacteria using mass-analysed ion-kinetic energy spectroscopy	C. J. MULLINS, T. J. WALTON, R. P. NEWTON, J. H. BEYNON, A. G. BRENTON & W. J. GRIFFITHS	969
The control of sterol biosynthesis in <i>Saccharomyces cerevisiae</i>	S. WILLIAMS, T. B. CRABBE, J. M. HASLAM & D. E. QUAIN	970
Application of bonded silica sorbent extraction and selective derivatization to the high-performance liquid chromatographic analysis of hydroxy and keto bile acids in human serum	P. R. BAKER, Y. SIOW & A. D. REID	971

The effect of heat shock on differentiating rabbit erythroid cells	T. A. BEI-PARASKEVOPOULOU, S. A. BONANOU-TZEDAKI & H. R. V. ARNSTEIN	973
Synthesis of heat-shock proteins in hepatomas of different growth rates	L. BARDELLA, L. SCHIAFFONATI, G. CAIRO & A. BERNELLI-ZAZZERA	974
Insulin binding by isolated rat kidney glomeruli	D. MURRAY, A. LOPEZ, P. G. DAVEY & J. H. THOMAS	975
Heterogeneous distribution of histidase in rat hepatocytes	R. L. ALLEN, D. BILLINGTON, J. MATHERS & L. E. CLARKE	976
Changes in carboxylic acid and free amino acid profiles in human dental plaque after a carbohydrate challenge <i>in situ</i>	W. M. EDGAR, M. W. J. DODDS & S. M. HIGHAM	977
Effects of paracetamol oxidation products on enzymes of a rat liver microsomal fraction	M. J. H. DAVIS & A. A. HORTON	978
Solubilization of 4-ene-5 α -reductase from porcine testicular microsomes	W. J. WATKINS, L. WILSON & D. B. GOWER	979
Effect of viscosity on cholesterol transfer between membranes	N. A. SLATER & C. GREEN	980
Trophic factors in rat serum and embryonic development	N. I. R. CALVERT, M. K. PRATTEN & F. BECK	980
Serum exhaustion by repeated culture of post-implantation rat embryos: trophic and metabolic factors	A. M. BROOKE, M. K. PRATTEN & F. BECK	981
Characterization of tetraethylammonium and acetylcholine-induced depolarizations in avian skeletal muscle	F. A. WALI	983
Possible involvement of substance P in the non-cholinergic, non-adrenergic transmission in the rat ileum	F. A. WALI	983
