Contents Volume 15, Part 1, February 1987

FOURTH WELLCOME TRUST LECTURE

The molecular pathology of haemophilia B G. G. BROWNLEE 1

619th MEETING, CAMBRIDGE

Colloquium: The Regulation of Gene Expression in Plant Cells

Hormonal and development control of gene expression in wheat D. BAULCOMBE, A. HUTTLY & R. MARTIENSSEN 9

Hormonal and development control of gene expression in castor beans D. H. NORTHCOTE 11

Characterization of developmentally and environmentally regulated genes in potato L. WILLMITZER 12

The control of floral pigmentation in *Antirrhinum* C. MARTIN, E. COEN, T. ROBBINS, J. BARTLETT, J. ALEMAIDA & R. CARPENTER 14

The use of the *Escherichia coli* β -glucuronidase gene as a gene fusion marker for studies of gene expression in higher plants R. A. JEFFERSON, M. BEVAN & T. KAVANAGH 17

Colloquium: Receptors and Their Transducing Systems

The role of G_s in activation of adenylate cyclase B. R. MARTIN, R. W. FARNDAL & S. K. F. WONG 19

Glucagon stimulates adenylate cyclase through GR2 glucagon receptors: a process which can be attenuated by glucagon stimulating inositol phospholipid metabolism through GR1 glucagon receptors M. D. HOUSLAY, M. J. O. WAKELAM, G. J. MURPHY, D. J. GAWLER & N. J. PYNE 21

Regulation of signal transduction by signal-controlled effector systems S. BAUER, P. GIERSCHIK, R. GRANDT, F. HORN & K. H. JAKOBS 24

The dual regulation of cyclic AMP and calcium by luteinizing hormone and the mechanisms of desensitization and recycling of the luteinizing hormone receptor B. A. COOKE, C. J. DIX, A. D. HABBERFIELD & M. H. F. SULLIVAN 26

Inositol trisphosphate and tetrakisphosphate phosphomonoesterases of rat liver C. J. KIRK, R. H. MICHELL, J. B. PARRY & S. B. SHEARS 28

The interaction of lithium ions with inositol lipid signalling systems A. H. DRUMMOND, L. A. JOELS & P. J. HUGHES 32

Mammalian G proteins: structure and function H. R. BOURNE, S. B. MASTERS & K. A. SULLIVAN 35

Mapping the binding sites of transducin by sequence homology, chemical modification, and by using monoclonal antibodies B. K.-K. FUNG & S. E. NAVON 39

The use of specific antibodies to identify and quantify guanine nucleotide-binding proteins G. MILLIGAN, P. GIERSCHIK & A. M. SPIEGEL 42

The role of <i>N-ras</i> p21 in the coupling of growth factor receptors in inositol phospholipid turnover	M. J. O. WAKELAM, M. D. HOUSLAY, S. A. DAVIES, C. J. MARSHALL & A. HALL	45
Monoclonal antibodies as probes of the structure and function of insulin receptors	K. SIDDLER, M. A. SOOS, R. M. O'BRIEN, R. H. GANDERTON & R. TAYLOR	47
The subunit structure of the thyrotropin receptor	B. REES SMITH, J. FURMANIAK, F. A. HASHIM, E. DAVIES JONES, R. D. HOWELLS & Y. NAKAJIMA	51
Structure and membrane topography of the lutropin receptor	H. J. RAJANIEMI, K. P. KEINÄNEN, S. KELLOKUMPU & M. K. METSIKKÖ	55
Colloquium: Protein/Ligand Interactions in Anthelmintic Chemotherapy		
Mitrotubules as target organelles for benzimidazole anthelmintic chemotherapy	K. GULL, P. J. DAWSON, C. DAVIS & E. H. BYARD	59
Levamisole: mode of action	B. G HARRIS	61
The γ -aminobutyric acid receptor of <i>Ascaris</i> as a target for anthelmintics	R. J. MARTIN	61
Avermectins: action on target pest species	D. J. WRIGHT	65
Praziquantel: mode of action	A. HARDER, P. ANDREWS & H. THOMAS	68
Schistosomicides and DNA functioning	L. PICA-MATTOCCIA, D. CIOLI & S. ARCHER	70
Colloquium: Lipid Modulation of Membrane Protein Function		
Modelling the biological membrane	T. D. MADDEN, M. J. HOPE & P. R. CULLIS	76
Lipid-protein interactions in the adaptive regulation of membrane function	A. R. COSSINS, M. BEHAN, G. JONES & K. BOWLER	77
Nuclear magnetic resonance studies of a model membrane protein (M13 coat protein) reconstituted in detergent micelles and phospholipid vesicles	J. H. WEINER, H. D. DETTMAN, G. D. HENRY, J. D. J. O'NEIL & B. D. SYKES	81
Lipid phase behaviour and lipid-protein interactions in the chloroplast photosynthetic membrane	P. J. QUINN	86
Modulation of protein-protein interactions in membranes	R. J. CHERRY	91
Colloquium: Proteins of Oxidative Phosphorylation		
Translocation intermediates on the import pathway of proteins into mitochondria	F. U. HARTL, N. PFANNER & W. NEUPERT	95
Molecular mechanism of ATP synthesis in oxidative phosphorylation	H. S. PENEFSKY	97
Structure and function of the mitochondrial ubiquinol: cytochrome <i>c</i> reductase and NADH: ubiquinone reductase	H. WEISS, P. LINKE, H. HAIKER & K. LEONARD	100
The molecular aetiology of human mitochondrial myopathies	V. M. DARLEY-USMAR	102
Structure and genes of ATP synthase	J. E. WALKER, A. L. COZENS, M. R. DYER, I. M. FEARNLEY, S. J. POWELL & M. J. RUNSWICK	104
Colloquium: Molecular Biology of the Nervous System		
Structure and biology of central nervous system neurotransmitter receptors	H. BETZ, B. SCHMITT, C. M. BECKER, G. GRENNINGLOH, A. RIENITZ, I. HERMANS-BORGMAYER, D. ZOPF, P. SCHLOß, E. SAWRUK & E. GUNDELFINGER	107
Allosteric interactions between distinct structural domains at the nicotinic acetylcholine receptor	A. MAELICKE	108
The structure and properties of the purified muscarinic acetylcholine receptor from rat forebrain	M. WHEATLEY, N. J. M. BIRDSALL, C. CURTIS, P. EVELEIGH, E. K. PEDDER, D. POYNER, J. M. STOCKTON & E. C. HULME	113
mRNA-directed synthesis and insertion of functional amino acid receptors in <i>Xenopus laevis</i> oocytes	T. G. SMART, K. M. HOUAMED, C. VAN RENTERGHEM, A. CONSTANTINI & S. MOSS	117
The metabolism and function of inositol phosphates	R. F. IRVINE	122
Inositol phospholipid turnover and protein kinase C in stimulus-response coupling	U. KIKKAWA & Y. NISHIZUKA	124
Molecular biological approaches to the relationship between short-term and long-term memory in <i>Aplysia</i>	S. SCHACHER, P. MONTAROLO, V. CASTELLUCCI, E. R. KANDEL & P. GOELET	125
A molecular genetic approach to the study of catecholamines	J. MALLET, F. BLANOT, C. BONI, S. DUMAS, N. FAUCON-BIGUET, B. GRIMA, P. HORELLOU, J.-F. JULIEN, P. KAHN, A. LAMOUROUX & T. RHYNER	126

CONTENTS

iii

Neuron-specific alternative RNA processing in neuro-endocrine gene expression	M. G. ROSENFELD, S. E. LEFF, A. F. RUSSO & R. M. EVANS	128
The structure–function relationship of the nerve growth factor molecule and the regulation of its synthesis	R. HEUMANN, C. BANDTLOW, A. DAVIES, S. KORSCHING & H. THOENEN	131
The cellular localization of mRNA in neurobiology	S. P. HUNT & M. GOEDERT	133
Brain messenger RNA levels and ribonuclease activity in Alzheimer's disease	M. R. MORRISON, S. PARDUE, K. MASCHOFF, W. S. T. GRIFFIN, C. L. WHITE III, J. GILBERT & A. ROSES	133
COMMUNICATIONS		135
618th MEETING, LIVERPOOL		
Colloquium: Some Recent Applications of Mass Spectrometry to Biochemistry		
Recent applications of plasma desorption mass spectrometry in studies of peptides and proteins	P. ROEPSTORFF, P. F. NIELSEN & P. HØJRUP	155
Application of mass spectrometry to peptide sequencing	L. W. TETLER	158
Applications of mass spectrometry to enzymic reactions	R. M. CAPRIOLI	162
Application of fast atom bombardment–mass spectrometry in gene and protein design	L. GROTHJAHN & H. STEINERT	164
Pyrolysis high-resolution gas chromatography–mass spectrometry studies on beech wood; capillary high-resolution mass spectrometry of a beech lignin fraction	J. J. BOON, A. D. POWWELS & G. B. EIJKEL	170
High-temperature gas chromatography–mass spectrometry of steroid derivatives	R. P. EVERSHERD, M. C. PRESCOTT, L. J. GOAD & H. H. REES	175
Desorption ionization of organic secondary metabolites and inorganic nutrients in food and agricultural biochemistry	R. SELF, F. A. MELLON & J. EAGLES	179
BOOK REVIEWS		183

COMMUNICATIONS

Binding of human plasma lipoproteins by <i>Trypanosoma brucei brucei</i>	M. P. T. GILLETT & J. S. OWEN	135
Immunological quantification of the light-harvesting chlorophyll <i>a/b</i> protein during leaf senescence	P. HILDITCH	136
Dual effects of protein kinase C on gonadotropin secretion from rat anterior pituitary gland	M. S. JOHNSON, R. MITCHELL & G. FINK	137
High yield solubilization of undenatured luteinizing hormone-releasing hormone	S.-A. OGIER, R. MITCHELL & G. FINK	138
Luteinizing hormone-releasing hormone rapidly elicits an opening of membrane Ca ²⁺ channels which is suppressed by protein kinase C	R. MITCHELL, N. MINAUR, M. JOHNSON, S.-A. OGIER & G. FINK	139
Sandwich hybridization using immobilized DNA	P. J. NICHOLLS, H. A. LANGDALE & A. D. B. MALCOLM	140
Pyrrrolidine-2-phosphonic acid: a new inhibitor of kidney prolidase	A. M. LACOSTE, E. NEUZIL & P. MASTALERZ	140
The reaction of pyridoxal-5'-phosphate with hydrazino compounds: a spectrophotometric study	I. CASTAGNÉ, J. FOURCHE, H. JENSEN & E. NEUZIL	142
A simple anaerobic assay for chorismate synthase	P. J. WHITE, D. M. MOUSDALE & J. R. COGGINS	144
Neurotoxin-stimulated sodium transport in insect central nervous system synaptosomes	A. K. DWIVEDY	145
Estimation of intracellular metabolites by specific adduct formation with infused labelled marker molecules	R. P. MASON & J. K. M. SANDERS	146
S-Hydroxymethylglutathione observed <i>in vivo</i> at last	R. P. MASON, J. K. M. SANDERS, A. CRAWFORD & B. K. HUNTER	147
Approaching enzymic kinetic isotope effects <i>in vivo</i> by nuclear-magnetic-resonance spectroscopy	R. P. MASON, J. K. M. SANDERS & A. C. CORNISH	148
Metabolites in human fibroblasts studied by ³¹ P and ¹ H nuclear-magnetic-resonance spectroscopy	S. E. C. DAVIES, S. R. WILLIAMS, R. A. CHALMERS & R. A. ILES	149
Propionyl-CoA inhibition of citrate synthase and methyl citrate production studied by ¹ H nuclear-magnetic-resonance spectroscopy	S. E. C. DAVIES, T. FRENKIEL, R. A. CHALMERS & R. A. ILES	150
Site-directed mutagenesis of <i>Bacillus stearothermophilus</i> lactate dehydrogenase	A. R. CLARKE, D. B. WIGLEY, D. A. BARSTOW, W. N. CHIA, A. D. B. WALDMAN, K. W. HART, T. ATKINSON & J. J. HOLBROOK	152
