Book Reviews Editor B. MORELAND

Contents Volume 15, Part 2, April 1987

620th MEETING, DUBLIN

Colloquium: Receptor-Mediated Endocytosis of Lipoproteins: Its Role in Cholesterol Homoeostasis

- | | | |
|--|---|-----|
| Compartmentalization of cholesterol in hepatic and intestinal cells: implications for bile and lipoprotein secretion | E. F. STANGE | 189 |
| Receptor-mediated endocytosis in steroid hormone-producing tissue | K. E. SUCKLING & B. OCHOA | 192 |
| Human apolipoprotein B: complete cDNA sequence and identification of structural domains of the protein | J. SCOTT, R. J. PEASE, L. M. POWELL, S. C. WALLIS, B. J. MCCARTHY, R. W. MAHLEY, B. LEVY-WILSON & T. J. KNOTT | 195 |
| Pharmacological modification of lipoprotein metabolism | J. SHEPHERD & C. J. PACKARD | 199 |
| Recombinant DNA technology and low-density lipoprotein receptor defects | J. DAVISON, B. HORSTHEMKE, A. DUNNING, R. TAYLOR & S. HUMPHRIES | 202 |

Colloquium: Glutamine, Glutamate and γ -Aminobutyrate in the Central Nervous System

- | | | |
|--|---|-----|
| An overview of the biochemistry and pharmacology of glutamatergic and GABA-ergic neurotransmission | A. SCHOUSBOE | 205 |
| Interactions between neurons and glia in glutamate/glutamine compartmentation | W. J. NICKLAS, G. ZEEVALK & A. HYNDMAN | 208 |
| Tracing of neurons with glutamate or γ -aminobutyrate as putative transmitters | J. STORM-MATHISEN & O. P. OTTERSEN | 210 |
| Localization and function of glutamine synthetase and glutaminase | G. SVENNEBY & I. A. TORGNER | 213 |
| Function of γ -hydroxybutyrate: a putative neurotransmitter | P. MANDEL, M. MAITRE, P. VAYER & V. HECHLER | 215 |
| Excitatory receptors and their role in excitotoxicity | P. J. ROBERTS & S. W. DAVIES | 218 |
| 'High-affinity' peripheral-type benzodiazepine-binding sites | D. C. WILLIAMS & G. B. O'BEIRNE | 220 |

COMMUNICATIONS

Glutathione biosynthesis under the influence of phenylephrine in isolated rat hepatocytes	J. M. ESTRELA, F. V. PALLARDÓ, G. T. SÁEZ & J. VIÑA	221
Isolation of glutathione <i>S</i> -transferase G from rat liver	F. M. MCCUSKER & T. J. MANTLE	222
Effect of glutathione depletion by treatment with substrates of the glutathione <i>S</i> -transferases on gluconeogenesis and phosphoenolpyruvate recycling in rat hepatocytes	G. T. SÁEZ, A. IRADI, J. L. GALBIS, J. M. ESTRELA, J. R. VIÑA & J. VIÑA	223
The effect of substrate methylation and of detergent on the reaction of pig liver glutathione <i>S</i> -transferase with linoleate hydroperoxides	G. WILLIAMSON, S. K. M. BALL, D. T. COXON & H. W.-S. CHAN	224
Temporal development of antioxidants in the newborn rat	F. J. KELLY & G. M. W. RICKETT	225
Measurement of enzymic lipid peroxidation by intact, lamellar endoplasmic reticulum using electropermeabilized rat hepatocytes	R. G. S. STANLEY, R. O'REILLY, C. RICE-EVANS & T. HALLINAN	226
Metabolic effects of glutathione depletion	J. VIÑA, V. CATALÁN, P. BLAY, G. T. SÁEZ, C. PÉREZ & A. RODRIGUEZ	227
Trypanothione, a novel glutathione-spermidine conjugate, partly supports nitrofurantoin-stimulated NADPH oxidation in trypanosomes	P. G. PENKETH & A. J. S. JACKSON	229
Tying glutathione in knots	R. P. MASON, S. NAYLOR, D. H. WILLIAMS, J. K. M. SANDERS & G. MONETI	230
The role of glutathione in the metabolism and dechlorination of 1,6-dichloro-1,6-dideoxyfructose	H. M. HUGHES, G. M. POWELL, D. J. SNODIN, J. SIMS, J. W. DANIEL & C. G. CURTIS	231
Thiol ester derivatives of leucine as substrates for leucine aminopeptidase	R. E. BEATTIE, B. WALKER, D. T. ELMORE & C. H. WILLIAMS	232
Isocitrate and oxoglutarate dehydrogenase activities of murine dystrophic skeletal muscle	L. A. BURKE & J. J. A. HEFFRON	233
The role of co-operativity in metabolism	H. M. SAURO & D. A. FELL	234
The kinetics of uptake and breakdown: antibiotic resistance	S. G. WALEY	235
Does butyryl-CoA dehydrogenase catalyse thiol-thioester exchange?	P. A. ELLISON & P. C. ENGEL	236
Glutamate dehydrogenase of <i>Clostridium symbiosum</i> : another example of an abrupt transition in the kinetic plots	S-E. H. SYED & P. C. ENGEL	237
Responses of metabolic systems: application of control analysis to yeast glycolysis	J. R. SMALL & D. A. FELL	238
Component X of mammalian pyruvate dehydrogenase complex: properties of lipoyl groups	J. A. HODGSON & J. G. LINDSAY	239
Human recombinant interferon α increases oestrogen receptor expression in ZR-75-1 human breast cancer cells and sensitizes them to the anti-proliferative effects of tamoxifen	H. W. VAN DEN BERG, W. LEAHEY, M. LYNCH & R. CLARKE	240
The response of human breast cancer cells to glucagon	M. CREMIN, R. CLARKE, J. NELSON & R. F. MURPHY	241
The ability of oestrogen to modulate the effects of cytotoxic drugs in human breast cancer cells: influence of oestrogen receptor status and choice of drug	R. CLARKE, H. W. VAN DEN BERG & R. F. MURPHY	242
Pharmacological and suprapharmacological concentrations of both 17β -oestradiol and tamoxifen reduce the membrane fluidity of MCF-7 and MDA-MB-436 human breast cancer cells	R. CLARKE, H. W. VAN DEN BERG, J. NELSON & R. MURPHY	243
Morpho-functional effects of Phenol Red on oestrogen-sensitive breast cancer cells	J. NELSON, R. CLARKE, N. V. MCFERRAN & R. F. MURPHY	244
The interaction of mechanism-based inhibitors with monoamine oxidase	M. C. ANDERSON, C. BACKWELL, C. H. WILLIAMS & K. F. TIPTON	244
The behaviour of amino acid amides towards monoamine oxidase	C. H. WILLIAMS	245
Radiolabelled clorgyline and L-deprenil: suicide inactivators of monoamine oxidase	F. R. C. BACKWELL & C. H. WILLIAMS	246
How similar are the phosphoglycerate mutases from yeast and rabbit muscle?	C. M. JOHNSON & N. C. PRICE	247
The inhibition of bovine serum amine oxidase by thiomolybdates <i>in vivo</i> and <i>in vitro</i>	G. MULRYAN & J. MASON	248

Inability of cyclic monoterpenes to inhibit cholesterol synthesis and to prevent the loss of cytochrome <i>P</i> -450 in rat hepatocyte culture	S. K. GERRARD & A. J. PAINE	249
Bile acid secretion in isolated hepatocytes: the effect of Na ⁺ , Ca ²⁺ and cyclic AMP	K. M. BOTHAM & K. E. SUCKLING	250
Receptor-mediated endocytosis of fluorescent-probe-labelled low-density lipoprotein using human lymphocytes, fluorimetry and flow cytometry	A. P. WOJCIECHOWSKI, A. F. WINDER & A. C. CAMPBELL	251
Kinetic studies of the low-density lipoprotein cell-surface receptor with lymphocytes from normal and hypercholesterolaemic subjects	A. P. WOJCIECHOWSKI, A. F. WINDER & M. P. HOLLIDAY	252
Characterization of the binding of human low-density lipoprotein to cultured rat hepatocytes	A. M. SALTER, J. SAXTON & D. N. BRINDLEY	253
Lipid composition in the intimal and medial zones of human aorta	L. T. MCGRATH, D. J. BIGGART & R. J. ELLIOTT	254
3-Hydroxy-3-methylglutaryl coenzyme A reductase activity in mononuclear leucocytes of diabetic patients	R. DEVERY, V. MAHER, M. MULHERN, P. COLLINS, A. JOHNSON & G. TOMKIN	255
The effect of alcohol on hepatic and lipoprotein lipase and plasma lipoproteins	D. T. BLACK, H. A. WATSON, C. WATT & E. R. SKINNER	256
Kidney brush-border membranes have an abnormal lipid composition in biliary obstructed rats	J. S. OWEN, S. KAWATA, A. CHITRANUKROH & N. MCINTYRE	257
<i>Trypanosoma brucei brucei</i> obtains cholesterol from plasma lipoproteins	M. P. T. GILLET & J. S. OWEN	258
Effects of oxygen-centre free radicals on low-density lipoprotein structure and metabolism	S. BEDWELL & W. JESSUP	259
Oxygen diffusion in natural oils and pure triglycerides	M. CROWE, P. E. O'CONNOR & B. MASTERTON	260
A study of protein adsorption to polystyrene by radioiodination and immunoassay	J. WALSH, F. E. MURNANE & J. P. GOSLING	261
Cross-synergistic interactions between components of the cellulase systems of <i>Talaromyces emersonii</i> , <i>Fusarium solani</i> , <i>Penicillium funiculosum</i> and <i>Trichoderma koningii</i>	M. P. COUGHLAN, A. P. MOLONEY, S. I. MCCRAE & T. W. WOOD	263
Papaya proteinases separated by novel means have been used to generate monoclonal antibodies	P. W. GOODENOUGH & A. J. OWEN	264
A search for multi-enzyme complexes of DNA precursor pathways in eukaryotic cells	G. HARVEY, D. STEVENSON & C. K. PEARSON	265
Contribution of endogenous muscle proteinases to tenderization and flavour in cooked muscle	N. P. PATESTOS & M. G. HARRINGTON	266
The effect of non-enzymic glycation on ligand binding to human serum albumin	G. FITZPATRICK & P. F. DUGGAN	267
The effect of lipopolysaccharide stimulation on fibronectin production by rabbit alveolar macrophages	E. M. MCILGORM, C. O'CONNOR & M. X. FITZGERALD	268
Purification of human plasma antithrombin III using affinity chromatography and high pressure liquid chromatography	G. J. P. MURPHY, M. DALY, A. O'MEARA & F. HALLINAN	269
Structure of VP1 coat protein of foot and mouth disease virus	B. H. NICHOLSON, D. STUART, D. J. ROWLANDS, F. BROWN & G. FOX	270
MgATP-dependent inactivation of rat liver aminoacyl-tRNA synthetases is explained by pyrophosphate generation and not by phosphorylation	D. L. SCHELLING & P. COHEN	271
The reduction of the thrombogenicity of an artificial surface by chemically bound albumin	H. S. FARAH & B. F. MASTERTON	272
Identification of <i>Pseudomonas aeruginosa</i> antigens in immune complexes	M. SEXTON & D. J. REEN	273
The effects of lipids on the activation of glutamate dehydrogenase by L-leucine	I. A. COUÉE & K. F. TIPTON	274
Production of rabbit anti-imipramine antibodies	A. M. O'CALLAGHAN, O. M. PHILLIPS & D. C. WILLIAMS	274
Purification and properties of calmodulin-activated phosphodiesterase from bovine brain	M. MCINERNEY & D. C. WILLIAMS	275
Effect of gastrointestinal surgery on immunocompetence	W. G. ABDUL-AHAD, D. DONALDSON, R. KIRBY, R. HUBBARD, M. E. BAILEY & J. W. T. DICKERSON	276
The use of a Fab'-β-lactamase conjugate in an enzyme-linked immunosorbent assay for bovine luteinizing hormone	W. G. ABDUL-AHAD, L. M. BYRNES & J. P. GOSLING	277

Reversibility of the metabolic adaptations to meal-feeding in rats	R. CURI, N. S. HELL & C. TIMO-IARIA	278
A study of the specificity of the anti-glial fibrillary acidic protein-like monoclonal antibody D ₇	T. FUJIMOTO, P. PURI & D. J. REEN	279
The role of lactate in thyroid cell differentiation <i>in vitro</i>	L. SMITH, C. MOTHERSILL & C. SEYMOUR	280
A model for the study of cytotoxic insults on human colorectal mucosa <i>in vitro</i>	A. MCCANN, N. AFDHAL & D. P. O'DONOGHUE	281
The relationship between copy number and stability of recombinant plasmids in <i>Bacillus subtilis</i>	M. NEWELL, A. J. MCLOUGHLIN & C. HUSSEY	281
The effect of the growth environment on the stability of recombinant plasmids in <i>Bacillus subtilis</i>	B. LICKEN, A. J. MCLOUGHLIN & C. HUSSEY	282
The characterization of an hereditary stomatocytosis	P. CARRAGHER, H. HEGARTY, I. TEMPERLEY & M. MCKILLEN	283
Calcium accumulation in the human aorta: age and disease distribution patterns	L. T. MCGRATH & R. J. ELLIOTT	284
Characterization of the degranulation response in HL-60-derived granulocytes	L. C. MEAGHER & T. G. COTTER	285
Identification of a maturation-linked cell-surface antigen on HL-60 cells	R. O'CONNOR, J. G. BRADLEY & T. G. COTTER	286
Calcium oxalate loading by skeletal muscle transverse tubule vesicles	P. G. MCCAULEY & N. M. RYAN	287
Free-oxygen radical generation in ischaemic rat intestine using a tissue section chemiluminescent assay	J. P. LAVELLE, P. B. COLLINS, A. H. JOHNSON & T. F. GOREY	289
The action of mycophenolic acid on <i>Candida albicans</i>	J. A. GALLAGHER, C. M. QUINN & P. A. WHITTAKER	290
Diuron effects on the yeast <i>Kluyveromyces lactis</i>	D. I. O'CONNOR & P. A. WHITTAKER	291
<i>N</i> -Acetyl-muramyl-L-alanyl-D-isoglutamine stimulation of rabbit alveolar macrophage collagenase product	C. POWER, C. M. O'CONNOR & M. X. FITZGERALD	292
The effect of calcium ions on prostaglandin F _{2α} , E ₂ and D ₂ biosynthesis in guinea-pig lung	P. M. MCNAMEE, A. MARKHAM & A. J. SWEETMAN	292
The production, purification and characterization of enzyme-linked donkey anti-mouse immunoglobulin G	G. DWYER, U. GILVARY, P. CARTY, R. O'KENNEDY & R. D. THORNES	293
Cloning of <i>Methanobrevibacter smithii</i> PS genomic DNA	S. C. MCGOWAN, N. L. BLUMSOM & E. M. HOEY	294
Structural studies on the major antigenic determinant present in the murine epididymis and on the surface of functionally mature epididymal spermatozoa	U. HEARTY & J. CARROLL	295
Effects of pyridoxine derivatives on ADP-induced aggregation of platelets in rat and rabbit	M. G. HARRINGTON, A. S. ELJAMIL & M. L. SALIM	295
Changes in myofibrillar proteins from electrically stimulated beef	D. J. TROY & V. P. TARRANT	297
Changes in myofibrils during conditioning of high-pH beef	D. J. TROY, V. P. TARRANT & M. G. HARRINGTON	299
Purification and properties of hydrogenase from the anaerobic bacterium <i>Veillonella alcalescens</i>	G. M. DOHERTY & S. G. MAYHEW	301
Purification and partial characterization of a soluble chymotrypsin-like luliberin-cleaving endopeptidase from guinea-pig brain cells	M. ELMORE & G. O'CUINN	302
Distribution of soluble and synaptosomal membrane-bound forms of thyroliberin-hydrolysing pyroglutamate aminopeptidase and of post-proline dipeptidyl aminopeptidase activities in various functional regions of guinea-pig brain	B. O'CONNOR & G. O'CUINN	303
The subunit composition of the chloroplast CF ₁ in spinach	F. A. MCEVOY & M. HUGHES	304
