Contents Volume 15, Part 3, June 1987

TWENTY-THIRD COLWORTH MEDAL LECTURE

Highly variable minisatellites and DNA fingerprints A. J. JEFFREYS 309

621st MEETING, LONDON

Colloquium: Aspects of Lipid Metabolism in Relation to Health and Disease

- Inositol phospholipids and cell regulation J. N. HAWTHORNE, S. H. SIMMONDS, C. M. F. SIMPSON, M. A. TONES & H. YAGISAWA 319
- Phosphatidylinositol-transfer protein and cellular phosphatidylinositol metabolism P. A. VAN PARIDON, P. SOMERHARJU & K. W. A. WIRTZ 321
- Role of arachidonic acid metabolites in inflammatory and thrombotic responses J. A. SALMON 324
- Arachidonic acid and leukotriene synthesis in relation to lung disease J. F. G. Vliegenthart, J. Verhagen & G. A. Veldink 326
- The role of metabolites of arachidonic acid in the physiology and pathophysiology of muscle protein metabolism P. J. REEDS, R. M. PALMER & K. W. J. WAHLE 328
- Fatty acid transport in muscle: the role of fatty acid-binding proteins J. H. VEERKAMP & R. J. A. PAULUSSEN 331
- Isomeric fatty acids M. I. GURR 336
- Regulation of cholesterol metabolism in the liver *in vivo* and *in vitro* L. H. COHEN, H. M. G. PRINCEN, J. KWEKKEBOOM, L. M. HAVEKES & H. J. KEMPEN 339
- Lipoprotein metabolism and cardiovascular disease C. J. PACKARD & J. SHEPHERD 341
- Lipid metabolism in diabetes M. A. CAWTHORNE 343
- Delivery of liposome-associated drugs to liver cells G. L. SCHERPHOF, H. H. SPANJER, J. T. P. DERKSEN, F. KUIPERS, R. J. VONK, T. DAEMEN & F. H. ROERDINK 345

Colloquium: Learning Aids

- Computers in biochemical education: MBT-NET, the Liverpool Biochemistry/Microbiology teaching network R. J. BEYNON 349
- Audio-enhanced computer-assisted learning in science teaching K. MILLER & J. E. WILLET 351
- Interactive videodiscs in the life sciences: the use of 'generic' discs in the teaching of cell biology I. THOMSON & C. F. A. BRYCE 354
- Fibre-optic communications link for teaching A. R. WILLIAMS 356

Colloquium: Liver Heterogeneity: Intercellular and Intracellular

- Intracellular and intercellular liver heterogeneity: an overview H. SIES 359

Digitonin perfusion in the study of metabolic zonation of the rat liver: potassium as an intracellular concentration reference	B. QUISTORFF	361
Oxygen gradients: the problem of hypoxia	H. DE GROOT & T. NOLL	363
Control of liver function by the autonomic liver nerves	K. JUNGERMANN	365
Structural-functional organization of hepatic glutamine and ammonium metabolism	D. HÄUSSINGER	369
A comparative study of drug-metabolizing enzymes present in isolated rat liver parenchymal, Kupffer and endothelial cells	F. OESCH & P. STEINBERG	372
Method <i>in vitro</i> for investigating the pathogenesis of alcoholic fatty liver disease in man	T. J. PETERS, N. W. Y. LEUNG & S. VENKATESAN	374

COMMUNICATIONS

Human α -enolase and γ -enolase: purification and amino acid sequence comparisons	S. M. McALEESE, F. E. THOMSON, B. DUNBAR & J. E. FOTHERGILL	377
Properties of 6-phosphofructokinase from insect flight muscle	I. BEINHAEUER, A. KLEE, H. SCHMIDT, G. WEGENER & E. A. NEWSHOLME	378
Bifunctionality of muscle and heart 6-phosphofructo-2-kinase: skeletal muscle 6-phosphofructo-2-kinase catalyses fructose 2,6-bisphosphate hydrolysis whereas heart 6-phosphofructo-2-kinase contains little fructose-2,6-bisphosphatase	M. H. RIDER & L. HUE	379
Theoretical properties of the steady-state distribution of $H_2PO_4^-$ and HPO_4^{2-} ions across the plasma membrane in glycolysing cells	G. J. KEMP, A. BEVINGTON & R. G. G. RUSSELL	380
Pitfalls in the interpretation of [^{32}P]orthophosphate labelling in glycolysing cells	G. J. KEMP, A. BEVINGTON & R. G. G. RUSSELL	381
Selective measurement of orthophosphate concentration in microlitre volumes of cultured human cells	A. BEVINGTON, G. J. KEMP, C. M. ANGIER, R. GRAHAM & G. RUSSELL	382
Pyruvate oxidoreductases in some sublittoral polychaetes	J. BLACKSTOCK & M. C. BURDASS	383
Purification and properties of 6-phosphofructo-2-kinase and fructose-2,6-bisphosphatase from rat hepatoma cells	A. M. LOISEAU, M. H. RIDER & L. HUE	384
Glycoprotein synthesis by human colon carcinoma cells <i>in vitro</i> and as xenografts in nude mice	D. S. BAILEY, T. KLINE, R. K. CLARK, S. HOFFSTEIN, G. POSTE & R. GREIG	385
A simple method for the calibration of recording fluorimeters by kinetic means in the study of NADP(P) $^+$ -dependent dehydrogenases	P. C. ENGEL & D. P. HORNBY	386
Is tissue β -hexosaminidase I $_2$ the abnormally expressed form in acute lymphoblastic leukaemia?	S. E. MOSS & G. T. N. BESLEY	387
The relationship between abnormal β -hexosaminidase expression in leukaemia and changes in glycosylation	S. E. MOSS & G. T. N. BESLEY	388
Uptake of heparan sulphate by rat rhabdomyosarcoma cells with different metastatic potentials	F. REDINI, M. MOCZAR, M.-F. POUAPON & E. MOCZAR	389
Glycosaminoglycan synthesis by aortic smooth muscle cells is modified by heparan sulphate, heparin and heparin-derived oligosaccharides	M. MOCZAR & L. ROBERT	390
Demonstration of 9- <i>O</i> -lactyl- <i>N</i> -acetylneuraminic acid in human gastric aspirates	A. P. CORFIELD, S. A. WAGNER, J. R. CLAMP, R. A. MOUNTFORD & R. SCHAUER	391
Radioactive substrates for the specific assay of glycoprotein glycosyl transfer β -galactosidase activities	A. P. CORFIELD, J. R. CLAMP & J. ALDIS	392
Detection of an <i>O</i> -acetyl-sialic acid esterase in faecal bacteria	A. P. CORFIELD, S. A. WAGNER, J. R. CLAMP & L. C. HOSKINS	393
The effect of glycosidases on the survival of red blood cells in circulation	D. AMINOFF, K. A. GUTOWSKI & D. A. LINSEMAN	394
Sialoglycoconjugates of gingiva in non-diabetic and diabetic dental patients	D. AMINOFF & E. SACHS	395
Sialyl compounds as acceptor substrates for fucosyltransferases in normal and leukaemic human granulocytes	P. H. JOHNSON & W. M. WATKINS	396
Reassessment of fucosyltransferases in human leucocytes and platelets	P. O. SKACEL & W. M. WATKINS	397
<i>N</i> -Acetyl- β -D-glucosaminide α 1 \rightarrow 3fucosyltransferase purified from human neuroblastoma	C. S. FOSTER & M. C. GLICK	398
Purification of β -D-(1 \rightarrow 4)- <i>N</i> -acetylgalactosaminyltransferase from guinea-pig kidney	F. DALL'OLIO, N. MALAGOLINI, D. H. JOZIASSE, D. H. VAN DEN EIJNDEN & F. SERAFINI-CESSI	399
A new monoclonal antibody recognizing a Lewis-related structure	L. DICKSON, D. SWALLOW & A. S. R. DONALD	400
The ABH and Lewis antigens on the human intestinal hydrolases	F. GREEN, P. GREENWELL, B. GRIFFITHS, L. DICKSON & D. SWALLOW	401
The preparation of biotin-labelled hyaluronidase	D. LACE, K. S. DODGSON, P. GACESA & A. H. OLAVESSEN	402
Contact-induced lymphocyte lysosomal enzyme synthesis and transfer	I. SHELTON, I. OLSEN, D. ABRAHAM & G. PARKER	403
The effect of fibre on the bacterial metabolism of bile acid in a continuous culture model of the large intestine	K. FADDEN, R. W. OWEN & M. J. HILL	405
Faecal steroids and colorectal cancer: bile acid profiles in familial polyposis patients and siblings	R. W. OWEN, C. J. BROOKS, M. H. THOMPSON, B. C. MORSON & M. J. HILL	406

Faecal steroid profiles in ileal reservoir patients	P. J. HENLEY, R. W. OWEN, R. J. NICHOLLS & M. J. HILL	407
A reversible Ca^{2+} -dependent pore activated by oxidative stress in heart mitochondria	M. CROMPTON, A. COSTI, L. HAYAT & I. AL NASSER	408
Apolipoprotein A abnormalities in patients with liver disease	C. H. BOLTON, M. KHALIL & A. E. READ	409
Platelet function and tissue lipid peroxidation in rats fed polyunsaturated fatty acids	K. E. HERBERT & E. D. WILLS	410
Synthesis of bile acids in Hep G2 cells: effect of substrate supply	E. R. ELDRIDGE, K. M. BOTHAM, C. R. WOLF & K. E. SUCKLING	411
Protein kinase C, phorbol esters and mRNA translocation	S. J. M. AITKEN, B. A. BRYSON & P. S. AGUTTER	412
Liposomes formed from polymerizable diacetylenic phospholipids and their potential as drug delivery systems	F. J. FREEMAN, J. A. HAYWARD & D. CHAPMAN	413
Synthesis of <i>myo</i> -inositol phosphates and analogues using a phosphite chemistry approach	M. R. HAMBLIN, B. V. L. POTTER & R. GIGG	415
Studies on the antioxidant activity of 5-lipoxygenase inhibitors	V. E. THODY, D. R. BUCKLE & K. A. FOSTER	416
A comparison of zymosan and opsonized zymosan as stimuli for arachidonic acid metabolism in human leucocytes	K. A. FOSTER & K. L. CRESCENZI	417
Arachidonic acid analogues as inhibitors of phospholipase A_2 activity	K. A. FOSTER, D. R. BUCKLE, K. L. CRESCENZI, A. E. FENWICK & J. E. TAYLOR	418
A radiometric assay for the measurement of phospholipase A_2 : comparison of different substrate lipids	K. L. CRESCENZI	419
Relationship between pseudocholinesterase and lipids in hyperlipoproteinaemia	K. M. KUTTY, V. M. PRABHAKARAN & R. H. PAYNE	421
Dietary cholesterol and bile acid synthesis in isolated rat hepatocytes	K. M. BOTHAM & G. S. BOYD	422
Temporal changes in the fatty acid composition of liver and plasma lipids in the male chicken after oestrogen administration	S. TALBOT & R. MANNING	423
Changes in prostaglandin E excretion induced with linoleates and dihomo- γ -linolenic acid	S. J. KIRTLAND, I. COWAN, H. HOOPER & C. R. SHAWYER	424
Effect of inhibitors of the arachidonic acid cascade on muscle protein degradation	A. J. M. WAGENMAKERS, M. J. JACKSON & R. H. T. EDWARDS	425
K^+ depolarization markedly enhances carbachol-stimulated inositol 1,3,4,5-tetrakisphosphate production in cerebral cortex	J. G. BAIRD & S. R. NAHORSKI	426
Enzymes involved in adenosine metabolism in brown and white adipocytes	Z. JAMAL & E. D. SAGGERSON	427
Enzymes of glycerolipid synthesis in brown and white adipocytes	H. S. BAHT & E. D. SAGGERSON	428
Partial purification and characterization of rat brain <i>myo</i> -inositol-1-phosphatase	F. CAREY, J. A. CREBA, P. J. FRENCH, A. D. SHORT, M. WALTERS & J. WAYNE	429
Identification and measurement of 12-hydroxy-5,8,10,14-icosatetraenoic acid in whole blood: implications for the radioimmunoassay of leukotriene B_4	F. CAREY, R. A. FORDER, D. HAWORTH & P. M. WOOLLARD	430
Tetramethyl rhodamine isothiocyanate-human serum albumin antibody conjugates: a useful reagent for the assessment of endocytosis of cell-surface antigens	M. C. GARNETT & R. W. BALDWIN	431
Lysosomal engorgement inhibits fluid-phase pinocytosis in macrophages	M. E. KNOWLES & D. S. LEAKE	432
Inhibition of insulin degradation in isolated rat kidney tubules	J. H. THOMAS, S. A. CORBETT & P. G. DAVEY	433
Influence of the injection of mannan on rat liver lysosomes	R. WATTIAUX, S. WATTIAUX-DE CONINCK, F. DUBOIS & A. BRAUN	435
A study of lysosomal membrane with monoclonal antibodies	M.-M. GONZE, S. WATTIAUX-DE CONINCK, F. MAINFERME, J.-J. LETESSON & R. WATTIAUX	436
Antibodies as probes of the human erythrocyte glucose transporter	A. DAVIES, K. MEERAN, M. T. CAIRNS & S. A. BALDWIN	436
Reconstitution <i>in vitro</i> of events on the endocytic pathway for asialoglycoproteins in rat hepatocytes	W. J. BRANCH, B. M. MULLOCK, N. A. SHAPIRA & J. P. LUZIO	438
Vitamin B_{12} transport through polarized monolayers of a colon carcinoma cell line	C. J. DIX, H. Y. OBRAY, I. F. HASSAN & G. WILSON	439

Lymphocyte adhesion and intercytosis of lysosomal enzymes	I. OLSEN, H. MUIR, T. PARTRIDGE & D. ABRAHAM	440
Release of iron from transferrin in the isolated endocytic vesicle	S. P. YOUNG & S. E. DAVIES	442
The effect of phorbol esters on receptor-mediated endocytosis of asialoglycoproteins by hepatocytes	R. J. SHARMA & D. A. W. GRANT	443
Intracellular delivery and release of fluorescein from an acid-labile transferrin conjugate	J. M. KEOGH-BENNETT, I. T. MATTHEWS, J. S. BEESLEY, F. PAUL, G. WILSON & P. W. TAYLOR	444
Receptor-mediated endocytosis in perfused rat livers pretreated with aflatoxin B ₁	S. N. K. AL-THAMIR, D. NEAL, T. A. CONNORS, G. M. POWELL & C. G. CURTIS	445
Cell-to-cell transfer of lysosomal enzymes from lymphocytes to I-cell disease fibroblasts	I. OLSEN, C. HAND & H. MUIR	446
The intracellular location of bilirubin	G. A. MAGUIRE, B. M. MULLOCK, W. J. BRANCH & J. P. LUZIO	448
<i>N</i> -Acetyltransferase activity in cultured cells	A. CHRISTIE, A. P. BURGESS & E. SIM	449
Accumulation of methylglyoxal-bis(guanylhydrazone) and polyamine acetyltransferase activity in BHK-21/C13 cells: the effects of spermidine	M. E. NUTTALL & H. M. WALLACE	450
Species variations in the hepatic and renal conjugation of benzoic acid with glycine or glucuronic acid	M. A. SEYMOUR, P. MILLBURN & G. H. TAIT	451
Effects of co-administration of polychlorinated biphenyls and the plasticizer di(2-ethylhexyl)phthalate on the liver and thyroid	S. ÖZALP, R. WEAVER, S. C. PRICE & R. H. HINTON	452
<i>N</i> -Terminal sequence of metallothionein from rainbow trout	J. KAY, A. CRYER, M. W. BROWN, C. G. NOREY, I. BREMNER, J. OVERNELL, B. PARTEN & B. M. DUNN	453
Effect of doxorubicin on glutathione-depleted hepatocytes	T. J. LAVELLE & L. H. PATTERSON	454
Location of binding sites for monoclonal antibodies on cytochrome <i>P</i> -450c	R. J. EDWARDS, D. SESARDIC, A. R. BOOBIS & D. S. DAVIES	455
Absorption and excretion of linear alkylbenzene sulphonates in rats	P. M. RENNISON, G. M. POWELL, A. H. OLAVESSEN, D. HOWES & J. G. BLACK	456
Isolation and characterization of rat renal proximal tubular cells	E. M. GORDON, P. H. WHITING, J. G. SIMPSON & G. M. HAWKSWORTH	457
Changes in polyamine concentrations in human breast cancer in culture: the effect of serum type and 17 β -oestradiol	S. J. CROSS & H. M. WALLACE	458
Studies on the isolation of the <i>CDC7</i> gene product of yeast	C. WANLESS, P. WELLS & I. R. JOHNSTON	459
A distinctive 30 base pair sequence in the 5'-flanking region of the <i>CDC7</i> gene of yeast	J. HAM, J. ROSAMOND & I. R. JOHNSTON	460
Splicing of the SV40 small t intron is restricted by its size	V. M. SPENCER & P. H. W. BUTTERWORTH	461
Expression of a human phosphoglycerate kinase cDNA in Chinese hamster cells	J. I. H. WALKER, M. J. MORGAN & P. FAIK	463
Isolation of phosphoglycerate kinase genes from Chinese hamster cells	S. RAWSON, M. J. MORGAN & P. FAIK	463
Inhibition of sarcoplasmic reticulum calcium pump by monoclonal antibodies	J. M. EAST, J. COLYER & A. G. LEE	464
Effect of local anaesthetics on influx of Ca ²⁺ , Na ⁺ and K ⁺ into human isolated saphenous vein	F. A. WALI & A. C. TUGWELL	465
The anti-histamine, Triludan, reduces the contraction produced by a skeletal muscle relaxant, atracurium, in rat isolated ileum	F. A. WALI, A. H. SUER, A. C. TUGWELL & V. MAKINDE	466
Neuronotrophic activity of adult human skeletal muscle extract on cultured rat spinal neurons	A. T. ROGERS, A. JEHANLI, R. HARRISON & G. G. LUNT	467
Toxic peptide from the blue-green alga <i>Microcystis aeruginosa</i> : effects on hepatocytes and thymocytes	I. R. FALCONER & M. T. C. RUNNEGAR	468
The use of a personalized system of instruction for the teaching of enzymology	P. E. SMITH	469
An analysis of student responses to a personalized system of instruction for teaching enzymology	P. E. SMITH	470
Keller plan first-year biochemistry	G. C. HARMAN & B. C. STACE	471
The effects of carbamylation on the antigenicity of human immunoglobulin G probed with monoclonal antibodies	R. JEFFERIS & L. F. HODGSON	472
Dyslipoproteinaemia in femoro-popliteal bypass patients	S. A. WISEMAN, R. M. GREENHALGH & J. T. POWELL	473
Inositol lipid turnover in isolated guinea-pig trachealis and lung parenchyma	A. M. KARDASZ, J. M. LANGLANDS, I. W. RODGER & J. WATSON	474
Inhibition of inositol lipid metabolism by adriamycin	M. G. THOMPSON & J. A. HICKMAN	475

Inhibition of antigen-induced release of eicosanoids from mast cells	P. D. MITCHELL, S. T. HARPER & E. WELLS	476
Polyclonal antibodies to human plasma lecithin : cholesterol acyltransferase	V. L. M. LIMA, D. S. HARRY, J. S. OWEN & N. MCINTYRE	477
Lysis of African trypanosomes by human plasma lipoproteins	J. S. OWEN & M. P. T. GILLETT	478
Altered steroid hormone and prostaglandin metabolism during chlamydial infection in sheep	H. A. LEAVER, A. HOWIE, W. APPELYARD, I. D. AITKEN & L. A. HAY	479
Evidence that sequential solubilization of the bile canalicular membrane occurs during the onset of bile acid-induced cholestasis	S. G. BARNWELL	480
Pulmonary surfactant biosynthesis: studies <i>in vivo</i> and <i>in vitro</i>	R. W. LEWIS, R. J. RICHARDS & J. L. HARWOOD	480
Comparative aspects of lipid metabolism in marine algae	A. L. JONES & J. L. HARWOOD	482
Changes in the level of hepatic fatty acid-binding protein during development of the rat	M. SHERIDAN, T. C. I. WILKINSON & D. C. WILTON	483
The binding properties of rat liver fatty acid-binding protein	T. C. I. WILKINSON & D. C. WILTON	484
The modification of low-density lipoproteins by macrophages in relation to atherosclerosis	S. M. RANKIN & D. S. LEAKE	485
Functional heterogeneity of human plasma low-density lipoproteins	J. W. AITKEN & K. R. BRUCKDORFER	486
Purine-induced inhibition of lecithin : cholesterol acyltransfer in rat and human plasma	M. P. T. GILLETT, V. L. M. LIMA, V. C. O. CARVALHO & R. BARBOSA	487
The phospholipase A ₁ activity in mouse preheparin indicates high levels of unbound hepatic lipase in this species	M. P. T. GILLETT & E. M. VIEIRA	488
Fatty acid oxidation in cultured skin fibroblasts from patients with inherited disorders of fatty acid metabolism: studies on the specificity of acyl-CoA dehydrogenases	R. A. CHALMERS & N. ENGLISH	489
Plasma lipids in retinitis pigmentosa	C. A. CONVERSE, T. MCLACHLAN, A. C. BOW, E. ALVAREZ, L. HUQ, C. J. PACKARD & J. SHEPHERD	490
Isolation of a phosphopeptide from bovine hormone-sensitive lipase	A. J. GARTON, S. J. YEAMAN & D. G. CAMPBELL	491
Phosphatidylcholine synthesis in rat liver Golgi	J. K. FIELDSSEND & J. A. HIGGINS	492
Phosphatidylcholine synthesis and secretion by isolated rat hepatocytes	B. W. HITCHIN & J. A. HIGGINS	493
Influence of adrenergic agents on mammary tissue	I. MULLANEY, R. A. CLEGG, D. W. WEST, R. A. W. SMITH & B. MIDDLETON	494
Purification and characterization of cellular retinoid-binding proteins from human spleen and placenta	J. K. MCMORRIS, F. H. WILSON, J. B. C. FINDLAY & E. J. WOOD	495
Effect of supplementation with dihomo- γ -linolenic acid in a subject with cystic fibrosis	W. R. HARE, S. J. KIRTLAND & M. B. MEARNES	497
The role of transferrin in the uptake of aluminium and manganese by the IMR 32 neuroblastoma cell line	C. M. MORRIS, J. M. CANDY, J. A. COURT, C. A. WHITFORD & J. A. EDWARDSON	498
Effects of prolonged ethanol consumption on cholinergic function in the basal forebrain and memory	T. ARENDT, R. MARCHBANKS & J. A. GRAY	499
Comparison of ¹²⁵ I- α -bungarotoxin and (-)-[³ H]nicotine binding in insect ganglia	D. R. E. MACALLAN, G. G. LUNT & S. WONNACOTT	500
Kinetics of rat brain NADPH-diaphorase	M. C. KEMP, D. R. KUONEN & P. J. ROBERTS	501
<i>N</i> -Methyl-D-aspartate increases rat brain synaptosomal free calcium	B. ARVIN, P. J. ROBERTS & O. G. MCMASTER	501
Olfactory adenylate cyclase of the rat	S. G. SHIRLEY, C. J. ROBINSON & G. H. DODD	502
Effect of phospholipase C and a rat muscle factor on the binding of α -bungarotoxin	N. ADHAM, A. J. HARBORNE & M. E. SMITH	503
<i>t</i> -Butylbicyclophosphoro[³⁵ S]thionate binding to ganglionic membranes of the locust (<i>Schistocerca gregaria</i>)	M. C. S. BROWN, G. G. LUNT & A. STAPLETON	503
Region-specific defects in glutamate and γ -aminobutyric acid innervation in Alzheimer's disease	R. F. COWBURN, A. J. L. BARTON, J. A. HARDY, P. WESTER & B. WINBLAD	505
The α ₂ distortion: a recurring structural motif in proteins	E. J. MILNER-WHITE	506
Electrophoretic analysis of human whole saliva by sodium dodecyl sulphate/polyacrylamide-gel electrophoresis under reducing or non-reducing conditions	T. MARSHALL, E. J. KELSO & K. M. WILLIAMS	507
Trisomy-16 foetal mouse fibroblasts accumulate higher than normal levels of cyclic AMP in response to β -adrenergic stimulation	I. G. SCOTT & R. BALÁZS	508

Lack of effect of modulators of renal phosphate handling of basolateral membrane transport in proximal-tubule cells	S. MYINT & P. J. BUTTERWORTH	509
The effects of pH on chicken liver xanthine dehydrogenase	A. L. CABRERA & E. I. CANELA	510
Purification properties and functional groups of bovine liver xanthine oxidase	F. CABRE & E. I. CANELA	511
The molecular mass and trimeric nature of chloramphenicol transacetylase	S. E. HARDING, A. J. ROWE & W. V. SHAW	513
Putative irreversible inhibitors of trypsin-like enzymes: analogues of basic amino acids bearing a carbodi-imide moiety	B. WALKER, N. L. BLUMSON & D. T. ELMORE	513
γ -[³ H]Aminobutyric acid release from superfused, isolated growth cones: postnatal development of calcium-dependent release	J. TAYLOR & P. R. GORDON-WEEKS	515
Platelet aggregation induced by a hepatocellular carcinoma cell line	V. O. SKINNER & K. R. BRUCKDORFER	516
The significance of cholesterol and its autoxidation in relation to thromboplastin activity	R. WILLIAMS & R. M. HOWELL	517
Characterization of α -adrenergic receptors in rat islets of Langerhans	J. M. FYLES, M. A. CAWTHORNE & S. L. HOWELL	518
The influence of proteases on the colony-forming efficiency of human keratinocytes in culture	M. J. RAXWORTHY, W. J. CUNLIFFE & E. J. WOOD	519
An extracellular protease from the alga <i>Chlorella sphaekii</i>	S. J. KELLAM & J. M. WALKER	520
α -Glucosidase inhibitory activities from freshwater green algae	R. J. P. CANNELL & J. M. WALKER	521
Production of β -lactamase by <i>Streptomyces albobaciens</i>	R. V. BARALLON & J. M. WARD	521
Extracellular amylases from <i>Streptomyces albus</i> G	L. ANDREWS & J. WARD	522
Bicarbonate dehydration kinetics and sulphonamide inhibition of carbonic anhydrase isoenzymes	W. R. CHEGWIDDEN & J. B. SHELTON	523
Conformational changes in cytochrome oxidase	T. A. ALLEYNE & M. T. WILSON	524
Multiple electron-transfer sites in cytochrome oxidase?	I. D. PADDON & M. T. WILSON	526
Porphyryn synthesis during pregnancy and lactation in the golden hamster	F. M. KELLY, K. J. MURRAY, J. A. MAHARAJ, S. L. STEWART, A. P. PAYNE, R. C. SPIKE, G. G. THOMPSON & M. R. MOORE	527
Cytochemical demonstration of 5'-nucleotidase in rat brain synaptosomes	J. J. CENTELLES & R. FRANCO	528
Inhibitors of enzyme efflux from damaged skeletal muscle do not influence ultrastructural damage	C. J. DUNCAN & M. J. JACKSON	530
The low-conductance delayed rectifier potassium channel involved in the action potential: a new hypothesis	J. MCD. BLAIR	530
Inhibition of proteoglycan synthesis in cartilage by high hydrostatic pressure	A. C. HALL, J. P. G. URBAN & J. C. ELLORY	531
Anomalous effects of membrane transport inhibitors at low temperatures	A. C. HALL & J. S. WILLIS	532
Effects of temperature on (Na ⁺ + K ⁺) co-transport in erythrocytes from hibernators and non-hibernators	A. C. HALL & J. S. WILLIS	533
Platelet abnormalities in Duchenne muscular dystrophy	R. C. DUNN & K. R. BRUCKDORFER	535
Localization and characterization of glutaminase activity in the murine macrophage	P. NEWSHOLME, R. CURI, E. BLOMSTRAND, S. GORDON & E. A. NEWSHOLME	536
Purification of the major rich 120-binding proteins of rat spleen by preparative gel electrophoresis	D. J. WILLIAMS & D. S. O'DELL	537
A fast protein liquid chromatography procedure for the assessment of subunit heterogeneity of plant IIS storage globulins	N. LAMBERT, G. W. PLUMB & D. J. WRIGHT	538
Preparation and characterization of basolateral membrane vesicles isolated from rabbit and duodenal enterocytes: mechanisms of glucose and phosphate transport across the basolateral membrane	S. P. SHIRAZI-BEECHEY, M. D. DE JONG, R. B. KEMP, C. H. VAN OS & R. B. BEECHEY	539
Transport of lead by everted segments of rat duodenum	A. C. HOLT, A. P. MORTON & J. A. BLAIR	540
Ultracellular self-organization	Y. SCHIFFMAN	541
DNA repair in Alzheimer's disease lymphocytes	T. A. D. SMITH, N. A. T. MACDERMOTT, D. NEARY & R. F. ITZHAKI	543
Detection of the sickle cell mutation using synthetic oligonucleotide probes	P. STANIER & R. WILLIAMSON	543

Phorbol myristoyl acetate- and endotoxin-stimulated generation of intracellular superoxide in human monocytes during endotoxaemia	K. A. KNOX, G. SMITH, P. L. YAP & H. A. LEAVER	544
Selective binding of endotoxin by human monocytes demonstrated using flow cytometry: requirement of serum	P. E. WILLIAMS, H. A. LEAVER, G. L. SANDILANDS, P. L. YAP & U. F. SCHADE	545
An analysis of the products of translation <i>in vitro</i> from normal and schizophrenic brain by two-dimensional polyacrylamide-gel electrophoresis	C. W. PERRETT & S. A. WHATLEY	546
Use of DNA probes to identify and classify mycobacteria	J. J. MCFADDEN, P. D. BUTCHER, J. THOMPSON & J. HERMON-TAYLOR	547
Use of DNA probes to detect mycobacterial DNA in tuberculosis tissue	J. J. MCFADDEN, P. D. BUTCHER, J. THOMPSON & J. HERMON-TAYLOR	548
The use of cloned mycobacterial DNA probes for the detection of mycobacteria in Crohn's disease tissue	P. D. BUTCHER, J. THOMPSON, J. HERMON-TAYLOR & J. J. MCFADDEN	549
Extracellular products of mutant strains of <i>Vibrio cholerae</i> : physiological response	V. HARLEY, A. CLEGG, A. TOMKINS & B. S. DRASAR	550
Gaucher's disease: increase of di- and tri-peptidyl carboxypeptides in plasma	M. VAN SANDE, S. SCHARPÉ, F. VAN HOOF, T. DE BARSY, J-I. INOKUCHI & D. HENDRIKS	552
Kininase I and kininase II serum activity in <i>Plasmodium falciparum</i> infection	M. VAN SANDE, S. SCHARPÉ, D. HENDRIKS, M-P. LOMMAERT & H. DE SCHEPPER	553
Structure of <i>Molluscum contagiosum</i> virus DNA and mapping of an epidermal growth factor-like coding sequence	C. D. PORTER & L. C. ARCHARD	554
Reduced concentrations of purine nucleotides in hypoxanthine phosphoribosyltransferase-deficient human lymphoblasts	G. M. MCCREANOR, R. A. HARKNESS & R. W. E. WATTS	555
Coxsackie B virus in biopsies from patients with myocarditis, dilated cardiomyopathy or skeletal muscle diseases	N. E. BOWLES & L. C. ARCHARD	556
Stability of brain RNA <i>post mortem</i> : effect of Alzheimer's disease	A. J. L. BARTON & J. A. HARDY	558
Quantitative and qualitative characterization of serum and urine glycosaminoglycans in hyperthyroidism	H. WLAD & W. SIKORSKA	550
Cloned mRNA sequences from the human colon: their potential use in the early diagnosis of neoplasia	R. A. BARTSCH, L. ROBSON, C. L. JOANNOU, I. C. TALBOT, R. H. BEGENT & D. S. BAILEY	560
Effect of mefloquine on the turnover of rat liver microsomal proteins	G. M. H. SATTI & T. A. SCOTT	561
A spectrophotometric assay for stained protein bands	G. M. H. SATTI & T. A. SCOTT	562
Spectral interactions of isonitrile odorants with hepatic and olfactory cytochrome P-450	J. JENNER, M. A. WOOD & G. H. DODD	562
Prostacyclin production by cultured human endothelial cells and tissue homogenates in response to fish liver extracts	C. EVANS, D. BILLINGTON & F. A. MCEVOY	563
The role of the practical in assessment	B. SCANLON, N. A. A. MACFARLANE & M. GRIFFIN	564
