## Contents Volume 17, Part 3, June 1989

---

### FIFTH WELLCOME TRUST LECTURE

- The electron transport chain of the microbicidal oxidase of phagocytic cells and its involvement in the molecular pathology of chronic granulomatous disease      A. W. SEGAL      427

### 629th MEETING, LONDON

#### Colloquium: Molecular Aspects of Sugar, Nucleoside and Sugar Nucleotide Transport

- The kinetics and thermodynamics of glucose transport in human erythrocytes: indications for the molecular mechanism of transport      A. G. LOWE      435
- Side-specific photolabelling of the hexose transporter      G. D. HOLMAN      438
- Translocation of sugars across the lysosome membrane      S. FORSTER, G. P. IVESON, S. J. BIRD & J. B. LLOYD      441
- Detection of proton-linked sugar transport proteins in Enterobacteriaceae      B. M. CHARALAMBOUS, M. C. J. MAIDEN, T. P. McDONALD, I. J. CUNNINGHAM & P. J. F. HENDERSON      441
- Structures and functions of mammalian nucleoside transporters      J. D. YOUNG      444
- Translocation of nucleotide sugars and nucleotide sulphate across membranes of the endoplasmic reticulum and Golgi apparatus      M. MILLA, J. CAPASSO & C. B. HIRSCHBERG      447
- Active transport of nucleosides and nucleoside drugs      S. M. JARVIS, T. C. WILLIAMS, C.-W. LEE & C. I. CHEESEMAN      448
- Identification of glucose transporters in plasma membrane and Golgi vesicle fractions prepared from lactating rat mammary gland      R. J. MADON, D. J. FLINT, A. DAVIES & S. A. BALDWIN      449

#### Colloquium: Role of Bacterial-Surface Interactions in the Development of Disease

- Structure of bacterial surfaces      I. CHOPRA      453
- Physicochemical properties of bacterial surfaces      K.-E. MAGNUSSON      454
- Adhesion of oral streptococci to teeth      H. J. BUSSCHER      458
- Interactions between bacterial surfaces and phagocyte plasma membranes      S. W. EDWARDS      460
- Bacterial capsules and interactions with complement and phagocytes      I. S. ROBERTS, F. K. SAUNDERS & G. J. BOULNOIS      462
- Consequences of bacterial attachment in the urinary tract      C. SVANBORG EDÉN, I. ENGBERG, S. HEDGES, K. JANN, C. VAN KOOTEN, P. DE MAN, H. LINDER & A. WOLD      464
- Interactions between enterocytes and enteropathogenic *Escherichia coli*      C. A. HART, R. M. BATT, J. FLETCHER, H. EMBAYE & J. R. SAUNDERS      466

Mucoid <i>Pseudomonas</i> and the cystic fibrosis lung	N. J. RUSSELL	469
Coagulase-negative staphylococci and hydrocephalus shunt infections	R. BAYSTON	471
<b>COMMUNICATIONS</b>		<b>475</b>
<b>628th MEETING, GALWAY</b>		
<b>Colloquium: Growth Factors, Receptors and Transformed Cells</b>		
Maternal growth factors as mediators of embryonic and neonatal growth	F. A. SIMMEN, R. C. M. SIMMEN & F. W. BAZER	587
Differentiation and growth in the human breast parenchyma	M. J. O'HARE, M. G. ORMEROD, P. MONAGHAN, C. S. COOPER & B. A. GUSTERSON	589
Growth factors for lung cancer	D. N. CARNEY	592
Growth factors produced by human carcinoma cells in culture	S. McDONNELL, M. DOOLEY & M. CLYNES	594
The role of transforming growth factor- $\beta$ in mouse development and carcinogenesis	R. J. AKHURST, S. A. LEHNERT, F. FEE & A. BALMAIN	595
Steroid hormones and growth factor receptors	D. R. HEADON & G. ALLAN	598
<b>COMMUNICATIONS</b>		<b>601</b>

## COMMUNICATIONS

Xenobiotic contaminants and the deleterious effects of fats	R. SCHOENTAL	475
Value enhancement of crude fish oil (capelin oil) using pancreatic lipase	R. J. HENDERSON, J. TAYLOR & J. R. SARGENT	476
The saturated-fat-fed hamster as a model of atherosclerosis	B. JACKSON, A. N. GEE, M. MARTINEZ-CAYUELA & K. E. SUCKLING	477
Esterification reactions catalysed by immobilized lipase from oilseed rape ( <i>Brassica napus</i> L.)	M. J. HILLS, I. KIEWITT & K. D. MUKHERJEE	478
Chylomicron metabolism and lipoprotein lipase activity in the rat spleen	M. A. MINDHAM & P. A. MAYES	478
Partial purification of lipase from cotyledons of oilseed rape ( <i>Brassica napus</i> L.)	M. J. HILLS & J. N. O'SULLIVAN	480
Specific uptake of dietary lectins into the systemic circulation of rats	A. PUSZTAI, F. GREER & G. GRANT	481
Cyclo-oxygenase and oxygen free radical-stimulated fibroblast proliferation	G. A. C. MURRELL, M. J. O. FRANCIS & L. BROMLEY	482
Fibroblasts release superoxide free radicals	G. A. C. MURRELL, M. J. O. FRANCIS & L. BROMLEY	483
Oxygen free radicals stimulate fibroblast proliferation	G. A. C. MURRELL, M. J. O. FRANCIS & L. BROMLEY	484
A critical thiol (—SH) group on the HLA-B27 molecule	L. MCLEAN, V. WINROW, D. BLAKE, D. PERRETT & J. ARCHER	485
Stress (heat shock) proteins in arthritic joints	L. MCLEAN, P. MAPP, J. ARCHER, D. BLAKE, A. COATES & A. CHERRIE	486
Effects of dietary vitamin E and selenium levels on rat liver and kidney microsomal glucose-6-phosphatase	D. C. WATTS & I. J. FARAJ	487
Iron redistribution and lipid peroxidation in the ischaemic kidney	J. D. GOWER, G. HEALING, B. J. FULLER & C. J. GREEN	487
The nature of membrane-bound iron-species involved in radical-mediated damage to sickle erythrocytes	A. HARTLEY & C. RICE-EVANS	488
Intracellular low molecular weight iron	N. DEIGHTON & R. C. HIDER	490
Activation of diethylstilboestrol by leucocytes to cytotoxic and potentially mutagenic species	R. C. FRENCH	491
Antioxidant status in alcoholic liver disease in man and experimental animals	R. J. WARD, J. JUTLA & T. J. PETERS	492
Fish-oil supplements, lipid peroxidation and platelet aggregation in man	J. E. BROWN & K. W. J. WAHLE	493
Stress and the role of activated oxygen scavengers and protective enzymes in plants subjected to drought	A. H. PRICE & G. A. F. HENDRY	493
Differential susceptibility of crystallin and other proteins to free-radical-induced peptide bond cleavage	P. L. CARMICHAEL, B. ZIMMERMANN & A. R. HIPKISS	494
Rheumatoid arthritis: do oxygen radicals modify the structure of immunoglobulin G? A Fourier transform infrared and fluorescence spectroscopic investigation	R. KHAN, P. I. HARRIS, C. RICE-EVANS & D. CHAPMAN	496
Smoking and blood antioxidant enzyme activities	J. J. STRAIN, D. G. M. CARVILLE, M. E. BARKER, K. A. THOMPSON, R. W. WELCH, P. YOUNG & D. A. RICE	497
<i>N</i> -Sulphonate infrared absorbances of chemically modified heparins	D. GRANT, C. F. MOFFAT, W. F. LONG & F. B. WILLIAMSON	498
Carboxylate symmetric stretching infrared absorbances of chemically modified heparins	D. GRANT, C. F. MOFFAT, W. F. LONG & F. B. WILLIAMSON	500
<i>N</i> -Acetyl amide-II and methyl C—H bending infrared absorbances of chemically modified heparins	D. GRANT, C. F. MOFFAT, W. F. LONG & F. B. WILLIAMSON	502
Rubidium efflux ( <sup>86</sup> Rb) in the rat isolated seminal vesicle	F. A. WALI & E. GREENIDGE	504
Reconstitution of the purified sarcoplasmic reticulum Ca <sup>2+</sup> , Mg <sup>2+</sup> -ATPase	F. M. MUNKONGE, F. MICHELANGELI, J. M. EAST & A. G. LEE	504
Oleic acid supplementation alters platelet function and membrane phospholipid arachidonic acid content	M. A. BARRADAS, J. A. CHRISTOFIDES, J. Y. JEREMY, D. P. MIKHAILIDIS, D. E. FRY & P. DANDONA	505
Intracellular pH and calcium in vascular smooth muscle	A. D. HUGHES, M. SCHACHTER, M. K. PATEL, K. L. CALLAGHER & P. S. SEVER	506
Formation and properties of monopolar-bipolar mixed lipid vesicles	Z. MIRGHANI, D. BERTOLA, E. PIANO & A. GLIOZZI	507
Interactions between HEP G2 human hepatoma cells, platelets and endothelial cells	V. O. SKINNER & K. R. BRUCKDORFER	508

Fluorescence studies of the $(Ca^{2+}-Mg^{2+})ATPase$ present in sarcoplasmic reticulum membranes after tryptic hydrolysis	C. J. RESTALL	509
Paradoxical role for protein kinase C in signal transduction in rat Leydig cells	M. P. ROSE & A. BAND	510
Effects of rat calcitonin-gene-related peptide-1 on cyclic AMP levels in skeletal muscle of the rat	J. M. KING, G. J. S. COOPER & B. LEIGHTON	511
Computer-search procedures for the detection of factor H-like short consensus repeats	R. A. HARRISON	512
Lack of abnormal sensitivity to complement-mediated lysis in erythrocytes deficient only in decay accelerating factor	A. H. MERRY, V. I. RAWLINSON, M. UCHIKAWA, M. J. WATTS & R. B. SIM	514
Isolation of poly (A) <sup>+</sup> RNA from bovine retina: <i>in vitro</i> translation and immunoprecipitation of opsin	S. AL-MAHDAWI & B. E. H. MADEN	515
An assay for full-length cDNA synthesis from a heterogeneous population of mRNA, exemplified by opsin and the retina	C. L. DENT & B. E. H. MADEN	516
Novel cell type producing human monoclonal antibodies obtained from a diabetic patient	S. MOYLE, K. TAN, M. DE SILVA, K. PILLAI & V. MARKS	518
Heterogeneous monoclonal anti-(anti-idiotypic) antibodies obtained from a diabetic patient recognize a membrane glycoprotein	S. MOYLE, K. TAN, M. DE SILVA & V. MARKS	519
Isolated rat seminiferous tubules synthesize guanidoacetic acid and creatine from arginine	N. P. MOORE, J. A. TIMBRELL & T. J. B. GRAY	520
[ <sup>32</sup> P] <sub>i</sub> uptake in cultured fibroblasts and osteoblasts: most of the cellular <sup>32</sup> P is not P <sub>i</sub>	G. J. KEMP, A. BEVINGTON, H. I. KHOUJA & R. G. G. RUSSELL	521
Cellular P <sub>i</sub> concentration and P <sub>i</sub> uptake do not always change in parallel in cultured fibroblasts and osteoblasts	G. J. KEMP, H. I. KHOUJA, A. BEVINGTON, A. AHMADO & R. G. G. RUSSELL	522
Assessment of sulphatide metabolism in cultured fibroblasts by immunoprecipitation of arylsulphatase A and sulphatide loading	M. TASSABEHI, A. COOPER, B. FOWLER, I. B. SARDHARWALLA & C. H. WYNN	523
Identification and characteristics of a monoclonal antibody specific for cardiac troponin C	J. P. HUGGINS, J. P. MAGUIRE & S. J. SMITH	525
Localized expression of carbonic anhydrase genes in liver and muscle detected by hybridization <i>in situ</i>	C. KELLY, S. JEFFERY, A. SMITH, P. DE BOER, A. MOORMAN & N. CARTER	526
Polyamine metabolism during pancreas enlargement induced by dietary soya-bean proteins	G. GRANT, S. BARDOZ, D. S. BROWN & A. PUSZTAI	527
Biochemical and immunological characterization of mammalian DNA topoisomerase II	C. A. AUSTIN, H. BAROT, E. E. C. MARGERRISON, M. V. HAYES & L. M. FISHER	528
Use of fura-2-loaded rat heart mitochondria to study matrix Ca <sup>2+</sup> and mitochondrial Ca <sup>2+</sup> transport	N. J. DAWES, R. L. DANIEL & J. G. MCCORMACK	529
Effect of fatty acid supplementation on the thermal sensitivity of HTC cells in culture	S. LADHA, C. A. KINGSTON, K. BOWLER & R. MANNING	530
Hyperthermic cell death of HTC cells in culture: a comparison of assays	C. A. KINGSTON, S. LADHA, R. MANNING & K. BOWLER	531
Constancy of urinary protein composition and the response to short-term dietary change as indicated by electrophoresis	T. MARSHALL, A. CONLON & K. M. WILLIAMS	532
Electrophoretic evaluation of exercise-induced proteinuria	T. MARSHALL, A. GOURLEY & K. M. WILLIAMS	533
Antibodies against rat cytochrome P-450d: comparison of the purified protein and a synthetic peptide as immunogens	R. J. EDWARDS, A. M. SINGLETON, K. RICH, D. SESARDIC, B. P. MURRAY, A. R. BOOBIS & D. S. DAVIES	535
Urinary proteins in nephrolithiasis	A. A. SIDDIQUI, J. TALATI, T. ZULFIQARALI & M. A. WAQAR	536
Flow cytometry of rat hepatocyte subfractions isolated by Percoll density gradient centrifugation	J. C. OSYPIW, R. L. ALLEN, D. BILLINGTON, L. J. DENNY & M. KELLY	537
Effect of chemicals and metabolic inhibitors on the action of <i>Clostridium perfringens</i> type A enterotoxin	N. Y. HUSAIN & B. S. DRASAR	538
Tryptophan degradation and indoleamine 2,3-dioxygenase in MRC-5 fibroblasts	R. G. KNOWLES, M. SALTER & C. I. POGSON	539
3,8-Dimethyl-2-nitroimidazo[4,5-f]quinoxaline (Nitro-MeIQx) is a potent direct-acting mutagen	B. P. MURRAY, N. J. GOODERHAM, A. R. BOOBIS & D. S. DAVIES	540
Glycine and L-glutamate transport by the band 3 anion-exchange transporter in human and in horse erythrocytes	D. A. FINCHAM, R. TEOH, D. K. MASON & J. D. YOUNG	541
Expression of glutathione S-transferase $\pi$ in human tumour cells	K. H. DIXON, I. G. COWELL, S. E. PEMBLE, J. B. TAYLOR & B. KETTERER	542

<i>Legionella pneumophila</i> : plasmid carriage and survival	V. S. HARLEY, B. S. DRASAR, G. TOVEY & D. J. PLATT	543
Recovery of human colonic cancer cells from growth inhibition by methylglyoxal bis(guanylhydrazone)	C. S. COLEMAN & H. M. WALLACE	544
The hydrophobic domain of cytochrome <i>b<sub>5</sub></i> : a spontaneous membrane insertion signal?	S. K. GEORGE, L. NAJERA, C. COUNTRYMAN, R. P. SANDOVAL, L. BENSON & G. M. IHLER	545
Activity of hexokinase in mouse oocytes and preimplantation embryos	M. A. K. HOOPER & H. J. LEESE	546
Simultaneous D- and L-glucose uptake by rabbit small intestinal brush-border membrane vesicles	C. WOOD, M. J. LAWRENCE & R. WOOTTON	547
Anti-peptide antibodies as probes of the topology and function of the human erythrocyte glucose transporter	A. DAVIES, T. L. CIARDELLI, G. E. LIENHARD & S. A. BALDWIN	549
Inhibition of the sodium-dependent uridine co-transporter in bovine renal brush-border membrane vesicles by group-specific reagents	T. C. WILLIAMS & S. M. JARVIS	550
Adenosine transport by human placental brush-border membrane vesicles	V. IRRIBARRA, S. M. JARVIS, C. BUSTAMANTE & D. L. YUDILEVICH	551
Photoaffinity labelling of the GalP D-galactose transport protein of <i>Escherichia coli</i> with cytochalasin B	M. T. CAIRNS, G. M. SMITH, P. J. F. HENDERSON & S. A. BALDWIN	552
The D-xylose binding protein of <i>Escherichia coli</i>	M. SUMIYA & P. J. F. HENDERSON	553
Metabolism of arachidonic acid by human trophoblasts in culture	M. P. ROSE & L. M. DEMERS	554
Pseudocholinesterase: a protein with functions unrelated to its name	K. M. KUTTY, V. ANAPURNA & V. PRABHAKARAN	555
Comparison of steroid metabolism in cultured human gingival fibroblasts, homogenates and subcellular fractions: some effects of phenytoin	M. SOORIYAMOORTHY & D. B. GOWER	556
Bacterial infections in patients with the hyperinfection syndrome: interactions between strongyloides larvae and gut bacteria	S. C. ARCHIBALD, D. SUNDERLAND, R. W. ASHFORD & C. A. HART	557
The integrity of proteoliposomes targeted to a model biosurface	F. J. HUTCHINSON, S. E. FRANCIS & M. N. JONES	558
BW316, a dialdehyde designed to right-shift the oxygen saturation curve of haemoglobin	R. WOOTTON & D. BULL	559
Properties of pyruvate kinase from <i>Schizosaccharomyces pombe</i>	D. DUNCAN, J. MCGOWAN & N. C. PRICE	560
Multiple forms of dihydrofolate reductase in goat liver	M. P. IQBAL, N. MAHBOOBALI & M. A. WAQAR	561
DNA synthesis in replicating simian virus 40 chromosomes <i>in vitro</i>	M. A. WAQAR	563
A contrast in allostery: aspartate transcarbamoylases from wheat and from <i>Escherichia coli</i>	R. J. YON	564
Preliminary comparison of catalytic chains of aspartate transcarbamoylases from wheat and <i>Escherichia coli</i>	S. C. J. COLE & R. J. YON	565
Differential distribution in bovine brain of distinct $\gamma$ -aminobutyric acid <sub>A</sub> receptor $\alpha$ -subunit mRNAs	W. WISDEN, B. J. MORRIS, M. G. DARLISON, S. P. HUNT & E. A. BARNARD	566
Characterization of the enzymes present on NG 108-15 cells responsible for the rapid degradation of bradykinin	C. R. SNELL, P. H. SNELL & C. SMITH	568
Solubilization and characterization of the bradykinin receptor from rat uterus	P. H. SNELL & C. R. SNELL	569
Differences in [ <sup>3</sup> H]inositol phosphate production between the neuronal cell line (SH-SY5Y) and cerebral cortex slices in response to agents which raise intracellular calcium	J. G. BAIRD, D. G. LAMBERT & S. R. NAHORSKI	570
Chemically induced methylmalonic acidemia for neurochemical and behavioural studies in rats	M. WAJNER, J. C. DUTRA & C. M. D. WANNMACHER	571
Methylmalonate increases glucose uptake <i>in vitro</i> by brain of young rats	J. C. DUTRA, M. WAJNER, C. F. WANNMACHER & C. M. D. WANNMACHER	572
Structural similarity but pharmacological heterogeneity among calcitonin gene related peptide receptors	S. M. FOORD, L. MALONE & R. K. CRAIG	573
Fructose-1,6-bisphosphate aldolases from guinea-pig cerebral cortex: is the kinetic behaviour a technical artefact?	P. C. NICHOLAS	574
Fructose-1,6-bisphosphate aldolases from guinea-pig cerebral cortex: evidence to suggest that aldolase possesses allosteric properties	P. C. NICHOLAS	575

Inhibition of thromboplastin by serum fractions from various species	R. M. HOWELL & C. ETTELAIE	576
$\delta$ -Aminolaevulinic acid is not directly toxic to human spinal cord neurons in culture	A. GORCHEIN	577
Purine synthesis <i>de novo</i> and salvage in hypoxanthine phosphoribosyltransferase-deficient mice	J. ALLSOP & R. W. E. WATTS	578
Cloning by expression of a cDNA corresponding to <i>Leishmania donovani</i> trypanothione reductase	M. C. TAYLOR, C. J. CHAPMAN, J. M. KELLY, A. H. FAIRLAMB & M. A. MILES	579
Multiplicity of the endo-1,4- $\beta$ -D-glucanase activity in <i>Cellulomonas flavigena</i>	A. J. SAMI & M. W. AKHTER	580
Thermostable microbial protein stability in aqueous:organic two-solvent phase systems	R. K. OWUSU & D. A. COWAN	581
Mammalian hepatocyte populations defined by cell-surface oligosaccharide expression and fluorescence-activated cell-sorting	Q. BAO, J. A. GILBERTSON & C. S. FOSTER	583
Oligosaccharide groups expressed during human hepatic arteriolar morphogenesis and pathogenesis	J. A. GILBERTSON, Q. BAO & C. S. FOSTER	584
Effects of pyridoxal 5'-phosphate and polyunsaturated fatty acids on blood platelet characteristics	M. L. SALIM, A. S. ELJAMIL & M. G. HARRINGTON	601
Purification and characterization of insulin-like growth factor-1 from cow colostrum	F. FRANKENNE, C. MARCOTTY, A. DUYSKAERTS, J. VAN BEEUMEN & G. MAGHUIN-ROGISTER	602
High-performance liquid chromatography of human urinary colony-stimulating factors	W. S. GILMORE & C. P. MCGUCKIN	602
Recycling polystyrene microtitre plates in an enzyme immunoassay for progesterone using labelled antibody	D. F. A. MCKILLOP, C. A. LLEWELYN & J. M. CHESWORTH	603
Competitive enzyme immunoassay of anabolic residues in cattle urine: comparison of two marker enzymes	G. DEGAND, P. SCHMITZ, W. ABDUL-AHAD, J. P. GOSLING, J. M. FRERE & G. MAGHUIN-ROGISTER	604
Phycobiliproteins as probes in immunoassays	R. SAKARIA & A. J. MACGILLIVRAY	605
Growth and peroxidase production in cultures of horseradish ( <i>Armoracia rusticana</i> )	M. PARKINSON, T. COTTER & P. J. DIX	606
Development of an enzyme-linked immunosorbent assay for caffeine	S. M. HAMPTON, S. A. FICKLING, D. TEALE & V. MARKS	607
Macrophage secretory responses to ingestion of aged neutrophils	L. MEAGHER, J. SAVILL, A. BAKER, R. FULLER & C. HASLETT	608
Urokinase-type plasminogen activator and its inhibitor PAI-1 in human breast cancer	D. REILLY, P. ANDREASEN & M. J. DUFFY	609
Salivary somatomedin C/insulin-like growth factor-1: evidence of local production	J. RYAN, T. MANTLE & D. C. COSTIGAN	610
Antibody-mediated inhibition of adhesion of <i>Pseudomonas aeruginosa</i> to epithelial cells	M. SEXTON & D. J. REEN	611
Human proinsulin produces a stimulatory effect comparable to insulin on the activity of 3-hydroxy-3-methylglutaryl-coenzyme-A reductase in rat hepatocytes	R. DEVERY	612
Testicular differentiation <i>in vitro</i> : stage-dependent action of serum is prolonged by tunicamycin	R. AGELOPOULOU & J. CARROLL	613
Glycoprotein synthesis and basement membrane formation during testicular differentiation <i>in vitro</i>	R. AGELOPOULOU & J. CARROLL	614
Fibronectin production by alveolar macrophages	E. A. MCILGORM, C. M. O'CONNOR & M. X. FITZGERALD	614
Collagenase in rheumatoid lung disease	D. MOLONEY, C. POWER, D. GILLIGAN, C. O'CONNOR & M. X. FITZGERALD	615
