### 26th COLWORTH MEDAL LECTURE

The selectivity of secretion: protein sorting in the endoplasmic reticulum H. R. B. PELHAM 795

### 630th MEETING, ABERYSTWYTH

#### Colloquium: Molecular Mechanisms of Transport: Small and Large Molecules

Epithelial electrolyte transport: interrelationships between  $H^+$ ,  $HCO_3^-$  and  $Cl^-$  R. M. CASE, K. R. LAU, M. C. STEWARD, P. D. BROWN & A. C. ELLIOTT 803

Structural and functional organization of the  $Na^+$ ,  $K^+$ -pump J. G. NØRBY 806

The plasma membrane calcium pump: structure, function and regulation E. CARAFOLI 808

Molecular biology of  $Na^+$ /glucose cotransport E. M. WRIGHT, M. A. HEDIGER, M. J. COADY, B. HIRAYAMA & E. TURK 810

Anion transport systems in the mouse erythrocyte: kinetic studies *in situ* and after expression of mouse erythroid band 3 protein in oocytes of *Xenopus laevis* H. PASSOW, M. RAIDA, J. WENDEL, B. LEGRUM, D. BARTEL, S. LEPKE & S. FURUTO-KATO 812

(Dys)regulation of epithelial chloride channels H. R. DE JONGE, N. VAN DEN BERGHE, B. C. TILLY, M. KANSEN & J. BIJMAN 816

ATP driven ion pumps: an evolutionary mosaic N. M. GREEN & D. H. MACLENNAN 819

Mechanisms of protein import into the endoplasmic reticulum and protein export in *Escherichia coli* G. SCHLENSTEDT, W. W. E. COBET, H. WIECH & R. ZIMMERMANN 822

Interactions of signal and transit peptides with membrane proteins and phospholipids I. ADCOCK, O. WESTWOOD & B. AUSTEN 823

Modified precursor proteins as tools to study protein import into mitochondria D. VESTWEBER, J. BRUNNER & G. SCHATZ 827

Protein secretion in *Escherichia coli* with particular reference to haemolysin I. B. HOLLAND 828

#### Colloquium: Databases

Structure and function of databases M. M. JORDAN 831

Provision of biosciences information in the academic environment: experience of a large academic library in accessing bibliographic databases D. M. LEITCH 833

Provision of biosciences information in the academic environment: compact disc-read only memory N. KIMBER 835

Creation of inhouse databases C. J. COULSON 838

An electronic database for molecular biology J. M. BURRIDGE 840

Databases for forensic science L. A. KING 841

Protein sequence databases: database management, data structures and data access	H. W. MEWES, A. ELZANOWSKI & D. G. GEORGE	843
A relational database of protein structure	M. J. E. STERNBERG & S. A. ISLAM	845
The human genome project: approaches to the automation of sequence data input	W. J. MARTIN	847
Databases, artificial intelligence and knowledge-based systems for molecular biology	C. J. RAWLINGS	851
Chemical database processing using parallel computer hardware	M. F. LYNCH, E. M. RASMUSSEN, P. WILLETT, G. A. MANSON & G. A. WILSON	856
<b>Colloquium: Lipid Modification of Proteins</b>		
Solubilization of protein fatty acyltransferase from placental membranes and cell-free acyl transfer on to exogenous and endogenous acceptors	M. F. G. SCHMIDT & G. R. BURNS	859
Acylation of cell proteins	R. A. J. McILHINNEY	861
Fatty acylation of erythrocyte proteins	M. STAUFENBIEL	863
Phosphatidylinositol-glycan-tailed membrane proteins: the biochemistry of glycolipid anchors	A. J. TURNER & N. M. HOOPER	864
Activation of cellular p21 <i>ras</i> by myristoylation	J. E. BUSS, P. A. SOLSKI, J. P. SCHAEFFER, M. J. MACDONALD & C. J. DER	867
Acylation of HIV proteins	T. SAERMARK & F. BEX	869
Structure determination of acylated proteins	A. AITKEN	871
Post-translational processing of <i>ras</i> proteins	A. I. MAGEE	875
<b>COMMUNICATIONS</b>		<b>877</b>
<b>629th MEETING, LONDON</b>		
<b>Colloquium: Peptide Drug Delivery</b>		
Introductory remarks	H. M. PATEL	931
Molecular sieving, receptor processing and peptidolysis as major determinants of peptide pharmacokinetics <i>in vivo</i>	C. McMARTIN	931
Transport of peptides across the gastrointestinal tract	M. L. G. GARDNER & D. WOOD	934
Peptidase activities in absorptive mucosae	V. H. L. LEE	937
Transcytosis of drug carriers carrying peptides across epithelial barriers	H. M. PATEL	940
Rectal route of administration for peptides	G. G. LIVERSIDGE	942
Transdermal peptide delivery	H. E. BODDE, J. C. VERHOEF & M. PONEC	943
Enhancement of the immunogenicity of peptide vaccines	D. J. ROWLANDS	945
Prodrug derivatives of thyrotropin-releasing hormone and other peptides	H. BUNGAARD & J. MØSS	947

## COMMUNICATIONS

**Molecular mechanisms of transport: small and large molecules**

- Endogenous inhibitor of prostaglandin biosynthesis in cerebrospinal fluid A. B. LATEEF & S. A. SAEED 877
- Tissue-specific regulation of platelet aggregation in pregnancy: inhibition of aggregation by fetal rat liver cytosol S. A. SAEED, F. ALEEM, A. A. SHORO, N. S. HUSSAIN & Z. SALEEM 878
- Preparation of basolateral membrane vesicles with defined orientation from rabbit enterocytes J. DYER, J.-P. GORVEL, R. WOOTTON, R. B. BEECHEY & S. P. SHIRAZI-BEECHEY 879
- H<sup>+</sup>-coupled transport of  $\alpha$ -aminocephalosporins by intestinal brush-border membrane vesicles from rabbit J. LOWTHER, S. M. HAMMOND & K. RUSSELL 880
- Interaction of n-alcohols with the polypeptide melittin: a <sup>1</sup>H-nuclear-magnetic-resonance study M. KASZUBA & G. R. A. HUNT 880
- Cholesterol content of renal cortical brush-border membranes affects Na<sup>+</sup>-dependent glucose transport Y. IMAI & J. S. OWEN 881
- Uptake of tomato lectin by the adult rat small intestine *in vitro* B. NAISBETT & J. WOODLEY 883
- Lipid modifications of proteins**
- Effect of oestradiol and progesterone on bile acid synthesis in isolated rat hepatocytes M. A. ALONSO, K. M. BOTHAM & B. OCHOA 884
- Hydrolysis of the glycosyl-phosphatidylinositol anchors of renal microvillar peptidases by a plasma phospholipase D N. M. HOOPER & A. J. TURNER 885
- Identification of the N-terminal blocking group of rat mammary gland acyl fatty acid synthetase-thioesterase II A. R. SLABAS, A. AITKEN, S. HOWELL, K. WELHAM & C. M. SIDEBOTTOM 886
- Characterization, regional and subcellular distribution of an N-myristoyl-CoA:glycyltransferase activity in rat brain R. A. J. McILHINNEY & K. McGLONE 888
- Cell contact-mediated appearance of a 75-kDa myristoylated protein J. K. CHADWICK & R. A. J. McILHINNEY 889
- Phospholipase C release of a brain membrane dipeptidase K. J. GREENHOUGH, G. M. LITTLEWOOD & A. J. TURNER 891
- Molecular mechanisms of energy transduction**
- The redox midpoint potential of haem *a* in cytochrome-*c* oxidase is sensitive to extramitochondrial pH J. R. MITCHELL & P. MITCHELL 892
- Mitochondrial damage and protonmotive stoichiometry A. J. MOODY 893
- Redox titration of haem *a* in cyanide-liganded cytochrome-*c* oxidase: effect of pH A. J. MOODY, R. MITCHELL & P. R. RICH 895
- Redox titration of haem *a* in cyanide-liganded cytochrome-*c* oxidase: simulation studies on interacting, pH-dependent, redox centres A. J. MOODY & P. R. RICH 896
- Does cytochrome-*c* oxidase exist in both low- and high-spin pulsed forms? N. IOANNIDIS & J. M. WRIGGLESWORTH 897
- Characterization of 4-hydroxy-3-methylbenzoate hydroxylase from *Pseudomonas putida* NCIB 9866 E. M. T. EL-MANSI & D. J. HOPPER 898
- N.m.r. structural studies on the tyrosine kinase domain of the human insulin receptor R. A. ATKINSON, W. J. FAIRBROTHER, B. A. LEVINE, J. TAVARÉ, B. CLACK & L. ELLIS 899
- Binding of guanine nucleotide to N-*ras* p21 P. J. BYRD, P. H. GALLIMORE, R. J. A. GRAND & B. A. LEVINE 900
- Comparative aspects of the molecular basis for thin-filament linked regulation of energy transduction in skeletal and smooth muscle V. B. PATCHELL, S. V. PERRY, A. J. G. MOIR, E. AUDEMARD, D. MORNET & B. A. LEVINE 901
- General topics**
- Selective inhibition of platelet-activating factor by anti-arrhythmic drugs in human platelets A. H. GILANI & S. A. SAEED 902
- Non-invasive monitoring of cerebral tissue oxygenation *in vivo* by near infrared spectroscopy: a sensitive indicator of oxygenation changes M. S. THORNILEY, N. LIVERA, Y. A. B. D. WICKRAMASINGHE & P. ROLFE 903
- Effect of dibutyryl cyclic AMP on bile acid synthesis in biliary-drained rats K. M. BOTHAM & K. E. SUCKLING 904
- Na<sup>+</sup> uptake by Golgi vesicles isolated from lactating rat mammary gland D. B. SHENNAN, S. A. IRVING & R. J. MADON 906
- Contractile responses of rat isolated seminal vesicle to noradrenaline, acetylcholine and ATP: evidence for different receptors F. A. WALI & E. GREENIDGE 906

Proteolysis of glycogen phosphorylase: influences on rate and route of degradation <i>in vitro</i>	N. M. RUSBRIDGE & R. J. BEYNON	907
Cryptic, meprin-like proteolytic activity in meprin-deficient mice	G. C. MACADAM & R. J. BEYNON	908
Glutathione S-transferase in cestodes	P. M. BROPHY & J. BARRETT	910
Tetrapyrrole biosynthesis in a gabaculin-tolerant mutant of <i>Synechococcus</i> 6301	A. D. BULL, J. F. PAKES, R. C. HOULT, L. J. ROGERS & A. J. SMITH	911
Baeyer-Villiger mono-oxygenase/esterase systems and the microbial cleavage of natural monoterpenes	D. R. WILLIAMS & P. W. TRUDGILL	912
Use of 2,6-diaminopurine in oligonucleotide gene probes	U. B. VOSS, A. CHOLLET & A. D. B. MALCOLM	913
Radioimmunoassay of cytidine 3',5'-monophosphate: development and application of specific assay	B. J. SALVAGE, N. A. HAKEEM, H. G. HASSAN & R. P. NEWTON	914
Pathogenic elicitation of phytoalexin in lucerne tissues: involvement of cyclic AMP in intracellular mechanism	C. J. COOKE, R. P. NEWTON, C. J. SMITH & T. J. WALTON	915
Susceptibility of interleukin 1- and tumour necrosis factor-induced prostaglandin E <sub>2</sub> and phospholipase A <sub>2</sub> release from rat renal mesangial cells to different drugs	J. PFEILSCHIFTER, W. PIGNAT, K. VOSBECK, F. MÄRKI & I. WIESENBERG	916
Immunoblot detection of stress proteins in synovial fluid	A. CHERRIE, L. MCLEAN & J. ARCHER	917
Autoradiographic localization of dopamine D1 receptors in human renal cortex	A. HUGHES, M. SCHACHTER & P. SEVER	918
Stereochemical aspects of antigenic specificity in <i>Shigella flexneri</i> lipopolysaccharides	D. A. R. SIMMONS	919
Studies on the co-incubation of D-[U- <sup>14</sup> C]glucose and sulphamethazine with human whole blood <i>in vitro</i>	R. M. LINDSAY & J. D. BATY	920
A novel method for the estimation of blood acetyl-CoA levels	R. M. LINDSAY & J. D. BATY	921
Glucose: a direct or indirect precursor of hepatic glycogen synthesis in parenterally fed patients?	R. F. G. J. KING, D. ALEXANDER & M. J. McMAHON	922
Intracellular free magnesium and lithium-sodium counter-transport in normal volunteers	J. D. PHILLIPS, M. S. HUGHES & N. J. BIRCH	923
Reoxidation of the flavocytochrome 4-ethylphenol methylene hydroxylase by azurin	C. D. REEVE, D. J. HOPPER & M. A. CARVER	924
Fluctuations in the intracellular amino acids of <i>Gloeotheca</i> during nitrogen fixation and following addition of ammonium	K. J. FLYNN & J. R. GALLON	925
Topoisomerase activity in a diazotrophic cyanobacterium	J. R. GALLON, K. H. DINGLEY, P. J. LE NOURY & C. R. HIPKIN	926
Structural studies on the unusual flavodoxin from <i>Chondrus crispus</i>	K. FUKUYAMA, H. MATSUBARA, Y. KATSUBE, G. A. SYKES & L. J. ROGERS	927
Physical and chemical properties of nitrate reductase from <i>Candida nitratophila</i>	C. R. HIPKIN, D. A. KAU, A. C. CANNONS, D. H. JONES, J. R. GALLON, C. J. KAY, M. J. BARBER & L. P. SOLOMONSON	928
