

## colloquia

### 636th Meeting, Dublin

#### colloquium: Biosensors

<b>Biosensor-based instrumentation</b>	P. R. COULET & G. BARDELETTI	<b>1</b>
<b>Electrochemical biosensors for extracorporeal measurements</b>	G. PALLESCHI, D. MOSCONE & M. MASCINI	<b>5</b>
<b>Biosensors for intracorporeal measurements: problems and strategies</b>	G. S. WILSON, G. REACH & D. R. THÉVENOT	<b>9</b>
<b>Problems of clinical data interpretation</b>	P. VADGAMA, M. DESAI, Z. KOCHAKI & P. TRELOAR	<b>11</b>
<b>Microbial biosensors for environmental monitoring</b>	W. C. GAISFORD, N. J. RICHARDSON, B. G. D. HAGGETT & D. M. RAWSON	<b>15</b>
<b>Optical immunosensors</b>	G. A. ROBINSON	<b>18</b>
<b>Dielectric-based biosensors</b>	R. PETHIG	<b>21</b>
<b>Calorimetric biosensors</b>	B. DANIELSSON	<b>26</b>
<b>Biosensors in organic phases</b>	S. SAINI & A. P. F. TURNER	<b>28</b>
<b>Biological receptors in biosensors</b>	F. J. ROWELL	<b>32</b>
<b>Complex sensor systems: odour detection by the sense of smell and by electronic noses</b>	G. DODD, P. BARTLETT & J. GARDNER	<b>36</b>
<b>Prospects for nucleic acid biosensors</b>	M. E. A. DOWNS	<b>39</b>
<b>Piezoelectric-based biosensors</b>	P. W. WALTON, M. E. BUTLER & M. R. O'FLAHERTY	<b>44</b>

#### colloquium: Respiratory Burst Oxidase of the Neutrophil

<b>Components of the microbicidal oxidase of phagocytes</b>	A. W. SEGAL	<b>49</b>
<b>Deactivation of the subcellular NADPH oxidase and its relationship to termination of the respiratory burst</b>	E. A. EKLUND & T. G. GABIG	<b>51</b>
<b>Control of motility, exocytosis and the respiratory burst in human neutrophils</b>	M. BAGGIOLINI, P. KERNEN, D. A. DERANLEAU & B. DEWALD	<b>55</b>
<b>Differential regulation of chemoattractant-induced superoxide formation in human neutrophils by cell-permeant analogues of cyclic AMP and cyclic GMP</b>	J. ERVENS, G. SCHULTZ & R. SEIFERT	<b>59</b>
<b>Studies on the gene expression of several NADPH oxidase components</b>	M. A. CASSATELLA, F. BAZZONI, M. A. AMEZAGA & F. ROSSI	<b>63</b>
<b>The activation of the electrogenic NADPH oxidase</b>	J. B. CHAPPELL & L. M. HENDERSON	<b>67</b>

<b>Inhibitors of NADPH oxidase as guides to its mechanism</b>	O. T. G. JONES, A. R. CROSS, J. T. HANCOCK, L. M. HENDERSON & V. B. O'DONNELL	<b>70</b>
<b>Influence of taurine and a substituted taurine on the respiratory burst pathway in the inflammatory response</b>	D. M. McLOUGHLIN, P. P. STAPLETON & F. J. BLOOMFIELD	<b>73</b>

---

## colloquium: Strategies for Studying Membrane Proteins of the Nervous System

---

<b>Membrane antigens of endocrine, large dense-core and small synaptic vesicles</b>	H. WINKLER, T. SCHMIDLE, R. FISCHER-COLBRIE & S. KAPELARI	<b>79</b>
<b>Immunoaffinity purification of cholinergic nerve terminals</b>	P. J. RICHARDSON & S. JAMES	<b>83</b>
<b>Novel neuronal neurotransmitter-specific cell-surface molecules</b>	M. DOCHERTY	<b>87</b>
<b>Amino acid neurotransmitter reuptake: mechanistics, biochemistry and molecular cloning</b>	B. I. KANNER	<b>92</b>
<b>Substrate and inhibitor binding and translocation by the platelet plasma membrane serotonin transporter</b>	C. J. HUMPHREYS, D. BEIDLER & G. RUDNICK	<b>95</b>
<b>Characterization and purification of the neuronal sodium-ion-coupled 5-hydroxytryptamine transporter</b>	D. GRAHAM, H. ESNAUD & S. Z. LANGER	<b>99</b>
<b>Approaches to the purification of the 5-hydroxytryptamine reuptake system from human blood platelets</b>	E. A. L. BIESSEN, A. S. HORN & G. T. ROBILLARD	<b>103</b>
<b>Probing the platelet plasma-membrane 5-hydroxytryptamine transporter</b>	D. C. WILLIAMS & O. M. PHILLIPS	<b>112</b>
<b>Monoclonal antibody probes for nicotinic receptors of muscles and nerves</b>	J. LINDSTROM, R. SCHOEPFER, P. WHITING, R. ANAND, W. G. CONROY, M. S. SAEDI & M. DAS	<b>115</b>
<b>Neuronal nicotinic receptors: functional correlates of ligand binding sites</b>	S. WONNACOTT	<b>121</b>
<b>Probing the GABA<sub>A</sub> receptor with antibodies</b>	A. J. TURNER, K. B. WIDLOWS & E. F. KIRKNESS	<b>124</b>
<b>Heterogeneity of GABA<sub>A</sub>-benzodiazepine receptors</b>	W. SIEGHART	<b>129</b>
<b>Muscarinic acetylcholine receptors: structure and function</b>	E. C. HULME, E. KURTENBACH & C. A. M. CURTIS	<b>133</b>
<b>Antibodies to receptors by an auto-anti-idiotypic strategy</b>	B. F. ERLANGER	<b>138</b>
<b>The use of anti-idiotypic antibodies as a strategy for studying glutamate receptors</b>	I. R. DRUCE, T. C. BUDD & P. J. RICHARDSON	<b>143</b>
<b>Anti-idiotypic antibodies against hormone and neurotransmitter receptors</b>	P. O. COURAUD & A. D. STROSBERG	<b>147</b>

---

**colloquium: Biochemical Mechanisms in Autoimmunity**

---

<b>Drug-induced autoimmunity: a disorder at the interface between metabolism and immunity</b>	R. L. RUBIN & R. W. BURLINGAME	<b>153</b>
<b>Antibodies to intracellular antigens in systemic autoimmune disease</b>	R. M. BERNSTEIN	<b>159</b>
<b>Drug-induced immune complex disease</b>	E. SIM	<b>164</b>
<b>Heat-shock proteins as antigens in autoimmunity</b>	W. VAN EDEN, E. J. M. HOGERVORST, M. H. M. WAUBEN, R. VAN DER ZEE & C. J. P. BOOG	<b>171</b>
<b>Autoantibody-facilitated proteolytic cleavage: a new pathogenic mechanism in autoimmunity</b>	J. JACKSON	<b>176</b>
<b>Autoimmunity to acetylcholine receptors in myasthenia gravis</b>	A. VINCENT	<b>180</b>
<b>Immune haemolytic anaemia and thrombocytopenia: drugs and autoantibodies</b>	W. G. MURPHY & J. G. KELTON	<b>183</b>
<b>The development of insulin-dependent diabetes mellitus in non-obese diabetic mice: the role of CD4+ and CD8+ T cells</b>	A.-M. VAREY, P. HUTCHINGS, L. O'REILLY, T. HUSSELL, H. WALDMANN, E. SIMPSON & A. COOKE	<b>187</b>
<b>The molecular basis of halothane-induced hepatitis</b>	J. G. KENNA	<b>191</b>
<b>Identification and analysis of the major autoantigens in primary biliary cirrhosis</b>	S. J. YEAMAN	<b>197</b>

---

**colloquium: Amine Oxidases: Structure, Function and Expression**

---

<b>Molecular biological studies of monoamine oxidase: structure and function</b>	J. F. POWELL	<b>199</b>
<b>The use of mechanism-based inactivators to probe the mechanism of monoamine oxidase</b>	R. B. SILVERMAN	<b>201</b>
<b>Structure-modulated recognition of substrates and inhibitors by monoamine oxidases A and B</b>	P. DOSTERT & M. STROLIN BENEDETTI	<b>207</b>
<b>The interaction of monoamine oxidases with tertiary amines</b>	T. P. SINGER & R. R. RAMSAY	<b>211</b>
<b>Monoamine oxidase inhibitory potencies and selectivities of 2-[N-(2-propynyl)-aminomethyl]-1-methyl indole derivatives</b>	D. Balsa, E. FERNANDEZ-ALVEREZ, K. F. TIPTON & M. UNZETA	<b>215</b>
<b>The kinetic mechanisms of monoamine oxidases A and B</b>	R. R. RAMSAY & T. P. SINGER	<b>219</b>
<b>Novel substrates and product of amine oxidase-catalysed reactions</b>	M. B. H. YODIN, N. HARSHAK, M. YOSHIOKA, H. ARAKI, Y. MUKAI & G. GOTTO	<b>224</b>
<b>Properties and functions of the semicarbazide-sensitive amine oxidases</b>	B. A. CALLINGHAM, A. HOLT & J. ELLIOTT	<b>228</b>

**635th Meeting, Aberdeen**

---

**colloquium: Lipids, Lipoproteins and Antioxidants  
in Cardiovascular Dysfunction**

---

**Interactions of lipoproteins with vascular intima  
in atherosclerosis**

E. B. SMITH

**235**

---

**Strategies for studying membrane proteins of the nervous system**

---

A sensitive enzyme-linked immunosorbent assay for endopeptidase-24.11	S. HOWELL, H. MURRAY, A. J. KENNY & A. J. TURNER	<b>1S</b>
Purification and characterization of a quisqualate sensitive glutamate binding protein	F. R. BATSTONE, S. R. GREY & P. J. RICHARDSON	<b>2S</b>
Excitatory sulphur amino acids evoke a $Ca^{2+}$ -independent release of [ $^3H$ ]D-ASP and [ $^3H$ ]GABA from primary neuronal cultures by a mechanism which involves reversal of the high affinity transporters for L-glu and GABA, respectively	J. DUNLOP, A. GRIEVE, A. SCHOUSBOE & R. GRIFFITHS	<b>3S</b>
The chicken GABA <sub>A</sub> receptor: heterogeneity of gamma subunits	T. A. GLENCORSE, A. N. BATESON & M. G. DARLISON	<b>4S</b>
Kinetic characterization of excitatory sulphur amino acid transport in synaptosomes and in primary cultures of different brain cells	A. GRIEVE, J. DUNLOP, A. SCHOUSBOE & R. GRIFFITHS	<b>5S</b>
Histamine-induced changes in intracellular calcium in undifferentiated N1E-115 cells	P. A. IREDALE, A. RUCK, K. F. MARTIN, D. A. KENDALL & S. J. HILL	<b>6S</b>
Characterization and localization of the high affinity adenosine A2 receptor in rat and human brain	S. JAMES, P. J. RICHARDSON & J. H. XUEREH	<b>7S</b>
Changes in fast axonal transport of proteins prior to demyelination in optic nerves of mice following Semliki Forest virus infection	H. G. JENKINS, B. S. KALER & H. IKEDA	<b>8S</b>
Alternative splicing increases GABA <sub>A</sub> receptor heterogeneity	A. LASHAM, A. N. BATESON & M. G. DARLISON	<b>9S</b>
The design of photo-affinity labels for the characterization of the 5-hydroxytryptamine transporter on human platelet membranes	W. J. MAHER, O. M. PHILLIPS & D. C. WILLIAMS	<b>10S</b>
Purification and immunological studies on the peripheral type benzodiazepine acceptor	P. N. MOYNAGH, C. J. BAILEY & D. C. WILLIAMS	<b>11S</b>
Binding affinities of some neurotensin analogues to neurotensin receptors from rat brain	A. R. ALDALOU, G. B. IRVINE, C. SHAW, D. J. S. GUTHRIE, J. NELSON & B. WALKER	<b>12S</b>
Neurokinin A analogue binding to NK-2 receptors from guinea-pig brain	A. A. ABU SHANAB, J. M. ALLEN, D. J. S. GUTHRIE, G. B. IRVINE & B. WALKER	<b>13S</b>

---

**Biosensors**

---

Detection of NADH via hydrogen peroxide at a platinum electrode using immobilized lactate dehydrogenase and lactate oxidase	D. A. SCOTT, M. SOMASUNDARUM & A. W. SKILLEN	<b>14S</b>
---	--	------------

---

**Biochemical mechanisms in autoimmunity**

---

<i>In vitro</i> lymphocyte proliferative response to streptococcal M protein in psoriasis	J. P. MCFADDEN, D. G. QUINN & R. D. R. CAMP	<b>15S</b>
---	---	------------

---

**Molecular enzymology**

---

A novel maltooligosaccharide producing amylase	A. C. M. BOURKE, C. T. KELLY & W. M. FOGARTY	<b>16S</b>
--	--	------------

Subunit structure of fungal glutathione-S-transferases	J. CASEY, F. SHALLOE & D. SHEEHAN	<b>17S</b>
Re-assignment of the cytosolic and mitochondrial isoenzymes of fumarase from yeast	D. J. MANGAN, N. M. O'SULLIVAN & S. DOONAN	<b>18S</b>
Effect of divalent metal cations on <i>Rhizobium meliloti</i> $\beta$ -galactosidase	M. LEAHY, S. FANNING, F. O'GARA & D. SHEEHAN	<b>19S</b>
Catechol-O-methyltransferase from human placenta: purification and some properties	N. NIC A BHAIRD & K. F. TIPTON	<b>20S</b>
Lactate dehydrogenase isoenzymes in human intrauterine tissues	M. H. JAVED, N. KHAN & M. A. WAQAR	<b>21S</b>
cAMP-dependent protein kinases in human tissues	M. H. JAVED, G. ASHRAF & M. A. WAQAR	<b>22S</b>
Protein kinase-C in rat brain and human tissues	M. H. JAVED, G. ASHRAF & M. A. WAQAR	<b>23S</b>
Symmetric constraints and the active site of MAO-B	B. H. NICHOLSON	<b>24S</b>

---

**General topics**

---

The xylan-degrading enzyme systems of <i>Penicillium capsulatum</i> and <i>Talaromyces emersonii</i>	E. X. F. FILHO, M. G. TUOHY, J. PULS & M. P. COUGHLAN	<b>25S</b>
Factors influencing protease levels in animal cells <i>in vitro</i>	R. O'LEARY, B. GREGORY, B. CAREY, E. MCGLINCHY, A. O'TOOLE, M. CLYNES & B. O'CONNOR	<b>26S</b>
Characterization of a cathepsin-B proteinase released by <i>Fasciola hepatica</i> (liver fluke)	M. HEFFERNAN, A. SMITH, D. CURTAIN, S. McDONNELL, J. RYAN & J. P. DALTON	<b>27S</b>
Action of platelet-derived growth factor on human lung fibroblasts derived from normal and diseased lungs	M. DEMPSEY, I. PRATT & C. O'CONNOR	<b>28S</b>
Isolation, culture and characterization of fibroblast-like cells derived from the Wharton's jelly portion of human umbilical cord	K. D. McELREAVEY, A. I. IRVINE, K. T. ENNIS & W. H. I. McLEAN	<b>29S</b>
Amino-peptidase activities in <i>Helix aspersa</i>	M. P. ENNIS, P. J. CROSSEY, G. B. IRVINE & C. H. WILLIAMS	<b>30S</b>
Receptor binding and contractile activity of some synthetic neurotensin fragments on isolated guinea-pig <i>Taenia coli</i>	A. R. ALDALOU, G. B. IRVINE, J. ALLEN, C. SHAW, J. NELSON & B. WALKER	<b>31S</b>
Plasmid maintenance alters substrate affinity	D. BYRNE, A. J. McLOUGHLIN & C. HUSSEY	<b>32S</b>
Hormonal control of insulin like growth factor I (IGF-I) secretion in a cell line derived from normal adult rat liver	J. BEATTIE & D. J. FLINT	<b>33S</b>
Characterization of CHAPS-solubilized active erythropoietin receptors from Rauscher erythroleukaemic cells using biotinylated erythropoietin	M. AFRASIABI, G. E. ELDER, T. R. J. LAPPIN & J. M. BRIDGES	<b>34S</b>
Aminotripeptidase activity in <i>Lactococcus lactis</i> subsp <i>cremoris</i> AM2	C. L. BACON, I. NI FHAOLAIN, P. V. JENNINGS & G. O'CUINN	<b>35S</b>

Thyroliberin and luliberin degradation by enzymes in cultured cells of neural origin	M. ELMORE, M. SMYTH, G. COOKMAN, C. REGAN, B. O'CONNOR & G. O'CUINN	36S
Subcellular distribution of dipeptidyl aminopeptidase activity against Lys-Ala-NH-Mec in guinea-pig brain	M. SMYTH, B. O'CONNOR & G. O'CUINN	37S
Adenosinetriphosphatase (ATPase) activity of myofibrils prepared from pre-rigor and from rigor rat skeletal muscle	W. J. REVILLE & G. A. MEADE	38S
Identification of a putative erythrocyte receptor of <i>P.c. chabaudi</i>	S. O'DONOVAN, J. McNALLY & J. P. DALTON	39S
Deoxyribonuclease from <i>Pseudomonas maltophilia</i>	C. M. SCALLY & F. G. WINDER	40S
Beta-adrenergic effects on cellular cholesterol-ogenesis and low density lipoprotein metabolism	D. OWENS, L. O'DONNELL, P. COLLINS, A. JOHNSON & G. H. TOMKIN	41S
Construction and characterization of 3'-deletion mutants of the rat prolactin gene promoter	S. GIAFRI & F. MARTIN	42S
The association of transcription factor Pit 1/GHF-1 with <i>Pit</i> and <i>Oct</i> binding elements	S. LARKIN, S. TAIT & F. MARTIN	43S
Urokinase-type plasminogen activator and its inhibitor PAI-1 in breast cancer: studies at both protein and mRNA level	D. REILLY, P. ANDREASEN & M. J. DUFFY	44S
cDNA cloning of genes from the fungus <i>Armillaria mellea</i>	J. O'CONNELL & S. DOONAN	45S
Analysis of expression of the human ryanodine receptor gene in malignant hyperthermia skeletal muscle tissue	C. M. GILLIAN, J. J. A. HEFFRON, M. LEHANE, A. MARKS & T. V. MCCARTHY	46S
Prothrombinase expression of taxol treated platelets	M. CROOK	47S
The effects of ascorbic acid on collagen synthesis by cultured human skin fibroblasts	S. M. L. ANDERSON, W. H. I. MCLEAN & R. J. ELLIOTT	48S
The measurement of $\gamma$ -glutamyl transferase activity in sheep liver, kidney and pancreas with oxidized glutathione. A comparison with the activities found using $\gamma$ -glutamyl <i>p</i> -nitroanilide in the absence and presence of glycylglycine	P. C. NICHOLAS & D. L. THOMAS	49S
The reaction of oxidized and reduced glutathione (with some amino acids) and L- $\gamma$ -glutamyl <i>p</i> -nitroanilide with sheep kidney tissue homogenate. An examination of the reaction products by paper chromatography	P. C. NICHOLAS & D. L. THOMAS	50S
The determination of $\gamma$ -glutamyl transferase (EC 2.3.2.2) with oxidized glutathione, glutamate dehydrogenase, NAD and tetrazolium salts. A method appropriate to kinetic measurements and enzymic staining after electrophoresis	P. C. NICHOLAS & D. L. THOMAS	51S
Two novel methods used in the biodegradation of bile acids and plant sterols	D. L. V. GRAHAM, G. M. LOWE, D. A. PHIPPS & R. F. BILTON	52S

Detection of calcium binding proteins in human aortic tissue	J. A. CAMPBELL, J. D. BIGGART & R. J. ELLIOTT	<b>53S</b>
A kinetic assay for the isoenzymes of malate dehydrogenase	R. SLOAN & R. J. ELLIOTT	<b>54S</b>
A bioassay technique for plasma proinsulin measurements	V. DOYLE & R. DEVERY	<b>55S</b>
A modified thiobarbituric acid method for the determination of <i>N</i> -acetylneuraminic acid	V. A. KINSELLA, G. J. BERNIS & R. O'KENNEDY	<b>56S</b>
The production and characterization of a coumarin-bovine serum albumin (BSA) conjugate and its use for antibody production	D. A. EGAN, P. JAMES & R. O'KENNEDY	<b>57S</b>
Purification of monocyte esterase using narrow range (pH 5.6–6.6) immobilised pH gradient electrophoresis	K. T. ENNIS, W. H. I. MCLEAN, A. E. HUGHES & N. C. NEVIN	<b>58S</b>
2D-PAGE reveals the absence of collagenase production in normal human osteoblasts in culture	D. P. HANKEY, W. H. I. MCLEAN & A. E. HUGHES	<b>59S</b>
Protein analysis in Epidermolysis Bullosa	W. H. I. MCLEAN, K. T. MCKENNA, S. M. L. ANDERSON & N. C. NEVIN	<b>60S</b>
The effects of vitamin E and/or selenium depletion on tissue peroxidation and peroxidisability in ruminant cattle	D. M. WALSH, S. KENNEDY, W. J. BLANCHFLOWER & D. G. KENNEDY	<b>61S</b>
Human neutrophil collagenase — its isolation and purification	D. B. MOLONEY, C. M. O'CONNOR & M. X. FITZGERALD	<b>62S</b>
Comparison of the type I insulin-like growth factor (IGF) receptor binding in ovine tissue and human placental membranes	J. RYAN, T. MANTLE & D. C. COSTIGAN	<b>63S</b>
Isolation of menaquinone 7 from <i>Pseudomonas</i> N.C.I.B. 10590: a natural electron acceptor for steroid A-ring dehydrogenations	A. J. RUTHERFORD, D. WILLIAMS & R. F. BILTON	<b>64S</b>
Normalization of intestinal cholesterogenesis following insulin administration in streptozotocin diabetic rats	U. M. MOORE, A. H. JOHNSON, G. H. TOMKIN & P. B. COLLINS	<b>65S</b>
Investigation of the stability of bovine heart creatine kinase	H. SHEEHAN & R. O'KENNEDY	<b>66S</b>
Identification of transferrin in mitochondria isolated from rat liver	A. A. MOSHTAGHIE, M. ANI & M. TAHER	<b>67S</b>
Protein upgrading of wheat straw by fungal fermentation	Y. WILKINSON, M. F. COUGHLAN & E. COLLERAN	<b>68S</b>
Adhesion of I-carbon utilizing bacteria to polymeric surfaces	B. DONLON, P. O'GARA & E. COLLERAN	<b>69S</b>
Development of a pressure transducer assay for monitoring the specific activity of hydrogenophilic methanogens	J. D. COATES, M. F. COUGHLAN & E. COLLERAN	<b>70S</b>
The effects of histamine H <sub>2</sub> receptor antagonists on the activity of horse liver alcohol dehydrogenase	E. P. CARR, K. F. TIPTON & P. W. N. KELLING	<b>71S</b>

**Elevation of volatile fatty acid levels and adjustment of acetate/propionate ratios during ruminal fermentation of various feedstuffs with the high strength yeast culture, Yea-Sacc<sup>1026</sup>**

J. P. RYAN & W. R. GRAY

**72S**

**Comparative analysis of the binding of multiple forms of mitochondrial malate dehydrogenase to the inner membrane of the mitochondria**

F. LANGA, V. GRACIA, J. L. GELPI, A. MAZO & A. CORTES

**73S**

**Comparison of some of the properties of the holoenzymes and apoenzymes of the molecular forms of chicken liver cytoplasmic aspartate aminotransferase**

C. QUIROGA, S. IMPERIAL, M. BUSQUETS & A. CORTES

**74S**
