

colloquia

638th Meeting, Reading

colloquium: Redesigning Crop Products for Biotechnology: Starch and Fructan

Starch biosynthesis and its regulation	J. PREISS, K. BALL, B. SMITH-WHITE, A. IGLESIAS, G. KAKEFUDA & L. LI	539
The pathway of starch synthesis in developing pea embryos	A. M. SMITH, C. MARTIN & K. DENYER	547
Aspects of molecular organization and ultrastructure in starch granules	M. J. GIDLEY & D. COOKE	551
Current and potential food and non-food applications of fructans	A. FUCHS	555
Useful characteristics and commercial applications of fructo-oligosaccharides	H. HIDAKA & M. HIRAYAMA	561
Molecular biology of fructan accumulation in plants	S. SMEEKENS, G. ANGENENT, M. EBSKAMP & P. WEISBEEK	565
Fructan quality and fructan synthesis	P. JOHN	569

colloquium: Comparative Aspects of Respiratory Electron Transfer Complexes

Proton-translocating transhydrogenase from photosynthetic bacteria	J. B. JACKSON, T. M. LEVER, J. RYDSTROM, B. PERSSON & E. CARLENOR	573
Towards the construction of a universal NAD(P)⁺-dependent dehydrogenase: comparative and evolutionary considerations	A. R. CLARKE, S. COLEBROOK, A. CORTES, D. C. EMERY, D. J. HALSALL, K. W. HART, R. M. JACKSON, H. M. WILKS & J. J. HOLBROOK	576
Simplicity and complexity in electron transfer between NADH and c-type cytochromes in bacteria	B. C. BERKS & S. J. FERGUSON	581
Complexes or super complexes: inhibitor titrations show that electron transfer in chromatophores from <i>Rhodobacter sphaeroides</i> involves a dimeric UQH₂: cytochromes c₂ oxidoreductase, and is delocalized	J. FERNANDEZ-VALESCO & A. R. CROFTS	588
Iron-sulphur clusters in electron transfer, catalysis and control	A. J. THOMSON, J. BRETON, S. J. GEORGE, J. N. BUTT, F. A. ARMSTRONG & E. C. HATCHIKIAN	594
Electron transfer in succinate:ubiquinone reductase and quinol:fumarate reductase	J. C. SALERNO	599

Bacterial dimethyl sulphoxide reductases and nitrate reductases	A. G. MCEWAN, N. BENSON, T. C. BONNETT, S. P. HANLON, S. J. FERGUSON, D. J. RICHARDSON & J. B. JACKSON	605
The happy family of cytochrome oxidases	M. SARASTE, L. HOLM, L. LEMIEUX, M. LÜBBEN & J. VAN DER OOST	608
A comparative review of the structure and function of cytochrome <i>o</i> from <i>Escherichia coli</i> and cytochrome aa_3	W. J. INGLEDEW & M. BACON	613
Ligation and electronation states of cytochrome-<i>c</i> oxidase in relation to other oxidases and peroxidases	A. J. MOODY	617

colloquium: Genetic Approaches to Oligosaccharide Metabolism

Biochemistry and expression of bacterial capsules	K. JANN & B. JANN	623
Capsule production in <i>Escherichia coli</i>: co-ordinate regulation of biosynthesis and export by environmental factors	C. PAZZANI, I. ROBERTS & G. BOULNOIS	628
Genetics of <i>Haemophilus influenzae</i> lipopolysaccharide expression	D. MASKELL & E. R. MOXON	631
<i>Rhizobium meliloti</i> exopolysaccharides: genetic analyses and symbiotic importance	T. L. REUBER, J. REED, J. GLAZEBROOK, M. A. GLUCKSMANN, D. AHMANN, A. MARRA, & G. C. WALKER	636
Genetic regulation of asparagine-linked oligosaccharide synthesis	P. W. ROBBINS	642
Molecular cloning of human and rabbit UDP-<i>N</i>-acetylglucosamine: α-3-<i>D</i>-mannoside β-1,2-<i>N</i>-acetylglucosaminyltransferase I	H. SCHACHTER, E. HULL, M. SARKAR, R. J. SIMPSON, R. L. MORITZ, J. W. M. HÖPPENER & R. DUNN	645
A transfected human fucosyltransferase cDNA determines biosynthesis of oligosaccharide ligand(s) for endothelial-leukocyte adhesion molecule I	J. B. LOWE, L. M. STOOLMAN, R. P. NAIR, R. D. LARSEN, T. L. BEHREND & R. M. MARKS	649

colloquium: Food Biotechnology

Protein engineering to change thermal stability for food enzymes	P. W. GOODENOUGH & J. A. JENKINS	655
Protein engineering of chymosin and expression in <i>Trichoderma reesei</i>	J. E. PITTS, D. QUINN, J. UUSITALO & M. PENTTILÄ	663
Characterization of protein-containing reversed micelles	R. HILHORST, R. M. D. VERHAERT & A. J. W. G. VISSER	666
Proteinase genes of cheese starter cultures	J. KOK	670
Development of bacteriophage-resistant strains of lactic acid bacteria	T. R. KLAENHAMMER	675

The development of <i>Aspergillus niger</i> var. <i>awamori</i> as a host for the expression and secretion of heterologous gene products	R. M. BERKA, K. H. KODAMA, M. W. REY, L. J. WILSON & M. WARD	681
Flavour peptides: the potential role of Lactococcal peptidases in their production	F. MULHOLLAND	685
Micro-organisms as a novel source of flavour compounds	M. I. FARBOOD	690
Anti-microbial substances produced by food associated micro-organisms	H. BLOM & C. MØRTVEDT	694
DNA probes and the detection of food-borne pathogens using the polymerase chain reaction	R. A. MCKEE, C. M. GOODING, S. D. GARRETT, H. A. POWELL, B. M. LUND & M. KNOX	698
Plant cell culture in the production of flavour compounds	M. J. C. RHODES, A. SPENCER & J. D. HAMILL	702

colloquium: Proteinases

Types and families of endopeptidases	A. J. BARRETT & N. D. RAWLINGS	707
Substrate specificities and activation mechanisms of matrix metalloproteinases	H. NAGASE, Y. OGATA, K. SUZUKI, J. J. ENGHILD & G. SALVESEN	715
ATP-promoted interaction between Clp A and Clp P in activation of Clp protease from <i>Escherichia coli</i>	M. R. MAURIZI	719
Lysosomal and non-lysosomal proteolysis in the eukaryotic cell: studies on yeast	W. HEINEMEYER, A. SIMEON, H. H. HIRSCH, H. H. SCHIFFER, U. TEICHERT & D. H. WOLF	724
The ubiquitin pathway of protein degradation and proteolysis of ubiquitin-protein conjugates	A. HERSHKO	726

colloquium: The Role of Enzymes in Regulating the Toxicity of Xenobiotics

Role of biotransformation in PCB-induced alterations in vitamin A and thyroid hormone metabolism in laboratory and wildlife species	A. BROUWER	731
Enzyme-mediated selective toxicity of an organophosphate and a pyrethroid: some examples from a range of animals	D. H. HUTSON & P. MILLBURN	737
Toxicity of pesticides to birds: the enzymic factor	C. H. WALKER, C. J. BREALEY, M. I. MACKNESS & G. JOHNSTON	741
Microsomal activation of benzo[a]pyrene by <i>Alligator mississippiensis</i>: mechanisms, mutagenicity and induction	G. W. WINSTON, M. A. KIRCHIN & M. J. J. RONIS	746
Mechanisms of xenobiotic activation in marine invertebrates	J. K. CHIPMAN, D. R. LIVINGSTONE & J. W. MARSH	751

Role of esterases in resistance of insects to insecticides	A. L. DEVONSHIRE	755
Enzymic factors in the resistance of stored-product pests to insecticides	N. R. PRICE	759
Enzymes and resistance to insecticides in <i>Heliothis virescens</i>	A. R. MCCAFFERY, C. H. WALKER, S. E. CLARKE & K. S. LEE	762

colloquium: Molecular Aspects of Fungal Sterol Biosynthesis and Inhibition

Sterol biochemistry in filamentous fungi: a coming of age	M. W. GOOSEY & D. J. MOORE	769
Squalene epoxidase as a target for the allylamines	N. S. RYDER	774
Sterol 14α-demethylase and its inhibition: structural considerations on interaction of azole antifungal agents with lanosterol 14α-demethylase (P-450_{14DM}) of yeast	Y. YOSHIDA & Y. AOYAMA	778
Cytochrome P-450-dependent 14α-sterol demethylase of <i>Candida albicans</i> and its interaction with azole antifungals	C. A. HITCHCOCK	782
Morpholine antifungals and their mode of action	E. I. MERCER	788
Molecular modelling of the sterol C-14 demethylase of <i>Saccharomyces cerevisiae</i>	G. M. MORRIS & W. G. RICHARDS	793
Molecular genetic studies on the mode of action of azole antifungal agents	K. S. L. KELLY, J. ROWE & P. F. WATSON	796
RIP (repeat induced point mutation) as a tool in the analysis of P-450 and sterol biosynthesis in <i>Neurospora crassa</i>	I. F. CONNERTON, S. M. DEANE, J. A. BUTTERS, R. S. T. LOEFFLER & D. W. HOLLIMON	799

Redesigning crop products for biotechnology: starch and fructan

Lipid metabolism during seed development in oilseed rape (<i>Brassica napus</i> L. cv. Shiralee)	H. J. PERRY & J. L. HARWOOD	243S
---------------------------------------------------------------------------------------------------	-----------------------------	-------------

Post-Golgi secretory pathways

A rapid method for Golgi membrane isolation from etiolated pea epicotyls	M. H. P. DELARGE, M. C. HOBBS & C. T. BRETT	244S
Interactions between a xylosyltransferase and a glucuronyltransferase involved in glucuronoxylan synthesis in pea epicotyls	M. C. HOBBS, E. A.-H. BAYDOUN, M. H. P. DELARGE & C. T. BRETT	245S
Post-translational processing and regulated release of corticotropin-releasing hormone (CRH) in AtT20 cells expressing the human proCRH gene	M. CASTRO, P. LOWENSTEIN, B. GLYNN, M. HANNAH, E. LINTON & P. LOWRY	246S
Characterization of anti-peptide CFTR antibodies	M. M. C. PEREIRA, R. L. DORMER & M. A. MCPHERSON	247S
Secretion of a chymosin-insulin fusion in <i>Trichoderma reesei</i>	S. E. LAWLER, J. E. PITTS, D. MANTAFOUNIS, R. GILL, J. UUSITALO & M. PENTTILÄ	248S
Specificity of a protease from ovine adrenal medulla chromaffin granules	N. TEZAPSIDIS & D. PARISH	249S
Formation of glucuronoxylan linked to protein in plant Golgi and plasma membranes	E. A.-H. BAYDOUN, M. L. HOBBS, M. H. P. DELARGE, K. W. WALDRON & C. T. BRETT	250S

Comparative aspects of respiratory electron transfer complexes

The sodium-motive NADH-ubiquinone oxidoreductase of <i>Vibrio alginolyticus</i>	R.M. BOURNE & P. R. RICH	251S
Cytochrome <i>c</i> and <i>c-554</i> oxidation by membranous <i>Anacystis nidulans</i> cytochrome oxidase	P. NICHOLLS, C. OBINGER, H. NIEDERHAUSER & G. A. PESCHEK	252S
Loss of hepatic cytochrome <i>aa₃</i> during chronic valproate treatment: dissociation of proton pumping and electron transport in Complex IV	S. PONCHAUT, J.-P. DRAYE, F. VAN HOOF & K. VEITCH	253S
Evidence for a pH-dependent anion channel in sheep heart mitochondria	T. D. SPURWAY & R. ASHLEY	254S
An intracellular anion channel from rat brain microsomes which is also permeable to cations	D. MURRAY & R. ASHLEY	255S
Applications of pulsed EPR spectroscopy to the study of mitochondrial iron-sulphur clusters and <i>Escherichia coli</i> fumarate reductase	J. K. SHERGILL, J. H. WEINER & R. CAMMACK	256S
The effect of membrane potential on the protonophoric action of oleic acid	M. A. SHARPE, C. E. COOPER & J. M. WRIGGLESWORTH	257S
The active site structure of cytochrome oxidase: modelling by 'catalytic homology'	J. M. WRIGGLESWORTH	258S
The cytochrome oxidase <i>g'</i> = 12 EPR signal	C. E. COOPER, A. J. MOODY, P. R. RICH, J. M. WRIGGLESWORTH & N. IOANNIDIS	259S

Roles of molybdenum, FAD and iron-sulphur domains in molybdenum-containing hydroxylases: molecular genetic, kinetic and spectroscopic studies	R. K. HUGHES, B. BENNETT, W. A. DOYLE, J. F. BURKE, A. CHOVIK & R. C. BRAY	260S
Ischaemia/anoxia-induced increases in cardiac mitochondrial respiration: changes in Complex I	K. VEITCH, A. HOMBROECKX & L. HUE	261S
Heterogeneity in fast cyanide-binding preparations of cytochrome-c oxidase	A. J. MOODY & P. R. RICH	262S
MOA-stilbene: a new effector of the Q _i site of the chloroplast cytochrome <i>bf</i> complex	P. R. RICH, S. A. MADGWICK, S. BROWN, G. VON JAGOW & U. BRANDT	263S
<hr/> Genetic approaches to oligosaccharide metabolism <hr/>		
Studies of lotus-extracted haptoglobin in inflammatory bowel disease	S. THOMPSON, C. O. RECORD & G. A. TURNER	264S
<hr/> Food biotechnology <hr/>		
Protein engineering of the surface loops of chymosin	P. ORPRAYOON, J. E. PITTS, P. NUGENT, D. MANTAFOUNIS, S. E. LAWLER, T. L. BLUNDELL, J. UUSITALO & M. PENTTILÄ	265S
Engineering the pH profile of chymosin	J. E. PITTS & D. MANTAFOUNIS	266S
Modifying the substrate specificity of chymosin	D. QUINN, J. E. PITTS, D. MANTAFOUNIS, S. E. LAWLER, J. UUSITALO, M. PENTTILÄ & P. STROP	267S
Lipid metabolism in tissue culture of olive (<i>Olea europaea</i>)	M. WILLIAMS, J. SANCHEZ & J. L. HARWOOD	268S
Cogelation of xanthan gum with modified guar galactomannan	K. CHIDWICK, P. M. DEY, R. J. HART, A. MACKENZIE & J. B. PRIDHAM	269S
Production of the amylolytic enzymes of <i>Penicillium expansum</i>	E. M. DOYLE, C. T. KELLY & W. M. FOGARTY	270S
Immobilization of enzymes to nylon film	A. T. ANDREWS & W. MBAFOR	271S
Partial denaturation and renaturation of β -lactoglobulin at air-water interfaces	A. T. ANDREWS	272S
Aminopeptidase A from <i>Lactococcus lactis</i>	G. W. NIVEN	273S
Extraction of organic acids using a supported liquid membrane	T. SIRMAN, L. PYLE & A. S. GRANDISON	274S
Mass transfer studies on the extraction and separation of proteins using reverse micelles	G. L. LYE, J. A. ASENJO & L. PYLE	275S
<hr/> Regulation of protein synthesis <hr/>		
Effects of catecholamines on protein synthesis and cyclic AMP concentrations in the isolated working heart	M. A. BOGOYEVITCH, S. J. FULLER & P. H. SUGDEN	276S
Stimulation of cardiac protein synthesis by insulin-like growth factors	S. J. FULLER, J. R. MYNETT & P. H. SUGDEN	277S
Expression of drug resistance in Chinese hamster ovary (CHO) cells following X-ray pre-treatment <i>in vitro</i>	S. MCCLEAN, R. D. H. WHELAN, L. K. HOSKING & B. T. HILL	278S
Analysis of a novel elongation factor: EF-3	D. R. COLTHURST, G. P. BELFIELD & M. F. TUIE	279S

Role of the 5' mRNA leader in heat shock gene expression in yeast	A. D. HARTLEY, B. GIRSTEL, J. E. G. MCCARTHY & M. F. TUIITE	280S
The use of allosuppressor alleles of the <i>SAL4</i> gene in the study of translational fidelity in <i>Saccharomyces cerevisiae</i>	AKHMALOKA, C. M. GRANT, I. STANSFIELD & M. F. TUIITE	281S
40S ribosomal complexes in reticulocyte lysates treated with the haem-controlled eIF-2 α kinase	B. JOSHI, S. JOSHI-BARVE, R. E. RHOADS & V. M. PAIN	282S
Metallothionein gene expression in the intestinal cell: modulation of mRNA and protein synthesis by copper and zinc	M. L. SCARINO, R. POVERINI, G. DI LULLO & B. BISES	283S
The molecular basis of the interaction of EF-Tu with kirromycin: overproduction of perdeuterated EF-Tu	K. KENNEDY, D. BLOOR & J. BARBER	284S
<hr/>		
Proteinases		
Growth-related proteinase activity in a recently-established human tumour cell culture	C. A. TSE & G. K. SCOTT	285S
Purification and characterization of cysteine proteinases from human osteoclastomas	A. PAGE, M. J. WARBURTON, T. J. CHAMBERS & A. R. HAYMAN	286S
The measurement of human collagenase-TIMP complex by enzyme immunoassay	I. M. CLARK, J. K. WRIGHT & T. E. CAWSTON	287S
Cloning of a cDNA for porcine type I collagenase and expression in <i>E. coli</i>	M. C. O'HARE, N. J. CLARKE, T. E. CAWSTON & G. P. HARPER	288S
Potential metal ligands in the insulinase superfamily of endopeptidases	N. D. RAWLINGS & A. J. BARRETT	289S
N-[1(RS)-Carboxy-3-phenylpropyl]peptides as inhibitors of thimet oligopeptidase	C. G. KNIGHT & A. J. BARRETT	290S
The multicatalytic proteinase complex: interaction between catalytic sites?	H. DJABALLAH & A. J. RIVETT	291S
Catalytic subunits of the multicatalytic proteinase	P. J. SAVORY & A. J. RIVETT	292S
Immunocytochemical localization of the multicatalytic proteinase in rat liver and in L-132 cells	E. KNECHT, A. PALMER, S. T. SWEENEY & A. J. RIVETT	293S
Proteolysis of lung elastin by human neutrophil elastase	S. HANNAH & A. P. RYLE	294S
Membrane-bound peptidases of <i>Helix aspersa</i>	M. P. ENNIS, S. J. MCGRATH-LINDEN, N. J. MCKENNA, J. J. MCCANN, G. B. IRVINE & C. H. WILLIAMS	295S
Limited proteolysis as a probe for protein folding	M. A. RAMZAN, E. J. COOKSON & R. J. BEYNON	296S
The relationship between thaumatin, a sweet protein and thaumatopain, a cysteine protease, from the arils of <i>Thaumatococcus daniellii</i>	A. G. STEPHEN, R. POWLS & R. J. BEYNON	297S
Expression of HIV-I proteinase in <i>E. coli</i>	D. J. H. GASKIN & A. F. WILDERSPIN	298S
A comparison of the rat anti-proteinases alphamacrofetoprotein and decidualization-associated protein	N. A. TEIXEIRA & J. E. O'GRADY	299S
Decidualization-associated protein is an anti-proteinase and inhibits lymphocyte proliferation	N. A. TEIXEIRA, G. FILVA, E. BRONZE, A. SOUSA & J. E. O'GRADY	300S

The role of enzymes in regulating the toxicity of xenobiotics		
Biochemical effects of environmental pollution in fishes from the Spanish South-Atlantic littoral	A. RODRIGUEZ-ARIZA, G. DORADO, J. PEINADO, C. PUEYO & J. LOPEZ-BAREA	301S
H.p.l.c. isoenzyme patterns of glutathione transferase from marine fishes with different levels of pollution	P. PASCUAL, E. MARTÍNEZ-LARA, F. TORIBIO, J. LÓPEZ-BAREA & J. A. BÀRCENA	302S
Sexual dimorphism in <i>trans</i> -cypermethrin hydrolysis in the domestic chicken	R. L. HAGGAS, L. REES, H. M. THOMPSON, C. H. WALKER, R.T. GLADWELL & M. I. MACKNESS	303S
Substrate specificity of human serum paraoxonase	M. I. MACKNESS, S. ARROL & P. N. DURRINGTON	304S
Purification and characterization of a mosquito carboxylesterase involved in insecticide resistance	A. J. KETTERMAN, K. G. I. JAYAWARDENA & J. HEMINGWAY	305S
Polymorphisms of human liver carboxylesterases	A. J. KETTERMAN	306S
General topics		
Location and characteristics of epidermal growth factor binding to enterocyte plasma membranes	C. L. MYNOTT, S. A. PINCHES, A. GARNER & S. P. SHIRAZI-BEECHEY	307S
Arachidonic acid as a feedback inhibitor of phospholipid methylation in rat polymorphonuclear leucocytes	G. CHOI, B. GAO & W. A. GIBBONS	308S
Influence of peptides associated with the gastrointestinal tract on ovine perirenal fat lipogenesis	A. S. H. BABA & P. J. BUTTERY	309S
Disturbed methionine metabolism in pancreatitis	D. SCHOFIELD, T. BOTTIGLIERI & J. M. BRAGANZA	310S
Sensitivity of serum insulin concentrations to glucagon-like peptide I (7-36) amide in sheep	A. FAULKNER	311S
Structural comparison of three viral "fusion" proteins	B.H. NICHOLSON & M. NAASE	312S
Nuclear magnetic resonance studies on the mode of action of erythromycin A	J. I. GYI & J. BARBER	313S
Chylomicrons are the preferred substrate for lipoprotein lipase <i>in vivo</i>	J. L. POTTS, R. M. FISHER, S. M. HUMPHREYS, S. W. COPPACK, G. F. GIBBONS & K. N. FRAYN	314S
Gastric inhibitory polypeptide responses to nutrient absorption in ruminants	J. P. MCCARTHY, A. FAULKNER, P. A. MARTIN & D. J. FLINT	315S
Ferric iron reduction and uptake by mouse duodenal mucosa	K. B. RAJA, R. J. SIMPSON & T. J. PETERS	316S
Iron speciation in hypotransferrinaemic mouse serum	R. J. SIMPSON, K. B. RAJA, B. HALLIWELL, P. J. EVANS, O. I. ARUOMA & T. J. PETERS	317S
Lipid changes in individual membranes of <i>Acanthamoeba castellanii</i> during temperature adaptation	A. L. JONES, D. LLOYD, A. C. HANN & J. L. HARWOOD	318S
Synthesis of 5-aminolevulinate in pea <i>Pisum sativum</i> L leaves	C. E. PUGH, J. L. HARWOOD, T. LEWIS, T. CROMARTIE & R. A. JOHN	319S
The effect of diflufenican on lipid metabolism in plants	I. P. ASHTON, K. E. PALLETT, D.J. COLE & J.L. HARWOOD	320S
The effect of oleate and spermine on the subcellular distribution of phosphatidate phosphohydrolase (PAH, EC 3.1.3.4)	K. J. SIMPSON, S. VENKATESAN, T. J. PETERS, A. MARTIN & D. N. BRINDLEY	321S

Fatty acid profile of plasma lipids from patients with Crohn's disease before and after 4 weeks of elemental diet ("0 28" or "Vivonex")	K. TEAHON & S. VENKATESAN	322S
Adenosine (Ado) uptake in brush-border membrane vesicles from rat kidney (BBM)	J. SAYOS, J. J. CENTELLES, J. MALLOL, E. I. CANELA, C. LLUIS & R. FRANCO	323S
Protein factors involved in the expression of the α -fetoprotein gene	N. FERRER, J. PORTUGAL & R. FRANCO	324S
Lack of apolipoprotein synthesis by rat spleen	M. A. MINDHAM & P. A. MAYES	325S
Comparative hepatic metabolism of chylomicron remnants prepared <i>in vivo</i> or <i>in vitro</i>	T. GULDUR & P. A. MAYES	326S
Partial characterization of a TRH-immunoreactive peptide from rabbit prostate	S. M. COCKLE, A. AITKEN & S. HOWELL	327S
Transfection of chick cells by non-retroviral DNA	N. PAGE, D. SAVVA, G. LUKE & K. SIMKISS	328S
The effect of block co-polymers on the uptake of model polystyrene microspheres by Kupffer cells — <i>in vitro</i> and <i>in vivo</i> studies	I. S. MUIR, S. M. MOGHIMI, L. ILLUM, S. S. DAVIS & M. C. DAVIES	329S
Detection of genes encoding novel members of the ligand responsive transcription factor superfamily in <i>Xenopus laevis</i>	P. J. MATHARU & G. E. SWEENEY	330S
The effects of interleukin-5 on mitogenically stimulated rat spleen cells	A. G. POCKLEY & P. C. MONTGOMERY	331S
Purification of xanthine oxidase from human milk	R. HARRISON, S. ABADAH & M. BENBOUBETRA	332S
Nature of the HABA binding to human serum albumin	A. L. TÁRNOKY, B. H. NICHOLSON & D. SAVVA	333S
Digestive enzymes of the West African giant land snail, <i>Archachatina marginata</i>	F. E. ABADOM & D. W. MILSOM	334S
Activity and characteristics of an acid cholesteryl ester hydrolase in the rat lactating mammary gland	K. M. BOTHAM	335S
Effects of pancuronium and vecuronium on creatine kinase in rat isolated heart, liver, kidney and diaphragm	F. A. WALI & V. MAKINDE	336S
Bacterioferritin: structural modelling and molecular symmetry of <i>Escherichia coli</i> BFR	J. M. A. SMITH	337S
A potential motor neurone-specific monoclonal antibody (MN-1)	A. T. ROGERS, R. HARRISON, J. BLAYDES, J. BARNES & G. G. LUNT	338S
The mouse U7 small nuclear RNA gene promotor functions efficiently in <i>Xenopus</i> oocytes	S. C. PHILLIPS & P. C. TURNER	339S
Isolation of a potato U6 small nuclear RNA gene	Y. HU, J. W. S. BROWN, R. WAUGH & P. C. TURNER	340S
Unusual compartmentalization of mouse U7 small nuclear transcripts in <i>Xenopus</i> oocytes	P. C. TURNER & S. C. PHILLIPS	341S
Deletions downstream of the 3' box of the mouse U7 small nuclear RNA gene dramatically affect transcription	S. C. PHILLIPS & P. C. TURNER	342S
Purine <i>de novo</i> synthesis and enzymes at the inosinic branch point in human lymphocytes	E. MARINELLO, R. PAGANI, F. CARLUCCI, M. PIZZICHINI, P. VALERIO, M. MOLINELLI, E. DISPENSA & A. TABUCCHI	343S

The determination and biological role of 4'-carbamoylpyridoxal 5'-phosphate	A. TABUCCHI, R. PAGANI, L. TERZUOLI, R. LEONCINI & R. GUERRANTI	344S
The influence of testosterone on phospholipid metabolism	M. PIZZICHINI, G. CINCI, D. VANNONI, B. PORCELLI, R. LEONCINI & R. PAGANI	345S
DL-Allothreonine and L-threonine aldolase in rat liver	R. PAGANI, R. LEONCINI, L. TERZUOLI, J. CHEN, M. PIZZICHINI & E. MARINELLO	346S
The purine nucleotide content in normal human lymphocytes	E. MARINELLO, R. PAGANI, F. CARLUCCI, M. MOLINELLI, P. VALERIO & A. TABUCCHI	347S
An evaluation of purine nucleotide metabolism in human lymphocytes	E. MARINELLO, R. PAGANI, F. CARLUCCI, M. PIZZICHINI, P. VALERIO, M. MOLINELLI, E. DISPENSA & A. TABUCCHI	348S
