

## Colworth Medal Lecture

### 2'-O-Alkyloligoribonucleotides: Probes for Studying the Biochemistry and Cell Biology of RNA Processing

A. I. LAMOND

1

## colloquia

### 644th Meeting, Glasgow

---

#### colloquium: Structural Aspects of Photosynthesis and Photosynthetic Membrane Systems

---

##### Fourier transform infrared spectroscopy as a probe for the study of the structure of membrane proteins

P. I. HARRIS AND D. CHAPMAN

9

##### Light harvesting in photosystems I and II

J. P. THORNBER, G. F. PETER, D. T. MORISHIGE, S. GÓMEZ,  
S. ANANDAN, B. A. WELTY, A. LEE, C. KERFELD,  
T. TAKEUCHI AND S. PREISS

15

##### Cyanobacterial photosystem I structure

R. C. FORD AND M. A. COCHRANE

19

##### Prediction of key structural features in the polypeptides of photosystems I and II

J. H. A. NUGENT, S. V. RUFFLE AND M. C. BERRY

22

##### Structural organization of complex I from bovine mitochondria

S. J. PILKINGTON, J. M. ARIZMENDI, I. M. FEARNLEY,  
M. J. RUNSWICK, J. M. SKEHEL AND J. E. WALKER

26

##### Import and sorting of proteins by chloroplasts

J. S. KNIGHT, F. MADUEÑO AND J. C. GRAY

31

##### Modelling $\alpha$ -helical transmembrane domains

D. DONNELLY

36

##### A progress report on the crystallographic studies on the B800-850 antenna complex from *Rhodospseudomonas acidophila* strain 10050

R. J. COGDELL, E. HALLOREN, A. M. HAWTHORNTHWAITE,  
M. M. G. M. THUNNISSEN, A. A. FREER, G. McDERMOTT,  
N. GUTHRIE, N. ISAACS, J. G. LINDSAY AND M. PAPIZ

39

##### Protein engineering of bacterial light-harvesting complexes

C. N. HUNTER, G. J. S. FOWLER, G. G. GRIEF,  
J. D. OLSEN AND M. R. JONES

41

##### Probing the donor side of bacterial reaction centres: site-directed mutants of tyrosine L162 of *Rhodobacter sphaeroides* and *Rhodospseudomonas* *viridis*

J. WACHTVEITL, E. LAUBERMAIR, P. MATHIS,  
J. W. FARCHAUS AND D. OESTERHELT

43

---

#### colloquium: Excitatory Amino Acids: from Metabolism to Medicine

---

##### Ultrastructural immunocytochemical studies as a means of distinguishing between transmitter and non-transmitter glutamate

J. H. LAAKE, R. TORP AND O. P. OTTERSEN

45

<b>Neuronal–astrocytic interactions in glutamate metabolism</b>	A. SCHOUSBOE, N. WESTERGAARD AND L. HERTZ	<b>49</b>
<b>Ion channels and the regulation of neurotransmitter glutamate release</b>	D. G. NICHOLLS	<b>53</b>
<b>Structure and function of the sodium and potassium-coupled glutamate transporter from rat brain</b>	B. I. KANNER, N. DANBOLT, G. PINES, H. KOEPEL, E. SEEBERG AND J.-S. MATHISEN	<b>59</b>
<b>Nuclear signal transduction via immediate early genes in neurons and glia</b>	A. M. SZEKELY, D. GRAYSON AND E. COSTA	<b>61</b>
<b>The biochemistry and pharmacology of excitatory sulphur-containing amino acids</b>	R. GRIFFITHS	<b>66</b>
<b>Sulphur-containing excitatory amino acids in intercellular communication</b>	M. CUÉNOD, P. GRANDES, L. ZÄNGERLE, P. STREIT AND K. Q. DO	<b>72</b>
<b>Metabolism and function of brain kynurenes</b>	R. SCHWARCZ	<b>77</b>
<b>Metabolism and neuropathologic significance of quinolinic acid and kynurenic acid</b>	M. P. HEYES	<b>83</b>
<b>Characterization of the allosteric modulatory protein associated with non-NMDA receptors</b>	J. M. HENLEY	<b>89</b>
<b>Analysis of AMPA receptor subunits expressed by single Purkinje cells using RNA polymerase chain reaction</b>	P. BOCHET, E. AUDINAT, B. LAMBOLEZ, F. CRÉPEL AND J. ROSSIER	<b>93</b>
<b>The biochemical pharmacology of metabotropic glutamate receptors</b>	D.D. SCHOEPP	<b>97</b>
<b>Excitatory amino acid research in Alzheimer's disease: enhancement and blockade of receptor functions</b>	P. KROGSGAARD-LARSEN, P. WAHL, A. SCHOUSBOE, U. MADSEN AND J. J. HANSEN	<b>102</b>
<b>Excitatory amino acid antagonists and epilepsy</b>	A. G. CHAPMAN AND B. S. MELDRUM	<b>106</b>

---

**colloquium: Recent Developments in Electrophoresis**

---

<b>Gel electrophoretic analysis of the structure of nucleic acids</b>	D. M. J. LILLEY, A. BHATTACHARYYA, S. P. McATEER AND D. R. DUCKETT	<b>111</b>
<b>Fluorescence-based DNA segment analysis in forensic science</b>	K. M. SULLIVAN, A. WALTON, C. KIMPTON, G. TULLY AND P. GILL	<b>116</b>
<b>Fluorophore-assisted carbohydrate electrophoresis: a new technology for the analysis of glycans</b>	P. JACKSON	<b>121</b>
<b>Studies of binding equilibria for peptides and pharmaceuticals using capillary electrophoresis</b>	D. M. GOODALL	<b>125</b>
<b>Two-dimensional electrophoresis with immobilized pH gradients: current state</b>	A. GÖRG	<b>130</b>
<b>Fascinating families of proteins: electrophoresis of human saliva</b>	J. A. BEELEY	<b>133</b>

---

**colloquium: Regulation of Gene Expression and Differentiation in the Islets of Langerhans**

---

<b>New molecular perspectives in islet hormone biosynthesis</b>	D. F. STEINER, N. FOX, S. P. SMEEKENS, S. OHAGI, G. WESTERMARK AND S. J. CHAN	<b>139</b>
<b>A tumour model for the study of islet cell differentiation</b>	O. D. MADSEN, P. SERUP, C. KARLSEN, K. LUND, H. V. PETERSEN, N. BLUME, F. G. ANDERSEN, J. JENSEN AND B. K. MICHELSEN	<b>142</b>
<b>Growth of the endocrine pancreas: the role of somatolactogenic hormones and receptors</b>	J. H. NIELSEN, N. BILLESTRUP, A. MØLDRUP, G. ALLEVATO, E. D. PETERSEN, J. A. PEDERSEN AND J. A. HANSEN	<b>146</b>
<b>Positive and negative regulation of insulin gene transcription</b>	R. SHIRAN, A. ARONHEIM, A. ROSEN, C. W. PARK, D. LESHKOWITZ AND M. D. WALKER	<b>150</b>
<b>Cell-specific gene expression in the islets of Langerhans: E boxes and TAAT boxes</b>	A. R. CLARK AND K. DOCHERTY	<b>154</b>
<b>Evolutionary conservation of elements in the upstream glucokinase promoter</b>	M. A. MAGNUSON AND T. L. JETTON	<b>160</b>
<b>Pancreatic <math>\beta</math>-cells express a low affinity glucose transporter: functional consequences in normal and diabetic states</b>	M. O. MARSHALL, H. M. THOMAS, M. J. SEATTER, K. R. GREER, P. J. WOOD AND G. W. GOULD	<b>164</b>
<b>Formation of islet amyloid from islet amyloid polypeptide</b>	A. CLARK, E. J. P. DE KONING AND J. F. MORRIS	<b>169</b>
<b>Differential islet cell expression of two glutamate decarboxylases, both autoantigens in diabetes</b>	B. K. MICHELSEN, J. S. PETERSEN, T. B. RAMBRANDT, E. BOEL, A. E. KARLSEN, N. VIDEBÆK, N. BLUME AND O. D. MADSEN	<b>173</b>
<b>Characterization of a cDNA encoding the insulin gene GAGA-binding factor, Pur-1</b>	G. C. KENNEDY AND W. J. RUTTER	<b>178</b>

---

**colloquium: The Genetics and Enzymology of Multienzyme Systems**

---

<b>The molecular biology of the pentafunctional AROM protein</b>	A. R. HAWKINS, J. D. MOORE AND H. K. LAMB	<b>181</b>
<b>CAD gene sequence and the domain structure of the mammalian multifunctional protein CAD</b>	D. R. EVANS, K. BEIN, H. I. GUY, X. LIU, J. A. MOLINA AND B. H. ZIMMERMANN	<b>186</b>
<b>Phosphorylation, allosteric effectors and inter-domain contacts in CAD; their role in regulation of early steps of pyrimidine biosynthesis</b>	E. A. CARREY	<b>191</b>
<b>The carbamoyl phosphate synthetase–aspartate transcarbamoylase complex of <i>Saccharomyces cerevisiae</i>: molecular and cellular aspects</b>	G. HERVÉ, M. NAGY, M. LE GOUAR, B. PENVERNE AND M. LADJIMI	<b>195</b>
<b>Structure–function studies in carbamoyl phosphate synthetases</b>	V. RUBIO	<b>198</b>
<b>Overview of multienzyme systems in biosynthetic pathways</b>	H. ZALKIN	<b>203</b>

<b>Oxidative amino acid processing in <math>\beta</math>-lactam antibiotic biosynthesis</b>	C. A. TOWNSEND	<b>208</b>
<b>The organization of multifunctional peptide and depsipeptide synthetases</b>	H. VON DÖHREN	<b>214</b>
<b>The erythromycin-producing polyketide synthase</b>	P. F. LEADLAY, J. STAUNTON, J. F. APARICIO, D. J. BEVITT, P. CAFFREY, J. CORTES, A. MARSDEN AND G. A. ROBERTS	<b>217</b>
<b>The biosynthesis of tetraketides: enzymology, mechanism and molecular programming</b>	P. M. JORDAN AND J. B. SPENCER	<b>221</b>

---

**Structural aspects of photosynthesis and photosynthetic membrane systems**

---

The relationship between structure and activity of the methoxyacrylate toxophore	T. E. WIGGINS	<b>1S</b>
Interactions of the myxothiazol and mucidin toxophores with cytochrome <i>b</i>	T. E. WIGGINS	<b>2S</b>
Phosphorylation patterns from thylakoid peptides from <i>Synechococcus</i> 7942 under nitrogen repleted and depleted conditions	C. A. JAMES, E. A. PEACE AND E. H. EVANS	<b>3S</b>
Crystallization of the B800–820 light-harvesting complex from <i>Rhodospseudomonas acidophila</i> strain 7750	N. GUTHRIE, G. McDERMOTT, R. J. COGDELL, A. A. FREER, N. W. ISAACS, A. M. HAWTHORNTHWAITE, E. HALLOREN AND J. G. LINDSAY	<b>4S</b>
The lipids of <i>Rhodospseudomonas acidophila</i> strain 10050 as possible influences on the crystallization of the B800–850 complex from this bacterium	G. S. DAHLER, R. J. COGDELL AND P. J. DOMINY	<b>5S</b>
The effect of changes in light intensity and temperature on the peripheral antenna of <i>Rhodospseudomonas acidophila</i>	A. T. GARDINER, S. TAKAICHI AND R. J. COGDELL	<b>6S</b>

---

**Chromosomal controls in gene expression**

---

Cloning the pea DNA methylase cDNA	M. CUMMINGS AND R. L. P. ADAMS	<b>7S</b>
Studies on CpG methylation within human tRNA <sup>Gly</sup> genes	A. ALLOUECHE, J. P. GODDARD AND R. L. P. ADAMS	<b>8S</b>
Specific methylation of vector sequences inhibits transcription from the SV40 early promoter	S. U. KASS, J. P. GODDARD AND R. L. P. ADAMS	<b>9S</b>
Characterization of DNA methylase from Pea ( <i>Pisum sativum</i> )	C. E. HOULSTON AND R. L. P. ADAMS	<b>10S</b>
The role of DNA methylation in the expression of parathyroid hormone-related protein in humoral hypercalcaemia of malignancy	R. H. GANDERTON AND R. S. J. BRIGGS	<b>11S</b>

---

**Excitatory amino acids: from metabolism to medicine**

---

A purine analogue reduces kainate neurotoxicity <i>in vivo</i>	D. C. MACGREGOR, S. K. K. CHISHTI AND T. W. STONE	<b>12S</b>
The role of intracellular free calcium and phosphorylation in survival and differentiation of cultured cerebellar granule cells	M. E. GRAHAM, H. PEARSON AND R. D. BURGOWNE	<b>13S</b>
Polarity development and synaptogenesis in low density primary cultures of neocortex. Use of herpes simplex virus-1 vectors to transfer genes into postmitotic neurons	P. R. LOWENSTEIN, E. MORRISON, P. HODGE, P. TOMASEC, A. F. SHERING, N. D. STOW, C. M. PRESTON, J. L. JAMES AND M. G. CASTRO	<b>14S</b>
Developmental changes in the properties of the chicken brain kainate-binding protein	P. A. MURPHY AND J. M. HENLEY	<b>15S</b>
The importance of carboxyl residue(s) related to the cation binding site of the NMDA receptor channel domain	P. L. CHAZOT, A. FOTHERBY AND F. A. STEPHENSON	<b>16S</b>

Interaction of guanyl nucleotides with [ <sup>3</sup> H]kainate binding in goldfish brain	J. M. BARNES, P. A. MURPHY AND J. M. HENLEY	<b>17S</b>
Glutamate neurotoxicity: a role for non-N-methyl-D-aspartate receptors?	R. M. DUBERLEY, C. R. RICKARDS, J. HAM AND M. F. SCANLON	<b>18S</b>
<hr/>		
<b>Recent developments in electrophoresis</b>		
Capillary electrophoresis (CE) of proteins with scanning detection	G. A. ROSS AND D. PERRETT	<b>19S</b>
<hr/>		
<b>Regulation of gene expression and differentiation in the Islets of Langerhans</b>		
Effect of lactation on insulin signalling in sheep adipose and muscle tissue	S. E. MILLS, L. A. WILSON, N. G. ANDERSON, E. KILGOUR, P. J. BUTTERY AND R. G. VERNON	<b>20S</b>
Role of protein kinase C in the chronic insulin-antagonistic effects of growth hormone in sheep adipose tissue	R. G. VERNON AND S. LINDSAY-WATT	<b>21S</b>
Human insulin promoter driven reporter gene expression	S. GOODISON AND S. J. H. ASHCROFT	<b>22S</b>
Investigation of a novel GABAergic cell-surface marker which may link Stiff Man's Syndrome and insulin-dependent diabetes mellitus	V. DUMON AND M. DOCHERTY	<b>23S</b>
Linkage of maturity-onset diabetes of the young to the glucokinase gene — evidence of genetic heterogeneity	A. T. HATTERSLEY, P. J. SAKER, P. PATEL, Y.-M. D. LO, R. PAGE, S. O'RAHILLY, R. C. TURNER, M. A. PERMUTT AND J. S. WAINSCOT	<b>24S</b>
A new e.l.i.s.a. for specific insulin measurements in Type II diabetic patients	E. R. MORRIS, B. DINESEN, M. A. BURNETT, P. CHRISTOPHER, P. A. BASSETT AND S. E. MANLEY	<b>25S</b>
Localization of islet amyloid polypeptide (IAPP) in pancreatic islets of transgenic mice expressing the human or rat IAPP gene	E. J. P. DE KONING, J. W. M. HÖPPENER, C. OOSTERWIJK, S. J. VERBEEK, H. J. VISSER, H. S. JANSZ, C. J. M. LIPS, J. F. MORRIS AND A. CLARK	<b>26S</b>
Endothelin converting enzyme of porcine lung	L. J. MURPHY AND A. J. TURNER	<b>27S</b>
IAPP/amylin transgenic mice as an <i>in vivo</i> model system for type-2 diabetes mellitus?	J. W. M. HÖPPENER, C. OOSTERWIJK, S. J. VERBEEK, K. VAN HULST, H. J. VISSER, F. HOFHUIS, M. BERENDS, H. S. JANSZ AND C. J. M. LIPS	<b>28S</b>
The microsomal glucose-6-phosphatase system of HIT-T15 $\beta$ cells	M. W. VOICE, I. D. WADDELL, I. MORECROFT AND A. BURCHELL	<b>29S</b>
<hr/>		
<b>The genetics and enzymology of multienzyme systems</b>		
Mutagenesis of the dehydratase active site in the erythromycin-producing polyketide synthase	D. J. BEVITT, J. STAUNTON AND P. F. LEADLAY	<b>30S</b>
Analysis of a gene cluster from <i>S. longisporoflavus</i> potentially involved in tetronasin biosynthesis	H. N. COOPER, J. CORTES, D. J. BEVITT, P. F. LEADLAY AND J. STAUNTON	<b>31S</b>
6-Deoxyerythronolide B synthase 3 from <i>Saccharopolyspora erythraea</i> : over-expression in <i>Escherichia coli</i> , purification and characterization	G. A. ROBERTS, J. STAUNTON AND P. F. LEADLAY	<b>32S</b>
Construction of an artificial 'multicatalytic protease'	D. S. ELLISON, J. HINTON AND R. J. BEYNON	<b>33S</b>

Diagnosis of the genetic deficiencies of each of the proteins of the multi-component glucose-6-phosphatase system	H. M. SCOTT, I. D. WADDELL, H. LYALL AND A. BURCHELL	<b>34S</b>
A unique, membrane-bound, multifunctional enzyme from human liver mitochondria catalysing three steps of fatty acid $\beta$ -oxidation	K. CARPENTER, R. J. POLLITT AND B. MIDDLETON	<b>35S</b>
Comparisons of nucleotide and protein sequences for mammalian serine hydroxymethyltransferase	P. C. BYRNE, P. G. SANDERS AND K. SNELL	<b>36S</b>
The viscoelastic moduli of actin/filamin solutions: a micro-rheologic study	R. RUDDIES, W. H. GOLDMANN, G. ISENBERG AND E. SACKMANN	<b>37S</b>
Dihydrolipoamide dehydrogenase in plants: differences in the mitochondrial and chloroplastic forms	A. E. TAYLOR, R. E. MILLAR, A. CARMICHAEL, R. J. COGDELL AND J. G. LINDSAY	<b>38S</b>
Liver perfusion with hyper-osmotic media stimulates microsomal glucose-6-phosphatase activity	A. GRANT, D. TOSH AND A. BURCHELL	<b>39S</b>
Comparative sequence analysis and predicted phylogeny of the DNA-dependent RNA polymerase $\beta$ subunits of <i>Staphylococcus aureus</i> and other eubacteria	G. C. ROWLAND, M. ABOSHIKIWA AND G. COLEMAN	<b>40S</b>

---

**Glycosyl-phosphatidylinositols in cell biology**

Inositol-containing lipoglycans in prokaryotes	J. H. CHARLTON AND N. SHAW	<b>41S</b>
A glycosyl-phosphatidylinositol anchor can target a bacterial enzyme to the apical surface of polarized epithelial cells	K. L. SOOLE, G. P. HAZLEWOOD, H. J. GILBERT AND B. H. HIRST	<b>42S</b>
The structure of the glycosylphosphatidyl inositol anchor from <i>Torpedo californica</i> acetylcholinesterase	A. MEHLERT, I. SILMAN, S. W. HOMANS AND M. A. J. FERGUSON	<b>43S</b>
Identification of the site of attachment of the glycolipid anchor in porcine membrane dipeptidase	I. A. BREWIS, N. M. HOOPER AND A. J. TURNER	<b>44S</b>
Investigation of glycolipid anchor addition using a synthetic peptide as substrate	S. J. BROOMFIELD AND N. M. HOOPER	<b>45S</b>
Structural determination of the glycolipid anchors of human and porcine membrane dipeptidases	I. A. BREWIS, M. A. J. FERGUSON, A. J. TURNER AND N. M. HOOPER	<b>46S</b>

---

**Advances in the application of molecular biology in drug development**

Intracellular compartmentalization of procorticotrophin releasing hormone	E. MORRISON, P. R. LOWENSTEIN, P. TOMASEC, P. HODGE, E. LINTON, J. DEVINE, P. J. LOWRY AND M. G. CASTRO	<b>47S</b>
Potential of the action of fibroblast growth factor by heparin and related molecules	C. J. ROBINSON, C. M. AYLING, E. GRAY AND B. MULLOY	<b>48S</b>
A 70 kDa <i>Aeromonas salmonicida</i> serine protease $\beta$ -galactosidase hybrid protein as an antigen and its protective effect on Atlantic salmon ( <i>Salmo salar</i> L.) against a virulent <i>A. salmonicida</i> challenge	G. COLEMAN, A. J. BENNETT, P. W. WHITBY AND I. R. BRICKNELL	<b>49S</b>
Effect of 5-fluorouracil on polyamine excretion in human colonic cancer cells	A. J. MACKAREL AND H. M. WALLACE	<b>50S</b>
<i>In vitro</i> biochemical activities associated with recombinant HIV-1 integrase	I. K. PEMBERTON AND O. M. P. SINGH	<b>51S</b>

<b>General topics</b>		
Prostaglandin E <sub>2</sub> receptors of a human monocytic cell line, U937 cells	C. C. LOH, D. ROTONDO AND A. K. DUTTA-ROY	<b>52S</b>
Amorphous aluminosilicates promote nucleation of amyloid $\beta$ protein and tachykinins	J. M. CANDY, A. E. OAKLEY AND J. A. EDWARDSON	<b>53S</b>
Immunoaffinity purification of synaptosomes and PC12 cells expressing cell-surface APP	M. DOCHERTY AND D. WARD	<b>54S</b>
Models of APP dysfunction in Alzheimer's disease	D. WARD	<b>55S</b>
Evidence for more than one binding site in cloned D2 and D3 dopamine receptors	M. C. COLDWELL, W. P. BOWEN, F. BROWN, M. J. BROWNE, R. FEARS, M. S. HADLEY, F. R. HICKS, C. J. MANNIX AND G. J. RILEY	<b>56S</b>
Studies on cervical glycoproteins: isolation and characterization of oligosaccharides from luteal phase cervical glycoproteins of bonnet monkey	NASIR-UD-DIN, E. WALKER-NASIR AND FAYYAZ-UD-DIN	<b>57S</b>
Genetic and biosynthetic aspects of <i>Shigella flexneri</i> O-specific lipopolysaccharides	D. A. R. SIMMONS	<b>58S</b>
Quantifying the value of biological information: II	C. F. MATTA	<b>59S</b>
Artificial generation of oxygen radicals and cell damage in the heart	S. DANIELS AND C. J. DUNCAN	<b>60S</b>
Studies on the ATP binding site in the chaperone protein GroEL (cpn60)	G. J. THOMSON, J. R. COGGINS AND N. C. PRICE	<b>61S</b>
Alterations of rat kidney, liver and erythrocytes glucose 6-phosphate dehydrogenase activity by chronic acidosis	B. HAGHIGHI, M. SUZANGAR AND M. KHAJEH	<b>62S</b>
Allosteric properties of yeast pyruvate kinase studied by site-directed mutagenesis	R. A. COLLINS, T. McNALLY AND L. A. FOTHERGILL-GILMORE	<b>63S</b>
Purification and partial characterization of a protein of unknown function from <i>Thermoplasma acidophilum</i>	S. POTTER, N. JOHNSTON AND L. A. FOTHERGILL-GILMORE	<b>64S</b>
The effects of pH on the binding of ATP and phosphate in the biotin carboxylation reaction of pyruvate carboxylase	B. D. L. A. GRANERI, F. H. SOTZIK AND P. V. ATTWOOD	<b>65S</b>
Investigating the function of cytochrome P-450 BM-3: a role for the phylogenetically conserved tryptophan residue?	A. W. MUNRO, K. MALARKEY AND J. S. MILES	<b>66S</b>
Scheme of RNA transcription in calicivirus-infected cells	J. MEANGER, M. J. CARTER, I. D. MILTON, M. BENNETT, R. M. GASKELL AND P. C. TURNER	<b>67S</b>
Antioxidants prevent nickel chloride inhibition of cytochrome P-450 dependent mixed function oxidation in guinea pig lung microsomes	H. M. T. AL-ASSADI, E. H. RODGERS AND M. H. GRANT	<b>68S</b>
Growth and viability of Hep G2 cells in medium containing high serum concentrations	A. MELKONIAN, J. D. S. GAYLOR, R. B. COUSINS AND M. H. GRANT	<b>69S</b>
Maintenance of liver-specific function in cultured hepatocytes in different media	S. KHAN, J. PAXTON, P. ROBERTS AND P. SKETT	<b>70S</b>
Identification of transferrin in cytosol isolated from intestinal mucosal cells	A. A. MOSHTAGHIE AND M. SABET-JAHROMI	<b>71S</b>

<b>Comparison of substrata for culture of mouse mammary cells</b>	D. R. BLATCHFORD, W. L. HURLEY, K. A. K. HENDRY AND C. J. WILDE	<b>72S</b>
<b>Dendroaspin: a potent integrin receptor inhibitor from the venoms of <i>Dendroaspis viridis</i> and <i>D. jamesonii</i></b>	J. A. WILLIAMS, X. LU, S. RAHMAN, C. KEATING AND V. KAKKAR	<b>73S</b>
<b>Maintenance of GSH content in primary astrocyte cultures under oxidative stress conditions</b>	J. R. VIÑA, A. DEVESA, C. GARCIA, I. R. PUERTES AND E. O'CONNOR	<b>74S</b>
