

Hopkins Memorial Lecture

Catalytic RNA: Structure and Mechanism

T. R. CECHE

229

colloquia

645th Meeting, Royal Free Hospital, London

colloquium: Phospholipid Translocation, Asymmetry and Membrane Fusion

Lipid sorting — measurement and interpretation	I. L. VAN GENDEREN AND G. VAN MEER	235
Biosynthesis of sphingomyelin and its delivery to the surface of baby hamster kidney (BHK) cells	D. ALLAN, K.-J. KALLEN AND P. QUINN	240
Properties and intracellular localization of phosphatidylinositol transfer protein in Swiss mouse 3T3 cells	G. T. SNOEK, I. S. C. DE WIT AND K. W. A. WIRTZ	244
Mechanism and function of changes in membrane-phospholipid asymmetry in platelets and erythrocytes	R. F. A. ZWAAL, P. COMFURIUS AND E. M. BEVERS	248
Trans-bilayer distribution of phosphatidylinositol 4,5-bisphosphate and its role in the changes of lipid asymmetry in the human erythrocyte membrane	P. GASCARD, J. C. Sulpice, D. TRAN, M. SAUVAGE, M. CLARET, A. ZACHOWSKI, P. F. DEVAUX AND F. GIRAUD	253
Biocompatible surfaces based upon the phospholipid asymmetry of biomembranes	D. CHAPMAN	258
Two-phase partitioning applied to changes in phospholipid asymmetry	C. TILCOCK AND D. FISHER	262
Structure and energetics of phospholipid and diacylglycerol assemblies relative to membrane fusion	R. P. RAND AND Y. FANG	266
Asymmetry in trans-bilayer lateral pressure may drive expansion of the secretion fusion pore	A. BOGDANOV, B. VERHOVEN, R. A. SCHLEGEL AND P. WILLIAMSON	271
How lipid asymmetry can make vesicles fusion-competent by inhibition of the thermal undulations	P. F. DEVAUX, L. MATHIVET, S. CRIBIER AND E. FARGE	276
Loss of phospholipid asymmetry in cell fusion	J. A. LUCY	280
Diacylglycerol in the exocytosis of the mammalian sperm acrosome	E. R. S. ROLDAN AND R. A. P. HARRISON	284
Protein kinase C, membrane fusion and platelet granule secretion	J. M. GERRARD, A. McNICOL AND S. P. SAXENA	289

colloquium: Pre-Doctoral Students' Meeting

Structure of the myelin membrane enzyme 2',3'-cyclic nucleotide 3'-phosphodiesterase: Evidence for two human mRNAs	A. J. DOUGLAS AND R. J. THOMPSON	295
Molecular studies on chemotactic receptors	K. MITROPHANOUS AND B. M. CHARALAMBOUS	297
Identification of a protein capable of causing fusion of endosome and lysosome membranes	T. KUWANA, B. M. MULLOCK AND J. P. LUZIO	299
G protein localization in cultured dorsal root ganglion neurones	A. S. MENON-JOHANSSON AND A. C. DOLPHIN	301
Sequence-specific anti-peptide antibodies that recognize different subunits of the high-affinity IgE receptor	B. GAO, G. J. ANDERSON, M. J. BRAMMER, C. H. JAMES, M. DANTON, G. TOTH, I. TOTH AND W. A. GIBBONS	302
Structural analysis of the variation in the major outer membrane proteins of <i>Neisseria meningitidis</i> and related species	J. SUKER, I. M. FEAVERS AND M. C. J. MAIDEN	304
Characterization of amino-acid transport in pig erythrocytes	J. C. DYKE AND D. A. FINCHAM	307
GLUT 1: Identification of exofacial lysine-residues	R. A. J. PRESTON AND S. A. BALDWIN	309

colloquium: Mechanisms of Free Radical Damage in the Vascular and Central Nervous Systems and Control by Antioxidant Intervention

Dynamics of lipid peroxidation and its inhibition by antioxidants	E. NIKI, N. NOGUCHI AND N. GOTOH	313
The use of spin traps to investigate site-specific formation of free radicals in low-density lipoprotein oxidation	B. KALYANARAMAN, J. JOSEPH AND S. PARTHASARATHY	318
Cellular modification of low-density lipoproteins	W. JESSUP	321
Free-radical scavenging activities, interactions and recycling of antioxidants	H.-J. FREISLEBEN AND L. PACKER	325
Pathological implications of nitric oxide, superoxide and peroxynitrite formation	J. S. BECKMAN AND J. P. CROW	330
Cerebral ischaemia, free radicals and antioxidant protection	E. D. HALL	334
High-dose systemic iron chelation attenuates reperfusion injury	B. E. HEDLUND AND P. E. HALLAWAY	340
Composition and organization of the NADPH oxidase of phagocytes and other cells	O. T. G. JONES, S. A. JONES, J. T. HANCOCK AND N. TOPLEY	343
Protein modification by oxidants and the role of proteolytic enzymes	K. J. A. DAVIES	346

Mitochondrial calcium handling and oxidative stress	A. P. HALESTRAP, E. J. GRIFFITHS AND C. P. CONNERN	353
Peroxynitrite and atherosclerosis	N. HOGG, V. M. DARLEY-USMAR, A. GRAHAM AND S. MONCADA	358
Antioxidant drugs and the inhibition of low-density lipoprotein oxidation	E. S. R. GREEN, C. E. COOPER, M. J. DAVIES AND C. RICE-EVANS	362
Free radicals and mitochondrial dysfunction in Parkinson's disease	A. H. V. SCHAPIRA, A. HARTLEY, M. W. J. CLEETER AND J. M. COOPER	367
Oxidative stress and its control: A pathogenetic role in inflammatory joint disease	K. FAIRBURN, C. R. STEVENS, P. G. WINYARD, M. KUS, R. J. WARD, J. CUNNINGHAM, M. ZAIDI AND D. R. BLAKE	371

colloquium: New Directions for Biochemistry and Physiology Teaching

Review of General Medical Council proposals on undergraduate medical education	D. A. SHAW	377
Contribution of basic medical science to a new medical curriculum	P. McCRORIE	379
Teaching versus learning	J. A. PATTERSON	383
Two revolutions and the scientific culture	G. T. MOORE	387

colloquium: Neurotransmitter Release

G protein modulation of voltage-dependent calcium channels and transmitter release	A. C. DOLPHIN, H. A. PEARSON, A. S. MENON-JOHANSSON, M. I. SWEENEY, K. SUTTON, E. HUSTON, G. P. CULLEN AND R. H. SCOTT	391
Calcium and transmitter release at nerve terminals	R. S. ZUCKER	395
Identification of cytosolic protein regulators of exocytosis	A. MORGAN, D. ROTH, H. MARTIN, A. AITKEN AND R. D. BURGOYNE	401
The role of B-50/GAP-43 in transmitter release: Studies with permeated synaptosomes	P. N. E. DE GRAAN AND W.-H. GISPEN	406
Glutamate release from isolated nerve terminals: Modulatory role of protein phosphorylation and dephosphorylation	T. S. SIHRA	410
Neurotransmitter release mechanisms in sympathetic and parasympathetic nerve terminals	T. J. SEARL AND T. C. CUNNANE	416
Spatial and temporal aspects of Ca changes in secretion control	E. NEHER	420
A Lambert-Eaton myasthenic syndrome antigen associated with presynaptic calcium channels	M. J. SEAGAR, N. MARTIN-MOUTOT, C. LEVEQUE, O. EL FAR, P. DAVID, B. MARQUEZE, B. LANG, J. NEWSOM-DAVIS, T. HOSHINO AND M. TAKAHASHI	423

Hippocampal nicotinic autoreceptors modulate acetylcholine release	G. I. WILKIE, P. H. HUTSON, M. W. STEPHENS, P. WHITING AND S. WONNACOTT	429
Agonist regulation of cellular levels of the stimulatory guanine nucleotide-binding protein, G_s, in wild type and transfected neuroblastoma-glioma hybrid NG108-15 cells	E. J. ADIE AND G. MILLIGAN	432

colloquium: Carbohydrates, Shapes and Biological Recognition

Recognition of a carbohydrate antigenic determinant of <i>Salmonella</i> by an antibody	M. CYGLER, S. WU, A. ZDANOV, D. R. BUNDLE AND D. R. ROSE	437
Probing the atomic interactions between proteins and carbohydrates	F. A. QUIOCHO	442
Oligosaccharides and recognition — A 'shape' problem probed by n.m.r. and molecular modelling	S. W. HOMANS AND T. RUTHERFORD	449
The conformational effects of N-linked glycosylation	C. J. EDGE, H. C. JOAO, R. J. WOODS AND M. R. WORMALD	452
Recognition of complex carbohydrates by Ca²⁺-dependent animal lectins	K. DRICKAMER	456
Sweet and shapely: Ligands for animal lectins	Y. C. LEE	460
Structure/function relationships in the collectins (mammalian lectins containing collagen-like regions)	K. B. M. REID	464
Recognition of complex carbohydrates by the macrophage mannose receptor	M. E. TAYLOR	468
The role of mannose-binding protein in host defence	J. A. SUMMERFIELD	473
Heparan sulphate: Functional role as a modulator of fibroblast growth factor activity	J. E. TURNBULL AND J. T. GALLAGHER	477

colloquium: Molecular Aspects of Lipoprotein Metabolism in Health and Disease

Apolipoproteins E and C-III have opposing roles in the clearance of lipoprotein remnants in transgenic mice	H. V. DE SILVA, S. J. LAUER, R. W. MAHLEY, K. H. WEISGRABER AND J. M. TAYLOR	483
The assembly and secretion of apoB-100-containing lipoproteins	J. BÖREN, M. WETTESTEN, S. RUSTAEUS, M. ANDERSSON AND S.-O. OLOFSSON	487
Synthesis and secretion of apolipoprotein A-I	S. CALANDRA AND P. TARUGI	493
Genetic influences on lipoprotein(a) concentration	D. P. WADE, J. G. CLARKE, G. E. LINDAHL, A. C. LIU, B. R. ZYSOW, K. MEER, K. SCHWARTZ AND R. M. LAWN	499

Lipoprotein metabolism in lipase deficient states: Studies in primary and secondary hyperlipidaemia	C. J. PACKARD AND J. SHEPHERD	503
Phenotypic variation of mutations in the human lipoprotein-lipase gene	M. R. HAYDEN, J. J. KASTELEIN, H. FUNKE, J. D. BRUNZELL AND Y. MA	506
Regulation of lipoprotein lipase	T. OLIVECRONA, G. LIU, M. HULTIN AND G. BENGTSSON-OLIVECRONA	509

colloquium: Glyoxalases

Catalytic and molecular properties of glyoxalase I	B. MANNERVIK AND M. RIDDERSTRÖM	515
Glyoxalase I in micro-organisms: Molecular characteristics, genetics and biochemical regulation	A. KIMURA AND Y. INOUE	518
Glyoxalase II: Molecular characteristics, kinetics and mechanism	D. L. VANDER JAGT	522
The glyoxalase system in higher plants: Regulation in growth and differentiation	R. DESWAL, T. N. CHAKARAVARTY AND S. K. SOPORY	527
Modification of the glyoxalase system in disease processes and prospects for therapeutic strategies	P. J. THORNALLEY	531
Inhibitors of glyoxalase I: Design, synthesis, inhibitory characteristics and biological evaluation	R. E. ALLEN, T. W. C. LO AND P. J. THORNALLEY	535
Structural relationships between glyoxalase I and membrane transport proteins	J. H. MCKIE AND K. T. DOUGLAS	540
Inhibitors and inhibition studies of mammalian glyoxalase II activity	S. J. NORTON, A. C. ELIA, M. K. CHYAN, G. GILLIS, C. FRENZEL AND G. B. PRINCIPATO	545
Mechanism for the formation of methylglyoxal from triosephosphates	J. P. RICHARD	549

Phospholipid translocation, asymmetry and membrane fusion		
Fourier transform infrared spectroscopic studies on human transferrin receptor	J. M. HADDEN, P. I. HARRIS, K. S. SRAI AND D. CHAPMAN	75S
Inhibition of aminophospholipid translocation in red cell vesicles	Z. BELEZNAY, A. ZACHOWSKI, P. F. DEVAUX AND P. OTT	76S
Studies on CTP:cholinephosphate cytidyltransferase in <i>Apium graveolens</i>	E. T. PARKIN, J. L. GOAD AND C. E. ROLPH	77S
Hydrophilic and hydrophobic surface map analysis of bacteriorhodopsin	I. D. KERR AND M. S. P. SANSOM	78S
Effect of heat on 1,2-diacylglycerol and triacylglycerol levels in WRK-1 and CHO cells	L. KWONG, K. BOWLER AND R. MANNING	79S
Interaction of myosin with charged membranes is affected by ATP	J. A. G. ARÉAS AND A. WATTS	80S
The structure of a polypeptide corresponding to the pore region of the voltage-gated potassium channel	P. I. HARRIS, B. RAMESH, K. S. SRAI AND D. CHAPMAN	81S
Conformation of the Pf1 coat protein in the phage and in a lipid membrane	I. AZPIAZU, P. I. HARRIS AND D. CHAPMAN	82S
Binding-independent fluorescence enhancement of MC 540 in erythrocytes with decreased phospholipid asymmetry	K.-J. KALLEN, C. W. M. HAEST, J. W. M. LANGERBERG AND T. M. A. R. DUBBELMAN	83S
Mechanisms of free radical damage in the vascular and central nervous systems and control by antioxidant intervention		
Maintenance of GSH content in primary astrocyte cultures under oxidative stress conditions	J. R. VIÑA, A. DEVESA, C. GARCIA, I. R. PUERTES AND E. O'CONNOR	84S
Diphenylisobenzofuran (DPBF) follows the dynamics of ROO· to RO· and C-centred radicals in microsomal membranes	M. WOZNIAK, J. NOWAK, J. ANTOSIEWICZ, L. GRECI, E. DAMIANI, F. TANFANI AND E. BERTOLI	85S
Ventricular glutathione content and Na/K ATPase activity	P. S. HADDOCK AND D. J. HEARSE	86S
Detection of radicals in oxidized lipoproteins	M. J. DAVIES AND C. A. RICE-EVANS	87S
Superoxide dismutase: An antireductant enzyme?	D. A. PETERSON, D. C. PETERSON, S. L. ARCHER AND E. K. WEIR	88S
The effect of lipid hydroperoxides on the copper-dependent oxidation of low-density lipoprotein	V. O'LEARY, A. GRAHAM, V. M. DARLEY-USMAR AND D. STONE	89S
Short and long term modulation of oxidant-induced ATP depletion — Implications for effective treatment	S. A. MILLICAN, J. WEBSTER AND H. M. WALLACE	90S
Effect of folates and folate antagonists on lipid peroxidation	M. P. IQBAL, N. MEHBOOBALI AND M. A. WAQAR	91S
Alterations in the antioxidant defence of peripheral nervous tissue following acute ethanol administration	Á. RAYA, J. ROMA, C. HERMENEGILDO AND F. J. ROMERO	92S
Metal-catalysed oxidation and post-Amadori reactions of serum albumin and other model proteins	N. AHMED, J. LIGGINS AND A. J. FURTH	93S

Erythrocyte-induced oxidation of low-density lipoproteins: Control by antioxidant nutrients	B. T. ANDREWS, G. T. PAGANGA AND C. A. RICE-EVANS	94S
A new method for measuring antioxidant activity	N. J. MILLER, C. A. RICE-EVANS AND M. J. DAVIES	95S
Novel hydroxamates and myocardial reperfusion injury	C. S. COLLIS, M. J. DAVIES AND C. A. RICE-EVANS	96S
The role of bound lipid and transition metal in the formation of fluorescent advanced glycation endproducts by human serum albumin	S. M. COCHRANE AND A. J. FURTH	97S
Effect of oxidants on vascular smooth muscle proliferation	K. L. GALLAGHER, L. J. BETTERIDGE, M. K. PATEL AND M. SCHACHTER	98S
Purification of xanthine oxidase from human heart	S. ABADDEH, P. C. CASE AND R. HARRISON	99S
Mouse monoclonal antibodies to human and bovine xanthine oxidase (XO)	S. ABADDEH, A. ROGERS AND R. HARRISON	100S
Antibodies to xanthine oxidase (XO) in human males and females	C. P. D. HARRIS, J. REID, J. P. D. RECKLESS AND R. HARRISON	101S
Sensitive enzyme-linked immunosorbent assay (e.l.i.s.a.) for xanthine oxidase	L. J. PRICE AND R. HARRISON	102S
The effects of high monounsaturated and polyunsaturated fat diets on vascular endothelium and the coagulation system in non-insulin-dependent diabetes mellitus — Related to changes in lipid peroxidation?	V. J. PARFITT, M. HOPTON, J. TABERNER, C. BOLTON AND M. HARTOG	103S

New directions for biochemistry and physiology teaching

Doctoral studies at a British university and at a Pakistani university: A comparison	A. J. SAMI	104S
--	------------	------

Neurotransmitter release

The effects of tetrahexylammonium chloride on calcium mobilization from cerebellar microsomes	L. G. SAYERS AND F. MICHELANGELI	105S
Inhibition of the sarcoplasmic and endoplasmic calcium pump by bis(2-hydroxy-3-tert-butyl-5-methyl)methane, (bis-phenol)	G. R. BROWN, S. L. BENYON, J. M. EAST AND F. MICHELANGELI	106S
Effects of allethrin on the thermotropic properties of phospholipid vesicles	M. R. MOYA-QUILES, E. MUÑOZ-DELGADO AND C. J. VIDAL	107S
Molecular forms of acetylcholinesterase in microsomal membranes of normal and dystrophic muscle	J. CABEZAS-HERRERA, F. J. CAMPOY AND C. J. VIDAL	108S
Control of insulin secretion by imidazolines in rat pancreatic islets	C. A. BROWN AND N. G. MORGAN	109S
Autoinhibition of tritiated L-glutamate release from superfused synaptosomes	C. MORRIS, Y. LIU AND K. COLLARD	110S
L-trans-Pyrrolidine-2,4-dicarboxylic acid (L-trans-PDC) has properties consistent with that of a competitive substrate for the plasma membrane glutamate transporter	J. DUNLOP, A. GRIEVE AND R. GRIFFITHS	111S

WAY 100252 inhibits evoked [³ H]GABA release when tested against a number of release-inducing stimuli	J. DUNLOP, C. ENNIS, J. F. WHITE AND M. C. W. MINCHIN	112S
The role of His ₃₉₄ in the binding of substituted benzamides to the rat D ₂ dopamine receptor	R. WOODWARD, P. G. STRANGE AND L. H. NAYLOR	113S
Overexpression of the D ₂ dopamine receptor in insect cells using the baculovirus system	C. WOODCOCK, P. G. STRANGE AND B. C. ROONEY	114S
Pharmacological characterization of the human serotonin 5-HT _{1A} receptor expressed in CHO cells using the ergot alkaloid lisuride	H. SUNDARAM, J. D. TURNER AND P. G. STRANGE	115S
Expression of the rat D ₂ dopamine receptor in the yeast <i>Saccharomyces cerevisiae</i>	J. P. PRESLAND AND P. G. STRANGE	116S
Neocortical neuronal polarity: Targeting of a foreign protein linked to a glycosyl-phosphatidylinositol (GPI) anchor in postmitotic neurons and polarized distribution of a marker of the <i>trans</i> -Golgi network (TGN 38)	P. R. LOWENSTEIN, E. MORRISON, P. DOUGLAS, C. M. PRESTON, P. CLISSOLD, G. BANTING, N. D. STOW AND M. G. CASTRO	117S
Localization of agonist-stimulated CMP-phosphatidate accumulation in single mammalian neurones	J. A. BEVILACQUA, I. H. BATTY, C. P. DOWNES AND P. R. LOWENSTEIN	118S
An isoform of the cGMP-gated retinal photoreceptor channel gene expressed in the sinoatrial node (pacemaker) region of rabbit heart	S. P. HUNDAL, D. DIFRANCESCO, M. MANGONI, W. J. BRAMMAR AND E. C. CONLEY	119S

RNA unwinding and editing

Nuclear-associated casein kinase II expression in rat ventral prostate	S. YENICE, S. A. GOUELI, A. T. DAVIS AND K. AHMED	120S
--	---	-------------

Carbohydrates, shapes and biological recognition

Diabetes-related changes in sialic acid content of leucocytes: An assay-dependent artefact?	P. J. WATERS, M. D. FLYNN, C. A. PENNOCK, R. J. M. CORRALL AND R. EISENTHAL	121S
β -Cell responses in the offspring of non-insulin-dependent diabetics after a test meal	J. A. LOVEGROVE, C. J. PINDER, J. JONES AND S. M. HAMPTON	122S
Homologous sequences in fibrillar collagens may be proteoglycan-binding sites	J. E. SCOTT AND R. W. GLANVILLE	123S
The role of glycogenin in glycogen synthesis and non-insulin-dependent diabetes mellitus	J. M. BAILEY, J. P. LOMAKO, W. LOMKAKO AND W. J. WHELAN	124S

Molecular aspects of lipoprotein metabolism in health and disease

Intracellular events in the assembly and secretion of apolipoprotein B in rat liver	I. J. CARTWRIGHT, A.-M. HEBBACHI AND J. A. HIGGINS	125S
Topography of apolipoprotein B in subcellular fractions from rabbit liver	J. WILKINSON, J. A. HIGGINS, P. H. E. GROOT, E. GHERARDI AND D. E. BOWYER	126S
Apolipoprotein (a) in rabbit blood and liver	L. MUNRO, J. WILKINSON AND J. A. HIGGINS	127S
Serum factors that regulate phagocytosis of liposomes by Kupffer cells	S. M. MOGHIMI AND H. M. PATEL	128S

Phosphorylation of apoproteins in VLDL and LDL by protein kinases <i>in vitro</i>	C. E. HARRISON AND M. R. MUNDAY	129S
Cyclic AMP-mediated hormonal control of LDL receptor activity in cultured human cells	H. NIELD, R. HARTLEY AND B. MIDDLETON	130S
Valinomycin pretreatment induces LDL receptor activity in cultured human cells	H. NIELD AND B. MIDDLETON	131S
CD4-positive T-lymphocytes can oxidatively modify low-density lipoprotein	D. J. LAMB AND D. S. LEAKE	132S
Direct visualization of lipid vesicle changes on addition of filamin	W. H. GOLDMANN, J. KÁS, E. SACKMANN AND G. ISENBERG	133S
Comparison of the purification of lipoprotein lipase from various rat tissues	A. SOTERIOU AND A. CRYER	134S
Glucose-dependent insulinotropic polypeptide and glucagon-like peptide-1(7-36)amide: Effects on lipoprotein lipase activity	J. M. E. KNAPPER, S. M. PUDDICOMBE, L. M. MORGAN, J. M. FLETCHER AND V. MARKS	135S
Measurement of postprandial apolipoprotein B-48 using a novel specific antibody	A. S. PEEL, D. BULSARA, C. M. WILLIAMS AND B. J. GOULD	136S
The use of retinyl palmitate to measure clearance of chylomicrons and chylomicron remnants following meals of different fatty acid compositions	A. ZAMPELAS, E. AH-SING, J. CHAKRABORATY, M. C. MURPHY, A. S. PEEL, J. WRIGHT AND C. M. WILLIAMS	137S
Evidence for a regulatory link between hepatic lipase secretion and intra-hepatocyte cholesterol	A. HENDERSON, N. COLDHAM, C. BAYNES, R. ELKELES AND W. RICHMOND	138S
Conformational changes in oxidized LDL using X-ray and neutron solution scattering techniques	D. F. MEYER, A. S. NEALIS, K. R. BRUCKDORFER AND S. J. PERKINS	139S
The effects of native and oxidized low-density lipoproteins on platelet activation	K. M. NASEEM, A. H. GOODALL AND K. R. BRUCKDORFER	140S
Altered interactions between lipogenesis and glycogenesis in liver during fructose feeding	M. J. HOLNESS AND H. L. STORR	141S
Cardiac lipoprotein lipase activities in relation to glucose utilization during progressive starvation	M. C. SUGDEN AND R. M. HOWARD	142S
Factors contributing to the hypertriacylglycerolaemia of late pregnancy	R. M. HOWARD AND M. C. SUGDEN	143S
Effects of niacin on biliary lipid output in the rat	R. E. HOLLAND, K. RAHMAN, A. I. MORRIS AND D. BILLINGTON	144S
Adipose tissue site-specificity of lipoprotein lipase mRNA expression in rats fed diets containing different fatty acid compositions	M. C. MURPHY, A. ZAMPELAS, S. M. PUDDICOMBE, N. P. FURLONGER, L. M. MORGAN AND C. M. WILLIAMS	145S
Reverse cholesterol transport from the perfused spleen in the presence or absence of a perfused liver	M. A. MINDHAM AND P. A. MAYES	146S
Plasma VLDL cholesterol and egg cholesterol are resistant to change in the laying hen	C. D. HUGGETT, P. J. BUTTERY AND A. M. SALTER	147S
Cholesterol feeding increases serum VLDL and hepatic phosphatidate phosphohydrolase in hamsters	V. A. SESSIONS, D. N. BRINDLEY AND A. M. SALTER	148S
Depot-specific effects of insulin and isoproterenol on porcine adipose tissue metabolism	T. J. BUDD, A. M. SALTER AND P. J. BUTTERY	149S

LDL binding to hepatocytes isolated from hamsters fed different dietary fatty acids	A. M. SALTER AND V. A. SESSIONS	150S
A lipophilic protein inhibitor of neutral cholesteryl ester hydrolase: Effects of treatment with female sex hormones	J. H. SHAND AND D. W. WEST	151S
Assessment of particle size of very-low-density lipoproteins by morphometry	S. VENKATESAN, P. FRYER, N. POWELL, A. HERD, P. J. PACY AND D. HALLIDAY	152S
Very-low-density lipoprotein apo β 100 — Comparison of several methods for protein assay	S. VENKATESAN, S. READ, A. HERD, P. J. PACY, P. A. BANNISTER AND D. HALLIDAY	153S
Platelet phosphoinositidase C activity in familial hypercholesterolaemia	M. B. COOPER, K. C. B. TAN AND D. J. BETTERIDGE	154S
The effect of dietary casein and soyprotein on cholesterol metabolism in hamsters	S. M. WRIGHT AND A. M. SALTER	155S
Control of lipoprotein lipase activity by isoproterenol	H. A. SANI AND M. P. ROGERS	156S
<hr/> Glyoxalases <hr/>		
<i>In vitro</i> testing of a glyoxalase I inhibitor	J. F. BARNARD, D. L. VANDER JAGT AND J. F. HONEK	157S
Modification of the glyoxalase system in clinical diabetes mellitus	A. C. MCLELLAN, P. J. THORNALLEY, J. BENN AND P. H. SONKSEN	158S
Inhibition of human leukaemia 60 cell growth by diethyl esterification of the glyoxalase II inhibitor <i>S</i> - <i>p</i> -nitrobenzoxycarbonylglutathione <i>in vitro</i>	T. W. C. LO AND P. J. THORNALLEY	159S
The potentiation of GTP-dependent assembly of microtubules by <i>S</i> - <i>D</i> -lactoylglutathione	J. D. CLELLAND AND P. J. THORNALLEY	160S
The effect of <i>S</i> - <i>D</i> -lactoylglutathione on the movement of human neutrophils	R. E. ALLEN AND P. J. THORNALLEY	161S
Modification of the glyoxalase system in streptozotocin-induced diabetic rats and the effect of the aldose reductase inhibitor Statil	S. A. PHILLIPS, D. MIRRLEES AND P. J. THORNALLEY	162S
Formation of methylglyoxal and <i>D</i> -lactate in human red blood cells <i>in vitro</i>	S. A. PHILLIPS AND P. J. THORNALLEY	163S
The assay of <i>S</i> - <i>D</i> -lactoylglutathione in biological systems	A. C. MCLELLAN, S. A. PHILLIPS AND P. J. THORNALLEY	164S
Inhibition of growth of human leukaemia 60 cells by <i>S</i> -2-hydroxyacylglutathione derivatives	J. D. CLELLAND, L. G. EDWARDS, R. E. ALLEN AND P. J. THORNALLEY	165S
Mechanism of the inhibition of growth of human leukaemia 60 cells by <i>S</i> - <i>D</i> -lactoylglutathione	L. G. EDWARDS, J. D. CLELLAND AND P. J. THORNALLEY	166S
Glyoxalase activity in human tumour cell lines <i>in vitro</i>	F. M. AYOUB, M. A. ZAMAN, P. J. THORNALLEY AND J. R. W. MASTERS	167S
Inhibition of proliferation of human leukaemia 60 cells by methylglyoxal <i>in vitro</i>	F. M. AYOUB, R. E. ALLEN AND P. J. THORNALLEY	168S
The hydrolysis of <i>S</i> - <i>D</i> -lactoylglutathione	M. E. REEVES AND P. J. THORNALLEY	169S
Binding of methylglyoxal to albumin and formation of fluorescent adducts. Inhibition by arginine, N_{α} -acetylarginine and aminoguanidine	T. SELWOOD AND P. J. THORNALLEY	170S

Simple chromatographic methods for the purification of human red blood cell glyoxalase I and glyoxalase II to homogeneity	R. E. ALLEN AND P. J. THORNALLEY	171S
Population genetics of human glyoxalases and the development of diabetic complications	A. C. McLELLAN, P. J. THORNALLEY, J. BENN AND P. H. SONKSEN	172S
<i>In situ</i> kinetics of yeast glyoxalase I	A. M. PONCES FREIRE, C. CALVÁRIO AND C. A. CORDEIRO	173S
Oxygen effects on yeast glyoxalase system	C. A. CORDEIRO, C. CALVÁRIO AND A. M. PONCES FREIRE	174S
<hr/>		
General topics		
Structural characterization of human caeruloplasmin in solution by f.t.i.r. spectroscopy	P. I. HARRIS, G. CHOWRIMOOTOO, C. BINGLE, D. CHAPMAN AND K. S. SRAI	175S
Quantitative analysis of defects of mitochondrial oxidation during recovery from exercise	G. J. KEMP, C. H. THOMPSON, D. J. TAYLOR, L. J. HANDS, B. RAJAGOPALAN AND G. K. RADDA	176S
Control of intracellular concentrations of 'bioenergetic' metabolites in skeletal muscle	G. J. KEMP AND G. K. RADDA	177S
Theoretical aspects of transient disturbances of cellular [P _i] and organic phosphates	G. J. KEMP	178S
Skeletal muscle P _i transport <i>in vitro</i>	K. E. POLGREEN, G. J. KEMP, B. LEIGHTON AND G. K. RADDA	179S
<i>Trans</i> -sarcolemmal P _i movement in perfused rat heart: A ³¹ P n.m.r. spectroscopic study	K. E. POLGREEN, G. J. KEMP, K. CLARKE AND G. K. RADDA	180S
Use of olive cultures to evaluate triacylglycerol synthesis	A. J. RUTTER, J. SANCHEZ AND J. L. HARWOOD	181S
Influence of alterations in environmental CO ₂ and temperature on wheat grain lipids	M. WILLIAMS, P. R. SHEWRY AND J. L. HARWOOD	182S
Differential sensitivity of lipid metabolism in monocotyledons to grass-specific herbicides	D. HERBERT, D. J. COLE, K. E. PALLETT AND J. L. HARWOOD	183S
The inhibition of fatty acid elongation by a thiocarbamate herbicide and its sulphoxide	P. B. BARRETT AND J. L. HARWOOD	184S
Further studies on <i>Plasmodium falciparum</i> glycoproteins: Characterization of 195 kDa glycoprotein	M. H. QURESHI, M. H. QAZI, G. SENALDI, D. C. HOESSLI AND NASIR-UD-DIN	185S
Further studies on cervical glycoproteins: Isolation and characterization of oligosaccharides from follicular phase cervical glycoproteins of bonnet monkey	NASIR-UD-DIN, FAYYAZ-UD-DIN AND E. WALKER NASIR	186S
Thymidylate synthase in normal and cancer tissues	M. P. IQBAL, H. ZUBERI, M. A. WAQAR AND M. AHMED	187S
Partial purification of ribose 1-phosphate-dependent 'ADP-forming' activity in rat liver	R. LEONCINI, D. VANNONI, R. GUERRANTI, S. RIGHI, R. PAGANI AND E. MARINELLO	188S
Purine nucleotide catabolism in rat liver	M. PIZZICHINI, M. L. PANDOLFI, L. TERZUOLI, L. AREZZINI AND R. PAGANI	189S
Oestradiol and phospholipid metabolism in the rat	M. PIZZICHINI, G. CINCI, M. L. PANDOLFI, L. AREZZINI AND R. PAGANI	190S
Purine nucleotide content of lymphocyte subpopulations	F. CARLUCCI, A. TABUCCHI, E. CONSOLMAGNO, R. PAGANI AND E. MARINELLO	191S

Protein kinase C α is the isoform responsible for inhibition of histamine H ₂ receptor-mediated stimulation of adenylate cyclase in the human gastric cancer cell line HGT-1	P. MCKENNA, J.M. WILLIAMS AND P. J. HANSON	192S
Short term effects of interleukin-1 β on insulin secretion and cyclic nucleotide levels in rat islets of Langerhans cultured with arginine and arginine analogues	C. A. DELANEY, C. SOUTHERN, V. KARMIRIS AND I. C. GREEN	193S
The solubility of Coomassie Blue protein-dye complexes	T. MARSHALL AND K. M. WILLIAMS	194S
SDS/PAGE of cat parotid salivary proteins	T. MARSHALL, K. M. WILLIAMS, J. EKSTROM, G. TOBIN C. BAYARD AND O. VESTERBERG	195S
Effects of atropine upon the secretion of rat parotid salivary proteins	K. M. WILLIAMS, T. MARSHALL, J. EKSTROM, G. TOBIN C. BAYARD AND O. VESTERBERG	196S
Reinvestigation of a Ca ²⁺ /calmodulin-dependent neurofilament-directed protein kinase activity	B. E. COOPER AND M. J. CARDEN	197S
A monoclonal antibody which recognizes rabbit CDI Ia and which inhibits homotypic T cell aggregation	J. BLACKFORD AND J. M. WILKINSON	198S
Isolation and characterization of a novel family of G protein-coupled receptors	T. E. WEBB, A. N. BATESON AND E. A. BARNARD	199S
Solubilization and molecular characterization of the P _{2X} purinoceptor	J. SIMON, X. BO, G. BURNSTOCK AND E. A. BARNARD	200S
Gene expression and control of enzymes for synthesis of magnesium protoporphyrin monomethyl ester in <i>Rhodobacter sphaeroides</i>	A. GORCHEIN, L. C. D. GIBSON AND C. N. HUNTER	201S
The cloning and overexpression of <i>E. coli</i> acyl carrier protein (ACP)	A. L. JONES, P. KILLE, J. E. DANCER AND J. L. HARWOOD	202S
Is <i>de novo</i> synthesis a novel source of diacylglycerol in T-cell activation?	A. L. TILNEY-BASSETT, C. A. WOOD, D. A. CANTRELL AND G. K. RADDA	203S
Mucosal surface ferricyanide reductase in mouse duodenum	D. J. POUNTNEY AND R. J. SIMPSON	204S
Cytosolic aconitase activity in mouse small intestine: Iron dependence	R. J. SIMPSON, A. RABIE AND T. J. PETERS	205S
Degradation of human and rat surfactant apoprotein by neutrophil elastase and cathepsin G	R. W. LEWIS, J. L. HARWOOD, T. D. TETLEY, E. HARRIS AND R. J. RICHARDS	206S
α -1-Proteinase inhibitor activity can be compromised by the choice of assay conditions	S. F. SMITH, N. A. ROBERTS, A. GUZ AND T. D. TETLEY	207S
The antigenicity of elastin-derived peptides obtained from atherosclerotic human aorta	S. YENICE, G. KIRKALI, G. GÜNER AND I. R. TÖRE	208S
Immunospecificity of soluble elastin peptides: Determination by e.l.i.s.a. assay	S. YENICE, G. KIRKALI, G. GÜNER AND I. R. TÖRE	209S
The effect of arginine on glycolysis by <i>Streptococcus mutans</i> and <i>Actinomyces viscosus</i>	R. DUGUID	210S
A new maltotetraose-producing enzyme of microbial origin	A. C. BOURKE, C. T. KELLY, AND W. M. FOGARTY	211S

Analysis of enterotoxin synthesis in a <i>Vibrio cholerae</i> strain lacking DsbA, a periplasmic enzyme involved in disulphide bond formation	G. FINDLAY, J. YU AND T. R. HIRST	212S
A new method for the purification of the B subunit (EtxB) of <i>Escherichia coli</i> heat-labile enterotoxin	T. AMIN, A. MARCELLO AND T. R. HIRST	213S
Monosaccharide composition of haptoglobin purified from alcoholic cirrhotic and control sera determined by h.p.a.e.	A. C. MANN, S. THOMPSON, C. O. RECORD, C. H. SELF AND G. A. TURNER	214S
New substrate-derived thiol-specific time-dependent inhibitors for the characterization of the coupling of binding site interactions with catalytic site chemistry in the cysteine proteinases	G. W. MELLOR, M. PATEL, M. P. THOMAS, D. KOWLESSUR, S. K. SREEDHARAN, E. W. THOMAS AND K. BROCKLEHURST	215S
Ficin: a cysteine proteinase with binding site–catalytic site signalling characteristics intermediate between those of papain and actinidin	M. PATEL, M. P. THOMAS, I. S. KAYANI, G. W. MELLOR, E. W. THOMAS AND K. BROCKLEHURST	216S
The kinetically influential ionizations of chymopapain M	M. P. THOMAS, G. W. MELLOR AND K. BROCKLEHURST	217S
Additional evidence for the cysteine proteinase nature of gingivain, the extracellular proteinase of <i>Porphyromonas gingivalis</i>	S. K. SREEDHARAN, H. PATEL, S. SMITH, S. E. GHARBIA, H. N. SHAH AND K. BROCKLEHURST	218S
Nature of the leak induced in erythrocyte membranes by Kanagawa haemolysin	J. S. HUNTLEY AND A. C. HALL	219S
Effect of a milk fat globule membrane fraction on cultured mouse mammary cells	A. WENDRINSKA, C. V. P. ADDEY, P. R. ORANGE, L. M. BODDY, K. A. K. HENDRY AND C. J. WILDE	220S
Free radical damage in Down's syndrome brain	G. P. REYNOLDS AND A. J. CUTTS	221S
Cycloheximide abolishes pertussis toxin-induced increase in glutamate release from cerebellar granule neurones	G. P. CULLEN, E. HUSTON AND A. C. DOLPHIN	222S
