

Royal Irish Medal Lecture**Viruses in the RNA World** B. K. RIMA 1**Colworth Medal Lecture****Cyclin from Sea Urchins to HeLas: Making the Human Cell Cycle** J. PINES 15**colloquia****656th Meeting Dublin****colloquium: Transcription Factors as Third Messengers**

The signal transduction pathway leading from the Toll receptor to nuclear localization of Dorsal transcription factor	N. J. GAY AND K. KUBOTA	35
Rel signalling pathway and the melanotic tumour phenotype of <i>Drosophila</i>	S. GOVIND	39
The actions of cyclosporin A and FK506 on T-lymphocyte activation	P. S. MATTILA	45
A yeast transcription factor activating G1 cyclin expression has similarity to bacterial signal transduction proteins	L. H. JOHNSTON, B. A. MORGAN AND N. BOUQIN	49
E2F and the molecular mechanisms of early cell-cycle control	N. B. LA THANGUE	54

colloquium: Flavoproteins: Structures and Mechanisms

Protein engineering of domains in flavoprotein disulphide oxidoreductases: contributions to folding and assembly	R. N. PERHAM, B. LEISTLER, R. G. SOLOMON AND P. GUPTASARMA	61
A glutathione reductase-like flavoenzyme of the malaria parasite <i>Plasmodium falciparum</i>: structural considerations based on the DNA sequence	K. BECKER, S. MÜLLER, M. A. KEESE, R. D. WALTER AND R. H. SCHIRMER	67
Flavocytochrome <i>b</i>₂: an ideal model system for studying protein-mediated electron transfer	S. K. CHAPMAN, G. A. REID, C. BELL, D. SHORT AND S. DAFF	73
The chemical mechanism of flavoprotein-catalysed α-hydroxy acid dehydrogenation: a mutational analysis	F. LEDERER, A. BELMOUDEN AND M. GONDRIY	77

<i>Escherichia coli</i> chorismate synthase	S. BORNEMANN, D. J. LOWE AND R. N. F. THORNELEY	84
Biosynthesis of riboflavin: structure and mechanism of lumazine synthase	A. BACHER, M. FISCHER, K. KIS, K. KUGELBREY, S. MÖRTL, J. SCHEURING, S. WEINKAUF, S. EBERHARDT, K. SCHMIDT-BÄSE, R. HUBER, K. RITSERT, M. CUSHMAN AND R. LADENSTEIN	89
Glutamate synthase: a complex iron-sulphur flavoprotein	B. CURTI, M. A. VANONI, E. VERZOTTI AND G. ZANETTI	95
Recent studies on xanthine oxidase and related enzymes	R. C. BRAY, B. BENNETT, J. F. BURKE, A. CHOVNICK, W. A. DOYLE, B. D. HOWES, D. J. LOWE, R. L. RICHARDS, N. A. TURNER, A. VENTOM AND J. R. S. WHITTLE	99
Molecular evolution and substrate specificity of acyl-CoA dehydrogenases: chimaeric 'medium/long' chain-specific enzyme from medium-chain acyl-CoA dehydrogenase	A. NANDY, B. KÜCHLER AND S. GHISLA	105
Molecular recognition in protein complexes involved in electron transfer	C. GÓMEZ-MORENO, M. MARTÍNEZ-JÚLVEZ, M. F. FILLAT, J. HURLEY AND G. TOLLIN	111
NMR studies of flavoproteins	H. RÜTERJANS, G. FLEISCHMANN, M. KNAUF, F. LÖHR, M. BLÜMEL, F. LEDERER, S. G. MAYHEW AND F. MÜLLER	116
Regulation of the redox potentials of flavodoxins: modification of the flavin binding site	S. G. MAYHEW, D. P. O'CONNELL, P. A. O'FARRELL, G. N. YALLOWAY AND S. M. GEOGHEGAN	122
Unifying concepts in flavin-dependent catalysis	J. VERVOORT AND I. M. C. M. RIETJENS	127
A study of the stabilization of semiquinones by the <i>Escherichia coli</i> quinol oxidase cytochrome <i>bd</i>	S. F. HASTINGS AND W. J. INGLEDEW	131

colloquium: Carbohydrate Recognition Proteins

Function of the two mannose 6-phosphate receptors in lysosomal enzyme transport	H. MUNIER-LEHMANN, F. MAUXION AND B. HOFACK	133
Insulin-like growth factor II/cation-independent mannose 6-phosphate receptor and lysosomal enzyme recognition	N. M. DAHMS	136
Galectins in mouse embryogenesis	C. COLNOT, M.-A. RIPOCHE, F. SCAEROU, D. FOWLIS AND F. POIRIER	141
Ca²⁺-dependent sugar recognition by animal lectins	K. DRICKAMER	146
Sialoadhesin and related cellular recognition molecules of the immunoglobulin superfamily	P. R. CROCKER, S. KELM, A. HARTNELL, S. FREEMAN, D. NATH, M. VINSON AND S. MUCKLOW	150
C-type lectins of natural killer cells: carbohydrate ligands and role in tumour cell lysis	K. BEZOUŠKA	156

colloquium: Recent Advances in Brain Dopaminergic Systems

The dopamine D ₁ receptor family: structural and functional aspects	163
Expression of newly cloned brain dopamine receptors in peripheral organs	169
Effects of glutamate antagonists on nigral dopamine release in the reserpine-treated rat	173
Dopamine receptor multiplicity: 'D ₁ -like'–'D ₂ -like' interactions and 'D ₁ -like' receptors not linked to adenylate cyclase	177
D ₂ receptor agonists and partial agonists: relationship between receptor binding measures and functional activity	183
The binding of agonists and antagonists to dopamine receptors	188
Functional models for the dopamine D ₃ receptor	193
Elucidation of D ₃ receptor function <i>in vivo</i> : do D ₃ receptors mediate inhibition of dopamine neuronal activity?	199
Dopamine receptors and schizophrenia	202

colloquium: Pharmacological Targets in the Immune Response

Interleukin 1 receptors and signal transduction	207
Can n-3 polyunsaturated fatty acids be used as immunomodulatory agents?	211
Membrane molecules and macrophage endocytosis: scavenger receptor and macroscialin as markers of plasma-membrane and vacuolar functions	220
Intervention in the complement system: a therapeutic strategy in inflammation	224
Anti-oxidants and apoptosis	229
Intraislet expression of inducible nitric oxide synthase and islet cell death	233
The TOR signalling pathway and growth control in yeast	234
Phosphoinositide 3-kinase and CD2-mediated T-cell co-stimulation	240

colloquium: Computer Modelling of Biological Molecules

Simulations of enzymic reactions	247
Brownian dynamics simulations of enzyme-substrate encounter	254
Simulations on the activation of the bradykinin B ₂ receptor	259
Quantum mechanical molecular mechanical approaches to transition state structure: mechanism of sialidase action	263
Force field development and conformational search strategy in the simulation of biomolecular recognition processes	268
ProMod and Swiss-Model: Internet-based tools for automated comparative protein modelling	274
Molecular recognition by proteins: proteins-ligand interactions from a structural perspective	280

colloquium: Navigating the Genome

Mapmakers – progress in the Human Genome Project	285
The <i>Caenorhabditis elegans</i> genome project	289
From DNA sequence to biological function: the new 'Voyage of the Beagle'	291

colloquium: The Use of Computers in the Teaching of Biochemistry

The use of computers in the teaching of biochemistry: support for learning the qualitative differences	293
The Bionet project – beyond writing courseware	298
Issues arising from the transnational evaluation and dissemination of Teaching and Learning Technology Programme materials	301

correction:	305
-------------	-----

Transcription factors as third messengers

Activation of NF κ B and potentiation of TNF-induced NF κ B activation by ceramide analogues in leukaemic cell lines despite the absence of an observed sphingomyelinase signalling event	M. P. BOLAND, S. J. FOSTER AND L. A. J. O'NEILL	1S
Mechanism of NF κ B activation of interleukin-1 and tumour necrosis factor in endothelial cells	A. BOWIE, P. N. MOYNAGH AND L. A. J. O'NEILL	2S
Inhibition of NF κ B activity by oxidative processes in intact cells: mechanism of action of pyrrolidine dithiocarbamate and diamide	P. BRENNAN AND L. A. J. O'NEILL	3S
Early response gene expression in Ras oncoprotein signalling	H. TRAVERS, G. T. ATHERTON, R. W. DEED AND J. D. NORTON	4S
Regulation of Id-HLH transcription factor function in third messenger signalling	R. W. DEED, S. ARMITAGE, M. BROWN AND J. D. NORTON	5S
Sustained <i>c-fos</i> expression is associated with excitotoxicity during the development of neuronal cells <i>in vitro</i>	C. MEREDITH, M. SCOTT, P. RUMSBY, A. FRANSDEN, A. SCHOUSBOE, A. GORMAN AND R. GRIFFITHS	6S
Early response genes activated by stimulation of human B lymphocytes through different cell surface receptors	J. S. NEWTON, J. LI, Z.-Q. NING, J. D. NORTON AND J. J. MURPHY	7S
Photoinactivation of glutathione reductase by hematoporphyrin and Al-phtalocyanine tetrasulphonate	R. KLIUKIENE, A. MAROZIENE, N. CENAS AND R. H. SCHIRMER	8S

Flavoproteins: structures and mechanisms

The oxidative and reductive half reactions of subunit interface mutants of <i>Escherichia coli</i> glutathione reductase	A. BASHIR, L. D. ARSCOTT, R. N. PERHAM, C. H. WILLIAMS, JR. AND A. BERRY	9S
Crystal structures of a ferredoxin:NADP ⁺ reductase and of a complex with NADP ⁺	L. SERRE, F. VELLIEUX, M. MEDINA, C. GÓMEZ-MORENO, J.-C. FONTECILLA-CAMPS AND M. FREY	10S
Affinity precipitation of dehydrogenases with bis-NADH derivatives	J. A. IRWIN AND K. F. TIPTON	11S
Expression and analysis of the gene for the catalytic β subunit of the sodium-translocating NADH-ubiquinone oxidoreductase of <i>Vibrio alginolyticus</i>	K. TAN, P. BEATTIE, D. R. F. LEACH, P. R. RICH, A. F. W. COULSON AND F. B. WARD	12S
Oxidation of NADH catalysed by human xanthine oxidase: generation of superoxide anion	S. A. SANDERS, R. HARRISON AND R. EISENTHAL	13S
Role and oxidation state of the pterin molybdenum cofactor of molybdenum enzymes: studies of a <i>Drosophila melanogaster</i> xanthine dehydrogenase (<i>rosy</i>) variant, G1011E	W. A. DOYLE, A. CHOVIK, J. R. S. WHITTLE AND R. C. BRAY	14S
On the molecular basis of inhibition by excess substrate in wild-type and Y143F flavocytochrome b_2	M. MAYER, N. ROUVIERE-FOURMY, M. TEGONI, C. CAPELLERE-BLANDIN AND F. LEDERER	15S
Functional uncoupling between flavin and haem domain in flavocytochrome b_2 by a monoclonal antibody	K. H. D. LÉ, C. S. MILES AND F. LEDERER	16S
Inhibition of flavin reoxidation in P-450 BM3 by diphenyliodonium chloride	A. W. MUNRO, J. R. COGGINS AND J. G. LINDSAY	17S
Formation of flavin semiquinone during the reduction of P-450 BM3 reductase domain with NADPH	A. W. MUNRO, J. R. COGGINS, J. G. LINDSAY, S. DAFF AND S. K. CHAPMAN	18S

Deflavination of cytochrome <i>P</i> -450 BM3 by treatment with guanidinium chloride	A. W. MUNRO, J. R. COGGINS, J. G. LINDSAY, S. KELLY AND N. C. PRICE	19S
Reversibility of inhibition of human type II nitric oxide synthase	D. J. NICHOLLS, A. KIRK AND A. V. WALLACE	20S
Reactivity of sulphhydryl groups of <i>Rhodotorula gracilis</i> D-amino acid oxidase	L. POLLEGIONI, S. CAMPANER, A. A. RAIBEKAS AND M. S. PILONE	21S
A chimaeric iron-sulphur flavoprotein endowed with NADPH-cytochrome <i>c</i> reductase activity	G. ZANETTI, L. PIUBELLI, R. ZUCCA TANJI AND A. ALIVERTI	22S
The purification and characterization of flavin adenine dinucleotide phosphohydrolase from <i>Brevibacterium ammoniagenes</i>	T. J. HOARE AND S. G. MAYHEW	23S
The effects of pH on the absorption spectrum of the hydroquinone of flavodoxin from <i>Desulfovibrio vulgaris</i>	G. N. YALLOWAY, D. P. O'CONNELL AND S. G. MAYHEW	24S
Comparison of the N-terminal sequence of NADH oxidase from <i>Thermus aquaticus</i> with those of other flavoenzymes	D. TOOMEY, S. G. MAYHEW, A. J. LANZETTI AND K. F. GEOGHEGAN	25S
Chemical synthesis of 8-bromo(adenine)-FAD by direct bromination of FAD	Z. NASRALLAH AND S. G. MAYHEW	26S
Purification and partial characterization of the E14K mutant of flavodoxin from <i>Megasphaera elsdenii</i>	S. M. GEOGHEGAN AND S. G. MAYHEW	27S
The redox potentials of flavodoxin from <i>Desulfovibrio vulgaris</i> and ferredoxin-NADP ⁺ reductase from <i>Spinacia oleracea</i> and their complexes	M. E. CORRADO, G. ZANETTI AND S. G. MAYHEW	28S
The purification and crystallization of 2,5-diketocamphane 1,2-mono-oxygenase and 3,6-diketocamphane 1,6-mono-oxygenase from <i>Pseudomonas putida</i> NCIMB 10007	E. J. MCGHIE AND J. A. LITTLECHILD	29S
Reaction of apoflavodoxin from <i>Desulfovibrio vulgaris</i> with 5,5'-dithio-bis-(2-nitrobenzoic acid)	C. B. LOGAN, M. E. GALLAGHER AND S. G. MAYHEW	30S
Engineering and expression in <i>Drosophila melanogaster</i> of a xanthine dehydrogenase (<i>rosy</i>) variant	W. A. DOYLE, J. F. BURKE, A. CHOVIK, F. L. DUTTON, C. RUSSELL, J. R. S. WHITTLE AND R. C. BRAY	31S
Purification of flavocytochrome <i>b</i> ₅₅₈ : comparison between octylglucoside and a perfluoralkyl detergent	C. DER MARDIROSSIAN AND F. LEDERER	32S
Kinetic characterization of <i>Anabaena</i> ferredoxin-NADP ⁺ reductase mutants	M. MARTÍNEZ-JÚLVEZ, M. FILLAT AND C. GÓMEZ-MORENO	33S
Structural investigation on recombinant riboflavin synthase from <i>Escherichia coli</i>	G. TIBBELIN, S. EBERHARDT, G. RICHTER, A. BACHER AND R. LADENSTEIN	34S
Biosynthesis of riboflavin. Bifunctional pyrimidine deaminase/reductase of <i>Escherichia coli</i> and <i>Bacillus subtilis</i>	M. FISCHER, S. EBERHARDT, G. RICHTER, C. KRIEGER, I. GERSTENSCHLÄGER AND A. BACHER	35S
Characterization of two recombinant forms of ferredoxin-NADP ⁺ reductase from <i>Anabaena</i> PCC 7119	M. MARTÍNEZ-JÚLVEZ, C. GÓMEZ-MORENO AND M. F. FILLAT	36S
Structure and mechanism of GTP cyclohydrolase I of <i>Escherichia coli</i>	H. NAR, R. HUBER, W. MEINING, A. BRACHER, M. FISCHER, C. HÖSL, H. RITZ, C. SCHMID, S. WEINKAUF AND A. BACHER	37S

Bioenergetics group		
Binding of NO to the oxygen reaction site of cytochrome <i>bd</i> from <i>Azotobacter vinelandii</i>	S. JÜNEMANN AND J. M. WRIGGLESWORTH	38S
Quantitative analyses of control exerted by overt carnitine palmitoyltransferase over hepatic fatty acid oxidation and ketogenesis in suckling rats	S. KRAUSS, V. A. ZAMMIT AND P. A. QUANT	39S
Cyanylation of the thiol of the cysteine of flavodoxin from <i>Anabaena</i> PCC 7119	M. E. GALLAGHER, S. G. MAYHEW, J. P. G. MALHOUSE AND M. F. FILLAT	40S
Molecular enzymology group		
Activation of (ADP-ribose)polymerase by complexes of oligodeoxynucleotides	L. V. KARABASHIAN, D. L. HARUTUNIAN, A. G. MKHITARIAN AND S. A. AGHAJANIAN	41S
Human plasma carboxypeptidase N; stability of enzyme activity following collection	M. J. MCCLEAVE, R. J. ELLIOTT AND G. P. ARCHBOLD	42S
Oscillatory NADH-oxidase activity of horseradish peroxidase	A. G. McDONALD AND K. F. TIPTON	43S
The α -amylase of <i>Bacillus coagulans</i>	L. A. KEATING, C. T. KELLY AND W. M. FOGARTY	44S
Initial studies on an amylopullulanase from <i>Bacillus</i> sp. DSM 405	J. M. BRUNSWICK, C. T. KELLY AND W. M. FOGARTY	45S
Amino acid sequence alignment of a 'small' citrate synthase from <i>Pseudomonas aeruginosa</i> PAC 514 with other citrate synthase sequences	C. G. MITCHELL AND S. C. K. ANDERSON	46S
Approach to development of tentacle affinity matrices	I. GYEPI-GARBRAH, R. EISENTHAL, J. HUBBLE AND A. PLANT	47S
Endo 5'-nucleotidase in healthy peripheral blood lymphocytes. Inhibition by $\alpha\beta$ methylene adenosine 5'-diphosphate	M. PIZZICHINI, E. MARINELLO, F. ROSI, A. BELA AGOSTINHO, A. TABUCCHI, F. CARLUCCI, D. VANNONI, G. FRANCINI, R. PETRIOLI AND R. PAGANI	48S
Expression of the 5'-nucleotide gene in the peripheral blood lymphocytes from B-chronic lymphocytic leukaemia. Evaluation of mRNA	M. PIZZICHINI, M. D'APOLITO, F. ROSI, D. VANNONI, R. LEONCINI, A. BELA AGOSTINHO, E. MARINELLO, F. CARLUCCI AND A. TABUCCHI	49S
Ecto 5'-nucleotidase in B-cell lymphocytic leukaemia	E. MARINELLO, A. BELA AGOSTINHO, F. ROSI, D. VANNONI, R. LEONCINI, G. FRANCINI, R. PETRIOLI AND M. PIZZICHINI	50S
Purine nucleotide metabolism in lymphocytic leukaemia behaviour of principle enzymes	E. MARINELLO, A. TABUCCHI, F. ROSI, R. LEONCINI, F. CARLUCCI AND R. PAGANI	51S
Recent advances in brain dopaminergic systems		
Brain cytochrome <i>P</i> -450 in the rat	A. G. RIEDL, P. M. WATTS, R. J. EDWARDS, A. R. BOOBIS AND P. JENNER	52S
Allosteric regulation of rat and human dopamine receptor subtypes: evidence for two binding states for [³ H]spiperone	S. R. J. HOARE, M. C. COLDWELL AND P. G. STRANGE	53S
Protein kinase C modulation of phosphoinositidase C in I321NI human astrocytoma cells	J. R. PURKISS	54S

Stimulation of prostacyclin release by endothelial ATP receptors requires activation of protein kinase C and tyrosine kinases	C. A. BROWN, A. BOWDEN, V. PATEL AND M. R. BOARDER	55S
Protein kinase C isoforms in endothelial cells: role in agonist-stimulated prostacyclin release	V. PATEL, C. A. BROWN AND M. R. BOARDER	56S
Comparison of agonist potencies at human dopamine D2 and D3 receptors, expressed in the same cell line, using the cytosensor microphysiometer	I. BOYFIELD, F. WINN AND M. C. COLDWELL	57S
Inositol 1,4,5-trisphosphate perfusion of electroporated SH-SY5Y neuroblastoma cells produces quantal calcium uptake and release	R. A. WILCOX AND S. R. NAHORSKI	58S
Properties of some peptides related to amyloid β -peptide	O. M. A. EL-AGNAF, G. B. IRVINE, D. J. S. GUTHRIE AND D. M. WALSH	59S
<hr/>		
Neurochemical group		
The interaction of 1-methyl-4-phenylpyridinium (MPP ⁺) with bovine adrenal medulla chromaffin vesicle ghosts	M. K. FARMER AND K. F. TIPTON	60S
Nicotinamide derivatives and mitochondrial respiration	P. E. O'SULLIVAN AND K. F. TIPTON	61S
The effects of 1-methyl-4-phenylpyridinium ion on biogenic amine levels in rat substantia nigra	M. B. O'BYRNE, K. F. TIPTON AND G. J. McBEAN	62S
Substrate specificity of human platelet monoamine oxidase B activity in Parkinson's and Alzheimer's diseases	D. H. FITZGERALD, K. F. TIPTON, M. C. ANDERSON AND B. LAWLOR	63S
Nitrocatechol derivatives as inhibitors of catechol-O-methyltransferase	J. M. BYRNE AND K. F. TIPTON	64S
Vascular smooth muscle cells from spontaneously hypertensive rats exhibit increased MAPK response to angiotensin II and phorbol ester stimulation	N. WILKIE, L. L. NG AND M. R. BOARDER	65S
<hr/>		
Pharmacological targets in the immune response		
Lack of inhibition of phosphoinositide 3-kinase enzyme activity by FKBP12/rapamycin	C. M. HOLLIS AND R. HUTCHINSON	66S
Investigation of the role of protein kinase C and tyrosine kinases during the rapid and sustained release of superoxide from adherent human neutrophils	M. A. LINDSAY, I. DANIELS AND J. FLETCHER	67S
Lipoprotein lipase expression in human monocyte-derived macrophages	G. M. CREEDON, D. M. SEXTON AND P. B. COLLINS	68S
Stimulation of signal transduction pathways by MCP-1 in human monocytes and THP-1 cells	S. J. TURNER, S. G. WARD, M. MCKINNON AND J. WESTWICK	69S
Integrin-triggered Ca ²⁺ signalling in human neutrophils	E. J. PETIT AND M. B. HALLETT	70S

An investigation of the response of lymphoblastoid cells to hydrogen peroxide-derived oxidative stress	F. J. O'FARRELL, B. M. HANNIGAN AND Y. A. BARNETT	71S
Investigation into the mechanisms of complement-mediated cytotoxicity in pancreatic β cells	E. M. CARAHER AND P. NEWSHOLME	72S
Inhibition of nitric oxide-induced cytotoxicity in pancreatic β cells	S. A. BRENNAN AND P. NEWSHOLME	73S
Investigation into the effects of adrenaline and/or lipopolysaccharide on nitrite production by murine macrophages	C. J. MURPHY AND P. NEWSHOLME	74S
The effect of antioxidant supplementation on the oxidant-induced stress response in human lymphocytes	L. A. BRENNAN, B. M. HANNIGAN AND Y. A. BARNETT	75S
A possible mechanism for the inhibition of blood platelet aggregation by pyridoxal 5'-phosphate	M. G. HARRINGTON AND N. ELNAGEH	76S
The effect of varying the Ω -6: Ω -3 ratio of the diet upon immune function in the rat	N. M. JEFFERY, P. SANDERSON, E. A. NEWSHOLME AND P. C. CALDER	77S
Glutamine requirement of proliferating T lymphocytes	P. YAQOOB AND P. C. CALDER	78S
Tyrosine phosphorylation in inflammatory neutrophils	D. LLOYDS, N. NEVILLE AND M. B. HALLETT	79S
Wortmannin enhances tumour necrosis factor α -stimulated neutrophil apoptosis	J. MURRAY, A. M. CONDLIFFE, C. HASLETT AND E. R. CHILVERS	80S
Investigation into the role of protein kinase C in IL1 and PMA signalling in EL4.NOB-1 thymoma cells	T. M. MAHON AND L. A. J. O' NEILL	81S
Effect of pertussis toxin and PGE ₂ on the functioning of the IL-2 promoter in interleukin-1-treated EL4.NOB-1 thymoma cells	L. M. MCCARTHY AND L. A. J. O' NEILL	82S
Differential stimulation of IL-6 secretion following apical and basolateral presentation of il-1 on epithelial cell lines	C. O'SHAUGHNESSY, E. PROSSER, T. KEANE AND L. A. J. O'NEILL	83S
Heat-shock proteins (HSPs)-reactive T-cells in inflammatory disease	C. G. H. BELL	84S
Do heat-shock protein (HSP)65-reactive lymphocytes in rheumatoid arthritis, Hashimoto's thyroiditis and systemic lupus erythematosus implicate HSP65 in autoimmunity?	C. G. H. BELL	85S
Electrophoretic analysis of rainbow trout (<i>Oncorhynchus mykiss</i>) mucus	A. J. HUTCHINSON, R. RYAN, K. WHELAN AND U. MACEVILLY	86S
Characterization of a serine/threonine kinase which mediates CD28 phosphorylation following activation by B7.1	R. V. PARRY, J. WESTWICK AND S. G. WARD	87S
Involvement of phosphatidylinositol 3-kinase in the activation of p70 S6 kinase by the T-cell costimulatory molecule CD28	R. V. PARRY AND S. G. WARD	88S
Rapamycin-resistant human lymphoid cell lines	J. E. KAY, A. WELLHAUSEN, V. FROST, G. Y. MORGAN, M. C. SMITH AND S. J. MORLEY	89S

Effects of cyclolinopeptide A on T lymphocyte activation and peptidyl prolyl isomerase activity	T. J. GAYMES, N. J. CARRETT, N. PATEL, J. E. KAY AND I. Z. SIEMION	90S
<hr/>		
Biochemical immunology group		
Role of p70 S6 kinase in lymphocyte activation	V. FROST, M. C. SMITH, S. J. MORLEY AND J. E. KAY	91S
Near membrane Ca ²⁺ changes in neutrophils	E. V. DAVIES AND M. B. HALLETT	92S
A role for RANTES in T lymphocyte proliferation	L. TURNER, S. G. WARD, D. SANSOM AND J. WESTWICK	93S

Heterogenous expression of UDP-glucuronosyltransferases in periportal and perivenous hepatocytes	D. TOSH AND B. BURCHELL	94S
Effect of pyridoxal 5'-phosphate on aggregation of platelets from stored human concentrates induced by arachidonic acid	M.-L. NOLAN, M. G. HARRINGTON AND A. ELJAMIL	95S
Fish-odour syndrome and impaired N-oxidation	S. C. MITCHELL, A. ZHANG AND R. L. SMITH	96S
<hr/>		
Carbohydrate recognition proteins		
V region connectivity versus mimicry in the selection of T-cell repertoire	C. G. H. BELL	97S
Secondary structures in water of chondroitin 4-sulphate and dermatan sulphate. Implications in the formation of tertiary structures	J. E. SCOTT AND F. HEATLEY	98S
Molecular modelling analyses of the C-type lectin domain in human aggrecan	N. C. BRISSETT AND S. J. PERKINS	99S
Characterization of the sea urchin egg receptor for sperm	K. OHLENDIECK AND W. J. LENNARZ	100S
<hr/>		
Glycobiology group		
Secretory properties of clonal insulin-secreting BRIN-BG5 cells, produced by electrofusion	N. MCCLENAGHAN, C. R. BARNETT, E. AH-SING, S. K. SWANSTON-FLATT AND P. R. FLATT	101S
Quantitative measurement of sulphated glycosaminoglycans in urine	R. SLOAN AND R. J. ELLIOTT	102S
Glycosaminoglycan accumulation in amniotic fluid during early pregnancy	R. SLOAN, G. P. ARCHBOLD, F. LLOYD AND R. J. ELLIOTT	103S
Modification of the glycosyl groups of collagen: effects on fibril assembly	J. TRACEY AND J. MANNING	104S
<hr/>		
Navigating the genome		
Analysis of mutations at the <i>adenine phosphoribosyltransferase</i> gene locus in wild-type and thymidine kinase-deficient Friend cells	P. L. HYLAND, M. W. MCKINNEY, A. L. KEEGAN, P. G. MCKENNA AND Y. A. BARNETT	105S
Cloning of an Atlantic salmon transcription factor	C. STENSON, A. MCNAIR, L. BYRNES AND F. GANNON	106S

The 3'-untranslated region of the human oestrogen receptor gene post-transcriptionally reduces mRNA levels	M.-R. KENEALY, G. FLOURIOT, C. POPE AND F. GANNON	107S
A novel genetic assay for mutations which affect post-embryonic development of the behaviour of adult flies	R. G. PHILLIPS, K. LINERUTH-DAVIES AND J. R. S. WHITTLE	108S
The chromosomal organization of the alcohol dehydrogenase region of the genome of <i>Drosophila melanogaster</i>	T. DAVIS AND M. ASHBURNER	109S
<hr/> Nucleic acids and molecular biology group <hr/>		
Expression of the serpin genes squamous cell carcinoma antigen and leupin in human tissues	R. C. BARNES AND D. M. WORRALL	110S
Cloning, sequencing and expression of the serpin ovalbumin gene Y	B. J. MCCARTHY AND D. M. WORRALL	111S
<hr/> Membrane group <hr/>		
Reduction of MTT as an index of electroporabilization in spermatozoa	A. SWEENEY AND P. T. TOMKINS	112S
A spectrophotometric assay of intercellular communication	R. CANTWELL AND P. T. TOMKINS	113S
The functional role of the γ -chain cysteine in Fc γ RI-mediated phagocytosis using co-transfected COS-7 cells	M. J. HUTCHINSON AND J. M. ALLEN	114S
The use of biotinylaton in the detection and purification of affinity-labelled GLUT-1	E. G. SARAVOLAC, G. D. HOLMAN, G. W. GOULD AND S. A. BALDWIN	115S
<hr/> Lipid group <hr/>		
Post-dialysis fluid (CAPD) increases ^3H cholesterol efflux from human skin fibroblasts	A. G. KILLALEA, R. KIDNEY, B. KEOGH AND W. C. LOVE	116S
Investigation of glucocorticoid modulation of apolipoprotein mRNA transcription	M. M. MACMAHON AND W. C. LOVE	117S
<hr/> Techniques group <hr/>		
The effect of oligomycin on the adhesion strength of cultured Chinese hamster lung (CHL) cells	A. YILDIRIM	118S
Rapid purification of heart muscle enzymes using dye affinity aqueous two-phase systems	R. SLOAN AND R. J. ELLIOTT	119S
Rapid enrichment of poly(ADP-ribose) polymerase using magnetic DNA affinity beads	S. KAPPUS AND W. J. D. WHISH	120S
AMP-succinate lyase in lymphocytic leukaemia	E. MARINELLO, R. PAGANI, R. GUERRANTI, F. BISCEGLIA, F. CARLUCCI, M. PIZZICHINI AND A. TABUCCHI	121S
The effect of high-frequency ultrasound on cell adhesion	C. FISHER, F. DUCK, C. BRANFORD-WHITE AND W. J. D. WHISH	122S

The use of computers in the teaching of biochemistry		
Using computers to teach undergraduates about biological molecules	C. A. SMITH, A. H. FIELDING, M. O. MCCORMICK, J. MURRAY AND C. E. SANSON	123S
Education group		
The CTI Centre for Biology: network-based information services for biochemists	P. W. GOULD AND P. G. G. MILLER	124S
Computer modelling of biological molecules		
The simulation of substantial conformational transitions of proteins: progress in the application of Path Energy Minimization in internal coordinate space	O. S. SMART	125S
Improving the engineered activity of mutants of clostridial glutamate dehydrogenase towards monocarboxylic substrates: substitution of Ala-163 with glycine	X.-G. WANG, L. K. BRITTON, P. J. BAKER, D. W. RICE AND P. C. ENGEL	126S
A peptide molecular dynamics study correlates structure with function	N. V. MCFERRAN, B. WALKER AND J. NELSON	127S
The lysopine and octopine dehydrogenase activities of <i>Mytilus edulis</i> are catalysed by a single enzyme	M. COUGHLAN AND P. O'CARRA	128S
The synthesis and characterization of a glyoxal inhibitor of chymotrypsin	E. A. MURPHY, T. P. O'CONNELL AND J. P. G. MALTHOUSE	129S
¹ H-NMR spectroscopy of β -thiocyanatoalanine	P. PHELAN AND J. P. G. MALTHOUSE	130S
A study of the pH dependence of the reaction of benzyloxycarbonyltryptophanylchloromethane with chymotrypsin	M. M. MAHON AND J. P. G. MALTHOUSE	131S
Proof that serine hydroxymethyltransferase retains its specificity for the pro-2S proton of glycine in the absence of tetrahydrofolate	T. B. FITZPATRICK AND J. P. G. MALTHOUSE	132S
Enzymic synthesis of α -deuterated amino acids	J. J. MILNE AND J. P. G. MALTHOUSE	133S
Kinetic analysis of the exchange of the α -protons of amino acids by pyridoxal phosphate-dependent enzymes	J. P. G. MALTHOUSE, J. J. MILNE, T. B. FITZPATRICK AND M. M. MAHON	134S
A ¹ H-NMR study of the histidine resonances of native subtilisin and of subtilisin inhibited by benzyloxycarbonylglycylglycylphenylalanyl-chloromethane	T. P. O'CONNELL AND J. P. G. MALTHOUSE	135S
<i>In vitro</i> construction of inter-subunit hybrids in <i>Clostridium symbiosum</i> glutamate dehydrogenase	S. A. AGHAJANIAN, X.-G. WANG AND P. C. ENGEL	136S
Simulation of voltage-dependent insertion of α -helical peptides into lipid bilayers	P. C. BIGGIN AND M. S. P. SANSOM	137S
Molecular dynamics simulations on solvated M2 helix bundles of nicotinic receptors	R. SANKARAMAKRISHNAN AND M. S. P. SANSOM	138S
Water dynamics in model transbilayer pores	M. S. P. SANSOM, J. BREED, R. SANKARAMAKRISHNAN AND I. D. KERR	139S
Simulation of the packing of transmembrane α helices	H. S. SON AND M. S. P. SANSOM	140S

Protein and peptide science group		
Rationalization of the C-S lyase activity of aspartate aminotransferase	P. H. TEESDALE-SPITTLE, H. J. ADCOCK, L. H. PATTERSON AND L. D. BUCKBERRY	141S
TGF β 1 alters the production of collagen types I and III by human gingival fibroblasts	J. A. JAMES, C. R. IRWIN AND G. J. LINDEN	142S
Quantum mechanical model assembly calculations of energetics of binding of ligands to protein receptors	M. PERÄKYLÄ AND T. A. PAKKANEN	143S
Hormone group		
Domain swap chimaeras to study the binding of IgG by Fc γ RI, the high-affinity receptor for IgG	P. T. HARRISON AND J. M. ALLEN	144S
Effects of dietary sucrose and cortisone on hepatic acetazolamide-resistant carbonic anhydrase	J. B. MOYNIHAN	145S
The role of GTP-binding proteins in the release of gonadotrophin by α T3-I cells	A. BETTERIDGE	146S
Industrial biochemistry and biotechnology group		
Interactions of proteins with dyes conjugated to soluble polymers	R. MAYTUM, R. EISENTHAL AND J. HUBBLE	147S
Development of a model system for investigating cell/surface affinity interactions	J. USMAN, W. J. D. WHISH AND J. HUBBLE	148S
Miscellaneous		
Preliminary functional studies of mutant D114N of <i>Clostridium symbiosum</i> glutamate dehydrogenase	S. COUGHLAN, X.-G. WANG, K. L. BRITTON, T. J. STILLMAN, D. W. RICE AND P. C. ENGEL	149S
Investigation of the inhibition of complement-mediated cell death	C. E. O'TOOLE AND P. NEWSHOLME	150S
Crystallization of the flavodoxin from <i>Megasphaera eldenii</i>	C. T. SHARKEY, T. HIGGINS AND S. G. MAYHEW	151S
FTIR spectroscopic structural analysis of the CHIP28 water channel protein	P. I. HARRIS, D. CHAPMAN AND G. BENGHA	152S
