

Hopkins Lecture

- Tyrosine Phosphorylation: Past, Present and Future** T. HUNTER 307

Jubilee Lecture

- Biomembranes, Ion Channels and New Biomaterials** D. CHAPMAN AND P. I. HARIS 329

Zeneca Award Lecture

- Fishing in the Stream of Diabetes: From Measuring Insulin to the Control of Fetal Organogenesis** C. N. HALES, M. DESAI, S. E. OZANNE AND N. J. CROWTHER 341

colloquia

657th Meeting Aberdeen

colloquium: Nutrient Regulation of Gene Expression

- Regulation of promoters by two transcription activators: evidence for a 'simultaneous touching' model** N. SAVERY, T. BELYAEVA, H. WING AND S. BUSBY 351
- Basic helix-loop-helix transcription factors and the cross-regulation of sulphate and phosphate metabolism in yeast** D. J. CROWTHER, N. A. KENT, A. F. SPIT AND J. MELLOR 354
- Regulation of gene expression by ambient pH in *Aspergillus*: genes expressed at acid pH** S. SARKAR, M. X. CADDICK, E. BIGNELL, J. TILBURN AND H. N. ARST, JR. 360
- Metabolic regulation of hepatic gene expression** H. C. TOWLE, E. N. KAYTOR AND H.-M. SHIH 364
- Regulation of insulin gene transcription by nutrients** K. DOCHERTY, W. M. MACFARLANE, M. L. READ, S. B. SMITH, M. E. WILSON, I. BUJALSKA AND M. GILLIGAN 368
- Regulation of lipogenic enzyme expression by glucose in liver and adipose tissue: is glucose 6-phosphate the signalling metabolite?** F. FOUFELLE, J. GIRARD AND P. FERRÉ 372
- Regulation of gene expression by insulin: analysis in single living cells** J. M. TAVARÉ, G. A. RUTTER, M. R. GRIFFITHS, S. P. DOBSON AND H. GRAY 378
- Regulation of selenoprotein gene expression and thyroid hormone metabolism** J. R. ARTHUR, G. BERMANO, J. H. MITCHELL AND J. E. HESKETH 384

Nutrient regulation of intestinal sugar-transporter expression	S. P. SHIRAZI-BEECHEY, J. DYER, G. ALLISON AND I. S. WOOD	389
---	---	------------

colloquium: Adipose Tissue Differentiation and Development

Functional interpretation of the organization of mammalian adipose tissue: its relationship to the immune system	C. M. POND	393
Early adipocyte differentiation	G. AILHAUD	400
Uncoupling protein in brown adipose tissue: molecular differentiation of the adipose tissues	P. TRAYHURN	402
Adrenergic regulation of brown adipocyte differentiation	B. CANNON AND J. NEDERGAARD	407
β_3-Adrenoceptors and the regulation of metabolism in adipose tissues	J. R. S. ARCH AND S. WILSON	412
Immunological manipulation of adiposity	D. J. FLINT	418
Nutritional influences on human adipose-tissue metabolism	K. N. FRAYN, B. A. FIELDING, S. M. HUMPHREYS AND S. W. COPPACK	422

colloquium: Free Radical Processes in Plants

Oxygen processing in photosynthesis	C. H. FOYER	427
Peroxisomes as a source of superoxide and hydrogen peroxide in stressed plants	L. A. DEL RÍO, J. M. PALMA, L. M. SANDALIO, F. J. CORPAS, G. M. PASTORI, P. BUENO AND E. LÓPEZ-HUERTAS	434
The origin of the oxidative burst in plants	G. P. BOLWELL	438
Free radicals and other paramagnetic ions in interactions between fungal pathogens and potato tubers	A. J. SNIJDER, R. L. WASTIE, S. M. GLIDEWELL AND B. A. GOODMAN	442
Superoxide generation in relation to dehydration and rehydration	F. NAVARI-IZZO, M. F. QUARTACCI AND C. M. L. SGHERRI	447
Free radicals and metabolism associated with the acquisition and loss of desiccation tolerance in developing seeds	O. LEPRINCE, G. A. F. HENDRY, N. M. ATHERTON AND C. WALTERS-VERTUCCI	451
Plant defence systems and ozone	M. SCHRAUDNER, C. LANGEBARTELS AND H. SANDERMANN, JR.	456
Gaseous pollutants and plant defence mechanisms	A. R. WELLBURN AND F. A. M. WELLBURN	461
Manipulation of glutathione metabolism in transgenic plants	G. CREISSEN, P. BROADBENT, R. STEVENS, A. R. WELLBURN AND P. MULLINEAUX	465
Oxidative stress and responses in <i>Arabidopsis thaliana</i> and <i>Oryza sativa</i> subjected to chilling and salinity stress	R. H. BURDON, D. O'KANE, N. FADZILLAH, V. GILL, P. A. BOYD AND R. R. FINCH	469

Ascorbate metabolism in relation to oxidative stress	N. SMIRNOFF AND J. E. PALLANCA	472
Cytosolic calcium and oxidative plant stress	A. PRICE, M. KNIGHT, H. KNIGHT, T. CUIN, D. TOMOS AND T. ASHENDEN	479
Free radical formation in non-photosynthetic plant tissues — an overview	G. A. F. HENDRY, M. N. KHAN, V. GREGGAINS AND O. LEPRINCE	484

colloquium: Muscular Dystrophy and Allied Disorders: Research Strategies

Understanding the heterogeneity of the limb-girdle muscular dystrophies	K. BUSHBY	489
Structure–function relationships in dystrophin and utrophin	S. J. WINDER	497
Costameric distribution of β-dystroglycan (43 kDa dystrophin-associated glycoprotein) in normal and dystrophin-deficient human skeletal muscle	R. HERRMANN, L. V. B. ANDERSON AND T. VOIT	501
Skeletal muscle development and the role of the myogenic regulatory factors	M. BUCKINGHAM	506
Is myotonic dystrophy a single-gene disorder?	K. J. JOHNSON, C. A. BOUCHER, S. K. KING, C. L. WINCHESTER, M. E. S. BAILEY, G. M. HAMILTON AND N. CAREY	510
Gene transfer to muscle	G. DICKSON	514

colloquium: Intracellular Sorting of Macromolecules

mRNA targeting: signals in the 3'-untranslated sequences for sorting of some mRNAs	J. E. HESKETH	521
Targeting proteins to mitochondria: is there a role for mRNA localization?	R. N. LIGHTOWLERS, A. E. SANG, T. PREISS AND Z. M. A. CHRZANOWSKA-LIGHTOWLERS	527
Localization signals in proteins internalized from the cell surface	G. BANTING	531
Intracellular targeting of secretory proteins in neuroendocrine cells	K. I. J. SHENNAN	535
Trafficking, targeting and translocation of the insulin-responsive glucose transporter, GLUT4, in adipocytes	J. E. RICE, C. LIVINGSTONE AND G. W. GOULD	540
Intracellular transport of the low-density lipoprotein receptor	A. K. SOUTAR	547
Hijacking host cell signal transduction mechanisms during infection with enteropathogenic <i>Escherichia coli</i>	T. J. BALDWIN, S. KNUTTON, R. HAIGH, P. H. WILLIAMS, H. M. PALMER, A. AITKEN AND S. P. BORRIELLO	552

colloquium: Regulatory Peptides in the Control of Food Intake and Metabolism

The central regulation of energy homeostasis: roles of neuropeptide Y and other brain peptides	C. BING, Q. WANG, L. PICKAVANCE AND G. WILLIAMS	559
Hormones and the <i>ob</i> gene product (leptin) in the control of energy balance	P. TRAYHURN AND D. V. RAYNER	565
Pancreatic B-cells as mediators of metabolic effects of regulatory peptides	P. R. FLATT	570
Metabolic actions of neuropeptide Y and their relevance to obesity	J. P. H. WILDING	576
Central glucagon-like peptide-I in the control of feeding	I. GUNN, D. O'SHEA, M. D. TURTON, S. A. BEAK AND S. R. BLOOM	581
The metabolic role of GIP: physiology and pathology	L. M. MORGAN	585
Regulatory peptides in the control of metabolism during starvation and exercise	K. D. BUCHANAN, A. M. O'CONNOR, C. F. JOHNSTON AND C. BOREHAM	591
Islet amyloid polypeptide: actions and role in the pathogenesis of diabetes	A. CLARK, S. B. P. CHARGE, M. K. BADMAN, D. A. MACARTHUR AND E. J. P. DE KONING	594

Adipose tissue differentiation and development

Lipoproteins in non-insulin-dependent diabetes mellitus (NIDDM)	C. G. L. HOBBS, M. KODIKARA, R. GRAY, P. BORDIN, A. ROBINSON, P. J. PACY, S. VENKATESAN AND D. HALLIDAY	153S
Alterations in plasma lipoprotein concentrations in patients with peripheral vascular disease	B. MOWAT, H. M. WILSON, E. R. SKINNER, G. LENG, F. G. R. FOWKES AND D. HORROBIN	154S
A brain receptor for a subfraction of high-density lipoprotein containing apolipoprotein E	J. M. STEWART, E. R. SKINNER AND P. V. BEST	155S
<i>ob</i> (obese) gene expression in white adipose tissue of obese Zucker (<i>fa/fa</i>) rats	D. V. RAYNER AND P. TRAYHURN	156S
Expression of the <i>ob</i> (obese) gene during lactation in mice	I. RUBIO-ALIAGA AND P. TRAYHURN	157S
Lack of effect of different dietary saturated fatty acids on adipose tissue deposition in the rat	E. J. SHERRINGTON, N. M. JEFFERY AND P. C. CALDER	158S
Metallothionein gene expression in brown adipose tissue	J. H. BEATTIE, D. SHAND, A. M. WOOD AND P. TRAYHURN	159S
The effect of feeding diets with different <i>n-6/n-3</i> fatty acids ratios on adipose tissue deposition in the rat	E. J. SHERRINGTON, N. M. JEFFERY AND P. C. CALDER	160S
Adipose tissue development in the chick embryo	B. K. SPEAKE, K. FARKAS, I. A. J. RATCHFORD AND R. C. NOBLE	161S
Insulin signal transduction in adipocytes from lactating sheep	L. A. WILSON, E. FINLEY, P. J. BUTTERY AND R. G. VERNON	162S
Treatment of pluripotential C3H 10T1/2 fibroblasts with bone morphogenetic protein-4 induces adipocyte commitment	S. C. BUTTERWITH, R. S. WILKIE AND M. CLINTON	163S
Preadipocyte factor-1 expression in the mouse embryo and placenta	S. C. BUTTERWITH, D. PEDDIE, B. BELLOIR AND M. CLINTON	164S
Preferential mobilization of docosahexaenoic acid from adipose tissue triacylglycerol of the chick embryo	S. CEROLINI, B. K. SPEAKE, A. MALDJIAN AND R. C. NOBLE	165S
The characterization of expression of three murine peroxisome proliferator-activated receptor genes	A. R. BELL, P. S. JONES, R. SAVORY, P. BARRATT, T. J. B. GRAY, N. A. JENKINS, D. J. GILBERT, N. G. COPELAND AND D. R. BELL	166S
Platelet membrane glycoprotein IV (CD36) is involved in arachidonic acid-induced platelet aggregation	A. K. DUTTA-ROY, L. C. CROSBIE, M. J. GORDON AND F. M. CAMPBELL	167S
Effect of insulin on glucose transport in adipose tissue in lactation	M. P. ROGERS AND X. ZHAO	168S
Lipoprotein lipase mRNA levels in adipose tissue in lactation	M. P. ROGERS AND X. ZHAO	169S
A novel method for the rapid separation of human plasma lipoproteins using self-generating gradients of Iodixanol	J. M. GRAHAM, J. A. HIGGINS, T. TAYLOR, T. GILLOTT, J. WILKINSON, T. C. FORD AND D. BILLINGTON	170S
Carotenoid profiles of human plasma lipoproteins	G. M. LOWE, R. F. BILTON, A. J. YOUNG, J. M. GRAHAM, T. C. FORD AND D. BILLINGTON	171S
Apolipoprotein CII and CIII in non-insulin-dependent diabetic patients	M. KODIKARA, C. G. L. HOBBS, P. BORDIN, P. J. PACY, S. VENKATESAN AND D. HALLIDAY	172S

Lipid group		
Effect of flavonoids on arachidonic acid metabolism and prostacyclin (PGI ₂) formation in human vascular endothelial cells	H. KHAZA'AI AND K. W. J. WAHLE	173S
Effect of heavy metals on lipids from the freshwater alga <i>Selenastrum capricornutum</i>	C. J. RICHES, P. K. ROBINSON AND C. E. ROLPH	174S
The effect of dietary lipid manipulation on the uptake of [³ H]triolein by tissues of the rat	E. J. SHERRINGTON, D. H. WILLIAMSON AND P. C. CALDER	175S
Regulation of glutathione peroxidase (GSHPx) activity in human vascular endothelial cells by fatty acids	A. J. CROSBY, K. W. J. WAHLE, G. G. DUTHIE AND P. C. MORRICE	176S
Retention of orotic acid effect on very-low-density-lipoprotein secretion in cultured hepatocytes	A.-M. HEBBACHI AND G. F. GIBBONS	177S
Oxysterols and human endothelial cell function	A. C. TAYLOR AND K. W. J. WAHLE	178S
Reaction of proteins with vehicle exhaust soot	C. H. BOLTON, M. I. HOPTON, W. ROGERS, R. R. SLADE, R. P. EVERSLED, J. F. CARTER AND M. HARTOG	179S
Interactive effects of dietary cholesterol and saturated fat on low-density-lipoprotein cholesterol	A. M. SALTER, J. S. BRUCE, A. J. BENNETT, E. H. MANGIAPANE AND D. A. WHITE	180S
The relationship between the fatty acid composition of the lipids of the yolk and the brain of the duck embryo	B. K. SPEAKE, C. CRISTOFORI, R. J. MCCARTNEY AND R. C. NOBLE	181S
Tissue-specific development of antioxidant systems during avian embryogenesis	B. K. SPEAKE, P. F. SURAI, T. GAAL, M. MEZES AND R. C. NOBLE	182S
Interactions between lipid and insulin in the regulation of apolipoprotein B secretion	A.-M. BROWN AND G. F. GIBBONS	183S
Intracellular sorting of macromolecules		
Evidence that both the acyl-CoA- and malonyl-CoA-binding sites of mitochondrial overt carnitine palmitoyltransferase (CPT I) are exposed on the cytosolic face of the outer membrane	F. FRASER, C. G. CORSTORPHINE AND V. A. ZAMMIT	184S
The addition of a glycosylphosphatidylinositol anchor to a soluble form of neutral endopeptidase re-establishes its apical targeting in LLC-PK1 cells	S. HOWELL, C. LANCTÔT, F. CAILLER AND P. CRINE	185S
Role of the glycosylphosphatidylinositol anchor in membrane protein sorting in Madin-Darby canine kidney cells	F. CAILLER, S. HOWELL AND P. CRINE	186S
Enrichment of specific mRNAs in cytoskeletal-bound and membrane-bound polysomes in Chinese hamster ovary cells	J. HESKETH, D. JODAR, A. JOHANNESSEN, K. PARTRIDGE, I. PRYME AND A. TAULER	187S
Localization of β -globin reporter sequences to the perinuclear cytoplasm by myosin heavy chain and vimentin 3' untranslated regions	J. W. WISEMAN, L. A. GLOVER AND J. E. HESKETH	188S
Distribution of glutathione peroxidase mRNAs between free and cytoskeletal-bound polysomes in H4 hepatoma cells	G. P. CAMPBELL AND J. E. HESKETH	189S

Isolation and characterization of two intracellular GLUT4 glucose transporter pools in rat skeletal muscle	J. C. ALEDO AND H. S. HUNDAL	190S
Effect of oral supplementation with micronutrient antioxidants on <i>trans</i> fatty acid content of lipoproteins in healthy humans	C. CHALONER, M. I. MACKNESS, P. N. DURRINGTON AND J. M. BRAGANZA	191S
Effects of 7B2 on the maturation of pro-hormone convertase 2 (PC2) <i>in vitro</i>	J. L. JERMAN, G. J. M. MARTENS, K. DOCHERTY AND K. I. J. SHENNAN	192S
Mutations in the pro-peptide of PC2 prevent transit through the secretory pathway	N. A. TAYLOR, K. I. J. SHENNAN, D. F. CUTLER AND K. DOCHERTY	193S

Free radical processes in plants

The antioxidant activity of heparins	D. GRANT, W. F. LONG, G. MACKINTOSH AND F. B. WILLIAMSON	194S
Superoxide generation in plant peroxisomal membranes: characterization of redox proteins involved	E. LOPEZ-HUERTAS, L. M. SANDALIO AND L. A. DEL RIO	195S
Purification and characterization of peroxisomal and mitochondrial Mn-superoxide dismutases from watermelon cotyledons	G. M. PASTORI, S. DISTEFANO, J. M. PALMA AND L. A. DEL RIO	196S
Modulation of human platelet function by food flavonoids	C. KELLY, K. HUNTER, L. CROSBIE, M. J. GORDON AND A. K. DUTTA-ROY	197S
Active oxygen metabolism in the senescence of pea leaves: ascorbate and glutathione contents in different cell compartments	A. JIMENEZ, J. A. HERNÁNDEZ, G. M. PASTORI, L. A. DEL RIO AND F. SEVILLA	198S
Elicitor-induced generation of active oxygen in suspension cultures of <i>Arabidopsis thaliana</i>	R. DESIKAN, J. T. HANCOCK, S. J. NEILL, M. J. COFFEY AND O. T. JONES	199S
Stress tolerance of transgenic <i>Nicotiana tabacum</i> with enhanced activities of glutathione reductase and superoxide dismutase	K. TANAKA, M. AONO, H. SAJI AND A. KUBO	200S
α -Tocopherol-binding activity of human red blood cells: implications in nutritional assessment of vitamin E status	M. C. BELLIZZI, A. K. DUTTA-ROY AND W. P. T. JAMES	201S
α -Tocopherol-binding protein in the cytosol of the human placenta	M. J. GORDON, F. M. CAMPBELL AND A. K. DUTTA-ROY	202S
Similarity and dissimilarity in aspects of the binding to heparin of Ca^{2+} and Zn^{2+} as revealed by potentiometric titration	D. GRANT, W. F. LONG AND F. B. WILLIAMSON	203S
The binding of platinum (II) to heparin	D. GRANT, W. F. LONG AND F. B. WILLIAMSON	204S
Blast disease of rice in regard to active oxygen	A. A. AVER'YANOV, V. P. LAPIKOVA, T. D. PASECHNIK, G. N. NOVODAROVA AND M. E. VOL'PIN	205S

Nutrient regulation of gene expression

The expression of plasminogen activators and their inhibitors in cultured human retinal capillary endothelial cells	B. S. REDMILL, N. A. BOOTH, R. M. KNOTT AND J. V. FORRESTER	206S
Characterization of a monoclonal antibody which recognizes the enzyme chitinase from <i>Lepeophtheirus salmonis</i>	M. B. LABUS, O. ANDRADE-SALAS, W. T. MELVIN AND A. L. MUNRO	207S

Novel approaches to the purification and identification of cytochrome P-450 enzymes in the equine	J. BYARD, D. E. MARSHALL, E. HOUGHTON AND D. B. GOWER	208S
Human diadenosine 5', 5'''-P ¹ , P ⁴ -tetrphosphate pyrophosphohydrolase (Ap ₄ A hydrolase) possesses a MutT motif	N. M. H. THORNE, S. HANKIN, M. C. WILKINSON, C. NUÑEZ, R. BARRACLOUGH AND A. G. McLENNAN	209S
Characterization of Sxa2, a carboxypeptidase involved in pheromone recovery in fission yeast	G. LADDS AND J. DAVEY	210S
Maturation of Krp1, an endopeptidase from the fission yeast <i>Schizosaccharomyces pombe</i>	D. POWNER AND J. DAVEY	211S
The effect of starvation and ethanol on c-myc messenger RNA expression in the heart	A. G. PAICE, J. E. HESKETH, P. J. RICHARDSON AND V. R. PREEDY	212S
The effect of novel detergents on hepatic microsomal glucose-6-phosphatase activity	M. P. HOUSTON, D. GIBSON, L. C. N. TUCKER AND A. BURCHELL	213S
Anabolic effects of a range of β_2 -adrenoceptor agonists in a clonal G8.P8 cell line	S. J. BLACKBURN, K. J. BROCKLEHURST, K. A. THORPE, B. R. HOLLOWAY AND I. D. WADDELL	214S
Clenbuterol is not an agonist of Na ⁺ -dependent creatine transport	K. A. THORPE, K. J. BROCKLEHURST, S. J. BLACKBURN, B. R. HOLLOWAY AND I. D. WADDELL	215S
Glucose-mediated regulation of GLUT-1 and GLUT-3 mRNA in human retinal endothelial cells	R. M. KNOTT, M. ROBERTSON, E. MUCKERSIE AND J. V. FORRESTER	216S
The effect of transforming growth factor β_1 on the function of Hep G2 hepatoma cells	H. GRANT, K. ANDERSON, C. NUGENT AND H. RODGERS	217S
The effect of oxygen concentration on the function of human Hep G2 hepatoma cells and primary cultures of rat hepatocytes	H. GRANT, A. D. SMIRTHWAITE, J. D. S. GAYLOR AND R. COUSINS	218S
Regulation of the activities of citrate synthase isoenzymes from <i>Pseudomonas aeruginosa</i> PAC 514	C. G. MITCHELL	219S
Metallothionein isoform analysis by liquid chromatography–electrospray ionization mass spectrometry	J. H. BEATTIE, J. A. LOMAX, M. P. RICHARDS, R. SEIT, R. PESCH AND H. MUNSTER	220S
Effect of extracellular matrix and growth arrest on the alkaline phosphatase activity of F9 embryonal carcinoma cells	J. V. FLEMING, S. M. HAY AND W. D. REFS	221S
Effect of plane of nutrition and growth hormone treatment on insulin receptor gene expression and kinase activity of sheep muscle and adipose tissue	L. A. WILSON, M. C. BARBER, M. T. TRAVERS, J. SOAR, P. J. BUTTERY AND R. G. VERNON	222S
Regulation of acetyl CoA carboxylase gene expression in adipose tissue from lactating sheep	M. T. TRAVERS, M. C. BARBER AND R. G. VERNON	223S
A cell-culture model to study regulation of selenoprotein gene expression by selenium	G. BERMANO, J. ARTHUR AND J. HESKETH	224S
A competitive prehybridization assay for validating the specificity of oligonucleotide probes: application for analysis of rat metallothionein-1 and -2 mRNA	M. H. VASCONCELOS, S.-C. TAM, J. H. BEATTIE AND J. E. HESKETH	225S
Uptake and bioavailability of dietary polyamines	S. BARDOCZ, A. WHITE, G. GRANT, D. S. BROWN, T. J. DUGUID AND A. PUSZTAI	226S
Melatonin-regulated gene expression in <i>pars tuberalis</i> cells of the ovine pituitary investigated by differential display	A. W. ROSS, P. BARRETT AND P. J. MORGAN	227S

Glucose-mediated regulation of transforming growth factor β in human retinal endothelial cells	M. M. PASCAL, R. M. KNOTT AND J. V. FORRESTER	228S
Polyamine acetylation and apoptosis	G. S. LINDSAY AND H. M. WALLACE	229S
Hydrogen peroxide induces the catabolism of polyamines in human breast cancer cells	S. CHOPRA AND H. M. WALLACE	230S
Effect of the thiazolidinedione antihyperglycaemic agent BRL 49653 on liver fatty acid-binding protein gene expression	J. E. SIDAWAY, A. J. DICKSON, S. A. SMITH AND D. S. W. BOAM	231S
The inheritance of a novel mutation in glycogen storage disease type Ia	C. J. HINDS AND A. BURCHELL	232S
Regulation of the fatty acid synthase promoter by retinoic acid	K. RÖDER, S. S. WOLF AND M. SCHWEIZER	233S
Reduced insulin sensitivity of isolated skeletal muscle but enhanced lipogenic capacity of adipocytes in both spontaneously hypertensive and Wistar–Kyoto rats	S. L. PEARSON, Y.-L. LIU, M. DAVENPORT, S. A. SMITH AND S. J. DUNMORE	234S
Teratogenic potential of free radicals and hexokinase isoenzymes in the postimplantational 'diabetic' rat conceptus	R. SHARMA, D. CONSTANTIN-TEDOSIU, B. MIDDLETON, M. WILLIS AND M. K. PRATTEN	235S
Relationships between hypothalamic neuropeptide Y and food intake in the lactating rat	L. PICKAVANCE, S. DRYDEN, D. HOPKINS, C. BING, H. FRANKISH, Q. WANG, R. G. VERNON AND G. WILLIAMS	236S
Effect of zinc on metallothionein content of CHO cells transfected with metallothionein gene under the control of a non-inducible promoter	S. M. WALLACE, H. ZAIDI, J. R. ARTHUR AND I. BREMNER	237S
GLUT1 to 5 and SGLT1 expression in thyroid-hormone-treated Caco-2 cells	M. MATOSIN, G. G. ALLISON, A. A. ILUNDAIN, S. P. SHIRAZI-BEECHEY AND E. BROU-LAROCHE	238S
IUF1, a nutrient-responsive transcription factor in the pancreatic β -cells	W. M. MACFARLANE AND K. DOCHERTY	239S
Mapping nutrient regulatory sequences in the insulin gene	M. L. READ, L. CRITCHLEY AND K. DOCHERTY	240S
Endoplasmic reticulum enzyme systems in developing human fetal trachea	C. E. CONNER, R. HUME AND A. BURCHELL	241S
Glucose-6-phosphatase in rat pancreas	S. L. WATKINS AND A. BURCHELL	242S
Glucose-6-phosphatase in developing human oesophagus	K. MCINTOSH, R. HUME AND A. BURCHELL	243S
Altered glycogen synthesis associated with changes in cell volume of rat skeletal muscle myotubes in primary culture	S. Y. LOW, M. J. RENNIE AND P. M. TAYLOR	244S
Inhibition of HIV-1 replication by uridine-3'-spiroxirane, a new type of reverse transcriptase inhibitor	J. M. BAILEY AND K. A. NELSON	245S
Studies on the <i>Escherichia coli</i> melAB promoter	J. KEEN AND S. BUSBY	246S
Mechanism of peptide transport in ruminant intestinal brush-border membrane	J. DYER, G. ALLISON, N. D. SCOLLAN AND S. P. SHIRAZI-BEECHEY	247S
Factors and molecular mechanisms involved in the regulation of chicken colonic luminal membrane Na ⁺ -linked transport systems	I. S. WOOD, J. DYER, C. DE LA HORRA, A. A. ILUNDAIN, M. DONOWITZ, S. P. SHIRAZI-BEECHEY, S. M. GRIBBLE, C. M. TSE AND L. M. CALONGE	248S
Asymmetric distribution of the plasma-membrane fatty acid-binding protein (FABPpm) in the human placenta	F. M. CAMPBELL AND A. K. DUTTA-ROY	249S

Glucose catabolism induced the L-type pyruvate kinase gene	B. DOIRON, M.-H. CUIF AND A. KAHN	250S
<hr/>		
Nucleic acids and molecular biology group		
Can HPV16 detection rationalize the management of women with mild or moderate dyskaryosis?	S. BUCHAN, G. JIANG, M. E. CRUICKSHANK, W. T. MELVIN AND H. C. KITCHENER	251S
Expression of a DNA-binding protein in tumours	S. C. PRITCHARD, W. T. MELVIN AND G. I. MURRAY	252S
Characterization of the expression of <i>Wnt-1</i> and <i>Wnt-5A</i> related genes from <i>Lepeophtheirus salmonis</i> during embryonic development	M. B. LABUS, W. T. MELVIN AND A. L. MUNRO	253S
Identification and expression of antigens from <i>Lepeophtheirus salmonis</i> for use in vaccination trials	M. B. LABUS, J. J. COULL, A. DACANAY, W. T. MELVIN, O. ANDRADE-SALAS AND A. L. MUNRO	254S
Evaluation of filamentous bacteriophage as immunogens in Atlantic salmon	J. J. COULL, W. T. MELVIN, M. B. LABUS, R. S. RAYNARD, J. KING AND A. L. MUNRO	255S
A comparison of different chemiluminescent substrates for the detection of endothelial adhesion molecule transcripts	E. S. R. COLLIE-DUGUID AND K. W. J. WAHLE	256S
The adherence of <i>Streptococcus mutans</i> and streptococcal antigen I/II to a high-molecular-mass human salivary glycoprotein	B. TULLOCH AND C. G. MITCHELL	257S
Effect of growth factors on fibroblast migration in a simplified wound-healing model	T. R. FRAY AND E. J. WOOD	258S
Induction of stress proteins in human skin keratinocytes by heat, ultraviolet and 8-methoxypsoralen	A.-A. AL-MASAUD, W. J. CUNLIFFE AND E. J. WOOD	259S
Analysis of K-ras in the stools of patients with colorectal tumours	R. PAGANI, B. PORCELLI, B. FROSI, M. PIZZICHINI, S. CIMELELLI, M. C. PACCHIAROTTI, L. AREZZINI, G. TANZINI AND E. MARINELLO	260S
<hr/>		
Regulation in metabolism group		
Altered myosin heavy chain in hearts of ethanol-exposed rats	G. G. SANDHU, V. B. PATEL, J. M. CORBETT, M. J. DUNN, P. J. RICHARDSON AND V. R. PREEDY	261S
The involvement of catecholamines in hypertension, alcohol and ACE inhibition	V. B. PATEL, L. WATSON, C. J. MATHIAS, P. J. RICHARDSON AND V. R. PREEDY	262S
Changes in composition and polyamine content in the gastrointestinal tract due to pathogenic infection	P. J. NAUGHTON, G. GRANT, A. PUSZTAI AND S. BARDOCZ	263S
Altered renal intermediary metabolism and the onset of renal dysfunction in the streptozotocin diabetic rat	E. JIFFRI, J. BROOM AND P. H. WHITING	264S
Sulphur amino acid derivatives as inhibitors of vitamin B ₁₂ -dependent methionine synthase	S. H. KENYON, M. ALVES, H. NEUBERT, A. NICOLAOU, E. DEL OLMO AND W. A. GIBBONS	265S
Experimental D-penicillamine-induced myopathy	V. R. PREEDY, J. S. MARWAY, D. BALDWIN, A. G. PAICE, J. JONES, W. S. WASSIF AND D. SCOTT	266S
<hr/>		
Hormone group		
Ligand-induced differentiation of glucocorticoid receptor (GR) <i>trans</i> -repression and <i>trans</i> -activation	I. M. ADCOCK AND P. J. BARNES	267S

Glycogen phosphorylase may be activated by AMP-kinase in skeletal muscle	M. E. YOUNG, B. LEIGHTON AND G. K. RADD	268S
Purification of GnSAF from human follicular fluid for production of a monoclonal antibody	R. L. BATES, P. A. FOWLER AND W. T. MELVIN	269S
Characterization of monoclonal antibodies against arginine vasopressin	S. C. SMITH AND N. MCINTOSH	270S
Thyroid hormones in burn-injured children	C. BARCLAY, K. SEDOWFIA, M. THOMSON AND N. MCINTOSH	271S

Muscular dystrophy and allied disorders: research strategies

Evidence for distinct dystrophin C-terminal transcripts in rabbit brain	A. K. SESAY AND F. A. LAI	272S
Detection of germinal mosaicism in a DMD family	S. BULLOCK, C. FELIX, S. ISKANDER-GABRA AND V. DAVISON	273S
Immunogold localization of adhalin, α -dystroglycan and laminin in normal and dystrophic skeletal muscle	M. J. CULLEN, J. WALSH, S. L. ROBERDS AND K. P. CAMPBELL	274S
Retroviral-mediated gene transfer into murine and human skeletal muscle for the correction of dystrophin deficiency	A. FASSATI, P. SERPENTE, D. J. WELLS, F. S. WALSH AND G. DICKSON	275S
Modulation of pre-mRNA splicing in the Duchenne muscular dystrophy gene	M. G. DUNCKLEY, I. C. EPERON AND G. DICKSON	276S
Adenoviral vectors for gene transfer of full-length human dystrophin cDNAs	S. MURPHY, G. TURNER, T. PIPER, B. ROBERTS, S. WADWORTH, A. E. SMITH, D. J. WELLS AND G. DICKSON	277S
Cloning and expression of human S-laminin	A. BUCKEL, D. BEESON, A. VINCENT AND J. NEWSOM-DAVIS	278S
Correction of the dystrophic phenotype by germ-line gene therapy with recombinant dystrophin cDNAs in <i>mdx</i> mice	D. J. WELLS, G. DICKSON AND K. E. WELLS	279S
Low probability of dystrophin and utrophin coiled-coil regions forming dimers	S. J. WINDER, T. J. GIBSON AND J. KENDRICK-JONES	280S
The protein defect in congenital muscular dystrophy	C. A. SEWRY, I. NAOM, M. D'ALESSANDRO, A. FERLINI, J. PHILPOT, E. MERCURI, V. DUBOWITZ AND F. MUNTONI	281S
A search for genes in the facioscapulohumeral muscular dystrophy region	P. K. GREWAL, J. C. T. VAN DEUTEKOM, R. R. FRANTS AND J. E. HEWITT	282S
A 3.7 kb fragment from the myotonic dystrophy protein kinase promoter directs neural-specific expression <i>in vivo</i>	S. K. KING, D. J. WELLS, K. E. WELLS, N. CAREY AND K. J. JOHNSON	283S
Changes in adult muscle phenotype in response to disuse and passive stretch	P. T. LOUGHNA, L. GIBBS, S. BAYOL AND C. BROWNSON	284S

Regulatory peptides in the control of food intake and metabolism

Use of synthetic peptides to produce a variety of fibrin antibodies	D. MCCALLION, C. M. STIRK, S. McNALLY, W. D. THOMPSON AND W. T. MELVIN	285S
Functional characterization of the neuropeptide Y receptor mediating feeding in the rat	A. C. HAYNES, K. A. AL-BARAZANJI, R. E. BUCKINGHAM, J. R. ARCH, A. L. GOTT, S. J. McCLUE AND S. WILSON	286S

Processing of Leu-enkephalin by rat hepatocytes	K. L. MACKINNON, K. A. ZUZEL AND D. BILLINGTON	287S
Concentrations of gut hormones in control and lactating sheep	P. A. MARTIN AND A. FAULKNER	288S
<hr/>		
Ion channels and the regulation of cell activity		
Electrospray ionization mass spectrometry (ESI/MS) of ceroid lipofuscin protein: a model system for the study of F ₀ inhibitor interactions with mitochondrial subunit C	E. M. RYAN, A. BUZY, D. E. GRIFFITHS, K. R. JENNINGS AND D. N. PALMER	289S
Electrospray ionization mass spectrometry (ESI/MS) studies of organotin interactions with ceroid lipofuscin protein (subunit C)	E. M. RYAN, A. BUZY, D. E. GRIFFITHS, K. R. JENNINGS AND D. N. PALMER	290S
The transmembrane structure of I _{sk} potassium channel	A. SIVAPRASADARAO, D. WRAY AND J. B. C. FINDLAY	291S
Effects of aliphatic alcohols on the ER calcium pumps and IP ₃ receptors from porcine cerebellum	M. MEZNA, T. PATCHICK, S. TOVEY AND F. MICHELANGELI	292S
Can phenolic plasticizing agents affect testicular development by disturbing intracellular calcium homoeostasis?	F. MICHELANGELI, S. TOVEY, D. A. LOWES, R. F. I. TIEN, M. MEZNA, H. McLELLAN AND P. HUGHES	293S
Actions of the anticonvulsant agent 2-amino-4-phosphonobutyrate on the release of [³ H]D-aspartate from rat forebrain slices	J. SUNDARALINGAM, D. R. PATEL AND M. J. CROUCHER	294S
Characterization of <i>N</i> -methyl-D-aspartate (NMDA)-induced kindling	M. J. CROUCHER, K. L. COTTERELL AND H. F. BRADFORD	295S
<hr/>		
Bioenergetics group		
Redox regulation of RNA synthesis in plant mitochondria	S. B. WILSON AND C. K. PEARSON	296S
Molecular modelling of the pore of potassium channels by restraints-directed distance geometry	I. D. KERR AND M. S. P. SANSOM	297S
<hr/>		
Peptide and protein science group		
Tyrosine dephosphorylation in the gut	M. J. KING, D. ORBAN AND T. MOYANA	298S
FTIR spectroscopic analysis of the structure and stability of pig citrate synthase	F. SEVERCAN, P. I. HARRIS, R. J. HEATON AND D. CHAPMAN	299S
Modulation of cell proliferation by fibrin degradation products	C. M. STIRK, S. McNALLY, M. NAITO, D. McCALLION, W. D. THOMPSON AND W. T. MELVIN	300S
Evaluation of tumour-associated antigens and total sialic acid levels in effusions of malignant and benign origin	Ç. YENISEY, S. YENİCE, G. GÜNER AND S. GÜNER	301S
Serum MCA, CA 125 and CA 19.9 determination in primary breast cancer	Ç. YENISEY AND G. GÜNER	302S
Lipid mimetics as inhibitors of human platelet phospholipase A ₂	C. NOULA, V. CONSTANTINO, A. NICOLAOU, W. A. GIBBONS AND G. KOKOTOS	303S
Development of a radioimmunoassay to a fragment of vasostatin II	R. T. CUNNINGHAM, W. J. CURRY, C. F. JOHNSTON AND K. D. BUCHANAN	304S
Lipid-helix interactions in membrane receptors	M. ZLOH AND W. A. GIBBONS	305S

Biochemical immunology group		
Immunohistochemical analysis of p185 in normal and transformed human tissues	R. PAGANI, B. PORCELLI, B. FROSI, M. PIZZICHINI, R. VERNILLO, A. DE MARTINO, L. AREZZINI AND E. MARINELLO	306S
Immunodominant regions of the extracellular domain of the bovine growth hormone receptor	J. BEATTIE, J. H. SHAND, C. BURNS AND D. J. FLINT	307S
Faecal calprotectin: non-invasive marker of gastrointestinal inflammation in salmonella-infected rats	P. J. NAUGHTON, P. A. CLOHESSY, G. GRANT, A. PUSZTAI AND B. GOLDEN	308S
The mechanism of calprotectin's candidastatic activity appears to involve zinc chelation	P. A. CLOHESSY AND B. E. GOLDEN	309S
Elevated plasma levels of LI _L and LI _H in CF patients	P. A. CLOHESSY AND B. E. GOLDEN	310S
Microbiostatic activity of human plasma and its relation to zinc and iron availability	P. A. CLOHESSY AND B. E. GOLDEN	311S
Some effects of fluoride on the IgA protease of the oral bacterium <i>Streptococcus sanguis</i>	R. DUGUID AND B. SENIOR	312S
Construction of a single-chain Fv from an antibody which catalyses a Diels Alder cycloaddition	L. BROOKS, C. J. SUCKLING AND W. H. STIMSON	313S
Phage antibodies: new technology to obtain monoclonal antibodies to the multidrug-resistance gene product P-glycoprotein	S. McLAREN, C. CUNNINGHAM AND C. K. PEARSON	314S
Cytokine mRNA profiles of normal and asthmatic peripheral blood cells and endobronchial biopsies	C. M. GELDER, P. J. BARNES, B. J. O'CONNOR, K. F. CHUNG AND I. M. ADCOCK	315S
T-cell receptor repertoire in peripheral blood and bronchial biopsies from normal and asthmatic subjects	C. M. GELDER, J. F. J. MORRISON, K. F. CHUNG, P. J. BARNES AND I. M. ADCOCK	316S
Molecular enzymology group		
Kidney and urine enzyme activity in experimental gentamicin nephrotoxicity in the Sprague-Dawley rat	D. BROWN, J. BROWN AND P. H. WHITING	317S
Muscle protein release following downhill walking	W. FORRESTER, R. J. MAUGHAN, J. BROWN AND P. H. WHITING	318S
HIV-1 virus-infected T-lymphocytes. The behaviour of purine metabolism	F. CARLUCCI, A. TABUCCHI, E. MARINELLO AND A. NUCCOLINI	319S
Purification and kinetic properties of cardiac calmodulin-dependent cyclic nucleotide PDE (PDE-1)	J. C. CLAPHAM AND A. F. WILDERSPIN	320S
Serum copper and ceruloplasmin concentrations in patients with primary breast cancer	Ç. YENİSEY, M. FADİOĞLU AND B. ÖNVURAL	321S
Glutathione S-transferase of human kidney: are there gender-related quantitative differences?	V. RODILLA, A. A. BENZIE AND G. M. HAWKSWORTH	322S
The accessibility of proteins in protein-SDS complexes	C. J. LAW AND N. C. PRICE	323S
The reaction of phosphoglycerate mutase from <i>Schizosaccharomyces pombe</i> with diethylpyrocarbonate	R. M. PRICE, J. NAIRN, N. C. PRICE AND L. A. FOTHERGILL-GILMORE	324S
Isocyanate inactivation of yeast glutathione reductase and its modulation by oxidized glutathione and NADPH	K. J. BAYLOR AND J. J. A. HEFFRON	325S

Molecular and cellular pharmacology group		
Glutathione S-transferases in cultured human proximal tubular cells	A. M. HYNES, G. M. HAWKSWORTH AND V. RODILLA	326S
Differential expression of CYP1A1 and CYP1B1 in human breast cancer	J. A. MCKAY, G. I. MURRAY, A. K. AH-SEE, W. F. GREENLEE, C. B. MARCUS, M. D. BURKE AND W. T. MELVIN	327S
Cytochrome P-450 1B1 expression in human malignant tumours	M. C. TAYLOR, J. A. MCKAY, G. I. MURRAY, W. F. GREENLEE, C. B. MARCUS, M. D. BURKE AND W. T. MELVIN	328S
Expression of matrix metalloproteinases in colorectal cancer	M. E. DUNCAN, G. I. MURRAY, P. O'NEIL, W. T. MELVIN AND J. E. FOTHERGILL	329S
Molecular cloning and expression of cDNAs for rat and human kidney cysteine conjugate β -lyase	P. GOLDFARB, S. PERRY, H. HARRIES, C. SCHOLFIELD, T. LOCK, L. KING AND G. GIBSON	330S
Glycobiology group		
Inflammatory α -1-acid glycoprotein shows an altered reactivity to the lectin Concanavalin A	M. A. ELLIOTT, H. G. ELLIOTT, M. DOUGLAS, K. GALLAGHER, J. WATSON AND K. D. SMITH	331S
The anti-proliferative effect of α -1-acid glycoprotein from Hep G2 cell line on mononuclear leucocytes	H. G. ELLIOTT, M. A. ELLIOTT, K. GALLAGHER, J. WATSON, L. STEELE AND K. D. SMITH	332S
Membrane group		
Interaction between anionic amino acids and the mammary tissue (Na^+ -glutamate) cotransporter	I. D. MILLAR, D. T. CALVERT, M. A. LOMAX AND D. B. SHENNAN	333S
The effect of non-steroidal anti-inflammatory drugs on volume-activated amino acid transport	P. HAWKINS AND D. B. SHENNAN	334S
Mammary tissue protein synthesis is regulated by cell volume	I. D. MILLAR, M. A. LOMAX AND D. B. SHENNAN	335S
Neurochemical group		
Sample handling techniques for analysis of Neurokinin A in human saliva	F. T. LUNDY, C. SHAW AND P.-J. LAMEY	336S
