

colloquia

658th Meeting Liverpool

colloquium: RNA Interactions: Ribozymes and Antisense

The hammerhead ribozyme	F. ECKSTEIN	601
Molecular palaeontology: understanding catalytic mechanisms in the RNA world by excavating clues from a ribozyme three-dimensional structure	W. G. SCOTT	604
Hairpin ribozyme: current status and future prospects	J. M. BURKE	608
Facilitators of RNA–RNA annealing: implications for the catalytic cycle of hammerhead ribozymes	W. NEDBAL AND G. SCZAKIEL	615
Ribonuclease H-mediated antisense effects in intact human leukaemia cells	D. M. TIDD	619
Antisense oligonucleotides as inhibitors of signal transduction: development from research tools to therapeutic agents	N. M. DEAN, R. MCKAY, L. MIRAGLIA, T. GEIGER, M. MÜLLER, D. FABBRO AND C. F. BENNETT	623
Second-generation antisense oligonucleotides: structure–activity relationships and the design of improved signal-transduction inhibitors	K.-H. ALTMANN, D. FABBRO, N. M. DEAN, T. GEIGER, B. P. MONIA, M. MÜLLER AND P. NICKLIN	630

colloquium: Molecular Mechanisms of Neurotransmitter Release

Regulation of the synaptic vesicle cycle in <i>Drosophila</i>	K. S. BROADIE	639
Role of protein kinases in nerve terminal maturation and function	E. VALTORTA, F. BENFENATI AND H. BASUDEV	645
SNAPs and SNAREs in exocytosis in chromaffin cells	R. D. BURGOYNE, A. MORGAN, R. J. O. BARNARD, L. H. CHAMBERLAIN, D. E. GLENN AND A. V. KIBBLE	653
Role of Rab3a in neurotransmitter and hormone release: a discussion of recent data	J.-P. HENRY, L. JOHANNES, F. DOUSSEAU, B. POULAIN AND F. DARCHEN	657
Mammalian Unc-13 homologues as possible regulators of neurotransmitter release	A. BETZ, I. TELEMENAKIS, K. HOFMANN AND N. BROSE	661
Protein–protein interactions in synaptic vesicle exocytosis	V. O'CONNOR, L. PELLEGRINI, T. DRESBACH, K. BOMMERT, O. EL FAR, H. BETZ, W. DEBELLO, J. M. HUNT, F. SCHWEIZER, G. AUGUSTINE AND M. P. CHARLTON	666
SNAP-25, enSNAREd in neurotransmission and regulation of behaviour	M. C. WILSON, P. P. MEHTA AND E. J. HESS	670

colloquium: Function and Pharmacology of Protein Prenylation

Organization of isoprenoid biosynthesis	I. PARMRYD AND G. DALLNER	677
Chemical biology of isoprenylation/methylation	R. R. RANDO	682
Farnesyltransferase inhibitors: a new class of cancer chemotherapeutics	K. S. KOBLAN, N. E. KOHL, C. A. OMER, N. J. ANTHONY, M. W. CONNER, S. J. DESOLMS, T. M. WILLIAMS, S. L. GRAHAM, G. D. HARTMAN, A. OLIFF AND J. B. GIBBS	688
Rational design of Ras prenyltransferase inhibitors as potential anticancer drugs	S. M. SEBTI AND A. D. HAMILTON	692
Geranylgeranylation of Rab proteins	L. DESNOYERS, J. S. ANANT AND M. C. SEABRA	699
Prenylation-dependent interaction of Rab proteins with GDP dissociation inhibitors	W. A. MALTESE, A. L. WILSON AND R. A. ERDMAN	703
C-Terminal motifs found in Ras-superfamily G-proteins: CAAX and C-seven motifs	K. DEL VILLAR, D. DORIN, I. SATTLER, J. URANO, P. POULLET, N. ROBINSON, H. MITSUZAWA AND F. TAMANOI	709
Lipid modifications of G-protein-coupled receptor kinases	J. INGLESE AND R. T. PREMONT	714
M-factor, a farnesylated mating factor from the fission yeast <i>Schizosaccharomyces pombe</i>	J. DAVEY	718
Retinoylation of proteins in mammalian cells	T. R. BREITMAN AND N. TAKAHASHI	723

colloquium: Interaction of Photosynthesis and Respiration

Structure–function relationships in the dual-function photosynthetic–respiratory electron-transport assembly of cyanobacteria (blue–green algae)	G. A. PESCHEK	729
Biogenesis of the electron-transfer complexes in <i>Chlamydomonas reinhardtii</i>	M. TURNER, N. GUMPEL, L. RALLEY, V. LUMBRERAS AND S. PURTON	733
Detection and characterization of a complex I-like NADH-specific dehydrogenase from pea thylakoids	L. A. SAZANOV, P. BURROWS AND P. J. NIXON	739
Role of NAD⁺-dependent ‘malic’ enzyme and pyruvate dehydrogenase complex in leaf metabolism	S. HILL, B. WINNING, H. JENNER, C. KNORPP AND C. LEAVER	743
Developmental regulation of respiratory activity and protein import in plant mitochondria	C. K. WOOD, P. DUDLEY, M. S. ALBURY, C. AFFOURTIT, G. R. LEACH, J. R. PRATT, D. G. WHITEHOUSE AND A. L. MOORE	746
Protein targeting and translocation in cyanobacterial membrane biogenesis	C. J. HOWE, A. C. BARBROOK AND J. C. L. PACKER	750
A specific porin is involved in the malate shuttle of leaf peroxisomes	S. REUMANN, E. MAIER, R. BENZ AND H. W. HELDT	754
Use of barley mutants to study the control of photorespiratory metabolism	R. C. LEEGOOD, P. J. LEA AND R. E. HÄUSLER	757

Function of the chloroplastic malate valve for respiration during photosynthesis	S. KRÖMER AND R. SCHEIBE	761
A role for glucose-6-phosphate dehydrogenase in short- and long-term regulation of photosynthetic and respiratory carbon and nitrogen metabolism in nitrogen-limited <i>Chlamydomonas reinhardtii</i>	H. C. HUPPE AND D. H. TURPIN	767

colloquium: Bioactive Components of Food

Overview of bioactive compounds in foods	T. A. B. SANDERS	771
Bioavailability of dietary minerals	S. J. FAIRWEATHER-TAIT	775
The metabolism of dietary nitrites and nitrates	R. WALKER	780
Role of dietary flavonoids in protection against cancer and coronary heart disease	P. C. H. HOLLMAN, M. G. L. HERTOOG AND M. B. KATAN	785
Antioxidant activities of flavonoids as bioactive components of food	C. A. RICE-EVANS AND N. J. MILLER	790
Role of dietary phyto-oestrogens in the protection against cancer and heart disease	H. WISEMAN	795
Intake levels, sites of action and excretion routes of the cholesterol-elevating diterpenes from coffee beans in humans	R. URGERT, T. G. KOSMEIJER-SCHUIL AND M. B. KATAN	800
Chemoprotection against cancer by isothiocyanates and glucosinolates	P. TALALAY AND Y. ZHANG	806
Allium vegetables: their role in the prevention of cancer	M. J. WARGOVICH, N. UDA, C. WOODS, M. VELASCO AND K. MCKEE	811
Bioactive lipids in foods	P. C. CALDER	814
Substrates for fermentation in the large bowel	I. T. JOHNSON	824
Opportunities for the genetic manipulation of antioxidants in plant foods	P. M. MULLINEAUX AND G. P. CREISSEN	829

colloquium: Mammalian Amino Acid Transporters and their Regulation

Mammalian amino acid transporters and their regulation: introduction	J. D. MCGIVAN	837
Rat placental amino acid transport after protein-deprivation-induced intrauterine growth retardation	M. S. MALANDRO, M. J. BEVERIDGE, D. A. NOVAK AND M. S. KILBERG	839
Structure/function relationships in glutamate transporters	B. I. KANNER	843
Regulation of cationic amino acid transporter (CAT) gene expression	C. L. MACLEOD	846

Transcriptional regulation of the betaine/ γ-aminobutyric acid transporter by hypertonicity	H. M. KWON	853
Role of the b⁰⁺-like amino acid-transport system in the renal reabsorption of cystine and dibasic amino acids	M. PALACÍN, J. CHILLARÓN AND C. MORA	856
Modulation of transport systems for neutral and anionic amino acids in mesenchymal cells	V. DALL'ASTA, R. FRANCHI-GAZZOLA, O. BUSSOLATI, R. SALA, B. M. ROTOLI, P. A. ROSSI, J. UGGERI, S. BELLETTI, R. VISIGALLI AND G. C. GAZZOLA	864
Amino acid transport in heart and skeletal muscle and the functional consequences	M. J. RENNIE, S. E. O. KHOGALI, S. Y. LOW, H. E. McDOWELL, H. S. HUNDAL, A. AHMED AND P. M. TAYLOR	869

**colloquium: Keeping the Cell Reduced: Enzymes Influencing Redox
Reactions**

Nitric oxide synthases	R. G. KNOWLES	875
Evolution of glutathione transferases and related enzymes for the protection of cells against electrophiles	B. MANNERVIK	878
Glutathione in disease	J. J. HARDING, R. BLAKYTYN AND E. GANEA	881
The intracellular reducing environment modulates cytoregulation and cytotoxicity by reactive oxygen species	D. T.-Y. CHIU, H. P. MONTEIRO AND A. STERN	884
Aldose reductase: monosaccharide autoxidation and NADPH binding	M. J. C. CRABBE	888

colloquium: Biochemical Mass Spectrometry

A strategy for identifying gel-separated proteins in sequence databases by MS alone	AN. SHEVCHENKO, M. WILM, O. VORM, O. N. JENSEN, A. V. PODTELEJNIKOV, G. NEUBAUER, AL. Shevchenko, P. Mortensen and M. Mann	893
Matrix-assisted laser desorption ionization MS: a progress report	M. KARAS	897
DNA sequence analysis by matrix-assisted laser desorption ionization MS	L. A. HAFF AND I. P. SMIRNOV	901
Identification of oligosaccharides by matrix-assisted laser desorption ionization and electrospray MS	D. J. HARVEY, T. J. P. NAVEN AND B. KÜSTER	905
Analysis of hydrophobic proteins and peptides by electrospray ionization MS	I. M. FEARNLEY AND J. E. WALKER	912
The use of electrospray ionization MS to determine the structure of glycans in intact glycoproteins	R. W. A. OLIVER, B. N. GREEN AND D. J. HARVEY	917

Use of continuous-flow combustion MS in studies of human metabolism	M. J. RENNIE, W. MEIER-AUGENSTEIN, P. W. WATT, A. PATEL, I. S. BEGLEY AND C. M. SCRIMGEOUR	927
The use of automated electrospray ionization tandem MS for the diagnosis of inborn errors of metabolism from dried blood spots	A. W. JOHNSON, K. MILLS AND P. T. CLAYTON	932
Qualitative and quantitative MS analysis of cyclic nucleotides and related enzymes	R. P. NEWTON	938
Applications of sustained off-resonance irradiation (SORI) and quadrupolar excitation axialization (QEA) for the characterization of biomolecules by Fourier-transform mass spectrometry (FTMS)	V. C. M. DALE, J. P. SPEIR, G. H. KRUPPA, C. C. STACEY, M. MANN AND M. WILM	943
Use of HPLC with inductively coupled plasma mass spectrometry (ICP-MS) for trace element speciation studies in biological materials	L. M. OWEN, A. M. RAUSCHER, S. J. FAIRWEATHER-TAIT AND H. M. CREWS	947

Mammary development and cancer		
Neutral endopeptidase activity in breast cysts	K. ARMSTRONG, N. BANERJEE, M. GHILCHICK, M. J. REED AND D. C. PARISH	337S
Protein kinase C does not acutely modulate protein kinase A activity in mammary gland acini prepared from mid-pregnant and mid-lactating rats	P. C. GORDGE, S. E. WITHERS, K. CONNOR, W. R. MILLER AND R. A. CLEGG	338S
The glycosylation of human recombinant α -1-antitrypsin expressed in transgenic mice	P. A. KEMP, N. JENKINS, A. J. CLARK AND R. B. FREEDMAN	339S
<i>S100A3</i> mRNA expression displays an inverse correlation to breast cancer progression	B. H. LLOYD, C. RUDELL, P. S. RUDLAND AND R. BARRACLOUGH	340S
Protein interactions between <i>S100A4</i> (p9Ka) and other cellular proteins identified using <i>in vitro</i> methods	A. M. FLYNN, P. S. RUDLAND AND R. BARRACLOUGH	341S
A growth factor activity in bovine milk	Q.-M. LIU, M. C. WILKINSON AND J. A. SMITH	342S
Oestrogen and insulin interact at the level of transcription in breast cancer cells	M. K. K. EL-TANANI AND C. D. GREEN	343S
Synergism between oestradiol and cAMP for specific gene transcription in breast cancer cells	M. K. K. EL-TANANI AND C. D. GREEN	344S
Extracellular matrix controls the prolactin signalling pathway in mammary epithelial cells	G. M. EDWARDS, F. H. WILFORD AND C. H. STREULI	345S
The differential expression of desmocollin isoforms in mammary epithelia	S. K. RUNSWICK, D. R. GARROD AND C. H. STREULI	346S
Programmed cell death and the mammary gland – the involvement of the Bcl-2 family members in the control of epithelial apoptosis	A. D. METCALFE, J. A. HICKMAN AND C. H. STREULI	347S
The role of the extracellular matrix and lactogenic hormones in mammary gland apoptosis	N. GOBERDHAN, C. DIVE AND C. H. STREULI	348S
Requirement for β 1 integrins in the development of mouse mammary gland	T. C. M. KLINOWSKA, G. BROOMHEAD AND C. H. STREULI	349S
The choline content of human breast milk expressed during the first few weeks of lactation	H. C. HOLMES, G. J. A.I. SNODGRASS AND R. A. ILES	350S
Hormonal control of transcription from two mammary-specific promoters in a rat mammary epithelial cell line	I. C. KILTY, P. S. RUDLAND AND R. BARRACLOUGH	351S
Regulatory elements in the first intron of the rat <i>S100A4</i> (p9Ka) gene	D.-S. CHEN AND R. BARRACLOUGH	352S
The identification of metastasis-related gene products in a rodent mammary tumour model	A. J. OATES, R. BARRACLOUGH AND P. S. RUDLAND	353S
Identification of the region(s) of human DNA responsible for metastasis in breast cancer	H.-J. CHEN, Y. KE, R. BARRACLOUGH AND P. S. RUDLAND	354S
Heparan sulphate in breast cancer cells	H. RAHMOUNE, J. E. TURNBULL, J. T. GALLAGHER, P. S. RUDLAND AND D. G. FERNIG	355S
Growth and mammary abnormalities in mice containing an altered calcium-binding protein transgene	M. P. A. DAVIES, S. HARRIS, P. S. RUDLAND AND R. BARRACLOUGH	356S
Identification of cell types in the developing goat mammary gland	P. LI, D. G. FERNIG, P. S. RUDLAND, L. M. B. FINCH AND C. J. WILDE	357S

Potential of the growth-stimulatory effects of aFGF by heparin in Rama 27 fibroblasts	H.-L. CHEN, J. A. SMITH, P. S. RUDLAND AND D. G. FERNIG	358S
Overexpression of insulin-like growth factor II alters serum sensitivity of breast cancer cells	D. CORCORAN, A. PERACHIOTTI AND P. D. DARBRE	359S
Prolactin modulates G-protein levels in the rat mammary gland	E. KILGOUR	360S
Induction of a variant acetyl-CoA carboxylase mRNA in ovine mammary gland during lactation	M. C. BARBER AND M. T. TRAVERS	361S
3,4,3',4'-Tetrachlorobiphenyl acts as an oestrogen and can promote breast tumour growth	K. NESARETNAM, R. DILS AND P. D. DARBRE	362S
Association between insulin-like growth factor receptors and cell density in breast cancer cells	C. LARSEN AND P. D. DARBRE	363S
Overexpression of insulin-like growth factor II in human breast cancer cells	K. ABDUL-WAHAB, A. PERACHIOTTI, D. CORCORAN AND P. D. DARBRE	364S
Retinoic acid inhibits growth of breast cancer cells in the short term but not the long term	R. STEPHEN, D. CORCORAN AND P. D. DARBRE	365S
Mechanism of action of interferon on oestrogen receptor function	A. P. F. FLINT, D. R. E. ABAYASEKARA, P. R. RILEY, E. L. SHELDRIK AND A. M. CLARKSON	366S
Isolation, characterization and hormone-dependent expression of the porcine whey acidic protein	K. J. SIMPSON, P. BIRD, D. SHAW AND K. NICHOLAS	367S
Biphasic effect of thrombospondin-I (TSP-I) in the regulation of angiogenesis in human breast carcinoma	S. PAZOUKI, N. PENDLETON, E. HEERKENS, R. L. SMITHER, J. V. MOORE AND A. M. SCHOR	368S
Primary culture of ovine mammary epithelial cells	L. M. B. FINCH, V. A. CRAIG, A. L. KIND, A. SCHNIEKE, A. SCOTT, M. WELLS AND C. J. WILDE	369S
Differential regulation of members of the family of signal transducers and activators of transcription during mammary gland development	J. A. C. PHILP, T. G. BURDON AND C. J. WATSON	370S
Derivation of conditionally immortal mammary epithelial cell lines	K. E. GORDON, B. BINAS, R. WALLACE, A. J. CLARK AND C. J. WATSON	371S
Identification of transcripts showing differential expression in the developing mammary gland using differential display	A.-P. MACLAREN, D. MCBRIDE, C. J. WATSON AND M. CLINTON	372S
Epidermal growth factor-regulated signal transduction in hormone-dependent and -independent breast cancer	N. AKHTAR, D. LINSTAD AND M. J. O. WAKELAM	373S
Evidence that intracellular phosphatidate may regulate breast cancer cell invasion and metastasis	P. G. DE TAKATS, A. MARTIN, J. L. REYNOLDS, D. J. KERR AND M. J. O. WAKELAM	374S

Bioactive components of food

Identification of pro-oxidant or antioxidant characteristics of proteins and enzymes in membranes; use of liposome-entrapped proteins and other thiol-containing compounds	E. STRAGHAN, G. SHARMA, P. GOLDFARB AND A. WISEMAN	375S
Is there an optimal membrane protein content determined by membrane stability to lipid peroxidation? Disease and ageing consideration	A. WISEMAN AND P. GOLDFARB	376S

Investigation of the role of protein kinase C inhibition in the calcium-independent relaxant effects of oestrogens on isolated rat aorta	H. BABAEI, A. T. EVANS, G. IRVING AND J. R. MCCURRIE	377S
Production of extracellular lignocellulose-degrading enzymes by <i>Thermomonospora fusca</i> BD25	M. TUNCER, A. ROB, A. S. BALL AND M. T. WILSON	378S
Release of the bioactive compound ferulic acid from malt extracts	B. BARTOLOME, M. T. GARCIA-CONFESA AND G. WILLIAMSON	379S
Effect of ethoxyquin on glutathione levels and peroxidizability of rat liver membranes	G. W. PLUMB, N. LAMBERT, S. J. CHAMBERS, H. L. CLARKE, M. M. MANSON, G. NEAL AND G. WILLIAMSON	380S
Allyl isothiocyanate selectively kills undifferentiated HT29 cells <i>in vitro</i> and suppresses aberrant crypt foci in the colonic mucosa of rats	T. SMITH, S. R. R. MUSK AND I. T. JOHNSON	381S
Raw starch digestion	C. S. M. FURNISS AND G. WILLIAMSON	382S
Glucosinolates as bioactive components of brassica vegetables: induction of cytochrome <i>P</i> -450 1A1 in Hep G2 cells as assessed using transient transfection	G. WILLIAMSON, H. WANG AND S. GRIFFITHS	383S
Solubilization of ferulic acid from plant cell-wall materials in a model human gut system	P. A. KROON, C. B. FAULDS, P. RYDEN AND G. WILLIAMSON	384S
Can carotenoids reduce oxidation-induced cataract?	J. SANDERSON, W. R. McLAUCHLAN AND G. WILLIAMSON	385S
A major bioactive component of plant cell walls, ferulic acid, influences feruloyl esterase production in <i>Aspergillus niger</i>	C. B. FAULDS AND G. WILLIAMSON	386S
Dietary β -carotene supplementation modulates the production of tumour necrosis factor- α by human monocytes	D. A. HUGHES, P. M. FINGLAS, A. J. A. WRIGHT, A. C. J. PEERLESS, A. L. BAILEY, S. B. ASTLEY AND S. SOUTHON	387S
β -carotene supplementation enhances the expression of functionally associated molecules on human monocytes	D. A. HUGHES, A. J. A. WRIGHT, P. M. FINGLAS, A. C. J. PEERLESS, A. L. BAILEY, S. B. ASTLEY, A. C. PINDER AND S. SOUTHON	388S
Influence of <i>n</i> -3 polyunsaturated fatty acids (PUFA) on the antigen-presenting function of human monocytes	D. A. HUGHES AND A. C. PINDER	389S
Antioxidant properties of ethanolic and aqueous extracts of green tea compared with black tea	H. WISEMAN, P. PLITZANOPOULOU AND J. O'REILLY	390S
Potent antioxidant properties of novel apple-derived flavonoids with commercial potential as food additives	T. RIDGWAY, J. O'REILLY, G. WEST, G. TUCKER AND H. WISEMAN	391S
Inhibition of liposomal lipid peroxidation by isoflavonoid-type phyto-oestrogens from soybeans of different countries of origin	H. WISEMAN, P. LIM AND J. O'REILLY	392S
Effect of processing on saponin content and composition of chickpeas	R. G. RUIZ, K. R. PRICE, G. R. FENWICK AND M. J. C. RHODES	393S
Development of an immunoassay to measure the absorption of dietary furanocoumarins in humans	P. I. CREEKE, M. P. CAMAÑEZ GINESTAR, H. A. LEE, M. R. A. MORGAN, K. R. PRICE, M. J. C. RHODES AND A. P. WILKINSON	394S

Industrial biochemistry and biotechnology group		
Interaction of immobilized food-dye residues with gut proteins	L. JERVIS	395S
Contribution of α -tocopherol in HDL3 to inhibition of LDL oxidation by human macrophages	A. GRAHAM AND J. S. OWEN	396S
Effect of flavones on glucose-induced changes in human serum albumen	P. J. COUSSONS, J. JACOBY, J. T. SKAMARAUSKAS AND J. V. HUNT	397S
Interaction of photosynthesis and respiration		
Characterization and electron-transfer kinetics of wild-type and a mutant <i>bf</i> complex in <i>Chlamydomonas reinhardtii</i>	ONDÁRROA, F. ZITO, G. FINAZZI, P. JOLIOT, F.-A. WOLLMAN AND P. R. RICH	398S
Effect of trampling on photosynthesis and respiration in <i>Plantago lanceolata</i>	J. D. MILLS, J. STEVENSON, J. NICHOLLS AND T. POLWART	399S
Bioenergetics group		
Does the cytochrome <i>bd</i> terminal oxidase complex have a 'pulsed' form?	S. JÜNEMANN AND P. R. RICH	400S
Nitrogenase-specific proteolytic activity in the unicellular cyanobacterium <i>Gloeotheca</i>	L. J. DOUGHERTY, E. G. BROWN AND J. R. GALLON	401S
Regulation of photosynthetic enzymes in light- or dark-grown cyanobacterium <i>Nostoc</i> sp. Mac	P. A. AUSTIN, I. S. ROSS AND J. D. MILLS	402S
What's the use of biochemistry practicals?		
Problem-based biochemistry practicals for students of environmental and marine biology	L. JERVIS AND P. MORRIS	403S
Glycobiology group		
Characterization of alginates from mucoid strains of <i>Pseudomonas aeruginosa</i>	P. J. TATNELL, N. J. RUSSELL, J. R. W. GOVAN AND P. GACESA	404S
Overexpression of the GDP-mannose dehydrogenase gene from <i>Pseudomonas aeruginosa</i>	P. J. TATNELL, N. J. RUSSELL AND P. GACESA	405S
Colonization of cystic fibrosis patients by non-mucoid <i>Pseudomonas aeruginosa</i> - characterization of the alginast from mucoid variants	P. J. TATNELL, N. J. RUSSELL, J. R. W. GOVAN AND P. GACESA	406S
Expression of the <i>Klebsiella pneumoniae</i> alginate lyase gene in <i>Pseudomonas aeruginosa</i> – effect on alginate structure	P. J. TATNELL, J. B. GOLDBERG AND P. GACESA	407S
RNA interactions: ribozymes and antisense		
Uptake and effects of antisense oligodeoxynucleotides specific for rat metallothionein-1 and -2 mRNA in H4 rat hepatoma cells in culture	M. H. VASCONCELOS, S.-C. TAM, J. H. BEATTIE AND J. E. HESKETH	408S
Specificity of ribozymes against the <i>bcr-abl</i> mRNAs <i>in vitro</i>	H. A. JAMES, C. M. TWOMEY, K. I. MILLS AND I. GIBSON	409S
Antisense oligonucleotide-mediated inhibition of mutant p53 expression	C. J. RUDDALL, J. A. GREEN AND D. M. TIDD	410S

Real-time imaging of transcription in living cells and tissues	M. R. H. WHITE, C. D. WOOD AND A. J. MILLAR	411S
Molecular interactions in the RNA bacteriophage MS2	N. J. STONEHOUSE, D. J. SCOTT S. FONESCA, J. MURRAY, C. ADAMS, A. R. CLARKE, K. VALEGÅRD, R. GOLMOHAMMADI, S. VAN DEN WORM, L. LILJAS AND P. G. STOCKLEY	412S
Development of a novel drug-delivery system using bacteriophage MS2 capsids	M. WU, W. L. BROWN, H. R. HILL AND P. G. STOCKLEY	413S

Nucleic acids and molecular biology group

Sequence analysis of the capsid gene of feline calicivirus strain F65	M. A. GLENN, R. M. GASKELL AND P. C. TURNER	414S
Characterization of transcription factors in African swine fever virus	T. BAXTER, M. C. WILKINSON, P. C. TURNER AND L. K. DIXON	415S
Evolutionary relationships between gibbon subgenera inferred from DNA sequence data	L. M. HALL, D. JONES AND B. WOOD	416S
The cyanobacterium <i>Anabaena flos-aquae</i> possesses diadenosine 5', 5 ^m -Pft ⁴ , P ⁴ -tetraphosphate (Ap ₄ A) phosphorylase activity	A. G. MCLENNAN, E. MEYERS AND D. G. ADAMS	417S
Molecular cloning of diadenosine 5', 5 ^m -P ¹ , P ⁴ -tetraphosphate pyrophosphohydrolase (Ap ₄ A hydrolase) from porcine small intestine: relationship to other enzymes of Ap ₄ A catabolism	S. HANKIN, A. K. WINTERØ AND A. G. MCLENNAN	418S
GTP:GTP guanylyltransferase activity from encysted embryos of the brine shrimp <i>Artemia</i> is associated with a single 110 kDa polypeptide	J. L. CARTWRIGHT AND A. G. MCLENNAN	419S
Action of DNA gyrase at RIP elements in <i>E. coli</i>	S. CLARKSON AND A. D. BATES	420S
The structure and mechanism of DNA gyrase from divergent bacterial species	D. S. GILCHRIST AND A. D. BATES	421S
Identification and interpretation of latent periodicity within DNA sequences	D. A. PHOENIX AND E. KOROTKOV	422S
Gene transfer into cultured bovine ciliary epithelial cells using adenovirus vectors	V. E. WALKER, J. M. ROWE, M. G. CASTRO AND T. J. C. JACOB	423S
Analysis of the 5'-flanking region of the rat phenylalanine hydroxylase gene	I. L. MCDOWALL AND M. J. FISHER	424S

Molecular mechanisms of neurotransmitter release

Differences in the amount of glutamate released by neonatal and adult synaptosomes under conditions of <i>in vitro</i> ischaemia/reperfusion	J. KEELAN, T. E. BATES AND J. B. CLARK	425S
The effect of down-regulation and long-term inhibition of protein kinase C on noradrenaline secretion in the neuroblastoma cell line SH-SY5Y	N. A. TURNER, J. H. WALKER AND P. F. T. VAUGHAN	426S
Translocation of the PKC isoforms present in the human neuroblastoma, SH-SY5Y, following short-term treatment with the phorbol ester PMA	A. R. GOODALL, J. H. WALKER AND P. F. T. VAUGHAN	427S

The occurrence of noradrenaline and neuropeptide Y in large dense-cored vesicles in the human neuroblastoma SH-SY5Y	K. DANKS, J. H. WALKER AND P. F. T. VAUGHAN	428S
The target of PKC-induced suppression of adenosine inhibition of glutamate release from synaptosomes is downstream of the A1 receptor and G-protein coupling	D. C. BUDD, D. G. NICHOLLS AND M. McLAUGHLIN	429S
Transmitter exocytosis in cultured cerebellar granule cells stimulated with an applied electrical field	M. A. COUSIN, H. HURST, B. HELD AND D. G. NICHOLLS	430S
A role for presynaptic AMPA receptors in the enhancement of neuronal glutamate release by kainic acid	D. R. PATEL AND M. J. CROUCHER	431S

Function and pharmacology of protein prenylation

Isolation of <i>ptb1</i> , a gene for the β -subunit of a prenyltransferase from fission yeast	R. GODFREY AND J. DAVEY	432S
Protein isoprenylation in <i>Trypanosoma brucei brucei</i>	H. FIELD, I. BLENCH, S. CROFT AND M. C. FIELD	433S
Carbon sources for fatty acid and sterol biosynthesis in <i>Leishmania</i> species	M. L. GINGER, M. L. CHANCE AND L. J. GOAD	434S

Lipid group

Activation of 12- and 15-lipoxygenase in the cardiopulmonary system by haemorrhagic events	J. M. BAILEY, R. LEE AND T. SIMON	435S
Purification of the enzymes of ecdysteroid 3-epimerization from the midgut of the cotton leafworm, <i>Spodoptera littoralis</i>	J.-H. CHEN, R. POWLS AND H. H. REES	436S
Evidence for the existence of juvenile hormones in ticks	L. O. LOMAS, J. C. BLACK AND H. H. REES	437S
Ecdysteroid inactivation in response to elevated levels of 20-hydroxyecdysone or an agonist, RH 5849, in the tobacco hornworm, <i>Manduca sexta</i>	D. R. WILLIAMS, J.-H. CHEN, M. J. FISHER AND H. H. REES	438S
Trypanolytic activity <i>in vivo</i> of plasma from patients with schistosomiasis against the African trypanosome, <i>Trypanosoma brucei brucei</i>	R. E. BUNDY, J. S. OWEN, V. L. M. LIMA AND E. M. C. CHAVES	439S
Cyclic AMP analogues stimulate triacylglycerol synthesis but not cholesterol esterification in J774 macrophages	A. K. JONES, B. JACKSON, K. M. BOTHAM AND K. E. SUCKLING	440S

Molecular and cellular pharmacology group

The entrapment of mannose-terminated glucocerebrosidase (Alglucerase) in human carrier erythrocytes	B. E. BAX, M. D. BAIN, C. P. WARD, A. H. FENSOM AND R. A. CHALMERS	441S
The entrapment of poly(ethylene glycol)-bound adenosine deaminase (Pegademase) in human carrier erythrocytes	B. E. BAX, L. D. FAIRBANKS, M. D. BAIN, H. A. SIMMONDS AND R. A. CHALMERS	442S
Elucidating the role of gonadotrophins in endometrial cancer cell growth	C. M. R. BAX, E. CHATZAKI, S. DAVIES AND C. J. GALLAGHER	443S
A role for calcium and annexins in the formation of caveolae	E. T. PARKIN, A. J. TURNER AND N. M. HOOPER	444S

Effect of repeated exposure to ultraviolet A (UVA) radiation on the activities of fibroblasts in three-dimensional culture	S. KANG AND E. J. WOOD	445S
Thrombospondin-I induces DNA synthesis and migration in human vascular smooth muscle cells	M. K. PATEL, G. F. CLUNN, J. S. LYMN AND A. D. HUGHES	446S
<hr/>		
Keeping the cell reduced: enzymes influencing redox reactions		
Rubredoxin/rubredoxin reductase of <i>Pseudomonas oleovorans</i> : a model system for investigating interprotein electron transfer	H. J. LEE, L.-Y. LIAN AND N. S. SCRUTTON	447S
Near-infrared spectroscopy of nitroxyl haemoglobin – relevance to <i>in vivo</i> detection of nitric oxide	C. E. COOPER, R. J. SPRINGETT, A. PANAGIOTOPOULOU AND J. PENRICE	448S
Modulation of the glutathione redox state in adult astrocytes	S. PEUCHEN, M. R. DUCHEN AND J. B. CLARK	449S
Possible interaction of nitric oxide with the ferryl intermediate of cytochrome c oxidase	J. TORRES, C. C. COOPER AND M. T. WILSON	450S
Free fatty acids as modulators of cytochrome c oxidase activity	M. SHARPE, I. PERIN, P. NICHOLLS AND C. COOPER	451S
Measurement of glutathione as a marker of oxidative stress in CNS reaggregate cultures	R. M. FOX, J. DAVENPORT JONES, J. BAKER AND R. G. L. PULLEN	452S
Glucuronate metabolism in the mammalian eye lens – origin of xylitol	D. GOODE, M. E. LEWIS AND M. J. C. CRABBE	453S
Native immunoaffinity-isolated apolipoprotein E-containing high-density-lipoprotein particles inhibit platelet aggregation	D. R. RIDDELL, S. SHEIKH, R. W. JAMES AND J. S. OWEN	454S
Redox reaction of the novel non-haem glycosylated peroxidases from thermophilic actinomycete <i>Thermomonospora fusca</i> BD25	A. ROB, A. S. BALL, M. TUNCER, G. D. JONES, P. D. TAYLOR AND M. T. WILSON	455S
Electron transfer in trimethylamine dehydrogenase: directed mutagenesis of a potential tunnelling pathway	E. K. WILSON, L. HUANG, R. HILLE, F. S. MATHEWS AND N. S. SCRUTTON	456S
Inhibition of mitochondrial β -oxidation in the heart by increased redox state of the ubiquinone pool	S. EATON AND K. BARTLETT	457S
Products of aldose reductase-catalysed reduction of aldoses ('osones')	D. J. WALTON, J. A. KOTECHA AND T. J. KUBISESKI	458S
Effect of dithiothreitol on quality control of GPI-anchor addition	L. J. WAINWRIGHT AND M. C. FIELD	459S
Investigations into the action of a novel nitric oxide donor on cellular respiration	R. D. HURST AND J. B. CLARK	460S
Influence of phenolics on protein binding to the antioxidant-responsive element (ARE)	B. WANG, N. LAMBERT AND G. WILLIAMSON	461S
The peroxidase activity of glutathione S-transferase A1-1 on hydroperoxy-phospholipids	Y. BAO AND G. WILLIAMSON	462S
Evidence for murine macrophage nitric oxide synthesis in the absence of exogenous L-arginine	C. MURPHY AND P. NEWSHOLME	463S

The variation of K_m for oxygen of cytochrome oxidase with turnover under de-energized and energized conditions	S. MASSARI, A. BÖSEL AND J. M. WRIGGLESWORTH	464S
A new EPR signal from cytochrome oxidase – evidence for conformational flexibility at the Cu_B site?	C. E. COOPER, A. PEZESHK, J. TORRES, M. T. WILSON AND M. R. C. SYMONS	465S
Why methanopterin? Comparative bioenergetics of the reactions catalysed by methylene tetrahydrofolate reductase and methylene tetrahydromethanopterin reductase	B. E. H. MADEN	466S

Molecular enzymology group

Induction of thiol recycling by protein kinase C: a potentially pro-oxidant pathway for low-density-lipoprotein oxidation	A. GRAHAM AND J. L. WOOD	467S
Studies on the enhancement of the reactivity of the (Cys-25)-S / (His159)-Im ⁺ H ion pair of papain by deprotonation across pK_a4	S. PINITGLANG, M. NOBLE, C. VERMA, E. W. THOMAS AND K. BROCKLEHURST	468S
Fluorescent labelling of pyruvate carboxylase with 4-acetamido-4'-(iodoacetyl)-aminostilbene-2,2'-disulphonic acid (AIDA) provides a means of monitoring substrate binding	P. V. ATTWOOD AND M. POWELL	469S
Cloning and functional expression of pig kidney aminopeptidase P	R. J. HYDE, N. M. HOOPER AND A. J. TURNER	470S
Mutagenesis and modelling of endothelin-converting enzyme	V. M. HOANG, C. E. SANSOM AND A. J. TURNER	471S
2-oxoaldehydes, glyoxalase I and oxidative stress	C. CORDEIRO AND A. PONCES FREIRE	472S
Investigation of electrostatic interactions and binding effects in papain–ligand interaction	S. GUL, P. S. DHILLON, C. VERMA, E. W. THOMAS AND K. BROCKLEHURST	473S

Biochemical mass spectrometry

Assay of adenylyl cyclase activity by quantitative mass spectrometry	H. EL-SHAZLEY, R. P. NEWTON, F. M. HARRIS, A. G. BRENTON, T. J. WALTON, C. J. RESTALL, M. BAYLISS, A. WILKINS, D. E. GAMES AND J. I. LANGRIDGE	474S
Analysis by gas chromatography-mass spectrometry of the fatty acid composition during temperature adaptation in <i>Aphanizomenon flos-aquae</i> , a diazotrophic cyanobacterium from the Baltic Sea	A. M. EVANS, D. LI, A. JONES, M. P. L. GAMES, D. E. GAMES, J. R. GALLON AND T. J. WALTON	475S
Trace analysis of arthropod hormones by liquid chromatography-atmospheric pressure chemical ionization/mass spectrometry	G. WAINWRIGHT, M. C. PRESCOTT, L. O. LOMAS, S. G. WEBSTER AND H. H. REES	476S
Modification of the iron protein of <i>Gloeotheca</i> nitrogenase: a mass spectrometric study	L. J. DOUGHERTY, E. G. BROWN AND J. R. GALLON	477S

Mammalian amino acid transporters and their regulation

Characterization and purification of recombinant GLUT1 expressed in insect cells	A. B. WEINGLASS AND S. A. BALDWIN	478S
--	-----------------------------------	------

Induction of the stress protein Grp75 by amino acid deprivation in CHO cells does not involve an increase in Grp75 mRNA levels	R. D. HEAL AND J. D. MCGIVAN	479S
Metabolism of arginine to citrulline by rat gastric mucosal cells	C. R. BYRNE, P. J. HANSON AND B. J. R. WHITTLE	480S
Induction of high-affinity glutamate transport activity by amino acid deprivation is dependent on cellular glutamate concentrations in renal epithelial cells and does not involve an increase in the amount of transporter protein	B. NICHOLSON AND J. D. MCGIVAN	481S
The use of Langendorff perfused guinea-pig heart to study the efflux of amino acids from heart cells	J. M. CARTER, N. J. BELL AND M.-S. SULEIMAN	482S
Metabolic control analysis of purine biosynthesis from serine in Molt-4 cells	M. C. BOLTON, R. G. KNOWLES, M. SALTER, C. I. POGSON AND K. SNELL	483S
<hr/>		
Regulation in metabolism group		
Differing effects of polyamines on nitric oxide synthase	I. DAS AND N. S. KHAN	484S
Heat shock protein 70 expression in skeletal muscle	A. MCARDLE AND M. J. JACKSON	485S
Expression of programmed-cell-death-related genes in dystrophic <i>mdx</i> and control mouse muscle	E. A. VEAL AND M. J. JACKSON	486S
Changes in the intracellular concentration of myocardial glutamine in patients undergoing coronary artery bypass surgery using crystalloid and blood cardioplegia	M.-S. SULEIMAN, W. C. DIHMIS, M. CAPUTO, G. D. ANGELINI, J. A. HUTTER AND A. J. BRYAN	487S
Catabolism of arginine and ornithine in perfused rat liver: localization and regulation	D. O'SULLIVAN, J. T. BROSNAN AND M. E. BROSNAN	488S
<hr/>		
Biochemical immunology group		
Expression of Fc γ RIII in neutrophils in rheumatoid arthritis	J. A. QUAYLE, F. WATSON, R. C. BUCKNALL AND S. W. EDWARDS	489S
Preservation of the activity of NADPH oxidase in human monocyte/macrophages	S. D. H. BERRY AND S. W. EDWARDS	490S
Regulation of neutrophil apoptosis by diadenosine pentaphosphate and GM-CSF	L. GASMI, A. G. MCLENNAN AND S. W. EDWARDS	491S
Modulation of neutrophil apoptosis by pharmacological agents	D. A. MOULDING, C. A. HART AND S. W. EDWARDS	492S
Gene expression by inflammatory neutrophils: stimulation of interleukin-1 β production by rheumatoid synovial fluid	F. S. WHITE, J. A. QUAYLE AND S. W. EDWARDS	493S
Do stress proteins have a regulatory role in autoimmune rheumatoid arthritis?	C. G. H. BELL	494S
Maternal immunization modulates the primary response repertoire in newborn mice	C. G. H. BELL	495S
Hybrid antibodies monitoring receptor profiles on lymphocyte subsets	C. G. H. BELL	496S

Hormone group		
Procorticotrophin-releasing hormone is endoproteolytically processed by the prohormone convertase PC2 but not by PC1 within stably transfected CHO-K1 cells	M. J. PERONE, I. AHMED, E. A. LINTON AND M. G. CASTRO	497S
Lectin binding of pregnancy-associated plasma protein A purified from different sources	N. A. BERSINGER AND M. L. BRIZOT	498S
Aluminium activation of 'immediate early' gene expression in Swiss 3T3 fibroblasts	J. BATES AND S. R. PENNINGTON	499S
Aluminium-induced changes in amyloid precursor protein mRNA expression	M. A. SINCLAIR AND S. R. PENNINGTON	500S
Basic fibroblast growth factor and colorectal carcinoma invasion	Z. GALZIE, D. G. FERNIG, J. A. SMITH, G. J. POSTON AND A. R. KINSELLA	501S
Defining the role of Sxa1 during pheromone adaptation in <i>Schizosaccharomyces pombe</i>	M. HUGHES, G. LADDS AND J. DAVEY	502S
Maturation of Krp1, an endopeptidase from the fission yeast <i>Schizosaccharomyces pombe</i>	D. POWNER AND J. DAVEY	503S
Purification of Sxa2, a carboxypeptidase involved in pheromone recovery in fission yeast	G. LADDS AND J. DAVEY	504S
Biochemical determinants of food iron availability: soyabean iron characteristics	G. O. LATUNDE-DADA	505S
Biochemical determinants of food iron availability: soya fibre and iron interactions	G. O. LATUNDE-DADA	506S
