

sessions**660th Meeting, Joint Congress with the British Society for Immunology, Harrogate****session: Plenary Sessions****Session 1: Gene Regulation**

Regulation of the activity of the transcription factors AP-1 and NFAT during differentiation of precursor CD4⁺ T-cells into effector cells M. RINCÓN AND R. A. FLAVELL **347**

Histones, nucleosomes and the role of chromatin structure in transcriptional control A. P. WOLFFE **354**

Stat4- and Stat6-deficient mice as models for manipulating T helper cell responses M. J. GRUSBY **359**

Session 2: Signalling

TcR ζ /CD3 signal transduction in T-cells: downstream signalling via ZAP-70, SLP-76 and FYB A. J. DA SILVA, M. RAAB, Z. LI AND C. E. RUDD **361**

Haemopoietic growth factors and leukaemogenesis A. PIERCE AND A. D. WHETTON **366**

Session 3: Structure and Function

Interleukin 15 D. COSMAN, S. KUMAKI, D. ANDERSON, M. KENNEDY, J. EISENMAN AND L. PARK **371**

Intracellular targeting, interaction with Src homology 3 (SH3) domains and rolipram-detected conformational switches in cAMP-specific PDE4A phosphodiesterase M. D. HOUSLAY, G. SCOTLAND, S. ERDOGAN, E. HUSTON, S. J. MACKENZIE, J. F. MCCALLUM, I. MCPHEE, L. POOLEY, G. RENA, A. ROSS, M. BEARD, A. PEDER, F. BEGG, I. WILKINSON, S. YARWOOD, C. ACKERMAN, E. S. HOUSLAY, R. HOFFMAN, P. ENGELS, M. SULLIVAN AND G. BOLGER **374**

session: Immunological Intervention Strategies in Allergy

Regulation of the expression of distinct human secreted IgE proteins produced by alternative RNA splicing A. SAXON, D. DIAZ-SANCHEZ AND K. ZHANG **383**

Structure-based design of peptides that inhibit IgE binding to its high-affinity receptor Fc ϵ RI J. M. McDONNELL, A. J. BEAVIL, G. A. MACKAY, A. J. HENRY, J. P. D. COOK, H. J. GOULD AND B. J. SUTTON **387**

The low-affinity receptor for IgE (Fc ϵ RII or CD23) as a therapeutic target D. H. CONRAD, M. A. KILMON, E. J. STUDER AND S.-W. CHO **393**

Use of peptides to selectively modulate CD4⁺ T-cell responses C. HETZEL, R. JANSSEN, S. ELY, D. YOUNG, J. R. LAMB AND J. THOLE **397**

session: Signalling and Cell Death

Regulation of apoptosis through CD95 (APO-1/Fas) receptor–ligand interaction K.-M. DEBATIN, C. BELTINGER, T. BÖHLER, J. FELLEBERG, C. FRIESEN, S. FULDA, I. HERR, M. LOS, C. SCHEUERPLUG, H. SIEVERTS AND K. STAHNKE **405**

cAMP and 'death signals' in a myeloid leukaemia cell: from membrane receptors to nuclear responses: a review	S. RUCHAUD AND M. LANOTTE	410
Multi-site phosphorylation of p53 by protein kinases inducible by p53 and DNA damage	D. W. MEEK, L. E. CAMPBELL, L. J. JARDINE, U. KNIPPSCHILD, L. MCKENDRICK AND D. M. MILNE	416

session: Trafficking

Regulation of lymphocyte migration into lymph nodes by high endothelial venules	A. AGER	421
High-endothelial-venule ligands for L-selectin: identification and functions	S. D. ROSEN, S. T. HWANG, P. A. GIBLIN AND M. S. SINGER	428
Structure and function of the mucosal T-cell integrin $\alpha_E\beta_7$	P. J. KILSHAW AND P. KARECLA	433

session: Signalling Processes in Haemopoietic Cells

Positive and negative signal co-operativity in the immune system: the BCR, FcγRIIB, CR2 paradigm	J. C. CAMBIER	441
Tyrosine phosphatases in T-cell development and signalling	L. A. CONROY, J. D. STONE, J. A. FREARSON, K. F. BYTH, S. HOWLETT, N. HOLMES AND D. R. ALEXANDER	445
Interleukin 4 and interleukin 13: same response, different receptors	R. E. CALLARD, D. J. MATTHEWS AND L. M. HIBBERT	451

session: Immunoglobulins and Mechanisms of Mucosal Immunity

Mucosal immunoglobulins and their contribution to defence mechanisms: an overview	J. MESTECKY AND M. W. RUSSELL	457
Complement in IgA immune-complex-induced neutrophil activation	W. ZHANG, Y. M. LUCISANO AND P. J. LACHMANN	462
IgA antibody as a non-inflammatory regulator of immunity	M. W. RUSSELL, D. A. SIBLEY, E. B. NIKOLOVA, M. TOMANA AND J. MESTECKY	466
Recombinant secretory IgA for immune intervention against mucosal pathogens	B. CORTHÉSY	471
The polymeric immunoglobulin receptor: structure and synthesis	C. S. KAETZEL, V. J. BLANCH, P. M. HEMPEN, K. M. PHILLIPS, J. F. PISKURICH AND K. R. YOUNGMAN	475
New functions of the MHC class I-related Fc receptor, FcRn	N. E. SIMISTER, E. JACOBOWITZ ISRAEL, J. C. AHOUSE AND C. M. STORY	481

Origin and structure of pathogenic IgA in IgA nephropathy	A. ALLEN, S. HARPER AND J. FEEHALLY	486
--	-------------------------------------	------------

session: Regulation of Transcription and Translation

Novel components of mammalian stress-activated protein kinase cascades	F. KIEFER, L. A. TIBBLES, N. LASSAM, B. ZANKE, N. ISCOVE AND J. R. WOODGETT	491
Regulation of transcription factor function by proteolysis	S. GOODBOURN AND P. KING	498
Intracellular signalling pathways regulating initiation factor eIF4E phosphorylation during the activation of cell growth	S. J. MORLEY	503
Role of the double-stranded RNA-activated protein kinase (PKR) in cell regulation	B. R. G. WILLIAMS	509

session: Leucocyte/Stromal Cell Interactions in Inflammation

Signalling and adhesive properties of the integrin leucocyte function-associated antigen 1 (LFA-1)	Y. VAN KOOYK AND C. G. FIGDOR	515
Peripheral blood fibrocytes: novel fibroblast-like cells that present antigen and mediate tissue repair	J. CHESNEY AND R. BUCALA	520
Expression of extracellular matrix molecules, proliferation markers and cyclin-dependent kinase inhibitors in inflamed tissues	M. CHILOSI, C. DOGLIONI, F. MENESTRINA, M. LESTANI, E. PIAZZOLA, A. BENEDETTI, S. PEDRON, L. MONTAGNA, G. PIZZOLO, G. M. MARIUZZI AND G. JANOSSY	524
T-Lymphocyte–fibroblast interactions	J. G. CROWSTON, M. SALMON, P. T. KHAW AND A. N. AKBAR	529

session: Gene Therapy

Gene therapy for arthritis: principles and clinical practice	R. KANG, S. C. GHIVIZZANI, J. H. HERNDON, P. D. ROBBINS AND C. H. EVANS	533
Gene therapy for primary immunodeficiency	A. J. THRASHER, J. GOLDMAN, M. DE ALWIS, C. D. PORTER AND C. KINNON	537
Tumour-reactive cytotoxic T-lymphocytes specific for normal cellular proteins	H. J. STAUSS, M. DAHL AND E. SADOVNIKOVA	540
Antigens recognized by T-lymphocytes on human tumours	P. G. COULIE, B. J. VAN DEN EYNDE, P. VAN DER BRUGGEN, A. VAN PEL AND T. BOON	544

session: Lipids as Regulators of Cell Function

Sphingolipids as differential regulators of cellular signalling processes	S. PYNE, D. G. TOLAN, A.-M. CONWAY AND N. PYNE	549
--	--	------------

Regulation of the stress response by ceramide	G. S. DBAIBO	557
Regulation of Raf-1 kinase by interaction with the lipid second messenger, phosphatidic acid	S. GHOSH AND R. M. BELL	561
Protein kinase D: a novel target for diacylglycerol and phorbol esters	E. ROZENGURT, J. SINNETT-SMITH AND J. L. ZUGAZA	565
Nuclear diacylglycerol, the cell cycle, the enzymes and a red herring (or how we came to love phosphatidylcholine)	N. DIVECHA, H. BANFIC, J. E. TREAGUS, L. VANN, R. F. IRVINE AND C. D'SANTOS	571

session: Modulators of Nuclear Receptor Function

Determinants of steroid hormone bioavailability	G. L. HAMMOND	577
Tissue-specific modulation of glucocorticoid action by the 11β-hydroxysteroid dehydrogenases	K. E. CHAPMAN, Y. V. KOTELEVTSOV, P. M. JAMIESON, L. J. S. WILLIAMS, J. J. MULLINS AND J. R. SECKL	583
Update on the human iodothyronine selenodeiodinases, the enzymes regulating the activation and inactivation of thyroid hormone	P. R. LARSEN	588
Subnuclear trafficking of steroid receptors	D. B. DEFranCO	592
Steroid-independent activation of steroid receptors in mammalian and yeast cells and in breast cancer	D. PICARD, G. BUNONE, J. W. LIU AND O. DONZÉ	597
Mechanisms of transcriptional activation by retinoic acid receptors	C. K. GLASS, M. G. ROSENFELD, D. W. ROSE, R. KUROKAWA, Y. KAMEI, L. XU, J. TORCHIA, M.-H. OGLIASTRO AND S. WESTIN	602
TIF1α: a chromatin-specific mediator for the ligand-dependent activation function AF-2 of nuclear receptors?	B. LE DOUARIN, A. L. NIELSEN, J. YOU, P. CHAMBON AND R. LOSSON	605
Three steps in the regulation of transcription by the thyroid hormone receptor: establishment of a repressive chromatin structure, disruption of chromatin and transcriptional activation	A. P. WOLFFE, J. WONG, Q. LI, B.-Z. LEVI AND Y.-B. SHI	612

session: Basic and Clinical Aspects of Autoimmunity

T-cells with two T-cell receptors: are they important in autoimmunity?	B. STOCKINGER AND T. ZAL	617
Role of CD4⁺CD8⁻ thymocytes in the prevention of autoimmune diabetes	B. SEDDON AND D. MASON	620
Immune deviation towards Th2 inhibits Th-1-mediated autoimmune diabetes	L. ADORINI AND S. TREMBLEAU	625
Pathogenesis and treatment of virus-induced autoimmune diabetes: novel insights gained from the RIP-LCMV transgenic mouse model	M. G. VON HERRATH, D. HOMANN, J. E. GAIRIN AND M. B. A. OLDSTONE	630

Molecular mimicry with MHC-derived peptides: does this underlie MHC association with autoimmune disease?	H. BAUM	636
---	---------	------------

session: B- and T-Cell Signalling

Molecular mechanisms regulating B-cell negative selection	J. G. MONROE	643
The identification of Bruton's tyrosine kinase and Wiskott–Aldrich syndrome protein associated proteins and signalling pathways	C. KINNON, G. O. C. CORY, L. MACCARTHY-MORROGH, S. BANIN, I. GOUT, R. C. LOVERING AND P. M. BRICKELL	648
CD28 co-receptor signal transduction in T-cell activation	P. J. BLAIR, J. L. RILEY, R. G. CARROLL, D. C. ST. LOUIS, B. L. LEVINE, B. SAHA, K. P. LEE, P. J. PERRIN, D. M. HARLAN AND C. H. JUNE	651

session: The Molecular Biology of Autoantigens

Fine specificity of myelin basic protein reactive T-cells: implications for T-cell receptor antagonism	S. M. ANDERTON, S. P. MANICKASINGHAM AND D. C. WRAITH	659
Nasal tolerance to dominant and subdominant epitopes of collagen type II and protection against collagen-induced arthritis	N. A. STAINES, N. HARPER AND F. J. WARD	661
Enhancement of HLA class II restricted antigen presentation by mannose-receptor-mediated uptake	F. KONING	664
Heterogeneity and immunotherapy of specific T-cells in myasthenia gravis	A. BOND, L. CORLETT, N. NAGVEKAR, L. JACOBSON, N. PANTIC, D. BEESON, M. NICOLLE, A. VINCENT, J. NEWSOM-DAVIS, E. SPACK AND N. WILLCOX	665

session: Immune Properties of Central Nervous System Parenchymal Cells

Microglia in health and disease	M. L. CUZNER	671
T-lymphocyte activation and regulation in the central nervous system	J. D. SEDGWICK	673
Regulation of inducible nitric oxide synthase expression in human glia: implications for inflammatory central nervous system diseases	C. F. BROSNAN, S. C. LEE AND J. LIU	679
The immune response in the Alzheimer's disease brain	R. B. BANATI	683

session: The Biology of Natural Killer Cells and NK1.1⁺

Natural killer cell regulation during viral infection	C. A. BIRON	687
--	-------------	------------

Molecular genetics of the natural killer gene complex and innate immunity	W. M. M. YOKOYAMA, K. MATSUMOTO, A. A. SCALZO AND M. G. BROWN	691
Development and function of natural killer I⁺ T-cells	H. R. MACDONALD	696
Role of natural killer and NKI⁺ T-cells in regulating cell-mediated immunity during <i>Toxoplasma gondii</i> infection	E. Y. DENKERS AND A. SHER	699

session: Targeting Cytotoxic Immunotherapy

Targeted anti-cancer therapy using rituximab, a chimaeric anti-CD20 antibody (IDEC-C2B8) in the treatment of non-Hodgkin's B-cell lymphoma	D. R. ANDERSON, A. GRILLO-LÓPEZ, C. VARNIS, K. S. CHAMBERS AND N. HANNA	705
Recombinant RFB4 single-chain immunotoxin that is cytotoxic towards CD22-positive cells	E. MANSFIELD, M. F. CHIRON, P. AMLOT, I. PASTAN AND D. J. FITZGERALD	709
Single-chain Fv antibodies for targeting cancer therapy	R. H. J. BEGENT AND K. A. CHESTER	715
Targeted gene therapy for cancer: herpes simplex virus thymidine kinase gene-mediated cell killing leads to anti-tumour immunity that can be augmented by co-expression of cytokines in the tumour cells	R. G. VILE, R. M. DIAZ, S. CASTLEDEN AND H. CHONG	717

session: BSI Workshops

Endothelial Cells as Antigen-presenting Cells

Do endothelial cells fit the paradigm of antigen-presenting cells?	R. I. LECHLER AND F. M. MARELLI-BERG	723
Accessory molecules utilized by endothelial cells for allogeneic stimulation of T-lymphocytes	J. R. WESTPHAL, H. W. WILLEMS, W. J. M. TAX, R. A. P. KOENE, D. J. RUITER AND R. M. W. DE WAAL	728
Non-conventional mechanisms of T-cell co-stimulation by endothelial cells	C. G. OROSZ, D. PIDWELL AND P. W. ADAMS	733

Leucocyte Function

Development of a flow-cytometric assay to identify and quantify lymphocytes that bind to endothelial and epithelial cells	J. A. KIRBY, M. P. LEON, M. S. DOUGLAS AND D. A. RIX	736
A novel flow-cytometric assay to assess neutrophil adhesion in whole blood	C. MARSHALL, L. GRAY, D. LAMBERT, B. SHENTON, S. M. PLUSA AND J. A. KIRBY	740

U.K. Tumour Immunology Group

DNA vaccination as cancer immunotherapy	D. ZHU, M. B. SPELLERBERG, A. THOMPSETT, C. A. KING, T. J. HAMBLIN AND F. K. STEVENSON	743
--	--	------------

Gene regulation		
The regulation of TCF transcription factors by mitogen-activated protein kinase cascades	S.-H. YANG, P. R. YATES, A. J. WHITMARSH, R. J. DAVIS AND A. D. SHARROCKS	153S
NF- κ B involvement in interleukin-1 β induction of granulocyte/macrophage colony-stimulation factor and cyclo-oxygenase-2: inhibition by glucocorticoids does not require I- κ B	I. M. ADCOCK, R. NEWTON AND P. J. BARNES	154S
Cytokine regulation of matrix metalloproteinase gene expression	B. FINGLETON AND S. McDONNELL	155S
The role of Sp1 in the diet-induced regulation of the rat fatty acid synthase (FAS) gene	S. S. WOLF, K. H. RODER AND M. SCHWEIZER	156S
Regulation of the fatty acid synthase gene by retinoic acid in HepG2 cells is mediated by an E-box-containing multihormonal response element and two neighbouring upstream sequences	K. H. RODER, S. S. WOLF AND M. SCHWEIZER	157S
Gene therapy		
Specific cytotoxicity against cells bearing HIV1 gp120 antigen by bacteriophage-encapsidated ricin A chain: implications for cell-specific drug delivery	M. WU, W. L. BROWN, R. HILL AND P. G. STOCKLEY	158S
Immunological intervention strategies in allergy		
Immunological effects of grain dust	J. R. M. GOULD, B. CROOK, B. A. HELM, D. A. BLAINEY AND M. POWER	159S
Epitope mapping of bovine α -lactalbumin using a random phage-display peptide library	A. C. HUNT, S. C. WILLIAMS, P. J. DAVIS AND R. A. BADLEY	160S
Detailed epitope mapping of bovine β lactoglobulin	S. C. WILLIAMS, R. A. BADLEY, P. J. DAVIS, W. C. PUJIK AND R. H. MELOEN	161S
Neuroimmunology		
Existence and dissemination of blood serum immunoglobulins in the tissue of the rat nerve ganglia	L. A. KNYAZEVA, I. G. CHARYEVA AND A. S. PYLAEV	162S
cAMP potentiates the induction of Thy-1 mRNA expression in murine B-cells	I. I. KUZIN, L. V. BAGAeva, L. H. GRAF, JR., R. L. COHEN AND D. A. CHAMBERS	163S
The influence of interleukin-2 administration on met-enkephalins in patients with renal carcinoma	R. BRACZKOWSKI, M. HUZARSKA, B. ZUBELEWICZ, W. ROMANOWSKI AND K. CIEŚLA	164S
The down-regulation of MHC class I antigens in rat oligodendrocytes is mediated by negative regulatory elements in the class I promoter	G. MAVRIA AND G. E. BLAIR	165S
Reactive oxygen species in experimental allergic encephalomyelitis	G. S. SCOTT, K. I. WILLIAMS AND C. BOLTON	166S
N-methyl-D-aspartate-receptor-mediated events contribute to neurovascular breakdown during experimental allergic encephalomyelitis	C. PAUL, G. S. SCOTT, M. J. BARBOUR, N. SEILER AND C. BOLTON	167S
Anti-myelin antibodies modulate experimental allergic encephalomyelitis in Biozzi ABH mice	M. M. MORRIS, S. PIDDLESDEN, N. GROOME AND S. AMOR	168S

Evidence that an anti-SERCA1 monoclonal antibody recognizes the SERCA2b calcium pump in pig brain	J. M. SALVADOR, M. BERENGENA AND A. M. MATA	169S
Expression of adhesion molecules on human foetal cerebral vessels: relationship to colonization by microglial precursors	P. REZAEI AND D. MALE	170S
Anti-p53 antibodies in the serum of patients with paraneoplastic disease of the nervous system	N. A. GREGSON AND H. KAUR	171S
CD1 expression in human peripheral nerve of Guillain-Barré syndrome patients	A. KHALILI-SHIRAZI, N. A. GREGSON AND R. HUGHES	172S
Scrapie in immunodeficient mice	K. L. BROWN, K. STEWART, M. E. BRUCE AND H. FRASER	173S
<hr/>		
The biology of natural killer cells and NK1.1 T-cells		
Natural killer cell lines of different maturational status can be obtained from mouse foetal liver	M. MANOUSSAKA, A. GEORGIU, B. ROSSITER, S. SHRESTHA, J. A. TOOMEY, P. V. SIVAKUMAR, M. BENNETT, V. KUMAR AND C. G. BROOKS	174S
Natural killer cell function is altered by freezing in DMSO	E. DOMINGUEZ, M. W. LOWDELL, I. PEREZ-CRUZ, A. MADRIGAL AND S. B. A. COHEN	175S
<hr/>		
Regulation of transcription		
Genetic regulation of interferon- γ production	V. P. PRAVICA, L. F. BORREIRO AND I. V. HUTCHINSON	176S
Identification of an intragenic promoter in the human CD45 gene	M. TIMON AND P. C. L. BEVERLEY	177S
NF- κ B in Crohn's disease	R. D. ELLIS, G. A. LIMB, R. P. H. THOMPSON AND N. A. PUNCHARD	178S
cAMP-mediated control of LDL receptor gene expression in human skin fibroblasts	C. HOLMES AND B. MIDDLETON	179S
Expression of constructs between the glucose-6-phosphatase promoter and a reporter gene in an insulinoma cell line: regulation by glucose, dibutyryl cAMP and dexamethasone	D. SCHMOLL, M. P. HOUSTON, S. L. WATKINS AND A. BURCHELL	180S
UDP-glucuronyl transferase enzyme family in both human and Balb/c mouse lung	C. E. CONNER, B. BURCHELL AND R. HUME	181S
Endoplasmic reticulum systems in developing human oesophagus	K. RICHARD, P. COLLINS, R. HUME, A. BURCHELL AND B. BURCHELL	182S
Glucose-6-phosphatase activity: a determinant of brain microsomal intactness	C. MIDDLEDITCH, P. MARCOLONGO, A. BENEDETTI AND A. BURCHELL	183S
Yeast as a tool for the expression of mutant and wild-type glucose-6-phosphatase	C. J. HINDS, S. E. BRAY, D. J. JAMIESON AND A. BURCHELL	184S
Induction of the adhesion molecule CD44 by the pro-inflammatory cytokine interleukin-1 in endothelial cells	K. FITZGERALD AND L. A. J. O'NEILL	185S
Characterization of the human secretory component gene promoter	G. VERRIJDT, F. CLAESSENS, J. SWINNEN, B. PEETERS, G. VERHOEVEN AND W. ROMBAUTS	186S
An NF-AT related protein is implicated in the induction of the immunoglobulin κ 3'-enhancer activity after B-cell stimulation	K. B. MEYER AND J. IRELAND	187S

The <i>E. coli</i> cAMP receptor protein can be used in an eukaryotic system as a repressor activated by cAMP	V. FILIPPO	188S
Glucocorticoid inhibition of cytokine-induced E-selectin promoter activation	K. P. RAY AND N. SEARLE	189S
<hr/> Regulation of translation <hr/>		
Studies on the phosphorylation of eIF4E in <i>Xenopus</i> (XIK-2) kidney cells	C. FRASER AND S. MORLEY	190S
Regulation of initiation factor eIF-2B by GSK-3-regulated phosphorylation	G. I. WELSH, A. J. LOUGHLIN, E. J. FOULSTONE, N. T. PRICE AND C. G. PROUD	191S
Signalling pathways that regulate eIF4E	A. FLYNN, R. G. J. VRIES AND C. G. PROUD	192S
Modulation of iron-regulatory protein (IRP) activity in monocytes by nitric oxide, phorbol ester and γ -interferon	J. H. BROCK, S. BHANDARI AND E. M. FREEL	193S
<hr/> Endothelial cells as antigen-presenting cells <hr/>		
Heparin modulates endothelial production of monocyte chemotactic peptide-1 following interferon- γ stimulation	M. S. DOUGLAS, J.-G. ZHANG, D. A. RIX, J. V. MOY AND J. A. KIRBY	194S
Endothelial cells: heparin modulates the induction of functional antigen presentation by interferon- γ	D. A. RIX, M. S. DOUGLAS, M. P. LEON, S. ALI, S. TALBOT AND J. A. KIRBY	195S
<hr/> Leucocyte function <hr/>		
Characterization and expression of the novel lymphocyte activation antigen using the monoclonal antibody 6B2D	U. O'SHEA AND D. J. REEN	196S
Monitoring neutrophil phagocytosis in lung-cancer patients or normal stem-cell donors, treated with granulocyte colony-stimulating factor	J. LAWRY, M. O. SMITH AND P. C. LORIGAN	197S
Workers exposed to respiratory hazards show altered expression of cell surface markers	A. D. CURRAN, L. J. ALLAN, S. B. GORDON AND K. WILEY	198S
An assay of neutrophil adhesion to fibronectin and its attenuation by pentoxifylline and nitric oxide	S. C. CLARK, J. H. DARK AND J. A. KIRBY	199S
<hr/> Antigen presentation <hr/>		
Generation of a primary immune response to a genetically inactivated (DISC) herpes simplex virus and wild-type virus	S. HILL, X. ZHANG, M. E. G. BOURSNELL, J. G. SHIELDS, P. RICCIARDI-CASTAGNOLI AND J. K. HICKLING	200S
Is the success of Bacille Calmette-Guerin tumour immunotherapy due to the induction of co-stimulatory molecules?	A. B. ALEXANDROFF, I. MITCHELL, J. BLACK AND K. JAMES	201S
Clonal T-cell responses reflect the expression of multiple <i>DQ</i> genes in cattle	G. C. RUSSELL, S. C. L. CRAIGMILE, A. GALLAGHER AND E. J. GLASS	202S
Cloning of avian and bovine CD80 using chimaeric fusion proteins to detect expression	K. R. PARSONS, M. O'REGAN, J. R. YOUNG AND C. J. HOWARD	203S
Induction of human T-cell responses to tumour-associated neoantigens and virus antigens using cultured dendritic cells	J. LI, G. BOWEN, J. J. MURPHY, H. DAVIES, S. HOLLINGSWORTH AND G. MUFTI	204S

Phagocytic processing of two M protein T-cell epitopes from viable group A streptococci	A. A. DELVIG, M. A. KEHOE AND J. H. ROBINSON	205S
Comparison of effects of beta-carotene and lycopene supplementation on the expression of functionally associated molecules on human monocytes	D. A. HUGHES, A. J. A. WRIGHT, P. M. FINGLAS, A. C. J. PEERLESS, A. L. BAILEY, S. B. ASTLEY, A. C. PINDER AND A. SOUTHON	206S
HLA-DR expression in synovial membrane of juvenile rheumatoid arthritis (JRA) versus osteoarthritis (OA)	M. N. M. R. FARAHAT	207S
The structure and function of the novel MHC class II molecule HLA-DM	U. GRÜNEBERG, S. M. VAN HAM, G. MALCHEREK, I. BROKER, A. MELMS AND J. TROWSDALE	208S
<hr/> Gene organization <hr/>		
The role of neurotrophins in pathological pain states: a novel transgenic rat model of hyperalgesia	A. CHITER, A. E. KING AND G. E. BLAIR	209S
<hr/> Signalling <hr/>		
Stimulation of gene expression in neonatal cardiac myocytes by raised extracellular pH	S. J. FULLER	210S
Protein kinase C isoform expression during differentiation of 3T3-F442A preadipocytes	I. M. FLEMING, S. J. MACKENZIE, M. D. HOUSLAY AND E. KILGOUR	211S
Endogenous inhibitors of protein kinase C in pancreatic β -cells	S. J. PERSAUD AND P. M. JONES	212S
Is type IV phospholipase A_2 involved in the regulation of insulin secretion?	K. J. PARKER, S. L. HOWELL AND P. M. JONES	213S
Ganglioside GM1 potentiates the effect of interleukin- 1β on neutral sphingomyelinase activity in rat brain synaptosomes	N. N. NALIVAeva, E. G. RYBAKINA, S. N. SHANIN, I. A. KOZINETS AND I. Y. PIVANOVICH	214S
The human high-affinity IgG receptor (Fc γ RI) signals through the immunoreceptor tyrosine-based activation motif (ITAM) of the γ chain of Fc ϵ RI	D. J. GILLOOLY AND J. M. ALLEN	215S
Stimulation of tyrosine phosphorylation and phosphatidylinositol 3-kinase by monocyte chemotactic peptide-1 in THP-1 cells	S. J. TURNER, S. G. WARD AND J. WESTWICK	216S
Differential effects of CB1 and CB2 agonists on cAMP levels and mitogen-activated protein kinase activation in human peripheral blood mononuclear cells	A. A. MAKDA, M. A. ELMORE, M. E. HILL, A. STAMPS, S. TEJURA AND M. J. FINNEN	217S
Alterations in expression and function of signal-transducing proteins in tumour-associated T- and natural killer cells in ovarian carcinoma	P. LAI, H. RABINOWICH, P. A. CROWLEY-NOWICK, M. C. BELL, G. MANTOVANI AND T. L. WHITESIDE	218S
Dysfunctional focal adhesion kinase (pp125 ^{FAK}) expression in HIV-infected donor T-cells	T. T. C. NG, S. B. KANNER, M. J. HUMPHRIES, R. G. WICKREMASINGHE, K. E. NYE, J. ANDERSON AND W. J. W. MORROW	219S
A recombinant HIV gag P17 protein suppresses the function of normal T-cells	J. EUGEN-OLSEN, U. KOPPELHUS, L. ANDRESEN, J. O. NIELSEN AND B. HOFMANN	220S
Cell stresses regulate the phosphorylation state of c-Jun and ATF2 in ventricular myocytes	P. H. SUGDEN AND A. CLERK	221S

Phosphorylation of c-Jun and ATF2 in ventricular myocytes by endothelin and phenylephrine	A. CLERK AND P. H. SUGDEN	222S
Activation of gene expression in cardiac myocytes by a construct antisense to mitogen-activated protein kinase phosphatase-1	E. L. DAVIES AND S. J. FULLER	223S
Identification of the transporter for the M-factor mating pheromone in fission yeast	J. DAVEY, P. U. CHRISTENSEN AND O. NIELSEN	224S
Characterization of a phospholipase C δ from <i>Schizosaccharomyces pombe</i>	R. SLAABY, T. KNOTT AND J. DAVEY	225S
Identification of a putative G-protein-coupled receptor kinase in <i>Schizosaccharomyces pombe</i>	P. WATSON AND J. DAVEY	226S
Isolation of yeast mutants hypersensitive to mating pheromones	K. DAVIS AND J. DAVEY	227S
Sxa2, a carboxypeptidase that degrades extracellular pheromone in fission yeast	G. LADDS AND J. DAVEY	228S
The role of Sxa1 in pheromone recovery in <i>Schizosaccharomyces pombe</i>	M. HUGHES AND J. DAVEY	229S
Pro-sequence removal is not sufficient for activation of the kexin Krp1	D. POWNER AND J. DAVEY	230S

Leucocyte/stromal cell interactions in inflammation

Induction of tumour necrosis factor- α release by hypoxia	Y.-C. LIM, M. J. GOUGH, S. HOMER-VANNIASINKAM AND S. M. PARKIN	231S
Inflammatory cytokines stimulate human biliary epithelial cells to express interleukin-8 and monocyte chemotactic protein-1	C. M. MORLAND, J. FEAR, R. JOPLIN AND D. H. ADAMS	232S
Tonsil stromal cell lines expressing follicular dendritic cell-like properties: isolation, characterization and interactions with B-lymphocytes	G. SKIBINSKI, A. SKIBINSKA AND K. JAMES	233S
Metalloproteinases and tissue inhibitor of metalloproteinases-1 in proliferative vitreoretinopathy	G. A. LIMB, K. MILLER, A. H. CHIGNELL, T. H. WILLIAMSON, R. D. HOLLIFIELD AND D. C. DUMONDE	234S

Modulators of nuclear receptor function

CCAAT/enhancer-binding protein positively regulates the rat 11 β -hydroxysteroid dehydrogenase type 1 promoter in liver cells	L. J. S. WILLIAMS, V. LYONS, R. WALLACE, J. R. SECKL AND K. E. CHAPMAN	235S
Glucocorticoid receptor mutations in genetically hypersensitive rats: markers of glucocorticoid insensitivity?	R. P. HEELEY, G. CASARI, L. ZAGATO, L. TORIELLI, R. G. SUTCLIFFE, G. BIANCHI AND C. J. KENYON	236S

The molecular biology of autoantigens

Multiple copies of the idiotope from the V-88 autoantibody are present in germline DNA of both normal and lupus mice	J. BELLAMY, J. J. MURPHY AND N. A. STAINES	237S
Antigen presentation of type II collagen by B-cells	B. CATCHPOLE, A. S. HAMBLIN AND N. A. STAINES	238S

Generation of autoreactive CD4 T-cells in Lewis rats after immunization and culture with bovine type II collagen	K. GIBSON, J. S. LANCHBURY AND N. A. STAINES	239S
<hr/>		
Signalling and cell death		
<hr/>		
Induction of apoptosis within T-lymphoblastoid cells by a topoisomerase I inhibitor	N. JOHNSON, T. T. C. NG AND J. M. PARKIN	240S
Activation of phosphatidylinositol 3-kinase following Fas engagement is not required for Fas-mediated apoptosis in Jurkat T-cells	J. D. MCLEOD, L. S. K. WALKER, R. V. PARRY, S. G. WARD AND D. M. SANSOM	241S
The regulation of apoptosis in resting T-lymphocytes	D. PILLING, A. N. AKBAR, N. SHAMSADEEN, P. A. BACON AND M. SALMON	242S
Regulation of granulocyte apoptosis by protein kinase C inhibition and elevation of $[Ca^{2+}]_i$	J. M. COUSIN, C. HASLETT AND A. G. ROSSI	243S
Transforming growth factor- β increases the inhibitory effects of granulocyte/macrophage colony-stimulating factor and dexamethasone on neutrophil apoptosis	C. WARD, S. HANNAH, E. R. CHILVERS, S. FARROW, C. HASLETT AND A. G. ROSSI	244S
Interleukin-10 does not directly affect the constitutive rate of human neutrophil or eosinophil apoptosis	C. WARD, J. MURRAY, L. BRUCE, S. FARROW, E. R. CHILVERS, S. HANNAH, C. HASLETT AND A. G. ROSSI	245S
Effect of the protein phosphatase inhibitors okadaic acid and calyculin A on dexamethasone-mediated inhibition of neutrophil apoptosis	J. M. COUSIN, C. HASLETT AND A. G. ROSSI	246S
Regulation of human T-lymphocyte proliferative responses by the lipxygenase product 15-HETE	J. M. BAILEY, M. FLETCHER, J. Y. VANDERHOEK AND A. N. MAKHEJA	247S
α Galactoside-binding protein inhibits B-cell growth and induces cell apoptosis	J. J. MURPHY, T. STEVANIN, D. S. SCHOENDORF, V. WELLS AND L. MALLUCCI	248S
Glutamine utilization by rat neutrophils	T. C. P. CURI, M. P. DE MELO, R. B. DE AZEVEDO AND R. CURI	249S
<hr/>		
Signalling processes in haematopoietic cells		
<hr/>		
Induction of tumour necrosis factor- α and interleukin-1 β mRNA in monocytes by methylglyoxal- and advanced-glycated-endproduct-modified human serum albumin	L. WEBSTER, E. A. ABORDO, P. J. THORNALLEY AND G. A. LIMB	250S
Expression of haematopoietic cell markers by retinal pigment epithelial cells and Muller cells	W. RUSSELL, R. D. HOLLIFIELD, A. J. WEST, M. R. STANFORD AND G. A. LIMB	251S
Activated N-Ras causes differentiation of K562 cells	D. JENKINSON, T. R. RUTHERFORD AND T. C. GORDON-SMITH	252S
Inhibition of neutrophil priming by inhibitors of farnesyl transferase	M. A. ELMORE, R. H. DANIELS, M. E. HILL AND M. J. FINNEN	253S
Differentiation-dependent switch in signalling pathways initiated by Fc γ R1	A. MELENDEZ, M. M. HARNETT AND J. M. ALLEN	254S
<hr/>		
Trafficking		
<hr/>		
Interactions with T-cells induce expression of VCAM-1 by human intrahepatic endothelial cells <i>in vitro</i>	C. ARVIEUX, G. McNAB AND D. H. ADAMS	255S

Cultured human intrahepatic endothelial cells stimulate alloproliferative responses in highly purified CD4 and CD8 ⁺ T-cells <i>in vitro</i>	C. ARVIEUX, G. McNAB, M. HATHAWAY AND D. H. ADAMS	256S
Vascular adhesion protein-1 and intercellular adhesion molecule-1 mediate T-cell binding to human hepatocellular carcinoma	K. F. YOONG, A. WILLIAMS, S. G. HUBSCHER, M. SALAMI, S. JALKANEN AND D. H. ADAMS	257S
Selective migration of highly differentiated primed T-cells across human umbilical vein endothelial cells	N. J. BORTHWICK, A. N. AKBAR, L. P. MACCORMAC, M. SALMON AND K. L. YONG	258S
Intracellular and cell-surface mapping of HLA-DR in the presence and absence of the invariant chain	K. TRIANTAFILOU, K. M. WILSON AND N. FERNANDEZ	259S
Purification of L-selectin ligands synthesized by rat peripheral lymph nodes and cultured high endothelial cells	C. J. DERRY, K. R. MORDSLEY, G. PREECE AND A. AGER	260S
Adhesion molecules used by T-lymphoblasts to interact with cultured high endothelial cells	C. FAVEEUW, M. DI MAURO AND A. AGER	261S

Innate immune mechanisms

Antimalarial activity of nitric oxide: cytostasis and cytotoxicity towards <i>Plasmodium falciparum</i>	A. W. TAYLOR-ROBINSON	262S
Natural killer cell evolution: studies on <i>Xenopus</i>	T. L. HORTON, P. RITCHIE, M. D. WATSON AND J. D. HORTON	263S

Tumour immunology

Interleukin-8 as a growth factor for human colorectal carcinoma cells <i>in vitro</i>	R. BREW, J. S. ERIKSON, D. C. WEST, B. F. FLANAGAN AND S. E. CHRISTMAS	264S
Interleukin-1 gene expression in human mammary tumour xenografts after treatment with hexadecylphosphocholine	O. SAFA, S. M. PARKIN AND M. C. BIBBY	265S
HLA class I alterations in head and neck squamous cell carcinoma	A. K. MURRAY, A. R. VORA, A. J. PARKER, R. START AND R. C. REES	266S
An assessment of cytokines expressed during antibody-mediated killing of colorectal tumour cells using murine and humanized antibodies	K. M. GASKELL, N. ABDULLAH, J. GREENMAN AND J. R. T. MONSON	267S
Isolation of anti-colorectal tumour antibodies from a phage-display library	K. P. TOPPING, J. GREENMAN AND J. R. T. MONSON	268S

Three-dimensional imaging of cells and membranes

Intracellular colocalization of the translationally controlled protein P23 with cytoskeletal structures	Y. GACHET, M. LEE, B. SAWITZKI, S. TOURNIER, T. POULTON AND U.-A. BOMMER	269S
---	--	-------------

Effector mechanisms

Anti-proliferative effect of interleukin-6 on transitional cell carcinoma of the bladder. Insight into mechanisms of Bacille Calmette-Guérin immunotherapy	A. B. ALEXANDROFF, J. BLACK, K. ESUVARANATHAN AND K. JAMES	270S
--	--	-------------

Phenotypic and functional analyses of fresh and recombinant interleukin-2 cultured tumour-infiltrating lymphocytes derived from malignant human liver tumours	K. F. YOONG AND D. H. ADAMS	271S
<hr/>		
Pathogens and host response		
Large-scale comparison of adjuvant effects on immunogenicity and protection in a herpes simplex virus type 1 vaccination model	J. R. SIMMS, A. W. HEATH, V. J. RICHARDSON AND R. JENNINGS	272S
Cellular and humoral immunity to foot-and-mouth disease virus and its non-structural proteins in infected swine	A. COOK, H. ANGOVE, L. CEDILLO-BARRON, M. FOSTER-CUEVAS AND R. M. E. PARKHOUSE	273S
Immunogenicity and reactogenicity of a recombinant human papillomavirus 6 fusion protein vaccine adjuvanted with monophosphoryl lipid A	S. THOMPSON, M. DAVIES, T. O'NEILL, F. HOLDING, A. MANN, G. MARTIN, C. VARLEY, M. WATTS, J. BEECH, S. J. THOMPSON, G. LEESMAN AND T. ULRICH	274S
Cellular immune response to foot-and-mouth Disease Virus	L. CEDILLO-BARRON, A. CHILDRESTONE, A. COOK, M. FOSTER-CUEVAS AND R. M. E. PARKHOUSE	275S
<i>In vivo</i> analysis of immune responses to <i>Cryptococcus neoformans</i> : role of interferon- γ in host resistance	P. J. AXTON AND G. J. BANCROFT	276S
<i>Theileria annulata</i> 'superantigen' activity: T-cell receptor usage by responding bovine CD4 ⁺ cells from uninfected donors	J. D. M. CAMPBELL, G. C. RUSSELL, R. E. NELSON, R. L. SPOONER AND E. J. GLASS	277S
Herpes virus-specific immune responses in individuals experiencing recurrent genital herpes	C. M. BOSWELL, I. A. DUNCAN, J. UTTRIDGE, C. SONNEX AND J. K. HICKLING	278S
Early immune events following experimental infection of lambs with <i>Mycobacterium avium</i> subspecies <i>paratuberculosis</i>	I. M. BEGARA-MCGORUM, L. A. WILDBLOOD AND D. G. JONES	279S
<i>In situ</i> localization of immunocompetent cells in <i>Fasciola hepatica</i> infestation in rats and mice	H. E. WHELAN, M. M. FADIEL, P. JOYCE AND J. L. KELLY	280S
Immunogenic properties of human papillomavirus type 16 (HPV-16) E5 polypeptide	D. GILL, J. CASON AND N. A. PUNCHARD	281S
Expression of interleukin-10 mRNA in herpes simplex virus-infected keratinocytes <i>in vivo</i> and <i>in vitro</i>	K. E. HALLIDAY, R. C. MCKENZIE AND M. NORVAL	282S
Equine dendritic cell infection with equid herpes virus type 1 reduces their ability to support mitogenic T-cell proliferation	E. M. SIEDEK, N. EDINGTON AND A. S. HAMBLIN	283S
Comparison of peripheral blood phenotype in pathogenic and attenuated simian immunodeficiency virus infection	J. L. LINES, K. B. WALKER, N. M. ALMOND, E. J. STOTT AND R. J. STEBBINGS	284S
Cytokine profiling of simian immunodeficiency virus (SIV) infection of <i>Cynomologus</i> macaques. Pathogenic SIVmac251 pJ5C versus non-pathogenic attenuated SIVmac251 pC8C reveals divergence	R. J. STEBBINGS, J. L. LINES, N. M. ALMOND, E. J. STOTT AND K. B. WALKER	285S
C-reactive protein increases C3 deposition on <i>Leishmania donovani</i> promastigotes in human serum	F. J. CULLEY, M. THOMSON AND J. G. RAYNES	286S

Interferon- γ mediates host resistance in a murine model of melioidosis	P. SANTANIRAND, V. S. HARLEY, D. A. B. DANCE, J. G. RAYNES, B. S. DRASAR AND G. J. BANCROFT	287S
--	--	-------------

Hormones and cytokines

Paracrine enhancement of porcine to murine islet xenograft survival by simultaneous foetal pancreas and foetal liver isografts	E. C. SQUIERS, M. HODELL, D. G. TICE, G. A. ADAMS AND D. C. DAFOE	288S
Observations on the biological reactivity of recombinant ovine interleukin-5 (rovIL-5)	L. M. STEVENSON AND D. G. JONES	289S
Interleukin-4 induces myofibroblast differentiation in synovial fibroblasts	D. L. MATTEY	290S
Modulation of bovine T-cell responses by interleukin-12 and the influence of interleukin-4 on interferon- γ responses to respiratory syncytial virus	E. B. CAMON, P. J. CHAPLIN, C. J. HOWARD AND R. A. COLLINS	291S
The effect of hyperoxia on the expression of cytokine mRNA in endothelial cells	R. S. DARRINGTON, D. J. GODDEN, M. S. PARK, S. H. RALSTON AND H. M. WALLACE	292S
Interleukin-4 and UV-light-induced immunosuppression	A. A. EL-GHORR, A. H. PROCTOR AND M. NORVAL	293S
The differential effect of various cytokines on Jar cell proliferation	R. K. JONES, J. N. BULMER AND R. F. SEARLE	294S
Sex differences in interleukin-4 synthesis by Balb/c mice in response to staphylococcal enterotoxin B	C. G. BOOTH AND A. M. ATKINSON	295S
Medroxyprogesterone acetate reduces the production of cytokines and serotonin involved in anorexia/cachexia and emesis by peripheral blood mononuclear cells of cancer patients	G. MANTOVANI, A. MACCIÒ, S. ESU, P. LAI, M. C. SANTONA, E. MASSA, D. DESSI, G. MELIS AND S. DEL GIACCO	296S
Enhancement of immunogenicity of recombinant antigens by production of a cytokine-antigen fusion protein for vaccination	A. L. MCCORMICK, M. S. THOMAS AND A. W. HEATH	297S
Pulmonary production of cytokines in sudden infant death syndrome	W. J. HOWAT, A. E. SEMPER, I. E. MOORE AND W. R. ROCHE	298S

B- and T-cell signalling

CD40 signalling in B-cell apoptosis and rescue	S. D. REID AND M. M. HARNETT	299S
Lipid signalling in lymphocyte activation and cell death	S. D. SEATTER, J. J. GILBERT AND M. M. HARNETT	300S
Newborn and adult CD4 ⁺ CD45RA ⁺ T-cells express similar tyrosine-phosphorylation profiles	E. RAINSFORD AND D. J. REEN	301S
T-cell antigen receptor signal transduction in CD45 ^l thymocytes	J. D. STONE, S. HOWLETT, K. F. BYTH, N. HOLMES AND D. R. ALEXANDER	302S
Altered protein tyrosine phosphorylation in rheumatoid T-cells that is mimicked by hydrogen peroxide	J. L. RITTER, S. P. YOUNG, R. H. MICHELL AND P. A. BACON	303S
A p38 mitogen-activated protein kinase inhibitor, SB203580, inhibits CD28-dependent T-cell proliferation and interleukin-2 production	S. G. WARD, R. V. PARRY, J. MATTHEWS AND L. A. J. O'NEILL	304S
Phorbol esters modulate the coupling of the T-cell co-stimulatory molecule CD28 to phosphatidylinositol 3-kinase	R. V. PARRY, G. BOULOUGOURIS, D. M. SANSOM AND S. G. WARD	305S

Distinct mechanisms for rescue from apoptosis in Ramos human B-cells by signalling through CD40 and interleukin-4 receptor: role for inhibition of an early response gene, <i>Berg36</i>	Z.-Q. NING, J. D. NORTON, J. LI AND J. J. MURPHY	306S
T-lymphocyte activation and the cellular form of the prion protein, PrP ^C	N. A. MABBOTT, K. L. BROWN AND M. E. BRUCE	307S
Analysis of heat-shock protein 60 epitopes in transgenic mice	S. G. NEWTON AND D. M. ALTMANN	308S

Basic and clinical aspects of autoimmunity

A self-peptide with poor stimulatory activity induces T-cell tolerance in a self-reactive human T-cell clone	S. QUARATINO AND M. LONDEI	309S
Framework and CDR structures of anti-DNA antibodies are implicated in antigen binding	F. J. WARD, B. MESHI AND N. A. STAINES	310S
T-cell cytokine responses to cartilage aggrecan in Balb/c mice	H. I. MCKEE, M. G. WARNOCK, C. LAYCOCK, A. G. DIAMOND, H. BRAMWELL AND J. A. GOODACRE	311S
T-cell subsets in autoimmune haemolytic anaemia	R. N. BARKER, C.-R. SHEN, G. MAZZA, F. E. PERRY, A. M. HALL AND C. J. ELSON	312S
Serum galactosyltransferase as a marker of disease activity in rheumatoid arthritis	A. ALAVI AND J. S. AXFORD	313S
Individuals from multiplex insulin-dependent diabetes mellitus families express higher levels of TCRBV2S1 than controls	T. PAUL, J. SHEFTA, S. GILBEY, J. A. TODD, F. LANCASTER AND A. W. BOYLSTON	314S
Iron in synovial fluid: removal by lactoferrin, and relationship to iron regulatory protein (IRP) activity	C. GUILLEN, I. B. MCINNES AND J. H. BROCK	315S
Active immunization with anti-DNA autoantibody idiotopeptide 88H.64-80 is nephritogenic in (NZB × NZW)F1 and Balb/c mice	C. A. HOWE, B. HARTLEY, D. G. WILLIAMS, S. MULLER AND N. A. STAINES	316S
Antibodies to lactoferrin: a possible link between cow's milk intolerance and autoimmune disease	J. H. BROCK, A. LAMONT, D. J. BOYLE, E. R. HOLME, C. MCSHARRY, J. E. G. BUNN AND B. LÖNNERDAL	317S
Functionality of inducible MHC II expression by specialized non-lymphoid cells	R. MAILE, K. A. ELSEGOOD AND C. M. DAYAN	318S
Complement is involved in the mechanism of insulin-dependent diabetes mellitus-serum-induced pancreatic β -cell cytotoxicity	E. M. CARAHER AND P. NEWSHOLME	319S
Anti-cardiolipin antibodies in blood donors	J. A. PANTON AND D. C. KILPATRICK	320S
A human monoclonal anti-endothelial cell autoantibody uses a V _H gene associated with an anti-DNA autoantibody	Z. A. YAZICI, M. BEHERENDT, M. GOODFIELD, L. J. PARTRIDGE AND N. J. LINDSEY	321S

Immunoglobulins and mechanisms of mucosal immunity

The comparison of the neutrophil respiratory burst elicited by human secretory IgA or serum IgA	A. B. HUTCHINGS AND M. A. KERR	322S
Mutagenesis of J-chain residues critical for IgA dimer assembly	S. KRUGMANN, R. J. PLEASS, J. D. ATKIN AND J. M. WOOF	323S

Immunoglobulin genes from human duodenal and colonic plasma cells are mutated	D. K. DUNN-WALTERS, L. BOURSIER, P. J. CICLITIRA AND J. SPENCER	324S
Smoking and immune responses in pigeon fanciers' lung	C. I. BALDWIN, J. E. CALVERT, A. TODD, S. BOURKE AND A. ALLEN	325S
A single diversified V _H gene family dominates the bovine immunoglobulin repertoire	R. AITKEN, J. GILCHRIST AND M. C. SINCLAIR	326S
Multiple transcripts of human IgA Fc receptor CD89 in neutrophils, eosinophils and the monocyte-like cell line THP-1	R. J. PLEASS, J. I. DUNLOP AND J. M. WOOF	327S
Probing the Fc α R-binding site on IgA by mutagenesis of the IgA Fc region	R. J. PLEASS, C. M. ANDERSON, J. I. DUNLOP AND J. M. WOOF	328S
The effect of mutagenesis of the human IgA1 hinge residue Thr-228 on cleavage by IgA-specific proteases	M. R. BATTEN, B. W. SENIOR AND J. M. WOOF	329S
Development of a human IgA antibody specific for the tumour antigen TAG-72	P. E. INGRAM, R. J. OWENS AND J. M. WOOF	330S
Purification of high M _r forms of IgA1 from human serum: demonstration of binding to human B-lymphocytes	B. C. BONNER AND M. A. KERR	331S
Differential activation of peripheral blood monocytes using various forms of human IgA	E. FURRIE, B. C. BONNER, A. B. HUTCHINGS, M. L. LANG AND M. A. KERR	332S
Human neutrophil Fc α R and Fc γ RIIa but not Fc γ RIIIb generate intracellular calcium signals that trigger the respiratory burst	M. L. LANG, M. J. GLENNIE AND M. A. KERR	333S
Characterization of serum and mucosal antibodies against <i>Helicobacter pylori</i>	P. D. P. MCBRIDE, A. T. PRACH, B. W. SENIOR, F. E. MURRAY AND M. A. KERR	334S
Characterization of gene expression following intranasal immunization with nucleic acid	C. M. BARNFIELD, L. GAO, S. PARKER, R. WARD AND L. S. KLAVINSKIS	335S
Mucosal delivery of nucleic acid elicits both cellular and humoral immunity	L. GAO, C. M. BARNFIELD, S. PARKER, R. WARD AND L. S. KLAVINSKIS	336S
Potential of particulate carriers for the mucosal delivery of DNA vaccines	H. O. ALPAR, Y. OZSOY, J. BOWEN, J. E. EYLES, B. R. CONWAY AND E. D. WILLIAMSON	337S
Cellular and humoral responses to microencapsulated <i>Yersinia pestis</i> subunit vaccines following oral delivery	G. J. SHARP, J. E. EYLES, E. D. WILLIAMSON, M. R. W. BROWN AND H. O. ALPAR	338S
Influence of maternal nutrition and stress on gut permeability to immunoglobulin in newborn lambs	J. C. HODGSON, S. M. RHIND AND D. J. FLINT	339S
A single oral dose of inactivated rotavirus and ISCOM matrices induces partial protection in lambs	L. A. H. VAN PINXTEREN, I. CAMPBELL, C. J. CLARKE, D. R. SNODGRASS AND M. G. BRUCE	340S
Mechanisms of immunity to the respiratory pathogen <i>Bordetella pertussis</i> in normal and gene-knockout mice: clearance of primary infection is not enhanced by therapeutic interleukin-12	B. P. MAHON, M. RYAN, F. GRIFFIN AND K. H. G. MILLS	341S

Lipids as regulators of cell function

Protective mechanisms by ω -6 lipids in experimental autoimmune encephalomyelitis (EAE) are associated with cytokines and eicosanoids	L. S. HARBIGE, L. LAYWARD, M. M. MORRIS AND S. AMOR	342S
--	---	-------------

Effect of ω -6 lipid-rich borage oil feeding on immune function in healthy volunteers	B. A. C. FISHER AND L. S. HARBIGE	343S
Transference of fatty acids from macrophages to lymphocytes in culture	C. M. PERES, P. I. H. DE BITTENCOURT, JR., M. DA COSTA AND R. CURI	344S
Macrophages transfer cholesterol to lymphocytes in culture	P. I. H. DE BITTENCOURT, JR. AND R. CURI	345S
Membrane phosphatidylcholine composition of human lymphocytes in neonates	A. MANDER, G. KEENLEYSIDE AND A. D. POSTLE	346S
Cytokine secretion by human T-cell clones is differentially regulated by eicosanoids	L. S. HARBIGE, L. LAYWARD, M. M. MORRIS AND S. AMOR	347S
Serum amyloid A has little effect on high-density lipoprotein (HDL) binding to U937 monocytes but may influence HDL-mediated cholesterol transfer	S. HAYAT AND J. G. RAYNES	348S
Lipids derived from the mevalonate pathway in HL-60 cells modulate the interactions of β 2 integrins with their ligands	M. E. HILL, R. H. DANIELS, M. A. ELMORE AND M. J. FINNEN	349S
The effect of chronic consumption of monounsaturated fat on immune function in middle-aged men	P. YAQOOB, J. M. E. KNAPPER, D. H. WEBB, C. M. WILLIAMS, E. A. NEWSHOLME AND P. C. CALDER	350S
Dietary fish oil diminishes the antigen-presentation activity of rat dendritic cells	P. SANDERSON, G. G. MACPHERSON, C. H. JENKINS AND P. C. CALDER	351S

Strategies used by viruses to evade their hosts' immune systems

Studies on the down-regulation of MHC class I gene expression in adenovirus-transformed cells	N. J. PHILPOTT, J. A. PROFFITT AND G. E. BLAIR	352S
The mechanism of down-regulation of MHC class I antigens in highly oncogenic adenovirus 12-transformed cells	K. T. HALL AND G. E. BLAIR	353S
Herpes virus saimiri CD59: baculovirus expression and characterization of complement inhibitory activity	J. C. BRAMLEY, A. DAVIES AND P. J. LACHMANN	354S
Protective immunity, but suppressed immune responses, to third-party antigens are generated in cotton rats during measles virus infection	S. NIEWIESK, I. EISENHUTH AND V. TER MEULEN	355S

Structure/function

CD44 expression in human breast cancer cell lines is related to oestrogen receptor (ER) status and confluency <i>in vitro</i>	J. BOLODEOKU, K. YOSHIDA, T. SUGINO, M. CHURCHMAN, A. WOODMAN, S. GOODISON AND D. TARIN	356S
Mutations to the α -2 domain of human class II molecules alters the efficiency of peptide loading and antigen presentation	A. LAMIKANRA, U. GRÜNEBERG, D. ALTMANN AND P. TRAVERS	357S
The state of aggregation of MHC class II molecules at the cell surface is temperature dependent	K. TRIANTAFILOU, K. M. WILSON, I. E. G. MORRISON, R. J. CHERRY AND N. FERNANDEZ	358S
Evidence for ubiquitin-mediated degradation of the DNA repair enzyme for O^6 -methylguanine in non-tumour-derived human cell and tissue extracts	G. N. MAJOR, M. BRADY, G. B. NOTARIANNI, J. D. COLLIER AND M. S. DOUGLAS	359S

Single particle imaging of cell-surface HLA-DR tetramers	K. M. WILSON, K. TRIANTAFILOU, I. E. G. MORRISON, R. J. CHERRY AND N. FERNANDEZ	360S
Scanning alanine mutagenesis of the second Ig domain of Fc γ RI indicates critical residues for ligand recognition	M. H. MCCARTHY-TROKE, P. T. HARRISON, I. CAMPBELL AND J. M. ALLEN	361S
Comparative analysis of phenylalanine hydroxylase A104D mutant, associated with variant phenylketonuria, and wild-type enzyme	P. J. WATERS, A. S. HEWSON, C. R. SCRIVER, E. P. TREACY, A. MARTINEZ, P. M. KNAPPSKOG AND M. A. PARNIAK	362S

Targeting cytotoxic immunotherapy

Are $\gamma\delta$ T-lymphocytes involved in intravesical Bacille Calmette-Guerin immunotherapy of bladder cancer?	A. B. ALEXANDROFF, J. BLACK, P. BOLLINA, K. ESUVARANATHAN AND K. JAMES	363S
<i>Ex vivo</i> generation and function of dendritic cells in multiple myeloma	S. PFEIFFER, S. SAMSON, J. APPERLEY AND R. GOODING	364S

Clinical immunology

Purification and characterization of soluble intercellular adhesion molecule-1 and its effect on cell-mediated cytotoxicity of bladder tumour cells	D. G. YOUNG, A. M. JACKSON AND K. JAMES	365S
Regulation of superoxide production in human polymorphonuclear leucocytes (PMNs)	Y. O'DOWD AND P. NEWSHOLME	366S
Investigation of the mechanisms of complement-mediated cell death in lymphocytes	C. E. O'TOOLE AND P. NEWSHOLME	367S
The enemy within. The role played by immuno-stimulated macrophages in the pathogenesis of insulin-dependent diabetes mellitus	C. MURPHY AND P. NEWSHOLME	368S
The use of an <i>in vitro</i> wound-healing model, the tri-layered skin equivalent, to study the effect of cytokines on the repopulation of the wound defect by fibroblasts and keratinocytes	R. O'LEARY, M. ARROWSMITH AND E. J. WOOD	369S
Comparison of IgA- α 1-antitrypsin levels in rheumatoid and reactive arthritis	L. J. SCOTT, P. T. DAWES AND D. L. MATTEY	370S
Selective migration of the human helper/inducer T-cell subset (CD4 ⁺) in Bacille Calmette-Guerin-induced arthritis	M. N. M. R. FARAHAT	371S
Effects of <i>Helicobacter pylori</i> colonization on the adherent gastric mucus barrier	L. OLIVER, J. L. NEWTON, N. JORDAN, P. GODDARD, P. DETTMAR, J. P. PEARSON AND A. ALLEN	372S

Methodology

Characterization of anti-IgG monoclonal antibody A57H by epitope mapping	P. N. NELSON, O. M. WESTWOOD, R. JEFFERIS, M. GOODALL AND F. C. HAY	373S
The universality of immuno-PCR for ultrasensitive antigen detection	M. CASE, G. N. MAJOR, M. F. BASSENDINE AND A. D. BURT	374S
An ELISA for the detection of antigen-specific rat IgE with improved sensitivity upon a conventional horseradish peroxidase-based ELISA method	G. S. MATTHEWS, K. MILLER, C. CREMINON AND J.-M. WAL	375S
The establishment of an animal model for the screening of food products with potentially allergenic constituents	K. MILLER, G. S. MATTHEWS, M. SMYTH AND R. FITZGERALD	376S
