

colloquia

663rd Meeting, University of Galway

colloquium: Molecular and Cellular Biology of the Bone

Messenger RNA transcripts coding for progesterone receptor A and B isoforms are expressed in human osteoblast cells	P. MACNAMARA AND H. C. LOUGHREY	1
Osteoclast differentiation and activity	G. D. ROODMAN	7
Transcriptional control of osteoblast differentiation	J. B. LIAN, G. S. STEIN, J. L. STEIN AND A. J. VAN WIJNEN	14
Osteogenesis: bone development from primitive progenitors	J. T. TRIFFITT, C. J. JOYNER, R. O. C. OREFFO AND A. S. VIRDI	21
The recombinant expression of bone morphogenetic protein type IA receptor (<i>Alk3</i>) in mesenchymal progenitors C3H10T$\frac{1}{2}$ is sufficient for osteo-/chondrogenic development	C. KAPS, J. LAUBER, W. JU, S. CZICHOS AND G. GROSS	27
Mechanisms of steroid action on osteoclasts and osteoblasts	M. J. OURSLER	33
Functions of nitric oxide in bone	P. V. HAUSCHKA AND P. D. DAMOULIS	39
Bone markers: overuse and much abuse	M. POWER	45

colloquium: Recombinant Antibodies and Receptors as Reagents and Drugs

Therapeutic uses of recombinant complement receptors	B. P. MORGAN, N. K. RUSHMERE AND C. L. HARRIS	49
Definition of the molecular mechanism of action of tissue-selective oestrogen-receptor modulators	D. P. McDONNELL	54

colloquium: Biochemical Aspects of Aggression and Depression

Models and responses in depression and aggression	J. P. KELLY AND B. E. LEONARD	61
--	-------------------------------	----

Molecular and Cellular Biology of the Bone		
Studies on progesterone receptor expression in human osteoblast cells	P. MACNAMARA, J. SKILLINGTON AND H. C. LOUGHREY	S1
Collagen cross-links levels and bone density in postmenopausal coeliac patients	M. CONWAY, A. O'RORKE, M. POWER AND F. STEVENS	S2
The expression of cartilage oligomeric matrix protein, thrombospondin-1, bone sialoprotein and osteopontin in calcified and non-calcified arterial lesions	C. FARRINGTON, I. S. D. ROBERTS, A. M. HEAGERTY AND A. E. CANFIELD	S3
Identification of genes expressed during the osteogenic differentiation of vascular pericytes <i>in vitro</i>	M. DOHERTY, R. P. BOOT-HANDFORD, M. E. GRANT AND A. E. CANFIELD	S4
Phage Display of Proteins and Peptides		
Serological antigen selection of phage-displayed colorectal tumour cDNA libraries	S. E. HUFTON, P. MOERKERK, A. DE BRUIJNE, J.-W. ARENDS AND H. R. HOOGENBOOM	S5
Glycated islet amyloid polypeptide shows a reduced inhibitory action on insulin secretion	F. P. M. O'HARTE, Y. H. A. ABDEL-WAHAB, J. M. CONLON AND P. R. FLATT	S6
Generation of a phage-display library to determine specificity of proteases	C. SCOTT, P. MONACI, B. WALKER AND A. WALLACE	S7
Phage display of antigenic peptides applied to vaccine design	C. FANUTTI, G. DEL POZZO, P. DE BERARDINIS, J. GUARDIOLA, L.-W. DENG AND R. N. PERHAM	S8
Atherosclerosis, Hypertension and Thrombosis		
Cytokine gene expression during monocyte macrophage maturation and foam-cell transformation	C. HOGAN, P. COLLINS AND D. SEXTON	S9
Investigation of methionine metabolism in peripheral blood mononuclear cells of Irish hyperhomocysteinaemic subjects	V. BETTS, P. B. COLLINS, R. MELEADY AND I. GRAHAM	S10
A latex agglutination assay for the detection of anti-streptokinase antibodies	B. BURKE, K. HERRON, N. MULVIHILL, D. FITZGERALD AND M. KANE	S11
The suppression of lipoprotein lipase expression in J774.2 macrophages by interferon- γ and tumour necrosis factor- α is mediated at the transcriptional level	T. S. T. MUHAMMAD, T. R. HUGHES, A. CRYER AND D. P. RAMJI	S12
Regulation of macrophage lipoprotein lipase expression by lipopolysaccharide	T. S. T. MUHAMMAD, T. R. HUGHES, A. CRYER AND D. P. RAMJI	S13
Characterization of a prothrombinase activator on the hepatoma-derived cell line PLC/PRF/5	M. E. LEACH, P. BOLTON, M. SETHI, G. F. SAVIDGE AND A. ALHAQ	S14
Promoter sequence of rat thimet oligopeptidase	S. MCCOOL AND A. R. PIEROTTI	S15
An antibody-lectin sandwich assay for asialo-low-density-lipoprotein levels in atherosclerosis	A. MCDOWELL, I. S. YOUNG AND G. B. WISDOM	S16
A molecular approach for stroke prevention	A. D. KHATTAB, T. S. GREWAL, R. R. DILS, I. S. ALI, S. G. DARKE AND M. Z. RANA	S17
Stability of type VIII collagen homotrimers: comparison with $\alpha 1(X)$	C. ILLIDGE, C. M. KIELTY AND C. A. SHUTTLEWORTH	S18
Secondary structure of a fibrillin-1 eight-cysteine motif	C. DYER, C. A. SHUTTLEWORTH, T. WESS, A. BRASS AND C. M. KIELTY	S19

Coronary heart disease risk assessment in the Kocaeli region of Turkey	G. HERGENÇ, T. ÖZSÜLLÜ AND A. UZUN	S20
Validated method for total homocysteine determination	B. P. SOLOMON, C. DUDA AND A. C. MANN	S21
The influence of platelet-derived growth factor on lipoprotein lipase gene expression	G. CREEDON, D. SEXTON, M. GRIFFIN, N. O'MEARA AND P. COLLINS	S22
<hr/>		
HORMONE GROUP		
Corticosterone influences the <i>N</i> -methyl-D-aspartate (NMDA) receptor antagonist MK-801-induced hyperactivity in the rat	D. G. HEALY, J. P. KELLY AND B. E. LEONARD	S23
The effect of fluid shear stress on osteoblast precursor cells	Z. V. HAZELHURST, M. KITANO, J.-H. KUIPER, J. B. RICHARDSON AND B. A. ASHTON	S24
Differential bone morphogenetic protein expression by pluripotent bone-marrow stromal stem cells	V. L. CHURCH, B. HARVEY AND B. A. ASHTON	S25
<hr/>		
PROTEIN & PEPTIDE SCIENCE GROUP		
Probing the stability of the tertiary structure of glutamate dehydrogenase by limited proteolysis	S. AGHAJANIAN, M. HOVSEPYAN, K. F. GEOGHEGAN, B. A. CHRUNYK AND P. C. ENGEL	S26
Construction and investigation of co-operativity in hybrids of norleucine- and glutamate-active subunits of clostridial glutamate dehydrogenase	A. GOYAL, S. AGHAJANIAN, B. M. HAYDEN, X.-G. WANG AND P. C. ENGEL	S27
A non-specific soluble dipeptide hydrolase from guinea-pig brain	F. M. KEANE AND G. O'CUINN	S28
Purification of an extracellular proteinase from <i>Staphylococcus sciuri</i> S4 found on the surface of Tilsit cheese	R. O'HALLORAN, W. BOCKELMANN AND G. O'CUINN	S29
Neurokinin A analogues with conformational constraint	F. L. ÖTVÖS, D. S. GEMBITSKY, R. F. MURPHY AND S. LOVAS	S30
Gly-(CSNH)-Phe resists hydrolysis by membrane dipeptidase	J. McELROY, D. J. S. GUTHRIE, N. M. HOOPER AND C. H. WILLIAMS	S31
Design, synthesis and properties of conformationally restricted lipid mimetics	P. M. BONZOM, G. TOTH AND W. A. GIBBONS	S32
Production and characterization of anti-coumarin scFv antibodies	A. J. KILLARD, G. J. KEATING AND R. O'KENNEDY	S33
NMR studies of the extracellular loop of the β subunit of the high-affinity IgE receptor	M. ZLOH, D. ESPOSITO AND W. A. GIBBONS	S34
Molecular modelling of the IgE receptor loops-lipid interaction	D. ESPOSITO, M. ZLOH AND W. A. GIBBONS	S35
Studies on the aggregation and secondary structure of peptides derived from non-A β component of Alzheimer's disease amyloid	G. B. IRVINE, O. M. A. EL-AGNAF, A. M. BODLES, D. J. S. GUTHRIE AND P. HARRIOTT	S36
<hr/>		
Recombinant Antibodies and Receptors as Reagents and Drugs		
Targeting of doxorubicin-loaded liposomes to T-cells via the transferrin receptor	P. CORLEY AND H. C. LOUGHREY	S37

Recombinant anti-polyamine antibodies	J. S. JOHNSTON AND D. S. ATHWAL	S38
Production of Fab' fragments and Fab'-steroid complexes suitable for crystal growth	K. R. MADDEN, J. P. GOSLING, T. HIGGINS AND M. KANE	S39
Biotinylation of tumour necrosis factor for use in receptor studies	T. A. BURKE, N. V. MCFERRAN, B. WALKER AND M. I. HALLIDAY	S40
Development of a sensitive ELISA for myoglobin detection in the early diagnosis of acute myocardial infarction	P. M. MCCARTHY, M. KANE AND J. P. GOSLING	S41
Antibody affinity and the detection limit of solid-phase enzyme immunoassay	T. O'CONNOR AND J. P. GOSLING	S42
Superoxide dismutase activity of antibodies purified from the human arteries and atherosclerotic lesions	I. PETYAEV, M. M. J. MITCHINSON, J. V. HUNT AND P. J. COUSSONS	S43

BIOCHEMICAL IMMUNOLOGY GROUP

A computer model of the LFA-3-CD2 complex	B. O. NUALLAIN AND G. H. GRANT	S44
Pitfalls of using organic solvents in biological systems	C. A. RYAN, N. V. MCFERRAN, B. WALKER AND M. I. HALLIDAY	S45
Cytokine processing by transformed and non-transformed cell types	C. A. RYAN, N. V. MCFERRAN, B. WALKER AND M. I. HALLIDAY	S46
Isolation of single-chain variable fragment (scFv) antibodies against synthetic peptide fragments of human cathepsin S	M. A. MEIGHAN, P. HARRIOTT, N. MCFERRAN, A. WALLACE AND B. WALKER	S47
Anti-peptide antibodies to epitopes masked by the carbohydrate moieties in transferrin	E. R. TRIMBLE, N. V. MCFERRAN AND G. B. WISDOM	S48
New reagents for the study of perforin synthesis, storage and processing	J. I. HOPKINS, J. JONES, G. GRIFFITHS AND B. P. MORGAN	S49
Non-lethal effects of perforin on polymorphonuclear leukocytes	J. I. HOPKINS, J. JONES AND B. P. MORGAN	S50
Development and characterization of anti-peptide antibodies to rat lipopolysaccharide-binding protein	B. P. D. MCELHATTON, P. E. ERWIN, P. HARRIOTT, N. V. MCFERRAN, G. B. WISDOM AND M. I. HALLIDAY	S51
Modulation of metalloproteinase expression in trophoblast cell lines by cytokines	M. MORGAN AND S. McDONNELL	S52
Immunoregulatory role of natural autoantibody in health and disease	C. G. H. BELL	S53
Characterization of immunoglobulins with specificity against non-self-antigens and of autoantibody in physiological immune responses (7S/19S)	C. G. H. BELL	S54
Role of autoantibody (7S/19S) in the physiological immune response	C. G. H. BELL	S55
Binding and signalling properties of a growth-hormone-enhancing monoclonal antibody	J. BEATTIE, J. MOCKRIDGE, S. BRAMANI, H. DAVIES, N. MARSHALL AND P. E. BUCKLE	S56

MOLECULAR AND CELLULAR PHARMACOLOGY GROUP

Antioxidant status and DNA damage in patients with insulin-dependent diabetes mellitus	M. P. A. HANNON, C. HUGHES, M. J. O'KANE, K. W. MOLES, C. R. BARNETT AND Y. A. BARNETT	S57
The role of dietary manipulation in the control of aggression in pigs	M. S. BURROWS, B. W. MOSS AND V. E. BEATTIE	S58

<i>In vitro</i> toxicological assessment of mixtures of organic solvents of industrial importance	J. McINTOSH AND J. J. A. HEFFRON	S59
---	----------------------------------	------------

GLYCOBIOLOGY GROUP

Enzymic deglycosylation of casein micelles in bovine milk	R. M. MCGUIRK AND B. F. MASTERSON	S60
---	-----------------------------------	------------

LIPID GROUP

The effect of a conjugated dienoic derivative of linoleic acid on the <i>in vitro</i> growth of MCF-7 and SW480 human cancer cell lines	M. O'SHEA, R. DEVERY, C. STANTON AND F. LAWLESS	S61
---	---	------------

The effect of a conjugated linoleic acid on superoxide dismutase, catalase and glutathione peroxidase in oxidatively challenged liver cells	H. CANTWELL, R. DEVERY, C. STANTON AND F. LAWLESS	S62
---	---	------------

MOLECULAR ENZYMOLOGY GROUP

An investigation of thymidine kinase I from normal and transformed mammary cell lines	F. BRITTON, B. MUNCH-PETERSEN, R. HOFBAUER AND Y. A. BARNETT	S63
---	--	------------

Hepatic phenylalanine hydroxylase of <i>Clethrionomys glareolus</i> Schreber as a bioindicator of pollution	J. DONLON, B. FALLON, P. BARRETT, O. CARROLL, P. HENDERSON AND J. S. FAIRLEY	S64
---	--	------------

Mutations of human medium-chain acyl-CoA dehydrogenase	S. UDVARI, P. BROSS, B. S. ANDRESEN, N. GREGERSEN AND P. C. ENGEL	S65
--	---	------------

A comparison of some of the methods available for analysing the substrate dependence of the exchange of the α -protons of amino acids catalysed by pyridoxal-phosphate-dependent enzymes	J. P. G. MALTHOUSE, T. B. FITZPATRICK AND M. M. MAHON	S66
---	---	------------

Synthesis of benzyloxycarbonylglycylglycine-phenylalanine <i>p</i> -nitroanilide and an evaluation of its potential as a substrate for δ -chymotrypsin and subtilisin BPN	D. B. O'SULLIVAN, E. MURPHY, T. P. O'CONNELL, E. A. MURPHY AND J. P. G. MALTHOUSE	S67
--	---	------------

An attempt to cyanilate the thiol group of BSA with ^{13}C -enriched cyanide and to observe the thiocyanate carbon by ^{13}C -NMR	D. A. HEALY, M. M. MAHON AND J. P. G. MALTHOUSE	S68
---	---	------------

Quenching of β -lactoglobulin fluorescence by 2-nitro-5-thiobenzoic acid	P. PHELAN AND J. P. G. MALTHOUSE	S69
--	----------------------------------	------------

Effect of the bulk solvent on the pK_a values of the oxyanions of serine protease derivatives	T. P. O'CONNELL AND J. P. G. MALTHOUSE	S70
---	--	------------

Affinity chromatography of bacterial D-lactate dehydrogenases	S. O'REILLY, M. O'DONNELL AND P. O'CARRA	S71
---	--	------------

Purification and properties of psychrophilic dehydrogenases	J. A. IRWIN, G. A. ALFREDSSON, H. M. GUDMUNDSSON AND P. C. ENGEL	S72
---	--	------------

Experimental evidence for the formation of a complex between butyryl-CoA dehydrogenase and the 'electron-transferring flavoprotein' ETF	A. PARKER AND P. C. ENGEL	S73
---	---------------------------	------------

Cysteine-lysine ion pairs in yeast pyruvate carboxylase	M. J. HEADLAM AND P. V. ATTWOOD	S74
---	---------------------------------	------------

NEUROCHEMICAL GROUP		
α 1-Proteinase inhibitor and α 1-chymotrypsin inhibitor in Alzheimer's disease	S. M. CAREY, C. FOY, A. P. PASSMORE AND G. B. WISDOM	S75
NUCLEIC ACIDS & MOLECULAR BIOLOGY GROUP		
Report on a longitudinal study of <i>hprt</i> mutant frequency <i>in vivo</i> in a group of healthy humans	C. A. WARNOCK, M. B. E. LIVINGSTONE, E. S. GILLESPIE, C. R. BARNETT AND Y. A. BARNETT	S76
Rapid membrane capture PCR-based method for detection of <i>Listeria</i> species	L. O'CONNOR, J. JOY, T. SMITH, M. MAHER AND M. KANE	S77
Inappropriate expression of the yeast transcription factor Ace2p affects cell growth	C. O'CONALLAIN, T. DOOLIN AND G. BUTLER	S78
Mutational spectrum of phenylketonuria in Ireland	K. A. O'DONNELL, C. A. O'NEILL, P. MAYNE, E. NAUGHTEN AND D. T. CROKE	S79
Stable expression for investigation of possible differential activity of two polymorphic forms of the human arginine-specific ADP-ribosyltransferase	M. YADOLLAHI-FARSANI, P. KEFALAS, B. A. SAXTY AND J. MACDERMOT	S80
Arginine-specific ADP-ribosyltransferase of human polymorphonuclear neutrophil leucocytes: cDNA cloning and identification of a polymorphic site in the coding region	P. KEFALAS, M. YADOLLAHI-FARSANI, B. A. SAXTY AND J. MACDERMOT	S81
REGULATION IN METABOLISM GROUP		
The formation and secretion of cholesteryl esters in rat hepatocytes are reduced by lovastatin and simvastatin	M. J. MARTÍNEZ, M. L. HERNÁNDEZ, E. ISUSI, P. ASPICHUETA AND B. OCHOA	S82
Correlation of rat hepatic phenylalanine hydroxylase with concentrations of tetrahydrobiopterin and of GTP	J. DONLON, G. A. WALSH AND T. GUERIN	S83
A coupled enzyme assay for <i>myo</i> -inositol	R. B. O'NEILL, S. A. DILLON AND P. M. MORGAN	S84
Does urea synthesis play a role in bicarbonate disposal?	A. L. LARDNER AND D. J. O'DONOVAN	S85
TECHNIQUES GROUP		
A comparison between the application of the comet assay and an immunochemical DNA-damage assay on the level of DNA damage within X-ray-irradiated human whole blood	I. D. LOGAN AND Y. A. BARNETT	S86
