TRANSACTIONS

666th Meeting, University of Sheffield

Zeneca Award Lecture

New Tricks with Isotopically Enriched Oligosaccharides

CIBA Medal Lecture

Regulatory Roles of the Nuclear Membrane

colloquia

Polyamines: Specific Metabolic Regulators or Multifunctional Polycations?

Phagocyte Recognition of Dead and Dying Cells

**Xenobiotic Pollution and Recovery by Natural Systems:
'The Biosphere Strikes Back'**

Expressing Membrane Proteins for Study

Advances in Ultracentrifuge Analysis

communications

■ *Biochemical Society Transactions* (ISSN 0300-5127) is published by Portland Press Ltd on behalf of the Biochemical Society. Three parts contain the lectures and colloquia presented at a meeting of the Biochemical Society or one of its constituent interest groups and, occasionally, the colloquia of other scientific meetings of biochemical interest held in the U.K. or elsewhere. Three parts contain abstracts of the presentations at the Biochemical Society's meetings. Submitted primary research papers are not published and authors are reminded that detailed presentation of new experimental data may prejudice its subsequent publication in precisely that same form elsewhere. Lectures and colloquium contributions are published subject to editorial acceptance and authors will be issued with instructions on the format of their article before the meeting. Authors intending to present posters at Society meetings should consult the instructions for authors which appear with the Society's membership journal, *The Biochemist*. Although the publication of colloquia is by invitation, organizers of scientific meetings who would be interested in publishing their colloquia presentations in the journal are invited to discuss this possibility with the Honorary Meetings Secretary in the first instance.

■ For information about the advantages of membership of the Biochemical Society, contact the Executive Secretary, The Biochemical Society, 59 Portland Place, London W1N 3AJ, U.K. (telephone 0171-580 5530).

■ Editorial and publishing office: *Biochemical Society Transactions*, 59 Portland Place, London W1N 3AJ, U.K. (telephone 0171-637 5873; fax 0171-323 1136; e-mail edit@portlandpress.co.uk).

■ Royal Mail International, c/o Yellowstone International, 87 Burlews Court, Hackensack, NJ 07061, U.S.A.

Subscription rates

■ Subscriptions department: Portland Press, P.O. Box 32, Commerce Way, Colchester CO2 8HP, U.K. (telephone 01206-796351; fax 01206-799331; e-mail sales@portlandpress.co.uk). Subscription rates for volume 27, parts 1-6 (1999):

	North America	Rest of world
Volume 27	\$285.00	£167.00
Single issues	\$75.00	£45.00

Subscribers to the *Biochemical Journal* may take a joint subscription to that journal and to *Biochemical Society Transactions*, saving \$25 (North America) or £15 (rest of world), or to *Biochemical Society Transactions* and *Biotechnology and Applied Biochemistry*, saving \$34 (North America) or £20 (rest of world). North American subscription rates include airfreight delivery, and those for Japan include Accelerated Surface Post; other overseas locations are serviced by surface mail. Air-speeded delivery is available at extra cost (please ask for details). Back issues are available.

■ All rights reserved. Apart from any fair dealing for the purposes of research or private study, or criticism or review, as permitted under the Copyright, Designs and Patents Act, 1988, this publication may be reproduced, stored or transmitted, in any form or by any means, only with the prior permission in writing of the publishers, or in the case of reprographic reproduction in accordance with the terms of permissions granted by the copyright clearing houses such as the Copyright Licensing Agency (U.K.) or the Copyright Clearance Center (U.S.A.). The CCC item-fee code for this publication is 0300-5127/98/\$8.50+0.00. Inquiries concerning reproduction outside those terms should be sent to the publishers at the London address.

■ Although, at the time of going to press, the information contained in this publication is believed to be correct, neither the authors nor the publisher nor the editor assume any responsibility for any errors or omissions herein contained.

■ Display advertising is accepted; information is available on request from the London office of Portland Press.

■ Periodicals postage paid at Rahway, NJ, and at additional mailing offices.

■ Postmaster: send address changes to *Biochemical Society Transactions*, c/o Mercury International, 365 Blair Street, Avenel, NJ 07001.

■ Typeset by Unicus Graphics Ltd, Horsham, and printed in Great Britain by Whitstable Litho Printers Ltd, Kent.

class A scavenger receptors and, 639
cytokine production and, 653
ICAM-3 and CD14 in, 644
- Aquaporin-1, packing of, 509
- Aquatic environment, biomonitoring in, markers in, 690
- Argentation TLC, to resolve fatty acid isomers, in test and commercial spreads, S176
- Arginine-specific ADP-ribosyltransferase, polymorphic forms of
cloning and identification of, S81
differential activity of, S80
- aroB*-encoded dehydroquinase synthase, S280
- Arterial calcification, cartilage oligomeric matrix protein, thrombospondin-1, bone sialoprotein, and osteopontin in, S3
- Arteries, antibodies purified from, superoxide dismutase activity of, S43
- Asialo-LDL level, antibody-lectin sandwich assay for, in atherosclerosis, S16
- Aspartate decarboxylase, mechanisms of, 310
- N*-methyl-D-Aspartic acid: *see N*-Methyl-D-aspartic acid.
- Aspergillus niger*
ferulic acid esterase in
active site residues in, S164
phenolic-sugar linkage specificity of, S167
feruloyl esterase stability in, S165
- Astrocyte, mitochondrial respiratory chain complex I activity in cellular ATP level and, S346
glutathione status and, S345
- Atherosclerotic lesion
antibodies purified from, superoxide dismutase activity of, S43
asialo-LDL level in, antibody-lectin sandwich assay for, S16
- ATP

- cellular level of, astrocytic mitochondrial respiratory chain complex I activity and, S346
mitochondrial synthesis of, indomethacin and, S161
- ATP-dependent proteasome pathway, in denervated muscle, β_2 -adrenergic blocker effect on, S311
- Autoantibodies, in immune response, S53, S54, S55
- Autosomal dominant polycystic kidney disease, PKD1 mutation in, S265
- AZT-sterol dicarboxylates, antiviral action and tissue uptake of, S390
- B cell apoptosis, during cell cycle, S337**
- Bacillus megaterium*, cytochrome *b5* interaction with flavocytochrome P-450 in, S212
- Bacillus stearothermophilus*, glycerol dehydrogenase from folding and unfolding of, S278 subunit interfaces in, S277
- Bacillus subtilis*, recombinant, yeast cell wall degradation by, S175
- Bacteria**
heterotrophic nitrification and aerobic denitrification by, redox proteins in, 401
lactate dehydrogenase of, affinity chromatography of, S71
purple, light-harvesting reaction centre of, crystallisation of, S160
- Bacterial sugar transport protein GalP, activity of, mutations and, S306
- Baculovirus-infected cells, muscarinic acetylcholine receptors in, N-glycosylation and, 704
- $\beta\alpha$ -Barrel glycosidase superfamily, cell wall degradation and, 190, 199
- Batroxobin, on kallikreins, S283
- Bcl-2
in colorectal carcinogenesis, 236
effects on apoptosis, cell growth, and telomerase activity, S313
- Bee venom, membrane binding of, 341
- Benzoyloxycarbonylglycylglycinephenylalanine *p*-nitroanilide, synthesis and functions of, S67
- $\beta\Omega 2$ spectrin, with GLUT4 vesicles, S107
- Bile acid transport
by hepatocyte canalicular ecto-ATPase CAM-105, S123
in *Xenopus* oocytes, after pig intestinal mRNA injection, S179
- Bile acid:fatty acid ratio, fatty acid absorption and, S178
- Biocarbonate, disposal of, urea synthesis and, S85
- Biochemical markers
of bone mineral density, collagen cross-links as, S2
of bone turnover, 45
of pollution, hepatic *Clethrionomys glareolus* phenylalanine hydroxylase as, S64
- Biomonitoring, of aquatic environment, 690
- Biopolymers, hydrodynamic data of, X-ray correlation with, 731
- Bioremediation
of contaminated soil, fungi in, 666
molecular approaches to, 694
of polychlorinated biphenyls, 686
- Biotin carboxylation, in pyruvate carboxylase, M^{2+} role in, S174
- Biotinyl protein ligase, swinging arms in, 299
- BipA, effect on calcium flux and intimin receptor phosphorylation, in *Escherichia coli*-infected epithelial cells, S225
- Biphenyls, polychlorinated, bioremediation of, 686
- Blood-brain barrier, immortalized model of
cellular differentiating agents and, S353
glutathione level and oxidative stress sensitivity in, S354
- Body size, in postmenopausal women, lipid metabolism and, S177
- Bone: *see also* Osteo entries.
nitric oxide functions in, 39
- Bone formation: *see* Osteogenesis.
- Bone marrow stromal stem cells, pluripotent, bone morphogenetic proteins in, S25
- Bone mineral density, biochemical markers of, collagen cross-links as, S2
- Bone morphogenetic protein(s), in pluripotent bone marrow stromal stem cells, S25
- Bone morphogenetic protein IA, in mesenchymal progenitors, osteo-/chondrogenic development and, 27
- Bone turnover, biochemical markers of, 45
- Botrytis cinerea*, lipid metabolism of, iprodione and, S155
- Bovine serum albumin, thiol group of, cyanylation of, S68
- Bowel, urea-nitrogen salvage in, 231
- Bradykinin, phospholipid signalling and, in epithelial cells, S229
- Brain**
mitochondria in, peroxynitrite-induced proton leak in, S332
of neonate, ischaemia-induced damage to mitochondrial complexes of, S343
oxidative protein damage in antioxidant plant extract effect on, S333
differential susceptibility to, S335
soluble dipeptide hydrolase in, S28
- Brain cells, cytoplasm of, peptide metabolism in, 279
- Brain lipids and mental disorders
apolipoprotein E in herpes simplex virus and, as Alzheimer's disease risk, 273
neurite growth and, 257
neuronal plasticity and, 262
cannabinoid receptors in, 267
docosahexaenoic acid in, fetal alcohol syndrome and, 246
phospholipase A_2 in, Alzheimer's disease and, 243
polyunsaturated fatty acids in, infant cognition and, 252
- Brain reaggregate culture, β -amyloid toxicity in, S240
- Breast cancer cells
conjugated linoleic acid and, S61, S62
thymidine kinase 1 in, S63
- BTF3 transcription factor, oestrogen receptor AF-1 function and, S252
- Butyric acid, effect on immortalized model of blood-brain barrier, S353
- Butyryl coenzyme A dehydrogenase, electron transferring flavoprotein connection with, S73
- Ca^{2+} -ATPase
anionic lipid and Ca^{2+} accumulation by, S234
sarcolemmal reticular E2-E1 transition of, mastoparan effect on, S305
phospholamban cytoplasmic region interaction with, S228
- Ca^{2+} /calmodulin protein kinase II inhibitor, okadaic acid-induced ACAT activation prevented by, S231
- CaLB domain, protein-protein and protein-lipid interactions of, S119
- Calcium
 Ca^{2+} -ATPase accumulation of, S234
- inhibition of Mg^{2+} -mediated trophoblast cell adhesion to extracellular matrix by, S92
transport of, in mammary tissue, during lactation, S389
- Calcium channel, calpastatin interaction with, S307
- Calcium flux, BipA effect on, in *Escherichia coli*-infected epithelial cells, S225
- Calcium pump, phospholipid structure and, 359
- Calcium stores, depletion of, phospholipase A_2 activation by, 345
- Calmodulin
regulation of actin and small synaptic vesicle interaction with synapsin I by, S110
synapsin IIb interaction with, S109
- Calpain proteolytic system, in skeletal muscle, S267
- Calpastatin, calcium channel interaction with, S307
- Calsequestrin, from skeletal muscle, oligomerisation of, S292
- Canalicular ecto-ATPase CAM-105, in hepatocyte, bile acid transport by, S123
- Cancer cells, polyamine acetylation and efflux in, S71
- Cannabinoid receptors, 267
- Carbohydrate metabolism, GIP and GLP-1 in, 216
- Carbohydrate moieties, in transferrin, anti-peptide antibodies to epitopes in, S48
- Carbohydrates, non-digestible fermentable, hepatic fatty acid metabolism and, 227
- Caricain D158N, kinetically influential ionisations of, S172
- Carnitine palmitoyltransferase, mitochondrial, hepatic ketogenic flux control by, S88
- L*-Carnitine transporter, sodium-dependent, in lactating mammary tissue, S96
- Cartilage oligomeric matrix protein, arterial calcification and, S3
- Casein micelles, enzymatic deglycosylation of, in bovine milk, S60
- Caspase, activation of, during myocardial ischaemia, S317
- Catalase, effect of conjugated linoleic acid on, in liver cells, S62
- Catalase-peroxidase, in *Mycobacterium tuberculosis*, S281
- Cathepsin S, synthetic peptide fragments of, scFv antibodies against, S47
- CBP, in glucocorticoid-induced gene repression, S255
- CD8⁺ T cells, receptor-mediated apoptosis of, by cholera-like enterotoxins, S338
- CD14, in macrophage phagocytosis of apoptotic cells, 644
- Cell cycle, B cell apoptosis during, S337
- Cell death, programmed: *see* Apoptosis.
- Cell functions, anionic phospholipids and, 378
- Cell growth, Bcl-2 effects on, S313
- Cell proliferation, CTP:cholinephosphate cytidyltransferase and, S219
- Cell wall
degradation of
cellulohydrolases of *Trichoderma reesei* in, 160, 173
cellulase structure and, 167
cellulases and xylanases in, 156
Clostridium thermocellum cellulosome in, 178
ferulic acid (feruloyl) esterase specificity in, 205
fungal cellulase kinetics in, 164

- glycosidase families in, 153
Pseudomonas cell wall hydrolases in, 185
 in *Ruminococcus flavefaciens*, S169
 starch-degrading enzymes in, structure, function, and protein engineering of, 198
 superfamilies in, 190, 199
 in yeast, by recombinant *Bacillus subtilis*, S175
 ferulate dimers in, S166
 Cell wall hydrolases, of *Pseudomonas*, cell wall degradation and, 185
 Cellobiohydrolases, of *Trichoderma reesei*, cell wall degradation and, 160, 173
 Cellular signalling, MAP kinase in, S254
 Cellulases
 in cell wall degradation, 156
 kinetics of, in cell wall degradation, 164
 structural studies of, 167
 Cellulosome, in *Clostridium thermocellum*, cell wall degradation and, 178
 Centrifugation
 analytical, 715
 modelling solution properties of macromolecules and particles in, 716
 in purification and characterisation of recombinant protein, 753
 analytical band, of protein and protein complexes, 745
 and ion-induced association of humic substances, 762
 Ceramide, PC12 apoptosis induced by, JNK in, S327
 Cerebrovascular accident, prevention of, molecular approach to, S17
 CFTR (cystic fibrosis transmembrane conductance receptor), 8-cyclopentenyl theophylline correction of, S112
 Chaperonin apical domain, from *Thermus aquaticus*, S250
 Cholera toxin, activity of, versus *Escherichia coli* enterotoxin, S364
 Cholesterol level, oestrogen effect on, dietary fish oil and, S150
 Cholesteryl esters, in hepatocytes, lovastatin and simvastatin effects on, S82
 Choline acetyltransferase, insulin-mediated stimulation of, in retina, S312
 Choline metabolism, neonatal, S94
 Chromatin, phosphatidylcholine synthesis associated with, S223
 C3H10T1/2, bone morphogenetic protein IA in, osteogenesis and, 27
 Chylomicron, enterocyte assembly and secretion of, 211
 Chylomicron remnants, from fish oil, binding and internalising of, S149
 α 1-Chymotrypsin inhibitor, in Alzheimer's disease, S75
 Cirrhosis patients, immunoaffinity-isolation of lecithin-cholesterol acyltransferase from, S147
 c-Jun
 insulin-mediated stimulation of, in retina, S312
 phosphorylation of, in cell transformation by ornithine decarboxylase, 621
 c-Jun N-terminal kinase, in ceramide-induced apoptosis in PC12 cells, S327
 Class A scavenger receptors, apoptotic cell phagocytosis and, 639
Clethrionomys glareolus, phenylalanine hydroxylase of, hepatic, as biomarker of pollution, S64
Clostridium symbiosum, glutamate dehydrogenase from
 norleucine activity of, S380
 subunit cooperativity in, S27
Clostridium thermocellum cellulosome, cell wall degradation and, 178
 Coagulation, Hageman factor and kallikrein availability and, S274
 Coagulative necrosis, S321
 Coeliac disease, bone density in, collagen cross-links as biochemical marker of, S2
 Colcemid, noradrenaline release and, in neuroblastoma, S111
 Collagen cross-links, as biochemical bone density, S2
 Collagen homotrimer, stability of, S18
 Colon
 luminal membrane of, monocarboxylate transporter isoform type 1 on, S120
 similarity of urea transporter isoforms to, across different species, S122
 Colon cancer
 conjugated linoleic acid and, S61
 replication error phenotypes in, S266
 Colorectal carcinogenesis
 Bcl-2 role in, 236
 colonocyte proliferation and apoptosis in, fish oil and, S158
 Colorectal carcinoma, faecal concentrations of biologically active diacylglycerols and, S187
 Colorectal tumours, antigen selection of, S5
 Complement receptors, recombinant, therapeutic uses of, 49
 Computer model, of LFA-3/CD2 complex, S44
 Conjugated linoleic acid
 effect on breast and colon cancer cells, S61, S62
 effect on superoxide dismutase, catalase, and glutathione peroxidase in liver cells, S62
 Connexins, synthesis and assembly of, into gap junction hemichannels, S304
 Contamination
 environmental, of milk, 106
 of soil
 biodegradative potential and activity in, 694
 fungi in bioremediation of, 666
 natural attenuation of, 657
 of soil and water, with explosives, degradation of, 680
 Copper
 homostasis of, S191
 in placenta cell, S99
 pre- and postnatal depletion of, neonatal mitochondrial cytochrome oxidase activities and, S350
 zinc superoxide dismutase and, in neurodegenerative disease, 476
 Coronary heart disease, risk of, in Turkey, S20
 Coumarin scFv antibodies, production and characteristics of, S33
 COVOL, for thermodynamic non-ideality problems, 737
 $^{13}\text{CO}_2$ breath test curve, colonic fermentation and deconvolution of, lactose [^{13}C]Ureide in, S184
Cryptococcus neoformans, superoxide dismutase from, partial DNA sequence of, S396
 Crystallographic data, calculation of hydrodynamic parameters from, 726
 Crystals, enzymic release of, from lipidic cubic phases, 709
 CTP:cholinephosphate cytidyltransferase
 cell proliferation and, S219
 membrane torque tension and, S230
 S phase depletion under, S222
 Cyclohexane-1,2,4-triol derivatives, 6-substituted, preparation and properties of, 315
 Cyclooxygenase, in myocardial ischaemia and infarction in isoprenaline-treated rabbits, S342
 8-Cyclopentenyl theophylline, CFTR antibody-inhibited mucin secretion and, S112
 Cyclosporin A, renal cell apoptosis induced by, intracellular signalling and, S344
 Cysteine conjugate β -lyase activity, amino acid decarboxylases and, S269
 Cysteine-lysine ion pairs, in yeast pyruvate carboxylase, S74
 Cystic fibrosis protein Δ F508-CTFR, common mutant of, cellular localisation of, S293
 Cystic fibrosis transmembrane conductance receptor, 8-cyclopentenyl theophylline correction of, S112
 Cytidyltransferase, membrane phospholipid composition sensing by, amphipathic helix in, S39
 Cytochalasin D, noradrenaline release and, in neuroblastoma, S111
 Cytochrome b5, flavocytochrome P-450 interaction with, in *Bacillus megaterium*, S212
 Cytochrome c
 in *Methylobacterium extorquens*, S210
 during myocardial ischaemia, S317
 ovalbumin complex formation with, 741
 Cytochrome c met80X mutant, in yeast, haem pocket flexibility and, S348
 Cytochrome c oxidase, nitric oxide as effector and substrate for, S323
 Cytochrome c552 nitrite reductase activity, *nrfEGF* gene products and, in *Escherichia coli*, S216
 Cytochrome oxidase activities, in neonatal mitochondria, pre- and postnatal copper depletion and, S350
 Cytokine(s)
 in foam cell transformation, S9
 macrophage lipoprotein lipase regulation by, S253
 macrophage production of, apoptotic cell phagocytosis and, 653
 in monocyte-macrophage maturation, S9
 processing of, by transformed and nontransformed cell types, S46
 trophoblast metalloproteinase expression and, S52
 Cytophilin-D, mitochondrial import of, S329
 Cytophilin-D-binding proteins, S330
 Cytoplasm, of brain cells, peptide metabolism in, 279
 5-m-Cytosine-DNA methyltransferases, structural flexibility of, S394
 Cytotoxic drugs, ornithine decarboxylase effects of, S372
 Daidzin, extraction of, from food, S87
 DDT, protease activity and, in *Musca domestica* and man, S356
 De-afferentation, apolipoprotein E and neuronal plasticity after, 262
 Dehydroquinase, mechanisms of, 310
 Dehydroquinase synthase, *aroB*-encoded, S280
 Denitrification, bacterial aerobic, redox proteins in, 401
 Density increment, to assess protein aggregation, 749
 Depression, biochemical aspects of, 61
 Depressive patient, red blood cell membranes of, docosahexaenoic acid in, S142
 Dexamethasone, effect on immortalized model of blood-brain barrier, S353

- Diabetes mellitus
 insulin-dependent: *see* Insulin-dependent diabetes mellitus.
 streptozotocin-induced, renal lipoxigenase activity and, S134
- Diacylglycerol, biologically active, faecal concentrations of, S187
- Diamine auxotrophy, in eucaryotic parasite, 606
- Diaphorase, NADH oxidation catalysed by, methylation and, S319
- Diet
 aggression and, S58
 gut flora and, 222
 polyamines in, uptake and interorgan distribution of, S369
- Diethylstilbestrol, oxidant-induced membrane phospholipid transformation inhibition by, S224
- Dimethyl sulphoxide, effect on immortalized model of blood-brain barrier, S353
- Dimethyl sulphoxide reductase from purple phototrophic bacteria, 390 in *Rhodobacter capsulatus*, stopped-flow studies of, S211
- Dimethylamine, urinary, trimethylamine N-oxide as source of, S182
- Dipeptide hydrolase, soluble, in brain, S28
- Dipyrromethane cofactor assembly, in porphobilinogen deaminase, S286
- DNA, triple helix formation in, S261
- DNA damage
 antioxidant status and, in IDDM patients, S57
 assays of, S86
- DNA methyltransferases, 5-m-cytosine, structural flexibility of, S394
- DNA synthesis, glucose-dependent, in retinal endothelial cells, protein kinase C iota and, S260
- Docosahexaenoic acid
 fetal alcohol syndrome and, 246
 nervous system function and, 364
 in red blood cell membranes of depressive patient, S142
- Dorsal root ganglion neurons, glutamate release from, S108
- Doxorubicin, liposomes loaded with, T cell targeting of, via transferrin receptor, S37
- Duodenum
 iron reduction and absorption by, glutathione and, S352
 iron uptake by, S388
 protein uptake by, S388
- Dystrophin
 flexible hinges in, S310
 in skeletal muscle, cross-linking analysis of, S291
- Education, in science and engineering, women in, S105
- Electron transferring flavoprotein butyryl coenzyme A dehydrogenase connection with, S73
 histidine modification in, S272
- Electrostatic screening, antagonistic effects between polyamines on membrane function after, S378
- Electrostatics, in bee venom and phospholipase A₂ binding to membrane, 341
- ELISA: *see* Enzyme-linked immunosorbent assay.
- Embryonic cell division, *Pax-3* in, S256
- Endoplasmic reticulum, in living cells, localisation of
 using green fluorescent protein chimeras, S298
 using SERCA/PMCA chimeras, S299
- Endothelial cells
 in liver, apoptotic peripheral blood lymphocyte recognition by, 635
 retinal, glucose-dependent DNA synthesis in, S260
 vascular
 IGF-I gene in, transcriptional regulation of, S365
 polyamine uptake by, S366
 spermine incorporation by, S367
- Endothelium, aorta relaxation dependent on, PPADS and, S131
- Endotoxin, VLDL metabolism and, in heart, S204
- Energy coupling, in *Escherichia coli* phosphotransferase system, 532
- Enterostatin
 molecular modelling studies of, S379
 structure of, S382
- Enterotoxins, receptor-mediated apoptosis of CD8⁺ T cells by, S338
- Enzyme(s): *see also* specific enzyme.
 in medical curriculum, S197
 oxygen activation by, 322
 tetrapyrrole macrocycle assembly by, 322
- Enzyme immunoassay, solid-phase, detection limits of, S42
- Enzyme-linked immunosorbent assay, myoglobin detection with, in early diagnosis of myocardial infarction, S41
- Epithelial cells
Escherichia coli-infected, BipA effect on calcium flux and intimin receptor phosphorylation in, S225
 of lens, apoptosis susceptibility of, S349
 phospholipid signalling in, sphingosine 1-phosphate and bradykinin effects on, S229
- ERK: *see* Extracellular signal-regulated kinase.
- Escherichia coli*
 5-aminolaevulinic acid dehydratase in, S285
 epithelial cells infected with, BipA effect on calcium flux and intimin receptor phosphorylation in, S225
 glucagon-like peptide-1 receptor in, S288
nrfEGF gene products and cytochrome c552 nitrite reductase activity in, S216
 penicillin-binding proteins from lipid interactions with, S296
 protein interactions with, S295
 periplasmic nitrate reductase of, S217
 phosphotransferase system of, energy coupling in, 532
 quinoprotein glucose dehydrogenase of, site-directed mutagenesis of, S270
- Escherichia coli* enterotoxin, activity of, versus cholera toxin, S364
- Estrogen: *see* Oestrogen.
- Explosives, nitrate ester and nitroaromatic, *Enterobacter cloacae* PB2 degradation of, 680
- Extracellular matrix, trophoblast cell adhesion to
 Mg²⁺ mediation of, Ca²⁺ inhibition of, S92
 transition metal cations and, S93
- Extracellular signal-regulated kinase, activation of, by FcγRI aggregation, S198
- Fab' fragments, for crystal growth, production of, S39
- Faeces, biologically active diacylglycerols in, S187
- Fat, dietary
 gastrointestinal transit adaptation to, S187, S189, S190
 in obesity pathogenesis, S186
- Fatty acid(s)
 absorption of, bile acid:fatty acid ratio and, S178
 effect on reactive oxygen intermediate formation and glioma cell apoptosis, S141
 long-chain
 in genes coding for neonatal liver enzymes, 113
 infant cognitive behaviour and, 252
 in neonatal nutrition, 98
 maternal, umbilical cord and fetal tissue composition and, S90
- Fatty acid isomers, resolution of, in test and commercial spreads, S176
- Fatty acid metabolism, hepatic, non-digestible fermentable carbohydrates and, 227
- Fatty acid synthase, Sp1 regulation of, S95
- Fatty acid translocator protein, in mammary tissue, S232
- Fatty acid-binding protein, liver, binding to anionic phospholipid vesicles by, S238
- Fatty acyl composition, of adrenal lipids, sexual dimorphism in, S218
- Fc receptor, antibody-engaging, iron-dependent immune regulation and, S200, S201, S202
- FcγRI aggregation, ERK activation by, S198
- Fe65 and XII protein families, Alzheimer's disease amyloid precursor protein interaction with, 497
- Ferric haemoglobin, hydrogen peroxide interaction with, S320
- Ferrozine, iron detectable by, in liver, during hypoxia and hypothermia, S102
- Ferulate dimers
 in plant cell walls, S166
 in wheat bran cell walls, enzymic hydrolysis of, S168
- Ferulic acid esterase in *Aspergillus niger*
 active site residues in, S164
 phenolic-sugar linkage specificity of, S167
 specificity of, cell wall degradation and, 205
- Feruloyl esterase, in *Aspergillus niger*, stability of, S165
- Fetal alcohol syndrome, docosahexaenoic acid and, 246
- Fetus
 hepatic 3-hydroxy-3-methylglutaryl-CoA synthase in, S89
 mechanism of placental nutrient exchange to, 86
 nutrient demand of, maternal adaptation to, 79
 placental metabolic inter-relationships with, 67, 75
 placental weight and, maternal nutrition and, 91
 tissue composition of, maternal fatty acids and, S90
- Fibre cells, of lens, apoptosis susceptibility of, S349
- Fibrillin-1, eight-cysteine motif of, secondary structure of, S19
- Fibrillogenesis, of β-amyloid, 459
- Fibroblast growth factor, basic, complex formation with its receptor, heparin in, 545
- Fish oil
 chylomicron remnants derived from, binding and internalising of, S149
 colonocyte proliferation and apoptosis and, in colorectal carcinogenesis, S158
 dietary, and oestrogen effect on cholesterol level, S150
 hepatic VLDL inhibition by, S183
- Flavocytochrome c3, structure and function of, 418

- Flavocytochrome P-450
cytochrome *b5* interaction with, in *Bacillus megaterium*, S212
mechanistic probes of, S213
- Flavoprotein
electron transferring
butyryl coenzyme A dehydrogenase connection with, S73
histidine modification in, S272
electron-transferring, in *Megasphaera elsdenii*, S214
- Flavoprotein redox partners, S271
- Flora, in gut, dietary modification of, 222
- Fluid shear stress, osteoblast precursor cells and, S24
- Foam cell, transformation of, cytokine gene expression in, S9
- Food, daidzin and genistin extraction from, S87
- Free radical analysis, during vascular surgery, S140
- Free radicals, nitric oxide interaction with, in schizophrenia, S143
- Fumarate reductase, from *Shewanella* NCIMB400, 418
- Fungal cellulases, kinetics of, in cell wall degradation, 164
- Fungi, for bioremediation of metal-contaminated soil, 666
- G protein, phospholipase $C_{\gamma 1}$ activity regulation by, in vascular smooth muscle, S132
- GalP, activity of, mutations and, S306
- Ganglion neurons, dorsal root, glutamate release from, S108
- Gap junction hemichannels, connexin synthesis and assembly into, S304
- Gastric inhibitory polypeptide, in macronutrient metabolism, 216
- Gastrointestinal transit, of high fat food, S187, S189, S190
- Genistin, extraction of, from food, S87
- Geometry, transition state, in papain and actinidin reactions, S171
- GH: *see* Growth hormone.
- GIP: *see* Gastric inhibitory polypeptide.
- Glioma cell, apoptosis of, roi formation and, effects of radiation and fatty acids on, S141
- GLP-1: *see* Glucagon-like peptide-1.
- Glucagon-like peptide 1, in macronutrient metabolism, 216
- Glucagon-like peptide-1 receptor, in *Escherichia coli*, S288
- Glucocorticoid receptor, transcriptional regulation of, tissue specificity of, S207
- Glucocorticoid-induced gene repression, CBP in, S255
- Glucose, GH secretion regulation by, in lactating sheep, S387
- Glucose and sodium co-transporter SGLT1, intestinal promoter of, S181
sugar analogue inhibition of, S180
- Glucose transport protein GalP, activity of, mutations and, S306
- Glucose transporter GLUT1, in glucose transport by A23187 and TPA, S289
- Glucose transporter GLUT4 vesicles, β II2 spectrin with, S107
- Glucose-dependent DNA synthesis increase, in retinal endothelial cells, protein kinase C ι and, S260
- Glutamate dehydrogenase
clostridial
norleucine activity of, S380
subunit cooperativity in, S27
tertiary structure stability of, S26
- Glutamate receptors, three-dimensional models of, 450
- Glutamate release, from dorsal root ganglion neurons, S108
- Glutathione
and duodenal iron reduction and absorption, S352
level of, in immortalized model of blood-brain barrier, S354
- Glutathione flush, effect on liver allograft rejection, S124
- Glutathione peroxidase, effect of conjugated linoleic acid on, in liver cells, S62
- Glutathione status, astrocytic mitochondrial respiratory chain complex I activity and, S345
- Glycans, genetically re-engineered, on IgG, S113
- Glyceraldehyde-3-phosphate dehydrogenase, oxyhaemoglobin stimulation of, S246
- Glycerol dehydrogenase, in *Bacillus stearothermophilus*
folding and unfolding of, S278
subunit interfaces of, S277
- Glycogen phosphorylase *b*, in skeletal muscle, self-association of, 766
- Glycolytic enzymes, in *Sulfolobus solfataricus*, S275
- Glycosidase families, in cell wall degradation, 153
- Gly-(CSNH)-Phe, resistance of, to hydrolysis by membrane dipeptidase, S31
- Green fluorescent protein, in investigation of protein kinase C down-regulation, S126
- Green fluorescent protein chimeras, to localise endoplasmic reticulum in living cells, S298
- Growth hormone
mammary glucose regulation by, S206
monoclonal antibody enhancement of, S56
secretion of, in lactating sheep, glucose regulation of, S387
treatment with, IGF-I concentration in milk and plasma after, S386
- Growth-sensitive genes, in placenta, S100
- GTP-binding protein, phospholipase $C_{\delta 1}$ regulation by, RhoA in, S128
- Guard cells, phosphoinositide signal transduction in, S397
- Gut in macronutrient metabolism
colorectal carcinogenesis and, Bcl-2 role in, 236
and dietary modification of gut flora, 222
enterocyte chylomicron assembly and secretion in, 211
GIP and GLP-1 in, 216
non-digestible fermentable carbohydrates in, hepatic fatty acid metabolism and, 227
and salvage of urea-nitrogen in bowel, 231
- H^+ leak, mitochondrial, superoxide generation and, S331
- Haem pocket flexibility, yeast iso-1-cytochrome *c* met80X mutant and, S348
- Haem P-460, of hydroxylamine oxidoreductase, phlorin structure for, 385
- Haem-containing domain, in succinate:quinone oxidoreductase, 408
- Haemoglobin, ferric, hydrogen peroxide interaction with, S320
- Haemopoietic progenitor cell, differentiation of, phospholipase A_2 activation during, S233
- Haemorrhoids, biochemical sphincterotomy for, S326
- Hageman factor, contact-induced coagulation and, S274
- Heart
monoamine oxidases in, S392
neonatal, β -oxidation in, S91
- VLDL metabolism in, endotoxin and, S204
- Heavy metal pollution: *see* Metal entries.
- Heparin, in complex formation between basic fibroblast growth factor and its receptor, 545
- Hepatocytes
after orthotopic liver transplantation, S125
canalicular ecto-ATPase CAM-105 in, bile acid transport by, S123
cholesteryl ester formation and secretion in, lovastatin and simvastatin effects on, S82
triacylglycerol in, lipolysis of, prostaglandin E_2 in, S159
- Hepatoma, PLC/PRF/5 cells derived from, prothrominase activator on, S14
- Herpes simplex virus
apolipoprotein E and, as Alzheimer's disease risk factors, 273
immediate early gene expression, regulation of, S258
- Histidine, modification of, in electron transferring flavoprotein, S272
- Histidine decarboxylase, posttranslational activation of, S377
- HMG-CoA reductase inhibition, UVB irradiation reaction with, smooth muscle cell proliferation and apoptosis, S322
- Homochirality, of amino acids, RNA aminoacylation and, S135
- Homocysteine
activation of, spermidine and, S374
total, determination of, S21
- Human immunodeficiency virus-1
negative factor, AP-1 induction and, S263
- Human immunodeficiency virus-1
protease, cloning, isolation, expression, and mutagenesis studies of, S287
- Humic substances, ion-induced association of, ultracentrifugation and, 762
- Huntington's disease
full length huntingtin in, S243
polyglutamine expansion and, 471
- Hydrodynamic parameters
of biopolymers, X-ray correlation with, 731
calculation of, from crystallographic data, 726
- Hydrogen peroxide
effects on squamous cell carcinoma, S347
ferric haemoglobin interaction with, S320
- Hydroxyamic acid-based inhibitors, inhibition of amyloid precursor protein and angiotensin-converting enzyme secretase by, S242
- Hydroxylamine oxidoreductase, haem P-460 of, phlorin structure for, 385
- 3-Hydroxy-3-methylglutaryl-CoA synthase, hepatic, gestational and neonatal expression of, S89
- Hyperactivity, MK-801-induced, S23
- Hyperinsulinaemia, as hyperleptinaemia precursor, S98
- Hyperleptinaemia, as hyperinsulinaemia precursor, S98
- Hypertension, phospholipase $C_{\gamma 1}$ activity in, S133
- Hypothermia, liver in, ferrozine-detectable iron in, S102
- Hypoxanthine phosphoribosyltransferase gene, mutation of, in healthy humans, S76
- Hypoxia, liver in, ferrozine-detectable iron in, S102

- IAPP: *see* Islet amyloid polypeptide.
 ICAM-3: *see* Intercellular adhesion molecule-3.
 IDDM: *see* Insulin-dependent diabetes mellitus.
 IFN- γ : *see* Interferon- γ .
 IGF-I: *see* Insulin-like growth factor I.
 Immunoglobulin A1, O-linked sugars of, lectin binding to, S384
 Immunoglobulin E receptor, β -subunit loop of
 lipid interaction with, S35
 NMR studies of, S34
 Immunoglobulin G
 genetically re-engineered glycans on, S113
 glycosylation of, physiological influences on, S114
 human, affinity purification of from immunoglobulin-binding domains of *Staphylococcus aureus* protein A, S249
 Inborn errors
 of ketogenesis, 136
 of metabolism, 141
 of mitochondrial β -oxidation, 145
 Indole-3-carbinol, as chemopreventive agent, action mechanisms of, S370
 Indomethacin
 and mitochondrial ATP synthesis, S161
 mitochondrial effects of, S315
 and mitochondrial oxygen uptake, in intestine, S162
 Industry, organic solvents in, S59
 Infant: *see also* Neonate.
 cognitive behaviour of, long chain polyunsaturated fatty acids and, 252
 feeding practices in, IgG levels and, S97
 preterm: *see* Neonate, preterm.
 Influenza A virus, M2 channel for, S303
 Influenza virus M2, membranes embedded with, molecular dynamics simulations of, 438
 myo-Inositol, coupled enzyme assay for, S84
 Inositol monophosphatase reaction, mechanistic probes for, 315
 Inositol trisphosphate receptor, thimerosal effect on, S290
 Insulin
 choline acetyltransferase and c-Jun stimulation by, in retina, S312
 effect of lipoprotein lipase in lactation, S145
 secretion of, glycosylated IAPP in, S6
 Insulin receptor, localisation and dynamics of, S294
 Insulin-dependent diabetes mellitus
 antioxidant status and DNA damage in, S57
 protein glycosylation and peripheral vascular disease in, S118
 Insulin-like growth factor I, in milk and plasma, after GH treatment, S386
 Insulin-like growth factor I gene, in vascular endothelial cells, transcriptional regulation of, S365
 Intercellular adhesion molecule-3, in macrophage phagocytosis of apoptotic cells, 644
 Interferon- γ , macrophage lipoprotein lipase suppression by, S12
 Intestine
 iron absorption by
 δ -aminolaevulinic acid and, S205
 genetics of, S264
 mitochondrial oxygen uptake in, indomethacin and, S162
 sodium/glucose co-transporter SGLT1 in
 promoter of, S181
 sugar analogue inhibition of, S180
 Intimin receptor phosphorylation, BipA effect on, in *Escherichia coli*-infected epithelial cells, S225
 Intra-uterine growth retardation, neonatal metabolic adaptation after, 123
 Ion channels
 dynamic properties of, S195
 ligand-gated, electrostatics of, S300
 molecular dynamics of, S301
 Iprodione, and lipid metabolism of *Botrytis cinerea*, S155
 Ireland, phenylketonuria mutations in, S79
 Iron
 accumulation of, ectopic expression of natural resistance-associated macrophage protein and, S199
 duodenal reduction and absorption of, S388
 glutathione and, S352
 immune regulation dependent on, antibody-engaging Fc receptors and, S200, S201, S202
 intestinal absorption of
 δ -aminolaevulinic acid and, S205
 genetics of, S264
 in placenta cell, S99
 from soybean, metabolism of, S247
 Iron homeostasis, S191
 γ -Irradiation, protease activity and, in *Musca domestica*, S355
 Ischaemia: *see also* Myocardial ischaemia.
 Ischaemia-induced damage, to neonatal brain mitochondrial complexes, S343
 Islet amyloid polypeptide, glycosylated, insulin secretion and, S6
 Iso-1-cytochrome c met80X mutant, in yeast, haem pocket flexibility and, S348
 Iso-FMN-apoflavodoxin complex, in *Desulfovibrio vulgaris*, S215
 Isoprenaline, in myocardial ischaemia and infarction, S342
 Isoprenylation, effect on saphenous vein smooth muscle cell proliferation inhibition, S324
 JNK: *see* c-Jun N-terminal kinase.
 K⁺ channel, voltage-gated
 argiotoxin-636 inhibition of, 614
 S4 and S4-S5 loop region structure in, S358
 Kallikrein
 batroxobin on, S283
 contact-induced coagulation and, S274
 Keratin promoters, in production of transgenic rat expressing nerve growth factor, S144
 Ketogenesis
 impaired hepatic, in neonate, 125
 inborn errors of, 136
 Ketogenic flux, hepatic, mitochondrial carnitine palmitoyltransferase control of, S88
 Kidney
 lipoxigenase activity in, in streptozotocin-induced diabetes, S134
 sodium/phosphate co-transporters in, S121
 Kidney disease, autosomal dominant polycystic, PKD1 mutation in, S265
 Lactate dehydrogenase, bacterial, affinity chromatography of, S71
 Lactation
 GH secretion during, glucose regulation of, S387
 infant signalling for, 103
 lipoprotein lipase in, insulin and serum effects on, S145
 mammary tissue during, calcium transport in, S389
 mammary tissue sodium-dependent L-carnitine transporter in, S96
 β -Lactoglobulin fluorescence, 2-nitro-5-thiobenzoic acid quenching of, S69
 Lactose ¹³C-ureide, as marker for colonic fermentation and deconvolution in ¹³CO₂ breath test curve, S184
 Latex agglutination assay, to detect antistreptokinase antibodies, S11
 LDL: *see* Low density lipoprotein.
 Lecithin-cholesterol acyltransferase catalytic stability of, S146
 immunoaffinity-isolation of, from cirrhosis patients, S147
 Lectin, binding to IgA1 O-linked sugars, S384
 Lens, epithelial and fibre cells of, apoptosis susceptibility of, S349
 Leptin, neuropeptide Y and receptor regulation by, S203
 Leucocytes, polymorphonuclear
 arginine-specific ADP-ribosyltransferase in, S81
 perforin effects on, S50
 LFA-3/CD2 complex, computer model of, S44
 Light scattering, quasi-elastic, in purification and characterisation of recombinant protein, 753
 Light-harvesting reaction centre, of purple bacteria, crystallisation of, S160
 Linoleic acid, conjugated
 effect on breast and colon cancer cells, S61, S62
 effect on superoxide dismutase, catalase, and glutathione peroxidase in liver cells, S62
 Lipase, in wheat seed, S152
 Lipid(s)
Botrytis cinerea metabolism of, iprodione and, S155
 in brain: *see also specific lipid*.
 dietary, gastrointestinal handling and metabolic partitioning of, S188
 metabolism of
 body size and, in postmenopausal women, S177
 GIP and GLP-1 in, 216
 peroxidation of
 testicular damage and, in experimental varicocele, S220
 during vascular surgery, S334
 in plasma, platelets, and erythrocytes of Watanabe heritable hyperlipidaemic rabbit, S148
 Lipid mimetics, design, synthesis, and properties of, S32
 Lipidic cubic phases, crystals from, enzymic release of, 709
 Lipopolysaccharide, macrophage lipoprotein lipase regulation by, S13
 Lipopolysaccharide-binding protein, anti-peptide antibodies to, S51
 Lipoprotein(s): *see also* Low density lipoprotein.
 lipoprotein lipase hydrolysis of, S237
 Lipoprotein lipase
 expression of, PDGF and, S22
 in lactation, insulin and serum effects on, S145
 lipoprotein hydrolysis by, S237
 in macrophages
 cytokine regulation of, S253
 IFN- γ and TNF- α suppression of, S12
 lipopolysaccharide regulation of, S13
 Liposomes, doxorubicin loaded on, T cell targeting of, via transferrin receptor, S37
 Lipoxigenase activity, renal, in streptozotocin-induced diabetes, S134

- Lipoxygenase pathway, reaction products of, in olive tissue, S154
- Lipoyl protein ligase, swinging arms in, 299
- Listeria* species, detection of, membrane capture PCR-based method for, S77
- Lithium, platelet function and, S391
- Liver
- cold stored, oxidative phosphorylation maintenance in, S351
 - fatty acid metabolism in, non-digestible fermentable carbohydrates and, 227
 - fatty acid-binding protein in, binding to anionic phospholipid vesicles by, S238
 - ferrozine-detectable iron in, during hypoxia and hypothermia, S102
 - 3-hydroxy-3-methylglutaryl-CoA synthase in, gestational and neonatal expression of, S89
 - impaired ketogenesis in, in neonate, 125
 - ketogenic flux in, mitochondrial carnitine palmitoyltransferase control of, S88
 - mitochondrial β -oxidative enzymes in inherited disorders of, 145
 - postnatal induction of genes coding for, 113
 - phenylalanine hydroxylase in *Clethrionomys glareolus*, as biomarker of pollution, S64
 - tetrahydrobiopterin and GTP correlation with, S83
 - secretion of VLDL by, fish oil inhibition of, S183
- Liver allograft, cellular rejection in, glutathione flush and, S124
- Liver cells
- effect of conjugated linoleic acid on superoxide dismutase, catalase, and glutathione peroxidase in, S62
 - endothelial, apoptotic peripheral blood lymphocyte recognition by, 635
- Liver disease, alcoholic, screening for protein G1528C mutation in, S103
- Liver transplantation, orthotopic, adhesion molecule activation and hepatocyte damage after, S125
- Lovastatin
- hepatocyte cholesteryl esters and, S82
 - saphenous vein smooth muscle cell proliferation inhibition by, isoprenylation and, S324
 - UVB irradiation reaction with, smooth muscle cell proliferation and apoptosis, S322
- Low density lipoprotein: *see also* Asialo-LDL level; Very low density lipoprotein.
- oxidation of, trans-monounsaturated fatty acid and, S156
- Low density receptor-related protein, in platelet, S244
- Lymphocyte responses, lysophosphatide acyltransferases and protein kinase C isoforms in regulation of, 370
- Lysine 2,3-aminomutase reaction, *S*-adenosylmethionine in, 304
- Lysine-cysteine ion pairs, in yeast pyruvate carboxylase, S74
- Lysophosphatide acyltransferase, lymphocyte response regulation and, 370
- M2 channel, for influenza A virus, S303
- Macrophages
- apoptotic cell phagocytosis by, 650
 - cytokine production and, 653
 - ICAM-3 and CD14 in, 644
 - lipoprotein lipase in
 - cytokine regulation of, S253
 - IFN- γ and TNF- α suppression of, S12
 - lipopolysaccharide regulation of, S13
 - maturation of, cytokine gene expression in, S9
- Magnesium
- in biotin carboxylation in pyruvate carboxylase, S174
 - trophoblast cell adhesion to extracellular matrix mediated by, Ca^{2+} inhibition of, S92
- Malignancy: *see also specific organ*.
- pleural effusion from, adenosine deaminase in diagnosis of, S163
- Malondialdehyde, in psoriatic lesions, S385
- Mammary glucose, GH regulation of, S206
- Mammary tissue
- fatty acid translocator protein in, S232
 - during lactation
 - calcium transport in, S389
 - sodium-dependent *l*-carnitine transporter in, S96
- MAP kinase: *see* Mitogen-activated protein kinase.
- Maple syrup urine disease metabolites, neural cell apoptosis and, S341
- Marine algae, adaptation of to heavy metal pollution, genetic mechanisms of, S153
- Mastoparan, effect on E2-E1 transition of sarcoplasmic reticulum Ca^{2+} -ATPase, S305
- Medical curriculum
- enzyme teaching in, conductimetry for, S197
 - integrated, "metabolism" assessment in, S196
- Megasphaera elsdenii*, electron-transferring flavoprotein in, S214
- Melanoma cells, polyamine analogue-mediated cell cycle responses in, 609
- Melittin-vitamin D-phospholipid, model membrane interactions of, S359
- Membrane, with embedded proteins and peptides, simulations of, 438
- Membrane phospholipid composition
- cytidyltransferase sensing of, amphipathic helix in, S39
 - oxidant-induced changes in, diethylstilbestrol inhibition of, S224
- Membrane polypeptides, helical structure and dynamics in, 444
- Membrane receptors, putative clonal expression analysis of, S363
- PCR-based methods of mRNA level of, S362
- Membrane torque tension, CTP:cholinephosphate cytidyltransferase and, S230
- Menopause, body size and lipid metabolism after, S177
- Mesenchymal progenitors, bone morphogenetic protein IA, osteo/chondrogenic development and, 27
- Metabolism, in medical curriculum, S196
- Metal cations, in trophoblast cell adhesion to extracellular matrix, S93
- Metal resistance, genes and proteins conferring, in antimicrobials, 662
- Metal-contaminated soil
- fungi as bioremediation agent in, 666
 - natural attenuation of, 657
- Metal-contaminated water
- biomonitoring of, 690
 - marine algae adaptation to, genetic mechanisms of, S153
- Metalloproteinase, in trophoblasts, cytokines and, S52
- Methionine, metabolism of, in PBMCs of hyperhomocysteinaemic subjects, S10
- Methylmalonyl-CoA mutase, structure and mechanism of, 293
- Methylobacterium extorquens*, cytochrome cH in, S210
- 6-Methylsalicylic acid synthase, incubation of with alternative starter units, lactone identification after, S284
- N*-Methyl-D-aspartic acid receptor antagonist, hyperactivity induced by, corticosterone and, S23
- Middle ear, MUC5B expression in, S117
- Milk
- bovine, enzymatic deglycosylation of casein micelles in, S60
 - environmentally contaminated, 106
 - IGF-I concentration in, after GH treatment, S386
- Mitochondria
- astrocytic, respiratory chain complex I activity in
 - cellular ATP level and, S346
 - glutathione status and, S345
 - ATP synthesis in, indomethacin and, S161
 - in brain, peroxynitrite-induced proton leak in, S332
 - cardiac, neonatal, β -oxidation in, S91
 - carnitine palmitoyltransferase in, hepatic ketogenic flux control by, S88
 - cytophilin-D import into, S329
 - H^+ leak in, superoxide generation and, S331
 - indomethacin effects on, S315
 - intestinal, oxygen uptake into, indomethacin and, S162
 - morphological abnormalities in, TNF induction of, S314
 - of neonate, cytochrome oxidase activities of, pre- and postnatal copper depletion and, S350
 - of neonate brain, ischaemia-induced damage to, S343
 - TNF-binding protein in, TNF trafficking to, S316
- Mitochondrial membrane potential, nitric oxide/nitrosodium cation effects on, in PC12 cells, S340
- Mitogen-activated protein kinase, in cellular signalling, S254
- MK-801, hyperactivity induced by, S23
- Modular science degrees, problem-based learning in, S104
- Monoamine oxidases, in heart, S392
- Monocarboxylate transporter isoform type 1, on luminal membrane of colon, S120
- Monoclonal antibody Spm9-2, against spermine, molecular analysis of, S368
- Monocytes, maturation of, cytokine gene expression in, S9
- Motor neurone disease, copper/zinc superoxide dismutase in, 476
- MUC5B, in middle ear mucosal glands, S117
- Musca domestica*, protease activity of
- DDT effects on, S357
 - γ -irradiation and, S355
 - organophosphate pesticides and, S356
- Muscarinic acetylcholine receptor in baculovirus-infected cells, N-glycosylation and, 704
- recombinant, purification of, S361
- Mycobacterium tuberculosis*, catalase-peroxidase from, S281
- Myocardial infarction, early diagnosis of, myoglobin detection ELISA in, S41
- Myocardial ischaemia, cytochrome *c* and caspase activation during, S317
- Myocardial ischaemia and infarction, isoprenaline and cylooxygenase roles in, S342
- myo*-Inositol, coupled enzyme assay for, S84

- NADH, diaphorase-catalysed oxidation of, methylation and, S319
- Natural resistance-associated macrophage protein, ectopic expression of, iron accumulation and, S199
- Necrotic cells, phagocytosis of, ABCI in, 629
- Nef: *see* HIV-1 negative factor.
- Neonate: *see also* Infant.
 brain of, ischaemia-induced damage to mitochondrial complexes of, S343
 brown adipose tissue in, 120
 cardiac mitochondria of, β -oxidation in, S91
 choline metabolism in, S94
 hepatic 3-hydroxy-3-methylglutaryl-CoA synthase in, S89
 impaired hepatic ketogenesis in, 125
 inborn errors in
 of ketogenesis, 136
 of metabolism, 141
 lactation signalling from, 103
 metabolic adaptation of, after preterm delivery or intra-uterine growth retardation, 123
 mitochondrial cytochrome oxidase activities of, pre- and postnatal copper depletion and, S350
 nutrition in
 early, 69
 environmentally contaminated milk in, 106
 long-chain polyunsaturated fatty acids in, 98
 total parental, 131
 very low birth weight and, 75
 premature, atopic status and infant feeding practices in, IgG levels and, S97
 preterm, metabolic adaptation in, 123
 Nerve growth factor, production of transgenic rat expressing, using cell type-specific keratin promoters, S144
- Nervous system, docosahexaenoic acid and, 364
- Neural cell apoptosis, maple syrup urine disease metabolites induction of, S341
- Neurite growth, apolipoprotein E and, 257
- Neuroblastoma, noradrenaline release in, effects of cytochalasin D and colcemid on, S111
- Neurodegenerative disease
 copper,zinc superoxide dismutase in, 476
 tau protein and α -synuclein deposits in, 463
- Neurokinin A analog, conformational constraint of, S30
- Neuronal plasticity, apolipoprotein E and, in de-afferentation and Alzheimer's disease, 262

 of colon tumour cDNA, antigen selection of, S6
 to determine protease specificity, S7
- Phagocytosis, of necrotic and apoptotic cells
 ABC1 in, 629
 class A scavenger receptors and, 639
 cytokine production and, 653
 ICAM-3 and CD14 in, 644
- Pharmaceuticals, mammalian transmembrane receptors in, 699
- Phenol-sugar linkage, specificity of, in *Aspergillus niger* ferulic acid esterase, S167
- Phenylalanine hydroxylase
 hepatic
 in *Clethrionomys glareolus*, as biomarker of pollution, S64
 tetrahydrobiopterin and GTP correlation with, S83
 mutant and wild-type, degradation rates of, S276
- Phenylketonuria, mutational spectrum of, in Ireland, S79
- Phosphatidic acid, molecular species of, mass spectrometric analysis of, S226
- Phosphatidylcholine synthesis, chromatin-associated, S223
- Phosphatidylethanolamine N-methyltransferase, survival of, in evolution, 337
- Phosphoinositide
 in guard cells, signal transduction by, S397
 hydrolysis of, phospholipase C structure and, 354
- Phospholamban
 cytoplasmic region of, sarcoplasmic reticular Ca-ATPase interaction with, S228
 transmembrane domain of, S194
- Phospholipase A₂
 activation of
 by depletion of internal calcium stores, 345
 during haemopoietic progenitor cell differentiation, S233
 active site mutant of, S239
 Alzheimer's disease and, 243
 membrane binding of, 341
- neutrophil, adrenaline-induced inhibition of, S235
 phospholipid vesicle hydrolysis by, phospholipase D and, S236
 regulation of, by phosphorylation, 350
- Phospholipase C, structure of, phosphoinositide hydrolysis and, 354
- Phospholipase Cδ₁, GTP-binding protein regulation of, RhoA in, S128
- Phospholipase Cγ₁, activity
 G protein regulation of, in vascular smooth muscle, S132
 in wistar kyoto vs spontaneously hypertensive rats, S133
- Phospholipase D, and phospholipase A₂
 hydrolysis of phospholipid vesicles, S236
- Phospholipid(s)
 acidic, mmolecular species of, in surfactant, S227
 anionic, cell function and, 378
 composition of, cytidyltransferase sensing of, 539
 oxidant-induced transformation of, diethylstilbestrol inhibition of, S224
 structure of, calcium pump function and, 359
- Phospholipid bilayers
 α-helices in, S309
 peptide interactions with, simulation studies of, S302
- Phospholipid signalling, in epithelial cells, sphingosine 1-phosphate and bradykinin effects on, S229
- Phospholipid vesicles
 anionic, liver fatty acid-binding protein binding to, S238
 phospholipase A₂ hydrolysis of, phospholipase D and, S236
- Phospholipid-vitamin D-melittin, model membrane interactions of, S359
- Phosphorylase b, in skeletal muscle, self-association of, 766
- Phosphotransferase system, of *Escherichia coli*, energy coupling in, 532
- Photoreaction centre, from *Rhodobacter sphaeroides*, protein engineering of, 422
- Phototrophic bacteria, purple, dimethylsulphoxide reductase from, 390
- pKa values, of serine protease derivative oxyanions, bulk solvent and, S70
- PKD1 mutation, in autosomal dominant polycystic kidney disease, S265
- Placenta
 cellular copper and iron interactions in, S99
 fetal metabolic inter-relationships with, 67, 75
 growth-sensitive genes in, S100
 nutrient exchange across, mechanisms of, 86
 weight of, fetal weight and, maternal nutrition and, 91
- Plaque formation, in Alzheimer's disease, S251
- Platelet(s)
 lithium and, S391
 low density receptor-related protein in, S244
 of Watanabe heritable hyperlipidaemic rabbit, lipids in, S148
- Platelet-derived growth factor
 lipoprotein lipase gene expression and, S22
 smooth muscle cell apoptosis induced by, in saphenous vein, S325
- PLC/PRF/5 cells, prothrombinase activator on, S14
- Pleural effusion, in malignancy and tuberculosis, adenosine deaminase in distinguishing between, S163
- Poly(ADP-ribose) synthetase inhibitors, in protection of renal proximal tubular cells against oxidant stress, S318
- Polyamine(s)
 acetylation and efflux of, in cancer cells, 571
 S-adenosylmethionine decarboxylase regulation by, 580
 antagonistic effects between on membrane function, after electrostatic screening, S378
 antibody interactions with, S375
 dietary, uptake and interorgan distribution of, S369
 homeostasis of, antizyme modifications and, 591
 metabolic pathways of, 569
 nitric oxide interaction with, in schizophrenia, S143
 in pregnancy, S101
 transport of
 chemical highlights of, 595
 in spider toxin inhibition of voltage-activated K⁺ current, 614
 uptake of, by vascular endothelial cells, S366
- Polyamine analogues
 cell cycle responses mediated by, in melanoma cells, 609
 cytotoxicity of, S371
- Polyamine antibodies, recombinant, S38
- Polyamine oxidases, functions of, 586
- Polychlorinated biphenyls, bioremediation of, 686
- Polyclonal catalytic antibody, catalytic site content of, S170
- Polyethylene glycol, α-toxin conductance and, S193
- Polyglutamine expansion, Huntington's disease and, 471
- Polymerase chain reaction, to detect *Listeria* species, S77
- Polymorphonuclear leucocytes
 arginine-specific ADP-ribosyltransferase in, S81
 perforin effects on, S50
- Polypeptide(s), membrane, helical structure and dynamics in, 444
- Porin, membranes embedded with, molecular dynamics simulations of, 438
- Porphobilinogen deaminase, dipyrromethane cofactor assembly in, S286
- Potassium: *see also* K⁺ channel.
- PPADS: *see* Pyridoxal phosphate-6-azophenyl-2,4-disulphonic acid.
- Pre- and post-partum nutrition and metabolism
 after preterm delivery or intra-uterine growth retardation, 123
 early, 69
 environmentally contaminated milk in, 106
 in fetus and very small infant, 75
 fuel selection in, 79
 impaired neonatal hepatic ketogenesis in, 125
 inborn errors in
 of ketogenesis, 136
 of metabolism, 141
 of mitochondrial β-oxidation, 145
 induction of neonatal genes coding for liver enzymes in, long-chain fatty acids in, 113
 lactation signalling between mother and offspring in, 103
 long-chain polyunsaturated fatty acids and, 96
 maternal nutrition and disproportionate placental-to-fetal growth in, 91
 mechanisms of maternofetal placental exchange in, 86

- neonatal brown adipose tissue in, 120
 placental-fetal metabolic inter-relationships in, 67, 75
 total parental nutrition in, in surgical neonate, 131
- Pregnancy, polyamines in, S101
- Presenilins
 familial, detergent screening and processing of, S241
 functionality of, 491
- Prion, three-dimensional structure of, 481
- Prion-like inheritance mechanism, Sup35 amyloid fibres and, 486
- Problem-based learning, in modular science degrees, S104
- Progesterone receptor, in osteoblast cells, S1, 1
- Prostaglandin E₂ and intracellular lipolysis of hepatocyte triacylglycerol, S159
- Protease
 in *Musca domestica*
 DDT effects on, S357
 γ -irradiation effect on, S355
 organophosphate pesticide effects on, S356
 specificity of, phage display library in, S7
- Proteasome, structure and activity of, in plants and other eucaryotes, S395
- Protein
 aggregation of, assessment of with density increment, 749
 duodenal uptake of, S388
 4.1 isotypes of, distribution and activities of, S106
 glycosylation of, peripheral vascular disease and, in IDDM, S118
 G1528C mutation of, in alcoholic liver disease, S103
 recombinant, purification and characterisation of, 753
- Protein kinase C
 in apoptosis, S336
 down-regulation of, green fluorescent protein in investigation of, S126
- Protein kinase C ι , and glucose-dependent DNA synthesis increase in retinal endothelial cells, S260
- Protein kinase C isoforms, lymphocyte response regulation and, 370
- Protein p120^{GAP} CaLB domain, protein-protein and protein-lipid interactions of, S119
- Protein systems, analytical band centrifugation of, 745
- Proteinase, staphylococcal, on Tilsit cheese surface, S29
- α 1-Proteinase inhibitor, in Alzheimer's disease, S75
- Prothrombinase, activator on, on hepatoma-derived cells, S14
- Proton leak, in brain mitochondria, peroxynitrite-induced, S332
- Pseudomonas*, cell wall hydrolases of, structure and function of, 185
- Pseudomonas aeruginosa* cosmid library, S282
- Pseudomonas syringae*, tabtoxin peptide bond in, S383
- Psoriatic lesions, tissue malondialdehyde in, S385
- Psychrophilic dehydrogenase, purification and properties of, S72
- Purple bacteria, light-harvesting reaction centre of, crystallisation of, S160
- Purple phototrophic bacteria, dimethylsulphoxide reductase from, 390
- Putrescine uptake, by *Trypanosoma granulosum*, S376
- Pyridoxal phosphate-6-azophenyl-2,4-disulphonic acid, endothelial-dependent aorta relaxation and, S131
- Pyridoxal phosphate-dependent enzymes, amino acid α -proton exchange and, S66
- Pyrroloquinoline quinone, quinoprotein dehydrogenases containing, 413
- Pyruvate carboxylase
 biotin carboxylation in, M²⁺ role in, S174
 yeast, cysteine-lysine ion pairs in, S74
- Quinoprotein dehydrogenases, pyrroloquinoline quinone-containing, 413
- Quinoprotein glucose dehydrogenase, of *Escherichia coli*, site-directed mutagenesis of, S270
- Radiation, effect on roi formation and glioma cell apoptosis, S141
- Reactive oxygen intermediate formation, glioma cell apoptosis and, effects of radiation and fatty acids on, S141
- Red blood cell, of Watanabe heritable hyperlipidaemic rabbit, lipids in, S148
- Red blood cell membranes, of depressive patient, docosahexaenoic acid in, S142
- Red cell anion exchanger, transmembrane region and cytoplasmic loop structure of, 516
- Redox proteins, in bacterial heterotrophic nitrification and aerobic denitrification, 401
- Renal cells, intracellular signalling and cyclosporin A-induced apoptosis in, S344
- Renal proximal tubular cells, oxidant stress on, poly(ADP-ribose) synthetase inhibitors in protection against, S318
- Replication error phenotypes, in colon cancer, S266
- Respiratory chain complex I activity, in astrocytic mitochondria
 cellular ATP level and, S346
 glutathione status and, S345
- Respiratory oscillations, nitric oxide/nitrosodium cation and, in *Saccharomyces cerevisiae*, S339
- Retina
 endothelial cells of, glucose-dependent DNA synthesis increase in, protein kinase C ι and, S260
 insulin mediated stimulation of choline acetyltransferase and c-Jun in, S312
- Retinal chromophore, in rhodopsin, structure and conformation of, S308
- Retinoic acid, effect on immortalized model of blood-brain barrier, S353
- RhoA, in GTP-binding protein regulation of phospholipase C δ ₁, S128
- Rhodobacter capsulatus*, dimethylsulphoxide reductase in, stopped-flow studies of, S211
- Rhodobacter sphaeroides*
 photoreaction centre from, protein engineering of, 422
 ubiquinone Q_A binding pocket in, S209
- Rhodopsin, retinal chromophore in, structure and conformation of, S308
- Right-handed parallel β -helix superfamily, cell wall degradation and, 190
- RNA aminoacylation, in amino acid homochirality, S262
- Roi formation: see Reactive oxygen intermediate formation.
- Rumen RNA, similarity of urea transporter isoforms to, across different species, S122
- Ruminococcus flavefaciens*, plant cell wall degrading enzyme complexes in, S169
- S phase depletion, under CTP:cholinephosphate cytidyltransferase, S222
- Saccharomyces cerevisiae*, respiratory oscillations in, nitric oxide/nitrosodium cation and, S339
- Saphenous vein, smooth muscle cells of
 lovastatin and isoprenylation effects on, S324
 PDGF-induced apoptosis in, S325
- Sarcoidosis, ACE genetic polymorphism and, S137
- Sarcoplasmic reticulum, Ca²⁺-ATPase in E2-E1 transition of, mastoparan effect on, S305
 phospholamban cytoplasmic region interaction with, S228
- Scavenger receptor, class A, apoptotic cell phagocytosis and, 639
- scFv antibodies: see Antibodies, single-chain variable fragment.
- Schizophrenia, interaction of nitric oxide, free radicals, and polyamines in, S143
- β -Secretase, characterisation of, 500
- SERCA/PMCA chimeras, identification of endoplasmic reticulum using, S299
- Serine protease derivatives, oxyanions of, bulk solvent and pKa values of, S70
- Sexual dimorphism, in fatty acyl composition, of adrenal lipids, S218
- SGLT1, intestinal
 promoter of, S181
 sugar analogue inhibition of, S180
- Shear stress, fluid, osteoblast precursor cells and, S24
- Shewanella* NCIMB400, fumarate reductase from, 418
- α 2,6-Sialyltransferase, genetic engineering of, S115
- Simian immunodeficiency virus proteinase, mutant, autocatalytic processing of, S139
- Simvastatin, hepatocyte cholesteryl esters and, S82
- Skeletal muscle
 apoptosis in, S259
 calpain proteolytic system in, S267
 calsequestrin oligomerisation in, S292
 denervated, ATP-dependent proteasome pathway in, β ₂-adrenergic blocker effect on, S311
 dystrophin in, cross-linking analysis of, S291
 glycogen phosphorylase *b* in, self-association of, 766
 protein in, selective expression of, S138
- Small synaptic vesicles, synapsin I interaction with, calmodulin regulation of, S110
- Smooth muscle cells
 migration of, ADP-ribosyltransferase inhibitors and, S130
 proliferation or apoptosis of, lovastatin and UVB irradiation reaction in, S322
 of saphenous vein
 lovastatin and isoprenylation effects on, S324
 PDGF-induced apoptosis in, S325
- Sodium channel, T594M mutation of, screening for, S393
- Sodium/glucose co-transporter SGLT1, intestinal
 promoter of, S181
 sugar analogue inhibition of, S180
- Sodium/phosphate co-transporters, renal, S121
- Soil

- metal-contaminated
 biodegradative potential and activity in, 694
 fungi as bioremediation agent in, 666
 natural attenuation of, 657
 nitrate ester and nitroaromatic explosive-contaminated, degradation of, 680
- Soybean iron metabolism, nutrition and, S247
- Sp1, fatty acid synthase regulation by, S95
- Spermidine, homocysteine activation and, S374
- Spermine
 monoclonal antibody Spm9-2 against, molecular analysis of, S368
 vascular endothelial cell incorporation of, S367
- Sphincterotomy, biochemical, for haemorrhoids, S326
- Sphingosine 1-phosphate, phospholipid signalling and, in epithelial cells, S229
- Spider toxin, voltage-activated K⁺ current inhibition by, 614
- Squamous cell carcinoma, hydrogen peroxide effects on, S347
- Staphylococcus aureus* protein A, immunoglobulin-binding domains of, affinity purification of human IgG from, S249
- Staphylococcus sciuri*, extracellular proteinase from, on Tilsit cheese surface, S29
- Steroid(s), action mechanism of, on osteoclasts and osteoblasts, 33
- Steroid-Fab' complexes, for crystal growth, production of, S39
- Streptokinase, antibodies to, latex agglutination assay of, S11
- Streptozotocin-induced diabetes: *see* Diabetes mellitus, streptozotocin-induced.
- Stroke prevention, molecular approach to, S17
- Succinate:quinone oxidoreductase, secretive haem-containing domain in, 408
- Sugar analogue, intestinal sodium/glucose co-transporter SGLT1 inhibition by, S180
- Sulfolobus solfataricus*, glycolytic enzymes in, S275
- Sup35, amyloid fibres of, prion-like inheritance mechanism and, 486
- Superfamilies
 of $\beta\alpha$ -barrel glycosidases, cell wall degradation and, 190, 199
 of right-handed parallel β -helix, cell wall degradation and, 190
- Superoxide, generation of, mitochondrial H⁺ leak and, S331
- Superoxide dismutase
 in antibodies from atherosclerotic lesions, S43
 copper,zinc, in neurodegenerative disease, 476
 from *Cryptococcus neoformans*, partial DNA sequence of, S396
 effect of conjugated linoleic acid on, in liver cells, S62
- Surfactant, acidic phospholipid molecular species in, S227
- Synapsin I, actin and small synaptic vesicle interaction with, calmodulin regulation of, S110
- Synapsin IIb, calmodulin interaction with, S109
- α -Synuclein deposits, in neurodegenerative diseases, 463
- T cell, doxorubicin-loaded liposome targeting to, via transferrin receptor, S37
- Tabtoxin peptide bond, in *Pseudomonas syringae*, S383
- Tau protein, intraneuronal filamentous, 463
- Telomerase activity, Bcl-2 effects on, S313
- Testicular damage, in experimental varicocele, lipid peroxidation and, S220
- Testicular tissue, in varicocele-induced rats, S381
- Tetrahydrobiopterin, hepatic phenylalanine hydroxylase correlation with, S83
- Tetrapyrrole macrocycle, enzymes involved in, 326
- Thermodynamics, non-ideality problems in, COVOL for, 737
- Thermus aquaticus*, chaperonin apical domain from, S250
- Thimerosal, effect on inositol trisphosphate receptor, S290
- Thimet oligopeptidase, promoter sequence of, S15
- Thrombospondin-1, arterial calcification and, S3
- Thymidine kinase 1, in breast cancer cells, S63
- Tilsit cheese, *Staphylococcus sciuri* proteinase on surface of, S29
- Tissue factor activity, trans-monounsaturated fatty acid and, S157
- TNF: *see* Tumour necrosis factor.
- Torque tension, in membrane, CTP:cholinephosphate cytidyltransferase and, S230
- Total parental nutrition, in surgical neonate, 131
- α -Toxin conductance, polyethylene glycol and, S193
- TPA, glucose transport by, GLUT1 and, S289
- Transcription factor Ace2p, cell growth and, S78
- Transcription factor BTF3, oestrogen receptor AF-1 function and, S252
- Transferrin, carbohydrate moieties in, antipeptide antibodies to epitopes in, S48
- Transferrin receptor, doxorubicin-loaded liposome targeting to T cells via, S37
- Transmembrane helices, packing of, modelling of, 509
- Transmembrane proteins, structural genomics for, 429
- Transmembrane receptors, mammalian, for pharmaceutical applications, 699
- Trans-monounsaturated fatty acid LDL oxidation and, S156
 tissue factor activity and, in monocytic cell line, S157
- Triacylglycerol, in hepatocyte, lipolysis of, prostaglandin E₂ in, S159
- Trichoderma reesei*, cellobiohydrolases of, cell wall degradation and, 160, 173
- Trimethylamine N-oxide, as urinary dimethylamine source, S182
- Trophoblast, metalloproteinase expression in, cytokines and, S52
- Trophoblast cell adhesion, to extracellular matrix
 Mg²⁺ mediation of, Ca²⁺ inhibition of, S92
 transition metal cations and, S93
- Trypanosoma granulosum*, putrescine uptake by, S376
- Tuberculosis, pleural effusion from, adenosine deaminase in diagnosis of, S163
- Tumour necrosis factor
 autophagy and mitochondrial morphological abnormalities induced by, S314
 trafficking of, to mitochondrial TNF-binding protein, S316
- Tumour necrosis factor- α
 biotinylation of, S40
 macrophage lipoprotein lipase suppression by, S12
- Turkey, coronary heart disease risk in, S20
- Ubiquinone Q_A, binding pocket for, in *Rhodobacter sphaeroides*, S209
- Ultraviolet B irradiation, lovastatin reaction with, smooth muscle cell proliferation and apoptosis, S322
- Umbilical cord
 IgG level in, premature infant atopic status and feeding practices and, S97
 tissue composition of, maternal fatty acids and, S90
- Uncoupling proteins, neonatal, 120
- Urea synthesis, bicarbonate disposal and, S85
- Urea transporter isoforms, sequence similarity of colon and rumen RNA to, across different species, S122
- Urea-nitrogen, salvage of, in bowel, 231
- Urine, dimethylamine in, trimethylamine N-oxide as source of, S182
- Vaccine, design of, antigenic peptide phage display library in, S8
- Varicocele, experimental, testicular damage in, S220, S381
- Vascular endothelial cells
 IGF-I gene in, transcriptional regulation of, S365
 polyamine uptake by, pH and, S366
 spermine incorporation by, S367
- Vascular pericytes, oestrogenic differentiation of, S4
- Vascular smooth muscle, G protein regulation of phospholipase C γ_1 activity in, S132
- Vascular surgery
 antioxidant status during, S127
 free radical analysis during, S140
 plasma lipid peroxidation during, S334
- Very low density lipoprotein
 endotoxin and, in heart, S204
 hepatic secretion of, fish oil inhibition of, S183
- Vitamin D-melittin-phospholipid, model membrane interactions of, S359
- VLDL: *see* Very low density lipoprotein.
- Voltage-activated K⁺ current, argiotoxin-636 inhibition of, 614
- Watanabe heritable hyperlipidaemic rabbit, plasma, platelet, and erythrocyte lipids in, S148
- Water, contaminated
 by metal, marine algae adaptation to, S153
 by nitrate ester and nitroaromatic explosives, 680
- Wheat seed, lipase in, S152
- Women, in science and engineering education, S105
- Xenobiotic pollution
 heavy metal resistance genes and proteins in, 662
 natural attenuation in, 657
- Xylanases, in cell wall degradation, 156
- Yeast
 cell wall degradation in, by recombinant *Bacillus subtilis*, S175
 iso-1-cytochrome *c* met80X mutant in, haem pocket flexibility and, S348
 pyruvate carboxylase in, cysteine-lysine ion pairs in, S74
 transcription factor Ace2p, cell growth and, S78
- Zebrafish, δ -opioid from, S360
