

Keilin Memorial Lecture

- X-Ray Structure and Reaction Mechanism of Bovine Heart Cytochrome c Oxidase** S. YOSHIKAWA 351

Novartis Medal Lecture

- Small GTPases and Cell Cycle Regulation** C. J. MARSHALL 363

Royal Irish Academy Medal Lecture

- Using NMR as a Probe of Protein Structure and Function** J. P. G. MALTHOUSE 701

Special Guest Lecture

- The Insulin Receptor: from Protein Sequence to Structure** C. MARINO-BUSLJE, M. MARTIN-MARTINEZ, K. MIZUGUCHI, K. SIDDLE AND T. L. BLUNDELL 715

colloquia**668th Meeting, University of Glasgow****colloquium: Lipid Modulation of P450**

- Phospholipase-induced modulation of rat liver mixed-function oxidase activity** C. E. ROLPH, P. ROBERTS AND S. TAYLOR 371
- Adaptive responses to fatty acids are mediated by the regulated expression of cytochromes P450** C. N. A. PALMER, M. C. U. GUSTAFSSON, H. DOBSON, C. VON WACHENFELDT AND C. R. WOLF 374
- Lipid regulation of gene expression** M. C. HUNT AND S. E. H. ALEXSON 378
- Sphingomyelin hydrolysis and regulation of the expression of the gene for cytochrome P450** A. H. MERRILL, JR., E. T. MORGAN, M. NIKOLOVA-KARAKASHIAN AND J. STEWART 383
- The cytochrome P450 3A4 inducer metyrapone is an activator of the human pregnane X receptor** M. C. WRIGHT 387

colloquium: Sphingolipids

Identification of intracellular ceramide target proteins by affinity chromatography and TID-ceramide photoaffinity labelling	M. WICKEL, M. HEINRICH, T. WEBER, J. BRUNNER, M. KRÖNKE AND S. SCHÜTZE	393
Ceramide and apoptosis	D. K. PERRY	399
Extracellular actions of sphingosine 1-phosphate through endothelial differentiation gene products in mammalian cells: role in regulating proliferation and apoptosis	S. PYNE, S. RAKHIT, A.-M. CONWAY, A. MCKIE, P. DARROCH, R. TATE AND N. PYNE	404
Recent advances in the biochemistry of glycosphingolipid metabolism	T. KOLTER, T. DOERING, G. WILKENING, N. WERTH AND K. SANDHOFF	409
Gangliosides and growth factor receptor regulation	A. A. RAMPERSAUD, J. L. OBLINGER, R. K. PONNAPPAN, R. W. BURRY AND A. J. YATES	415
Membrane flow, lipid sorting and cell polarity in HepG2 cells: role of a subapical compartment	D. HOEKSTRA, M. M. P. ZEGERS AND S. C. D. VAN IJZENDOORN	422
Mechanisms by which short-chain ceramides cause apoptosis	D. ALLAN, A. SHAWYER AND A. TAYLOR	428
Regulation of sphingolipid and glycosphingolipid metabolism during neuronal growth and development	A. H. FUTERMAN, S. A. BOLDIN, A. B. BRANN, D. PELLER, I. MEIVAR-LEVY AND R. ZISLING	432

colloquium: Lipoprotein(a): the Really Bad Cholesterol?

Lipoprotein(a) in health and disease	H. DIEPLINGER	439
Gene structure of apolipoprotein(a) and the regulation of its expression	B. L. KNIGHT	447
Role of N-linked glycans, chaperone interactions and proteasomes in the intracellular targeting of apolipoprotein(a)	J. WANG AND A. L. WHITE	453
Use of the West of Scotland Coronary Prevention Study bio-bank to provide new insights into the control of plasma lipoprotein(a) concentrations	A. GAW, E. A. BROWN, G. DOCHERTY AND I. FORD for the West of Scotland Coronary Prevention Study Group	459
Genetic polymorphisms of the gene for apolipoprotein(a) and their association with lipoprotein(a) levels and myocardial infarction	J. THILLET	463
Pharmacological modification of lipoprotein(a)	K. SUCKLING	466

colloquium: Glycobiology of Pathogen–Host Interactions

Bacterium–host protein–carbohydrate interactions and pathogenicity	K.-A. KARLSSON	471
---	----------------	------------

Molecular basis of mucin–<i>Pseudomonas</i> interactions	R. RAMPHAL	474
Malaria during pregnancy: parasites, antibodies and chondroitin sulphate A	P. E. DUFFY AND M. FRIED	478
Heparan sulphate and RNA-binding motifs in the malaria circumsporozoite protein	U. FREVERT	482
Role of glycans in <i>Plasmodium falciparum</i> infection	A. BARRAGAN, D. SPILLMANN, J. CARLSON AND M. WAHLGREN	487
<i>Haemophilus influenzae</i> lipopolysaccharide	D. W. HOOD, J. C. RICHARDS AND E. R. MOXON	493
Glycans in meningococcal pathogenesis	M. VIRJI	498
Biosynthesis of the <i>Escherichia coli</i> K5 capsular polysaccharide	G. GRIFFITHS, B. BARRETT, N. COOK AND I. S. ROBERTS	507
<i>Candida</i> cell wall mannosylation: importance in host–fungus interaction and potential as a target for the development of antifungal drugs	N. A. R. GOW, S. BATES, A. J. P. BROWN, E. T. BUURMAN, L. M. THOMSON AND C. WESTWATER	512
Biological role of <i>Trypanosoma cruzi</i> trans-sialidase	V. L. PEREIRA-CHIOCCOLA AND S. SCHENKMAN	516
Proteophosphoglycans from <i>Leishmania</i> promastigotes and amastigotes	T. ILG, E. HANDMAN AND Y.-D. STIERHOF	518

colloquium: Membrane Signalling Complexes

Synaptic targeting and regulation of GABA_A receptors	N. J. BRANDON, F. K. BEDFORD, C. N. CONNOLLY, A. COUVE, J. T. KITTLER, J. G. HANLEY, J. N. JOVANOVIĆ, J. UREN, P. TAYLOR, P. THOMAS, T. G. SMART AND S. J. MOSS	527
GABA_A receptors function as heterodimers	F. H. MARSHALL, J. WHITE, M. MAIN, A. GREEN AND A. WISE	531
The N-terminus of RAMPs is a critical determinant of the glycosylation state and ligand binding of calcitonin receptor-like receptor	S. M. FOORD, A. WISE, J. BROWN, M. J. MAIN AND N. J. FRASER	535
The molecular architecture of neuronal kinase/phosphatase signalling complexes	S. J. TAVALIN, R. S. WESTPHAL, M. COLLEDGE, L. K. LANGEBERG AND J. D. SCOTT	539
Control of protein phosphatase I in the dendrite	P. B. ALLEN, L. HSIEH-WILSON, Z. YAN, J. FENG, C. C. OUMET AND P. GREENGARD	543

colloquium: Proteomics

Difference gel electrophoresis	M. ÜNLÜ	547
A strategy for the characterization of protein interaction networks by mass spectrometry	A. SHEVCHENKO, W. ZACHARIAE AND A. SHEVCHENKO	549

colloquium: Quinone-Binding Sites in Membrane Proteins: Structure, Function and Applied Aspects

Generic features of quinone-binding sites	P. RICH AND N. FISHER	561
Structures of quinone-binding sites in bc complexes: functional implications	E. A. BERRY, Z. ZHANG, L.-S. HUANG AND S.-H. KIM	565
Probing the ubihydroquinone primary energy conversion site in the <i>Rhodobacter capsulatus</i> cytochrome <i>bc₁</i> complex	R. E. SHARP, A. PALMITESSA, B. R. GIBNEY, C. C. MOSER AND P. L. DUTTON	572
Famoxadone and oxazolidinones: potent inhibitors of cytochrome <i>bc₁</i>	D. B. JORDAN, K. T. KRANIS, M. A. PICOLLELLI, R. S. SCHWARTZ, J. A. STERNBERG AND K. M. SUN	577
Models for structure and function in quinone-binding sites: the <i>Escherichia coli</i> quinol oxidase, cytochrome <i>bo₃</i>	L. MURRAY, R. H. PIRES, S. F. HASTINGS AND W. J. INGLEDEW	581
EPR studies of the possible binding sites of the cluster N2, semiquinones, and specific inhibitors of the NADH:quinone oxidoreductase (complex I)	T. OHNISHI, S. MAGNITSKY, L. TOULOKHONOVA, T. YANO, T. YAGI, D. S. BURBAEV AND A. D. VINOGRADOV	586
Quinone-binding sites in membrane proteins: what can we learn from the <i>Rhodospseudomonas viridis</i> reaction centre?	C. R. D. LANCASTER	591
Properties of the common inhibitor-binding domain in mitochondrial NADH-dehydrogenase (complex I)	J. G. OKUN, V. ZICKERMANN AND U. BRANDT	596
Biochemical aspects of N-heterocyclic complex-I inhibitors with insecticidal activity	P. LÜMMEN	602
Ubiquinone and inhibitor sites in complex I: one, two or three?	M. D. ESPOSTI AND A. GHELLI	606
Structure and mechanism of cytosolic quinone reductases	M. A. BIANCHET, C. FOSTER, M. FAIG, P. TALALAY AND L. M. AMZEL	610

colloquium: Phospholipids: Regulators of Membrane Traffic and Signalling

Structural basis for high-affinity phosphoinositide binding by pleckstrin homology domains	M. A. LEMMON	617
Phosphoinositide 3-kinase knockout mice: role of p85α in B cell development and proliferation	D. A. FRUMAN, S. B. SNAPPER, C. M. YBALLE, F. W. ALT AND L. C. CANTLEY	624

Phosphoinositide 3-kinase signalling: no lipids	M. P. WYMAN, L. PIROLA, V. L. KATANAEV AND G. BULGARELLI-LEVA	629
Cellular expression and function of phospholipase D1	N. T. KTISTAKIS, M. MANIFAVA, J. SUGARS, K. BI AND M. G. ROTH	634
ADP-ribosylation factor regulates spectrin skeleton assembly on the Golgi complex by stimulating phosphatidylinositol 4,5-bisphosphate synthesis	A. GODI, I. SANTONE, P. PERTILE, P. MARRA, G. DI TULLIO, A. LUINI, D. CORDA AND M. A. DE MATTEIS ¹	638
ADP-ribosylation factor GTPases in signal transduction and membrane traffic: independent functions?	D. JONES, B. BAX AND S. COCKCROFT	642
Generation of phosphatidylinositol-specific antibodies and their characterization	C. L. THOMAS, J. STEEL, G. D. PRESTWICH AND G. SCHIAVO	648
Phospholipase C-δ and related molecules	H. YAGISAWA, M. FUJII AND M. HIRATA	652
The type II PIPkins (PtdIns5P 4-kinases): enzymes in search of a function?	K. A. HINCHLIFFE, A. CIRUELA, J. A. MORRIS, N. DIVECHA AND R. F. IRVINE	657
Regulation of early-endosome dynamics by phosphatidylinositol 3-phosphate binding proteins	M. J. CLAGUE, A. T. JONES, I. G. MILLS, D. M. WALKER AND S. URBÉ	662
Regulation of endocytic membrane traffic by phosphatidylinositol 3-phosphate	J.-M. GAULLIER, D. GILLOOLY, A. SIMONSEN AND H. STENMARK	666
Lipid kinases and trans-Golgi network membrane dynamics	S. PONNAMBALAM, S. CLOUGH, C. P. DOWNES, J. M. LUCOCCO, H. J. MCLAUCHLAN AND M. C. TOWLER	670
Phosphatidylinositol 3,5-bisphosphate: a novel lipid that links stress responses to membrane trafficking events	S. K. DOVE, R. K. MCEWEN, F. T. COOKE, P. J. PARKER AND R. H. MICHELL	674
Divergent signalling mechanisms involved in insulin-stimulated GLUT4 vesicle trafficking to the plasma membrane	L. M. FLETCHER AND J. M. TAVARÉ	677
Potential regulation of ADP-ribosylation factor 6 signalling by phosphatidylinositol 3,4,5-trisphosphate	P. J. CULLEN AND K. VENKATESWARLU	683

colloquium: Molecular Interactions in Complex Proteins and Nucleic Acids

The assembly of the EcoKI type I DNA restriction/modification enzyme and its interaction with DNA	D. T. F. DRYDEN, G. D. DAVIES, I. MARTIN, L. M. POWELL, N. E. MURRAY, D. J. ELLIS, T. BERGE, J. M. EDWARDSON AND R. M. HENDERSON	691
Restriction endonuclease reactions requiring two recognition sites	S. E. HALFORD, D. T. BILCOCK, N. P. STANFORD, S. A. WILLIAMS, S. E. MILSOM, N. A. GORMLEY, M. A. WATSON, A. J. BATH, M. L. EMBLETON, D. M. GOWERS, L. E. DANIELS, S. H. PARRY AND M. D. SZCZELKUN	696

colloquium: Proteolytic Enzymes in Health and Disease

Peptide synthesis with modified trypsin	S. GREEN AND C. Ó FÁGÁIN	727
Generation of non-bitter casein hydrolysates by using combinations of a proteinase and aminopeptidases	G. O'CUINN, R. FITZGERALD, P. BOUCHIER AND M. McDONNELL	730
Role of matrix metalloproteinases in normal and disease processes	S. McDONNELL, M. MORGAN AND C. LYNCH	734
The cathepsin L-like proteinases of liver fluke and blood fluke parasites of the trematode genera <i>Fasciola</i> and <i>Schistosoma</i>	C. P. BRADY, A. J. DOWD, J. TORT, L. ROCHE, B. CONDON, S. M. O'NEILL, P. J. BRINDLEY AND J. P. DALTON	740
The expanding superfamily of serpins: searching for the real targets	D. M. WORRALL, O. E. BLACQUE AND R. C. BARNES	746
