

670th University College Cork Meeting

ABSTRACTS

Abstract no.

Page no.

COLWORTH MEDAL LECTURE

- J1 Enzymes in the quantum world
N.S. Scrutton 1

EMBO LECTURE

- K1 The rotary mechanism of ATP synthesis
J.E. Walker 1

SPEAKER ABSTRACTS

EDUCATION GROUP COLLOQUIUM

Promotion of Biochemistry in the Public Domain

Speaker Session Time: Tuesday 7 September, 09.00 – 15.45

- A1 The role of the GP: imparting clinical science to the layman
C.P. Bradley 1
- A2 Science in the popular media: an impossible fit?
B. Trench 1
- A3 The Merville lay seminars: University College Dublin's biochemists meet the public
P.C. Engel 2
- A4 Plain speaking in scientific terms
W.J. Reville 2
- A5 An informed public; informed by whom?
E. McVeigh 2

BIOCHEMICAL IMMUNOLOGY GROUP COLLOQUIUM

Aging and the Immune System

Speaker Session Time: Tuesday 7 September, 09.00 – 16.45

- B1 Cell senescence and human aging: where's the link?
R.G.A. Faragher 2
- B2 Replicative senescence as a barrier to human cancer
E.K. Parkinson 3
- B3 Regulation of cell-cycle re-entry by growth, survival and stress signalling pathways
S.J. Cook 3

Abstract no.		Page no.
F3	Role of post-translational modifications in amyloid- β precursor protein (A β PP) processing K.C. Breen	14
F4	Amyloid precursor protein (APP) and the p21-activated kinase PAK3 interact to mediate apoptosis in neurons R.L. Neve	14
F5	Genetic dissection of the dementias J. Hardy	15
F6	Tau mutations in frontotemporal dementia and parkinsonism linked to chromosome 17 (FTDP-17) and their relevance for Alzheimer's disease M. Goedert	15
F7	Sites of phosphorylation in tau and factors affecting their regulation B.H. Anderton	15
F8	Tau protein phosphorylation in Alzheimer's disease and in experimental models J.P. Brion	15
F9	Presenilin function: connections to Alzheimer's disease and signal transduction P.E. Fraser	16
F10	Apolipoprotein E and Alzheimer's disease W.J. Strittmatter	16
F11	Apolipoprotein E and Alzheimer's disease; is tau the link? S. Lovestone	16
F12	Apolipoprotein E and β -amyloid: signals and effects T.G. Ohm	16
F13	Regulation of gene expression by muscarinic acetylcholine receptors R.M. Nitsch	17
F14	Altered neuronal signalling associated with amyloid precursor protein and presenilin mutations promotes apoptosis and excitotoxicity M.P. Mattson	17
F15	Oxidative signalling and inflammatory pathways in Alzheimer's disease J.C. Barnes	17
F16	Receptor-G-protein signalling in Alzheimer's disease R.F. Cowburn	17
F17	Dysfunctional ryanodine-receptor calcium-release channels in Alzheimer's disease C. O'Neill	18
F18	Modelling Alzheimer's disease in multiple transgenic mice: is it possible? F. Van Leuven	18
F19	Transgenic mouse models of Alzheimer's disease: phenotype and mechanisms of pathogenesis K. Duff	18

Abstract no.	Page no.
MOLECULAR AND CELLULAR PHARMACOLOGY GROUP/IRISH AREA SECTION COLLOQUIUM	
Growth Factors and Cytokines at the Maternal/Foetal Interface	
<i>Speaker Session Time: Thursday 9 September, 09.00 – 16.00</i>	
G1 Leucocyte populations and cytokine regulation in human uteroplacental tissues P.M. Johnson	18
G2 Decidual natural killer (NK) cell interaction with trophoblast: cytolysis or cytokine production? Y.W. Loke	19
G3 Structure–function relations in the human placenta P. Dockery	19
G4 Growth factor–extracellular matrix synergy in the control of trophoblast invasion J.D. Aplin	19
G5 HLA-G in the placenta: where and what for? P. Le Bouteiller	19
G6 Role of T-cell cytokines in embryo implantation and miscarriage S. Romagnani	20
G7 Molecular genetic analysis of HLA-G in pre-eclampsia and normal pregnancy T. McCarthy	20
 HOST/TECHNIQUES GROUP COLLOQUIUM	
Biosensors and Novel Bioanalytical Methods	
<i>Speaker Session Time: Thursday 9 September, 09.00 – 16.00</i>	
H1 Biosensors: 38 years and counting G.G. Guilbault	20
H2 Electrochemical investigation of cellobiose oxidation by cellobiose oxidase in the presence of cytochrome <i>c</i> as mediator F.W. Scheller	20
H3 DNA liquid–crystalline biosensors Y.M. Yevdokimov	21
H4 A peptide library on a surface plasmon resonance (SPR) chip as an analytical tool at the heart of the matter E.A.H. Hall	21
H5 Two-photon fluorescence excitation in detection of biomolecules E. Soini	21
H6 Phosphorescent porphyrin probes in biosensors and sensitive bioassays D.B. Papkovsky	21
H7 Rapid antibody biosensor assays for environmental analysis M.R. Smyth	22
H8 Direct electron transfer catalysed by enzymes: application for biosensor development A.L. Ghindilis	22

Abstract no.	Page no.
PROTEIN AND PEPTIDE SCIENCE GROUP/INDUSTRIAL BIOCHEMISTRY AND BIOTECHNOLOGY GROUP COLLOQUIUM	
Evolution of Sequences, Structures and Genomes	
<i>Speaker Session Time: Thursday 9 September, 09.00 – 15.20</i>	
I1 Prediction of protein structure and function from the amino acid sequence G.J. Barton	22
I2 Functional insights from structural families C.A. Orengo	22
I3 Alignment using structure W. Taylor	23
I4 Evidence in favour of ancient octaploidy in the vertebrate genome T.J. Gibson	23
I5 Genome duplication and gene-order evolution in ascomycetes K.H. Wolfe	23
I6 Genome sequences and protein structures C. Chothia	23
I7 Origins and evolution of AIDS viruses: estimating the timescale P.M. Sharp	24

POSTER ABSTRACTS

HOST COLLOQUIUM/MOLECULAR ENZYMOLOGY GROUP/MOLECULAR PHARMACOLOGY GROUP

Chemoprotection

<i>Poster Session Times: Tuesday 7 September, 16.30 – 18.00 Wednesday 8 September, 16.00 – 17.30</i>	
1 Characterization of the 67 kDa laminin receptor in breast cancer E. Donaldson, J. Nelson, W. Scott and T. Gardiner	24
2 Alkali-labile DNA damage photosensitized by 2-arylpropionic acids S. Starrs and R.J.H. Davies	24
3 The level of glutathione (GSH) and GSH-related enzymes after the exposure of white-rot fungi to heavy metals A. Jarosz-Wilkolazka and E. Malarczyk	24

MOLECULAR ENZYMOLOGY GROUP

<i>Poster Session Times: Tuesday 7 September, 16.30 – 18.00 Wednesday 8 September, 16.00 – 17.30</i>	
4 Possible role of acetolactate decarboxylase (ALD) in diacetyl synthesis S. O'Sullivan, T. Cogan, S. Condon and D. Sheehan	25

Abstract no.	Page no.
5 Effect of homocysteine on tumour necrosis factor α production by a monocytic cell line V. Betts and P.B. Collins	25

REGULATION IN METABOLISM GROUP/ MOLECULAR ENZYMOLOGY COLLOQUIUM

Organisms, Organs, Cells and Organelles: *in vivo* and *in vitro* Experimental Systems

Poster Session Times: Tuesday 7 September, 16.30 – 18.00
Wednesday 8 September, 16.00 – 17.30

6 Heterogeneity of fructose metabolism in the liver S.P. Burns, H.C. Murphy, R.D. Cohen and R.A. Iles	25
7 Investigation of factors that influence the expression of rat hepatic phenylalanine hydroxylase <i>in vivo</i> E. Connolly and J. Donlon	25
8 <i>In vitro</i> hepatocyte models of early stages of neonatal sepsis K.J. New, S. Eaton, L. Spitz, K.R.F. Elliott and P.A. Quant	26
9 Riboflavin supplementation does not lower fasting homocysteine levels M.C. McKinley, H. McNulty, J. McPartlin, J.J. Strain, D.G. Weir and J.M. Scott	26

REGULATION IN METABOLISM GROUP

Poster Session Times: Tuesday 7 September, 16.30 – 18.00
Wednesday 8 September, 16.00 – 17.30

10 Changes in serum ionized magnesium in lactating sheep during an intravenous glucose-tolerance test I.F. Gow and A. Faulkner	26
11 Comparison of plasma zinc levels in sheep following supplementation with zinc sulphate and bioplex zinc J.P. Ryan, P. Kearns and T. Quinn	26

HOST/BIOCHEMICAL IMMUNOLOGY GROUP

Cell Survival and Apoptosis

Poster Session Time: Wednesday 8 September, 16.00 – 17.30

12 Phosphoinositide 3-kinase survival signals contribute to multidrug resistance in myeloid leukaemia independently of Bad heterodimer formation D. O’Gorman, A. McGahon, K. Knox, S. McKenna and T.G. Cotter	27
13 Stress proteins and the regulation of apoptosis in tumour cells E.M. Creagh and T.G. Cotter	27
14 Prion peptide stimulates apoptosis in human neuronal cells C.N. O’Donovan and T.G. Cotter	27

Abstract no.		Page no.
15	Investigation of the effects of human sera from newly diagnosed diabetic patients on cell death S. Conroy, P. Newsholme and I.C. Green	27
16	Unaltered intracellular calcium regulation in tumour-necrosis-factor-receptor-mediated apoptotic cell death S.M. McFarlane, H.M. Anderson, S.J. Tucker, O.J. Jupp and D.J. MacEwan	28
17	Cathepsin B is a target for the protection of neuronal cells by caspase inhibitor ac-YVAD-cmk J. Gray, M. Haran, K. Schneider, P. Cutler and J.B. Davis	28
18	Dengue virus infection of human endothelial and epithelial cells results in pro-inflammatory cytokine induction and viral persistence T.A. Kelly and A. O'Sullivan	28
19	Finding partners for deadly proteins: dissecting the apoptosis machinery using the yeast-2-hybrid system C. Adrian and S.J. Martin	28
20	Alteration in the ratio of c-Myc to mutant p53 is a phenotypic trait of epithelial cells committed to die by apoptosis K. Nally, J. O'Connell, J. Morgan, J.K. Collins, G. O'Sullivan and F. Shanahan	29
21	The insulin-like growth factor I receptor is up-regulated by CD28 stimulation and protects activated T cells from Fas killing P.T. Walsh and R. O'Connor	29
22	Fission yeast as a model to study insulin-like growth factor-I receptor tyrosine kinase regulation D. Buckley, N. Spellacy and R. O'Connor	29
23	A plasma factor promotes erythrocyte survival in culture M. Walsh, T.G. Cotter and R. O'Connor	29
24	Cloning and expression of human parvovirus B19 NS1 protein O. Ennis and S. Doyle	30
25	Signal transduction and activators of transcription (STAT)5 DNA binding does not reflect the differential proliferative response to interleukin-7 in neonatal T cells R.M. O'Neill and D. Reen	30
26	Effect of early HIV-1 infection on expression and function of the chemokine receptor CXCR4 B.J. Murphy, R.Q. Zheng and K.E. Nye	30
27	Cell killing by cationic photosensitizers in the SK-23 and SK-MEL-28 melanoma cell lines L. Rice, D.A. Phoenix and M. Wainwright	30
28	Searching for novel protein targets for the tumour suppressor protein, maspin (or mammary serine protease inhibitor) O.E. Blacque and D.M. Worrall	31

Abstract no.	Page no.
BIOCHEMICAL IMMUNOLOGY GROUP COLLOQUIUM	
Aging and the Immune System	
<i>Poster Session Time: Tuesday 7 September, 16.30 – 18.00</i>	
29 Evidence for complement activation in type 1 diabetes P. Byrne, S. Conroy and P. Newsholme	31
BIOCHEMICAL IMMUNOLOGY GROUP	
<i>Poster Session Times: Tuesday 7 September, 16.30 – 18.00 Wednesday 8 September, 16.00 – 17.30</i>	
30 Immunomodulatory mechanisms of <i>Escherichia coli</i> heat-labile toxin E.J. Ryan and K.H.G. Mills	31
MEMBRANE GROUP	
<i>Poster Session Times: Tuesday 7 September, 16.30 – 18.00 Wednesday 8 September, 16.00 – 17.30</i>	
31 Characterization of the brain dystrophin–glycoprotein complex K. Culligan and K. Ohlendieck	31
32 Oligomerization of Ca ²⁺ -regulatory membrane proteins in cardiac muscle N. Lennon and K. Ohlendieck	32
LIPID GROUP	
<i>Poster Session Times: Tuesday 7 September, 16.30 – 18.00 Wednesday 8 September, 16.00 – 17.30</i>	
33 Multicomponent NMR analysis of lipid oxidation products A. Claxson, C. Silwood, M. Grootveld and E. Lynch	32
ANNUAL SYMPOSIUM /NEUROSCIENCE GROUP/HOST/IRISH AREA SECTION	
Neuronal Signal Transduction and Alzheimer's Disease	
<i>Poster Session Times: Wednesday 8 September, 16.00 – 17.30 Thursday 9 September, 10.20 – 11.15 and 13.00 – 14.00</i>	
34 Direct quantification of amyloid- β peptides A β (40) and A β (42) in biological milieu by a novel homogeneous time-resolved fluorescence (HTRF) assay E. Clarke, H.D. Lewis, D.Beher and M.S. Shearman	32
35 Interleukin-6-type cytokines induce rapid secretion of amyloid precursor protein T.E.O. Schubert and B.H. Anderton	32
36 α -Synuclein in Alzheimer's disease and multiple system atrophy S. Gillet, T. Revesz, S.E. Daniel, B.H. Anderton and D.P. Hanger	33

Abstract no.		Page no.
37	SERCA2b, an endoplasmic reticulum calcium pump isoform, is a stress-inducible protein C. Caspersen and M. Treiman	33
38	Regulation of soluble amyloid precursor protein (sAPP) α secretion by muscarine in the human neuroblastoma cell line SH-SY5Y R.M. Canet-Aviles, A.J. Turner, N.M. Hooper and P.F.T. Vaughan	33
39	Inhibition of prolylendopeptidase does not affect γ -secretase processing of amyloid precursor protein J.A. Johnston, M. Jensen, L. Lannfelt, B. Walker and C. Williams	33
40	Poster withdrawn	34
41	Investigation of the role of N-linked glycosylation of the human thromboxane A ₂ receptor L.P. Kelley and B.T. Kinsella	34
42	Surface-enhanced laser desorption/ionization–time-of-flight (SELDI–TOF) mass spectrometry of amyloid- β peptides generated in cell culture models and human brain gives novel insights into γ -secretase mechanisms D. Beher, H.D. Lewis, E. Clarke, N. Thomas, R. Kalaria and M.S. Shearman	34
43	Studies on toxicity of N-terminal fragments of the non-amyloid- β component of Alzheimer's disease amyloid A.M. Bodles, D.J.S. Guthrie, P. Harriott, P. Campbell and G.B. Irvine	34
44	Endosomal prion protein (PrP) trafficking K. Fitzgerald, M. Motherway, Y. Frobert and M. McCaffrey	35
45	Enrichment of full-length presenilin (PS) proteins in human brain soluble fractions: reduced levels of PS-2 in these fractions in Alzheimer's disease brain M. Kelliher and C. O'Neill	35
46	Assessment of the integrity of metabotropic glutamate receptor binding and its functional coupling to G-proteins in human brain and in Alzheimer's disease C. Shanahan and C. O'Neill	35
47	Markedly reduced levels of soluble β -catenin in Alzheimer's disease brain R. Jennings, M. Kelliher and C. O'Neill	35
48	Selective impairment of the soluble neuronal nitric oxide synthase enzyme in Alzheimer's disease brain M. Kenny and C. O'Neill	36
49	Factors affecting tau phosphorylation influence amyloid precursor protein processing S.C. Chapman, A.K. Mudher, T.E.O. Schubert, J. Richardson, E. Gower, P. Soden, H.T.R. Rupniak, B.H. Anderton and S. Lovestone	36
50	Effect of copper on recombinant mouse prion protein B.-S. Wong, D.R. Brown, C. Clive, S. Haswell, M.-S. Sy, P. Gambetti, R.A. Williamson, D.R. Burton and I.M. Jones	36
51	Presenilin modulates the activity of dishevelled 1 in the Wnt pathway C.L. Pollard, J. Richardson, H.T.R. Rupniak, P.W. Sheppard, I.M. Vardell, S. Lovestone and B.H. Anderton	36
52	Monitoring the intracellular fate of apolipoprotein E: implications for Alzheimer's disease R. Dayanandan, M.C. Ljungberg, J. Pearce, B.H. Anderton and S. Lovestone	37

Abstract no.	Page no.
53 Two-dimensional protein analysis of primary rat and human cortical cultures: alteration of total protein expression profiles after treatment with fibrillar amyloid- β peptide (A β) R. Williamson, T.E.O. Schubert, I.P. Everall and B.H. Anderton	37
54 Effects of exonic frontotemporal dementia and parkinsonism linked to chromosome 17 (FTDP-17) mis-sense mutations on the phosphorylation of tau proteins G.M. Gibb, J.W. Connell, R. Dayanandan, S. Lovestone, M. Hutton and B.H. Anderton	37
55 The X11 and Fe65 proteins in Alzheimer's disease D.M. McLoughlin, K.-F. Lau, N. Irving, C. Standen, J.P. Brion and C.C. J. Miller	37
56 Investigating the involvement of the immunophilin FK506-binding protein (FKBP12) in the neurochemical pathology of Alzheimer's disease brain M. Carmody, M. Kelliher and C. O'Neill	38
88 Reduced [3 H]cGMP binding in brain staged in Alzheimer's disease pathologies W.L. Bonkale, R.F. Cowburn, N. Bogdonovic, T.G. Ohm and J. Fastbom	38

NEUROSCIENCE GROUP

Poster Session Times: Wednesday 8 September, 16.00 – 17.30
Thursday 9 September, 10.20 – 11.15
and 13.00 – 14.00

57 Kinetic and pharmacological analysis of L-[35 S]cystine transport into rat brain synaptosomes J. Flynn and G.J. McBean	38
58 Structure-activity relationships of free fatty acids causing an inhibition of D-aspartate transport C.B. Berry and G.J. McBean	38
59 Mg $^{2+}$ - and Ca $^{2+}$ -dependent ATPases from pig brain: a comparative study M.R. Sepúlveda, M. Berengena, J.M. Salvador and A.M. Mata	39

NUCLEIC ACIDS AND MOLECULAR BIOLOGY GROUP

Poster Session Times: Wednesday 8 September, 16.00 – 17.30
Thursday 9 September, 10.20 – 11.15
and 13.00 – 14.00

60 DNA damage and repair analysis in primary cells and tissue-comparable cell lines S. Devery, W. Qin and P.T. Tomkins	39
61 The expression and regulation of MMP-7 (matrilysin, or matrix metalloproteinase-7) in leukaemic cell lines C. Lynch and S. McDonnell	39

Abstract no.	Page no.
PROTEIN AND PEPTIDE GROUP/INDUSTRIAL BIOCHEMISTRY AND BIOTECHNOLOGY GROUP COLLOQUIUM	
Evolution of Sequences, Structures and Genomes	
<i>Poster Session Time: Thursday 9 September, 10.20 – 11.15 and 13.00 – 14.00</i>	
62 Identification of the target receptor of the synthetic peptide mEGF (20–31) A.-L. Andrews and J. Nelson	39
63 The vertebrate HtrA serine protease family: a new example of horizon gene transfer C. Southan	40
64 Purification and characterization of lectins from the fungi <i>Xylaria polymorpha</i> and <i>Beauveria bassiana</i> O.C. Hutchinson, G.I. Hickey and G.B. Wisdom	40
65 Conservation of functional site structure across different membrane transport protein families J.G.L. Mullins, G.L. Knight, K.S. Sarakinou and J.F. Antoniw	40
66 Peptidylglycine mono-oxygenase activity of recombinant bovine growth hormone P. Creighton, L. Galvin and J. Donlon	40
67 Expression of growth hormone gene in bovine mammary gland P. Creighton, A. Buckley, E. Costello, B. Doyle and J. Donlon	41
68 Identification and characterization of a Rab4-interacting protein A.J. Lindsay and M.M. McCaffrey	41
69 Bioinformatical analysis of histone 3'-end processing in <i>Saccharomyces cerevisiae</i> : identification of U7-like RNAs S. Campbell and U. Bond	41
70 Phage peptide-display technology to identify novel peptide binders to a monoclonal antibody D.P. Prendergast, M.I. Halliday, N.V. McFerran and A. Wallace	41
71 Inferred hepatitis C virus quasi-species diversities are profoundly influenced by choice of DNA polymerase in reverse transcriptase (RT)-PCR B.M. Mullan, E. Kenny-Walsh, F.L. Shanahan and L.J. Fanning	42
87 The ileal active bile acid transport protein works bidirectionally: evidence that it is structurally evolved for two distinct functions G.L. Knight, J.F. Antoniw, K.S. Sarakinou and J.G.L. Mullins	42
PROTEIN AND PEPTIDE SCIENCE GROUP	
<i>Poster Session Times: Thursday 9 September, 10.20 – 11.15 and 13.00 – 14.00</i>	
72 Characterization of extracellular phytase from selected fungal sources A. Casey and G. Walsh	42
73 Stabilizing effect of the substrate phytic acid on the enzyme phytase in animal feed A. Casey and G. Walsh	42

Abstract no.	Page no.
TECHNIQUES GROUP COLLOQUIUM/HOST/IRISH AREA SECTION	
Biosensors and Novel Bioanalytical Methods	
<i>Poster Session Times: Thursday 9 September, 10.20 – 11.15 and 13.00 – 14.00</i>	
74 Presence of an arylamine <i>N</i> -acetyltransferase gene homologue and <i>N</i> -acetylation activity in domestic cattle A. Upton and E. Sim	43
75 Secondary structure of a guanylate kinase (GK)-like domain of the voltage-dependent calcium channel β subunit: modelling and experimental studies M.R. Hanlon, N.S. Berrow, A.C. Dolphin and B.A. Wallace	43
76 Cell viability screening method using optical oxygen sensor T. O’Riordan, D. Buckley, R. O’Connor and D. Papkovsky	43
77 Towards optimal cell culture for myocyte-based biosensors C.K. Yeung, A.T. Evans, M.C.T. Denyer, A. Offenhusser, S.T. Britland and W. Knoll	43
78 Protein adsorption on nanocrystalline TiO ₂ films: a novel immobilization strategy for bioelectrochemistry and bioanalytical devices E. Topoglidis, G. Gilardi, A.E.G. Cass and J.R. Durrant	44
89 Piezoelectric immunosensor for the detection of common food pathogens in dairy samples R.D. Vaughan, C.K. O’Sullivan and G.G. Guilbault	44
90 Development of a biosensor to detect contamination of shellfish with dinoflagellate toxins M.P. Kreuzer, C.K. O’Sullivan and G.G. Guilbault	44
91 Development of a biosensor to determine L-lysine concentration in food P.J. O’Connell, C.K. O’Sullivan and G.G. Guilbault	44
92 An optical immunosensor system based on the electrogenerated chemiluminescence of ruthenium(II)-tris-(bipyridyl) (Ru(bpy) ₃ ²⁺) K. Faehrich, C.K. O’Sullivan and G.G. Guilbault	45
TECHNIQUES GROUP	
<i>Poster Session Times: Thursday 9 September, 10.20 – 11.15 and 13.00 – 14.00</i>	
79 Proton ¹ H-NMR investigations of the complexation of salivary Ca ²⁺ by endogenous and exogenous citrate M. Grootveld, C. Silwood and E. Lynch	45
80 Two-dimensional ¹ H- ¹ H- and ¹ H- ¹³ C-NMR analysis of human saliva C. Silwood, M. Grootveld, E. Lynch and B. Mills	45
81 Salivary electron-donor consumption by oxidant-containing oral health-care products: a proton ¹ H-NMR study B. Mills, M. Grootveld, C. Silwood and E. Lynch	45
82 Proton ¹ H-NMR investigations of the oxidizing actions and status of a peroxoborate-containing dentrifice in human saliva E. Lynch, M. Grootveld, C. Silwood and A. Claxson	46
