Volume 3, Part 3, 1975

555TH MEETING, ABERYSTWYTH

	PAGE
Colloquium: Biochemistry of Blue-Green Bacteria	
Blue-green bacteria: status and photoautotrophic metabolism. <i>By</i> A. J. Smith	345
The utilization of organic substrates by cyanobacteria. <i>By</i> R. Y. Stanier	352
Nitrogen fixation and the heterocyst in blue-green algae. <i>By</i> W. D. P. Stewart, P. Rowell & E. Tel-Or	357
Ferredoxins, blue-green bacteria and evolution. <i>By</i> D. O. Hall, R. Cammack, K. K. Rao, M. C. W. Evans & R. Mullinger	361
Nucleic acid synthesis and regulation in blue-green algae. <i>By</i> N. G. Carr & N. Mann	368
Communications	
Dark-light transitions with a heterotrophic culture of a blue-green alga. <i>By</i> E. H. Evans & N. G. Carr	373
The occurrence of the pyruvate dehydrogenase complex and the pyruvate-ferredoxin oxidoreductase in blue-green bacteria. <i>By</i> H. Bothe	376
Two plant-type ferredoxins in light-grown and dark-grown cells of the blue-green bacterium <i>Nostoc</i> strain MAC. <i>By</i> K. G. Hutson & L. J. Rogers	377
Citrate synthase from blue-green bacteria. <i>By</i> C. Lucas & P. D. J. Weitzman	379
Glutamate synthase in blue-green algae. <i>By</i> P. J. Lea & B. J. Miflin	381
Glucose dehydrogenase of <i>Chlorogloeopsis fritschii</i> . <i>By</i> R. Pritchard, A. Beauclerk & A. J. Smith	384
Aromatic aldehyde dehydrogenase from <i>Pseudomonas putida</i> N.C.I.B. 9869. <i>By</i> M. J. Keat & D. J. Hopper	385
Synthesis of <i>Escherichia coli</i> uridine diphosphate glucose hydrolase, and demonstration of an inhibitor, in <i>Salmonella typhimurium</i> cytoplasm. <i>By</i> N. Taylor & I. R. Beacham	386
The interaction of concanavalin A with mutant and wild-type strains of <i>Escherichia coli</i> K12. <i>By</i> R. Picken & I. R. Beacham	387
Action of butyricin 7423 on <i>Clostridium pasteurianum</i> : changes in intracellular adenosine triphosphate concentration. <i>By</i> D. J. Clarke & J. G. Morris	389
The development of photosystem 1 in greening barley. <i>By</i> N. L. Morgan & W. T. Griffiths	391
Partial purification of adenosine 3':5'-cyclic monophosphate phosphodiesterase from <i>Phaseolus vulgaris</i> L.: associated activator and inhibitors. <i>By</i> E. G. Brown, T. Al-Najafi & R. P. Newton	393
Rhythmic oscillations in carbohydrate metabolism during growth of sycamore (<i>Acer pseudoplatanus</i> L.) cell in continuous (chemostat) culture. <i>By</i> M. W. Fowler & A. Clifton	395

	PAGE
Proteins made in mitochondria of cultured animal cells. <i>By</i> A. Jeffreys & I. Craig	398
Regulation of pyruvate kinase from the hepatopancreas of the crab <i>Carcinus maenas</i> . <i>By</i> I. G. Giles, P. C. Poat & K. A. Munday	400
Comparison of rat hepatic microsomal mixed-function oxidase activities in microsomal preparations, isolated hepatocytes and liver slices. <i>By</i> S. Gerayesh-Nejad, R. S. Jones & D. V. Parke	403
The application of affinity chromatography to the arylsulphatase B of human liver and to other arylsulphatases. <i>By</i> S. I. O. Agogbua & C. H. Wynn	405
The biliary excretion of betamethasone in the rat. <i>By</i> R. S. Jones, J. M. Tredger, J. Chakraborty & D. V. Parke	408
The metabolic fate and elimination of streptozotocin. <i>By</i> E. H. Karunanayake, D. J. Hearse & G. Mellows	410
Microradioautographic study of the distribution and uptake of [¹⁴ C]streptozotocin in rat tissues. <i>By</i> E. H. Karunanayake, J. R. J. Baker, R. Christian, D. J. Hearse & G. Mellows	414
The additive effects of potassium ions and hypothermia for the induction of elective cardiac arrest. <i>By</i> D. J. Hearse, D. A. Stewart & M. V. Braimbridge	417
Species variation in anoxia-induced myocardial enzyme release. <i>By</i> D. J. Hearse, S. M. Humphrey & P. B. Garlick	420
The effect of β -adrenergic agonists on enzyme release from the hypoxic isolated perfused rat heart. <i>By</i> D. J. Hearse, P. B. Garlick & J. P. Shillingford	422
Creatine kinase isoenzymes: their separation, quantitative determination and use in the assessment of acute myocardial infarction. <i>By</i> E. A. Ogunro, D. J. Hearse & J. P. Shillingford	425
An improved extraction procedure for the endotoxin from <i>Microcystis aeruginosa</i> NRC-1. <i>By</i> P. Rabin & A. Darbre	428
Receptors for oral anti-diabetic glibenclamide in liver and interaction between glibenclamide and proteins in various extrapancreatic sites. <i>By</i> J. G. Nievel & J. Anderson	430
Enzyme changes and turnover of various protein fractions during experimental hepatomegaly. <i>By</i> P. J. Bray & J. G. Nievel	432
Primary changes in rat brain metabolism at the outset of increased psychomotor activity induced by pemoline. <i>By</i> J. G. Nievel	433

547TH MEETING, LONDON

Communication

Hydrated electrons ($e^-_{aq.}$) reacting with charged polymers are subject to Donnan effects. <i>By</i> J. E. Scott, V. Davies & M. Ebert	436
--	-----

552ND MEETING, GALWAY

Communication

1-Amino- ω -trifluoroacetamidoalkanes: new reagents for use in preparing ligands for affinity chromatography. <i>By</i> H. Guilford & K. Mosbach	438
---	-----

BOOK REVIEWS	439
---------------------	-----
