Volume 4, Part 2, 1976

561ST MEETING, LEEDS

	PAGE
Colloquium: Structure and Catabolism of Haem Compounds	
Introduction to haem catabolism and studies on haem oxygenase. <i>By</i> R. Schmid	195
¹⁸ O studies of haem catabolism. <i>By</i> S. B. Brown & R. F. G. J. King	197
Binding by proteins of the rat liver cytosol of compounds derived <i>in vivo</i> from the haem precursor 5-aminolaevulinic acid. <i>By</i> B. Ketterer, K. S. Srai & E. Tipping	202
Increased liver haem degradation caused by foreign chemicals: A comparison of the effects of 2-allyl-2-isopropylacetamide and cobaltous chloride. <i>By</i> F. de Matteis & A. Unselid	205
Methine bridge selectivity in haem-cleavage reactions: Relevance to the mechanism of haem catabolism. <i>By</i> P. O'Carra & E. Colleran	209
Intermediates in haem degradation. <i>By</i> A. H. Jackson, D. E. Games & G. Cooper	214
Some aspects of the reactions of peroxides with ferrihaems. <i>By</i> P. Jones	218
Formation and structure of bile pigments from non-mammalian sources. <i>By</i> W. Rüdiger	218
Phototherapy of neonatal jaundice. <i>By</i> A. F. McDonagh	219
Mechanisms of the photodegradation of bilirubin. <i>By</i> R. Bonnett	222
Colloquium: Alterations in Lipid Metabolism during Mammalian Development	
The function of brown adipose tissue in the newborn. <i>By</i> D. Hull	226
Perirenal adipose-tissue development in the neonatal lamb. <i>By</i> R. G. Vernon	228
Is there a biochemical marker for the pre-adipocyte? <i>By</i> P. F. Dodds, D. N. Brindley & M. I. Gurr	229
Hepatic fatty acid degradation during development of the rat. <i>By</i> E. Bailey, P. C. Foster & J. Shah	230
Lipids and development of the human brain. <i>By</i> M. A. Crawford	231
The availability of long-chain polyenoic fatty acids for brain development in the rat. <i>By</i> A. G. Hassam	233
Biosynthesis and metabolism of saturated fatty acids in the developing and adult brain in relation to the incorporation and turnover of fatty acids in membrane phospholipids. <i>By</i> E. M. Carey & R. C. Cantrill	234

	PAGE
Changes in lipogenesis during mammary-gland development. <i>By</i> R. Dils, S. Clark, B. Speake, R. J. Mayer & J. Knudsen	236
Effect of hormones on lipogenesis in mammary explants taken from rabbits at different stages of pregnancy and lactation. <i>By</i> B. K. Speake, R. Dils & R. J. Mayer	238
Effect of hormones on the activity of acetyl-coenzyme A carboxylase in explants of mammary gland from mid-pregnant rabbits. <i>By</i> R. Manning, R. Dils & R. J. Mayer	241
Lipid metabolism in cytoplasmic droplets from freshly secreted milk. <i>By</i> W. W. Christie, R. G. Vernon & F. B. P. Wooding	242
Communications	
Glycocholate can remove lipid and protein components from the outer leaflet of the plasma membrane without causing cell lysis. <i>By</i> R. Coleman, G. Holdsworth & O. S. Vyvoda	244
The location of membrane components in sarcoplasmic-reticulum membranes by using free and immobilized lactoperoxidase. <i>By</i> I. A. King & C. F. Louis	245
Analytical subfractionation of microsomal fractions from the livers of control and Gunn-strain rats. <i>By</i> J. Tilleray & T. J. Peters	248
'Inside-out' vesicles of pig lymphocyte plasma membrane. <i>By</i> F. S. Walsh, B. H. Barber & M. J. Crumpton	251
Production of 1,2-diacylglycerol in human erythrocyte 'ghosts' exposed to very low calcium ion concentrations. <i>By</i> D. Allan & R. H. Michell	252
A possible role for 1,2-diacylglycerol in fusion of erythrocytes by Sendai virus. <i>By</i> D. Allan & R. H. Michell	253
Interaction of liposomes with blood plasma proteins. <i>By</i> C. D. V. Black & G. Gregoriadis	253
Penetration of target areas in the rat by liposome-associated agents administered parenterally and intragastrically. <i>By</i> G. Gregoriadis, G. Dapergolas & E. D. Neerunjun	256
Preparation of glucocerebroside β -glucosidase for entrapment in liposomes and treatment of patients with adult Gaucher's disease. <i>By</i> I. Braidman & G. Gregoriadis	259
Precocious development of uridine diphosphate glucuronyltransferase activity in chick-embryo liver after administration of 11β -hydroxy steroids with and without thyroxine. <i>By</i> J. E. A. Leakey & G. J. Dutton	261
Inhibition of uridine uptake by methylprednisolone in human lymphoblastoid cells. <i>By</i> A. W. Waddell, C. C. Bird & A. R. Currie	262
Apparent induction by phenobarbital of uridine diphosphate glucuronyltransferase activity in nuclear envelopes of embryonic-chick liver. <i>By</i> D. J. Fry & G. J. Wishart	265
Glucose phosphorylation and dephosphorylation in chicken liver. <i>By</i> I. E. O'Neill & D. R. Langslow	267
Vesiculation of the kidney microvillus membrane. <i>By</i> A. G. Booth & A. J. Kenny	270
	1976

	PAGE
The effect of theophylline on glucose and fluid transport across the rat jejunum. <i>By H. J. Leese, J. Prendergast & B. S. Read</i>	272
Glucose accumulation by rings of small intestine from normal and schistosome-infected mice. <i>By B. P. Vengesa & H. J. Leese</i>	274
An improved working rat heart preparation and new apparatus for pyruvate dehydrogenase determinations. <i>By J. A. Illingworth & R. Mullings</i>	277
Improved alkylation of acetoacetyl-coenzyme A thiolase by extension of chain length in chloromethyl ketone fatty acids. <i>By R. A. Chalkley & D. P. Bloxham</i>	279
The phospholipase activity from <i>Penicillium notatum</i> . <i>By A. Sheltawy, J. K. Martin & D. Borrill</i>	281
Metabolism of very-low-density lipoproteins by the extrahepatic tissues of the rat. <i>By B. S. Suri, M. E. Targ & D. S. Robinson</i>	282
The enzymic hydrolysis of acetyl-coenzyme A by trypanosomatid flagellates. <i>By R. A. Klein, P. G. G. Miller & D. J. Linstead</i>	285
Alanine release by rat hemidiaphragm muscle <i>in vitro</i> . <i>By K. Snell</i>	287
Isolation and hormone-responsiveness of intact cells from a transplantable osteogenic sarcoma in the rat. <i>By D. Atkins, A. H. Campbell, P. M. Ingleton, N. H. Hunt & T. J. Martin</i>	289
Pyruvate dehydrogenase activation after an increase in cardiac output. <i>By J. A. Illingworth & R. Mullings</i>	291
Modification of paracetamol toxicity by antioxidants. <i>By J. Kelleher, B. E. Walker, N. P. Keane, M. S. Losowsky & M. F. Dixon</i>	292
The effect of dietary selenium and vitamin E on glutathione peroxidase and glutathione in the rat. <i>By D. L. Scott, J. Kelleher & M. S. Losowsky</i>	295
Degradation of hepatic haem to porphyrins and oxophlorins in rats treated with 2-allyl-2-isopropylacetamide. <i>By A. F. McDonagh, R. Pospisil & U. A. Meyer</i>	297
Haem degradation in dimethyl sulphoxide/water mixtures and pyridine/water mixtures. <i>By R. F. G. J. King & S. B. Brown</i>	299
Studies on the inactivation of 5-aminolaevulinic acid dehydratase by alkylation. <i>By A. G. Chaudhry, M. G. Gore & P. M. Jordan</i>	301
Synthetic conjugates of bilirubin. <i>By F. E. Hancock, D. W. Hutchinson & A. J. Knell</i>	303
The extracellular haemoglobin of <i>Eunice aphroditois</i> (Pallas). <i>By E. J. Wood, A. Anastasi, W. H. Bannister & J. V. Bannister</i>	304
The carbohydrate content of gastropod haemocyanins. <i>By R. L. Hall & E. J. Wood</i>	307
An immunochemical investigation of ganglioside in rat brain myelin. <i>By N. A. Gregson & J. M. Oxberry</i>	310
Some biochemical correlates of amino acid excitation and uptake in rat cerebral cortex. <i>By D. W. G. Cox & R. H. Osborne</i>	311
4-Aminobutyric acid in the mammalian cochlear nucleus. <i>By S. K. Fisher & W. E. Davies</i>	313

	PAGE
Binding of 2-amino-6,7-dihydroxy-1,2,3,4-tetrahydronaphthalene to rat brain synaptic membranes: Association with the dopamine (3,4-dihydroxyphenethylamine) receptor. <i>By</i> P. J. Roberts, G. N. Woodruff & J. A. Poat	316
Acetylcholine causes an increase in the hydrolysis of triphosphoinositide pre-labelled with [³² P]phosphate or [³ H]myo-inositol and a corresponding increase in the labelling of phosphatidylinositol phosphatidic acid and in rabbit iris muscle. <i>By</i> A. A. Abdel-Latif & R. A. Akhtar	317
The long-chain fatty acyl-coenzyme A hydrolase activity of rat cerebral cortex. <i>By</i> R. W. Bonser & G. G. Lunt	321
Proteolipid-bound unesterified fatty acids in rat cerebral cortex: Incorporation of [1- ¹⁴ C]acetate <i>in vivo</i> . <i>By</i> J. E. James & G. G. Lunt	324
Brain lysosomal glycosidase activity in mice during the immune response to an encephalitogenic virus infection. <i>By</i> A. J. Suckling, S. Bateman & H. E. Webb	326
Changes in membrane adenosine triphosphatases on administration of lithium salts <i>in vivo</i> . <i>By</i> J. E. Hesketh	328
The determination of sodium, potassium and lithium concentrations in erythrocytes. <i>By</i> R. P. Hullin, J. C. Goodwin & N. J. Birch	331
The isolation and partial characterization of polymorphonuclear-leucocyte actin. <i>By</i> P. Jackson & N. Crawford	333
Isolation of elastase from human serum. <i>By</i> S. S. El-Ridi & D. A. Hall	336
Elastolysis and co-ordinately bound calcium. <i>By</i> D. A. Hall & S. S. El-Ridi	337
Differential effects of 25-hydroxycholecalciferol on non-histone protein phosphorylation in the liver and kidney of the vitamin D-deficient rat. <i>By</i> P. N. Hirschmann & S. Itzhaki	339
Isolation and characterization of messenger ribonucleic acid species for guinea-pig milk proteins from free and membrane-bound polyribosomes. <i>By</i> O. S. Harrison, R. K. Craig & P. N. Campbell	340
Purification and subunit structure of cytochrome oxidase from rat liver. <i>By</i> J. H. Walker & R. J. Mayer	342
Partial purification of monoamine oxidase from rat liver by chromatography on diazo-coupled tyramine-Sepharose. <i>By</i> R. G. Dennick & R. J. Mayer	344
Dipeptidyl peptidase IV, a kidney microvillus serine proteinase: Evidence for its large subunit molecular weight and endopeptidase activity. <i>By</i> A. J. Kenny, A. G. Booth, E. J. Wood & A. R. Young	347
Identification of protein subunits in the kidney microvillus membrane. <i>By</i> A. G. Booth & A. J. Kenny	348
A new protein phosphatase from skeletal muscle: Myosin light-chain phosphatase. <i>By</i> M. W. Morgan, S. V. Perry & J. Ottaway	351
560TH MEETING, OXFORD	
Long-range effects of products of carbon tetrachloride-stimulated lipid peroxidation. <i>By</i> G. Ugazio, M. V. Torrielli, E. Burdino, B. C. Sawyer & T. F. Slater	353
COMPUTER WORKSHOP, EDINBURGH	
Tests for the goodness of fit of models. <i>By</i> G. L. Atkins	357

CONTENTS

ix

	PAGE
Design and analysis of progress curves in enzyme kinetics. <i>By M. Markus & T. Plessner</i>	361
FACSIMILE—a computer program for simulation and optimization. <i>By A. R. Curtis</i>	364
Control points in the citric acid cycle. <i>By J. H. Ottaway</i>	371
BOOK REVIEWS	377
