

biochemical society transactions

1976

Vol. 4, No. 6

**Managing Editor
R. B. BEECHEY**

london: the biochemical society © 1976

Biochemical Society Transactions. This journal contains unedited reports of the formal presentations of data and comments communicated to the Biochemical Society at Meetings and Colloquia organized either by the Society or by the Groups of the Society. It is not a journal for the direct reporting of biochemical data. However, short reviews that survey important areas of biochemistry will be considered, but authors should consult the Managing Editor of *Biochemical Society Transactions* before preparing such articles.

Communications to be published in *Biochemical Society Transactions* should be prepared to the instructions printed in the current copy of the Agenda Papers. The general requirements for presentation will be similar to those of the *Biochemical Journal*. Should any problems arise concerning the preparation of papers for *Biochemical Society Transactions* authors are recommended to use the 'Policy of the Journal and Instructions to Authors' [*Biochem. J.* (1976) **153**, 1–21] as a general guide. SI symbols for units will be used [see *Pure Appl. Chem.* (1970) **21**, 1–44; *Quantities, Units & Symbols* (1971) The Royal Society, London].

In 1977 Volume 5 will be published. This will be in six parts published at approximately bi-monthly intervals. The subscription to non-members will be £28.00, except for subscribers in U.S.A., Canada and Mexico, for whom the rate is \$60.00 or the sterling equivalent at the time of payment. Despatch will be made by air freight to these countries.

A concessionary joint subscription is available to subscribers to both the *Biochemical Journal* and *Biochemical Society Transactions*, at a saving of £10.00 (\$25.00). The joint subscription is £158.00 (air freight joint subscription \$355.00 or the sterling equivalent).

Orders, back numbers and lost copies. Orders, enquiries for back numbers and claims regarding issues lost or damaged should be addressed to: Biochemical Society Book Depot, P.O. Box 32, Commerce Way, Whitehall Road Industrial Estate, Colchester CO2 8HP.

No claims can be considered if they are received later than three months after the date of posting of *Transactions*, plus such time as would be expected for transit by post.

Back issues of *Biochemical Society Transactions* are available at the following prices:

Volumes 1 and 2 each	£15.00	(\$40.00)	[single parts £3.00 (\$8.00)]
Volume 3	£18.00	(\$40.00)	[single parts £3.20 (\$8.00)]
Volume 4	£24.00	(\$60.00)	[single parts £4.20 (\$10.50)]

INDEX OF AUTHORS

- Abou-El-Makarem, M. 1092
 Akhtar, M. 1068
 Allen, M. B. 1057
 Anderson, J. 1150
 Antoniw, J. F. 1030, 1033
 Arnstein, H. R. V. 965
 Ashworth, J. M. 961
- Barker, R. D. J. 1077, 1107
 Benedetto, C. 1094
 Bickerstaff, G. F. 1061
 Bidey, S. P. 1150
 Billington, D. 1035
 Bloxham, D. P. 989, 1068
 Booth, A. G. 1011
 Brand, K. 1040
 Branford White, C. J. 1136
 Brodie, M. J. 1088
 Brown, S. B. 1085
 Browne, M. J. 1130
 Buchan, P. 1100
 Burdon, R. H. 1130
 Burkhardt, D. 1081
- Campbell, A. 1118
 Campbell, A. J. 1023
 Campbell, B. C. 1088
 Carabott, M. J. J. 1058
 Carey, E. M. 1147
 Carolan, G. 1021
 Carr, T. 1118
 Catley, B. J. 1021
 Cohen, P. 1027, 1030, 1033
 Cohn, Z. A. 1003
 Cole, R. 1063
 Coleman, R. 1017
 Conyers, R. A. J. 1040
 Corp, C. R. 1110, 1132
 Crabtree, B. 999, 1046
 Cramb, G. 1139
- Dianzani, M. U. 1094
 Dixon, G. H. 1027
 Dobrota, M. 1074
 Donald, A. M. 1069, 1071
 Dutton, G. J. 1069

Subject Index

Entries prefixed by an asterisk refer to papers represented in title only

- Acer pseudoplatanus*, see Sycamore
- [1-¹⁴C]Acetate, incorporation of, into proteo-lipid-bound unesterified fatty acids in rat cerebral cortex *in vivo* (James, J. E. & Lunt, G. G.) 324-326
- Acetate, influence of, on matrix-bound creatine kinase (Bickerstaff, G. F. & Price, N. C.) 1061-1063
- Acetoacetyl-coenzyme A thiolase, improved alkylation of, by extension of chain length in chloromethyl ketone fatty acids (Chalkley, R. A. & Bloxham, D. P.) 279-281
- Acetylcholine hydrolase, erythrocyte, human, kinetics of, before and after solubilization with Triton X-100 (Cramb, G., Newman, P. F. J. & Nimmo, I. A.) 1139-1142
- Acetylcholine, increase in hydrolysis of triphosphoinositide in rabbit iris muscle caused by (Abdel-Latif, A. A. & Akhtar, R. A.) 317-321
- Acetylcholinesterase, changes in activity of, in regions of rat brain after behavioural treatments (Evans, C. & Kerkut, G. A.) 744-746
- Acetylcholinesterase, changes in, in thalamus of rat brain after anaesthesia and electrical stimulation (Anand, R., Gore, M. G. & Kerkut, G. A.) 746-747
- Acetylcholinesterase, erythrocyte, apparent alterations of, and other membrane proteins in Duchenne muscular dystrophy (Das, P. K., Graesslin, D. & Goedde, H. W.) 723-724
- Acetyl-coenzyme A carboxylase, effect of hormones on activity of, in explants of mammary gland from mid-pregnant rabbits (Manning, R., Dils, R. & Mayer, R. J.) 241-242
- Acetyl-coenzyme A, enzymic hydrolysis of, by trypanosomatid flagellates (Klein, R. A., Miller, P. G. G. & Linstead, D. J.) 285-287
- N*-Acetyl- β -D-glucosaminidase, activity of, in brain of mice during immune response to an encephalitogenic virus infection (Suckling, A. J., Bateman, S. & Webb, H. E.) 326-328
- Acinetobacter calcoaceticus*, constitutivity of mandelate enzymes in, and its effect on synthesis of benzyl alcohol dehydrogenase (Moyes, H. M. & Fewson, C. A.) 1105-1106
- Acinetobacter*, effect of growth conditions on wax content of strains of (Fixter, L. M. & McCormack, J. G.) 504-505
- Acne, adolescent, sebaceous lipogenesis and androgen metabolism in (Cooper, M. F., Hay, J. B., McGibbon, D. & Shuster, S.) 793-795
- Acne vulgaris, relation of steroid metabolism in human skin to sebaceous gland growth and (Hodgins, M. B. & Hay, J. B.) 605-609
- Actin, isolation and partial characterization of, from polymorphonuclear leucocytes (Jackson, P. & Crawford, N.) 333-336
- Actin, ¹²⁵I-labelled, solubility and binding studies with, and platelet membranes (Taylor, D. G., Williams, V. M. & Crawford, N.) 156-160
- Actin, role of, and myosin in growth of nerve cells (Bray, D.) 543-544
- Actinomycin D, competition between induction of hepatic protein synthesis by drugs and inhibition by (Anderson, J. & Nievel, J. G.) 528-529
- Acyl-coenzyme A thioesterase, activities of, in lactating rabbit mammary gland (Waltham, P. C. & Carey, E. M.) 1147-1148
- Adenosine 3':5'-cyclic monophosphate, metabolism of, generated in isolated cerebral tissues by electrical excitation (Barberis, C., McIlwain, H. & Newman, M. E.) 748-749
- Adenosine 3':5'-cyclic monophosphate phosphodiesterase, hydrolytic rupture of ascorbate by (Lewin, S.) 71-73
- Adenosine 3':5'-cyclic monophosphate, role of, in growth and development of rat liver (Klaipongpan, A., Bloxham, D. P. & Akhtar, M.) 1068-1069
- Adenosine 3':5'-cyclic monophosphate-dependent protein kinase, specificity of (Yeaman, S. J., Cohen, P., Watson, D. C. & Dixon, G. H.) 1027-1030

- Adenosine diphosphate-ribose polymerase, purification of, from pig thymus (Tsopanakis, C., McLaren, E. A. & Shall, S.) 774-777
- Adenosine triphosphatase, (magnesium plus sodium plus potassium)-stimulated, presence of, in rat sciatic nerve (Das, P. K., Bray, G. M., Aguyao, A. J. & Rasminsky, M.) 750-752
- Adenosine triphosphatase, oligomycin-sensitive, organization of (Partis, M. D., Bertoli, E., Mascarello, S. & Griffiths, D. E.) 88-91
- Adenosine triphosphatase, sodium-plus-potassium-ion-dependent, activity of, in reconstituted systems and cultured cells (Kimmelberg, H. K.) 755-757
- Adenosine triphosphatases, membrane, changes in, on administration of lithium salts *in vivo* (Hesketh, J. E.) 328-330
- Adenosine triphosphate, gel-filtration chromatography of complexes of noradrenaline, magnesium and (Birch, N. J., Nanik, A. C., Inie, R. A. & Hullin, R. P.) 757-760
- Adenosine triphosphate, inhibition of human placental oestradiol-17 β dehydrogenase by (Shaw, M. A. & Jeffery, J.) 1097-1098
- Adenosine triphosphate-DL-1-aminopropane 2-ol phosphotransferase, presence of, in *Pseudomonas* sp. capable of aminoacetone catabolism (Faulkner, A. & Turner, J. M.) 506-508
- S-Adenosylmethionine, biosynthesis and metabolism of, and polyamines in the rat (Raina, A., Eloranta, T. & Kajander, O.) 968-971
- Adenovirus type 2, genes for polypeptides of (Atkins, J. F., Lewis, J. B., Anderson, C. W. & Gesteland, R. F.) 859
- Adenylate, changes in energy charge of, in the sea mussel during exposure to air (Wijsman, T. C. M., De Zwaan, A., Ebberink, R. H. M.) 442-443
- Adenylate cyclase system, effect of local anaesthetics on the thyrotrophin receptor and (Marshall, N. J., Florin-Christensen, A. & von Borcke, S.) 149-151
- Adenylate deaminase, molecular weight and amino acid composition of, from rabbit skeletal muscle (O'Driscoll, D., Roring, N. P. & Ross, C. A.) 928-930
- Adenylate, regulation at the phosphoenolpyruvate branchpoint by energy charge of, in the sea mussel (Ebberink, R. H. M., De Zwaan, A. & Wijsman, T. C. M.) 444-447
- Adipocyte, primitive, biochemical marker for (Dodds, P. F., Brindley, D. N. & Gurr, M. I.) 229-230
- Adipose tissue, brown, function of, in the newborn (Hull, D.) 226-228
- Adipose tissue, perirenal, development of, in the neonatal lamb (Vernon, R. G.) 228-229
- Adrenaline, effects of, on phospholipase A2-acylation system of plasma membrane of heart (Vyvoda, S. & Rowe, C. E.) 147-148
- Aerobic environment, role of microbial catabolism in (Evans, W. C.) 452-455
- Affinity chromatography, purification of nuclear enzymes by (Khan, M. G. & Shall, S.) 778-781
- Alanine, release of, by rat hemidiaphragm muscle *in vitro* (Snell, K.) 287-288
- Albumin, protein content of domestic fowl magnum in relation to secretion and synthesis of (Edwards, N. A. & Luttrell, V.) 1103-1105
- Albumin, serum, human, interaction of aurothiomalate *in vitro* with (Danpure, C. J.) 161-163
- Alcohol dehydrogenases, aromatic, from *Pseudomonas putida* (Keat, M. J. & Hopper, D. J.) 494-495
- Alicyclic compounds, microbial degradation of (Trudgill, P. W.) 458-463
- Alkylation, inactivation of 5-aminolaevulinic dehydratase by (Chaudhry, A. G., Gore, M. G. & Jordan, P. M.) 301-303
- Allotypes, immunoglobulin, chicken, specificities of (Pink, R.) 38
- Allotypes, immunoglobulin, human, structural localization of (Turner, M. W.) 29-33
- Allotypes, immunoglobulin, mouse, nomenclature and structure of (Dresser, D. W., Keeler, K. D. & Phillips, J. M.) 34-38
- Allotypes, immunoglobulin, rabbit, structural studies on (Mole, L. E.) 33-34
- Allotypes, immunoglobulin, rat, expression of, by thymus-independent cells (Hunt, S. V. & Duvall, E.) 38-41
- Allotypic expression, possible control by regulatory allelic genes of (Strosberg, A. D.) 41-44
- 2-Allyl-2-isopropylacetamide, comparison of effects on liver haem degradation by, and cobaltous chloride (De Matteis, F. & Unseld, A.) 205-209
- 2-Allyl-2-isopropylacetamide, degradation of hepatic haem to porphyrins and oxophlorins in rats treated with (McDonagh, A. F., Pospisil, R. & Meyer, U. A.) 297-298
- α -Amanitin, changes in synthesis of nuclear proteins after poisoning with (Novello, F., Derenzini, M., & Pession-Brizzi, A.) 815-816
- 2-Amidino-1,2,3,4-tetrahydroisoquinoline, metabolism of, in rat and man (Angelo, M., Dring, L. G., Lancaster, R. & Smith, R. L.) 704-706

- Amines, biogenic, effects of phenethylamine derivatives on release of, from synaptosomes (Raiteri, M., Bertollini, A., Del Carmine, R. & Levi, G.) 121-124
- Amino acid, biochemical correlates of excitation and uptake of, in rat cerebral cortex (Cox, D. W. G. & Osborne, R. H.) 311-312
- Amino acids, changes in serum total concentration of, after administration of neuroleptic drugs to rats (Bender, D. A.) 98-100
- Amino acids, compartmentation of, in rat brain after electroshock and reserpine pretreatment (Nievel, J. G.) 508-509
- Amino acids, labelled, effect of various nucleotide and protein factors on incorporation of, into protein *in vitro* by liver microsomal fractions and ribosomes (Nievel, J. G. & Bray, P. J.) 512-513
- Amino acids, physiologically active, release of, from intact brain and spinal-cord preparations (Mitchell, J. F.) 10-13
- Aminoacetone, biodegradative adenosine triphosphate-DL-1-aminopropan-2-ol phosphotransferase in *Pseudomonas* sp. capable of metabolism of (Faulkner, A. & Turner, J. M.) 506-508
- Aminoacetone, catabolism of L-threonine in bacteria via (Bell, S. C. & Turner, J. M.) 497-500
- 4-Aminobutyric acid, existence of, in mammalian cochlear nucleus (Fisher, S. K. & Davies, W. E.) 313-315
- 2 - Amino - 6,7 - dihydroxy - 1,2,3,4 - tetrahydronaphthalene, binding of, to rat brain synaptic membranes and association with dopamine receptors (Roberts, P. J., Woodruff, G. N. & Poat, J. A.) 316-317
- 5-Aminolaevulinic acid dehydratase, inactivation of, by alkylation (Chaudhry, A. G., Gore, M. G. & Jordan, P. M.) 301-303
- 5-Aminolaevulinic acid dehydratase, resolution of two kinetically distinct types of 5,5'-dithiobis(2 - nitrobenzoic acid) - titrating groups in, from cow liver (Gore, M. G., Jordan, P. M. & Chaudhry, A. G.) 762
- 5-Aminolaevulinic acid dehydratase, subunit modification of, involving cysteine residues (Jordan, P., Gore, M. G. & Chaudhry, A. G.) 762-763
- δ -Aminolaevulinic acid synthetase, a partial reaction of, from *Rhodospseudomonas spheroides* (Laghai, A. & Jordan, P. M.) 52-53
- 5-Aminolaevulinic acid, binding by proteins of rat liver cytosol of compounds derived *in vivo* from (Ketterer, B., Srail, K. S. & Tipping, E.) 202-204
- Anaemia, biochemical studies of, in pregnancy (Majid, T. & Rahman, M. A.) 1146-1147
- Anaerobic environment, role of microbial catabolism in (Evans, W. C.) 452-455
- Anaerobiosis, differences in responses of tissues of the sea mussel to, induced experimentally (Chaplin, A. E. & Loxton, J.) 437-441
- Anaesthetics, local, effect of, on the thyrotrophin receptor-adenylate cyclase system (Marshall, N. J., Florin-Christensen, A. & von Borcke, S.) 149-151
- Androgens, 5 α -reduced, effects of, on preputial gland size and lipogenic activity (Bowden, P. E., Meddis, D., Cooper, M. F., Thody, A. J. & Shuster, S.) 795-797
- Antibody, synthesis of, in *Xenopus* oocytes with messenger ribonucleic acid from immunized rats (Deacon, N. J. & Ebringer, A.) 818-820
- Antigen, cell-surface, detection, localization and characterization of, common to human tumours (Dickinson, J. P., Smith, J. J. & Dyson, J. E. D.) 125-127
- Antigens, differentiation, of the lymphocyte cell surface (Williams, A. F.) 4-8
- Antigens, histocompatibility, biological significance, isolation and structure of (Snary, D., Crumpton, M. J., Goodfellow, P. & Bodmer, W. F.) 1-4
- Antigens, tumour (Klein, G.) 8-9
- Antioxidants, modification of paracetamol toxicity by (Kelleher, J., Walker, B. E., Keaney, N. P., Losowsky, M. S. & Dixon, M. F.) 292-294
- Anti-oxidants, paracetamol injury to rat liver slices and subsequent prevention by (McLean, A. E. M. & Nuttall, L.) 655-657
- Aorta, human, identification of prostaglandin F_{2 α} in media of (Smith, A. G., Gilbert, J. D., Harland, W. A. & Brooks, C. J. W.) 108-111
- Apolipoproteins, serum, rat, biosynthesis of, by liver and intestinal mucosa (Rooke, J. A. & Skinner, E. R.) 1144-1145
- Arsenite, reaction of, with turkey liver xanthine dehydrogenase (Coughlan, M. P., Fhaoláin, Í. N. & Hynes, M. J.) 904-906
- Arteriovenous differences, measurements of, in study of substrate supply to brain (Williamson, D. H.) 26-28
- Arylacetic acids, conjugation of, in pigeon compared with that in hen (Idle, J. R., Millburn, P., Williams, R. T. & Zini, G.) 141-143
- Arylacetic acids, influence of chemical structure on pattern of conjugation of, *in vivo* and *in vitro* in the rat (Dixon, P. A. F., Caldwell, J., Woods, C. J. & Smith, R. L.) 143-145
- Arylacetic acids, taurine conjugation of, in the ferret (Idle, J. R., Millburn, P. & Williams, R. T.) 139-141

- Ascorbate, hydrolytic rupture of, by adenosine 3':5'-cyclic monophosphate phosphodiesterase (Lewin, S.) 71-73
- Ascorbic acid, relationship between induction of drug-metabolizing enzymes, liver-enlargement and excretion of, in rodents (Skrbic, T. R., Nievel, J. G. & Anderson, J.) 511
- Asparaginase, liposome-entrapped, immunological advantages of tumour regression with (Neerunjun, E. D. & Gregoriadis, G.) 133-134
- Aspergillus nidulans*, effects of putrescine, spermidine and spermine on growth of a polyamine-requiring mutant of (Hope, J. A. & Stevens, L.) 1128-1130
- Aspergillus nidulans*, purification of deoxyribonuclease from (Conneely, A. M., Campbell, G. R. & Winder, F. G.) 879-881
- Aspergillus nidulans*, synthesis of polyamines in germinating conidia of (Winther, M. & Stevens, L.) 1126-1128
- Aspergillus niger*, isolation and characterization of inositol-containing glycosphingolipids from (Byrne, P. F. S. & Brennan, P. J.) 893-895
- Aureobasidium pullulans*, production of ethanol during growth cycle of (Carolan, G., Catley, B. J. & Kelly, P. J.) 1021-1022
- Aurothiomalate, inability of organomercurials to inhibit reaction between thiols and (Danpure, C. J. & Fyfe, D. A.) 631-633
- Aurothiomalate, interaction of, with human serum albumin *in vitro* (Danpure, C. J.) 161-163
- Bacillus pasteurii*, electron transport in (Haddock, B. A. & Cobley, J. G.) 709-711
- Bacillus subtilis*, effect of protein-functional-group reagents on D-gluconate transport in (O'Sullivan, M. P. & McKillen, M. N.) 882-884
- Bacillus subtilis*, energization of transport of D-gluconate in (Baxter, A. L. & McKillen, M. N.) 884-886
- Bacteria, catabolism of ethanolamine by (Blackwell, C. M., Scarlett, F. A. & Turner, J. M.) 495-497
- Bacteria, degradation of alicyclic and heterocyclic compounds by (Trudgill, P. W.) 458-463
- Bacteria, degradation of halogenated compounds by (Chapman, P. J.) 463-466
- Bacteria, evolution of catabolic pathways in (Ornston, L. N. & Parke, D.) 468-473
- Bacteria, pathway for L-threonine catabolism via aminoacetone in (Bell, S. C. & Turner, J. M.) 497-500
- Bacteriochlorophyll, effect of added light-harvesting pigments on reconstruction of photosynthetic reactions in membranes from mutants of *Rhodospseudomonas spheroides* with lack of (Hunter, C. N. & Jones, O. T. G.) 669-670
- Barium citrate, adsorbent action of, for clotting factor (Deacon, S. L. M. & Howell, R. M.) 720-723
- Benzyl alcohol dehydrogenase, effect of constitutivity of mandelate enzymes in *Acinetobacter calcoaceticus* on synthesis of (Moyes, H. M. & Fewson, C. A.) 1105-1106
- Bile acid, binding of, to 100000g supernatants from rat liver (Strange, R. C., Nimmo, I. A. & Percy-Robb, I. W.) 1102-1103
- Bile pigments, formation and structures of, from non-mammalian sources (Rüdiger, W.) 218-219
- Bilirubin, mechanisms of photodegradation of (Bonnett, R.) 222-226
- Bilirubin, synthetic conjugation of (Hancock, F. E., Hutchinson, D. W. & Knell, A. J.) 303-304
- Biliverdin reductase, affinity chromatography of (Watt, J. & O'Carra, P.) 866-868
- Bioenergetic systems, reconstitution of (Colloquium) 551-561
- Bivalent cations, interaction of clotting factor X with adsorbents containing (Howell, R. M. & Deacon, S. L. M.) 718-720
- Book reviews and Publications received 173-193, 377-398, 531-541, 821-844, 937-959, 1161-1185
- Brain, concentrations of phenylalanine and tyrosine in plasma and, in rats treated with phenylalanine loads (Antonias, K. N. & Coulson, W. F.) 94-97
- Brain, dog, perfused, isolated, inhibition of unidirectional influx of glucose into, by cytochalasin B (Drewes, L. R., Gilboe, D. D., Betz, A. L. & Horton, R. W.) 100-102
- Brain, guinea pig, peptide hydrolase activity in (O'Cuinn, G.) 864-866
- Brain, human, lipids and development of (Crawford, M. A.) 231-233
- Brain, intact, release of physiologically active amino acids from preparations of (Mitchell, J. F.) 10-13
- Brain, measurements of arteriovenous differences in study of substrate supply to (Williamson, D. H.) 26-28
- Brain, metabolism of saturated fatty acids in developing and adult, in relation to incorporation and turnover of fatty acids in membrane phospholipids (Carey, E. M. & Cantrill, R. C.) 234-235
- Brain, rat, availability of long-chain polyenoic fatty acids for development of (Hassam, A. G.) 233-234

- Brain, rat, changes in activities of acetylcholinesterase and pseudocholinesterase in regions of, after behavioural treatments (Evans, C. & Kerkut, G. A.) 744-746
- Brain, rat, perfused, isolated, monoamine metabolism in (Woods, H. F., Green, A. R., Youdim, M. B. H. & Grahame-Smith, D. G.) 22-26
- Brown adipose tissue, function of, in the newborn (Hull, D.) 226-228
- Bryophyllum fedtschenkoi*, purification and properties of phosphoenolpyruvate carboxylase from (Jones, R., Wilkins, M. B., Fewson, C. A. & Malcolm, A. D. B.) 1042-1043
- t-Butyldimethylsilyl derivatives, use of, in gas chromatography-mass spectrometry of steroids (Gaskell, S. J. & Brooks, C. J. W.) 111-113
- Caeruloplasmin, copper and, in schizophrenia (Rahman, B., Rahman, M. A. & Hassan, Z.) 1138-1139
- Calcium, co-ordinately bound, elastolysis and (Hall, D. A. & El-Ridi, S. S.) 337-338
- Calcium ions, production of 1,2-diacylglycerol in human erythrocyte 'ghosts' exposed to very low concentrations of (Allan, D. & Michell, R. H.) 252-253
- Calcium phosphate, adsorbent action of, for clotting factor (Deacon, S. L. M. & Howell, R. M.) 720-723
- Calcium phosphate, micellar, calorimetric characterization of, in cow's milk (Lyster, R. L. J.) 735-737
- *Calorimeters, temperature-scanning, use of, in systems of biochemical interest (Reid, D. S.) 569
- Calorimetry, application of, to evaluation of metabolic data for whole organisms (Lamprecht, I.) 565-569
- Calorimetry, applications of, to biochemistry (Colloquium) 561-572
- *Calorimetry, time-resolution in, as applied to muscle and systems of muscle proteins *in vitro* (Woledge, R. C.) 570
- Carbohydrate, content of, in gastropod haemocyanins (Hall, R. L. & Wood, E. J.) 307-309
- Carbohydrate, metabolism of, in Chinese-hamster cells (Faik, P. & Morgan, M. J.) 1043-1045
- Carbohydrate, substrate cycles and regulation of metabolism of (Workshop) 978-1002
- Carbon cycle, microbial metabolism and (Dagley, S.) 455-458
- Carbon cycle, role of microbial catabolism in (Evans, W. C.) 452-455
- Carbon tetrachloride, effect of phenobarbitone and indoxyl sulphate on biliary excretion of foreign organic compounds during administration of (Abou-el-Makarem, M. M. & El-Gammal, H.) 1092-1094
- Carbon tetrachloride, long-range effects of products of lipid peroxidation stimulated by (Ugazio, G., Torrielli, M. V., Burdino, E., Sawyer, B. C. & Slater, T. F.) 353-356
- Carbon utilization, patterns of, in *Cercospora beticola* (McLean, A., Lynch, F. J. & Hussey, E. C.) 889-891
- Carbonic anhydrase, activity of, in the oyster during rapid shell formation (Arnold, W. M. & Holland, D. L.) 477-479
- Carbonic anhydrase, isoenzymes I and II of, in rabbit erythroid cells (Spencer, N. & Peller, S.) 1153-1155
- Carbonic anhydrase, radioimmunoassay of isoenzymes I and II of, from rabbit erythrocytes (Peller, S. & Spencer, N.) 1116-1118
- Carcinoembryonic antigen, effects of chemical modification of the protein on antigenic activity of (Thomas, P., Edwards, R. G. & Westwood, J. H.) 513-515
- Carcinus maenas*, see Crab
- Cardiac output, activation of pyruvate dehydrogenase after increase in (Illingworth, J. A. & Mullings, R.) 291-292
- Cardium edule*, see Cockle
- Casein kinase, separation of glycogen synthase kinase 2 from (Nimmo, H. G. & Sloane, L. Z.) 1024-1027
- Catabolic pathways, evolution of (Ornston, L. N. & Parke, D.) 468-473
- Catecholamines, mechanism of secretion of (Phillips, J. H.) 1003-1007
- Catecholamines, metabolism and binding of, by rat hepatic microsomal fraction (McKillop, D. & Powis, G.) 145-147
- Cathepsin, collagenolytic activity of, in rabbit peritoneal polymorphonuclear leucocytes (Gibson, W. T., Milsom, D. W., Steven, F. S. & Lowe, J. S.) 627-628
- Cathepsin, subcellular location of, with collagenolytic activity in rabbit peritoneal polymorphonuclear leucocytes (Gibson, W. T., Milsom, D. W., Steven, F. S. & Lowe, J. S.) 628-630
- Caudate nucleus, cat, continuous determination of ³H-labelled 3,4-dihydroxyphenethylamine synthesis and release *in vivo* in (Chéramy, A., Glowinski, J., Besson, M. J. & Gauchy, C.) 20-22
- Cell differentiation, control of, in *Dictyostelium discoideum* (Ashworth, J. M.) 961-964
- Cell dissociation, quantitative comparison of, in adult mammalian muscle by various enzymes (Yasin, R., Skrbic, T. R., Van Beers, G. & Thompson, E. J.) 53-55

- Cell surface, an approach to receptors of, in an amoeba-flagellate protozoon (O'Dell, D. S., Preston, T. M., Kind, C. A. & Gardiner, P. R.) 124-125
- Cell surface, detection, localization and characterization of antigen of, common to human tumours (Dickinson, J. P., Smith, J. J. & Dyson, J. E. D.) 125-127
- Cell-surface antigens (Colloquium) 1-9
- Cellulose *trans*-2,3-carbonate, separation of rabbit allotypic b4 immunoglobulin from b4-negative immunoglobulin by affinity chromatography on immunoabsorbents prepared from (Kennedy, J. F., Keep, P. A. & Catty, D.) 135-137
- Cercospora beticola*, carbon-utilization patterns in (McLean, A., Lynch, F. J. & Hussey, E. C.) 889-891
- Cercospora beticola*, nitrogen metabolism in (McLean, A., Lynch, F. J. & Hussey, E. C.) 886-888
- Cereals, polyamine oxidase from leaves of (Smith, T. A., Haygarth, W. L. & Williams, J. F.) 74-77
- Cerebral cortex, rat, biochemical correlates of amino acid excitation and uptake in (Cox, D. W. G. & Osborne, R. H.) 311-312
- Cerebral cortex, rat, incorporation *in vivo* of [14 C]acetate into proteolipid-bound unesterified fatty acids in (James, J. E. & Lunt, G. G.) 324-326
- Cerebral cortex, rat, long-chain fatty acetyl-coenzyme A activity of (Bonser, R. W. & Lunt, G. G.) 321-324
- Cerebral cortex, superfusion system for long-term studies *in vivo* on (Dodds, P. R. & Bradford, H. F.) 13-19
- Cerebrum, isolated, metabolism of adenosine 3':5'-cyclic monophosphate generated in, by electrical excitation (Barberis, C., McIlwain, H. & Newman, M. E.) 728-749
- Chemiosmotic coupling, vectorial chemistry and the molecular mechanics of (Mitchell, P.) 399-430
- Chlamydomonas reinhardtii*, deoxyribonucleic acid polymerases from (Ross, C. A. & Harris, W. J.) 806-807
- Chloromethyl ketone fatty acids, improved alkylation of acetoacetyl-coenzyme A thiolase by extension of chain length in (Chalkley, R. A. & Bloxham, D. P.) 279-281
- Cholera toxin, alteration in macromolecular glycosylation of transformed cells mediated by dibutyl adenosine 3':5'-cyclic monophosphate and (Rieber, M.) 1073-1074
- Cholesterol, content of, in plasma-membrane subfractions from livers of control and cholesterol-fed guinea pigs (Grandison, A. S. & Green, C.) 645-646
- Cholesterol, regulation of metabolism of (Higgins, M. J. P.) 572-575
- Cholesterol, synthesis of, from tritiated water in rats (Fears, R. & Morgan, B.) 58-59, 60-62
- Choline, steroid catabolism in rats deficient in (Beary, M. E. & Rafter, J.) 868-871
- Cholinesterase, heterogeneity of, in subcellular fractions of smooth muscle (Das, P. K., Scaf, A. J. & Lammers, H. W.) 753-754
- Chondrus crispus*, isolation of flavodoxin from (Husain, A., Hutson, K. G., Andrew, P. W. & Rogers, L. J.) 488
- Chromatin, changes in 'melting' temperature of, in cells infected with pig herpes virus I (Stevely, W. S. & Golombok, B. I.) 811-812
- Chromatin, use of metrizamide density gradients to obtain a component of, from mammalian cells enriched in deoxyribonucleic acid-replicating regions (Burke, J. F. & Pearson, C. K.) 787-789
- Chromophore, reconstitution of (Oesterhelt, D. & Christoffel, V.) 556-559
- Chromosomal proteins, non-histone, effect of dexamethasone on, of hepatoma tissue culture cells (Edwards, R. J. & Knowler, J. T.) 1114-1116
- Chromosomal proteins, radioimmunoassay for (Campbell, A. & Carr, T.) 1118
- Chylomicrons, metabolism of main lipid constituents of, in perfused liver (Gardner, R. S. & Mayes, P. A.) 715-716
- Chymotryptic inhibitor I, molecular weight of, from potatoes (Richardson, M., Barker, R. D. J. & McMillan, R. T.) 1077-1079
- Chymotryptic inhibitor I, protomer isoforms of, from potatoes (Richardson, M., McMillan, R. T. & Barker, R. D. J.) 1107-1108
- CIBA Medal Lecture, the Ninth (Mitchell, P.) 399-430
- Citric acid cycle, control points in (Ottaway, J. H.) 371-376
- Clofibrate, actions of, on metabolism in rat liver (Laker, M. E. & Mayes, P. A.) 714-715
- Clofibrate, assessment of new hypolipidaemic agents by comparison with (Morgan, B.) 589-593
- Clotting factor, calcium phosphate and barium citrate as adsorbents of (Deacon, S. L. M. & Howell, R. M.) 720-723
- Clotting factor X, interaction of, with adsorbent containing bivalent cations (Howell, R. M. & Deacon, S. L. M.) 718-720
- Cobaltous chloride, comparison of effects on liver haem degradation by, and 2-allyl-2-isopropylacetamide (De Matteis, F. & Unseld, A.) 205-209
- Cochlear nucleus, mammalian, 4-aminobutyric acid in (Fisher, S. K. & Davies, W. E.) 313-315

- Cockle, octopine dehydrogenase in (Gäde, G.) 433-436
- Cod, relationship between egg protein of, and its precursor (Skinner, E. R. & Rogie, A.) 1118-1120
- Colchicine, distribution of receptors for, in subcellular fractions from 1-3-day-old chick brain (Itani, A. N. & Lagnado, J. R.) 732-734
- Collagen fibres, enthalpy of interaction between, and denaturing solvents (Menshi, S., Finch, A., Gardner, P. J. & Ledward, D. A.) 740-741
- Complement C1r and C1s, serum, human, isolation and comparison of proenzyme and activated forms of (Sim, R. B. & Porter, R. R.) 127-129
- Computer program, FACSIMILE, simulation and optimization by (Curtis, A. R.) 364-371
- Co-ordination number, changing, thermodynamics of (Graddon, D. P.) 737-739
- Copper, caeruloplasmin and, in schizophrenia (Rahman, B., Rahman, M. A. & Hassan, Z.) 1138-1139
- Copper, relationships between sulphide metabolism, molybdate toxicity and plasma distribution of, in rat and guinea pig (Cardin, C. J., Dennehy, A., Mason, J. & Roberts, C.) 873-877
- Coproporphyrin III, preparation of, and its iron complex from *Rhodospseudomonas spheroides* (Hatzikonstantinou, H. & Brown, S. B.) 1085-1087
- Corticosteroids, effect of spermidine on uptake of, by isolated perfused guinea-pig mammary gland (Peters, A. R. & Mephram, T. B.) 118-119
- *Corticosteroids, topical, effects of, on proliferative disease of the epidermis (Marks, R.) 609
- Crab, abortive enzyme-substrate ternary complexes formed by fructose 1,6-diphosphate-activated pyruvate kinase of hepatopancreas from (Giles, I. G., Poat, P. C. & Munday, K. A.) 481-484
- Crab, kinetic study of muscle pyruvate kinase from (Newton, C. J., Poat, P. C. & Munday, K. A.) 479-481
- Crab, substrate inhibition of pyruvate kinase isolated from leg muscle of (Newton, C. J., Poat, P. C. & Munday, K. A.) 1158-1160
- Creatine kinase, differential reactivity of the thiol groups of, from rabbit muscle (Price, N. C. & Hunter, M. G.) 1060-1061
- Creatine kinase, matrix-bound, influence of acetate on (Bickerstaff, G. F. & Price, N. C.) 1061-1063
- Creatine kinase, quantitative changes in isoenzymes of, during myogenesis *in vivo* (Morris, G. E., Piper, M. & Cole, R.) 1063-1065
- Cromoglycate, sodium, comparison of inhibition of phosphodiesterase activity and allergic histamine release by, and compound I.C.I. 74917 (Barrett-Bee, K. & Henderson, W.) 699-701
- Cystathione β -synthase, normal and mutant forms of, from cultured skin fibroblasts (Griffiths, R. & Tudball, N.) 630-631
- Cytochalasin B, inhibition of unidirectional influx of glucose into isolated perfused dog brain by (Drewes, L. R., Gilboe, D. D., Betz, A. L. & Horton, R. W.) 100-102
- Cytochrome oxidase, purification and subunit structure of, from rat liver (Walker, J. H. & Mayer, R. J.) 342-344
- Cytochrome *P*-450, accumulation of, in yeast in the presence of Tween-80 (Wiseman, A., McCloud, C. & Lim, T.-K.) 685-688
- Cytochrome *P*-450, NADPH-cytochrome *c* reductase and, and NADPH-linked lipid peroxidation in microsomal fractions from rat tissues (Benedetto, C., Slater, T. F. & Dianzani, M. U.) 1094-1097
- Cytochrome *P*-450, separation, purification and characterization of, from liver microsomal fraction (Lu, A. Y. H., Ryan, D., Kawalek, J., Thomas, P., West, S. B., Huang, M. T. & Levin, W.) 169-172
- Debrisoquine, metabolism of, in rat and man (Angelo, M., Dring, L. G., Lancaster, R. & Smith, R. L.) 704-706
- Deoxyribonuclease, purification of, from *Aspergillus nidulans* (Conneely, A. M., Campbell, G. R. & Winder, F. G.) 879-881
- Deoxyribonucleic acid, 'activated', nature of, used in deoxyribonucleic acid polymerase studies (Morrison, J. M.) 810-811
- Deoxyribonucleic acid, nuclear, vertebrate, evolutionary conservation of methylated sequences in (Browne, M. J., Turnbull, J. F. & Burdon, R. H.) 1130-1131
- Deoxyribonucleic acid polymerase, activity of, in Simian virus 40-infected monkey cells (McLenaghan, I., Adams, R. L. P., Eason, R. & Lindsay, J. G.) 800-803
- Deoxyribonucleic acid polymerase β , role of, in nuclear deoxyribonucleic acid synthesis (Butt, T. R., Wood, W. M. & Adams, R. L. P.) 807-810
- Deoxyribonucleic acid polymerases α and β , multiple forms of, in pea seedlings (Stevens, C. & Bryant, J. A.) 803-806
- Deoxyribonucleic acid polymerases, isolation of, from *Chlamydomonas reinhardtii* (Ross, C. A. & Harris, W. J.) 806-807
- Deoxyribonucleic acid, possible mechanism of unwinding of (Edwards, P. A. W.) 792-793
- Development, control mechanisms in differentiation and (Colloquium) 961-978

- Development, enzyme, control of, for mammalian tissue maturation (Walker, D. G.) 972-976
- Dexamethasone, effect of, on the non-histone chromosomal proteins of hepatoma tissue culture cells (Edwards, R. J. & Knowler, J. T.) 1114-1116
- Dexamethasone, urinary excretion and metabolism of, in the horse (Dumasia, M. C., Horner, M. W., Houghton, E., Moss, M. S., Chakraborty, J. & Marks, V.) 119-121
- Dextran, effect of steric exclusion by, on the conversion of fibrinogen into fibrin (Rampling, M. W., Lane, D. A. & Kakkar, V. V.) 688-690
- Diabetes, alloxan, enzymic studies on lenses of rats with (Siddiqui, M. A. & Rahman, M. A.) 1051-1052
- 1,2-Diacylglycerol, possible role for, in fusion of erythrocytes by Sendai virus (Allan, D. & Michell, R. H.) 253
- 1,2-Diacylglycerol, production of, in human erythrocyte 'ghosts' exposed to very low calcium ion concentrations (Allan, D. & Michell, R. H.) 252-253
- Dibutyl phthalate, zinc metabolism and testicular atrophy induced in the rat by (Cater, B. R., Cook, M. W. & Gangolli, S. D.) 652-653
- Dibutyryl adenosine 3':5'-cyclic monophosphate, alteration in macromolecular glycosylation of transformed cells mediated by cholera toxin and (Rieber, M.) 1073-1074
- Dictyostelium discoideum*, control of cell differentiation in (Ashworth, J. M.) 961-964
- Dictyostelium discoideum*, metal ion-dependence of α -mannosidase-1 from (Kilpatrick, D. C.) 1083-1085
- Differentiation, control mechanisms in, and development (Colloquium) 961-978
- 3,4-Dihydroxyphenethylamine, association of binding of 2-amino-6,7-dihydroxy-1,2,3,4-tetrahydronaphthalene to rat brain synaptic membranes with receptor for (Roberts, P. J., Woodruff, G. N. & Poat, J. A.) 316-317
- 3,4-Dihydroxyphenethylamine, ^3H -labelled, continuous determination of synthesis and release of, in cat caudate nucleus *in vivo* (Chéramy, A., Glowinski, J., Besson, M. J. & Gauchy, C.) 20-22
- Dimethylnitrosamine, inhibition of metabolism of, by rat liver *in vitro* (Lake, B. G., Phillips, J. C., Gangolli, S. D. & Lloyd, A. G.) 684-685
- Dimethylsulphoxide, degradation of haem in mixtures of water with (King, R. F. G. J. & Brown, S. B.) 299-301
- Dipeptidyl peptidase IV, isolation of, from kidney microvillus (Kenny, A. J., Booth, A. G., Wood, E. J. & Young, A. R.) 347-348
- Diurnal rhythms, evidence against, in cholesterologenesis from tritiated water in rats (Fears, R. & Morgan, B.) 58-59, 60-62
- Dopamine, *see* 3,4-Dihydroxyphenethylamine
- Drosophila melanogaster*, altered pyrimidine-salvage metabolism in a 5-fluorouracil-resistant mutant of (Clynes, M. M. & Duke, E. J.) 900-901
- Drug-metabolizing enzymes, changes in nucleotide metabolism of liver and fate of [^{14}C]rotate among various pyrimidines during hepatomegaly and induction of (Robinson, N., Nievel, J. G. & Anderson, J.) 509-510
- Drug-metabolizing enzymes, interaction of radioactive butylated hydroxytoluene with protein factors in rat liver related to induction of (Scully, M. F., Bray, P. J. & Nievel, J. G.) 526-528
- Drug-metabolizing enzymes, relationship between induction of, liver enlargement and ascorbic acid excretion in rodents (Skrbic, T. R., Nievel, J. G. & Anderson, J.) 511
- Duchenne muscular dystrophy, *see* Muscular dystrophy, Duchenne
- Egg protein, cod, relationship between, and its precursor (Skinner, E. R. & Rogie, A.) 118-1120
- Elastase, isolation of, from human serum (El-Ridi, S. S. & Hall, D. A.) 336-337
- Elastolysis, co-ordinately bound calcium and (Hall, D. A. & El-Ridi, S. S.) 337-338
- *Electrogenic function, reconstitution of, of pH generators (Skulachev, V. P.) 551
- Electron transport, adenosine 3':5'-cyclic monophosphate and, in mutants of *Escherichia coli* (Daoud, M. S. & Haddock, B. A.) 711-714
- Electron transport, components of, in *Bacillus pasteurii* (Haddock, B. A. & Cobley, J. G.) 709-711
- Electron transport, ρ -zone interpretation of protonmotive force and (Archbold, G. P. R., Farrington, C. L., McKay, A. M. & Malpress, F. H.) 91-94
- Electroshock, compartmentation of amino acids and change in fate of radioactive glucose in rat brain after (Nievel, J. G.) 508-509
- Endopeptidase, evidence for large subunit molecular weight of dipeptidyl peptidase IV and its activity as (Kenny, A. J., Booth, A. G., Wood, E. J. & Young, A. R.) 347-348
- Energy charge, adenylate, changes in, in the sea mussel during exposure to air (Wijsman, T. C. M., De Zwaan, A. & Ebberink, R. H. M.) 442-443

- Energy charge, adenylate, regulation at phosphoenolpyruvate branchpoint by, in the sea mussel (Ebberink, R. H. M., De Zwaan, A. & Wijsman, T. C. M.) 444-447
- Energy metabolism of marine invertebrates (Colloquium) 431-451
- Energy, mitochondrial, reconstitution of conservation of, at sites 0 and 1 (Ragan, C. I.) 552-555
- Enolase, developmental changes in brain-specific isoenzymes of (Fletcher, L., Rider, C. C. & Taylor, C. B.) 1135-1136
- Enterocyte, biochemical differentiation of plasma membrane of (Michell, R. H., Coleman, R. & Lewis, B. A.) 1017-1020
- Environments, anaerobic and aerobic (Evans, W. C.) 452-455
- Enzyme activity, assay of, by polarography (Weitzman, P. D. J.) 724-726
- Enzyme, control of development of, for mammalian tissue maturation (Walker, D. G.) 972-976
- Enzyme kinetics, design and analysis of progress curves in (Markus, M. & Plesser, T.) 361-364
- Erythrocyte 'ghost', human, shape changes of (Harris, J. R.) 664-667
- Erythrocyte 'ghosts', human, production of 1,2-diacylglycerol in, exposed to very low calcium ion concentrations (Allan, D. & Michell, R. H.) 252-253
- Erythrocyte 'ghosts', resealed, entrapment of therapeutic agents in, and their fate *in vivo* (Tyrrell, D. A. & Ryman, B. E.) 677-680
- Erythrocyte, human, kinetics of acetylcholine hydrolase of, before and after solubilization with Triton X-100 (Cramb, G., Newman, P. F. J. & Nimmo, I. A.) 1139-1142
- Erythrocyte membranes, modification of activity of glyceraldehyde 3-phosphate dehydrogenase by adsorption to (Wrigglesworth, J. M., Keokitichai, S., Wooster, M. S. & Millar, F. A.) 637-640
- Erythrocytes, determination of sodium, potassium and lithium concentrations in (Hullin, R. P., Goodwin, J. C. & Birch, N. J.) 331-333
- Erythrocytes, possible role for 1,2-diacylglycerol in fusion of, by Sendai virus (Allan, D. & Michell, R. H.) 253
- Erythrocytes, rabbit, radioimmunoassay of carbonic anhydrase isoenzymes I and II from (Peller, S. & Spencer, N.) 1116-1118
- Erythroid cell, changes in protein biosynthesis and enzyme activities during differentiation of (Arnstein, H. R. V.) 965-968
- Erythroid cells, rabbit, carbonic anhydrase isoenzymes I and II in (Spencer, N. & Peller, S.) 1153-1155
- Escherichia coli*, catabolism of ethanolamine by (Blackwell, C. M., Scarlett, F. A. & Turner, J. M.) 495-497
- Escherichia coli*, electron transport in mutants of (Daoud, M. S. & Haddock, B. A.) 711-714
- Escherichia coli*, folate polyglutamate distribution in (Bassett, R., Weir, D. & Scott, J.) 500-502
- Escherichia coli*, method for isolation of mutants of, altered in their ability to metabolize glycogen (Macaskie, L. E. & Palmer, T. N.) 1038-1040
- Escherichia coli*, synthesis of 50S ribosomes in a mutant of (Markey, F., Sims, P. F. G. & Wild, D. G.) 66-68
- Ethanol, effect of, on folate conjugase activity and on serum binding and cellular uptake of radiolabelled folates (Eichner, E. R., Loewenstein, J. E. & Cox, E.) 908-910
- Ethanol, production of, during the growth cycle of *Aureobasidium pullulans* (Carolan, G., Catley, B. J. & Kelly, P. J.) 1021-1022
- Ethanolamine, catabolism of, by bacteria (Blackwell, C. M., Scarlett, F. A. & Turner, J. M.) 495-497
- Ethylene glycols, catabolism of, by a sewage bacterium (Jones, N. & Watson, G. K.) 891-892
- 4 - Ethyl - 5 - hydroxy - 3,4 - dimethyl - Δ^3 - pyrrolin-2-one, effect of, on porphyrin synthesis in the rat (Graham, D. J. M., Moore, M. R., Thompson, G. G. & Goldberg, A.) 1089-1091
- 17 α -Ethinylloestradiol 3-methylester, biliary excretion of, in the female rat (Brewster, D., Jones, R. S. & Symons, A. M.) 516-518
- Eunice aphroditois*, extracellular haemoglobin of (Wood, E. J., Anastasi, A., Bannister, W. H. & Bannister, J. V.) 304-306
- FACSIMILE computer program, simulation and optimization by (Curtis, A. R.) 364-371
- Familial hypercholesterolaemia, biochemistry of (Myant, N. B.) 580-584
- Fatty acid, hepatic, degradation of, during rat development (Bailey, E., Foster, P. C. & Shah, J.) 230-231
- Fatty acids, polyenoic, long-chain, availability of, for development of rat brain (Hassam, A. G.) 233-234
- Fatty acids, saturated, metabolism of, in developing and adult brain in relation to incorporation and turnover of fatty acids in membrane phospholipids (Carey, E. M. & Cantrill, R. C.) 234-235
- Fatty acids, unesterified, proteolipid-bound, incorporation of [$1-^{14}\text{C}$]acetate into, in rat cerebral cortex *in vivo* (James, J. E. & Lunt, G. G.) 324-326
- Fatty acids, volatile, production of, in bivalved molluscs (Kluytmans, J. H. F. M. & De Zwaan, A.) 475-477

- Fatty acids, volatile, time-course of changes in concentrations of, after administration of hypoglycin to rats (Billington, D., Osmundsen, H. & Sherratt, H. S. A.) 102-105
- Ferredoxins, isolation of, from red algae (Andrew, P. W. & Rogers, L. J.) 489
- Ferrihaems, reactions of, with peroxides (Jones, P.) 218
- Fibrinogen, effect of steric exclusion by dextran on the conversion of, into fibrin (Rampling, M. W., Lane, D. A. & Kakkar, V. V.) 688-690
- Fibroblasts, cultured, solubilization and peptide 'mapping' of a large external glycoprotein fraction labelled by lactoperoxidase-catalysed iodination of (Nairn, R. & Hughes, R. C.) 165-167
- Fibroblasts, mouse, alterations in ribonucleic acid metabolism of nuclei isolated from, during aging and growth restriction *in vitro* (Evans, C. H.) 813-815
- Fibroblasts, skin, cultured, normal and mutant cystathione β -synthase from (Griffiths, R. & Tudball, N.) 630-631
- Fibrous proteins in the nervous system (Colloquium) 543-551
- Flagellates, trypanosomatid, enzymic hydrolysis of acetyl-coenzyme A by (Klein, R. A., Miller, P. G. G. & Linstead, D. J.) 285-287
- Flavodoxin, isolation of, from a red alga (Husain, A., Hutson, K. G., Andrew, P. W. & Rogers, L. J.) 488
- Flow micro-calorimetry, studies of kinetics of enzymic and microbiological processes by (Beezer, A. E.) 570-572
- Folate, coenzyme forms of, in fibroblasts from patients deficient in 5,10-methylenetetrahydrofolate reductase (Cooper, B. A. & Rosenblatt, D.) 921-922
- Folate coenzymes, intracellular, identification of, of different cell types (Scott, J. M.) 845-850
- Folate cofactors, biochemistry of (Colloquium) 845-859
- Folate conjugase, effect of ethanol on activity of (Eichner, E. R., Loewenstein, J. E. & Cox E.) 908-910
- Folate, distribution of polyglutamate forms of (Reed, B., Weir, D. & Scott, J. M.) 906-907
- Folate, effects of deficiency of, on hepatic enzymes of folate metabolism in oestrogen-treated immature female chick (domestic fowl) (Burns, R. A. & Jackson, N.) 914-917
- Folate, exogenous, effect of concentration of, on biosynthesis of pteroylpolyglutamates in *Lactobacillus casei* (Bassett, R., Weir, D. & Scott, J.) 500-502
- Folate, natural occurrence and role as substrates of polyglutamate forms of, in mammalian cells (Bertino, J. R., Coward, J. K., Cashmore, A., Chello, P., Panichajakul, S., Horvath, C. G. & Stout, R. W.) 853-856
- Folate polyglutamate, distribution of, in *Escherichia coli* (Bassett, R., Weir, D. & Scott, J.) 500-502
- Folates, high-molecular-weight, presence of, in rat liver (Barford, P. A., Blair, J. A. & Staff, E. J.) 70-71
- Folates, radiolabelled, effect of ethanol on serum binding and cellular uptake of (Eichner, E. R., Loewenstein, J. E. & Cox, E.) 908-910
- Folates, radiolabelled, effect of methotrexate on metabolism of, in the rat (Barford, P. A., Blair, J. A. & Maighani, M. A. K.) 912-914
- Folinic acid, delay in metabolism of, given parenterally in man to 5-methyltetrahydrofolate (Whitehead, V. M. & Stein, H. A.) 918-920
- Fructose 1,6-diphosphatase, metabolic flux through, and phosphofructokinase and its relation to lipogenesis in genetically obese rats (Bloxham, D. P. & York, D. A.) 989-993
- Fructose 6-phosphate/fructose 1,6-diphosphate cycle, role of, in metabolic regulation and heat generation (Newsholme, E. A.) 978-984
- 'Futile cycles', use of [^{14}C , ^3H]glucose in study of, in liver (Hue, L.) 994-998
- 'Futile cycles', usefulness of (Hers, H. G.) 985-988
- Ganglioside, immunochemical investigation of, in rat brain myelin (Gregson, N. A. & Oxberry, J. M.) 310-311
- Gastropods, carbohydrate content of haemocyanins of (Hall, R. L. & Wood, E. J.) 307-309
- Gaucher's disease, adult, preparation of glucocerebrosidase β -glucosidase for entrapment in liposomes and treatment of patients with (Braidman, I. & Gregoriadis, G.) 259-261
- Gene expression, modification of (Lewin, S.) 68-69
- Gene regulators, non-histone nuclear proteins as (MacGillivray, A. J.) 976-978
- Glucocerebrosidase β -glucosidase, preparation of, for entrapment in liposomes and treatment of patients with adult Gaucher's disease (Braidman, I. & Gregoriadis, G.) 259-261

- Glucocorticoids, dependence on, of development of 'latent' and 'activated' uridine diphosphate glucuronosyltransferase activity in organ cultures of foetal rat liver (Wishart, G. J., Goheer, M. A., Donald, A. M. & Dutton, G. J.) 1069-1071
- Glucokinase, hepatic, multiple forms of (Allen, M. B. & Walker, D. G.) 1057
- D-Gluconate, effect of protein-functional-group reagents on transport of, in *Bacillus subtilis* (O'Sullivan, M. P. & McKillen, M. N.) 882-884
- D-Gluconate, energization of transport of, in *Bacillus subtilis* (Baxter, A. L. & McKillen, M. N.) 884-886
- Gluconeogenesis, effects of tryptophan on, in the rat and guinea pig (Elliott, K. R. F., Pogson, C. I. & Smith, S. A.) 1048-1049
- Glucose, accumulation of, by rings of small intestine from normal and schistosome-infected mice (Vengesa, B. P. & Leese, H. J.) 274-277
- Glucose, blood, effects of heliotrine and nicotinamide on concentration of, in the rat (Schoental, R. & Frayn, K. N.) 649-650
- Glucose, effect of hypoglycin on metabolism of, in the rat (Billington, D., Osmundsen, H., Taylor, J. R. & Sherratt, H. S. A.) 1035-1038
- Glucose, effect of theophylline on transport of, and fluid across rat jejunum (Leese, H. J., Prendergast, J. & Reed, B. S.) 272-274
- Glucose, inhibition of unidirectional influx of, into isolated perfused dog brain by cytochalasin B (Drewes, L. R., Gilboe, D. D., Betz, A. L. & Horton, R. W.) 100-102
- Glucose, phosphorylation and dephosphorylation of, in chicken liver (O'Neill, I. E. & Langslow, D. R.) 267-270
- Glucose, radioactive, change in fate of, in rat brain after electroshock and reserpine pretreatment (Nievel, J. G.) 508-509
- [¹⁴C, ³H]Glucose, use of, in study of 'futile cycles' in liver (Hue, L.) 994-998
- β -Glucuronidase, activity of, in brain of mice during immune response to an encephalitic virus infection (Suckling, A. J., Bate-man, S. & Webb, H. E.) 326-328
- Glutamate dehydrogenase, bipheric interactions between, of *Neurospora crassa* and reduced nicotinamide-adenine dinucleotide phosphate (Gore, M. G. & Iwatsubo, M.) 612-614
- Glutathione, effect of dietary selenium and vitamin E on, in the rat (Scott, D. L., Kelleher, J. & Losowsky, M. S.) 295-296
- Glutathione peroxidase, effect of dietary selenium and vitamin E on, in the rat (Scott, D. L., Kelleher, J. & Losowsky, M. S.) 295-296
- Glutathione-insulin transhydrogenase, effect of hypophysectomy on activity of, of rat liver (Thomas, J. H., Jones, A., Davey, P. & Hutchinson, J. S. M.) 640-642
- Glyceraldehyde 3-phosphate dehydrogenase, modification of activity of, by adsorption to erythrocyte membranes and phospholipid vesicles (Wrigglesworth, J. M., Keokitichai, S., Wooster, M. S. & Millar, F. A.) 637-640
- Glycocholate, removal of lipid and protein components from plasma membrane by, without cell lysis (Coleman, R., Holdsworth, G. & Vyvoda, O. S.) 244
- Glycogen, method for isolation of mutants of *Escherichia coli* altered in their ability to metabolize (Macaskie, L. E. & Palmer, T. N.) 1038-1040
- Glycogen, specificities of protein phosphatases involved in regulation of metabolism of, in rabbit skeletal muscle (Antoniw, J. F. & Cohen, P.) 1030-1032
- Glycogen synthase kinase 2, separation of, from casein kinase (Nimmo, H. G. & Sloane, L. Z.) 1024-1027
- Glycolipid, synthesis of, in hamster embryo cell cultures (McEvoy, F. A., Ellis, D. E. & Shall, S.) 662-664
- Glycolysis, configurational specificity of enzymes of (Hess, B.) 1045
- Glycoprotein, liver sinusoid surface membranes and secretion of (Dobrota, M., Issa, F. S., Mullock, B. M. & Hinton, R. H.) 1074-1076
- Glycoprotein, solubilization and peptide 'mapping' of a large external fraction containing, labelled by lactoperoxidase-catalysed iodination of cultured fibroblasts (Nairn, R. & Hughes, R. C.) 165-167
- Glycosidases, inhibition of, in rheumatoid joint synovial fluid by metallothiomalates (Burkhardt, D., Stephens, R. W., Ghosh, P. & Taylor, T. K. F.) 1081-1082
- Glycosphingolipids, inositol-containing, isolation and characterization of, from *Aspergillus niger* (Byrne, P. F. S. & Brennan, P. J.) 893-895
- Haem, a protein containing, associated with thalassaemia in patients of West Indian origin (Saundry, R. H., Mamman, I. & Huntsman, R. G.) 763-765
- Haem, biosynthesis of, and hydroxylation of phenazone during lead intoxication (Campbell, B. C., Meredith, P. A., Moore, M. R., Brodie, M. J., Thompson, G. G. & Goldberg, A.) 1088-1089
- Haem, catabolism of (Brown, S. B. & King, R. F. G. J.) 197-201
- Haem compounds, structure and catabolism of (Colloquium) 195-226

- Haem, degradation of, in dimethylsulphoxide/water and pyridine/water mixtures (King, R. F. G. J. & Brown, S. B.) 299-301
- Haem, hepatic, degradation of, to porphyrins and oxophlorins in rats treated with 2-allyl-2-isopropylacetamide (McDonagh, A. F., Pospisil, R. & Meyer, U. A.) 297-298
- Haem, intermediates in degradation of (Jackson, A. H., Games, D. E. & Cooper, G.) 214-217
- Haem, introduction to catabolism of (Schmid, R.) 195-197
- Haem, liver, increased degradation of, by foreign chemicals (De Matteis, F. & Unseld, A.) 205-209
- Haem oxygenase, studies on (Schmid, R.) 195-197
- Haem-cleavage reactions, relevance of methine bridge selectivity in, to mechanism of haem catabolism (O'Carra, P. & Colleran, E.) 209-214
- Haemocyanins, carbohydrate content of, in gastropods (Hall, R. L. & Wood, E. J.) 307-309
- Haemoglobin, extracellular, of *Eunice aphroditois* (Wood, E. J., Anastasi, A., Bannister, W. H. & Bannister, J. V.) 304-306
- Haemolymph, factors in, of sea mussel of possible significance as defence mechanisms (Hardy, S. W., Fletcher, T. C. & Gerrie, L. M.) 473-475
- Halogenated compounds, microbial degradation of (Chapman, P. J.) 463-466
- Heart, rat, perfusion apparatus for (Illingworth, J. A. & Mullings, R.) 277-279
- Heliotrine, effects of, and nicotinamide on the concentration of plasma insulin and blood glucose in the rat (Schoental, R. & Frayn, K. N.) 649-650
- Hepatoma, comparison of steroid glucuronyltransferases of rat liver and (Gessner, T.) 522-524
- Hepatomegaly, changes in nucleotide metabolism of liver and fate of [¹⁴C]orotate among various pyrimidines during induction of drug-metabolizing enzymes and (Robinson, N., Nievel, J. G. & Anderson, J.) 509-510
- Hepatomegaly, interaction of radioactive butylated hydroxytoluene with protein factors in rat liver related to (Scully, M. F., Bray, P. J. & Nievel, J. G.) 526-528
- Hepatomegaly, relationship between induction of drug-metabolizing enzymes, ascorbic acid excretion and, in rodents (Skrbic, T. R., Nievel, J. G. & Anderson, J.) 511
- Hepatopancreas, crab, abortive enzyme-substrate ternary complexes formed by fructose 1,6-diphosphate-activated pyruvate kinase from (Giles, I. G., Poat, P. C. & Munday, K. A.) 481-484
- Heterocyclic compounds, microbial degradation of (Trudgill, P. W.) 458-463
- Hexokinase, muscle, human, isoenzymes of, in health and disease (Ellis, D. A., Strickland, J. M. & Tye, J. E.) 1054-1057
- Hexokinases, mammalian, purification of, by affinity chromatography on Sepharose-N-aminoacyl-glucosamine derivatives (Wright, C. L., Holroyde, M. J., Warsy, A. S. & Trayer, I. P.) 1052-1053
- Hippurate, localization of synthesis of, in matrix of rat liver mitochondria (Gatley, S. J. & Sherratt, H. S. A.) 525-526
- Histamine, comparison of inhibition of phosphodiesterase activity and release of, by sodium cromoglycate and compound I.C.I. 74917 (Barrett-Bee, K. & Henderson, W.) 699-701
- Histamine, inhibition of release of, from guinea-pig lung by compound I.C.I. 74917 and isoprenaline (Barrett-Bee, K. & Lees, J.) 702-704
- Histidinol, effect of, on initiation and elongation of protein synthesis in Krebs II ascites cells (Austin, S. A.) 781-783
- Histocompatibility antigens, biological significance, isolation and structure of (Snary, D., Crumpton, M. J., Goodfellow, P. & Bodmer, W. F.) 1-4
- Horseradish peroxidase, production of superoxide radical by (Halliwell, B. & Ahluwalia, S.) 73-74
- 25-Hydroxycholecalciferol, differential effects of, on non-histone protein phosphorylation in liver and kidney of vitamin D-deficient rat (Hirschmann, P. N. & Itzhaki, S.) 339-340
- 6-Hydroxydopa, *see* 2,4,5-Trihydroxyphenylalanine
- Hydroxytoluene, butylated, radioactive, interaction of, with protein factors in rat liver related to induction of drug-metabolizing enzymes and liver enlargement (Scully, M. F., Bray, P. J. & Nievel, J. G.) 526-528
- Hypercholesterolaemia, familial, biochemistry of (Myant, N. B.) 580-584
- Hyperlipoproteinaemia type II, metabolism of low-density lipoprotein in (Packard, C. J., Shepherd, J., Third, J. L. H. C., Lorimer, R., Morgan, H. G. & Lawrie, T. D. V.) 105-107
- Hypertriglyceridaemias (Galton, D. J., Clifton-Bligh, P. & Reckless, J. P. D.) 585-589
- Hypoglycaemia, production of, in the rat by tryptophan (Smith, S. A. & Pogson, C. I.) 1049-1050
- Hypoglycin, effect of, on glucose metabolism in the rat (Billington, D., Osmundsen, H., Taylor, J. R. & Sherratt, H. S. A.) 1035-1038

- Hypoglycin, time-course of changes in concentrations of volatile fatty acids in rats after administration of (Billington, D., Osmundsen, H. & Sherratt, H. S. A.) 102-105
- Hypolipidaemic agents, current status of (Morgan, B.) 589-593
- Hypo-osmotic media, age-related, changes in respiratory control ratio of rat liver mitochondria after brief exposure to (Barrett, M. C. & Horton, A. A.) 64-66
- Hypophysectomy, effect of, on the glutathione-insulin transhydrogenase activity of rat liver (Thomas, J. H., Jones, A., Davey, P. & Hutchinson, J. S. M.) 640-642
- I.C.I. 74917, inhibition of histamine release from guinea-pig lung by, and isoprenaline (Barrett-Bee, K. & Lees, J.) 702-704
- Immunoglobulin allotypes, chicken, specificities of (Pink, R.) 38
- Immunoglobulin allotypes, human, structural localization of (Turner, M. W.) 29-33
- Immunoglobulin allotypes, mouse, nomenclature and structure of (Dresser, D. W., Keeler, K. D. & Phillips, J. M.) 34-38
- Immunoglobulin allotypes, possible control by regulatory allelic genes of expression of (Strosberg, A. D.) 41-44
- Immunoglobulin allotypes, rabbit, structural studies on (Mole, L. E.) 33-34
- Immunoglobulin allotypes, rat, expression of, by thymus-independent cells (Hunt, S. V. & Duvall, E.) 38-41
- Immunoglobulin allotypes, structure and regulation of expression of (Colloquium) 29-44
- Immunoglobulins, rabbit, separation of, by affinity chromatography on immunoadsorbents prepared from cellulose *trans*-2,3-carbonate (Kennedy, J. F., Keep, P. A. & Catty, D.) 135-137
- Indoxyl sulphate, effect of, and phenobarbitone on biliary excretion of foreign organic compounds during administration of carbon tetrachloride (Abou-el-Makarem, M. M. & El-Gammal, H.) 1092-1094
- Insulin, plasma, effects of heliotrine and nicotinamide on concentration of, in the rat (Schoental, R. & Frayn, K. N.) 649-650
- Insulin, suppression of, by rat triacylglycerol depletion in perfused mouse liver (Salmon, D. M. W. & Hems, D. A.) 659-662
- Intestine, biochemical differentiation of plasma membrane of epithelial cells of (Michell, R. H., Coleman, R. & Lewis, B. A.) 1017-1020
- Intestine, biosynthesis of rat serum apolipoproteins by mucosa of (Rooke, J. A. & Skinner, E. R.) 1144-1145
- Intestine, guinea pig, relationship between peptide hydrolases in brush-border and cytosol fractions of mucosa of (Piggott, C. O. & Fottrell, P. F.) 862-863
- Intestine, relationship of the acid microclimate of, to malabsorption in rat and human (Lucas, M. L., Blair, J. A., Cooper, B. T. & Cooke, W. T.) 154-156
- Intestine, small, accumulation of glucose by rings of, from normal and schistosomium-infected mice (Vengesa, B. P. & Leese, H. J.) 274-277
- Intestine, small, effect of theophylline on glucose and fluid transport in (Leese, H. J., Prendergast, J. & Read, B. S.) 272-274
- Intestine, small, human, subcellular fractionation of biopsies from (Peters, T. J.) 1142-1144
- Invertebrates, marine, distribution and metabolism of wax esters in (Sargent, J. R. & Gatten, R. R.) 431-433
- Iodothyronine deiodinase, release *in vitro* of, from normal human thyroid cells (Bidey, S. P., Anderson, J., Marsden, P. & McKerron, C. G.) 1150-1153
- Iris muscle, rabbit, increase in hydrolysis of triphosphoinositide in, caused by acetylcholine (Abdel-Latif, A. A. & Akhtar, R. A.) 317-321
- Isocitrate synthase system, properties of, from rat liver (Mattoo, A. K., Carabott, M. J. J., Keech, D. B. & Wallace, J. C.) 1058-1060
- Isoprenaline, inhibition of histamine release from guinea-pig lung by compound I.C.I. 74917 and (Barrett-Bee, K. & Lees, J.) 702-704
- Jaundice, neonatal, phototherapy of (McDonagh, A. F.) 219-222
- Jejunum, effects of by-pass of, on mucosal secretion in the pig (McCance, R. A., Stoddart, R. W., Artavanis, C. & Wilkinson, A. W.) 151-154
- Jejunum, human, analytical subcellular fractionation of biopsies from (Peters, T. J.) 1142-1144
- Jejunum, *see also* Intestine, small
- Ketone bodies, measurements of arteriovenous differences in study of role and supply of, in brain (Williamson, D. H.) 26-28
- Kidney, rat, morphological and biochemical changes in chemically induced injury to (Cottrell, R. C., Agrelo, C. E., Gangolli, S. D. & Grasso, P.) 681-684
- Kinase, subcellular distribution of activity of, in pig liver (Dearnley, C. N. & Bailey, G. S.) 697-698
- Labetalol, metabolism of, in animals and man (Hopkins, R., Martin, L. E. & Bland, R.) 726-729

- Lactation, effect of hormones on explants of rabbit mammary gland taken at different stages of (Speake, B. K., Dils, R. & Mayer, R. J.) 238-240
- Lactobacillus casei*, effect of exogenous folate concentration on biosynthesis of pteroyl-polyglutamates in (Bassett, R., Weir, D. & Scott, J.) 500-502
- Lactoperoxidase, free and immobilized, location of components of sarcoplasmic-reticulum membranes with (King, I. A. & Louis, C. F.) 245-248
- Lead intoxication, biosynthesis of haem and hydroxylation of phenazone during (Campbell, B. C., Meredith, P. A., Moore, M. R., Brodie, M. J., Thompson, G. G. & Goldberg, A.) 1088-1089
- Lens, eye, enzymic studies on, of alloxan-diabetic rats (Siddiqui, M. A. & Rahman, M. A.) 1051-1052
- Leucocyte, polymorphonuclear, isolation and partial characterization of actin of (Jackson, P. & Crawford, N.) 333-336
- Leucocytes, polymorphonuclear, collagenolytic cathepsin activity in, of rabbit peritoneal exudate (Gibson, W. T., Milsom, D. W., Steven, F. S. & Lowe, J. S.) 627-628
- Leucocytes, polymorphonuclear, subcellular location of a collagenolytic cathepsin in, of rabbit peritoneal exudate (Gibson, W. T., Milsom, D. W., Steven, F. S. & Lowe, J. S.) 628-630
- Leukaemia cells, mouse, action of streptozotocin on (Davies, M. I., Halldörsson, H., Shall, S. & Skidmore, C. J.) 635-637
- Lipid, composition of, in sycamore cells and aspects of their ultrastructure during growth in batch suspension culture (De Silva, N. S. & Fowler, M. W.) 45-47
- *Lipid, long-range effects of products of carbon tetrachloride-stimulated peroxidation of (Ugazio, G., Torrielli, M. V., Burdino, E., Sawyer, B. & Slater, T. F.) 145
- Lipid, long-range effects of products of carbon tetrachloride-stimulated peroxidation of (Ugazio, G., Torrielli, M. V., Burdino, E., Sawyer, B. C. & Slater, T. F.) 353-356
- Lipid, metabolism of, in cytoplasmic droplets from freshly secreted milk (Christie, W. W., Vernon, R. G. & Wooding, F. B. P.) 242-243
- Lipid, NADPH-cytochrome *c* reductase, cytochrome *P-450* and NADPH-linked peroxidation of, in microsomal fractions from rat tissues (Benedetto, C., Slater, T. F. & Dianzani, M. U.) 1094-1097
- Lipid, threonine as a preferred source of 2-carbon units for synthesis of, in *Trypanosoma brucei* (Klein, R. A. & Linstead, D. J.) 48-50
- Lipids, biosynthesis of, in development of human brain (Crawford, M. A.) 231-233
- Lipids in disease (Colloquium) 572-596
- Lipids, incorporation of [¹⁴C]palmitate into, of cultured chick-embryo myoblasts (McEvoy, F. A. & Ellis, D. E.) 1065-1066
- Lipogenesis, changes in, during development of mammary gland (Dils, R., Clark, S., Speake, B., Mayer, R. J. & Knudsen, J.) 236-238
- Lipogenesis, effect of hormones on, in rabbit mammary explants at different stages of pregnancy and lactation (Speake, B. K., Dils, R. & Mayer, R. J.) 238-240
- Lipogenesis, metabolic flux through phosphofructokinase and fructose 1,6-diphosphatase and its relation to, in genetically obese rats (Bloxham, D. P. & York, D. A.) 989-993
- Lipogenesis, regulation of, by insulin and free fatty acids in perfused rat liver (Topping, D. L. & Mayes, P. A.) 717
- Lipoprotein, low-density, interactions of protein, lipid and metal ions in, of hen's-egg yolk (Swann, J. C., Smithers, G. W. & Burley, R. W.) 657-659
- Lipoprotein, low-density, metabolism of, in type II hyperlipoproteinaemia (Packard, C. J., Shepherd, J., Third, J. L. H. C., Lorimer, R., Morgan, H. G. & Lawrie, T. D. V.) 105-107
- Lipoproteins, plasma, liver disease and (Agorastos, J., Boswell, C., Harry, D. S. & McIntyre, N.) 593-596
- Lipoproteins, very-low-density, metabolism of, by rat extrahepatic tissues (Suri, B. S., Targ, M. E. & Robinson, D. S.) 282-285
- Liposomes, adjuvant properties of (Heath, T. D., Edwards, D. C. & Ryman, B. E.) 129-133
- Liposomes, immunological advantages of tumour regression with asparaginase trapped in (Neerunjun, E. D. & Gregoriadis, G.) 133-134
- Liposomes, interaction of, with blood plasma proteins (Black, C. D. V. & Gregoriadis, G.) 253-256
- Liposomes, penetration of target areas in the rat by agents associated with, administered parenterally and intragastrically (Gregoriadis, G., Dapergol, G. & Neerunjun, E. D.) 256-259
- Liposomes, preparation of glucocerebroside β -glucosidase for entrapment in, and treatment of patients with adult Gaucher's disease (Braidman, I. & Gregoriadis, G.) 259-261
- Lithium, changes in membrane adenosine triphosphatases on administration *in vivo* of salts of (Hesketh, J. E.) 328-330
- Lithium, determination of concentration of, in erythrocytes (Hullin, R. P., Goodwin, J. C. & Birch, N. J.) 331-333

- Liver, biosynthesis of rat serum apolipoproteins by (Rooke, J. A. & Skinner, E. R.) 1144-1145
- Liver cytosol, rat, binding by proteins of, of compounds derived *in vivo* from 5-aminolaevulinic acid (Ketterer, B., Srai, K. S. & Tipping, E.) 202-204
- Liver, degradation of fatty acids of, during rat development (Bailey, E., Foster, P. C. & Shah, J.) 230-231
- Liver, plasma lipoproteins and disease of (Agorastos, J., Boswell, C., Harry, D. S. & McIntyre, N.) 593-596
- Liver, rat,¹ biochemical changes in, underlying parenchymal liver damage by drugs (Nievel, J. G., Anderson, J. & Bray, P. J.) 932-933
- Liver, rat, presence of high-molecular-weight folates in (Barford, P. A., Blair, J. A. & Staff, F. J.) 70-71
- Luliberin, stimulation of accumulation of prostaglandin in the anterior pituitary by (Betteridge, A., Bergeron, L. & Barden, N.) 113-115
- Lymphocyte, pig, 'inside-out' vesicles of plasma membrane of (Walsh, F. S., Barber, B. H. & Crumpton, M. J.) 251-252
- Lymphocytes, changes in membrane transport in activation of, by phytohaemagglutinin (Kay, J. E.) 1120-1122
- Lymphocytes, content of messenger ribonucleic acid in, treated with phytohaemagglutinin (Jagus-Smith, R. & Kay, J. E.) 783-785
- Lymphocytes, differentiation antigens of surface of (Williams, A. F.) 4-8
- [³H]Lysine, effect of dark-rearing and light-exposure on incorporation of, into a tubulin-enriched fraction in rat visual cortex (Rose, S. P. R., Sinha, A. K. & Jones-Lecointe, A.) 729-731
- Lysosomal glycosidase, brain, activity of, in mice during immune response to an encephalitogenic virus infection (Suckling, A. J., Bateman, S. & Webb, H. E.) 326-328
- Magnesium, gel-filtration chromatography of complexes of noradrenaline, adenosine triphosphate and (Birch, N. J., Janik, A. C., Inie, R. A. & Hullin, R. P.) 757-760
- Magnum, protein content of, of domestic fowl in relation to secretion and synthesis of albumin (Edwards, N. A. & Luttrell, V.) 1103-1105
- Malabsorption, relationships of the acid micro-climate in rat and human intestine to (Lucas, M. L., Blair, J. A., Cooper, B. T. & Cooke, W. T.) 154-156
- L-Malate dehydrogenases, cytoplasmic, kinetic and regulatory properties of, from muscle and mantle tissues of the sea mussel (Livingstone, D. R.) 447-451
- Malate dehydrogenase, isolation of, from *Proteus vulgaris* (Newaz, N., Jones, M. & King, H. K.) 1106
- Malate-NAD⁺ dehydrogenase, purification and properties of, from *Moraxella lwoffii* (Fernandes, R., Jones, M. & King, H. K.) 1080
- 'Malic' enzyme, precocious stimulation of activity *in ovo* of, after a pituitary graft (Hurrell, J. M. & Wishart, G. J.) 1149-1150
- Mammary carcinoma, rat, established, effect of treatment with perphenazine on testosterone metabolism by (Buchan, P., Fraser, A. T. & Miller, W. R.) 1100-1102
- Mammary gland, changes in lipogenesis during development of (Dils, R., Clark, S., Speake, B., Mayer, R. J. & Knudsen, J.) 236-238
- Mammary gland, effect of hormones on activity of acetyl-coenzyme A carboxylase in explants of, from mid-pregnant rabbits (Manning, R., Dils, R. & Mayer, R. J.) 241-242
- Mammary gland, guinea pig, perfused, isolated, effect of spermidine on uptake of tryptophan and corticosteroids by (Peters, A. R. & Mephram, T. B.) 118-119
- Mammary gland, lactating, rabbit, acyl-coenzyme A thioesterase activities in (Waltham, P. C. & Carey, E. M.) 1147-1148
- Mammary gland, rabbit, effect of hormones on explants of, taken at different stages of pregnancy and lactation (Speake, B. K., Dils, R. & Mayer, R. J.) 238-240
- Mandelate dehydrogenase, form of, with altered stereospecificity in mutant strain of *Acinetobacter calcoaceticus* (Fewson, C. A., Beggs, J. D., Seenan, E. & Ahlquist, E. F.) 614-615
- Mannan, folding-pathway selection or cross-linking as cause of thermal stabilization of yeast invertase conformation by (Woodward, J. & Wiseman, A.) 80-82
- α -Mannosidase-1, metal ion-dependence of, from *Dictyostelium discoideum* (Kilpatrick, D. C.) 1083-1085
- Marine invertebrates, distribution and metabolism of wax esters in (Sargent, J. R. & Gatten, R. R.) 431-433
- Marine invertebrates, energy metabolism of (Colloquium) 431-451
- Membrane, comparison of proteins of, in normal and neoplastic cells by isoelectric focusing (Stoddart, R. W. & Price, M. R.) 675-677
- Membrane, cytoplasmic, permeability of, of *Escherichia coli* to reduced and oxidized Benzyl Viologen and Methyl Viologen cations (Jones, R. W., Gray, T. A. & Garland, P. B.) 671-673

- Membranes, bilayer, rhodopsin in (Montal, M.) 560-561
- Membranes, comparative aspects of interactions of ribosomes and, in rat liver and brain cortex *in vitro* (Khawaja, J. A.) 1133-1135
- Membranes, relationship between effects on, and ribosomal aggregates in high-power electron micrography and on macromolecular synthesis induced by drugs and environmental chemicals (Nievel, J. G.) 933-935
- Membranes, surface, secretion of glycoprotein and, of liver sinusoids (Dobrota, M., Issa, F. S., Mullock, B. M. & Hinton, R. H.) 1074-1076
- Mestranol, biliary excretion of, in the female rat (Brewster, D., Jones, R. S. & Symons, A. M.) 516-518
- Metabolism, energy for control of (Hess, B.) 999
- Metallothiomalates, inhibition of synovial fluid glycosidases in the rheumatoid joint by (Burkhardt, D., Stephens, R. W., Ghosh, P. & Taylor, T. K. F.) 1081-1082
- Methanol, effects of, on oxidation of reduced nicotinamide-adenine dinucleotide catalysed by xanthine dehydrogenase in turkey liver (Fhaoláin, Í. N., Hynes, M. J. & Coughlan, M. P.) 901-903
- Methionine synthetase, regulation of, in L-cells by vitamin B-12, folate and methionine (Grzelakowska-Sztabert, B. & Landman-Balińska, M.) 922-925
- Methotrexate, effect of, on metabolism of [¹⁴C]folates in the rat (Barford, P. A., Blair, J. A. & Malghani, M. A. K.) 912-914
- Methotrexate, toxicity of (Harrap, K. R.) 856-859
- 3-Methylcholanthrene, effect of, on steroid glucuronyltransferase activity of rat liver and hepatoma (Gessner, T.) 522-524
- 5,10-Methylenetetrahydrofolate reductase, folate coenzyme forms in fibroblasts from patients deficient in (Cooper, B. A. & Rosenblatt, D.) 921-922
- 5-Methyltetrahydrofolate, delay in metabolism of parenteral folinic acid to, in man (Whitehead, V. M. & Stein, H. A.) 918-920
- 5-[¹⁴C]Methyltetrahydrofolate, fate of, in rat liver (Blair, J. A., Staff, F. J. & Barford, P. A.) 910-912
- Metrizamide, use of density gradients of, to obtain a chromatin component from mammalian cells enriched in deoxyribonucleic acid-replicating regions (Burke, J. F. & Pearson, C. K.) 787-789
- Microbial catabolism, role of, in the carbon cycle and environmental significance (Colloquium) 452-473
- Microbial catabolism, carbon cycle and (Dagley, S.) 455-458
- Micro-calorimeters, use of a system of, in biochemistry and biology (Wadsö, I.) 561-565
- Microsomal fraction, hepatic, rat, metabolism and binding of catecholamines by (McKillop, D. & Powis, G.) 145-147
- Microsomal fraction, liver, analytical sub-fractionation of, from control and Gunn-strain rats (Tilleray, J. & Peters, T. J.) 248-250
- Microsomal fraction, liver, multiplicity of cytochrome P-450 from (Lu, A. Y. H., Ryan, D., Kawalek, J., Thomas, P., West, S. B., Huang, M. T. & Levin, W.) 169-172
- Microsomal fractions, liver, effect of various nucleotide and protein factors on incorporation of labelled amino acids into protein *in vitro* by (Nievel, J. G. & Bray, P. J.) 512-513
- Microspira tyrosinatica*, metabolism of tyrosine by (Lunt, D. O. & Evans, W. C.) 491-492
- Microtubules, biochemical properties of (Lagnado, J. R.) 548
- Microtubules, phosphorylation of proteins of, by an endogenous adenosine 3':5'-cyclic monophosphate-dependent protein kinase (Sheterline, P.) 789-791
- Microtubules, platelet, phosphorylation of proteins of, by endogenous protein kinase (Castle, A. G. & Crawford, N.) 691-693
- *Microtubules, synaptic structure and (Gray, E. G.) 548
- Microtubules, vesicle migration and, in neurons (Banks, P.) 548-551
- Microvillus, kidney, model of (Kenny, A. J. & Booth, A. G.) 1011-1017
- Microvillus membrane, kidney, protein subunits in (Booth, A. G. & Kenny, A. J.) 348-350
- Microvillus membrane, kidney, vesiculation of (Booth, A. G. & Kenny, A. J.) 270-271
- Milk, cow's, calorimetric characterization of micellar calcium phosphate in (Lyster, R. L. J.) 735-737
- Milk, metabolism of lipid in cytoplasmic droplets from (Christie, W. W., Vernon, R. G. & Wooding, F. B. P.) 242-243
- Mitochondria, liver, mechanism of maturation of, in the perinatal rat (Sandor, K. & Pollak, J. K.) 1122-1124
- Mitochondria, liver, rat, age-related change in respiratory control rates of, after brief exposure to hypo-osmotic media (Barrett, M. C. & Horton, A. A.) 64-66
- Mitochondria, liver, rat, localization of hippurate synthesis in matrix of (Gatley, S. J. & Sherratt, H. S. A.) 525-526
- Mitochondria, possible cross-reactivity of human antibodies to, with membrane vesicles of *Paracoccus denitrificans* (Sayers, T. J. & Baum, H.) 138-139

- Mitochondria, reconstitution of energy conservation in (Ragan, C. I.) 552-555
- Models, biological, tests for goodness of fit of (Atkins, G. L.) 357-361
- Molluscs, bivalved, production of volatile fatty acids in (Kluytmans, J. H. F. M. & De Zwaan, A.) 475-477
- Molybdate, relationships between toxicity of, and sulphide metabolism and plasma copper distribution in the rat and guinea pig (Cardin, C. J., Dennehy, A., Mason, J. & Roberts, C.) 873-877
- Molybdenum, reconstitution *in vitro* of nitrate reductase from apoprotein of spinach deficient in (Rucklidge, G., Notton, B. & Hewitt, R.) 77-80
- Monoamine, metabolism of, in isolated perfused rat brain (Woods, H. F., Green, A. R., Youdim, M. B. H. & Grahame-Smith, D. G.) 22-26
- Monoamine oxidase, partial purification of, from rat liver by chromatography on diazo-coupled tyramine-Sepharose (Dennick, R. G. & Mayer, R. J.) 344-346
- Mono-oxygenase, differential stimulation of activity of, in chick liver during natural development and after treatment *in ovo* with corticosterone (Leakey, J. E. A. & Wishart, G. J.) 1072-1073
- Moraxella twoffi*, purification and properties of malate-NAD⁺dehydrogenase of (Fernandes, R., Jones, M. & King, H. K.) 1080
- Mucin, effects of by-pass of jejunum on, in the pig (McCance, R. A., Stoddart, R. W., Artavanis, C. & Wilkinson, A. W.) 151-154
- Muscle, hemidiaphragm, rat, release of alanine *in vitro* by (Snell, K.) 287-288
- Muscle, leg, crab, substrate inhibition of pyruvate kinase isolated from (Newton, C. J., Poat, P. C. & Munday, K. A.) 1158-1160
- Muscle, mammalian, adult, quantitative comparison of dissociation of, by various enzymes (Yasin, R., Skrbic, T. R., Van Beers, G. & Thompson, E. J.) 53-55
- Muscle, metabolite compartmentation in (Seeley, P. J., Busby, S. J. W., Gadian, D. G., Radda, G. K. & Richards, R. E.) 62-64
- Muscle, skeletal, human, hexokinase isoenzymes of, in health and disease (Ellis, D. A., Strickland, J. M. & Tye, J. E.) 1054-1057
- Muscle, skeletal, rabbit, specific protein inhibitor of protein phosphatase-III from (Cohen, P., Nimmo, G. A. & Antoniwi, J. F.) 1033-1035
- Muscle, skeletal, rabbit, molecular weight and amino acid composition of adenylate deaminase from (O'Driscoll, D., Roring, N. P. & Ross, C. A.) 928-930
- Muscle, skeletal, rabbit, slow pH-dependent conformational transitions in phosphofructokinase of (Rodriguez, H. B. & Hollaway, M. R.) 83-85
- Muscle, skeletal, rabbit, specificities of protein phosphatases involved in regulation of glycogen metabolism in (Antoniwi, J. F. & Cohen, P.) 1030-1032
- Muscle, skeletal, rabbit, subunit structure of phosphofructokinase of (Simpson, I. A. & Hollaway, M. R.) 85-87
- Muscle, smooth, heterogeneity of cholinesterase of, in subcellular fractions (Das, P. K., Scaf, A. J. & Lammers, H. W.) 753-754
- Muscular dystrophy, Duchenne, apparent alterations of erythrocyte acetylcholinesterase and other membrane proteins in (Das, P. K., Graesslin, D. & Goedde, H. W.) 723-724
- Mussel, sea, factors in haemolymph of, of possible significance as defence mechanisms (Hardy, S. W., Fletcher, T. C. & Gerrie, L. M.) 473-475
- Mussel, sea, kinetic and regulatory properties of cytoplasmic L-malate dehydrogenases from muscle and mantle tissues of (Livingstone, D. R.) 447-451
- Mussel, sea, tissue differences in response of, to experimentally induced anaerobiosis (Chaplin, A. E. & Loxton, J.) 437-441
- Myelin, brain, rat, immunochemical investigation of ganglioside in (Gregson, N. A. & Oxberry, J. M.) 310-311
- Myelin, developmental changes in composition of, in rat brain (Giorgi, P. P.) 742-744
- Myoblast, effect of low concentrations of prostaglandin E₁ on fusion of (Zalin, R. J. & Leaver, R.) 1066-1067
- Myoblasts, chick-embryo, cultured, incorporation of [¹⁴C]palmitate into (McEvoy, F. A. & Ellis, D. E.) 1065-1066
- Myogenesis, quantitative changes in creatine kinase isoenzymes *in vivo* during (Morris, G. E., Piper, M. & Cole, R.) 1063-1065
- Myosin light-chain phosphatase, isolation of, from rabbit skeletal muscle (Morgan, M. W., Perry, S. V. & Ottaway, J.) 351-352
- Myosin, role of, and actin in the growth of nerve cells (Bray, D.) 543-544
- Mytilus edulis*, see Mussel, sea
- Naegleria gruberi*, an approach to cell-surface receptors in (O'Dell, D. S., Preston, T. M., King, C. A. & Gardiner, P. R.) 124-125
- Neomycin, effect of, on enterohepatic recirculation of mestranol in the female rat (Brewster, D., Jones, R. S. & Symons, A. M.) 516-518

- Neoplastic cells, characteristic protein of surfaces of (Price, M. R. & Stoddart, R. W.) 673-675
- Neoplastic cells, comparison of membrane proteins of normal cells and, by isoelectric focusing (Stoddart, R. W. & Price, M. R.) 675-677
- Nephron tubule, proximal, organization of plasma membrane of (Kenny, A. J. & Booth, A. G.) 1011-1017
- Neurofilaments, isolation of (Anderton, B. H., Bell, C. W., Newby, B. J. & Gilbert, D. S.) 544-548
- Neuroleptic drugs, changes in serum tryptophan, tryptophan binding to serum albumin and serum total amino acid concentration in rats after (Bender, D. A.) 98-100
- Neurons, microtubules and vesicle migration in (Banks, P.) 548-551
- Neurophysin I, porcine, degradation of, by alkaline conditions (Edgar, D. & Hope, D. B.) 163-165
- Neurotransmitter, hypothesis for release of (Phillips, J. H.) 1003-1007
- Nitrate reductase, reconstitution *in vitro* of, from apoprotein of molybdenum-deficient spinach (Rucklidge, G., Notton, B. & Hewitt, E.) 77-80
- Nitrilase, purification and properties of, from *Nocardia* (Harper, D. B.) 502-504
- Nitrogen metabolism, investigation of, in *Cercospora beticola* (McLean, A., Lynch, F. J. & Hussey, E. C.) 886-888
- Nocardia*, purification and properties of nitrilase from (Harper, D. B.) 502-504
- Noradrenaline, gel-filtration chromatography of complexes of adenosine triphosphate, magnesium and (Birch, N. J., Janik, A. C., Inie, R. A. & Hullin, R. P.) 757-760
- Nuclear magnetic resonance, metabolite compartmentation in muscle studied with (Seeley, P. J., Busby, S. J. W., Gadian, D. G., Radda, G. K. & Richards, R. E.) 62-64
- Noradrenaline, effects of, on phospholipase A₂-acylation system of plasma membrane of heart (Vyvoda, S. & Rowe, C. E.) 147-148
- Nuclei, cell, isolated, incorporation of [³H]-thymidine triphosphate into (Hooton, J. W. L. & Hoffbrand, A. V.) 927-928
- Nuclei, purification of enzymes of, by affinity chromatography (Khan, M. G. & Shall, S.) 778-781
- Nucleic acids, extraction of, from detergent-treated synaptosomal plasma membranes from normal and scrapie-infected mouse brain (Corp, C. R. & Somerville, R. A.) 1110-1112
- 5'-Nucleotidase, activity of, in liver plasma membrane and in serum of normal and jaundiced rats (Issa, F. S., Mullock, B. M. & Hinton, R.) 55-58
- Nucleotide, changes in metabolism of, of liver during induction of drug-metabolizing enzymes and hepatomegaly (Robinson, N., Nievel, J. G. & Anderson, J.) 509-510
- Nucleus, non-histone proteins of, as gene regulators (MacGillivray, A. J.) 976-978
- Octopine dehydrogenase, isolation of, in the cockle (*Cardium edule*) (Gäde, G.) 433-436
- Oestradiol, an essential factor in translocation of receptor for (Thrower, S., Hall, C., Lim, L. & Davison, A. N.) 769-772
- Oestradiol-17 β dehydrogenase, nucleotides and, of human placenta (Shaw, M. A. & Jeffery, J.) 765-766
- Oestradiol, potential model for studying control of binding of (Thompson, J. R. & King, R. J. B.) 772-774
- Oestradiol, purification of receptor for, by chromatography on oligo(dT)cellulose (Hall, C., Thrower, S., Lim, L. & Davison, A. N.) 766-769
- Oestradiol-17 β dehydrogenases, placental, human, inhibition of, by adenosine triphosphate (Shaw, M. A. & Jeffery, J.) 1097-1098
- Oligo(dT)cellulose, purification of oestradiol receptor by chromatography on (Hall, C., Thrower, S., Lim, L. & Davison, A. N.) 766-769
- Oligomycin, organization of adenosine triphosphatase sensitive to (Partis, M. D., Bertoli, E., Mascarello, S. & Griffiths, D. E.) 88-91
- Oocyte, mouse, structure and composition of the zona pellucida of (Newport, A. & Carroll, J.) 896-897
- Organ culture, foetal, activation versus induction of foetal enzymes in, on rafts and paper strips (Leakey, J. E. A. & Donald, A. M.) 1071-1072
- Organomercurials, inability of, to inhibit reaction between aurothiomalate and thiols (Danpure, C. J. & Fyfe, D. A.) 631-633
- Orotate, ¹⁴C-labelled, changes in fate of, among various pyrimidines during induction of drug-metabolizing enzymes and hepatomegaly (Robinson, N., Nievel, J. G. & Anderson, J.) 509-510
- Ostrea edulis*, see Oyster
- Oxophlorins, degradation of hepatic haem to, and porphyrins in rats treated with 2-allyl-2-isopropylacetamide (McDonagh, A. F., Pospisil, R. & Meyer, U. A.) 297-298
- Oyster, carbonic anhydrase activity in, during rapid shell formation (Arnold, W. M. & Holland, D. L.) 477-479

- [¹⁴C]Palmitate, incorporation of, into lipids of cultured chick-embryo myoblasts (McEvoy, F. A. & Ellis, D. E.) 1065-1066
- Palmitoyl-coenzyme A hydrolyase, activity of, in rat cerebral cortex (Bonser, R. W. & Lunt, G. G.) 321-324
- Paracetamol, injury to rat liver slices by, and subsequent prevention by anti-oxidants (McLean, A. E. M. & Nuttall, L.) 655-657
- Paracetamol, modification of toxicity of, by antioxidants (Kelleher, J., Walker, B. E., Keane, N. P., Losowsky, M. S. & Dixon, M. F.) 292-294
- Paracoccus denitrificans*, possible cross-reactivity of human anti-mitochondrial antibodies with membrane vesicles of (Sayers, T. J. & Baum, H.) 138-139
- Parathyroid hormone, isolation of intact cells from rat osteogenic sarcoma and their responsiveness to (Atkins, D., Campbell, A. H., Ingleton, P. M., Hunt, N. H. & Martin, T. J.) 289-290
- Penicillium notatum*, phospholipase activity of (Sheltawy, A., Martin, J. K. & Borrill, D.) 281-282
- Pepsin, radiochemical titrant for determination of operational molarity of solutions of (Irvine, G. B. & Elmore, D. T.) 643-645
- Peptide hydrolase, activity of, in guinea-pig brain and pituitary gland (O'Cuinn, G.) 864-866
- Peptide hydrolases, relationship between, in brush-border and cytosol fractions of guinea-pig intestinal mucosa (Piggott, C. O. & Fottrell, P. F.) 862-863
- Perfusion, use of, and related techniques in studying nervous-tissue function (Colloquium) 10-28
- Peroxides, reactions of, with ferrihaems (Jones, P.) 218
- Perphenazine, effect of treatment with, on testosterone metabolism by established rat mammary carcinomas (Buchan, P., Fraser, A. T. & Miller, W. R.) 1100-1102
- Phenazone, hydroxylation of, and biosynthesis of haem during lead intoxication (Campbell, B. C., Meredith, P. A., Moore, M. R., Brodie, M. J., Thompson, G. G. & Goldberg, A.) 1088-1089
- Phenethylamine, effects of derivatives of, on release of biogenic amines from synaptosomes (Raiteri, M., Bertollini, A., Del Carmine, R. & Levi, G.) 121-124
- Phenobarbital, apparent induction by, of uridine diphosphate glucuronyltransferase activity in nuclear envelopes of embryonic chick liver (Fry, D. J. & Wishart, G. J.) 265-266
- Phenobarbitone, effect of, and indoxylsulphate on biliary excretion of foreign organic compounds during administration of carbon tetrachloride (Abou-el-Makarem, M. M. & El-Gammal, H.) 1092-1094
- Phenobarbitone, effect of, on steroid glucuronyltransferase activity of rat liver and hepatoma (Gessner, T.) 522-524
- Phenylalanine, concentrations of, in plasma and brain of rats treated with phenylalanine loads (Antonias, K. N. & Coulson, W. F.) 94-97
- Phosphatase, alkaline, identification of, from rat intestine as heterogeneous dimeric glycoprotein (Malik, N. & Butterworth, P. J.) 646-649
- Phosphatidylcholine, biosynthesis of, by germinating soya bean (Harwood, J. L.) 50-52
- Phosphatidylethanolamine, biosynthesis of, by germinating soya bean (Harwood, J. L.) 50-52
- Phosphodiesterase, comparison of inhibition of, and allergic histamine release by disodium cromoglycate and compound I.C.I. 74917 (Barrett-Bee, K. & Henderson, W.) 699-701
- Phosphoenolpyruvate branchpoint, regulation at, by adenylate energy charge in the sea mussel (Ebberink, R. H. M., De Zwaan, A. & Wijsman, T. C. M.) 444-447
- Phosphoenolpyruvate carboxylase, purification and properties of, from *Bryophyllum fedtschenkoi* (Jones, R., Wilkins, M. B., Fewson, C. A. & Malcolm, A. D. B.) 1042-1043
- Phosphofructokinase, kinetics of effector-induced association-dissociation reactions of (Liddle, P. F., Ardron, D., Jacobs, D. J. & Kellett, G. L.) 87-88
- Phosphofructokinase, metabolic flux through, and fructose 1,6-diphosphatase and its relation to lipogenesis in genetically obese rats (Bloxham, D. P. & York, D. A.) 989-993
- Phosphofructokinase, slow pH-dependent conformational transitions in, of rabbit skeletal muscle (Rodriguez, H. B. & Hollaway, M. R.) 83-85
- Phosphofructokinase, subunit structure of, of rabbit skeletal muscle (Simpson, I. A. & Hollaway, M. R.) 85-87
- Phospholipase, activity of, from *Penicillium notatum* (Sheltawy, A., Martin, J. K. & Borrill, D.) 281-282
- 'Phospholipid effect', production of, by acetylcholine in rabbit iris muscle (Abdel-Latif, A. A. & Akhtar, R. A.) 317-321

- Phospholipid vesicles, modification of activity of glyceraldehyde 3-phosphate dehydrogenase by adsorption to (Wrigglesworth, J. M., Keokitichai, S., Wooster, M. S. & Millar, F. A.) 637-640
- Phospholipids, incorporation *in vivo* of [³²P]-orthophosphate into, associated with brain microtubular proteins (Kirazov, E. K. & Lagnado, J. R.) 734
- Phospholipids, membrane, metabolism of saturated fatty acids in developing and adult brain in relation to incorporation and turnover of fatty acids in (Carey, E. M. & Cantrell, R. C.) 234-235
- Phosphomannan protein yeast invertase, folding-pathway selection or cross-linking as cause of thermal stabilization of (Woodward, J. & Wiseman, A.) 80-82
- Phosphorus, compartmentation in muscle of metabolites containing (Seeley, P. J., Busby, S. J. W., Gadian, D. G., Radda, G. K. & Richards, R. E.) 62-64
- Phosphorylation, differential effects of 25-hydroxycholecalciferol on, of non-histone protein in liver and kidney of the vitamin D-deficient rat (Hirschmann, P. N. & Itzhaki, S.) 339-340
- Photochemistry, bilirubin and (Bonnett, R.) 222-226
- Photometabolism, anaerobic, of aromatic compounds by *Rhodopseudomonas* sp. (Whittle, P. J., Lunt, D. O. & Evans, W. C.) 490-491
- Photoperiod, effect of, on endogenous γ -tocopherol and plastochromanol in leaves of cocklebur (Battle, R. W., Gaunt, J. K. & Laidman, D. L.) 484-486
- Photosynthesis, effect of added light-harvesting pigments on reconstruction of reactions of, in membranes from bacteriochlorophyll-less mutants of *Rhodopseudomonas spheroides* (Hunter, C. N. & Jones, O. T. G.) 669-670
- Phototherapy, use of, in neonatal jaundice (McDonagh, A. F.) 219-222
- Phthalate esters, hydrolysis *in vitro* of, by hepatic and intestinal mucosal preparations from various species (Lake, B. G., Phillips, J. C., Hodgson, R. A., Severn, B. J., Gangolli, S. D. & Lloyd, A. G.) 654-655
- Phytohaemagglutinin, content of messenger ribonucleic acid in lymphocytes treated with (Jagus-Smith, R. & Kay, J. E.) 783-785
- Phytohaemagglutinin, importance of changes in membrane transport in lymphocyte activation by (Kay, J. E.) 1120-1122
- Pigment P700, reconstitution of photosystem I in barley plastids with lack of (Morgan, N. L. & Griffiths, W. T.) 667-669
- 'PIGO', loss of infectivity of mycobacterial and protozoal exoplasmic parasites after exposure *in vitro* to (Avila, J. L., Convit, J., Pinardi, M. E. & Jacques, P. J.) 680-681
- Pituitary gland, anterior, stimulation of prostaglandin accumulation in, by luliberin (Betteridge, A., Bergeron, L. & Barden, N.) 113-115
- Pituitary gland, guinea pig, peptide hydrolase activity in (O'Cuinn, G.) 864-866
- Pituitary gland, involvement of, in control of hepatic steroid metabolism in the rat (Skett, P., Gustafsson, J.-Å., Stenberg, Å. & Larsson, A.) 115-118
- Plasma membrane, biochemical differentiation of, of intestinal epithelial cell (Michell, R. H., Coleman, R. & Lewis, B. A.) 1017-1020
- *Plasma membrane, flow and turnover of (Cohn, Z. A.) 1003
- Plasma membrane, heart, effects of noradrenaline and adrenaline on phospholipase A₂-acylation system of (Vyvoda, S. & Rowe, C. E.) 147-148
- Plasma membrane, liver, functional mosaic nature of (Evans, W. H.) 1007-1011
- Plasma membrane, liver, 5'-nucleotidase in (Issa, F. S., Mullock, B. M. & Hinton, R.) 55-58
- Plasma membrane, lymphocyte, pig, 'inside-out' vesicles of (Walsh, F. S., Barber, B. H. & Crumpton, M. J.) 251-252
- Plasma membrane, mammalian, functional differentiation of (Colloquium) 1003-1020
- Plasma membrane, organization of, of kidney proximal tubule (Kenny, A. J. & Booth, A. G.) 1011-1017
- Plasma membrane, removal of lipid and protein components from, by glycocholate without cell lysis (Coleman, R., Holdsworth, G. & Vyvoda, O. S.) 244
- *Plasma membrane, role of, in endocytosis in fibroblasts (Tulkens, P., Schneider, Y. L. & Trouet, T.) 1003
- Plasma membrane, synaptic, changes in a protein-nucleic acid complex from, of scrapie-infected mouse brain (Somerville, R. A., Millson, G. C. & Hunter, G. D.) 1112-1114
- Plasma membranes, liver, cholesterol in sub-fractions of, of control and cholesterol-fed guinea pigs (Grandison, A. S. & Green, C.) 645-646
- Plasma membranes, synaptosomal, nucleic acids associated with, obtained after treatment with detergent from normal and scrapie-infected mouse brain (Corp, C. R. & Somerville, R. A.) 1110-1112
- Plasmids, catabolism and (Williams, P. A. & Worsley, M. J.) 466-468

- Plastochromanol, endogenous, effect of photo-period on, in leaves of cocklebur (Battle, R. W., Gaunt, J. K. & Laidman, D. L.) 484-486
- Platelet microtubules, phosphorylation of proteins of, by an endogenous protein kinase (Castle, A. G. & Crawford, N.) 691-693
- Platelets, blood, increased phosphorylation of specific proteins of, in association with the release reaction (Haslam, R. J. & Lynham, J. A.) 694-697
- Platelets, solubility and binding studies with ¹²⁵I-labelled actin and membranes of (Taylor, D. G., Williams, V. M. & Crawford, N.) 156-160
- Polarography, assay of enzyme activity by (Weitzman, P. D. J.) 724-726
- Polyamine oxidase, properties of, from leaves of cereals (Smith, T. A., Haygarth, W. L. & Williams, J. F.) 74-77
- Polyamines, biosynthesis and metabolism of, and S-adenosylmethionine in the rat (Raina, A., Eloranta, T. & Kajander, O.) 968-971
- Polyamines, synthesis of, in germinating conidia of *Aspergillus nidulans* (Winther, M. & Stevens, L.) 1126-1128
- Polyethylene glycol, catabolism of, by a sewage bacterium (Jones, N. & Watson, G. K.) 891-892
- Polyglutamate, distribution of forms of folate with (Reed, B., Weir, D. & Scott, J. M.) 906-907
- Polyglutamate, natural occurrence and role as substrates in mammalian cells of folate with (Bertino, J. R., Coward, J. K., Cashmore, A., Chello, P., Panichajakul, S., Horvath, C. G. & Stout, R. W.) 853-856
- Polyinosinic acid-polycytidylic acid, effect of, on Balb/c mouse-embryo cells in culture (Clynes, M. M. & Duke, E. J.) 897-899
- Polypeptides, gastrointestinal, interaction of immobilized transition-metal ions with (Conlon, M. & Murphy, R. F.) 860-861
- Polypeptides, genes for, of adenovirus type 2 (Atkins, J. F., Lewis, J. B., Anderson, C. W. & Gesteland, R. F.) 859
- Polyribosomes, free and membrane-bound, isolation and characterization of messenger ribonucleic acid species for guinea-pig milk proteins from (Harrison, O. S., Craig, R. K. & Campbell, P. N.) 340-341
- Porphobilinogen, stereochemical studies on formation of (Chaudhry, A. G. & Jordan, P. M.) 760-761
- Porphyrin, effect of 4-ethyl-5-hydroxy-3,5-dimethyl- Δ^3 -pyrrolin-2-one on synthesis of, in the rat (Graham, D. J. M., Moore, M. R., Thompson, G. G. & Goldberg, A.) 1089-1091
- Porphyrins, degradation of hepatic haem to, and oxophlorins in rats treated with 2-allyl-2-isopropylacetamide (McDonagh, A. F., Pospisil, R. & Meyer, U. A.) 297-298
- Potassium, determination of concentration of, in erythrocytes (Hullin, R. P., Goodwin, J. C. & Birch, N. J.) 331-333
- Potato, molecular weight of chymotryptic inhibitor I from (Richardson, M., Barker, R. D. J. & McMillan, R. T.) 1077-1079
- Potato, protomer isoforms of chymotryptic inhibitor I from (Richardson, M., McMillan, R. T. & Barker, R. D. J.) 1107-1108
- Prednisolone, inhibition of uridine uptake by, in human lymphoblastoid cells (Waddell, A. W., Bird, C. C. & Currie, A. R.) 262-264
- Pregnancy anaemia, biochemical studies of (Majid, T. & Rahman, M. A.) 1146-1147
- Pregnancy, effect of hormones on explants of rabbit mammary gland taken at different stages of (Speake, B. K., Dils, R. & Mayer, R. J.) 238-240
- Preputial gland, effects of 5 α -reduced androgens on size and lipogenic activity of (Bowden, P. E., Meddis, D., Cooper, M. F., Thody, A. J. & Shuster, S.) 795-797
- Preputial gland, rat, effects of testosterone and α -melanocyte-stimulating hormone on sebaceous activity of (Cooper, M. F., Bowden, P. E., Meddis, D., Thody, A. J. & Shuster, S.) 798-800
- Progress curves, design and analysis of, in enzyme kinetics (Markus, M. & Plessner, T.) 361-364
- Prostaglandin E₁, effect of low concentrations of, on myoblast fusion (Zalin, R. J. & Leaver, R.) 1066-1067
- Prostaglandin F_{2 α} , identification of, in human aortal media (Smith, A. G., Gilbert, J. D., Harland, W. A. & Brooks, C. J. W.) 108-111
- Prostaglandin F_{2 α} , method for determination of major metabolite of, in human urine (Brash, A. R., Draffan, G. H., Clare, R. A. & Baillie, T. A.) 706-708
- Prostaglandin, stimulation of accumulation of, in anterior pituitary by luliberin (Betteridge, A., Bergeron, L. & Barden, N.) 113-115
- Prostate, rat, effect of hydrogen ion concentration on nicotinamide-adenine dinucleotide phosphate and various chelating agents on metabolism of testosterone *in vitro* by preparations from (Sefton, J. & Jeffery, J.) 1099-1100
- Protein, changes in biosynthesis of, and enzyme activities during erythroid-cell differentiation (Arnstein, H. R. V.) 965-968

- Protein, competition between induction of hepatic synthesis of, by drugs and inhibition by actinomycin D (Anderson, J. & Nievel, J. G.) 528-529
- Protein, effect of histidinol on initiation and elongation of synthesis of, in Krebs II ascites cells (Austin, S. A.) 781-783
- Protein kinase, adenosine 3':5'-cyclic monophosphate-dependent, specificity of (Yeaman, S. J., Cohen, P., Watson, D. C. & Dixon, G. H.) 1027-1030
- Protein kinase, endogenous, phosphorylation of microtubule proteins by, dependent on adenosine 3':5'-cyclic monophosphate (Sheterline, P.) 789-791
- Protein, non-histone, phosphorylation of, in rat salivary glands after treatment with isoproterenol, dibutyryladenosine cyclic monophosphate and dibutyrylguanosine cyclic monophosphate (Capps, M. J. & Itzhaki, S.) 816-817
- Protein phosphatase-III, a specific protein inhibitor of, from rabbit skeletal muscle (Cohen, P., Nimmo, G. A. & Antoniow, J. F.) 1033-1035
- Protein phosphatases, specificities of, involved in regulation of glycogen metabolism in rabbit skeletal muscle (Antoniow, J. F. & Cohen, P.) 1030-1032
- Protein, steroidal control of synthesis of, in developing chick embryo (Irving, R. A. & Mainwaring, W. I. P.) 1124-1125
- Protein-nucleic acid complex, changes in, from synaptic plasma membrane of scrapie-infected mouse brain (Somerville, R. A., Millson, G. C. & Hunter, G. D.) 1112-1114
- Proteins, binding by, of rat liver cytosol of compounds derived *in vivo* from 5-amino-laevulinic acid (Ketterer, B., Srail, K. S. & Tipping, E.) 202-204
- Proteins, nuclear, changes in synthesis of, after α -amanitin poisoning (Novello, F., Derenzini, M. & Pession-Brizzi, A.) 815-816
- Proteins, plasma, interaction of liposomes with (Black, C. D. V. & Gregoriadis, G.) 253-256
- Proteoglycan, existence of, in sheep brain (White, C. J. B., Hudson, M. & Howells, K.) 1136-1138
- Proteus vulgaris*, malate dehydrogenase of (Newaz, N., Jones, M. & King, H. K.) 1106
- Proton pump, reconstitution of (Oesterhelt, D. & Christoffel, V.) 556-559
- Protonmotive force, ρ -zone interpretation of (Archbold, G. P. R., Farrington, C. L., McKay, A. M. & Malpress, F. H.) 91-94
- Protonmotive systems, chemiosmotic coupling and (Mitchell, P.) 399-430
- Pseudocholinesterase, changes in activity of, in regions of rat brain after behavioural treatments (Evans, C. & Kerkut, G. A.) 744-746
- Pseudomonas putida*, aromatic-alcohol dehydrogenases from (Keat, M. J. & Hopper, D. J.) 494-495
- Pseudomonas* sp., aerobic metabolism of pyrazine compounds by (Mattey, M. & Harle, E. M.) 492-494
- Pteroylpolyglutamates, effect of exogenous folate concentration on biosynthesis of, in *Lactobacillus casei* (Bassett, R., Weir, D. & Scott, J.) 500-502
- Putrescine, effects of, on growth of a polyamine-requiring mutant of *Aspergillus nidulans* (Hope, J. A. & Stevens, L.) 1128-1130
- Pyrazine compounds, aerobic metabolism of, by a *Pseudomonas* sp. (Mattey, M. & Harle, E. M.) 492-494
- Pyridine, degradation of haem in mixtures of water with (King, R. F. G. J. & Brown, S. B.) 299-301
- Pyrimidine, altered metabolism for salvage of, in a 5-fluorouracil-resistant mutant of *Drosophila melanogaster* (Clynes, M. M. & Duke, E. J.) 900-901
- Pyruvate carboxylase, effect of acetyl-coenzyme A on second partial reaction of (Easterbrook-Smith, S. B., Campbell, A. J., Keech, D. B. & Wallace, J. C.) 1023-1024
- Pyruvate dehydrogenase, activation of, after increase in cardiac output (Illingworth, J. A. & Mullings, R.) 291-292
- Pyruvate dehydrogenase, new apparatus for assay of (Illingworth, J. A. & Mullings, R.) 277-279
- Pyruvate kinase, equilibrium isotopic exchange studies of reaction catalysed by, from rabbit muscle (Giles, I. G., Poat, P. C. & Munday, K. A.) 624-627
- Pyruvate kinase, fructose 1,6-diphosphate-activated, abortive enzyme-substrate ternary complexes formed by, from hepatopancreas of the crab (Giles, I. G., Poat, P. C. & Munday, K. A.) 481-484
- *Pyruvate kinase, hormonal control of activity of, and gluconeogenesis in isolated hepatocytes (Feliu, J. E., Hue, L. & Hers, H.-G.) 1048
- Pyruvate kinase, kinetic study of, in crab muscle (Newton, C. J., Poat, P. C. & Munday, K. A.) 479-481
- Pyruvate kinase, product-inhibition studies on, isolated from leg muscle of *Carcinus maenas* (Newton, C. J., Poat, P. C. & Munday, K. A.) 622-624
- Pyruvate kinase, substrate inhibition of, isolated from leg muscle of *Carcinus maenas* (Newton, C. J., Poat, P. C. & Munday, K. A.) 1158-1160

- Pyruvate kinase, type L, isotopic exchange studies on, from rat liver (Giles, I. G., Poat, P. C. & Munday, K. A.) 1156-1158
- Red alga, isolation of flavodoxin from (Husain, A., Hutson, K. G., Andrew, P. W. & Rogers, L. J.) 488
- Red algae, isolation of ferredoxins from (Andrew, P. W. & Rogers, L. J.) 489
- Reserpine, compartmentation of amino acids and change in fate of radioactive glucose after pretreatment with (Nievel, J. G.) 508-509
- Reticulum membranes, sarcoplasmic, location of components of, with free and immobilized lactoperoxidase (King, I. A. & Louis, C. F.) 245-248
- Rhodopseudomonas* sp., anaerobic photometabolism of aromatic compounds by (Whittle, P. J., Lunt, D. O. & Evans, W. C.) 490-491
- Rhodopseudomonas spheroides*, a partial reaction of δ -aminolaevulinate synthetase from (Laghai, A. & Jordan, P. M.) 52-53
- Rhodopseudomonas spheroides*, preparation of coproporphyrin III and its iron complex from (Hatzikonstantinou, H. & Brown, S. B.) 1085-1087
- Rhodopsin, function of, in bilayer membranes (Montal, M.) 560-561
- Ribonucleic acid, alterations in metabolism of, of isolated nuclei from mouse fibroblasts during aging and growth restriction *in vitro* (Evans, C. H.) 813-815
- Ribonucleic acid, messenger, content of, in phytohaemagglutinin-treated lymphocytes (Jagus-Smith, R. & Kay, J. E.) 783-785
- Ribonucleic acid, messenger, isolation and characterization of species of, for guinea-pig milk proteins from free and membrane-bound polyribosomes (Harrison, O. S., Craig, R. K. & Campbell, P. N.) 340-341
- Ribonucleic acid, messenger, synthesis of antibody in *Xenopus* oocytes with, from immunized rats (Deacon, N. J. & Ebringer, A.) 818-820
- Ribonucleic acid, polyadenylated, isolation of, from normal and scrapie-infected mouse brain (Corp, C. R. & Kimberlin, R. H.) 1132-1133
- Ribonucleic acid polymerase, binding sites on, of *Escherichia coli* (Graham, A., Greene, J., Lowe, P. A. & Malcolm, A. D. B.) 633-634
- Ribonucleic acid polymerase, functional properties of subunit subassemblies of, from *Escherichia coli* (Lowe, P. A. & Malcolm, A. D. B.) 786-787
- Ribonucleic acid polymerase, molecular equilibrium in (Campbell, A. M.) 785-786
- Ribonucleic acid, ribosomal, nuclease S₁-specific cleavage sites within, of HeLa cells (Khan, M. S. N. & Maden, B. E. H.) 817
- Ribonucleic acid, transfer, folate-mediated synthesis of ribothymidylate in (Rabinowitz, J. C.) 850-853
- Ribosomal aggregates, relationship between effects on, and membranes in high-power electron micrography and on macromolecular synthesis induced by drugs and environmental chemicals (Nievel, J. G.) 933-935
- Ribosomes, comparative aspects of interactions of membranes and, in rat liver and brain cortex *in vitro* (Khawaja, J. A.) 1133-1135
- Ribosomes, liver, effect of various nucleotide and protein factors on incorporation of labelled amino acids into protein *in vitro* by (Nievel, J. G. & Bray, P. J.) 512-513
- Ribosomes, 50S, synthesis of, in a mutant of *Escherichia coli* (Markey, F., Sims, P. F. G. & Wild, D. G.) 66-68
- Ribothymidylate, folate-mediated synthesis of, in transfer ribonucleic acid (Rabinowitz, J. C.) 850-853
- Salivary gland, rat, non-histone-protein phosphorylation in, after treatment with isoproterenol, dibutyryl adenosine cyclic monophosphate and dibutyryl guanosine cyclic monophosphate (Capps, M. J. & Itzhaki, S.) 816-817
- Sarcoma, osteogenic, rat, isolation and hormone-responsiveness of intact cells from (Atkins, D., Campbell, A. H., Ingleton, P. M., Hunt, N. H. & Martin, T. J.) 289-290
- Sarcoplasmic reticulum, externally exposed proteins of preparations of, from rabbit skeletal muscle (Barrett, E. J. & Headon, D. R.) 877-879
- *Sarcoplasmic reticulum, structure of, and regulation of calcium accumulation (Warren, G. & Metcalfe, J. C.) 561
- Schistomiasis, accumulation of glucose by rings of small intestine from mice with (Vengesa, B. P. & Leese, H. J.) 274-277
- Schizophrenia, copper and caeruloplasmin in (Rahman, B., Rahman, M. A. & Hassan, Z.) 1138-1139
- Sciatic nerve, rat, presence of (magnesium plus sodium plus potassium)-stimulated adenosine triphosphatase in (Das, P. K., Bray, G. M., Aguyao, A. J. & Rasminsky, M.) 750-752
- Sebaceous gland, human, lipogenesis in, and androgen metabolism in acne (Cooper, M. F., Hay, J. B., MCGibbon, D. & Shuster, S.) 793-795
- Sebaceous gland, relation of steroid metabolism in human skin to growth of, and acne vulgaris (Hodgins, M. B. & Hay, J. B.) 605-609

- Seeds, unimbibed, resting, model system for measuring enzyme reactions under conditions of water limitation comparable with those existing in (Stevens, E. & Stevens, L.) 1109-1110
- Selenium, effect of, and vitamin E in diet on glutathione peroxidase and glutathione in the rat (Scott, D. L., Kelleher, J. & Losowsky, M. S.) 295-296
- Serine proteinase, evidence for large subunit molecular weight of dipeptidyl peptidase IV and its endopeptidase activity in, from kidney microvillus (Kenny, A. J., Booth, A. G., Wood, E. J. & Young, A. R.) 347-348
- Shell, oyster, activity of carbonic anhydrase during rapid formation of (Arnold, W. M. & Holland, D. L.) 477-479
- Shikimic acid, aromatization of, in the rat and role of gastrointestinal micro-organisms (Brewster, D., Jones, R. S. & Parke, D. V.) 518-521
- Sinusoid, liver, glycoprotein secretion and surface membranes of (Dobrota, M., Issa, F. S., Mullock, B. M. & Hinton, R. H.) 1074-1076
- Skeletal muscle, *see* Muscle, skeletal
- Skin, human, steroid metabolism in (Hodgins, M. B. & Hay, J. B.) 605-609
- Skin, review of effects of steroids on (Ebling, F. J.) 597-602
- Skin secretions, steroids and, in mammals (Johnson, E.) 602-605
- Sodium, determination of concentration of, in erythrocytes (Hullin, R. P., Goodwin, J. C. & Birch, N. J.) 331-333
- Soya bean, germinating, biosynthesis of phosphatidylcholine and phosphatidylethanolamine by (Harwood, J. L.) 50-52
- Spermidine, effect of, on uptake of tryptophan and corticosteroids by isolated perfused guinea-pig mammary gland (Peters, A. R. & Mephram, T. B.) 118-119
- Spermidine, effects of, on growth of a polyamine-requiring mutant of *Aspergillus nidulans* (Hope, J. A. & Stevens, L.) 1128-1130
- Spermidine, pathway for biosynthesis of (Tait, G. H.) 610-612
- Spermine, effects of, on growth of a polyamine-requiring mutant of *Aspergillus nidulans* (Hope, J. A. & Stevens, L.) 1128-1130
- Spinach, reconstitution *in vitro* of nitrate reductase from apoprotein of, deficient in molybdenum (Rucklidge, G., Notton, B. & Hewitt, E.) 77-80
- Spinal cord, intact, release of physiologically active amino acids from preparations of (Mitchell, J. F.) 10-13
- Steroid, catabolism of, in choline-deficient rats (Beary, M. E. & Rafter, J.) 868-871
- Steroid glucuronyltransferases, comparison of, of rat liver and hepatoma and effects of phenobarbitone and 3-methylcholanthrene induction (Gessner, T.) 522-524
- Steroid, pituitary involvement in control of hepatic metabolism of, in the rat (Skett, P., Gustafsson, J.-Å., Stenberg, Å. & Larsson, A.) 115-118
- Steroids, t-butyldimethylsilyl derivatives in gas chromatography-mass spectrometry of (Gaskell, S. J. & Brooks, C. J. W.) 111-113
- Steroids, control of protein synthesis by, in developing chick embryo (Irving, R. A. & Mainwaring, W. I. P.) 1124-1125
- Steroids, effects of, on skin (Colloquium) 597-609
- Steroids, review of effects of, on skin (Ebling, F. J.) 597-602
- Steroids, specialised skin secretions and, in mammals (Johnson, E.) 602-605
- Streptozotocin, action of, on mouse leukaemia cells (Davies, M. I., Halldórsson, H., Shall, S. & Skidmore, C. J.) 635-637
- Substrate cycles, reversible (near-equilibrium) reactions and (Crabtree, B.) 1046-1048
- Substrate cycles, theoretical considerations of sensitivity conferred by, *in vivo* (Crabtree, B.) 999-1002
- Sugar phosphates, thin-layer-chromatographic method for separation of (Conyers, R. A. J., Newsholme, E. A. & Brand, K.) 1040-1042
- Sulphide, relationships between metabolism of, and molybdate toxicity and plasma copper distribution in the rat and guinea pig (Cardin, C. J., Dennehy, A., Mason, J. & Roberts, C.) 873-877
- Sulphotransferases, hepatic, regulation of (Carroll, J. & Armstrong, L. M.) 871-873
- Superfusion system, long-term studies on cerebral cortex *in vivo* with (Dodd, P. R. & Bradford, H. F.) 13-19
- Superoxide dismutase, location of, in mitochondria from *Helianthus tuberosus* and *Neurospora crassa* (Arron, G. P., Henry, L., Palmer, J. M. & Hall, D. O.) 618-620
- Superoxide radical, production of, by horseradish peroxidase (Halliwell, B. & Ahluwalia, S.) 73-74
- Sycamore, lipid composition of cells of, and aspects of their ultrastructure during growth in batch suspension culture (De Silva, N. S. & Fowler, M. W.) 45-47
- Synaptic membranes, brain, rat, binding of 2-amino - 6,7 - dihydroxy - 1,2,3,4 - tetrahydronaphthalene to, and association with dopamine receptors (Roberts, P. J., Woodruff, G. N. & Poat, J. A.) 316-317

- Synaptosomes, effects of phenethylamine derivatives on release of biogenic amines from (Raiteri, M., Bertollini, A., Del Carmine, R. & Levi, G.) 121-124
- Taurine, conjugation of arylacetic acids with, in the ferret (Idle, J. R., Millburn, P. & Williams, R. T.) 139-141
- Testes, rat, zinc metabolism and atrophy of, induced by dibutyl phthalate (Cater, B. R., Cook, M. W. & Gangolli, S. D.) 652-653
- Testosterone, effect of hydrogen ion concentration, nicotinamide-adenosine dinucleotide phosphate and various chelating agents on metabolism *in vitro* of, by preparations from rat ventral prostate (Sefton, J. & Jeffery, J.) 1099-1100
- Testosterone, effect of perphenazine treatment on metabolism of, by established rat mammary carcinomas (Buchan, P., Fraser, A. T. & Miller, W. R.) 1100-1102
- Testosterone, effects of, and α -melanocyte-stimulating hormone on preputial gland (sebaceous) activity (Cooper, M. F., Bowden, P. E., Meddis, D., Thody, A. J. & Shuster, S.) 798-800
- Thalamus, acetylcholinesterase changes in, of rat brain after anaesthesia and electrical stimulation (Anand, R., Gore, M. G. & Kerkut, G. A.) 746-747
- Thalassaemia, haem-containing protein associated with, in patients of West Indian origin (Saundry, R. H., Mamman, I. & Huntsman, R. G.) 763-765
- Theophylline, effect of, on glucose and fluid transport across rat jejunum (Leese, H. J., Prendergast, J. & Read, B. S.) 272-274
- Thiol groups, differential reactivity of, of rabbit muscle creatine kinase (Price, N. C. & Hunter, M. G.) 1060-1061
- Thiols, inability of organomercurials to inhibit reaction between aurothiomalate and (Danpue, C. J. & Fyfe, D. A.) 631-633
- L-Threonine, catabolism of, via aminoacetone in bacteria (Bell, S. C. & Turner, J. M.) 497-500
- Threonine, lipid synthesis and, as a preferred source of 2-carbon units in *Trypanosoma brucei* (Klein, R. A. & Linstead, D. J.) 48-50
- [3 H]Thymidine triphosphate, incorporation of, into isolated nuclei (Hooton, J. W. L. & Hoffbrand, A. V.) 927-928
- Thymidylate synthetase, purification of, by affinity chromatography on tetrahydroamethopterin-aminoethyl - Sepharose (Rode, W., Zielińska, Z. M., Slavik, K. & Slavíková, V.) 925-927
- Thymus, pig, purification of adenosine diphosphate-ribose polymerase from (Tsopanakis, C., McLaren, E. A. & Shall, S.) 774-777
- Thyroid cells, human, normal, release *in vitro* of iodothyronine deiodinase activity from (Bidey, S. P., Anderson, J., Marsden, P. & McKerron, C. G.) 1150-1153
- Thyroid hormones, role of, in control of synthesis of endoplasmic reticulum in rapidly growing neonatal brain and in hepatocytes (Nievel, J. G. & Robinson, N.) 930-931
- Thyrotrophin, effect of local anaesthetics on receptor for, and adenylate cyclase system (Marshall, N. J., Florin-Christensen, A. & von Borcke, S.) 149-151
- Thyroxine, precocious development of uridine diphosphate glucuronyltransferase activity in chick-embryo liver after administration of 11 β -hydroxy steroids with and without (Leakey, J. E. A. & Dutton, G. J.) 261-262
- α -Tocopherol oxidase, properties and distribution of, in plants (Murillo, E., Plumpton, S. E. & Gaunt, J. K.) 486-487
- γ -Tocopherol, endogenous, effect of photoperiod on, in leaves of cocklebur (Battle, R. W., Gaunt, J. K. & Laidman, D. L.) 484-486
- Transcription, characteristics of, in nuclei isolated from a higher plant (Wilson, P. S. & Bennett, J.) 812-813
- Transfer ribonucleic acid, *see* Ribonucleic acid
- Transformation, chemical, effect of polyinosinic acid-polycytidylic acid on, of Balb/c mouse-embryo cells in culture (Clynes, M. M. & Duke, E. J.) 897-899
- Transition metals, interaction of immobilized ions of, with gastrointestinal polypeptides (Conlon, M. & Murphy, R. F.) 860-861
- Transport, effect of theophylline on, of glucose and fluid across rat jejunum (Leese, H. J., Prendergast, J. & Read, B. S.) 272-274
- Triacylglycerol, control of hepatic metabolism of (Mayes, P. A.) 575-580
- Triacylglycerol, suppression by insulin of net depletion of, in perfused mouse liver (Salmon, D. M. W. & Hems, D. A.) 659-662
- Triglyceride, metabolic disorders affecting plasma concentration of (Galton, D. J., Clifton-Bligh, P. & Reckless, J. P. D.) 585-589
- 2,4,5-Trihydroxyphenylalanine (6-hydroxydopa), formation of, in tyrosinase reaction by *Microspira tyrosinatica* (Lunt, D. O. & Evans, W. C.) 491-492
- Triose phosphate isomerase, evidence for activity of monomers of (White, C. J. B. & Fell, D. A.) 620-622
- Trypanosoma brucei*, threonine as preferred source of 2-carbon units for lipid synthesis in (Klein, R. A. & Linstead, D. J.) 48-50

- Tryptophan, changes in serum concentration and serum albumin binding of, after administration of neuroleptic drugs in rats (Bender, D. A.) 98-100
- Tryptophan, effect of spermidine on uptake of, by isolated perfused guinea-pig mammary gland (Peters, A. R. & Mephram, T. B.) 118-119
- Tryptophan, effects of, on gluconeogenesis in the rat and guinea pig (Elliott, K. R. F., Pogson, C. I. & Smith, S. A.) 1048-1049
- Tryptophan, hypoglycaemic action of, in the rat (Smith, S. A. & Pogson, C. I.) 1049-1050
- Tubulin, effects of dark-rearing and light-exposure on incorporation of [³H]lysine into fraction enriched with, in rat visual cortex (Rose, S. P. R., Sinha, A. K. & Jones-Lecointe, A.) 729-731
- Tumour, antigens of (Klein, G.) 8-9
- Tumour, immunological advantages of regression of, with liposome-entrapped asparaginase (Neerunjun, E. D. & Gregoriadis, G.) 133-134
- Tumours, human, detection, localization and characterization of a cell-surface antigen common to (Dickinson, J. P., Smith, J. J. & Dyson, J. E. D.) 125-127
- Tween-80, accumulation of cytochrome *P*-450 in yeast in the presence of (Wiseman, A., McCloud, C. & Lim, T.-K.) 685-688
- Tyrosine, concentrations of, in plasma and brain of rats treated with phenylalanine loads (Antonas, K. N. & Coulson, W. F.) 94-97
- Tyrosine, metabolism of, by *Microspira tyrosinatica* (Lunt, D. O. & Evans, W. C.) 491-492
- Uridine diphosphate glucuronic acid-5-hydroxytryptamine glucuronosyltransferase, increased activity of, through foetal organ culture on rafts and paper strips (Leakey, J. E. A. & Donald, A. M.) 1071-1072
- Uridine diphosphate glucuronosyltransferase, apparent induction of, by phenobarbital in nuclear envelopes of embryonic-chick liver (Fry, D. J. & Wishart, G. J.) 265-266
- Uridine diphosphate glucuronosyltransferase, dependence on glucocorticoids of development of 'latent' and 'activated' activity of, in organ cultures of foetal rat liver (Wishart, G. J., Goheer, M. A., Donald, A. M. & Dutton, G. J.) 1069-1071
- Uridine diphosphate glucuronosyltransferase, differential stimulation of activity of, in chick liver during natural development and after treatment *in ovo* with corticosterone (Leakey, J. E. A. & Wishart, G. J.) 1072-1073
- Uridine diphosphate glucuronosyltransferase, novel three-component regulatory model for (Berry, C. & Hallinan, T.) 650-652
- Uridine diphosphate glucuronosyltransferase, precocious development of activity of, in chick-embryo liver after administration of 11 β -hydroxy steroids with and without thyroxine (Leakey, J. E. A. & Dutton, G. J.) 261-262
- Uridine diphosphate glucuronosyltransferase, purification of, from rat liver (Burchell, B. & Burchell, A.) 521-522
- Uridine, inhibition of uptake of, by prednisolone in human lymphoblastoid cells (Waddell, A. W., Bird, C. C. & Currie, A. R.) 262-264
- Vectorial chemistry, molecular mechanics of chemiosmotic coupling and (Mitchell, P.) 399-430
- Vesiculation, occurrence of, in kidney microvillus membrane (Booth, A. G. & Kenny, A. J.) 270-271
- Vinblastine, distribution of receptors for, in subcellular fractions from 1-3-day-old chick brain (Itani, A. N. & Lagnado, J. R.) 732-734
- Viologens, complications in the use of, as redox mediators for membrane-bound enzymes (Jones, R. W., Gray, T. A. & Garland, P. B.) 671-673
- Vitamin B-12, regulation of methionine synthetase in L-cells by, and folate and methionine (Grzelakowska-Sztabert, B. & Landman-Balińska, M.) 922-925
- Vitamin D, differential effects of 25-hydroxycholecalciferol on non-histone protein phosphorylation in liver and kidney of rats deficient in (Hirschmann, P. N. & Itzhaki, S.) 339-340
- Vitamin E, effect of, and selenium in diet on glutathione peroxidase and glutathione in the rat (Scott, D. L., Kelleher, J. & Losowsky, M. S.) 295-296
- Vitamin K₁ 2,3-epoxide, liver, rat, assay procedure for reducing system for, involving high-performance liquid chromatography (Elliott, G. R., Odam, E. M. & Townsend, M. G.) 615-617
- Water limitation, model system for measuring enzyme reactions under conditions of, comparable with those existing in unimbibed resting seeds (Stevens, E. & Stevens, L.) 1109-1110
- Wax, effect of growth conditions on content of, in strains of *Acinetobacter* (Fixter, L. M. & McCormack, J. G.) 504-505

- Wax esters, distribution and metabolism of, in marine invertebrates (Sargent, J. R. & Gatten, R. R.) 431-433
- Xanthine dehydrogenase, liver, turkey, effects of methanol on catalysis of oxidation of reduced nicotinamide-adenine nucleotide by (Fhaoláin, Í. N., Hynes, M. J. & Coughlan, M. P.) 901-903
- Xanthine dehydrogenase, liver, turkey, reaction of, with arsenite (Coughlan, M. P., Fhaoláin, Í. N. & Hynes, M. J.) 904-906
Xanthium strumarium, see Cocklebur
- Zinc, metabolism of, and dibutyl phthalate-induced testicular atrophy in the rat (Cater, B. R., Cook, M. W. & Gangolli, S. D.) 652-653

Advertisements. Applications for advertising space should be sent to the Advertising Department, The Biochemical Society, 7 Warwick Court, London WC1R 5DP [01-242 1076 (4 lines)]. Copy is required eight weeks before publication date. Rate cards are available on request.

The Biochemical Society exists to advance the science of biochemistry through meetings and publications. Meetings are held at different places; original papers are presented and special topics are discussed at symposia and colloquia.

Persons interested in biochemistry are eligible for election as Members. Details of further facilities accorded to Members, and forms of application for membership, are available from the Executive Secretary, The Biochemical Society, 7 Warwick Court, London WC1R 5DP [Telephone 01-242 1076 (4 lines)].

Second-class postage paid at New York, NY, U.S.A.
