565TH MEETING, STIRLING	
Colloquium: Control Mechanisms in Differentiation and Development	
Control of cell differentiation in the cellular slime mould <i>Dictyostelium discoideum</i> . <i>By</i> J. M. Ashworth	961
Changes in protein biosynthesis and enzyme activities during erythroid-cell differentiation. <i>By</i> H. R. V. Arnstein	965
Biosynthesis and metabolism of polyamines and <i>S</i> -adenosylmethionine in the rat. <i>By</i> A. Raina, T. Eloranta & O. Kajander	968
The control of enzyme development for mammalian tissue maturation. <i>By</i> D. G. Walker	972
Non-histone nuclear proteins as gene regulators? <i>By</i> A. J. MacGillivray	976
Colloquium: Substrate Cycles and the Regulation of Carbohydrate Metabolism	
The role of the fructose 6-phosphate/fructose 1,6-diphosphate cycle in metabolic regulation and heat generation. <i>By</i> E. A. Newsholme	978
The usefulness of 'futile cycles'. <i>By</i> H. G. Hers	985
Metabolic flux through phosphofructokinase and fructose 1,6-diphosphatase and its relation to lipogenesis in genetically obese rats. <i>By</i> D. P. Bloxham & D. A. York	989
The use of [¹⁴ C, ³ H]glucose in the study of so-called 'futile cycles' in liver. <i>By</i> L. Hue	994
Energy for control of metabolic processes. <i>By</i> B. Hess	999
Theoretical considerations of the sensitivity conferred by substrate cycles <i>in vivo</i> . <i>By</i> B. Crabtree	999
Colloquium: Functional Differentiation of the Mammalian Plasma Membrane	
The flow and turnover of plasma membrane (<i>by title only</i>). <i>By</i> Z. A. Cohn	1003
Role of the plasma membrane in endocytosis in fibroblasts (<i>by title only</i>). <i>By</i> P. Tulkens, Y. J. Schneider & T. Trouet	1003
The mechanism of catecholamine secretion: a hypothesis for neurotransmitter release. <i>By</i> J. H. Phillips	1003
The liver plasma membrane as a functional mosaic. <i>By</i> W. H. Evans	1007

Organization of the kidney proximal-tubule plasma membrane. <i>By</i> A. J. Kenny & A. G. Booth	1011
Biochemical differentiation of the plasma membrane of the intestinal epithelial cell. <i>By</i> R. H. Michell, R. Coleman & B. A. Lewis	1017
Communications	
Ethanol production during the growth cycle of <i>Aureobasidium pullulans</i> . <i>By</i> G. Carolan, B. J. Catley & P. J. Kelly	1021
Pyruvate carboxylase: Effect of acetyl-coenzyme A on the second partial reaction. <i>By</i> S. B. Easterbrook-Smith, A. J. Campbell, D. B. Keech & J. C. Wallace	1023
Separation of glycogen synthase kinase 2 from casein kinase. <i>By</i> H. G. Nimmo & L. Z. Sloane	1024
The specificity of adenosine 3':5'-cyclic monophosphate-dependent protein kinase. <i>By</i> S. J. Yeaman, P. Cohen, D. C. Watson & G. H. Dixon	1027
Specificities of the protein phosphatases involved in the regulation of glycogen metabolism in rabbit skeletal muscle. <i>By</i> J. F. Antoniw & P. Cohen	1030
A specific protein inhibitor of protein phosphatase-III from rabbit skeletal muscle. <i>By</i> P. Cohen, G. A. Nimmo & J. F. Antoniw	1033
The effect of hypoglycin on some parameters of glucose metabolism in the rat. <i>By</i> D. Billington, H. Osmundsen, J. R. Taylor & H. S. A. Sherratt	1035
A method for the isolation of mutants of <i>Escherichia coli</i> altered in their ability to metabolize glycogen. <i>By</i> L. E. Macaskie & T. N. Palmer	1038
A thin-layer-chromatographic method for the separation of sugar phosphates. <i>By</i> R. A. J. Conyers, E. A. Newsholme & K. Brand	1040
Purification and properties of phosphoenolpyruvate carboxylase from a crasulacean plant <i>Bryophyllum fedtschenkoi</i> . <i>By</i> R. Jones, M. B. Wilkins, C. A. Fewson & A. D. B. Malcolm	1042
Carbohydrate metabolism in chinese-hamster cells. <i>By</i> P. Faik & M. J. Morgan	1043
Configurational specificity of glycolytic enzymes. <i>By</i> B. Hess	1045
Reversible (near-equilibrium) reactions and substrate cycles. <i>By</i> B. Crabtree	1046
The hormonal control of pyruvate kinase activity and of gluconeogenesis in isolated hepatocytes (by title only). <i>By</i> J. E. Feliu, L. Hue & H.-G. Hers	1048
Effects of tryptophan on gluconeogenesis in the rat and the guinea pig. <i>By</i> K. R. F. Elliott, C. I. Pogson & S. A. Smith	1048
The hypoglycaemic action of tryptophan in the rat. <i>By</i> S. A. Smith & C. I. Pogson	1049
Enzymic studies on the lenses of alloxan-diabetic rats. <i>By</i> M. A. Siddiqui & M. A. Rahman	1051
Purification of the mammalian hexokinases by affinity chromatography on Sepharose- <i>N</i> -aminoacyl-glucosamine derivatives. <i>By</i> C. L. Wright, M. J. Holroyde, A. S. Warsy & I. P. Trayer	1052
Human hexokinase isoenzymes of muscle in health and disease. <i>By</i> D. A. Ellis, J. M. Strickland & J. E. Tye	1054
	1976

Multiple forms of hepatic glucokinase. <i>By</i> M. B. Allen & D. G. Walker	1057
Properties of the isocitrate synthase system from rat liver. <i>By</i> A. K. Mattoo, M. J. J. Carabott, D. B. Keech & J. C. Wallace	1058
Differential reactivity of the thiol groups of rabbit muscle creatine kinase. <i>By</i> N. C. Price & M. G. Hunter	1060
The influence of acetate on matrix-bound creatine kinase. <i>By</i> G. F. Bickerstaff & N. C. Price	1061
Quantitative changes in creatine kinase isoenzymes during myogenesis <i>in vitro</i> . <i>By</i> G. E. Morris, M. Piper & R. Cole	1063
Incorporation of [¹⁴ C]palmitate into lipids of cultured chick-embryo myoblasts. <i>By</i> F. A. McEvoy & D. E. Ellis	1065
The effect of low concentrations of prostaglandin E ₁ on myoblast fusion. <i>By</i> R. J. Zalin & R. Leaver	1066
The role of adenosine 3':5'-cyclic monophosphate in the growth and development of rat liver. <i>By</i> A. Klaipongpan, D. P. Bloxham & M. Akhtar	1068
Dependence on glucocorticoids of development of 'latent' and 'activated' uridine diphosphate glucuronosyltransferase activity in organ cultures of foetal rat liver. <i>By</i> G. J. Wishart, M. A. Goheer, A. M. Donald & G. J. Dutton	1069
Activation versus induction of foetal enzymes during culture: a problem illustrated by increased uridine diphosphate glucuronic acid-5-hydroxytryptamine glucuronosyltransferase activity through organ culture on rafts and paper strips. <i>By</i> J. E. A. Leakey & A. M. Donald	1071
Differential stimulation of mono-oxygenase and uridine diphosphate glucuronosyltransferase activities in chick liver during natural development and after treatment <i>in ovo</i> with corticosterone. <i>By</i> J. E. A. Leakey & G. J. Wishart	1072
Alteration in macromolecular glycosylation of transformed cells mediated by cholera toxin and dibutyryl adenosine 3':5'-cyclic monophosphate. <i>By</i> M. Rieber	1073
Liver sinusoid surface membranes and glycoprotein secretion. <i>By</i> M. Dobrota, F. S. Issa, B. M. Mullock & R. H. Hinton	1074
Re-examination of the molecular weight of chymotryptic inhibitor I from potatoes. <i>By</i> M. Richardson, R. D. J. Barker & R. T. McMillan	1077
Purification and properties of malate-NAD ⁺ dehydrogenase of <i>Moraxella lwoffii</i> (N.C.I.B. 8250). <i>By</i> R. Fernandes, M. Jones & H. K. King	1080
The inhibition of synovial-fluid glycosidases in the rheumatoid joint by metallo-thiomalates. <i>By</i> D. Burkhardt, R. W. Stephens, P. Ghosh & T. K. F. Taylor	1081
Metal ion-dependence of α -mannosidase-1 from <i>Dictyostelium discoideum</i> . <i>By</i> D. C. Kilpatrick	1083
The preparation of coproporphyrin III and its iron complex from <i>Rhodospseudomonas spheroides</i> . <i>By</i> H. Hatzikonstantinou & S. B. Brown	1085
Haem biosynthesis and hydroxylation of phenazone during lead intoxication. <i>By</i> B. C. Campbell, P. A. Meredith, M. R. Moore, M. J. Brodie, G. G. Thompson & A. Goldberg	1088
The effect of 4-ethyl-5-hydroxy-3,5-dimethyl- Δ^3 -pyrrolin-2-one on porphyrin synthesis in the rat. <i>By</i> D. J. M. Graham, M. R. Moore, G. G. Thompson & A. Goldberg	1089

Effect of phenobarbitone and indoxyl sulphate on biliary excretion of foreign organic compounds during administration of carbon tetrachloride. <i>By M. M. Abou-El-Makarem & H. El-Gammal</i>	1092
NADPH-cytochrome <i>c</i> reductase, cytochrome <i>P-450</i> and NADPH-linked lipid peroxidation in microsomal fractions obtained from rat tissues. <i>By C. Benedetto, T. F. Slater & M. U. Dianzani</i>	1094
Inhibition of human placental oestradiol-17 β dehydrogenase by adenosine triphosphate: the importance of the coenzyme. <i>By M. A. Shaw & J. Jeffery</i>	1097
The effect of the concentration of hydrogen ion, nicotinamide-adenine dinucleotide phosphate and various chelating agents on the metabolism of testosterone <i>in vitro</i> by preparations from rat ventral prostate. <i>By J. Sefton & J. Jeffery</i>	1099
The effect of perphenazine treatment on testosterone metabolism by established rat mammary carcinomas. <i>By P. Buchan, A. T. Fraser & W. R. Miller</i>	1100
Binding of bile acids to 100000g supernatants from rat liver. <i>By R. C. Strange, I. A. Nimmo & I. W. Percy-Robb</i>	1102
The protein content of the magnum of the domestic fowl in relation to the secretion and synthesis of albumin. <i>By N. A. Edwards & V. Luttrell</i>	1103
Constitutivity of the mandelate enzymes in <i>Acinetobacter calcoaceticus</i> , N.C.I.B. 8250, and its effect on the synthesis of benzyl alcohol dehydrogenase. <i>By H. M. Moyes & C. A. Fewson</i>	1105
Malate dehydrogenase of <i>Proteus vulgaris</i> . <i>By N. Newaz, M. Jones & H. K. King</i>	1106
The protomer iso inhibitors of chymotryptic inhibitor I from potatoes. <i>By M. Richardson, R. T. McMillan & R. D. J. Barker</i>	1107
A model system for measuring enzyme reactions under conditions of water limitation comparable with those existing in unimbibed resting seeds. <i>By E. Stevens & L. Stevens</i>	1109
Nucleic acids associated with detergent-treated synaptosomal plasma membranes from normal and scrapie-infected mouse brain. <i>By C. R. Corp & R. A. Somerville</i>	1110
Changes in a protein-nucleic acid complex from synaptic plasma membrane of scrapie-infected mouse brain. <i>By R. A. Somerville, G. C. Millson & G. D. Hunter</i>	1112
The effect of dexamethasone on the non-histone chromosomal proteins of hepatoma tissue culture cells. <i>By R. J. Edwards & J. T. Knowler</i>	1114
Radioimmunoassay of carbonic anhydrase isoenzymes I and II from rabbit erythrocytes. <i>By S. Peller & N. Spencer</i>	1116
A radioimmunoassay for chromosomal proteins. <i>By A. Campbell & T. Carr</i>	1118
The relationship between cod egg protein and its precursor. <i>By E. R. Skinner & A. Rogie</i>	1118
The importance of changes in membrane transport in lymphocyte activation by phytohaemagglutinin. <i>By J. E. Kay</i>	1120
The mechanism of mitochondrial maturation in the liver of the perinatal rat. <i>By K. Sandor & J. K. Pollak</i>	1122
Steroidal control of protein synthesis in the developing chick embryo. <i>By R. A. Irving & W. I. P. Mainwaring</i>	1124
Synthesis of polyamines in the germinating conidia of <i>Aspergillus nidulans</i> . <i>By M. Winther & L. Stevens</i>	1126
	1976

The effects of putrescine, spermidine and spermine on the growth of a polyamine-requiring mutant of <i>Aspergillus nidulans</i> . By J. A. Hope & L. Stevens	1128
Evolutionary conservation of methylated sequences in vertebrate nuclear deoxy-ribonucleic acid. By M. J. Browne, J. F. Turnbull & R. H. Burdon	1130
Polyadenylated ribonucleic acid in normal and scrapie-infected mouse brain. By C. R. Corp & R. H. Kimberlin	1132
Comparative aspects of ribosome-membrane interactions in rat liver and brain cortex <i>in vitro</i> . By J. A. Khawaja	1133
Developmental changes in brain-specific enolase isoenzymes. By L. Fletcher, C. C. Rider & C. B. Taylor	1135
Evidence for the existence of a proteoglycan in sheep brain. By C. J. Branford White, M. Hudson & K. Howells	1136
Copper and caeruloplasmin in schizophrenia. By B. Rahman, M. A. Rahman & Z. Hassan	1138
The kinetics of human erythrocyte acetylcholine hydrolase before and after solubilization with Triton X-100. By G. Cramb, P. F. J. Newman & I. A. Nimmo	1139
Analytical subcellular fractionation of jejunal biopsies from human subjects. By T. J. Peters	1142
The biosynthesis of rat serum apolipoproteins by liver and intestinal mucosa. By J. A. Rooke & E. R. Skinner	1144
Biochemical studies on anaemia of pregnancy. By T. Majid & M. A. Rahman	1146
Acyl-coenzyme A thioesterase activities in lactating mammary gland of the rabbit. By P. C. Waltham & E. M. Carey	1147
Precocious stimulation of hepatic 'malic' enzyme activity <i>in ovo</i> following a pituitary graft. By J. M. Hurrell & G. J. Wishart	1149
Evidence for the release <i>in vitro</i> of iodothyronine deiodase activity from normal human thyroid cells. By S. P. Bidey, J. Anderson, P. Marsden & C. G. McKerron	1150
Carbonic anhydrase isoenzymes I and II in rabbit erythroid cells. By N. Spencer & S. Peller	1153
Isotopic exchange studies on the type-L pyruvate kinase from pig liver. By I. G. Giles, P. C. Poat & K. A. Munday	1156
Substrate inhibition of pyruvate kinase isolated from the leg muscle of <i>Carcinus maenas</i> . By C. J. Newton, P. C. Poat & K. A. Munday	1158
