**Volume 7, Part 3, 1979**

### THE FIFTEENTH COLWORTH MEDAL LECTURE

The hormonal control of glycogen metabolism in mammalian muscle by multivalent phosphorylation. *By* P. Cohen  

PAGE 459

### IRISH AREA SECTION GUEST LECTURE

Cation and proton interactions with proteins and membranes. *By* R. J. P. Williams  

PAGE 481

### 581st MEETING, CORK

**Communications**

Vol. 7
CONTENTS

Some effects of rubidium chloride on the motor activity and brain serotonin concentrations of rats. By B. Ribas, R. I. Acobettro, C. Mate & A. Santos Ruiz 533

Role of monoamine oxidase isoenzymes in rat motor activity after rubidium chloride treatment. By R. I. Acobettro, B. Ribas, T. Ortiz & J. Tamarit Torres 534

Fucose uptake into synaptosomal protein. By C. J. Branford White & A. M. Moseby 536

Physiological responses during percutaneous needle biopsy of bovine skeletal muscle. By P. V. Tarrant & J. M. McVeigh 537

Influence of behavioural stress on bovine skeletal muscle glycogen content. By J. M. McVeigh, P. V. Tarrant & M. G. Harrington 539

How covariance of pH and the concentration of weak acids in biological fluids modifies the variance of calculated amounts of the respective acidic and conjugated anionic moieties. By J. P. Ryan 541

Identification of endogenous inhibitors of prostaglandin synthetase with haptoglobin and albumin. By P. A. Kendall, S. A. Saeed & H. O. J. Collier 543

577th MEETING, OXFORD

Colloquium: Anti-Hormones

Design of anti-hormones. By J.-P. Raynaud, M.-M. Bouton & T. Ojasoo 547

The biology of anti-oestrogens. By L. Martin 551

The biological effects of anti-androgens. By W. I. P. Mainwaring 556

A short review of the effects of spironolactone and related anti-mineralocorticoids on steroid-hormone biosynthesis and action. By R. Fraser 559

Biological evaluation of anti-progestational agents. By K. E. Kendle 563

Anti-androgenicity of flutamide and its metabolite Sch 16423. By R. Neri, E. Peets & A. Watnick 565

Some clinical aspects of anti-hormonal therapy (by title only). By J. S. Patterson 572

580th MEETING, NOTTINGHAM

Resolution of ox liver thiol-disulphide oxidoreductases by a new application of covalent chromatography. By D. A. Hillson & R. B. Freedman 573

BIOCHEMICAL REVIEWS

Central role of tryptophan pyrrolase in haem metabolism. By A. A.-B. Badawy 575

Chalones: A reappraisal. By J. C. Allen & C. J. Smith 584

1979
