## THE FIFTEENTH COLWORTH MEDAL LECTURE

PAGE

The hormonal control of glycogen metabolism in mammalian muscle by multi-valent phosphorylation. *By* P. Cohen 459

## IRISH AREA SECTION GUEST LECTURE

Cation and proton interactions with proteins and membranes. *By* R. J. P. Williams 481

## 581st MEETING, CORK

### Communications

Quantification with density perturbants in density-gradient centrifugation. *By* N. M. Ryan & D. R. Headon 511

Effects of magnesium ions on respiratory- and ATP-supported calcium binding by rat heart mitochondria. *By* A. P. Allshire & J. J. A. Heffron 513

Selective uptake of malate dehydrogenase isoenzymes into mitochondria *in vitro*. *By* S. Doonan, E. Marra & S. Passarella 514

Calcium movements in bovine ileal smooth muscle. *By* T. C. Theobald, A. J. Syson & D. H. Burrin 516

Temperature adaptation and calcium transport by fish skeletal-muscle microsomal fractions. *By* H. McArdle & I. Johnston 517

Cleavage by trypsin at *N*- $\epsilon$ -formyl-lysine residues. *By* F. P. Barry, M. D. Chapman, S. Doonan & C. A. Ross 519

The structure of the glucuronic acid conjugate of clofibrilic acid. *By* J. Caldwell & T. S. Emudianughe 521

Amino acid conjugation responses to 2-naphthylacetic acid in rodents. *By* T. S. Emudianughe, J. Caldwell & R. L. Smith 522

Xanthine oxidase activity in extracts from contact-inhibited and spontaneously transformed mouse embryo cells in culture. *By* M. M. Clynes, M. F. Shannon & M. P. Hurley 524

The effects of sera from cancer patients on phytohaemagglutinin-induced lymphocyte transformation. *By* A. H. Johnson & P. B. Collins 525

Enzyme-immunoassay of anti-(bovine insulin) antibodies. *By* M. E. Telford & G. B. Wisdom 527

A method for the quantitative analysis of bovine casein. *By* J. G. Barry & W. J. Donnelly 529

Vol. 7

	PAGE
Human erythrocyte hereditary spherocytosis: A membrane defect? The continuing enigma. <i>By</i> J. Robinson, S. McCann & M. N. McKillen	531
Some effects of rubidium chloride on the motor activity and brain serotonin concentrations of rats. <i>By</i> B. Ribas, R. I. Acobetto, C. Mate & A. Santos Ruiz	533
Role of monoamine oxidase isoenzymes in rat motor activity after rubidium chloride treatment. <i>By</i> R. I. Acobetto, B. Ribas, T. Ortiz & J. Tamarit Torres	534
Fucose uptake into synaptosomal protein. <i>By</i> C. J. Branford White & A. M. Moseby	536
Physiological responses during percutaneous needle biopsy of bovine skeletal muscle. <i>By</i> P. V. Tarrant & J. M. McVeigh	537
Influence of behavioural stress on bovine skeletal muscle glycogen content. <i>By</i> J. M. McVeigh, P. V. Tarrant & M. G. Harrington	539
How covariance of pH and the concentration of weak acids in biological fluids modifies the variance of calculated amounts of the respective acidic and conjugated anionic moieties. <i>By</i> J. P. Ryan	541
Identification of endogenous inhibitors of prostaglandin synthetase with haptoglobin and albumin. <i>By</i> P. A. Kendall, S. A. Saeed & H. O. J. Collier	543
 <b>577th MEETING, OXFORD</b>	
<b>Colloquium: Anti-Hormones</b>	
Design of anti-hormones. <i>By</i> J.-P. Raynaud, M.-M. Bouton & T. Ojasoo	547
The biology of anti-oestrogens. <i>By</i> L. Martin	551
The biological effects of anti-androgens. <i>By</i> W. I. P. Mainwaring	556
A short review of the effects of spironolactone and related anti-mineralocorticoids on steroid-hormone biosynthesis and action. <i>By</i> R. Fraser	559
Biological evaluation of anti-progestational agents. <i>By</i> K. E. Kendle	563
Anti-androgenicity of flutamide and its metabolite Sch 16423. <i>By</i> R. Neri, E. Peets & A. Watnick	565
Biochemistry of tamoxifen therapy in breast cancer. <i>By</i> R. I. Nicholson	569
Some clinical aspects of anti-hormonal therapy ( <i>by title only</i> ). <i>By</i> J. S. Patterson	572
 <b>580th MEETING, NOTTINGHAM</b>	
Resolution of ox liver thiol-disulphide oxidoreductases by a new application of covalent chromatography. <i>By</i> D. A. Hillson & R. B. Freedman	573
 <b>BIOCHEMICAL REVIEWS</b>	
Central role of tryptophan pyrrolase in haem metabolism. <i>By</i> A. A.-B. Badawy	575
Chalones: A reappraisal. <i>By</i> J. C. Allen & C. J. Smith	584
