THE TWELFTH CIBA MEDAL LECTURE

	PAGE
The regulation of contractile activity in muscle. <i>By</i> S. V. Perry	593

582nd MEETING, ST. ANDREWS

Colloquium: Metal Ions and their Influence on Protein Structure and Function

Calcium-binding proteins and the regulation of contractile activity. <i>By</i> S. V. Perry, R. J. A. Grand, A. C. Nairn, T. C. Vanaman & C. M. Wall	619
The role of calmodulin in regulation of glycogen metabolism. <i>By</i> D. B. Rylatt, N. Embi & P. Cohen	622
The vitamin K-dependent proteins. <i>By</i> M. P. Esnouf	624
Calcium and the assembly of human blood-clotting factor XIII. <i>By</i> P. E. Bock, A. D. Beavis & J. J. Holbrook	627
The role of molybdenum in xanthine oxidase and in other molybdenum-containing enzymes. <i>By</i> S. Gutteridge & R. C. Bray	628
Nitrate reductases: Properties and possible mechanism. <i>By</i> E. J. Hewitt, B. A. Notton & C. D. Garner	629
The coupling of electron transfer in nitrogenase to the hydrolysis of magnesium adenosine triphosphate. <i>By</i> R. N. F. Thorneley, D. J. Lowe, R. R. Eady & R. W. Miller	633

Communications

The influence of lead on haem biosynthesis and biodegradation in the rat. <i>By</i> P. A. Meredith & M. R. Moore	637
Effects of carcinogens on biphenyl hydroxylation in isolated rat hepatocytes. <i>By</i> P. J. Bianco, R. S. Jones & D. V. Parke	639
A novel pathway of androst-16-ene biosynthesis in immature pig testis microsomal fractions. <i>By</i> J. I. Mason, R. J. Park & G. S. Boyd	641
Changes in glycosaminoglycans during regeneration of rat liver. <i>By</i> M. Edward, H. H. K. Watson, F. B. Williamson & W. F. Long	643
Selective excretion of flavanones in bile. <i>By</i> A. M. Hackett & L. A. Griffiths	645
The biological activity of 4a-hydroxy-5-methyltetrahydrofolic acid in the rat. <i>By</i> J. C. Kennelly, J. A. Blair & A. E. Pheasant	646
The metabolism of 5-methyltetrahydrofolic acid in the rat. <i>By</i> J. C. Kennelly, J. A. Blair & A. E. Pheasant	648
A high-molecular-weight cadmium-binding fraction isolated from the liver cytosol of trout exposed to environmentally relevant concentrations of the metal. <i>By</i> K. S. Roberts, A. Cryer, J. Kay & J. F. de L. G. Solbe	650
Effect of 5-fluorouracil on liver and plasma vitamin A in female rats. <i>By</i> T. W. Poole, S. F. Dunbar & J. W. T. Dickerson	651

	PAGE
A simple radiometric procedure for measuring phenol UDP-glucuronyltransferase activity <i>in vitro</i> and some properties of the enzyme. <i>By</i> H. P. A. Illing & E. S. A. House	652
Studies on the content and synthesis of soluble actin in livers of normal and tumour-bearing rats. <i>By</i> G. A. J. Goodlad & C. M. Clark	654
On the mode of action and biochemical properties of anti-inflammatory drugs. <i>By</i> S. A. Saeed, P. A. Kendall, N. M. Butt & H. O. J. Collier	655
The handling of intravenously injected ¹²⁵ I-labelled insulin by rat liver. <i>By</i> D. K. Papachristodoulou, G. S. Scott & J. H. Thomas	657
Activities of some enzymes of energy metabolism in the fast and slow muscles of an Antarctic teleost fish (<i>Notothenia rossi</i>). <i>By</i> N. J. Walesby & I. A. Johnston	659
Glycolytic and gluconeogenic enzyme activities in the skeletal muscles and liver of a teleost fish (<i>Pleuronectes platessa</i>). <i>By</i> I. A. Johnston & T. W. Moon	661
Properties of middle-repeat sequences in nuclear deoxyribonucleic acid from baby-hamster kidney cells (BHK-21/C13). <i>By</i> A. McLachlan, D. A. F. Gillespie & N. Hardman	663
The effect of growth on translation of polyadenylated messenger ribonucleic acid in <i>Physarum polycephalum</i> . <i>By</i> A. J. P. Brown, R. C. Fergie, W. T. Melvin & N. Hardman	665
Character and distribution of foldback sequences in nuclear deoxyribonucleic acid from <i>Physarum polycephalum</i> . <i>By</i> N. Hardman & P. L. Jack	667
A mutant of <i>Saccharomyces cerevisia</i> that possesses unusual ribosomes. <i>By</i> M. Cannon, C. J. Carter, J. Davies & B. Littlewood	668
Independent regulation of receptor-mediated cell depolarization and adenylate cyclase by 5-hydroxytryptamine (serotonin) in neuroblastoma hybrid cells. <i>By</i> J. MacDermot & H. Higashida	670
Study of histidine decarboxylase from guinea-pig brain: A novel assay for histidine decarboxylase activity. <i>By</i> D. J. Keeling & I. R. Smith	672
Differential effect of digitonin on liver mitochondria from old and mature rats. <i>By</i> J. A. Spencer & A. A. Horton	673
The transfer of folates across different regions of the intestine. <i>By</i> I. P. L. Coleman, M. E. Hilburn & J. A. Blair	675
The effect of ammonium tetrathiotungstate on the absorption and distribution of copper in the rat. <i>By</i> I. Bremner, B. W. Young & C. F. Mills	677
Hepatitis-B-surface-antigen-containing liposomes enhance humoral and cell-mediated immunity to the antigen. <i>By</i> E. K. Manesis, C. H. Cameron & G. Gregoriadis	678
The effect of lipid composition on the stability of liposomes <i>in vivo</i> . <i>By</i> C. Davis & G. Gregoriadis	680
Effect of cell density and serum on the (Na ⁺ +K ⁺)-dependent adenosine triphosphatase activity and K ⁺ transport in 3T3 cells. <i>By</i> E. M. Tenang, B. McCaldin & J. F. Lamb	682
The role of thiol groups in erythrocyte amino acid transport. <i>By</i> J. D. Young	683
The use of immobilized lactoperoxidase as a probe of the molecular organization of the nuclear envelope. <i>By</i> J. C. W. Richardson & A. H. Maddy	685
Putrescine and spermidine in the cyst coat of the protozoan <i>Colpoda steinii</i> . <i>By</i> J. Tibbs	687
	1979

	PAGE
Decreased excretion of polyamines from BHK-21/C13 cells treated with α -methyl-ornithine. <i>By</i> H. M. Wallace, M. A. L. Melvin & H. M. Keir	688
Conjugated polyamines in BHK-21/C13 cells, and the effect of inhibition of cell growth rate. <i>By</i> M. A. L. Melvin & H. M. Keir	689
The effects of $\alpha\beta$ -dicarbonyl compounds on the polymerization of sheep brain tubulin <i>in vitro</i> . <i>By</i> P. S. Agutter & A. P. Mack	691
Purification of fibrinogen and the separation of its degradation products in the presence of calcium ions. <i>By</i> J. S. Lawrie, J. Ross & G. D. Kemp	693
Cross-linking of fibrinogen with dimethyl suberimidate. <i>By</i> J. Ross & G. D. Kemp	695
The use of immobilized collagen in the investigation of platelet-collagen adhesion. <i>By</i> S. W. Thomson & G. D. Kemp	696
Intracellular oxidized nicotinamide-adenine dinucleotide content and poly-(adenosine diphosphate ribose) synthetase activity in serum-stimulated fibroblasts. <i>By</i> H. M. Furneaux & C. K. Pearson	697
The hepatic uptake of the non-specific cross-reacting antigen, a glycoprotein related to carcinoembryonic antigen. <i>By</i> P. Thomas, R. G. Edwards & J. H. Westwood	699
Protein-protein interaction sites of the troponin complex. <i>By</i> J. S. Evans & B. A. Levine	701
Proton-magnetic-resonance spectral studies of the intestinal calcium-binding protein. <i>By</i> W. J. Birdsall, B. A. Levine, R. J. P. Williams, C. S. Fullmer & R. H. Wasserman	702
Thrombic digestion of myosin alkali light chains. <i>By</i> M. A. Winstanley & I. P. Trayer	703
Specific receptor-mediated proteolytic cleavage <i>in vivo</i> of colicins to cell-binding and cell-killing peptides: Analogies with diphtheria intoxication. <i>By</i> D. H. Watson & D. J. Sherratt	704
An homologous region of colicins Ia and A. <i>By</i> D. H. Watson & D. J. Sherratt	706
Phospholipid specificity of uridine diphosphate glucuronyltransferase re-activation and binding of re-activators to delipidated microsomal protein. <i>By</i> K. C. Toogood, A. B. Graham & G. C. Wood	708
A novel lipid hydroperoxide-reducing enzyme in human erythrocyte membranes. <i>By</i> P. S. Agutter, R. V. Sherriff & M. Kadlubowski	710
Effects of cadmium on copper-dependent enzymes in the plaice, <i>Pleuronectes platessa</i> . <i>By</i> A. Syed, T. L. Coombs & H. M. Keir	711
The reaction of rat glucokinase with substrate-based alkylating agents. <i>By</i> B. A. Connolly & I. P. Trayer	713
Trinitrobenzenesulphonic acid as a tool for isolating the reactive-lysine-containing peptide of pyruvate kinase. <i>By</i> M. P. Russell, R. N. Harkins & L. A. Fothergill	714
Selective deuteration of histidine residues in bovine superoxide dismutase. <i>By</i> A. E. G. Cass, H. A. O. Hill, W. H. Bannister & J. V. Bannister	716
The production of radicals by rat liver microsomal fractions: Inhibition by copper complexes. <i>By</i> M. R. Green, H. A. O. Hill, M. J. Okolow-Zubkowska, M. P. Esnouf & S. J. Walter	718
Further studies on the stimulation of the nuclear-envelope nucleoside triphosphatase by polyguanylic acid. <i>By</i> P. S. Agutter & I. Ramsay	720
The <i>N</i> -terminal amino acid sequence of sheep heart phosphofructokinase. <i>By</i> A. M. Fordyce, G. G. Midwinter & C. H. Moore	721

	PAGE
A convenient coupled assay for tyrosine phenol lyase (deaminating). <i>By</i> D. McKenzie & D. A. Robb	723
The topography of the membrane-bound hydrogenase of <i>Escherichia coli</i> explored by non-physiological electron acceptors. <i>By</i> R. W. Jones	724
The relationship between protein breakdown and growth inhibition induced by aminoglycoside antibiotics. <i>By</i> M. J. Carrier & M. Kogut	725
Degradation of high-molecular-weight complexes of canavanyl-proteins in <i>Escherichia coli</i> : Inhibition by chloramphenicol. <i>By</i> A. R. Hipkiss	727
The formation of high-molecular-weight protein aggregates during protein degradation in rabbit reticulocytes. <i>By</i> R. S. Daniels & A. R. Hipkiss	729
³¹ P nuclear magnetic resonance as a probe for the interaction of gold phosphine drugs with albumin. <i>By</i> N. A. Malik & P. J. Sadler	731
Investigation of the structure of stellacyanin by ¹ H nuclear-magnetic-resonance spectroscopy. <i>By</i> H. A. O. Hill & W.-K. Lee	733
Electrochemistry of cytochrome <i>c</i> ₃ from <i>Desulfovibrio desulphuricans</i> (Norway). <i>By</i> M. J. Eddowes, H. Elzanowska & H. A. O. Hill	735
Breakdown of barley NADH–nitrate reductase to functional NADH–cytochrome <i>c</i> reductase species. <i>By</i> I. S. Small & J. L. Wray	737
A model for the subunit composition of higher-plant NADH–nitrate reductase. <i>By</i> J. L. Wray, I. S. Small & J. Brown	739
Azide interaction with cytochrome <i>c</i> oxidase: does it bind to cytochrome <i>a</i> or <i>a</i> ₃ ? <i>By</i> J. G. Lindsay	741

579th MEETING, LONDON

Colloquium: Non-Hormonal Hypoglycaemic Compounds

Hypoglycaemia caused by indole and quinoline derivatives. <i>By</i> K. Snell	745
Hydrazonopropionic acids, a new class of non-hormonal hypoglycaemic compounds. <i>By</i> R. Haeckel & M. Oellerich	749

580th MEETING, NOTTINGHAM

The formation of pyruvate from citric-cycle intermediates in kidney cortex. <i>By</i> M. Watford, P. Vinay, G. Lemieux & A. Gougoux	753
---	-----

581st MEETING, CORK

Colloquium: Calcium Transport in Muscle Membranes

Partial reactions of the calcium-transport system of the sarcoplasmic reticulum. <i>By</i> P. F. Duggan	757
Calcium in excitation–contraction coupling of skeletal muscle. <i>By</i> S. R. Taylor, H. H. Shlevin & J. R. López	759
Some characteristics of sarcoplasmic reticulum in fast- and slow-twitch muscles. <i>By</i> D. Pette & C. Heilmann	765
Functional changes in sarcoplasmic reticulum and mitochondria of diseased muscle. <i>By</i> J. J. A. Heffron	767

	PAGE
Mitochondrial ion movements with special reference to calcium ions and heart mitochondria. <i>By</i> E. J. Harris	770
Calcium-transporting and other functional membranes in microsomal preparations of skeletal muscle. <i>By</i> D. R. Headon	775

Communication

Analysis of rabbit skeletal-muscle microsomal proteins. <i>By</i> M. L. O'Connor, C. M. Ní Curraín & D. R. Headon	778
---	-----

BIOCHEMICAL REVIEWS

Glycoproteins: A tribute to Albert Neuberger. <i>By</i> A. K. Allen & T. N. Palmer	781
Comparative biochemistry of plant glycoproteins. <i>By</i> N. Sharon & H. Lis	783
Some observations on why many proteins are glycosylated. <i>By</i> R. D. Marshall	800

BOOK REVIEWS

INDEX OF AUTHORS

Agutter, P. S. 691, 710, 720	Daniels, R. S. 729	Griffiths, L. A. 645
Allen, A. K. 781	Davies, J. 668	Gutteridge, S. 628
Bannister, J. V. 716	Davis, C. 680	Hackett, A. M. 645
Bannister, W. H. 716	Dickerson, J. W. T. 651	Haeckel, R. 749
Beavis, A. D. 627	Duggan, P. F. 757	Hardman, N. 663, 665, 667
Bianco, P. J. 639	Dunbar, S. F. 651	Harkins, R. N. 714
Birdsall, W. J. 702	Eady, R. R. 633	Harris, E. J. 770
Blair, J. A. 646, 648, 675	Eddowes, M. J. 735	Headon, D. R. 775, 778
Bock, P. E. 627	Edward, M. 643	Heffron, J. J. A. 767
Boyd, G. S. 641	Edwards, R. G. 699	Heilmann, C. 765
Bray, R. C. 628	Elzanowska, H. 735	Hewitt, E. J. 629
Bremner, I. 677	Embi, N. 622	Higashida, H. 670
Brown, A. J. P. 665	Esnouf, M. P. 624, 718	Hilburn, M. E. 675
Brown, J. 739	Evans, J. S. 701	Hill, H. A. O. 716, 718, 733, 735
Butt, N. M. 655	Fergie, R. C. 665	Hipkiss, A. R. 727, 729
Cameron, C. H. 678	Fordyce, A. M. 721	Holbrook, J. J. 627
Cannon, M. 668	Fothergill, L. A. 714	Horton, A. A. 673
Carrier, M. J. 725	Fullmer, C. S. 702	House, E. S. A. 652
Carter, C. J. 668	Furieux, H. M. 697	Jack, P. L. 667
Cass, A. E. G. 716	Garner, C. D. 629	Johnston, I. A. 659, 661
Clark, C. M. 654	Gillespie, D. A. F. 663	Jones, R. S. 639
Cohen, P. 622	Goodlad, G. A. J. 654	Jones, R. W. 724
Coleman, I. P. L. 675	Gougoux, A. 753	
Collier, H. O. J. 655	Graham, A. B. 708	
Connolly, B. A. 713	Grand, R. J. A. 619	
Coombs, T. L. 711	Green, M. R. 718	
Cryer, A. 650	Gregoriadis, G. 678, 680
