

BIOCHEMICAL SOCIETY TRANSACTIONS

London: The Biochemical Society 1980

Managing Editor D. C. WATTS

Book Reviews Editor B. MORELAND

Contents Volume 8, Part 1, February 1980

THE THIRTEENTH CIBA MEDAL LECTURE

Microbial assimilation of C₁ compounds J. R. QUAYLE 1

585th MEETING, GUILDFORD

Colloquium: Gastrointestinal Hormones

Chemistry, isolation and purification of gastrointestinal hormones V MUTT 11

Evolutionary perspectives of peptides from gut endocrine cells and nerves G. J. DOCKRAY 14

Physiology of gastrointestinal hormones S. R. BLOOM & J. M. POLAK 15

The entero-insular axis L. M. MORGAN 17

The diffuse neuroendocrine system in gastroenterology J. M. POLAK & S. R. BLOOM 19

Pharmacology of gastrointestinal hormones: an overview (*by title only*) U. T. STRUNZ & L. DEMLING 22

Clinical disorders of gastrointestinal hormones V. MARKS 22

Colloquium: Membrane Enzymes in their Lipid Environment

Dialogue between membranes and their lipid-metabolizing enzymes W. E. M. LANDS 25

The control of phosphatidylinositol turnover in cell membranes R. F. IRVINE & R. M. C. DAWSON 27

Membrane phospholipids, exocytosis and cell division J. N. HAWTHORNE, N. M. ADNAN & G. LYMBERPOULOS 30

Enzyme function and membrane lipids D. CHAPMAN & W. HOFFMANN 32

The use of lipid mutants of *Saccharomyces cerevisiae* to investigate the role of unsaturated fatty acids and sterols in membrane functions J. M. HASLAM & S. A. H. AL MAHDAWI 34

Modification of membrane lipids of sarcoplasmic reticulum to probe the influence of bilayer fluidity on Ca²⁺-activated ATPase activity P. J. QUINN, R. GOMEZ & T. D. MADDEN 38

Use of phospholipid-converting enzymes for the study of membrane-bound enzymes S. L. BONTING, J. J. H. H. M. DE PONT 40

Enzymes linked to phosphatidylinositol in plasma membranes J. B. FINEAN & S. D. SHUKLA 43

Effects upon UDP-glucuronyl-transferase or phospholipase treatment or of phospholipid depletion during isolation T. HALLINAN 43

Membrane proteins: isolation, lipid replacement and reconstitution (*by title only*) P. F. KNOWLES 46

The role of lipid in the functioning of a membrane protein (<i>by title only</i>)	J. C. METCALFE, A. JOHANNSSON, C. A. KEIGHTLEY, G. A. SMITH & T. R. HESKETH	46
Studies of the sodium-plus-potassium-dependent adenosine triphosphatase by removal and replacement of lipid	K. P. WHEELER & M. ISERN DE CALDENTY	46
Communications		
Fat-mobilizing peptides of the pituitary gland	I. SMITH & J. BELIN	49
Quantitative distribution of gastrin-like immunoreactive peptide in brain	S. A. IMAM	50
Characterization of the glucagon-like polypeptides released by the dog gut into the circulation	J. M. CONLON, D. ROULLER & R. H. UNGER	51
Mucus in the gastric juice of cats during pentagastrin and secretion infusions: the viscosity in relation to glycoprotein structure and concentration	R. KAURA, A. ALLEN & B. H. HIRST	52
Quantitative aspects of the effect of somatostatin on bile flow in the rat	G. L. RICCI & J. FEVERY	53
An assay for human enterokinase based on detecting the activation peptide of bovine trypsinogen	A. I. MAGEE, D. A. W. GRANT, J. HERMON-TAYLOR & R. E. OFFORD	54
The biliary excretion of intravenously administered enterokinase	D. A. W. GRANT, P. A. JONES, A. I. MAGEE & J. HERMON-TAYLOR	55
Gastric emptying: an important regulatory factor in post-prandial insulin release	V. SCHUSDZIARRA, I. HENRICHS, D. ROULLER, R. H. UNGER & E. F. PFEIFFER	55
Transport and metabolism of glucose by the small intestine of lean and obese-hyperglycaemic (<i>ob/ob</i>) mice <i>in vitro</i> : effects of age	A. P. MORTON & P. J. HANSON	56
Circulating immunoreactive glucagon concentrations in aging obese-hyperglycaemic (<i>ob/ob</i>) mice	P. R. FLATT, C. J. BAILEY & K. D. BUCHANAN	57
Glucagon and diabetes: evidence for marked insensitivity to local regulation of A-cell function by endogenous insulin in obese-hyperglycaemic (<i>ob/ob</i>) mice	P. R. FLATT, K. D. BUCHANAN & C. J. BAILEY	58
Similarity between the action of nicotinamide and diazepam on neurotransmitter metabolism in the rat	B. KENNEDY & B. E. LEONARD	59
The role of presynaptic-membrane protein phosphorylation in modulating neurotransmitter release	M. J. W. BRENNAN & R. C. CANTRILL	60
[Methionine]enkephalin is a potent stimulant for γ -aminobutyrate release	M. J. W. BRENNAN, R. C. CANTRILL & B. A. WYLIE	61
Influence of exogenous L-3,4-dihydroxyphenylalanine (L-dopa) on the methionine and S-adenosylmethionine concentrations in the brain and other tissues	H. R. TAUFEEK & A. H. BONE	62
Effects of chlorpromazine and reserpine on changes in cerebral amino acid concentrations and release induced by afferent electrical stimulation	A.-S. ABDUL-GHANI	63
Changes in amino acid concentration in rat brain after pretreatment with neuroleptic drugs and picrotoxin	A.-S. ABDUL-GHANI	64
Changes in protein synthesis in cortical subcellular fractions after activation of the brachial plexus	M. M. BOYAR, A.-S. ABDUL-GHANI & H. F. BRADFORD	65
Some characteristics of fucose uptake in synaptosomes	C. J. BRANFORD WHITE	66
The kinetics of the inhibition of rat brain synaptosomal dopamine uptake by manganese ions	J. C. K. LAI, L. LIM, & A. N. DAVISON	67
Inhibition of rat brain synaptosomal dopamine uptake by Cd ²⁺ : a kinetic study	J. C. K. LAI, L. LIM & A. N. DAVISON	68
The lipid and glycoprotein composition of peripheral-nervous-system myelin subfractions isolated by zonal centrifugation	C. LININGTON, V. NEUHOFF & T. V. WAHNELDT	69
Soluble leaf proteins of virus-infected tobacco (<i>Nicotiana tabacum</i>) cultivars	J. F. ANTONIW, A. M. DUNKLEY, R. F. WHITE & J. WOOD	70
The preparation of a fraction with tubulin-like properties from the rat tapeworm, <i>Hymenolepis diminuta</i>	S. D. M. WATTS	71
A colorimetric assay for mucous glycoproteins using Alcian Blue	R. L. HALL, R. J. MILLER, A. C. PEATFIELD, P. S. RICHARDSON, I. WILLIAMS & I. LAMPERT	72
The heterogeneity of rat plasma high-density lipoproteins	J. A. ROOKE & E. R. SKINNER	73
Lipoprotein lipase activity in the post-heparin plasma and adipose tissue of the rainbow trout (<i>Salmo gairdnerii</i>)	E. R. SKINNER, A. M. YOUSSEF & P. A. PLACK	74
Protein and collagen synthesis in isolated rabbit muscles: effects of changes of tension <i>in vitro</i>	P. J. REEDS, R. M. PALMER, G. E. LOBLEY & R. H. SMITH	74

Glycerol inhibition of proton-dependent binding of ligands to haemoproteins	J. FOULSTON & J. WRIGGLESWORTH	75
Microanalytical subcellular fractionation of rat liver homogenates by poly(ethylene glycol)/dextran countercurrent partition	W. B. MORRIS & T. J. PETERS	76
The purification of γ -glutamyltransferase from normal rat liver	J. L. DING, G. D. SMITH & T. J. PETERS	77
On the mechanism of activation of the MgATP ²⁻ -dependent phosphorylase phosphatase isolated from dog liver	J. GORIS & W. MERLEVEDE	78
Comparative studies on ligand binding to cytochrome <i>c</i> oxidase and other haem proteins	F. A. MILLAR, J. M. WRIGGLESWORTH & P. NICHOLLS	78
Differential effects of haptoglobin and albumin on the oxygenation of arachidonic acid during prostaglandin biosynthesis	P. A. DENNING-KENDALL, N. M. BUTT, S. A. SAEED & H. O. J. COLLIER	79
Inhibition of elastase and fibrinolysin by reducing and oxidizing agents	F. S. STEVEN & M. M. GRIFFIN	80
Intracellular proteolysis in rabbit reticulocytes decreases with cell age	M. J. MCKAY, R. S. DANIELS & A. R. HIPKISS	81
Involvement of antithrombin III in anticoagulant effects of sulphated polysaccharides	G. KINDNESS, F. B. WILLIAMSON & W. F. LONG	82
Inhibition of antithrombin III of carrageenan- and xylan SP54-induced aggregation of human blood platelets	G. KINDNESS, F. B. WILLIAMSON & W. F. LONG	84
Synergistic inhibition by antithrombin III and heparin-like compounds of thrombin-induced platelet aggregation	G. KINDNESS, F. B. WILLIAMSON & W. F. LONG	85
Isoenzymes of erythrocytic carbonic anhydrase in acidaemic newborn infants	J. B. MOYNIHAN	86
Minor nucleotides in tRNA from blue-green algae	D. B. DUNN & M. D. M. TRIGG	87
The purification of minor species of methionine-accepting transfer ribonucleic acid from <i>Scenedesmus obliquus</i>	J. M. MCCOY & D. S. JONES	88
Specific chemical modification of a hypermodified nucleoside in <i>Escherichia coli</i> phenylalanine transfer RNA does not effect the kinetics of aminoacylation	J. P. GODDARD & M. LOWDON	89
Early developmental changes in tRNA of <i>Dictyostelium discoideum</i>	T. DINGERMANN, F. PISTEL & H. KERSTEN	90
Restriction endonuclease <i>Eco</i> R 1 binds non-specifically to deoxyribonucleic acid	J. L. WOODHEAD & A. D. B. MALCOLM	90
Properties of the deoxyribonucleic acid-binding site of <i>Escherichia coli</i> ribonucleic acid polymerase	A. J. MAKOFF & A. D. B. MALCOLM	91
Inhibition of primary alkylsulphohydrolase induction in <i>Pseudomonas</i> C ₁₂ B by exogenous uridine triphosphate but not by exogenous or endogenous adenosine triphosphate	G. J. STEWART & J. W. FITZGERALD	92
The metabolism of ranitidine in animals and man	J. A. BELL, F. A. A. DALLAS, W. N. JENNER & L. E. MARTIN	93
Changes in developmental-specific enzyme activities during experimental hepatocarcinogenesis in the rat <i>in vivo</i>	N. J. CURTIN & K. SNELL	94
Studies on the induction of hepatic xenobiotic metabolism in the guinea pig	B. G. LAKE, M. A. COLLINS, R. A. HARRIS, C. R. STUBBERFIELD, P. CACIOLA & S. D. GANGOLLI	95
Studies on the hepatotoxicity and metabolism of coumarin in the rat	B. G. LAKE, M. A. COLLINS, R. A. HARRIS, J. C. PHILLIPS, J. G. EVANS & S. D. GANGOLLI	96
A possible mechanism of carbon disulphide hepatotoxicity	M. J. OBREBSKA & D. V. PARKE	97
The incorporation for nuclear-magnetic-resonance studies of very-high-specific-radioactivity tritiated amino acids into cytochrome <i>P</i> -450 during aerobic growth of yeast	L. F. J. WOODS, A. WISEMAN, S. LIBOR, J. R. JONES & J. A. ELVIDGE	98
Interaction of purified yeast cytochrome <i>P</i> -450 and labelled benzo[a]pyrene studied by tritium nuclear-magnetic-resonance spectroscopy	S. LIBOR, J. P. BLOXSIDGE, J. A. ELVIDGE, J. R. JONES, L. F. J. WOODS & A. WISEMAN	99
Modes of accumulation and binding of porphyrins by murine leukaemia L1210 cells	D. KESSEL & K. KOHN	100
Purified cytochrome <i>P</i> -450: spin-state control of the haemoprotein redox potential	G. G. GIBSON, S. G. SLIGAR, D. L. CINTI & J. B. SCHENKMAN	101
The purification and reconstitution of cytochrome <i>P</i> -450-dependent cholesterol 7 α -hydroxylase activity from rat liver microsomal fractions	W. R. RUSH, G. G. GIBSON & D. V. PARKE	102
The effect of chloramphenicol and rifampicin upon degradation of dihydrostreptomycin-induced abnormal protein in <i>Escherichia coli</i>	M. J. CARRIER, M. KOGUT & A. R. HIPKISS	103

Disturbance to energy production <i>in vivo</i> caused by hormones and sympathomimetics in the S180 sarcoma, with consequent drug-induced necrosis	G. R. N. JONES, R. BAUM, R. MERKEL & M. SCHWARZ	105
Prevention of drug-induced upset to energy production in the S 180 sarcoma by inhibition of prostaglandin synthetase	G. R. N. JONES	106
The fate of liposome-entrapped actinomycin D <i>in vivo</i> and its therapeutic effect in a solid murine tumour	S. B. KAYE & B. E. RYMAN	107
Separation of different cell types from a transplanted hepatoma	Y.-F. SIOW, M. DOBROTA & R. H. HINTON	108
Binding of L-[³ H]glutamate to cerebellar synaptic membranes: stability of receptor sites and effects of protein- and membrane-modifying agents	N. A. SHARIF & P. J. ROBERTS	109
Specific calcium ion-dependent release of L-glutamate from rat striatum	G. J. ROWLANDS & P. J. ROBERTS	109
Membrane movement by growth of interfacial instabilities	W. T. COAKLEY & J. O. T. DEELEY	110
Partitioning of bile acids into subcellular organelles and their derived subcellular distribution	R. C. STRANGE, I. A. NIMMO & I. W. PERCY-ROBB	111
The binding of rabbit bone inhibitor of collagenase to concanavalin A-sepharose	T. E. CAWSTON, G. MURPHY, W. A. GALLOWAY & J. J. REYNOLDS	112
A rapid method for the quantification of lipid classes after charring on thin-layer chromatoplates	R. C. NOBLE & J. H. SHAND	113
Role of endocytic vesicles in the transport of proteins into bile	R. H. HINTON, B. M. MULLOCK, J. PEPPARD & E. ORLANS	114
Antisera raised against rat liver plasma membrane react strongly with a protein resembling the opsonin α_2 -SB (surface-binding) globulin	R. H. HINTON, F. S. ISSA, J. WOOLLEY & B. M. MULLOCK	115
Choice of detergent for activating UDP-glucuronosyltransferase	H. P. A. ILLING	116
'Binding' of [¹⁴ C]phenol to rat liver high-speed supernatant	H. P. A. ILLING & E. S. A. HOUSE	117
Effect of poly(ethylene glycol)-palmitate on the partition of cells in aqueous polymer two-phase systems	F. D. RAYMOND & D. FISHER	118
Effect of a substituted pyridazinone, compound BASF 13-338 on membrane lipid synthesis in photosynthetic tissues	D. J. MURPHY, J. L. HARWOOD, J. B. ST. JOHN & P. K. STUMPF	119
Fatty acid elongation by the microsomal fraction from germinating pea (<i>Pisum sativum</i> L.)	B. R. JORDAN & J. L. HARWOOD	120
The oxidation of soybean lipoxygenase-1: a pulse-radiolysis study	J. C. ALLEN, S. NAVARATNAM, B. J. PARSONS, G. O. PHILLIPS & A. J. SWALLOW	121
Incorporation of cholesterol <i>in vitro</i> into rat liver microsomal fractions from serum and its effect on cytochrome P-450-dependent hydroxylation	P. W. H. RAE, H. A. F. BLAIR, G. S. BOYD & K. E. SUCKLING	122
Factors affecting the release and activity of tissue thromboplastin	F. JORDAN & R. M. HOWELL	123
[¹⁴ C]Serine incorporation into phospholipid in the guinea-pig ileum: effects of halothane	D. R. WING & W. D. M. PATON	124
A membrane-bound system for isoprenoid biosynthesis in <i>Micrococcus luteus</i> (<i>Micrococcus lysodeikticus</i>)	J. A. EVANS & J. N. PREBBLE	125
Membrane damage caused by bile salts	R. COLEMAN & P. LOWE	126
A simple assay for the polyphosphoinositide phosphodiesterase of the human erythrocyte membrane	P. DOWNES & R. H. MICHELL	127
Interactions of gangliosides with adenylate cyclase and cyclic AMP phosphodiesterase in rat brain homogenates and synaptosomes	J. R. LOVELY, N. M. BUTT & S. A. SAEED	128
The cholesterol-side-chain-cleavage enzyme complex in corpus luteum: kinetics of interaction of a lipid substrate with a membrane-bound enzyme	H. A. LEAVER & G. S. BOYD	129
The breakdown products of spectrin produced by ultrasonication	I. NAEEM, P. MARSHALL & J. R. HARRIS	130
Cholesterol pools in rat erythrocyte membranes	S. C. SCOTT & K. R. BRUCKDORFER	131
The effect of membrane-fluidizing agents on sodium-pump activity in erythrocytes	F. GIRAUD, M. CLARET & K. R. BRUCKDORFER	132
Partial purification of a native form of thromboplastin from porcine brain	J. E. GARDINER & R. M. HOWELL	133
C ₁₉ steroid metabolism: comparison of metabolites formed from [4- ¹⁴ C]testosterone and [4- ¹⁴ C]androstenedione by cultures of mammal and chick heart and skeletal muscle	C. LYNE & D. B. GOWER	134

Sulphated glycosaminoglycans of exponentially growing and non-proliferating BHK-21/C13 cells	H. H. K. WATSON, M. EDWARD, F. B. WILLIAMSON & W. F. LONG	134
Changes in mineral metabolism in the human foetus and newborns associated with maternal vitamin D supplements	I. R. F. BROWN, O. G. BROOKE & H. J. W. CLEEVE	136
Inhibition of cultured cell growth by high-molecular-weight material extracted from <i>Actinomyces israelii</i>	I. LYONS & R. DUGUID	137
Effect of adenosine triphosphate and related agents on [¹⁴ C]-choline uptake by guinea-pig neocortex synaptosomes	A. G. CORRIERI & C. BARBERIS	138
Purine base and nucleoside, cytidine and uridine concentrations in foetal calf and other sera	R. A. HARKNESS, R. J. SIMMONDS, P. GOUGH, P. K. PRISCOTT & J. A. SQUIRE	139
Computer simulations of the rate of change of concentration of adenosine 3':5'-cyclic monophosphate after stimulation of adenylate cyclase activity	D. A. FELL	139
The effects of adenine derivatives on urate biosynthesis by isolated chicken liver cells	R. A. BURNS & P. J. BUTTERY	140
Adenosine-binding to cerebral preparations in interpretation of adenosine activation of adenosine 3':5'-cyclic monophosphate formation	M. E. NEWMAN, R. DE LUCIA, J. PATEL & H. McILWAIN	141
A kinetic study on phosphofructokinase isolated from the muscle of <i>Carcinus maenas</i> (the common shore crab)	D. I. LITTLE, I. G. GILES & P. C. POAT	142
Studies on the apparent inhibition of the type-M pyruvate kinase from <i>Carcinus maenas</i> (the common shore crab) by phospho-L-arginine	I. G. GILES, P. C. POAT & K. A. MUNDAY	143
Analysis of the effects of adrenaline and glucagon on calcium ion movement in liver cells by using a simple compartmental model	G. J. BARRITT	144
BIOCHEMICAL REVIEWS		
Mouldy grain and the aetiology of pellagra: the role of toxic metabolites of <i>Fusarium</i>	R. SCHOENTAL	147
Histamine and histamine H ₁ - and H ₂ -receptor antagonists in acute inflammation	D. A. A. OWEN & D. F. WOODWARD	150
BOOK REVIEWS		157
