## Contents Volume 8, Part 3, June 1980

---

### BIOCHEMICAL REVIEWS

<b>Enzymes: a Tribute to Malcolm Dixon</b>	C. J. R. THORNE	241
Kinetic mechanism and enzyme function	K. F. TIPTON	242
Active-site probes of flavoproteins	V. MASSEY & P. HEMMERICH	246
Our immune defence against influenza	B. A. ASKONAS	257

### 587th MEETING, DUNDEE

#### Colloquium: The Regulation of Cellular Calcium

The sodium ion/calcium ion cycle of cardiac mitochondria	M. CROMPTON	261
Control of Ca <sup>2+</sup> influx and efflux in liver mitochondria	K. E. O. ÅKERMAN	262
The role of mitochondria in the regulation of calcium ion transport in synaptosomes	D. G. NICHOLLS & I. D. SCOTT	264
The role of calcium in the regulation of mitochondrial metabolism	R. M. DENTON & J. G. MCCORMACK	266
Receptor-mediated control via the calcium effector of membrane ion permeability in pancreatic acinar cells	O. H. PETERSEN & R. LAUGIER	268

#### Colloquium: Energy Coupling in Transport

Slip and leak models of gradient-coupled solute transport	A. A. EDDY	271
Energized amino acid transport by <i>Trypanosoma brucei</i> requires a glycolytic intermediate	H. P. VOORHEIS	273
Coupling of amino acid transport to the electrochemical gradient of sodium ions across <i>Halobacterium halobium</i> membranes	J. K. LANYI	275
Quantitative analysis of lactose transport in <i>Escherichia coli</i>	I. R. BOOTH	276
Lactose transport in <i>Escherichia coli</i> : effect of transmembrane potential difference on apparent substrate affinity	J. K. WRIGHT & P. OVERATH	279

#### Colloquium: Physiological Control Mechanisms of Protein Synthesis in Animal Cells

Regulation of protein synthesis in perfused preparations of rat heart, skeletal muscle and liver	L. S. JEFFERSON, T. A. BOYD, K. E. FLAIM & D. E. PEAVY	282
Conditions that alter rates of tissue protein synthesis <i>in vivo</i>	M. A. McNURLAN, V. M. PAIN & P. J. GARLICK	283
Regulation of protein synthesis in Ehrlich ascites tumour cells in culture	E. C. HENSHAW, M. CENTRELLA, W. MASTROPAOLO, K. E. SMITH & S. T. WONG	286
Protein synthesis during activation of lymphocytes by mitogens	J. E. KAY	288

**Colloquium: Comparative Aspects of Lipid Biochemistry**

Aspects of lipid metabolism in the foetal, neonatal and adult monogastric mammal	C. T. JONES & K. W. J. WAHLE	289
Comparative aspects of lipid metabolism in monogastric, pre-ruminant and ruminating animals	R. G. VERNON	291
Milk fat composition and biosynthesis in non-ruminants and ruminants	R. R. DILS & J. KNUDSEN	292
Polyunsaturated fatty acids in free-living and domesticated animals	M. A. CRAWFORD & G. WILLIAMS	294
Comparative aspects of lipid metabolism in avian species	J. PEARCE	295
Lipid metabolism in marine animals	J. R. SARGENT & R. J. HENDERSON	296

**Communications**

The effects of diabetes and obesity on insulin degradation by human granulocytes	D. I. DRON, P. H. BROWN & J. H. THOMAS	299
Degradation of <sup>125</sup> I-labelled insulin by isolated rat hepatocytes	G. P. POOLE, C. I. POGSON, K. J. O'CONNOR & N. R. LAZARUS	300
Aminoglutethimide and advanced breast cancer	R. C. MASON, U. CHETTY, W. R. MILLER, R. A. HAWKINS & A. P. M. FORREST	301
The effect of progesterone on the synthesis of retinol-binding protein by Japanese quail liver <i>in vitro</i>	R. R. RAO, D. J. HEAF & J. GLOVER	302
Vacant and occupied cytoplasmic oestrogen receptor concentrations in rat tissues	P. L. YAP, E. KILLEN & R. A. HAWKINS	304
The preparation of isolated rat corpus-luteum cells and their use in identifying the site of action of lutropin	B. C. MCNAMARA, R. BOOTH & D. A. STANSFIELD	305
The effect of dimethyl 3,3'-dithiobispropionimidate on the adenylate cyclase activity of bovine corpus luteum: stimulation of particulate enzyme activity and the stabilization of activity to dispersion in detergent	J. L. YOUNG, N. B. LYDON & D. A. STANSFIELD	306
Measurement of the membrane potential component of the transmembrane proton electrochemical gradient in <i>Crithidia fasciculata</i>	M. MIDGLEY & M. C. STEPHENSON	307
Vectorial organization of the anaerobic respiratory chain of <i>Escherichia coli</i> : structural and functional aspects ( <i>by title only</i> )	R. W. JONES & A. GRAHAM	308
The degradation of band-3 protein in Triton X-100 extracts of the human erythrocyte membrane	J. K. NICKSON & M. N. JONES	308
On potentials in open chemical systems far from thermodynamic equilibrium and on oscillations	Y. SCHIFFMANN	309
A simple reaction-diffusion example	Y. SCHIFFMANN	311
An explanation of the sigmoid and hysteretic nature of biochemical response curves by the bifurcation diagrams of first-order non-equilibrium transitions	Y. SCHIFFMANN	313
The possible role of glucose-pentapeptides extracted from erythrocyte membranes in the regulation of glucose transport	R. J. DAVIS & J. B. WEISS	315
The accumulation of sugars in lysosomes from liver, muscle and fat-cells	K. DOCHERTY & C. N. HALES	316
Nucleoside transport in human erythrocytes: solubilization of nitrobenzylthioinosine-binding activity with sodium cholate	S. M. JARVIS & J. D. YOUNG	317
Partial purification of a glucose-transport system from rat jejunum with the use of a cationic surfactant	D. A. WHITMORE & K. P. WHEELER	318
The effects of rapid increases in osmotic pressure on <i>Escherichia coli</i>	D. STRICKLAND, W. A. HAMILTON & I. R. BOOTH	319
Transport of extracellular esterase into membrane vesicles of <i>Candida lipolytica</i>	G. ADOGA & M. MATTEY	320
Evidence for the existence of a histidine residue at the active site of the nuclear-envelope enzyme involved in nucleocytoplasmic RNA transport in mammalian liver	P. S. AGUTTER & R. E. MACKENZIE	321
The use of phospholipid exchange processes to modulate the fluidity of biological membranes	M. D. KING & P. J. QUINN	322
The incorporation of glycophorin into phospholipid liposomes: effect of acyl-chain length on glycophorin-lipid interaction	G. C. GOODWIN & M. N. JONES	323
Non-basement-membrane collagens A, B and C $\alpha$ -chains: types V and VI collagen?	S. AYAD, M. Z. ABEDIN & J. B. WEISS	324

An assessment of the value of the crypticity of NADH-ferricyanide reductase as an indicator of structural integrity of human erythrocyte membranes	C. A. STEWART, P. S. AGUTTER & M. KADLUBOWSKI	325
Evidence for the existence of two NADH-ferricyanide reductases in human erythrocyte membranes	P. S. AGUTTER, J. M. DALLAS, P. NEWMAN & M. KADLUBOWSKI	326
Investigations as to the nature of the junction between transverse tubules and sarcoplasmic reticulum of skeletal muscle	J. J. S. CADWELL, A. H. CASWELL & N. M. GREEN	327
The preparation of a cardiac plasma-membrane fraction containing intercalated discs	C. A. L. S. COLACO & W. H. EVANS	328
The localization of the light-harvesting complexes in the intracytoplasmic membranes of <i>Rhodospseudomonas capsulata</i>	G. D. WEBSTER, R. J. COGDELL, J. G. LINDSAY & G. P. REID	329
Implication of $\alpha$ -subunit of <i>Escherichia coli</i> nitrate reductase in catalytic activity	A. GRAHAM & D. H. BOXER	329
The membrane location of the $\beta$ -subunit of nitrate reductase from <i>Escherichia coli</i>	A. GRAHAM & D. H. BOXER	331
Location of cytochrome $bc_1$ complex in mitochondrial inner membrane	D. C. LOW, C. SZARY & D. H. BOXER	332
Hydrolysis of triacylglycerol and uptake of fatty acids by suspensions of rat mammary cells	R. A. CLEGG	333
Monoclonal antibodies that bind to the human erythrocyte-membrane glycoproteins glycophorin A and Band 3	P. A. W. EDWARDS	334
Putrescine and spermidine covalently linked to protein in the protozoan <i>Colpoda steinii</i> <i>in vivo</i>	J. TIBBS	335
Polypeptide composition of separated cells from the developing rat cerebral cortex	R. D. BURGOYNE, J. RUDGE & S. MURPHY	335
Mitochondrial $Ca^{2+}$ efflux: stimulation by mercurial reversed by ubiquinone	E. J. HARRIS & H. BAUM	336
Accumulation of calcium ions by a Golgi-rich fraction from lactating rat mammary tissue	D. W. WEST	337
Participation of a purified calcium-binding glycoprotein in calcium uptake by mitochondria	A. R. KRALL, R. D. HAPPEL, N. O'BYRNE, S. S. SPICER & E. J. DUKE	338
The activation of isocitrate dehydrogenase (NAD <sup>+</sup> ) by $Ca^{2+}$ within intact uncoupled rat brown adipose tissue mitochondria incubated in the presence and absence of albumin	J. G. MCCORMACK & R. M. DENTON	339
The purification of materials, cross-reactive with calcitonin, from cultures of a human lung-tumour cell line	J. H. WESTWOOD, C. L. DAY, R. G. EDWARDS & P. THOMAS	340
Detection of diamagnetic cation in tissue using the fluorescent probe chlortetracycline	D. G. MACINNES, H. W. READING & A. I. M. GLEN	340
Catecholamine synthesis in the adrenal medulla of cattle deficient in copper	J. E. HESKETH	342
Are steroid and drug metabolic routes in the liver under similar hormonal control?	P. SKETT, A. MODE & J. Å. GUSTAFSSON	342
Arylsulphatase activity in liver and gastrointestinal tract of sheep	R. A. COLLETT	343
Partial purification and characterization of dexamethasone-induced cytochrome <i>P</i> -450 from neonatal rat liver	J. E. A. LEAKEY, G. J. DUTTON & J. R. FOUTS	344
Standardization of two efficient methods for removing the latency of steroid UDP-glucuronyltransferases	T. HALLINAN, J. WILKINSON, M. CALDECOURT & R. DE BRITO	345
Effects of <i>n</i> -pentane on the $K_m$ and $V_{max}$ for UDP-glucuronosyltransferase activity towards phenolic acceptor substrates of different actanol/buffer partition coefficients	H. P. A. ILLING & E. S. A. HOUSE	346
The extent of phosphorylation of ribosomal protein S6 at different times after synthesis of the ribosomes	I. M. KENNEDY & D. P. LEADER	347
Characterization of two ribosomal protein kinases from Krebs II ascites cells	M. J. MCGARVEY & D. P. LEADER	347
Activity and subcellular distribution of initiation factor eIF-2 in extracts of well-fed and amino acid-starved Ehrlich ascites-tumour cells	M. J. CLEMENS & A. M. BLOYCE	348
The effects of deacylated transfer ribonucleic acid on polypeptide-chain initiation in Ehrlich-ascites-tumour-cell extracts	S. A. AUSTIN, S. M. BURRIDGE & M. J. CLEMENS	349
Regulation of polypeptide-chain initiation in Ehrlich ascites-tumour cells by amino acid starvation	M. J. CLEMENS, E. C. HENSHAW & V. M. PAIN	350

Stimulation of rat liver initiation factor eIF-2 by a factor with guanosine diphosphatase activity	M. J. CLEMENS, V. M. PAIN, V. J. TILLERAY & C. O. ECHETEBU	351
Interferon enhances protein degradation in Ehrlich ascites-tumour cells	L. R. V. PANNIERS & M. J. CLEMENS	352
Inhibition by interferon of thymidine uptake and deoxy-ribonucleic acid synthesis in human lymphoblastoid cells	D. R. GEWERT & M. J. CLEMENS	353
The effect of an Ehrlich ascites tumour on the rate of protein synthesis in muscle and liver of the host	V. M. PAIN & P. J. GARLICK	354
Intracellular free 3-methylhistidine concentration as an index of protein degradation	M. J. RENNIE, S. ROSOCHACKI, P. QUARTEY-PAPAFIO & D. J. MILLWARD	355
Inhibition of polypeptide initiation by a low-molecular-weight component from resting lymphocyte cytoplasm	C. KRÜGER & H. L. COOPER	355
Effect of dietary protein on liver protein synthesis	P. QUARTEY-PAPAFIO, P. J. GARLICK & V. M. PAIN	357
Bruceantin, an inhibitor of the initiation of protein synthesis in eukaryotes	Y. M. BERAN, C. R. BENZIE & J. E. KAY	357
An isolated ribosome preparation from cardiac muscle which retains effects of insulin pretreatment	K. D. THOMAS & J. MOWBRAY	359
A salt-washed ribosome preparation from rat cardiac muscle with enhanced initiation activity	D. BUXTON & J. MOWBRAY	360
Effect of addition of methionine to a protein-free diet on liver protein synthesis	S. GAETANI, E. MENGHERI & M. A. SPADONI	361
Lipolytic agents as regulators of fatty acid esterification in rat adipose tissue	M. F. GRAHN & J. I. DAVIES	362
Xanthine oxidase in adipose tissue: potential effects on lipolytic activity	J. I. DAVIES & M. F. GRAHN	363
Phosphorylation of myosin light chains in perfused rat heart	S. A. JEACOCKE & P. J. ENGLAND	364
Phosphorylation of myosin light chains and other low molecular weight proteins in aorta during contraction	K. J. MURRAY & P. J. ENGLAND	365
The influence of thyroid status on skeletal-muscle protein metabolism	J. G. BROWN & D. J. MILLWARD	366
The effect of glucagon on muscle protein synthesis in the perfused rat hemicorpus	V. R. PREEDY, V. M. PAIN & P. J. GARLICK	367
High activity for triacylglycerol formation and hydrolysis in isolated oligodendroglia from myelinating rat brain	E. M. CAREY, U. STOLL & A. CARRUTHERS	368
Regulation of adipose-tissue metabolism during lactation	D. J. FLINT, R. A. CLEGG & R. G. VERNON	369
Insulin receptors and metabolic activity of sheep adipose tissue during pregnancy and lactation	R. G. VERNON, R. A. CLEGG & D. J. FLINT	370
Lithocholic acid binding by cytosol from trout liver	I. A. NIMMO, J. B. CLAPP & R. C. STRANGE	371
Bile salt binding to hepatic ligandin and serum albumin of the rat	R. A. LAWRENCE, P. R. BAKER & A. CUSCHIERI	372
The interaction of very-low-density lipoproteins from pig and rat plasma with immobilized heparin	N. O. MACKINNON & A. CRYER	373
Phosphorylation of branched-chain 2-oxo acid dehydrogenase within intact mitochondria	W. A. HUGHES & A. P. HALESTRAP	374
Fatty acid synthesis in brown adipose tissue of cold-acclimated mice and golden hamsters ( <i>Mesocricetus auratus</i> )	P. TRAYHURN	375
Biosynthesis of phosphatidylinositol in the cellular slime mould <i>Dictyostelium discoideum</i> by a CTP-independent pathway	A. MACHON, M. J. NORTH & P. J. BROPHY	375
The mechanism and function of phosphatidylinositol turnover	R. F. IRVINE & R. M. C. DAWSON	376
Effect of sulphated polysaccharides on prostacyclin (prostaglandin I <sub>2</sub> )-induced inhibition of platelet aggregation	G. KINDNESS, F. B. WILLIAMSON & W. F. LONG	377
Effect of cofactor, enzyme and substrate concentration on inhibition of prostaglandin synthase of bull seminal vesicles by human serum, haptoglobin and albumin	P. A. DENNING-KENDALL & S. A. SAEED	379
Selective inhibition of rat lung cyclic AMP phosphodiesterase and cyclic GMP phosphodiesterase by cyclic nucleotides and their analogues and various drugs	N. M. BUTT, S. A. SAEED & H. O. J. COLLIER	380
The effect of insulin and adrenaline on the phosphorylation of a 22000-molecular-weight protein within isolated fat cells; possible identification as the inhibitor-1 of the 'general phosphatase'	G. J. BELSHAM & R. M. DENTON	382
The permissive action of glucocorticoid on the inhibition of hepatic lipogenesis by glucagon in the rat	A. D. POSTLE & D. P. BLOXHAM	383
Induction of glucokinase <i>in vitro</i> in hepatocytes from neonatal rats	M. J. O. WAKELAM & D. G. WALKER	384

## CONTENTS

v

The interaction of phenylalanine and adenosine triphosphate with M <sub>1</sub> -type pyruvate kinase	B. ODEDRA & T. N. PALMER	385
Activation of bovine luteal adenylate cyclase by human choriogonadotropin <i>in vitro</i> : persistence of the activated state following preactivation and washing	N. B. LYDON, J. L. YOUNG & D. A. STANSFIELD	386
Identification of a calmodulin-binding subunit on phosphorylase kinase	C. PICTON, C. B. KLEE & P. COHEN	387
Rapid removal of one of the phosphorylation sites on acetyl-CoA carboxylase by limited proteolysis	P. S. GUY & D. G. HARDIE	387
A protein of 70 000 molecular weight is joined by disulphide bridges to pig gastric-mucus glycoprotein	J. P. PEARSON & A. ALLEN	388
Studies on the purification of glucose 6-phosphatase from rabbit liver microsomal fraction	G. F. BICKERSTAFF & B. BURCHELL	389
The purification of isocitrate dehydrogenase from <i>Escherichia coli</i> using immobilized dyes	H. G. NIMMO & W. H. HOLMS	390
Effects of storage on anti-elastolytic properties of normal human serum	S. SMITH, P. SADEGHI, H. BAUM & D. C. S. HUTCHINSON	392
Purification and properties of methylenetetrahydrofolate reductase from ox brain	R. W. MASON, A. G. M. PEARSON & A. J. TURNER	392
The denaturation of haemoglobin in dilute solution	A. G. LOWE	393
<b>586th MEETING, BRISTOL</b>		
<b>Colloquium: Restriction Endonucleases</b>		
Genetics of restriction/modification systems	S. W. GLOVER	395
Adenosine triphosphate-requiring restriction enzymes	T. A. BICKLE	396
Restriction endonucleases and their recognition sequences	T. R. GINGERAS	397
Sequence determination of restriction-endonuclease recognition sites	N. L. BROWN	398
The specificity of the <i>EcoRI</i> restriction endonuclease	S. E. HALFORD	399
Applications of restriction endonucleases ( <i>by title only</i> )	K. MURRAY	400
<b>BOOK REVIEWS</b>		<b>401</b>
