

BIOCHEMICAL SOCIETY TRANSACTIONS

London: The Biochemical Society © 1980

Managing Editor D. C. WATTS

Book Reviews Editor R. EVANS

Contents Volume 8, Part 5, October 1980

590th MEETING, SHEFFIELD

Colloquium: Brain-Specific Proteins

Synaptic-membrane proteins	E. BOCK	483
Neurofilament structure and enzymic modification	P. A. M. EAGLES, D. S. GILBERT & A. MAGGS	484
Calmodulin and calmodulin-binding proteins in brain	R. J. A. GRAND & S. V. PERRY	487
Brain-specific protein 14-3-2, an isoenzyme of enolase	C. B. TAYLOR	489
Myelin basic protein	M. G. RUMSBY & A. G. WALKER	491
Brain-specific proteins in demyelination	M. L. CUZNER	493
Clinical applications of measurements of human brain-specific proteins	R. J. THOMPSON	494

Colloquium: Interorgan Relationships in Amino Acid Metabolism and Gluconeogenesis

Regulation of protein degradation in skeletal muscle	A. L. GOLDBERG, M. TISCHLER & P. LIBBY	497
Muscle protein degradation and amino acid metabolism in human injury	D. H. WILLIAMSON	497
Protein and amino acid turnover during and after exercise	M. J. RENNIE, R. H. T. EDWARDS, C. T. M. DAVIES, S. KRYWAWYCH, D. HALLIDAY, J. C. WATERLOW & D. J. MILLWARD	499
Alanine and glutamine formation by muscle	K. SNELL & D. A. DUFF	501
Role of the glycine-cleavage system in glycine and serine metabolism in various organs	G. KIKUCHI, K. HIRAGA & T. YOSHIDA	504
The interrelationship between glutamine and alanine in the intestine	P. J. HANSON & D. S. PARSONS	506
Relationship of muscle glutamine production to renal ammonia metabolism	L. GOLDSTEIN, H. SCHRÖCK & C.-J. CHA	509

Colloquium: Preparative and Analytical Centrifugation Procedures

Comparison of different types of rotor for density-gradient techniques	D. RICKWOOD	511
Isopycnic centrifugation in ionic media	G. D. BIRNIE	513
Use of <i>s-p</i> methods in the study of heterogeneity in organelles	R. H. HINTON & M. DOBROTA	515
Separation of plasma lipoproteins in the preparative ultracentrifuge	J. SHEPHERD	516
Methods for whole-cell separation including centrifugal elutriation	S. G. ELLIOTT	518

The ultracentrifuge: A retrospective and prospective view (<i>by title only</i>)	H. K. SCHACHMAN	519
Molecular-weight determination in polydisperse non-ideal systems	J. M. CREETH	519
Ultracentrifuge studies of interactions and equilibria: Impact of interactive computer modelling	G. A. GILBERT & L. M. GILBERT	520
Novel applications of the analytical ultracentrifuge: Molecular-weight and morphological studies on phospholipid vesicles	A. WATTS	522
Communications		
Effect of fructose on ethanol metabolism by isolated hepatocytes	N. W. CORNELL & R. L. VEECH	525
The involvement of membrane-protein phosphorylation in the transport of calcium ions by Golgi vesicles from lactating rat mammary tissue	D. W. WEST & R. A. CLEGG	525
Cyclic AMP- and Ca ²⁺ -independent glycogen synthase kinase from dog liver	F. DOPERE, J. GORIS, J. R. VANDENHEEDE & W. MERLEVEDE	526
A factor from mononuclear cells stimulates prostaglandin E production by human gingival cells	S. M. D'SOUZA, D. J. ENGLIS, T. CLARK & R. G. G. RUSSELL	527
Evidence for a high-molecular-weight form of pig intestinal calcium-binding protein	H. MELLERSH & S. TOMLINSON	528
Radiometric measurement of pyrophosphate in cell cultures	M. B. MCGUIRE, C. H. COLMAN, N. BAGHAT & R. G. G. RUSSELL	529
The effects of strontium and calcium ions on 5-hydroxytryptamine secretion and thromboxane E ₂ biosynthesis in washed human platelets	E. A. BONE, L. C. BEST, P. B. B. JONES, T. K. HOLLAND & R. G. G. RUSSELL	530
Studies on the role of cyclic GMP in the control of human platelet function	L. C. BEST, E. A. BONE, T. K. HOLLAND, P. B. B. JONES & N. H. HUNT	531
Effects of D- and L-octopamine and of pharmacological agents on the metabolism of locust flight muscle	M. W. GOOSEY & D. J. CANDY	532
Lipid metabolism in developing wheat (<i>Triticum aestivum</i>) seeds	D. N. STOKES, T. GALLIARD & J. L. HARWOOD	533
Metabolism of lipids during chloroplast differentiation in barley (<i>Hordeum vulgare</i>)	A. O. DAVIES, R. JEFFCOAT, A. T. JAMES & J. L. HARWOOD	534
Inhibition of fatty acid biosynthesis by metronidazole	J. L. HARWOOD, F. ROBERTO, D. J. MURPHY, T. M. MCKEON & P. K. STUMPF	535
Species-specific characteristics of released erythrocyte 'ghosts' <i>in vitro</i>	U. SPRANDEL, A. R. HUBBARD & R. A. CHALMERS	536
Insulin activates a rat liver peripheral plasma-membrane cyclic AMP phosphodiesterase by a phosphorylation mechanism	R. J. MARCHMONT & M. D. HOUSLAY	537
Metabolic response to starvation in the hypothyroid pregnant rat	E. HERRERA, B. BONET & R. IGLESIAS	538
Incubation of labelled triacylglycerol-rich lipoproteins with rat adipose tissue in the presence of heparin	M. A. LASUNCION & E. HERRERA	539
Methionine metabolism via the transamination pathway in rat liver	G. LIVESEY & P. LUND	540
Inhibition of rat liver glucose 6-phosphatase by <i>p</i> -chloromercuribenzenesulphonate	B. VAKILI & M. BANNER	541
Neutral proteinases in germinating conidia and hyphae of <i>Aspergillus nidulans</i>	L. STEVENS & E. STEVENS	542
Localization of 3-hydroxy-3-methylglutaryl-CoA lyase and 3-oxo acid CoA-transferase in liver of three species of ruminants	V. A. ZAMMIT	543
The development of hepatic fatty acid oxidation at birth in the rat	F. C. HIGHAM, P. C. CHALK, A. M. CASWELL & E. BAILEY	544
The regulation of cholesterol metabolism in Ehrlich ascites tumour cells by dietary cholesterol, cholestyramine and probucol	A. ESMAIL & R. FEARS	545
Studies on the interrelationships between lipid metabolism in Ehrlich ascites tumour cells and their host, using ³ H ₂ O	R. FEARS & A. ESMAIL	546
Interactions between gluconeogenesis and non-esterified fatty acid oxidation in hepatocytes from 1-day-old rats	S. CALLIKAN, P. FERRÉ, L. EL MANOUBI & J. GIRARD	547
Lipids of marine teleost fish (Teleostei)	M. C. BARBERO, A. PRADO, E. RIAL, R. SAEZ & J. M. VALPUESTA	547
Translation <i>in vitro</i> of rabbit reticulocyte carbonic anhydrase	A. SHIELS, N. CARTER, M. CLEMENS & S. JEFFERY	548

The effect of liposomally entrapped chelating agents on iron-overloaded rats	A.-M. L. SEYMOUR & B. E. RYMAN	550
The release of acetylcholinesterase from human erythrocytes by sodium taurocholate	C. P. DROUSIOTOU & D. C. WATTS	551
The occurrence of the <i>N</i> ^ε -methylhistidine-containing dipeptide, balenine, in muscle extracts of various mammals	C. I. HARRIS & G. MILNE	552
Assay of erythrocyte-'ghost' proteins in the presence and absence of detergent	J. I. G. GURTUBAY, J. ROMAY, F. M. GOÑI & J. M. MACARULLA	553
The binding of ¹²⁵ I-labelled concanavalin A to the cell surface of rabbit peritoneal polymorphonuclear leucocytes	A. G. CASTLE & C. LEGOOD	553
Effect of sodium dodecyl sulphate on sonicated and non-sonicated phosphatidylcholine vesicles	F. M. GOÑI, A. VILLENA & A. ALONSO	555
The role of liganded haemoglobins in preventing polymerization of deoxyhaemoglobin S	I. M. FRANKLIN, E. R. HUEHNS & M. A. ROSEMEYER	556
Calmodulin and posterior-pituitary-gland neurosecretion	R. M. SHEAVES, D. BOWMAN & D. B. HOPE	557
A semi-quantitative phosphorimetric procedure for the study of enzyme activities	S. CREME & D. H. LEABACK	558
The fate <i>in vivo</i> of liposomally entrapped drugs in pregnant rats	N. S. TUZEL, H. M. PATEL & B. E. RYMAN	559
An investigation of the error structure in the initial-rate data of common-shore-crab (<i>Carcinus maenas</i>) phosphofructokinase	D. I. LITTLE, P. C. POAT & I. G. GILES	560
Product-inhibition studies on phosphofructokinase isolated from the muscle of the common shore crab (<i>Carcinus maenas</i>)	D. I. LITTLE, I. G. GILES & P. C. POAT	561
Studies on the inhibition of hepatic lipogenesis by carboxylic acids	R. A. HARRIS & S. A. MCCUNE	562
Peroxidation in hepatomous liver of rats treated with diethylnitrosamine	R. E. PINTO, M. F. DUARTE, M. L. RODA-SANTOS & V. H. P. ROSA	563
Alkaline proteolytic activity in mouse intestinal muscle	R. F. HARLAND & R. J. BEYNON	564
Reaction of pyridoxal 5'-phosphate with the heart, muscle and testicular isoenzymes of lactate dehydrogenase (<i>by title only</i>)	K. G. GOULD & P. C. ENGEL	565
Rat liver dihydropteridine reductase inhibition	S. E. PURDY & J. A. BLAIR	565
The effect of malignant disease on the metabolism of pteroylglutamic acid in man	A. M. SALEH, A. E. PHEASANT, J. A. BLAIR & R. N. ALLAN	566
Folate polyglutamate biosynthesis in the liver, tumour and intestine of rats bearing the Walker 256 carcinosarcoma	J. BATES, A. E. PHEASANT & M. J. CONNOR	567
Folate metabolism in the guinea pig	R. CHOOLUN, P. A. BARFORD & J. A. BLAIR	568
The uptake and release of lysosomal enzymes by isolated perfused rat liver	H. MICHELAKAKIS & C. J. DANPURE	569
Evidence for several separate functional pools of NAD(H) within the cytoplasmic compartment of the hepatocyte	M. N. BERRY, D. C. FANNING, A. R. GRIVELL, S. J. LEWIS, C. J. FARRINGTON & P. G. WALLACE	570
The effect of chloroquine on the intralysosomal accumulation of cystine in cystinotic and normal fibroblasts	C. J. DANPURE & D. A. FYFE	571
The significance of hepatic peroxisomal fatty acid oxidation	M. N. BERRY, D. C. FANNING, A. R. GRIVELL, J. E. THOMPSON & P. G. WALLACE	572
Stimulation of growth and cytochrome P-450 production by high glucose concentration in strains of <i>Saccharomyces cerevisiae</i> : Direct relationship of adenosine 3':5'-cyclic monophosphate and cytochrome <i>a</i> + <i>a</i> ₃ concentrations	I. QURESHI, T.-K. LIM & A. WISEMAN	573
Effect of hypoglycin in alanine release by skeletal muscles <i>in vitro</i>	D. A. DUFF, S. C. PRICE & K. SNELL	574
Peripheral substrate exchange in malignant hyperthermia in the pig	G. M. HALL, J. N. LUCKE, R. LOVELL & D. LISTER	575
Increased activity of phosphate-dependent glutaminase in liver mitochondria isolated from glucagon-treated rats	J. H. LACEY, N. M. BRADFORD & J. D. MCGIVAN	576
Alanine transport in relation to alanine metabolism in isolated hepatocytes from fed rats	J. C. RAMSELL & J. D. MCGIVAN	577
Dependence of mouse erythrocyte 'ghost' survival <i>in vivo</i> on cellular ATP concentration	A. R. HUBBARD, U. SPRANDEL & R. A. CHALMERS	578
Energetics of tumour cells: Enzymic basis of aerobic glycolysis	P. A. LAZO & A. SOLS	579
Glucose-stimulated cyclic AMP accumulation in metabolizing homogenates of the rat islets of langerhans	I. L. CAMPBELL & K. W. TAYLOR	579
The critical analysis of a method for estimating the mean overall intracellular pH value in yeast illustrating the effect of errors in assumed cellular parameters	J. P. RYAN	580

The effects of incubation conditions on enzyme release from anoxic rat heart cell cultures	D. ALLSOPP, P. J. BAILEY & T. J. C. HIGGINS	582
Calcium- and anoxia-induced damage of cardiac myocytes in culture	T. J. C. HIGGINS, D. ALLSOPP & P. J. BAILEY	583
Unusual kinetic behaviour of plasmin (fibrinolysin) digestion of fibrin and <i>N</i> -benzyloxycarbonyltyrosine nitrophenyl ester	F. S. STEVEN, S. QAZZAZ, M. M. GRIFFIN & B. S. BROWN	583
The functional development of the pathway for steroid hormone production in the adrenal of the foetal sheep	M. M. ROEBUCK & C. T. JONES	584
Age-dependent changes in the processing of corticotropin-containing peptides in pituitary cells of the foetal sheep	C. T. JONES	585
Activation of glucagon of glucose 6-phosphatase activity in the liver of the foetal guinea pig	G. BAND & C. T. JONES	586
Seasonal variation in plasma cortisol concentration during pregnancy and the puerperium	J. M. BAKER, S. L. HANDLEY, G. WALDRON & T. L. DUNN	587
Further evidence for a gene-dosage effect in lean heterozygous (<i>ob/+</i>) mice	P. R. FLATT & C. J. BAILEY	588
The effect of pregnancy, ovariectomy and the administration of ethinyloestradiol and oestradiol on the intestinal transfer of folic acid in the rat	S. K. SWANSTON-FLATT & P. R. FLATT	589
Response of brown adipose tissue to an oral glucose load in virgin and lactating rats	L. AGIUS & D. H. WILLIAMSON	590
A second site of vasopressin action on [$1\text{-}^{14}\text{C}$]oleate metabolism in isolated rat hepatocytes: Increased formation of $^{14}\text{CO}_2$	M. C. SUGDEN, A. J. BALL & D. H. WILLIAMSON	591
Interactions between rat liver cytosol and ^{125}I -labelled insulin	D. MANGNALL	592
Effect of glucose administration on rat liver glycogenolysis after birth	M. BENITO, A. MARTÍN & J. M. MEDINA	593
Analytical fractionation of subcellular organelles from human peripheral monocytes with particular reference to their neutral proteinase content	K. T. HUGHES, M. DAVIES, P. W. ANDREW & T. J. PETERS	594
The isolation of three thiol proteinases from human kidney that attack glomerular basement membrane	G. J. THOMAS, K. T. HUGHES & M. DAVIES	596
Use of <i>s-p</i> techniques in the study of heterogeneity in organelles (<i>by title only</i>)	R. H. HINTON & M. DOBROTA	597
Heterogeneity of rat kidney-cortex lysosomes fractionated by gradient centrifugation in zonal rotors	K.-J. ANDERSEN, H. J. HAGA & M. DOBROTA	597
Analytical ultracentrifugation of lipoproteins: A method for determining the concentration of lipoproteins and their size distribution	A. G. BOSANQUET, R. BICKERSTAFFE & R. FRASER	598
Subcellular localization of rat liver adenosine diphosphatase	G. P. SMITH, G. D. SMITH & T. J. PETERS	599
Phospholipase C (<i>Bacillus cereus</i>) digestion of phospholipids in myelin isolated from central nervous tissue: Removal of myelin basic protein increases exposure of lipids to the enzyme	K. GWARSHA, M. G. RUMSBY & C. LITTLE	600
Cell-free synthesis of the myelin basic protein: A new approach to define the location of this protein in the myelin sheath	S. A. JENNER, E. A. HIRST, S. J. S. HARDY & M. G. RUMSBY	601
Effects of anaesthetics on the fusion of lipid vesicles	A. C. SIMMONDS & M. J. HALSEY	602
Covalent-probe-labelling studies in isolated central-nervous-system myelin preparations with reference to the myelin basic protein	A. G. WALKER & M. G. RUMSBY	603
Incorporation of radioactivity from [$\text{U-}^{14}\text{C}$]glucose into cerebrosides of neurons, astrocytes, oligodendrocytes and myelin of rat brain	S.-W. CHAO	604
Dopaminergic inhibition of thyrotropin secretion	S. M. FOORD, M. F. SCANLON, B. R. SMITH & R. HALL	605
The activity of glucose 6-phosphate dehydrogenase in liver and hypothalamus of the female rat: Effects of administration of ethinyloestradiol and the progestogens norethisterone acetate and d-norgestrel	J. C. K. LAI, T. K. C. LEUNG, W. MARR & L. LIM	606
The activities of the A and B forms of monoamine oxidase in liver, hypothalamus and cerebral cortex of the female rat: Effects of administration of ethinyloestradiol and the progestogens norethisterone acetate and d-norgestrel	T. K. C. LEUNG, J. C. K. LAI, W. MARR & L. LIM	607
Identification of brain antigens with the use of cellulose nitrate sheets	J. NEWCOMBE, P. GLYNN & M. L. CUZNER	608

Immunoglobulin G in multiple-sclerosis nervous system: Isolation and determination of its antigenic specificity	P. GLYNN, J. NEWCOMBE & M. L. CUZNER	609
The passage of neutral amino acids across the blood-brain barrier of individual brain structures in normal and encephalopathic rats	R. A. HAWKINS, A. M. MANS & J. F. BIEBUYCK	609
2':3'-Cyclic nucleotide 3'-phosphohydrolase activity in human infant corpus callosum	P. C. FOSTER & E. M. CAREY	610
The methylation <i>in vitro</i> of myelin basic protein by arginine methylase from mouse spinal cord	A. J. CRANG & W. JACOBSON	611
The determination of plasmalogenase activity in isolated oligodendroglia from bovine brain white matter	N. M. FREEMAN & E. M. CAREY	612
Enzyme-linked immunoabsorbent assays for myelin basic protein and antibodies to myelin basic protein (<i>by title only</i>)	N. P. GROOME	613
The effects of adenosine 3':5'-cyclic monophosphate and selected phosphodiesterase inhibitors on incorporation of L-[U- ¹⁴ C]lysine into protein in rat brain and liver slices	S. A. STANDARD, P. W. BEESLEY & A. MACKENZIE	613
The identity and structure of neurofilament polypeptides	R. THORPE, B. H. ANDERTON, J. COHEN & P. WOODHAMS	614
Preparation of fractions enriched in neurofilament proteins from mammalian brain	J. N. WOOD, B. H. ANDERTON & R. THORPE	615
High-resolution two-dimensional analysis of human brain soluble proteins	P. JACKSON & R. J. THOMPSON	616
Purification and properties of a brain-specific protein, human 14-3-3 protein	P. BOSTON & P. JACKSON	617
An organic-solvent-soluble glycoprotein in myelin	C. J. BRANFORD WHITE & M. E. HOUNSLOW	618
Fucose incorporation into synaptic mitochondrial and plasma-membrane glycoproteins	C. J. BRANFORD WHITE & D. J. MULLINS	619
Effect of undernutrition on brain-specific proteins during development	A. HUNT, E. MEIER & A. J. PATEL	620
A two-site immunoradiometric assay for the BB isoenzyme of human creatine kinase	V. J. C. WILLSON, H. M. JONES, P. M. MORGAN & R. J. THOMPSON	621
A procedure for extraction and separation of phenethylamine, tyramine and octopamine	G. B. BAKER, R. T. COUTTS & D. F. LEGATT	622
The effect of visual deprivation on β -adrenergic receptors in the visual centres of the rat brain	R. D. BURGOYNE, R. SCHLIEBS & V. BIGL	623
The anaerobic dissimilation of benzoate by <i>Pseudomonas aeruginosa</i> coupled with <i>Desulfovibrio vulgaris</i> , with sulphate as terminal electron acceptor	M. T. BALBA & W. C. EVANS	624
Methanogenic fermentation of the naturally occurring aromatic amino acids by a microbial consortium	M. T. BALBA & W. C. EVANS	625
A decrease in intercellular space accompanies auxin-induced abortion in somatic carrot embryos	G. S. WARREN	627
Some properties of nitrite reductase isolated from non-photosynthetic cells of <i>Acer pseudoplatanus</i> L. (sycamore)	D. GREY & M. W. FOWLER	628
Growth characteristics of carbohydrate-limited cultures of sycamore (<i>Acer pseudoplatanus</i> L.) cells	R. WATSON & M. W. FOWLER	629
Sucrose utilization by cell suspension cultures of <i>Catheranthus roseus</i> G. Don.	P. MORRIS & M. W. FOWLER	630
The regulation of carbohydrate metabolism in animal cells: Isolation of a glycolytic variant	M. J. MORGAN, P. FAIK & S. W. WALKER	631
The regulation of carbohydrate metabolism in animal cells: Isolation of variants able to utilize lactate	P. FAIK & M. J. MORGAN	632
The regulation of carbohydrate metabolism in animal cells: Growth on starch and maltose	J. SCANNELL & M. J. MORGAN	633
Cation-dependence of the restriction endodeoxyribonuclease <i>EcoRI</i>	N. BHAVE, J. L. WOODHEAD & A. D. B. MALCOLM	634
¹³ C n.m.r. study of unfolding and motion in small proteins	O. W. HOWARTH	634
A preliminary study of immobilized NAD pyrophosphorylase	H.-H. TING & W. J. D. WHISH	635
³¹ P nuclear-magnetic-resonance studies at 24 and 162 MHz of blood containing an anti-arthritis gold phosphine: Relaxation via chemical shift anisotropy	N. A. MALIK, G. OTIKO & P. J. SADLER	635
Demonstration and characterization of two co-existing conformations of an enzyme complex by n.m.r.	B. BIRDSALL, A. GRONENBORN, E. I. HYDE, G. C. K. ROBERTS, J. FEENEY & A. S. V. BURGEM	637

The use of high-resolution nuclear magnetic resonance to study the existence of folding domains in multi-domain proteins: Histones and non-histone chromosomal proteins (<i>by title only</i>)	C. TURNER, P. D. CARY, J. W. E. RATTLE, P. G. HARTMAN & C. CRANE-ROBINSON	637
Nuclear-magnetic-resonance study of the interaction of cytochrome <i>c</i> with cytochrome <i>c</i> peroxidase	A. P. BOSWELL, G. J. MCCLUNE, G. R. MOORE, R. J. P. WILLIAMS, G. W. PETTIGREW, T. INUBISHI, T. YONETANI & D. E. HARRIS	637
Nuclear-magnetic-resonance studies of the methanol-induced denaturation of ferricytochrome <i>c</i> and ferrocytochrome <i>c</i>	A. P. BOSWELL, G. R. MOORE & R. J. P. WILLIAMS	638
Possible regulation of the methanol dehydrogenase from <i>Methylophilus methylotrophus</i> by its oxidized electron acceptor	R. GHOSH	639
Hepatic fructose metabolism studied by ³¹ P nuclear magnetic resonance in the anaesthetized rat	J. R. GRIFFITHS, A. N. STEVENS, D. G. GADIAN, R. A. ILES & R. PORTEOUS	641
Third-harmonic detection of electron-paramagnetic-resonance spectra: Resolution of the hyperfine splitting in nitrosylated nitrite reductase from vegetable marrow (<i>Cucurbita pepo</i>)	R. CAMMACK & I. V. FRY	642
Isoenzymes of human muscle carbonic anhydrase III generated by thiol interaction	S. JEFFERY & N. CARTER	643
An aldose reductase from the human erythrocyte	A. BASAK HALDER, S. WOLFF, H.-H. TING & M. J. C. CRABBE	644
Reactive groups in mammalian alkaline phosphatase: Loss of enzyme activity after reaction with phenylglyoxal and iodoacetamide	Z. ABDOLRAZAGHI & P. J. BUTTERWORTH	645
¹ H/ ² H isotope exchange studies in intact erythrocytes	K. M. BRINDLE, F. F. BROWN, I. D. CAMPBELL, D. L. FOXALL & R. J. SIMPSON	646
Studies of transport in suspensions of whole cells by using nuclear magnetic resonance (<i>by title only</i>)	S. C. BRAND, K. M. BRINDLE, F. F. BROWN, I. D. CAMPBELL, C. G. ELIOT, D. L. FOXALL, E. JAROSZKIEWICZ, R. J. SIMPSON & P. STYLES	647
Activation of the zymogen of collagenase by Ehrlich-ascites-tumour-cell-surface trypsin-like enzyme	F. S. STEVEN, M. M. GRIFFIN & S. ITZHAKI	647
Transverse asymmetry of the enzymes that catalyse methylation of phosphatidylethanolamine to yield phosphatidylcholine in rat liver microsomal fraction	J. A. HIGGINS	648
The effects of digestion by bovine pancreas α -chymotrypsin on native bovine glutamate dehydrogenase	M. J. AITCHISON & P. C. ENGEL	649
Proton-n.m.r.-spectroscopy studies on myosin subfragment-1 isoenzymes and their interaction with actin	H. R. TRAYER, H. P. PRINCE, G. D. HENRY & I. P. TRAYER	650
The export of a trypsin inhibitor from Ehrlich ascites cells that does not inhibit a trypsin-like enzyme on the surface of these cells	F. S. STEVEN, M. M. GRIFFIN, S. ITZHAKI & A. AL-HABIB	650
Computer programs for use in enzyme kinetic studies	J. KINDERLERER, S. AINSWORTH & R. B. GREGORY	652
Crystallization of cytochrome oxidase as its complex with cytochrome <i>c</i> (<i>by title only</i>)	T. OZAWA	652
Modification by anionic polysaccharides of the antithrombin III inhibition of plasmin	G. KINDNESS, F. B. WILLIAMSON & W. F. LONG	652
Solubilization and stabilization of L(+)-mandelate dehydrogenase from <i>Acinetobacter calcoaceticus</i>	M. J. O'DONNELL & C. A. FEWSON	653
The structure and heavy-metal-ion-binding sites of horse spleen apoferritin	G. A. CLEGG, R. F. D. STANSFIELD, P. E. BOURNE & P. M. HARRISON	654
Metal-ion-binding sites and the role of the iron-core in iron(II) uptake by ferritin	A. TREFFRY & P. M. HARRISON	655
The functional role of isoferritins	A. TREFFRY & P. M. HARRISON	656
Detection of heart-specific proteins in serum as markers for myocardial infarction	R. M. SHARRARD & C. B. TAYLOR	657
Purification and some properties of a 7S seed storage protein from <i>Pisum</i> (pea)	R. CASEY & E. SANGER	658
