

BIOCHEMICAL SOCIETY TRANSACTIONS

London: The Biochemical Society © 1980

Managing Editor D. C. WATTS

Book Reviews Editor R. EVANS

Contents Volume 8, Part 6, December 1980

591st MEETING, NEWCASTLE UPON TYNE

Colloquium: Active Transport in Micro-organisms

- Investigation of structure and function of lactose permease of *Escherichia coli* K. BEYREUTHER, B. BIESELER, R. EHRLING, H.-W. GRIESSER, M. MIESCHENDAHL, B. MÜLLER-HILL & I. TRIESCH 675
- Structure of the bacteriorhodopsin proton pump of *Halo- bacterium halobium* and other membrane proteins A. D. MCLACHLAN & R. H. HENDERSON 677
- The inter-relationship between proton-coupled and binding- protein-dependent transport systems in bacteria P. J. F. HENDERSON 678
- The role of the periplasmic maltose-binding protein and the outer-membrane phage λ receptor in maltodextrin transport of *Escherichia coli* T. FERENCI, J. BRASS & W. BOOS 680
- Glucose uptake by *Chlorella vulgaris*: the coupling of proton- motive potential difference to glucose transport E. KOMOR 681
- Active transport of peptides in bacteria J. W. PAYNE & T. M. NISBET 683
- #### Colloquium: Surface Membranes and Disease
- The dynamics of biomembranes and implications for membrane disease M. J. PRINGLE & D. CHAPMAN 686
- Brush-border-membrane disease R. K. CRANE 688
- Surface-membrane defects in muscular dystrophy R. J. T. PENNINGTON 690
- Directed entry of hybrid proteins into cells via alternative receptors D. M. NEVILLE, JR., G. J. MURRAY & R. J. YOULE 692
- The acetylcholine receptor protein and myasthenia gravis G. G. LUNT & R. HARRISON 693
- Surface molecules and tumour-cell metastatic properties G. POSTE 695
- A glycoprotein abnormality associated with malignancy M. E. BRAMWELL 697
- Membrane glycoprotein defects in congenital platelet disorders A. T. NURDEN, D. DUPUIS, D. PIDARD & T. J. KUNICKI 698
- Virally mediated changes in cellular permeability C. A. PASTERNAK 700
- #### Communications
- The nature of the uptake systems for nucleic acid bases in *Escherichia coli* M. G. P. PAGE & K. BURTON 703
- Substrate inhibition of lactose/proton symport in *Escherichia coli* M. G. P. PAGE 704
- The number and nature of the peptide-transport systems of *Escherichia coli*: characterization of specific transport mutants R. A. ALVES & J. W. PAYNE 704

| | | |
|--|--|-----|
| Characterization of two peptide-transport systems in <i>Streptococcus faecalis</i> | T. M. NISBET & J. W. PAYNE | 705 |
| A possible role for the active-site thiol in lactose transport in <i>Escherichia coli</i> | I. C. WEST | 706 |
| Components of the proton electrochemical potential gradient in <i>Anabaena variabilis</i> | R. H. REED, P. ROWELL & W. D. P. STEWART | 707 |
| Potassium ion transport and electrogenesis in <i>Anabaena variabilis</i> | R. H. REED, P. ROWELL & W. D. P. STEWART | 708 |
| Discrimination between rubidium and potassium ions in <i>Anabaena variabilis</i> | R. H. REED, P. ROWELL & W. D. P. STEWART | 709 |
| Cell density and L-leucine transport in simian-virus-40-transformed 3T3 cells | G. PIEDIMONTE, P. G. PETRONINI & A. F. BORGHETTI | 710 |
| Mechanism of degradation of cytochrome P-450 in non-growing <i>Saccharomyces cerevisiae</i> : anaerobiosis, chloramphenicol, dinitrophenol and cycloheximide as protective agents | A. A. BLATAIK, J. A. GONDAL & A. WISEMAN | 711 |
| Regulation of cytochrome P-450 biosynthesis in <i>Saccharomyces cerevisiae</i> : relationship to proposed location of some of adenylate cyclase in mitochondrial membrane | A. WISEMAN | 712 |
| Solubilization of cytochrome P-450 in high yield from <i>Saccharomyces cerevisiae</i> microsomal membranes by 1% Triton X-100: stabilization effect | M. R. AZARI & A. WISEMAN | 713 |
| Enhancement of substrate-induced deactivation of penicillinase by cross-linking with dimethyl suberimidate | M. FARRER & R. VIRDEN | 714 |
| Pig gastric and small-intestinal mucus glycoproteins: proposed role in polymeric structure for protein joined by disulphide bridges | M. MANTLE, J. PEARSON & A. ALLEN | 715 |
| The structure of native gastric mucus gel | A. E. BELL, A. ALLEN, E. MORRIS & D. A. REES | 716 |
| The symmetrical distribution of cholesterol across the myelin membrane bilayer determined by deuterium labelling <i>in vivo</i> and neutron diffraction | S. C. SCOTT, K. R. BRUCKDORFER & D. L. WORCESTER | 717 |
| The effect of ouabain on erythrocyte adenosine triphosphatase activity in relation to cell age <i>in vivo</i> and Duchenne muscular dystrophy | D. A. GALBRAITH & D. C. WATTS | 718 |
| The biochemistry of human endothelial cells in culture | M. K. N. PATEL & F. A. MCEVOY | 719 |
| Prostacyclin production by cultured endothelium | F. A. MCEVOY & M. K. N. PATEL | 720 |
| Ionomycin stimulates T-lymphocytes to grow | R. M. LYALL, J. H. DUBOIS & M. J. CRUMPTON | 720 |
| Extracellular Ca ²⁺ requirement for initiation of lymphocyte growth | J. H. DUBOIS & M. J. CRUMPTON | 721 |
| An assay for mouse antibodies to human monocyte-specific antigens | R. HUTCHINSON, K. TURNER, J. DEELEY & R. H. PAIN | 722 |
| Rapid stimulation of chemiluminescence in rat polymorphonuclear leucocytes caused by anti-cell antibody plus complement | M. B. HALLETT, A. C. NEWBY, J. P. LUZIO & A. K. CAMPBELL | 723 |
| Interaction of vincristine with calf brain tubulin | V. PRAKASH & S. N. TIMASHEFF | 725 |
| Purification of a heparin-neutralizing protein from guinea-pig platelets and its comparison with human platelet factor 4 | E. D. MAGUIRE & R. B. WALLIS | 726 |
| Differential effects of cyclo-oxygenase inhibitors and thromboxane synthase inhibitors on rabbit platelet aggregation: evidence for the importance of prostaglandin endoperoxides as mediators in arachidonate-induced aggregation but not in collagen-induced aggregation | R. B. WALLIS & D. ZELASCHI | 726 |
| A metabolite of sulphinpyrazone that is largely responsible for the effect on the drug of the platelet prostaglandin pathway | G. F. PAY, R. B. WALLIS & D. ZELASCHI | 727 |
| The relationship between hormone-sensitive triacylglycerol lipase and cholesterol esterase from swine adipose tissue | F.-T. LEE & S. J. YEAMAN | 728 |
| Native-like dimer formed by the N-terminal cyanogen bromide fragment of yeast phosphoglycerate kinase | B. ADAMS & R. H. PAIN | 730 |
| Uracil-DNA glycosylase in developing embryos of the brine shrimp (<i>Artemia salina</i>) | D. J. BIRCH & A. C. MCLENNAN | 730 |
| Deletion mapping of <i>Escherichia coli</i> RNA polymerase genes | R. A. MCKEE & R. E. GLASS | 731 |
| Properties of a collection of <i>Escherichia coli</i> RNA polymerase mutants | V. NENE & R. E. GLASS | 732 |
| Hormone effects on transfer ribonucleic acid methylases in rat liver | A. M. LEYMAN & W. DE LOECKER | 733 |

| | | |
|--|---|-----|
| Measurement of differential reactivities at restriction endonuclease sites | A. D. B. MALCOLM & J. R. MOFFATT | 734 |
| Detection of the <i>src</i> -gene product pp60 ^{src} and its associated protein kinase on the surface of Rous-sarcoma-virus-transformed cells | A. BARNEKOW, B. C. BOSCHEK, A. ZIEMIECKI & H. BAUER | 735 |
| Complexity of polyadenylated RNA in autotrophic and acetate-adapted cells of <i>Chlorella fusca</i> var. <i>vacuolata</i> | N. K. MCBRIDE & S. MALCOLM | 736 |
| Nuclear phosphoproteins from red and white skeletal muscle | A. KOFFER & C. BROWNSON | 737 |
| Gene-fusion studies of transcriptional and post-transcriptional regulation in a ribosomal/RNA polymerase operon of <i>Escherichia coli</i> | A. J. NEWMAN & R. S. HAYWARD | 738 |
| RNA polymerase-binding sites on the bacterial plasmid pMB9 | T. R. SKERN & A. D. B. MALCOLM | 738 |
| Analysis of RNA synthesized <i>in vitro</i> by macronuclei isolated from <i>Tetrahymena pyriformis</i> | A. M. COLES, B. E. P. SWOBODA & J. F. RYLEY | 739 |
| RNA polymerase structure and the salt sensitivity of the transcription (<i>by title only</i>) | H. A. F. MACE & A. A. TRAVERS | 740 |
| Transcription of the DNA of coliphage ϕ X174 <i>in vitro</i> | A. MOUNTAIN, M. SZEKELY & S. LEGON | 740 |
| Interrelationship of the antigenic and toxin-binding sites of the acetylcholine receptor of chick cultured muscle cells | M. BIRD, R. HARRISON & G. G. LUNT | 741 |
| The characterization of a solubilized α -bungarotoxin-binding component from <i>Musca domestica</i> | C. S. MARCH, K. J. CATTELL & J. F. DONNELLAN | 742 |
| Regulation of cardiac mitochondrial potassium ion movements | C. A. GEHRING & A. J. WILLIAMS | 743 |
| 590th MEETING, SHEFFIELD | | |
| Colloquium: Peptides and Proteins | | |
| New solid-phase methods in the synthesis of natural peptides | R. C. SHEPPARD | 744 |
| Chemical syntheses of biologically active cyclic peptides in the light of known biosynthetic pathways | N. IZUMIYA | 748 |
| Structure and regulation of the messenger RNA coding for the corticotropin/ β -lipotropin precursor | S. NUMA & S. NAKANISHI | 749 |
| Isolation of β -endorphin-related peptides from ox pituitary | D. E. MASSEY & D. G. SMYTH | 751 |
| Structure and function of erabutoxins and related neurotoxins from sea snakes and cobras | N. TAMIYA, C. TAKASAKI, A. SATO, A. MENEZ, F. INAGAKI & T. MIYAZAWA | 753 |
| Communication | | |
| Crystallization of cytochromes in the mitochondrial electron-transfer chain | T. OZAWA | 757 |
| RESEARCH OVERVIEW | | |
| Nuclear-protein changes in the cell cyclic: interphase studies with regenerating rat liver | M. G. ORD & L. A. STOCKEN | 759 |
