Managing Editor D. C. WATTS

Book Reviews Editor R. EVANS

Contents Volume 9, Part 1, February 1981

590th MEETING, SHEFFIELD

Colloquium: Regulation in Cell Metabolism

Tribute to Sir Hans Krebs

Adenylate cyclase activity and glucose transport in <i>Escherichia coli</i>	H. L. KORNBERG & P. D. WATTS	1
Purine metabolism	R. W. E. WATTS	2
Structure, function and an inherited defect of 2-oxo acid dehydrogenase multienzyme complexes	M. KOIKE, K. KOIKE & T. HIRAOKA	3
Ketogenesis: regulatory factors <i>in vivo</i>	K. G. M. M. ALBERTI, D. G. JOHNSTON, J. BURRIN, G. BLESÁ-MALPICA, A. MCCULLOCH, R. NOSADINI & M. WALKER	6
Dual roles of long-chain acyl-coenzyme A in the regulation of acetyl-coenzyme A carboxylase	S. NUMA	8

THE FIFTEENTH CIBA MEDAL LECTURE

Molecular mechanisms in the control of gene expression during development	J. B. GURDON	13
---	--------------	----

592nd MEETING, LONDON

Colloquium: Sugar Phosphorylation

Structure, function and evolution of the mammalian hexokinases	I. P. TRAYER	23
Effects of metabolites on the activity of mammalian hexokinases	J. S. EASTERBY & S. S. QADRI	25
The distribution and synthesis of hepatic glucokinase	D. G. WALKER	28
Colloquium: Peptide and Protein Hormone Receptors		
The conformation and receptor binding of pancreatic hormones	T. L. BLUNDELL, J. E. PITTS, I. J. TICKLE & S. P. WOOD	31
Receptors for somatotropin (growth hormone) and prolactin	M. WALLIS & H. F. CADMAN	33
ACTH (corticotropin) -receptor mediated events in the adrenocortical cell membrane	A. F. BRISTOW, D. M. SALMON & D. SCHULSTER	35
Studies on melanotropin (MSH) receptors of melanophores and melanoma cells	A. N. EBERLE	37
Regulation of adenylate cyclase activity by hormone-induced displacement of guanine nucleotides	D. CASSEL	39
Lutropin receptors in normal and tumour Leydig cells	B. A. COOKE, C. J. DIX & R. MAGEE-BROWN	40

Mechanistic description of the receptor-adenylate cyclase coupling	S. SWILLENS	42
Transient receptor coupling in the activation of rat liver plasma-membrane adenylate cyclase by glucagon	B. R. MARTIN	44
Communications		
The influence of dietary fats on lipid synthesis by human mononuclear cells	D. R. ILLINGWORTH & E. E. SUNDBERG	49
Low-density lipoproteins and adrenal cortisol production: studies in abetalipoproteinaemia and hypobetalipoprotein-aemia	D. R. ILLINGWORTH & E. S. ORWOLL	50
The effects in rats of low serum concentrations of high-density lipoprotein and of serum concentrations of the activator for lipoprotein lipase on 'Intralipid' and very-low-density lipoprotein triacylglycerol clearance from the blood	J. M. ODONKOR & M. P. ROGERS	51
The effect of high-density lipoprotein on the lipolysis of triacylglycerol <i>in vitro</i>	I. HUTCHINSON & M. P. ROGERS	52
Development of ketogenesis in the newborn rabbit: temporal studies in isolated hepatocytes	L. EL MANOUBI, P. FERRÉ & J. GIRARD	53
Octanoate and palmitate as substrates for ketogenesis by hepatocytes isolated from suckling rabbits	M. J. CARRINGTON, D. A. L. SHEPHERD & R. DILS	54
Distribution of activity of 3-oxo acid CoA-transferase and 3-hydroxybutyrate dehydrogenase in the gastrointestinal tract of fed and starved rats	J. M. CARRINGTON & P. J. HANSON	55
The absence of cholesteryl ester from fractions of high-density lipoproteins in samples of human hepatic-venous plasma	P. JOHNSON, D. ANDERSON, R. A. MUIRHEAD & T. DEEGAN	56
Effects of spermine and albumin on hepatic mitochondrial and microsomal glycerol phosphate acyltransferase activities	E. J. BATES & E. D. SAGGERSON	57
Electrophoretically homogeneous cytochrome P-450: influence of a series of unsaturated fatty acids on the reconstituted hydroxylase activity	G. G. GIBSON, M. TAVOUSSI & P. P. TAMBURINI	58
Some aspects of lipid transport in the rainbow trout	A. ROGIE & E. R. SKINNER	59
The differential inhibition by cerulenin of fatty acid synthesis and elongation in the psychrophilic bacterium <i>Micrococcus cryophilus</i>	S. P. SANDERCOCK & N. J. RUSSELL	60
Studies of the oxidation of aqueous dispersions of egg phosphatidylcholine	J. C. EDWARDS & P. J. QUINN	61
Evolutionary relationships among the hexokinase by thin-layer peptide 'mapping'	M. K. DARBY & I. P. TRAYER	62
Isotope-exchange evidence for allosteric regulation of hexokinase II by glucose 6-phosphate and for an obligatory addition of substrates	M. GREGORIOU, A. CORNISH-BOWDEN & I. P. TRAYER	62
Mechanism of action of rabbit liver phosphoglucomutase	H. JAMIL & J. B. CLARKE	63
Hexose monophosphate shunt and labelling of amino acids in rat brain after injection of [U- ¹⁴ C]glucose	M. K. GAITONDE, L. P. LEWIS, G. EVANS & A. CLAPP	64
Glucose metabolism in the perfused heart of the foetal guinea pig	T. P. ROLPH & C. T. JONES	65
Monosaccharide transport into secretory cells of lactating-rat mammary gland	L. C. THREADGOLD, H. G. COORE & N. J. KUHN	66
The incorporation of [2- ³ H]mannose into lipid-linked oligosaccharides and proteins of developing rabbit mammary gland	J. P. BRADSHAW & D. A. WHITE	66
Effect of dithiothreitol on the modulation of antithrombin III activity by sulphated polysaccharides	W. F. LONG & F. B. WILLIAMSON	68
Protein concentrations in milk from mothers of preterm and term infants	O. BROOKE, N. CARTER, C. HIBBERD, C. WOOD & I. BROWN	69
Comparative studies on thromboplastin in various tissues and of factors that modify its procoagulant activity	R. M. HOWELL & F. JORDAN	70
Eosinophil membrane changes during interaction with antibody-coated non-phagocytosable surfaces	K. J. I. THORNE, R. C. OLIVER & A. M. GLAUERT	71
The initial stage in the dehydrogenation of dihydrodiols	R. P. HOPKINS, C. TOTHILL & P. CALLAGHAN	72
Carbonic anhydrase III and the zinc content of mammalian muscle (<i>by title only</i>)	J. BATTEN, N. CARTER, Y. EDWARDS, M. JACKSON, S. JEFFERY & S. MOYLE	72

Isoenzymes of carbonic anhydrase III in rat tissues	N. CARTER, J. BATTEN, M. JACKSON, S. JEFFERY & S. MOYLE	73
Histochemical identification of fibre types in the hamstring muscles of phosphorylase kinase-deficient ICR/1An and normal C3H mice	R. SINGH & J. R. GRIFFITHS	73
Control of abnormal guanine nucleotide concentrations in dystrophic mouse muscle	R. J. SHUTTLEWOOD & J. R. GRIFFITHS	74
Preparation of rat × human muscle-cell hybrids for the study of surface antigens in normal and diseased human muscle	C. A. QUINN & F. S. WALSH	75
Collagen synthesis and secretion by developing human foetal muscle cells in culture	K. K. KUNDU, E. J. THOMPSON & R. YASIN	76
The influence of calmodulin on calcium accumulation and membrane protein autophosphorylation by Golgi vesicles from lactating rat mammary gland	D. W. WEST & R. A. CLEGG	77
The effect of ionophore A23187 on protein degradation in cultured fibroblasts	H. E. STATHAM & J. A. WITKOWSKI	78
Disulphide-bond formation in protein folding catalysed by highly-purified protein disulphide-isomerase	R. B. FREEDMAN, D. A. HILLSON & T. E. CREIGHTON	79
Optical measurement of the plasma-membrane potential of mammalian cells grown in monolayer culture	C. L. BASHFORD, K. A. FOSTER, K. J. MICKLEM & C. A. PASTERNAK	80
Erythrocyte membrane (Ca ²⁺ + Mg ²⁺)-activated adenosine triphosphatase in Duchenne muscular dystrophy	M. J. DUNN, A. H. M. BURGHEES & V. DUBOWITZ	81
The effect of temperature on Na ⁺ -stimulated and basal Ca ²⁺ efflux from cardiac and skeletal-muscle mitochondria	J. J. A. HEFFRON & E. J. HARRIS	82
Transport and metabolism of choline in synaptosomes: energy requirement	T. Y. WONG, J.-C. LOUIS, G. VINCENDON & R. MASSARELLI	83
Transport and metabolism of choline in synaptosomes: ionic requirement	T. Y. WONG, H. DREYFUS & R. MASSARELLI	84
Rotational-diffusion and cross-linking studies of cytochrome P-450 in rabbit liver microsomal membranes	S. KAWATO, R. J. CHERRY & P. R. McINTOSH	85
Spectral evidence for an intermediate species formed during the reduction of ubiquinone-10 by borohydride	S. K. KALSJ & J. M. WRIGGLESWORTH	86
The degradation of insulin by human granulocytes and mononuclear leucocytes	D. I. DRON & J. H. THOMAS	87
The effects of colchicine on insulin binding to isolated rat hepatocytes	J. WHITTAKER, V. A. HAMMOND & K. G. M. M. ALBERTI	88
Changes in the zeta potential of chick erythrocytes after the addition of insulin	E. N. COKER, M. C. PERRY & D. T. PLUMMER	89
Binding of ¹²⁵ I-labelled vasopressin to isolated rat hepatocytes	R. G. KNOWLES	90
The effect of penicillin and metronidazole on prostaglandin biosynthesis and metabolism in rat large intestine	B. A. CRAIG & R. G. McDONALD-GIBSON	91
Inhibitors and stimulants of prostaglandin cyclo-oxygenase in stomach extracts	S. A. SAEED, M. DREW, P. A. DENNING-KENDALL, W. J. McDONALD-GIBSON & H. O. J. COLLIER	92
Comparison of the inhibition by human serum, haptoglobin and albumin of biosynthesis of various prostaglandins	P. A. DENNING-KENDALL, S. A. SAEED & H. O. J. COLLIER	93
<i>In vitro</i> and <i>in vivo</i> effects of a luteolytic prostaglandin (Estrumate, I.C.I. 80996) on rat ovarian adenylate cyclase activity	A. E. WAKELING & L. R. GREEN	94
The effects of ionizing radiation and oestrogen treatment on the steroid-receptor concentrations in experimental mammary carcinoma	J. PH. JANSSENS, C. WITTEVRONGEL, J. VAN DAM, P. GODDEERIS, J. M. LAUWERIJNS & W. DE LOECKER	95
Cyclic AMP is not obligatory for adrenal steroidogenesis	D. M. SALMON, S. FATIH & D. SCHULSTER	96
Sex-hormone-binding globulin and oestrogen receptors	R. C. MASON, W. R. MILLER, R. A. HAWKINS & A. P. M. FORREST	97
Effect of diethylstilboestrol on phosphatidylcholine biosynthesis in the liver of roosters	C. VIGO & D. E. VANCE	98
The influence of adrenaline on the metabolism of erythrocytes <i>in vitro</i>	H. MAIRBÄURL & E. HUMPELER	99
Effect of acute treatment with aluminium chloride on brain microsomal protein synthesis of immature rats	S. MAGOUR & H. MÄSER	100
Catecholamine synthesis in the adrenal medulla of cattle and rats deficient in copper	J. E. HESKETH	101
Ganglioside sialylation during maturation of cultured neurons	H. DREYFUS, S. HARTH, A. GOMEZ DE GRACIA, B. HOFACK, P. MANDEL & J.-C. LOUIS	102

Development of dopaminergic properties in cultured neurons from chick embryo cerebral hemispheres	J.-C. LOUIS, G. VINCENDON, R. MASSARELLI & H. DREYFUS	104
Sulphate and fucose incorporation into synaptic membrane glycoproteins	C. J. BRANFORD WHITE	105
Purification of rat brain cysteine sulphate decarboxylase (EC 4.1.1.29)	P. F. URBAN & P. REICHERT	106
Kainic acid, a powerful inhibitor of the b-wave of the electroretinogram in isolated frog retina	P. F. URBAN & M. FRAULI	107
Biochemical studies in olfaction	K. C. PERSAUD, P. H. WOOD, D. J. SQUIRRELL & G. H. DODD	107
Chemical modification of the olfactory epithelium	S. G. SHIRLEY, E. POLAK & G. H. DODD	108
The effect of ouabain on the release of 5-hydroxytryptamine from superfused synaptosomes	K. J. COLLARD & S. R. WILLIAMS	109
Differences in routes of conjugation with glucuronic acid and sulphate in normal and cancerous tissue from human lung	R. MEHTA, E. M. GIBBY & G. M. COHEN	110
Glucuronic acid sulphate ester conjugation in human lung cancer cell lines	E. M. GIBBY, R. MEHTA, M. ELLISON & G. M. COHEN	111
A method for the determination of ranitidine and its metabolites in urine by h.p.l.c. and its application to study the metabolism and pharmacokinetics of ranitidine in man	P. F. CAREY, L. E. MARTIN & P. OWEN	112
Interaction of H ₂ -receptor antagonists with drug-metabolizing enzymes	J. A. BELL, A. J. GOWER, L. E. MARTIN, E. N. C. MILLS & W. P. SMITH	113
Developmental changes in rat sciatic nerve myelin	C. LININGTON, V. NEUHOFF & T. V. WAHNELDT	114
The cellular distribution of certain enzymes associated with the metabolic compartmentation of glutamate	R. D. GORDON, A. HUNT & A. J. PATEL	115
Characteristics of monoclonal-antibody-antigen interactions and their application to quantitative techniques	R. JEFFERIS, I. DEVERILL & J. STEENSGAARD	116
A direct spectrophotometric assay for branched-chain 2-oxo acid dehydrogenase activity in intact rat liver mitochondria	K. BARTLETT & H. S. A. SHERRATT	117
Polyacrylamide-gel-electrophoretic analysis of cultured skin fibroblasts from patients with Duchenne muscular dystrophy	A. H. M. BURGHEES, M. J. DUNN, J. A. WITKOWSKI & V. DUBOWITZ	118
Application of aminoethylcellulose-chromatographic separation of monomeric and polymeric ADP-ribose	M. R. PURNELL, P. R. STONE, C. S. SUROWY & W. J. D. WHISH	119
Method for the separation and quantification of methylated hydroxypurines found in urine of man and its application to the study of human metabolism of methylxanthines	W. E. KLINGE	120
An improved micro-analytical (Micro-ERMA) apparatus and procedures for the conduct of rapid, multiple and very economical fluorogenic enzyme assays	D. H. LEABACK & S. CREME	121
Localization of a basal calcium-dependent phospholipase A ₂ activity in intracellular membranes isolated from human blood platelets by high-voltage free-flow electrophoresis	M. LAGARDE, S. MENASHI & N. CRAWFORD	122
Isolation of the plasma membrane from rabbit peritoneal leucocytes by reversible adhesion to nylon fibres	D. I. H. STEWART & N. CRAWFORD	124
Protein kinase activity associated with the plasma membrane of rabbit polymorphonuclear leucocytes	C. H. EMES, D. I. H. STEWART & N. CRAWFORD	125
Electrophoretic analysis of rat mammary-gland Golgi membranes	M. D. WHITE	126
Studies on the insulin-degrading activity of rat liver plasma membranes	G. S. SCOTT, J. H. THOMAS & D. I. DRON	127
Effect of insulin on the electrophoretic mobility of chick and human erythrocytes	S.-M. CHEN, J. M. WRIGGLESWORTH, M. C. PERRY & D. T. PLUMMER	128
Multiple forms of membrane-bound β -glucosidase in human leucocytes	M. CARROLL	129
The distribution of four peptide hydrolases along the small intestine of the adult human	E. E. STERCHI, J. R. GREEN & M. J. LENTZE	130
Glycylproline absorption in rats infected with <i>Eimeria nieschulzi</i>	H. M. MEADE, C. E. HEADING & S. J. BALL	131
Absorption of amino acids from the human buccal cavity	D. F. EVERED & J. V. VADGAMA	132
Aspirin inhibition of glucose absorption from the human mouth	D. F. EVERED & R. M. OFFER	133
The effect of low-molecular-weight inhibitors on the growth <i>in vitro</i> of a human pancreatic adenocarcinoma cell line	A. G. GRANT & D. A. W. GRANT	134
Anomalous thermotropic phase-transition behaviour of 1,2-distearoyl galactolipids	A. SEN, D. A. MANNOCK, W. P. WILLIAMS & P. J. QUINN	134

Concanavalin A receptors of the surface membrane of <i>Crithidia fasciculata</i>	N. FRANTZIS & C. VAKIRTZI-LEMONIAS	135
The implications of the topography of dissimilatory nitrite reductase and methanol dehydrogenase in <i>Paracoccus denitrificans</i>	P. R. ALEFOUNDER & S. J. FERGUSON	136
Affinity chromatography of membrane proteins on dihydroxy-boryl-matrix gel	G. T. WILLIAMS, A. P. JOHNSTONE, V. BOURIOTIS & P. D. G. DEAN	137
Association of glycolytic enzymes with the erythrocyte membrane	S.-M. CHEN, S. KEOKITICHAJ & J. M. WRIGGLESWORTH	139
The use of zwitterionic detergent in the solubilization and purification of the intrinsic membrane protein 5'-nucleotidase	E. M. BAILYES, J. P. LUZIO & A. C. NEWBY	140
Effect of temperature on cross-linking of cytochromes <i>P-450</i> and microviscosity in rabbit liver microsomal membranes	P. R. MCINTOSH & R. B. FREEDMAN	141
The production of monoclonal antibodies to rat liver plasma membranes	K. SIDDLER & M. SOOS	142
The distribution of high-mobility-group proteins in chromatin fractions produced by nuclease digestion of pig thymus nuclei	M. A. PLUMB & A. J. MACGILLIVRAY	143
Studies on the Sm and RNP nuclear antigens of human autoimmune rheumatic and connective-tissue diseases	S. DAHL, G. NAXAKIS, C. M. WALLIS & A. J. MACGILLIVRAY	144
A comparison of the inhibition kinetics of trypsin in free solution and trypsin coupled to Sepharose-4B	F. S. STEVEN & M. M. GRIFFIN	145
Inhibition kinetics of a trypsin-like neutral proteinase on the surface of Ehrlich ascites-tumour cells	F. S. STEVEN, M. M. GRIFFIN & S. ITZHAKI	146
Peptidase activity during the maturation of rabbit reticulocytes	E. M. ATKINSON & A. R. HIPKISS	147
The proteolysis of puromycin-peptide aggregates in rabbit reticulocytes of increasing maturity	M. J. MCKAY & A. R. HIPKISS	147
Effect of ATP depletion on the disappearance of high-molecular-weight aggregates formed in rabbit reticulocytes after exposure to puromycin dihydrochloride	V. C. WORTHINGTON & A. R. HIPKISS	148
³¹ P Nuclear-magnetic-resonance studies on porcine thromboplastin	J. E. GARDINER & R. M. HOWELL	149
The motional properties of rhodopsin and the membrane lipids in bovine rod outer-segment disc membranes	A. WATTS, I. D. VOLOTOVSKI & D. MARSH	150
Bases for the design of pharmacological effectors acting on plasma membrane receptors	M. GASÁLVEZ	151
Production of flagellin in <i>Escherichia coli</i> treated with aminoglycoside antibiotics	M. A. REEVES, M. J. CARRIER & M. KOGUT	152
Dependence of mitochondrial K ⁺ flux on pH	J. J. DIWAN	153
Fatty-acyl-chain characteristics of phosphatidylcholines affect Ca ²⁺ -dependent ATPase enzymic activity but not the affinity of the protein for these different lipid species	M. CAFFREY & G. W. FEIGENSON	155
Output of protein and enzymes in rat bile	P. P. GODFREY & R. COLEMAN	156
Neutral proteinases secreted by chondrocytes and activated macrophages <i>in vitro</i>	C. H. EVANS, H. I. GEORGESCU & R. A. MAZZOCCHI	156
Iron binding and the transport of iron across the rabbit intestinal brush border	T. M. COX & M. W. O'DONNELL	157
BIOCHEMICAL REVIEWS		
Advances in amino acid metabolism in mammals	D. F. EVERED	159
Hepatic bile salt transport. A review of subcellular binding sites	R. C. STRANGE	170
BOOK REVIEWS
