Book Reviews Editor B. MORELAND

Contents Volume 9, Part 5, October 1981

595th MEETING, MANCHESTER

Colloquium: Regulation of Metabolism during Neonatal Development

Regulation of protein metabolism during postnatal development	K. SNELL	367
Glucose metabolism in the newborn rat	J. R. GIRARD, P. FERRÉ, J.-P. PÉGORIER, P. TURLAN, L. EL MANOUBI & S. CALLIKAN	369
Regulation of hepatic lipid metabolism during development of the rat	E. BAILEY	371
The postnatal development of brain metabolism	J. B. CLARK, S. F. LEONG & L. A. MUNDAY	372
The postnatal development of white-adipose-tissue metabolism	A. CRYER	373
Comparative aspects of hepatic glucose metabolism during foetal development	C. T. JONES	375

Colloquium: Calcium

Hormone-stimulated metabolism of inositol lipids and its relationship to hepatic receptor function	C. J. KIRK, J. A. CREBA, C. P. DOWNES & R. H. MICHELL	377
The role of calcium ions, calmodulin and troponin in the regulation of glycogen metabolism in mammalian skeletal muscle	P. COHEN	379
Cyclic AMP- and Ca ²⁺ -dependent protein kinases and their concerted effects on Ca ²⁺ fluxes	J. G. DEMAILLE	380
The calcium-regulating hormones: recent advances	I. MACINTYRE & J. C. STEVENSON	382
Pathological and therapeutic implications of the cellular and humoral responses to parathyrin	J. A. PARSONS, P. MEUNIER, R. PODBESEK, J. REEVE & R. W. STEVENSON	383

Communications	387

BOOK REVIEWS	481
--------------	-----

COMMUNICATIONS

The purification of the initiator tRNA from an Archaeobacterial species, <i>Thermoplasma acidophilum</i>	M. W. KILPATRICK & R. T. WALKER	387
Histidine-rich proteins: synthesis and post-translational modification during epidermal differentiation	I. R. SCOTT & C. R. HARDING	388
The histidine-rich protein of the keratohyalin granules is the source of the free amino acids, urocanic acid and pyrrolidone-carboxylic acid in mammalian stratum corneum	I. R. SCOTT, C. R. HARDING & J. G. BARRETT	389
Lactate recycling in renal cortex: new evidence	M. STUBBS	390
Effect of treatment with dexamethasone on energy requirements during the early neonatal period in premature rats	C. ARIZMENDI, M. BENITO & J. M. MEDINA	391
Control of amino acid uptake by the lactating mammary gland of the rat	J. R. VIÑA, J. B. MONTORO, I. R. PUERTES & J. VIÑA	392
Perinatal lipogenesis in the liver and brown adipose tissue of the rat	D. PILLAY & E. BAILEY	393
Dietary manipulation of ornithine decarboxylase activity in mammary gland and liver of lactating rats	M. E. BROSNAN & D. H. WILLIAMSON	393
Xanthine dehydrogenase in chicken liver: its subcellular localization and its possible role in gluconeogenesis from amino acids	K. P. COOLBEAR, G. R. HERZBERG & J. T. BROSNAN	394
Effect of dichloroacetate on the oxidation of short-chain and medium-chain fatty acids by rat heart mitochondria	J. T. BROSNAN & K.-C. MAN	395
An apparent decrease in phosphofructokinase activity in hereditary avian muscular dystrophy	J. WOODWARD, J. H. PARK & S. P. COLOWICK	396
Wheat-germ lectin binding of β -galactosidase of human normal and sialidosis Type II fibroblasts	C. M. HEYWORTH, S. KIRKHAM & C. H. WYNN	397
Possible rate-limiting steps of fatty acid synthesis from glucose in sheep adipose tissue	J. P. ROBERTSON, A. FAULKNER & R. G. VERNON	398
Pyruvate kinase in cultured rat hepatocytes	G. P. POOLE, A. D. POSTLE & D. P. BLOXHAM	399
Pyruvate carboxylase activity and hypoglycaemia in the neonatal guinea-pig	T. P. ROLPH & C. T. JONES	399
Polyamine oxidase in human pregnancy: a possible immunoregulatory agent	D. M. L. MORGAN	400
Lactate entry into isolated rat hepatocytes: evidence for a transporter	J. P. MONSON, J. A. SMITH, R. D. COHEN & R. A. ILES	401
Properties of the hepatocyte lactate transporter: effect of pH and temperature, and susceptibility to inhibition	J. P. MONSON, J. A. SMITH, R. D. COHEN & R. A. ILES	403
Glucose, insulin release and the control of cyclic AMP efflux and cyclic AMP content of rat islets of Langerhans	I. L. CAMPBELL & K. W. TAYLOR	403
The effects of 4-hydroxypyrazole and L-methionine on hepatic L-histidine catabolism	J. S. COOK & C. I. POGSON	404
Biotin-dependent carboxylases and cultured human fibroblasts	H. K. GHNEIM, G. NOY & K. BARTLETT	405
Studies on human serum nucleotide pyrophosphatase	F. HOFMANN	407
Effect of heparin on the inhibition by α_1 -proteinase inhibitor of amidolysis catalysed by thrombin, factor X _a and plasmin	W. F. LONG & F. B. WILLIAMSON	408
Freeze-clamping of rat soleus and plantaris muscle <i>in situ</i>	K. N. FRAYN & P. F. MAYCOCK	409
The metabolism of pterin-6-carboxylic acid in the rat	A. E. PHEASANT & J. E. PEARCE	409
Inhibition by anti-(nicotinic acetylcholine receptor) antibodies of acetylcholine-induced dopamine release from striatal nerve terminals	A. H. FUTERMAN, R. HARRISON, G. G. LUNT & S. WONNACOTT	410
Action of presynaptic phospholipase neurotoxins on synaptosomes from <i>Torpedo</i> electric organ	P. FRETTEEN, M. J. DOWDALL & P. G. CULLIFORD	411
Effects of guanine nucleotides on ligand binding to muscarinic acetylcholine receptors in <i>Torpedo</i> electric organ	M. J. DOWDALL, P. R. GOLDS & P. G. STRANGE	412
α_2 -Adrenoceptors controlling intestinal secretion	P. M. NEWSOME, M. N. BURGESS, G. D. HOLMAN, N. A. MULLAN, D. H. RICHARDS & M. R. SMITH	413
Biochemical estimation of membrane potential in neuroblastoma cells	G. MILLIGAN & P. G. STRANGE	414
Solubilization of brain dopamine receptors	R. M. WITHY, M. WHEATLEY, P. A. FRANKHAM & P. G. STRANGE	416
Muscarinic receptor binding sites in the synaptosomal and microsomal fractions of bovine caudate nucleus	M. R. GREGG, S. SPANNER & G. B. ANSELL	416

Stimulation of phosphodiesterase by a Ca ²⁺ -independent heat-stable synaptic cytosol fraction	C. J. BRANFORD WHITE, G. PARKER, J. M. DAWSON & A. FRAZER	417
Serotonin and dopamine fluctuations in the frog retina in response to dark and light adaptations	T. NESSELHUT & N. N. OSBORNE	418
Mechanism of neurotensin inactivation by subcellular fractions of rat brain	J. R. MCDERMOTT, A. I. SMITH, J. A. EDWARDSON & E. C. GRIFFITHS	419
Inactivation of some thyroliberin analogues by rat brain: product identification by high-pressure liquid chromatography	E. C. GRIFFITHS, J. R. MCDERMOTT, A. I. SMITH & J. A. EDWARDSON	420
Inhibition by β -endorphin of 16S acetylcholinesterase in rat skeletal muscle	L. W. HAYNES, A. J. HARBORNE & M. E. SMITH	421
The effects of lead on catecholamine metabolism in rat brain regions	P. A. MEREDITH, M. A. PETTY & J. L. REID	422
An improved semi-micro method for the assay of indolylamine <i>N</i> -methyltransferase activity in mammalian tissue	A. MORINAN & R. RODNIGHT	423
An insoluble fraction of ox brain	N. AHMED & H. HILLMAN	424
Effect of homocysteine on brain glutamate decarboxylase and interaction with pyridoxal phosphate	I. C. DEWHURST & R. GRIFFITHS	426
Synthesis of 4-aminobutyric acid by cultured fibroblast extracts obtained from cystathionine β -synthase-deficient homocystinuric individuals	R. GRIFFITHS, S. M. WEBSTER & I. C. DEWHURST	427
The effects of a direct electric current on protein metabolism and ATP generation in rat skin	N. CHENG, H. VAN HOOF, E. BOCKX, M. J. HOOGMARTENS, J. C. MULIER, F. J. DE DIJCKER, W. M. SANSEN & W. DE LOECKER	428
The ubiquinone-mediated interaction between the external NADH dehydrogenase and the cytochromes <i>b-c</i> ₁ complex in plant mitochondria	I. R. COTTINGHAM & A. L. MOORE	429
A possible role for 5-methyltetrahydrofolate in mitochondrial respiration	J. A. BLAIR & I. P. L. COLEMAN	430
Bacterial catabolism of isophthalate and terephthalate	E. A. ELMORSI & D. J. HOPPER	431
A rapid-mixing system applied to measurements of glucose transport in human erythrocytes	S.-H. SIAH & A. G. LOWE	431
An 'ex-vivo' technique for determining the proportion of hepatocyte plasma-membrane enzymes localized to the sinusoidal (blood) domain	J. L. DING, G. D. SMITH & T. J. PETERS	432
Inhibition of acid Naphthol AS-BI phosphatase in HeLa cells	R. DUGUID & L. NEILL	433
Regulation of glycogen metabolism in isolated rabbit alveolar macrophages	J. KREUSCH, F. HOFMANN & K. DECKER	435
Alkali-labile oligosaccharides from glycopeptides of human milk-fat-globule membrane	A. SAFI & R. HARRISON	436
The densities of bacterial cell walls	M. HUMPHRIES, A. E. WILKINSON, B. EDWARDS & J. S. THOMPSON	436
Surface areas and viscosities of sterol/phospholipid monolayers at the air/water interface	R. W. EVANS, M. A. WILLIAMS & J. TINOCO	437
Complete exchange of microsomal phospholipids by phospholipid-exchange protein does not alter the phospholipid asymmetry of these membranes	J. L. HUTSON & J. A. HIGGINS	438
The use of tetramethylurea delipidation and sodium dodecyl sulphate/polyacrylamide-gradient-gel electrophoresis in the analysis of plasma lipoprotein apoproteins	N. O. MACKINNON & A. CRYER	439
Gibberellin-stimulated metabolism of phospholipid to triacylglycerol in wheat aleurone tissue	R. B. MIRBAHAR & D. L. LAIDMAN	440
Gibberellin-stimulated turnover of phosphatidylinositol in wheat aleurone tissue	R. B. MIRBAHAR & D. L. LAIDMAN	441
Effect of human plasma fractions and anti-inflammatory drugs on lipid peroxide formation in rat brain homogenates	S. A. SAEED, N. M. BUTT & H. O. J. COLLIER	442
The effect of ellagic acid and tannic acid on prostaglandin synthase activity in bovine seminal-vesicle homogenates	S. A. SAEED, N. M. BUTT & W. J. McDONALD-GIBSON	443
Inhibitor(s) of prostaglandin biosynthesis in extracts of oat (<i>Avena sativa</i>) seeds	S. A. SAEED, N. M. BUTT, W. J. McDONALD-GIBSON & H. O. J. COLLIER	444
A study of the copper and zinc sites in native, high-pH, azide- and cyanide-bound forms of superoxide dismutase by X-ray-absorption spectroscopy	S. S. HASNAIN, S. BATMANIAN, N. J. BLACKBURN, J. BORDAS, G. P. DIAKUN, C. D. GARNER, P. F. KNOWLES & R. M. MILLER	444

Gold-substituted azurin	G. OTIKO & P. J. SADLER	445
Equilibrium and kinetic studies of oxygen binding by gastropod (<i>Lymnaea stagnalis</i>) haemocyanin	A. DAWSON, D. A. BAXENDALE & E. J. WOOD	446
The adenosylcobalamin-dependent ethanolamine ammonia-lyase of <i>Escherichia coli</i>	S. J. PENNINGTON, P. W. JONES & J. M. TURNER	447
The effect of metal-ion substitution on the conformational stability of <i>Bacillus cereus</i> phospholipase C	C. LITTLE	448
The role of metal ions in the control of human sperm β -naphthylamidase activity	F. S. STEVEN & E. N. CHANTLER	449
Evidence for a common catalytic site for rat liver microsomal inorganic pyrophosphatase and glucose 6-phosphatase	M. BANNER & B. VAKILI	450
Evidence for reactive groups in rat liver acid phosphatase: inactivation by phenylglyoxal	N. NAVARATNAM, P. J. BUTTERWORTH & M. BANNER	450
The presence of both a latent proteinase and an inhibitor in extracts of bovine nasal cartilage and aorta	F. S. STEVEN, J. BARTHOLOMEW, M. M. GRIFFIN & J. C. ANDERSON	451
Purification of phosphoglucomutase by substrate elution from Blue Sepharose	L. JERVIS & P. GAGGINI	453
Ammonia stimulation of malate dehydrogenase from <i>Bacillus stearothermophilus</i> : generation of an apparent dehydrogenase activity	C. N. G. SCHMIDT & L. JERVIS	454
Kinetics of ornithine carbamoyltransferase	T. R. C. BOYDE & M. RAHMATULLAH	454
An efficient new method for the separation, from small volumes of human blood, of leucocyte samples particularly suitable for use in diagnostic fluorogenic enzyme assays	K. F. ZAIDI & D.H. LEABACK	455
Factors limiting the sensitivities of fluorimetric determinations of 4-methylumbelliferone and its fluorogenic conjugates in solutions	A. G. W. LEIGH & D. H. LEABACK	456
Studies on the chemistry and development of the wall of <i>Rhinosporidium seeberi</i> using fluorescent-labelled lectins	R. W. STODDART & D. SANYAL	458
Evidence to suggest that adrenaline activates rat heart pyruvate dehydrogenase by increasing the concentration of intramitochondrial Ca^{2+}	J. G. MCCORMACK, N. J. EDGELL & R. M. DENTON	459
Effect of incubation with Ca^{2+} , Mg^{2+} and ATP on acetyl-CoA carboxylase activity in extracts of lactating rat mammary gland	E. M. MCNEILLIE & V. A. ZAMMIT	460
Compound W-7 [<i>N</i> -(6-aminohexyl)-5-chloronaphthalene-1-sulphonamide] blocks an early event in stimulus-secretion coupling in rat peritoneal mast cells	C. P. ENGLAND & P. SHETERLINE	461
Changes in the metabolism of inositol phospholipids with myoblast fusion	M. J. O. WAKELAM & D. PETTE	462
Evidence for the involvement of calmodulin in the regulation of lectin-induced capping of neutrophil leucocytes	P. SHETERLINE	463
Responses of glucose 1,6-bisphosphate in myoblasts and myotubes to α - and β -hormonal stimulation	M. J. O. WAKELAM, M. EMMERICH & D. PETTE	464
Phosphate uptake by proximal-tubule cells isolated from chick kidney	M. F. GRAHN & P. J. BUTTERWORTH	465
Vasopressin induces a desensitization of the glycogenolytic response in isolated hepatocytes	S. KEPPENS, B. BREANT & H. DE WULF	466
A radioimmunoassay for muscle-specific creatine kinase and its use to study calcium effects on myogenesis	G. E. GALATOWICZ & G. E. MORRIS	467
Golgi vesicles isolated from rat mammary tissue contain endogenous caseins and 0.1 mM free calcium	D. W. WEST & R. A. CLEGG	468
Insulin binding to rat mammary-gland Golgi membranes	D. J. FLINT & D. W. WEST	469
Stimulation by 1,25-dihydroxycholecalciferol of the synthesis of a membrane-bound protein in the chick small intestine	A. N. HOBDEN, M. HARDING & D. E. M. LAWSON	469
Calcium transport by brown-adipose-tissue mitochondria from lean and genetically obese (<i>ob/ob</i>) mice	D. R. FRASER & P. TRAYHURN	470
A role of calcium in the regulation of prolactin secretion from cultured sheep pituitary cells	K. P. RAY & M. WALLIS	471
Assay of insulin and effect of other hyperglycaemic hormones on triacylglycerol synthesis in adipocytes	C. P. J. CAYGILL, C. M. AYLING & P. DANDONA	472

The inhibitory effect of human somatotropin (growth hormone) on insulin-stimulated lipogenesis in adipocytes	C. M. AYLING, C. P. J. CAYGILL & P. DANDONA	473
Evidence that calmodulin has a role in prolactin secretion	J. E. MERRITT, S. TOMLINSON & B. L. BROWN	474
A ³¹ P nuclear-magnetic-resonance study of the metabolic and functional effects of changes in extracellular Ca ²⁺ on the isolated perfused rat heart	A.-M. SEYMOUR, G. DUBE, P. M. MATTHEWS & G. K. RADDA	475
Inhibition of nitrite uptake in the diatom <i>Phaeodactylum tricornutum</i> by nitrate, ammonium ions and some L-amino acids	M. M. BILBAO, J. M. GABAS & J. L. SERRA	476
Characterization of nitrate and nitrite uptake in barley (<i>Hordeum vulgare</i> L.) seedlings	J. M. IBARLUCEA, J. M. MACARULLA & J. L. SERRA	477
Some properties of pure nitrite reductase from barley (<i>Horeum vulgare</i> L.) leaves	M. J. LLAMA, J. M. ARIZMENDI & J. L. SERRA	478
The α -adrenergic activation of the Ca ²⁺ uniporter of cardiac mitochondria	P. KESSAR & M. CROMPTON	479
