**Contents**

**Review**

Recent insights into the pathogenesis and therapeutics of pulmonary hypertension
by J.W. Strange, J. Wharton, P.G. Phillips and M.R. Wilkins
First published on the Internet 11 February 2002

**Papers**

Altered balance of main vasopressor and vasodepressor systems in rats with genetic hypertension and hypertriglyceridaemia
by J. Kunef, Z. Dobešová and J. Zicha
First published on the Internet 11 February 2002

Increases in circulating levels of monocyte–platelet and neutrophil–platelet complexes following hip arthroplasty
by A. Bunescu, J. Widman, R. Lenkei, P. Menyes, K. Levin and N. Egberg
First published on the Internet 8 February 2002

Effects of ornithine 2-oxoglutarate on neutrophils in stressed rats: evidence for the involvement of nitric oxide and polyamines
by C. Moinard, F. Caïdefie, S. Walrand, A. Tridon, J. Chassagne, M.-P. Vasson and L. Cynober
First published on the Internet 11 February 2002

The role of inducible nitric oxide synthase in lipopolysaccharide-mediated hyporeactivity to vasoconstrictors differs among isolated rat arteries
by H.A. Piepot, A.B. J. Groeneveld, A.A. van Lambalgen and P. Sipkema
First published on the Internet 11 February 2002

Vascular K_ATP channel blockade by glibenclamide, but not by acarbose, in patients with Type II diabetes
First published on the Internet 8 February 2002

Response of tumour necrosis factor-α to delayed in vitro monocyte stimulation in patients with septic shock is related to outcome
by O. Appoloni, J.-L. Vincent and J. Duchateau
First published on the Internet 13 February 2002

Endothelin-1 inhibits endothelium-dependent vasodilation in the human forearm: reversal by ET_A receptor blockade in patients with atherosclerosis
by F. Böhm, G. Ahlborg and J. Pernow
First published on the Internet 12 February 2002
Relationship between cardiomyocyte cell death and cardiac function during hypertensive cardiac modelling in Dahl rats
by S. Ikeda, M. Hamada, P. Qu, G. Hiasa, H. Hashida, Y. Shigematsu and K. Hiwada
First published on the Internet 12 February 2002

Hepatocyte mitochondrial metabolism is inhibited in neonatal rat endotoxaemia: effects of glutamine
by M.A. Markley, A. Pierro and S. Eaton
First published on the Internet 14 February 2002

Alcohol consumption, the metabolic syndrome and insulin resistance in 58-year-old clinically healthy men (AIR study)
by D. Goude, B. Fagerberg and J. Hulthe, on behalf of the AIR study group
First published on the Internet 14 February 2002

Skeletal muscle mRNA levels for cathepsin B, but not components of the ubiquitin-proteasome pathway, are increased in patients with lung cancer referred for thoracotomy
First published on the Internet 14 February 2002

QT-interval variability and autonomic control in hypertensive subjects with left ventricular hypertrophy
First published on the Internet 14 February 2002

Cystatin C of pleural effusion as a novel diagnostic aid in pleural diseases of different aetiologies
First published on the Internet 14 February 2002

SUPPLEMENT 46
Communications for the Autumn Meeting of the Medical Research Society on 15 and 16 November 2001 in conjunction with the Science and Medicine Conference at the Royal College of Physicians, London
