COMMENTS

Natriuretic peptides as markers of patent ductus arteriosus in preterm infants
by H. Holmström and T. Omland (see accompanying paper pp. 75–77)
First published on the Internet 24 June 2002

Assessing spontaneous baroreflex function: methodological considerations
by G. Parati and M. Di Rienzo (see accompanying paper pp. 81–88)
First published on the Internet 20 June 2002

RAPID COMMUNICATION

Plasma brain natriuretic peptide as a predictor of haemodynamically significant patent ductus arteriosus in preterm infants
by V. F. Puddy, C. Amirmansour, A. F. Williams and D. R. J. Singer
First published on the Internet 20 June 2002

PAPERS

Effect of linsidomine on the human radial artery
by J. P. Remadi, B. Colas, H. Masson, M. Slama and M. Andréjack
First published on the Internet 5 June 2002

Empirical estimates of mean aortic pressure: advantages, drawbacks and implications for pressure redundancy
and Y. Lecarpentier
First published on the Internet 5 June 2002

Increased nitric oxide elimination from the airways after smoking cessation
by M. Hogman, T. Holmkvist, R. Wällinder, P. Meriläinen, D. Lüdviksdóttir, L. Häkansson and H. Hedenström
First published on the Internet 5 June 2002

Disruption of the elastin gene in adult Williams syndrome is accompanied by paradoxical reduction in arterial stiffness
by P. Lacolley, P. Boutouyrie, M. Glukhova, J.-M. Daniel Lamaziere, P.-F. Plouin, P. Bruneval, P. Vuong, P. Corvol
and S. Laurent
First published on the Internet 6 June 2002

Altered L-arginine metabolism results in increased nitric oxide release from uraemic endothelial cells
First published on the Internet 6 June 2002
Impaired sympathetic regulation of cerebral blood flow in patients with cirrhosis of the liver
by A. Lagi, G. Laffi, S. Cencetti, G. Barletta, M. Foschi, F. Vizzutti, R. Bandinelli, P. Pantaleo, C. Tosti Guerra,
P. Gentilini and G. La Villa
First published on the Internet 7 June 2002

Serum from healthy pregnant women reduces oxidative stress in human umbilical vein endothelial cells
by F. Scalera, T. Fischer, D. Schlembach and E. Beinder
First published on the Internet 11 June 2002

Reproducibility of derived central arterial waveforms in patients with chronic renal failure
by M.T. Savage, C.J. Ferro, S.J. Pinder and C.R.V. Tomson
First published on the Internet 11 June 2002

Differential mechanisms of endothelium-dependent vasodilator responses in human myometrial small arteries in normal pregnancy and pre-eclampsia
by L.C. Kenny, P.N. Baker, D.A. Kendall, M.D. Randall and W.R. Dunn
First published on the Internet 11 June 2002

Measuring baroreflex sensitivity from the gain function between arterial pressure and heart period
by G.D. Pinna, R. Maestri, G. Raczk and M.T. La Rovere
First published on the Internet 20 June 2002

Enhanced blood insulin overcomes pyruvate dehydrogenase derangements that reflect systemic insulin resistance in obese adolescents
by M. Mostert, F. Cerutti, M. Piccinini, I. Rabbone, C. Sacchetti, G. Pacini and M.T. Rinaudo
First published on the Internet 20 June 2002

Angiotensinogen M235T gene polymorphism and recurrent restenosis after repeated percutaneous transluminal coronary angiography
by S. Hertwig, H. Volzke, D.M. Robinson, W. Motz and R. Rettig
First published on the Internet 20 June 2002

CORRESPONDENCE

Is circulating nitrite a directly acting vasodilator?
by D. Tsikas and J. C. Frölich
First published on the Internet 20 June 2002

Is circulating nitrite a directly acting vasodilator?: authors' reply
by E.A.G. Demoncheaux, T.M. Higenbottam, P.J. Foster, C. D. R. Borland, A. P. L. Smith, H. M. Marriott,
D. Bee, S. Akamine and M. B. Davies
First published on the Internet 20 June 2002

SUPPLEMENT 47

Communications for the Spring Meeting of the Medical Research Society held at the Royal College of Physicians, London, on 4 February 2002
