Comment

Pre-eclampsia and the microcirculation: a novel explanation
by D. O. Bates (see accompanying paper pp. 405–412)
First published on the Internet 20 March 2003

GlaXoSmithKline/MRS Paper

DC-SIGN (dendritic cell-specific ICAM-grabbing non-integrin) and DC-SIGN-related (DC-SIGNR): friend or foe?
by E. J. Soilleux
First published on the Internet 21 March 2003

Papers

Contrasting neurovascular findings in chronic orthostatic intolerance and neurocardiogenic syncope
by J. M. Stewart and A. Weldon
First published on the Internet 6 March 2003

Cardiovascular hypertrophy in diabetic spontaneously hypertensive rats: optimizing blockade of the renin–angiotensin system
by M. Lassila, B. J. Davis, T. J. Allen, L. M. Burrell, M. E. Cooper and Z. Cao
First published on the Internet 6 March 2003

High-dose heparin fails to improve acute lung injury following smoke inhalation in sheep
First published on the Internet 6 March 2003

Comparison between the effects of mixed dyslipidaemia and hypercholesterolaemia on endothelial function, atherosclerotic lesions and fibrinolysis in rabbits
by N. de las Heras, E. Cediel, M. P. Oubiña, P. Aragoncillo, D. Sanz-Rosa, V. Lahera and V. Cachofeiro
First published on the Internet 6 March 2003

Haematological phenotypes in relation to the C1797T β-adducin polymorphism in a Caucasian population
First published on the Internet 6 March 2003

Clinical and electrophysiological characterization of a novel mutation (F193L) in the KCNQ1 gene associated with long QT syndrome
by M. Yamaguchi, M. Shimizu, H. Ino, H. Terai, K. Hayashi, H. Mabuchi, N. Hoshi and H. Higashida
First published on the Internet 14 March 2003
Relationships between cholesterol homoeostasis and triacylglycerol-rich lipoprotein remnant metabolism in the metabolic syndrome
First published on the Internet 14 March 2003
383–382

Epithelial sodium channel (ENaC) subunit mRNA and protein expression in rats with puromycin aminonucleoside-induced nephrotic syndrome
First published on the Internet 13 March 2003
389–395

Vascular endothelial growth factor and tissue factor in patients with established peripheral artery disease: a link between angiogenesis and thrombogenesis?
First published on the Internet 14 March 2003
397–404

Evidence of impaired microvascular function in pre-eclampsia: a non-invasive study
First published on the Internet 20 March 2003
405–412

Indeterminate Chagas’ disease: Trypanosoma cruzi strain and re-infection are factors involved in the progression of cardiopathy
First published on the Internet 20 March 2003
415–420

Cyclical mechanical stretch enhances angiopoietin-2 and Tie2 receptor expression in cultured human umbilical vein endothelial cells
by H. Chang, B.-W. Wang, P. Kuan and K.-G. Shyu
First published on the Internet 20 March 2003
421–428

Natriuretic peptides maintain sodium homoeostasis during chronic volume loading post-myocardial infarction in sheep
by C. J. Charles, J. M. Elliott, M. G. Nicholls, M. T. Rademaker and A. M. Richards
First published on the Internet 20 March 2003
429–436

Dissociation of augmented physiological, hormonal and cognitive responses to hypoglycaemia with sustained caffeine use
by J. M. Watson, R. S. Sherwin, I. J. Deary, L. Scott and D. Kerr
First published on the Internet 20 March 2003
447–454

CORRESPONDENCE
Evaluation of methods to measure endothelium-dependent vasodilation
by J. R. Cockcroft and I. B. Wilkinson
First published on the Internet 6 March 2003
367

Evaluation of methods to measure endothelium-dependent vasodilation: author’s reply
by L. Lind
First published on the Internet 6 March 2003
368

SUPPLEMENT 49
Communications for the Spring Meeting of the Medical Research Society on 5 February 2003 at the Royal College of Physicians, London
1P–66P
