## COMMENTS

- A feeling in the waters: diagnosis of heart failure using urinary natriuretic peptides**  
by H. Krum and D. Liew (see accompanying paper pp. 129–133) 111–112  
*Published as Immediate Publication 9 October 2003, DOI 10.1042/CS20030330*
- Protein, programming and plumpness: is there a link?**  
by R. R. Huxley (see accompanying paper pp. 141–145) 113–114  
*Published as Immediate Publication 13 November 2003, DOI 10.1042/CS20030369*

## PAPERS

- Coronary vasomotor response is related to the angiographic extent of coronary sclerosis in patients with stable angina pectoris**  
by F. W. Asselbergs, S. H. J. Monnick, N. J. G. M. Veeger, A. J. van Boven, P. L. van Haelst, G. A. J. Jessurun, W. H. van Gilst and R. A. Tio 115–120  
*Published as Immediate Publication 4 September 2003, DOI 10.1042/CS20030215*
- C-reactive protein, cardiovascular risk, and renal disease in a remote Australian Aboriginal community**  
by S. McDonald, G. Maguire, N. Duarte, X. L. Wang and W. Hoy 121–128  
*Published as Immediate Publication 4 September 2003, DOI 10.1042/CS20030186*
- Diagnosis of heart failure using urinary natriuretic peptides**  
by L. L. Ng, S. Geeranavar, S. C. Jennings, I. Loke and R. J. O'Brien 129–133  
*Immediate Publication 18 September 2003, DOI 10.1042/CS20030234*
- Vigorous response in plasma N-terminal pro-brain natriuretic peptide (NT-BNP) to acute myocardial infarction**  
by D. Gill, T. Seidler, R. W. Troughton, T. G. Yandle, C. M. Frampton, M. Richards, J. G. Lainchbury and G. Nicholls 135–139  
*Published as Immediate Publication 15 September 2003, DOI 10.1042/CS20030131*
- Early programming of weight gain in mice prevents the induction of obesity by a highly palatable diet**  
by S. E. Ozanne, R. Lewis, B. J. Jennings and C. N. Hales 141–145  
*Published as Immediate Publication 24 September 2003, DOI 10.1042/CS20030278*
- Haemodynamic insights into the effects of ischaemia and cycle length on tissue Doppler-derived mitral annulus diastolic velocities**  
by S. F. Nagueh, L. Rao, J. Soto, K. J. Middleton and D. S. Houry 147–154  
*Published as Immediate Publication 11 September 2003, DOI 10.1042/CS20030204*

- Influence of controlled breathing patterns on cerebrovascular autoregulation and cardiac baroreceptor sensitivity**  
by P. J. Eames, J. F. Potter and R. B. Panerai 155–162  
*Published as Immediate Publication 1 October 2003, DOI 10.1042/CS20030194*
- Influence of experimental reduction of media/lumen ratio on arterial myogenic properties of spontaneously hypertensive and Wistar-Kyoto rats**  
by J. M. Hughes and S. J. Bund 163–171  
*Published as Immediate Publication 17 September 2003, DOI 10.1042/CS20030225*
- Dobutamine induces ineffective work in regional ischaemic myocardium: an experimental strain rate imaging study**  
by F. Weidemann, J. Broscheit, N. Eberbach, P. Steendijk, W. Voelker, C. Greim, G. Ertl, N. Roewer and J. M. Strotmann 173–181  
*Published as Immediate Publication 10 September 2003, DOI 10.1042/CS20030109*
- Peripheral cholinergic function in humans with chronic fatigue syndrome, Gulf War syndrome and with illness following organophosphate exposure**  
by F. Khan, G. Kennedy, V. A. Spence, D. J. Newton and J. J. F. Belch 183–189  
*Published as Immediate Publication 23 September 2003, DOI 10.1042/CS20030246*
- Arachidonic acid, palmitic acid and glucose are important for the modulation of clonal pancreatic  $\beta$ -cell insulin secretion, growth and functional integrity**  
by G. Dixon, J. Nolan, N. H. McClenaghan, P. R. Flatt and P. Newsholme 191–199  
*Published as Immediate Publication 16 October 2003, DOI 10.1042/CS20030261*
- Effects of delayed preconditioning on myocardial regional contractility during repeated episodes of low-flow ischaemia in anaesthetized dogs: possible role of nitric oxide**  
by Z. Szigeti, K. Simon, J. R. Parratt and Á. Végh 201–213  
*Published as Immediate Publication 14 October 2003, DOI 10.1042/CS20030290*

## CORRESPONDENCE

- Statins reduce oxidized low-density lipoprotein levels, but do not alter soluble intercellular cell-adhesion molecule-1 and vascular cell-adhesion molecule-1 levels in subjects with hypercholesterolaemia**  
by R. S. Rosenson, D. Wolff and C. C. Tangney 215–217  
*Published as Immediate Publication 11 September 2003, DOI 10.1042/CS20030291*

## SUPPLEMENT 50

- Communications for the Autumn Meeting of the Medical Research Society on 13th November 2003 at the Science and Medicine Conference, Royal College of Physicians, London** 1P–13P
