COMMENT

Can mild-to-moderate hyperhomocysteinaemia impair endothelial function in the absence of other risk factors for cardiovascular disease?

by M. L. H. Honing and C. D. A. Stehouwer (see accompanying paper pp. 353–358)

345–346

Published as Immediate Publication 4 December 2003, DOI 10.1042/CS20030391

PAPERS

Voluntary breath-holding in the morning and in the evening

by G. Bosco, A. Ionadi, P. G. Data and J. P. Mortola

347–352

Published as Immediate Publication 13 November 2003, DOI 10.1042/CS20030260

Folic acid does not improve endothelial function in healthy hyperhomocysteinaemic subjects

by R. J. Woodman, D. E. Celermajer, P. L. Thompson and J. Hung

353–358

Published as Immediate Publication 28 November 2003, DOI 10.1042/CS20030296

comment

Modulation of the liver export protein synthetic response to feeding by an n – 3 fatty-acid-enriched nutritional supplement is associated with anabolism in cachectic cancer patients

by M. D. Barber, T. Preston, D. C. McMillan, C. Slater, J. A. Ross and K. C. H. Fearon

359–364

Published as Immediate Publication 18 November 2003, DOI 10.1042/CS20030301

Cardiac output by Modelflow[®] method from intra-arterial and fingertip pulse pressure profiles

by M. Azabji Kenfack, F. Lador, M. Licker, C. Moia, E. Tam, C. Capelli, D. Morel and G. Ferretti

365–369

Published as Immediate Publication 7 November 2003, DOI 10.1042/CS20030303

Correction of cardiac output obtained by Modelflow[®] from finger pulse pressure profiles with a respiratory method in humans

by E. Tam, M. Azabji Kenfack, M. Cautero, F. Lador, G. Antonutto, P. E. di Prampero, G. Ferretti and C. Capelli

371–376

Published as Immediate Publication 7 November 2003, DOI 10.1042/CS20030302

Second trimester Doppler ultrasound screening of the uterine arteries differentiates between subsequent normal and poor outcomes of hypertensive pregnancy: two different pathophysiological entities?

by M. W. Aardema, M. C. S. Saro, M. Lander, B. T. H. M. de Wolf, H. Oosterhof and J. G. Aarnoudse

377–382

Published as Immediate Publication 25 November 2003, DOI 10.1042/CS20030385

Plasma urocortin in human systolic heart failure

by L. L. Ng, I. W. Loke, R. J. O'Brien, I. B. Squire and J. E. Davies

383–388

Published as Immediate Publication 3 December 2003, DOI 10.1042/CS20030311

- Haemodynamic effects of hyperbaric hyperoxia in healthy volunteers: an echocardiographic and Doppler study**
by F. Molénat, A. Boussuges, A. Grandfond, J.-C. Rostain, J.-M. Sainty, C. Robinet, F. Galland and J. L. Meliet 389–395
Published as Immediate Publication 28 November 2003, DOI 10.1042/CS20030293
- Overexpression of cellular FLICE-inhibitory protein (FLIP) in gastric adenocarcinoma**
by X.-D. Zhou, J.-P. Yu, J. Liu, H.-S. Luo, H.-X. Chen and H.-G. Yu 397–405
Published as Immediate Publication 24 November 2003, DOI 10.1042/CS20030238
- Cardiac output by Portapres®**
by M. S. Pitt, P. Marshall, J. P. Diesch and R. Hainsworth 407–412
Published as Immediate Publication 12 December 2003, DOI 10.1042/CS20030279
- Changes in pulmonary vascular function after acute methionine loading in normal men**
by C. O'Dochartaigh, H. Ong, S. Lovell, R. Donnelly, C. Hanratty, M. Riley, M. Frenneaux, I. Young and P. Nicholls 413–419
Published as Immediate Publication 6 January 2004, DOI 10.1042/CS20030383
- Increased plasma non-esterified fatty acids and platelet-activating factor acetylhydrolase are associated with susceptibility to atherosclerosis in mice**
by U. Singh, S. Zhong, M. Xiong, T.-b. Li, A. Sniderman and B.-B. Teng 421–432
Published as Immediate Publication 13 January 2004, DOI 10.1042/CS20030375

CORRESPONDENCE

- Estimation of central aortic pressure: shedding new light or clouding the issue?**
by I. B. Wilkinson and J. R. Cockcroft 433–434
Published as Immediate Publication 10 December 2003, DOI 10.1042/CS20030300
- Estimation of central aortic pressure by SphygmoCor® requires accurate peripheral pressure measurement**
by M. F. O'Rourke 434–435
Published as Immediate Publication 10 December 2003, DOI 10.1042/CS20030320
- Estimation of central aortic pressure by SphygmoCor® requires intra-arterial peripheral pressures: authors' reply**
by G. C. Cloud, C. Rajkumar, J. Kooner, J. Cooke and C. J. Bulpitt 436–437
Published as Immediate Publication 10 December 2003, DOI 10.1042/CS20030388
