REVIEWS

- Host-bacterial interactions in inflammatory bowel disease**
by Y. R. Mahida and V. E. Rolfe 331-341
Published as Immediate Publication 23 June 2004, DOI 10.1042/CS20040136
- Role of apoptosis in atherosclerosis and its therapeutic implications**
by V. E. A. Stoneman and M. R. Bennett 343-354
Published as Immediate Publication 1 July 2004, DOI 10.1042/CS20040086
- Mitochondrial DNA and aging**
by M. F. Alexeyev, S. P. LeDoux and G. L. Wilson 355-364
Published as Immediate Publication 28 July 2004, DOI 10.1042/CS20040148

ACCELERATED PUBLICATION

- Weight loss leads to reductions in inflammatory biomarkers after a very-low-carbohydrate diet and a low-fat diet in overweight men**
by M. J. Sharman and J. S. Volek 365-369
Published as Immediate Publication 20 July 2004, DOI 10.1042/CS20040111

PAPERS

- Tumour cell growth in culture: dependence on arginine**
by G. Caso, M. A. McNurlan, N. D. McMillan, O. Eremin and P. J. Garlick 371-379
Published as Immediate Publication 25 May 2004, DOI 10.1042/CS20040096
- Association study of the I/D polymorphism and plasma angiotensin-converting enzyme (ACE) as risk factors for stent restenosis**
by F. Ribichini, V. Ferrero, G. Matullo, M. Feola, A. Vado, T. Camilla, S. Guarrera, S. Carturan, C. Vassanelli, E. Uslenghi and A. Piazza 381-389
Published as Immediate Publication 21 April 2004, DOI 10.1042/CS20030380
- Diminished L-arginine bioavailability in hypertension**
by M. B. Moss, T. M. C. Brunini, R. Soares de Moura, L. E. Novaes Malagris, N. B. Roberts, J. C. Ellory, G. E. Mann and A. C. Mendes Ribeiro 391-397
Published as Immediate Publication 7 June 2004, DOI 10.1042/CS20030412
- Plasma from women with severe pre-eclampsia increases microvascular permeability in an animal model *in vivo***
by C. R. Neal, A. J. Hunter, S. J. Harper, P. W. Soothill and D. O. Bates 399-405
Published as Immediate Publication 9 June 2004, DOI 10.1042/CS20040018
- Carotid artery stiffening does not explain baroreflex impairment in pre-eclampsia**
by B. Mersich, J. Rigó, Jr, Z. Lénárd, P. Studinger, Z. Visontai and M. Kollai 407-413
Published as Immediate Publication 23 June 2004, DOI 10.1042/CS20040137

Invasive measurements of pulse wave velocity correlate with the degree of aortic valve calcification and severity associated with matrix metalloproteinases in elderly patients with aortic valve stenosis

by P.-Y. Liu, W.-C. Tsai, C.-C. Lin, C.-H. Hsu, Y.-Y. Haung and J.-H. Chen

415–422

Published as Immediate Publication 17 June 2004, DOI 10.1042/CS20040098

CORRESPONDENCE

Effect of intravenous heparin on serum levels of endostatin, VEGF and HGF

by L. Bhatia, G. J. Clesham and D. R. Turner

423

Published as Immediate Publication 2 July 2004, DOI 10.1042/CS20040160

Effect of intravenous heparin on serum levels of endostatin, VEGF and HGF: author's reply

by Y. Seko

424

Published as Immediate Publication 2 July 2004, DOI 10.1042/CS20040182
