REVIEWS

- Dipeptidyl peptidase IV and related enzymes in cell biology and liver disorders**
by M. D. Gorrell 277–292
Published as Immediate Publication 8 December 2004, DOI 10.1042/CS20040302
- Signal transduction in prostate cancer progression**
by D. Gioeli 293–308
Published as Immediate Publication 16 December 2004, DOI 10.1042/CS20040329
- Therapeutic potential of transdifferentiated cells**
by Z. D. Burke and D. Tosh 309–321
Published on the Internet 22 March 2005, DOI 10.1042/CS20040335

PAPERS

- Change in β_1 -adrenergic receptor protein concentration in adipose tissue correlates with diet-induced weight loss**
by M. Rasmussen, A. Belza, T. Almdal, S. Toubro, P. Bratholm, A. Astrup and N.J. Christensen 323–329
Published as Immediate Publication 1 December 2004, DOI 10.1042/CS20040238
- Inhibition of angiotensin-converting enzyme and phosphodiesterase type 5 improves endothelial function in heart failure**
by K. Hryniewicz, C. Dimayuga, A. Hudaihed, A. S. Androne, H. Zheng, K. Jankowski and S. D. Katz 331–338
Published as Immediate Publication 2 December 2004, DOI 10.1042/CS20040266
- Activated tumour necrosis factor- α shedding process is associated with in-hospital complication in patients with acute myocardial infarction**
by Y. Shimoda, M. Satoh, M. Nakamura, T. Akatsu and K. Hiramori 339–347
Published as Immediate Publication 17 December 2004, DOI 10.1042/CS20040229
- Beneficial effect of simvastatin and pravastatin treatment on adverse cardiac remodelling and glomeruli loss in spontaneously hypertensive rats**
by D. G. Bezerra and C. A. Mandarim-de-Lacerda 349–355
Published as Immediate Publication 21 December 2004, DOI 10.1042/CS20040292
- The endothelin-1 receptor antagonist bosentan protects against ischaemia/reperfusion-induced endothelial dysfunction in humans**
by F. Böhm, M. Settergren, A. T. Gonon and J. Pernow 357–363
Published as Immediate Publication 21 December 2004, DOI 10.1042/CS20040317

CORRESPONDENCE**Re-evaluation of the relationship between migraine and persistent foramen ovale and other right-to-left shunts**

by P. Wilmshurst, M. Pearson and S. Nightingale
