

Clinical SCIENCE

C O N T E N T S

REVIEWS

- NADPH oxidase and endothelial cell function**
by R. Ray and A. M. Shah 217–226
Published on the Internet 24 August 2005, doi:10.1042/CS20050067
- The vascular endothelial growth factor (VEGF)/VEGF receptor system and its role under physiological and pathological conditions**
by H. Takahashi and M. Shibuya 227–241
Published on the Internet 24 August 2005, doi:10.1042/CS20040370
- Role of resistin in obesity, insulin resistance and Type II diabetes**
by C. M. Kusminski, P. G. McTernan and S. Kumar 243–256
Published on the Internet 24 August 2005, doi:10.1042/CS20050078
- Genetics of Paget's disease of bone**
by A. Daroszewska and S. H. Ralston 257–263
Published on the Internet 24 August 2005, doi:10.1042/CS20050053

COMMENT

- Coronary flow responses to exercise training: further evidence of the benefit of an underutilized therapeutic modality**
by T. H. Marwick (see accompanying paper pp. 325–334) 265–266
Published as Immediate Publication 18 July 2005, doi:10.1042/CS20050212

PAPERS

- Effect of ischaemic preconditioning on regional release of inflammatory markers**
by T.-M. Lee, M.-S. Lin, C.-H. Tsai and N.-C. Chang 267–276
Published as Immediate Publication 18 May 2005, doi:10.1042/CS20050046
- Dietary iron deficiency induces ventricular dilation, mitochondrial ultrastructural aberrations and cytochrome c release: involvement of nitric oxide synthase and protein tyrosine nitration**
by F. Dong, X. Zhang, B. Culver, H. G. Chew, Jr, R. O. Kelley and J. Ren 277–286
Published as Immediate Publication 9 May 2005, doi:10.1042/CS20040278
- Modulation of lipid metabolism by n – 3 polyunsaturated fatty acids in gestational diabetic rats and their macrosomic offspring**
by N. A. Soulimane-Mokhtari, B. Guermouche, A. Yessoufou, M. Saker, K. Moutairou, A. Hichami, H. Merzouk and N. A. Khan 287–295
Published as Immediate Publication 17 May 2005, doi:10.1042/CS20050028
- Implications of decreased serum adiponectin for type IIb hyperlipidaemia and increased cholesterol levels of very-low-density lipoprotein in Type II diabetic patients**
by H. Yoshida, Y. Hirowatari, H. Kurosawa and N. Tada 297–302
Published as Immediate Publication 20 May 2005, doi:10.1042/CS20040353

- Inhibition of prostaglandin synthesis does not alter the decrease in pre-capillary resistance in the human calf in response to small cumulative increases in venous congestion**
by S. I. Anderson and M. D. Brown 303–309
Published as Immediate Publication 17 May 2005, doi:10.1042/CS20050113
- Failure of angiotensin II to suppress plasma renin activity in normotensive subjects with a positive family history of hypertension**
by H. Herlitz, E. Palmgren, B. Widgren and M. Aurell 311–317
Published as Immediate Publication 18 May 2005, doi:10.1042/CS20050055
- Effect of sildenafil and acclimatization on cerebral oxygenation at altitude**
by C. W. M. Chan, H. Hoar, K. Pattinson, A. R. Bradwell, A. D. Wright, C. H. E. Imray
and the Birmingham Medical Research Expeditionary Society 319–324
Published as Immediate Publication 3 May 2005, doi:10.1042/CS20050036
- Voluntary physical exercise and coronary flow velocity reserve: a transthoracic colour Doppler echocardiography study in spontaneously hypertensive rats**
by U. Hägg, J. Grönros, J. Wikström, I. H. Jonsdottir, G. Bergström and L.-m. Gan 325–334
Published as Immediate Publication 26 May 2005, doi:10.1042/CS20050052
- Triptan-induced contractile (5-HT_{1B} receptor) responses in human cerebral and coronary arteries: relationship to clinical effect**
by L. Edvinsson, E. Uddman, A. Wackenfors, A. Davenport, J. Longmore and M. Malmsjö 335–342
Published as Immediate Publication 26 April 2005, doi:10.1042/CS20050016
